And, behold, there are last which shall be first, and there are first which shall be last. — Luke 13:30

—o—o—

TAKING A TRIP July 4th?
 If so, you better have reservations made in advance. Also be sure your car is in good condition, start out early, take your time and watch the other driver. The men who know are saying that 500 fatalities will result from July 4th week end traffic accidents. Most of these will result from careless driving, not watching the road and speeding. The human element is responsible for most all auto accidents. Drive carefully — and defensively.

—o—o—

COME NEXT FALL the high school students in Texas will be taking more science. Also physical education is in for some de-emphasizing. New standards set up by the State Board of Education direct that: 1. Graduates complete 16 units of study, rather than the present 17 required by the state, including two years of laboratory science; 2. Physical education cannot be counted in compiling the units; 3. Not more than one class period per day may be used for competitive athletics. The new rules will take effect during the 1958-1959 school year, but are to be applied to ninth graders next fall.

—o—o—

INDEPENDENCE DAY brings to mind the question as to what makes great nations decline. H. W. Prentiss Jr., Chairman, Armstrong Cork Co., has this to say: "You can find the answer in history for in every case there seems to be a pattern — for the rise to success and the fall to failure. As I see it, the historical cycle has always run: From bondage to spiritual faith, from spiritual faith to courage, from courage to freedom, from freedom to abundance, from abundance to selfishness, from selfishness to complacency, from complacency to apathy, from apathy to fear, from fear to dependency, and from dependency back to bondage once more."

AT THE RISK of being called a prophet or putting a jinx on the team we would say that it seems possible that Lockney High School will have a pretty good football team this fall. This being the case good crowds are expected to attend the games. The problem faced by the school authorities is what to do about stadium space. When the home stadium was built some 8 or 9 years ago reserve seat space was sold for the entire center section for a 10 year period. Now many people who own these reserve seats have moved away, others have died and during any home game many of these seats go unused. Seems to us some plan should be made to re-assign the seats or require holders of these tickets to reclaim them so that those which go unused can be re-assigned to people who will use them. Whatever is done should be done soon because fall will be here before you know it.

—o—o—

ANOTHER PROBLEM is the east stadium, used by visitors. It is a patchwork of two or three small sections of seats. We hope this section can be replaced, rebuilt or improved in some way before fall. It isn't very attractive seating accommodations for visitors.

—o—o—

WILL WE EVER learn the lesson of working together? A community, a group of any kind, any sort or organization, can accomplish wonders and do great things simply by working together. Abundance of finances is not necessary. A genius in the group to direct the plans is not a requirement. The simple necessity is that the people in the community or in the organization work toward the same goal without jealousy, without envy, with consideration for all opinions and with a willingness to let the majority rule. An active interest in the part of the people involved is also necessary. When most of the group lose interest and the decisions are left to a few individuals, there is no going ahead. A community or a group can do great things by working together.

—o—o—

IT'S A CURIOUS thing but it seems the harder you work the luckier you become. — The Gleaner.

With Our EXCHANGES

NEW AND OLD
 Some people seem to think that the idea of the Welfare State—the notion that it is the duty of the Government to take care of the people—is a new concept.

As a matter of fact, it is an ancient concept and has been promoted as far back as history goes. Statism was practiced by the pharaohs in pre-Christian Egypt, by the Romans in the days of the Caesars, and by every other totalitarian government since. Always, it has led to destruction of personal initiative and the deterioration of civilization, says the Houston Chronicle.

The idea of individual freedom is a comparatively new concept which has found its highest development in the U. S. The fact that the U. S. has the highest standard of living of any nation in the world is proof that it works.

Why exchange the new for the old, especially since the old has been proved a failure? — Lubbock Avalanche

FORGIVING DECEIT
 Deceit may now leave its mark in the sands where my sandals will pass and it is no longer of consequence. I have grown tolerant of the unfaithful and the ambassadors of deception because truth and time will strip them of the worthless trinkets they have collected, my compassion reaches to the frontier of manhood and responsibility, but fails to enter my childhood. Try as I may to banish the hurt of crushed faith in claims and promises, it remains. One was

a picture projector, described in illustration and detail. Barefooted and weary, I worked in the sun for days and saved my pennies, worked and dreamed my boyhood dream. The long days of waiting and at last the hour of arrival, some painted tin and a piece of glass to carry a 16-mill. A material list shipped in brown paper to make a boy grow sick with disappointment. Tears. Some seem must remain on our heart forever. — Douglas Meador in Matador Tribune

Dear Editor:
 Looks like Congress is going to pass the civil rights bill so righteousness can commerce to prevail under the new authority the federalists will have to impound citizens who might be thinking on the subject of how to keep their neighbors from voting.

The attorney general will need a very large staff of mind-readers in order to monitor the thinking of 170,000,000 of us, but maybe he will share the information he gets so as to help curb other types of crime also.

For instance, the government's thought-watchers could put out every morning a list of who all is aiming to say, rob a bank or run a red light during the day, and the police could lock them up before instead of after the deed is done.

Long Ago In Lockney

Items of interest from the files of The Lockney Beacon.

July 7, 1927

The statements of the Floyd county banks show that the amount of money on deposit at this time and the amount of loans they have, puts the county in the best financial condition it has been in for years. The deposits of the four banks of the county, two at Floydada and two at Lockney, is \$2,254,485.32, while the loans amount to \$844,904.41.

The Ford Touring car that was given away by the merchants of Lockney last Monday, July 4th, was won by Mrs. Clyde Bennett.

A good rain fell Friday afternoon over a part of Floyd county, more than an inch being reported in Lockney and to the south and west of town. The rain was very light north of town and covered only a short distance northeast. Two miles west an extra heavy rain fell accompanied by hail that did considerable damage wiping out the cotton and wheat in a path about a mile wide and several miles in length.

Clyde Applewhite received serious and painful injuries Saturday night while cutting wheat when his foot slipped into the gears. He was greasing the machine at the time; his foot was badly mashed and the second toe was lost.

Deputy Sheriff E. Ray Smith unearthed a brewery last Sunday afternoon in the breaks below the cap and got the man operating it at the same time. Construction in the Lockney

area is picking up a pace. The extra all-tween Lockney and Plains, Texas, A. E. Slator, are developing new townsite.

An auction will be held 22-23 to sell townsite in Lockney, Texas, A. E. Slator, are developing new townsite.

July 6, 1940
 Captain Aubrey McCall of Rev. C. J. McCarty, former pastor of the Methodist Church here, has been serving in the Air Force for some time. He was the son of Mrs. Ben Reese and Mrs. Ben Reese, brother to Loma Reese, Mrs. Charlie Cross.

Three local men were June list of trustees for Selective Service for the month. They were Earl Jarrett, L. Blackman, and land H. Sams.

Floyd County has paid E bond quota for the War Loan drive by approximately \$23,000 and is over 900 it was announced week.

Miss Bettie Simpson, daughter of Mr. and Mrs. Simpson, and Johnny Tulla, were married last the home of Mr. and Mrs. Monroe in Silverton.

Thomas A. Edison was missed from a job as a man for sleeping while duty.

A NEW HIGH IN PERFORMANCE!
 Higher octane! Higher power! A new gasoline that brings out the best in today's more powerful engines!

Phillips 66

Announces a New Higher Performance FLITE-FUEL

Now Phillips 66 brings you its new FLITE-FUEL with the higher octane and higher power you need to get peak performance out of any car. Not only new cars, but older cars, too, will benefit from the remarkable performance qualities of this higher-powered FLITE-FUEL. It's blended for local driving conditions. It's the only gasoline containing added Di-isopropyl. It has extra high octane for smoothness and long mileage. It's clean burning, so it needs no anti-fouling additive. Fill up with new FLITE-FUEL at your Phillips 66 Dealer's and discover a new high in performance!

In Sorghum Under High Plains

The grain sorghum and strains tests conducted by the High Plains Station, U.S. Research Foundation, are designed to determine which varieties and hybrids are best adapted to High Plains conditions. One hundred and thirty (30) standing ability tests and strains of 100 are included in the program at the station. The program is the work of Dr. J. B. Reeser, who is in charge of the High Plains Station staff. Fifty varieties have been planted in four row plots and long with each treatment for four times. The rows of the four varieties will be harvested to determine the yield. The four separate plots will be used in determining the value of the variety. One hundred forty (40) strains of grain sorghum are included in the program tests. Each strain has been planted in different strains of the farm. Included are many varieties not yet introduced varieties that have not been introduced into the High Plains. The most promising varieties will be selected for further testing in the future. The results will be better than the present varieties and hybrids now planted in field acreage. These grain sorghums in the High Plains Station are the plants listed in a good stand.

Access Road Built
 An access road has been constructed east and west of the center of the 310-acre High Plains Station. This road connects a north to south road in the middle of the field. This road will make observation trips to the various plots much easier for visitors to the station.

The radar storm network brought into a State Division of Disaster Relief Bureau, and the Department of Public Health operates in 18 key Texas.

Sorghum Underway High Plains

The grain sorghum variety and strains tests conducted at the High Plains Station of the Texas Research Foundation at Halfway are designed to determine which varieties and hybrids are best adapted to the High Plains conditions. Major items to be studied are (1) production, (2) maturity, and (3) standing ability.

One hundred ninety varieties and strains of grain sorghum are included in the research program at the station. R. C. Peeler, President of the Grain Sorghum Producers Association, announced, after conferring with the station staff.

Fifty varieties have been planted in four row plots 100 feet long with each treatment repeated four times. The two center rows of the four, in each plot, will be harvested to determine the yield. The average of the four separate plots will be used in determining the value of the variety.

One hundred forty-six varieties and strains of grain sorghum are included in the observation tests. Each of these 146 has been planted in four different sites at the 310 acre farm. Included are many new or untried varieties and hybrids that have not been used extensively in the High Plains.

The most promising of these will be selected for further plot testing in the future and may turn out to be better than varieties and hybrids now planted.

Ten varieties have been planted in field acreage for comparison. These are the ten grain sorghums in most common use in the High Plains. All the plantings listed are up to a good stand.

Access Road Built

An access road has been constructed east and west through the center of the 310 acre High Plains Station. This road which bisects a north to south road in the middle of the site, will make observation and field trips to the various projects much easier for the many visitors to the station.

The radar storm warning network, brought into being by the State Division of Defense and Disaster Relief, the Weather Bureau, and the Texas Department of Public Safety, now operates in 18 key Texas areas.

Conservation Plans Made For The Great Plains Area

Temple — State Conservationist H. N. Smith of the U. S. Soil Conservation Service today announced plans to take quick action to put into effect the stepped-up Great Plains program in this state.

Administrative responsibility for and leadership in the Great Plains program was recently placed on the Soil Conservation Service by Secretary of Agriculture Ezra T. Benson.

Smith pointed out that Secretary Benson's order provided for the combining of the resources of the Department of Agriculture's various agencies in a step-by-step process for making long-time adjustments in land use, cropping systems, and in the treatment of cultivated lands and range, under the climate hazards of the Great Plains.

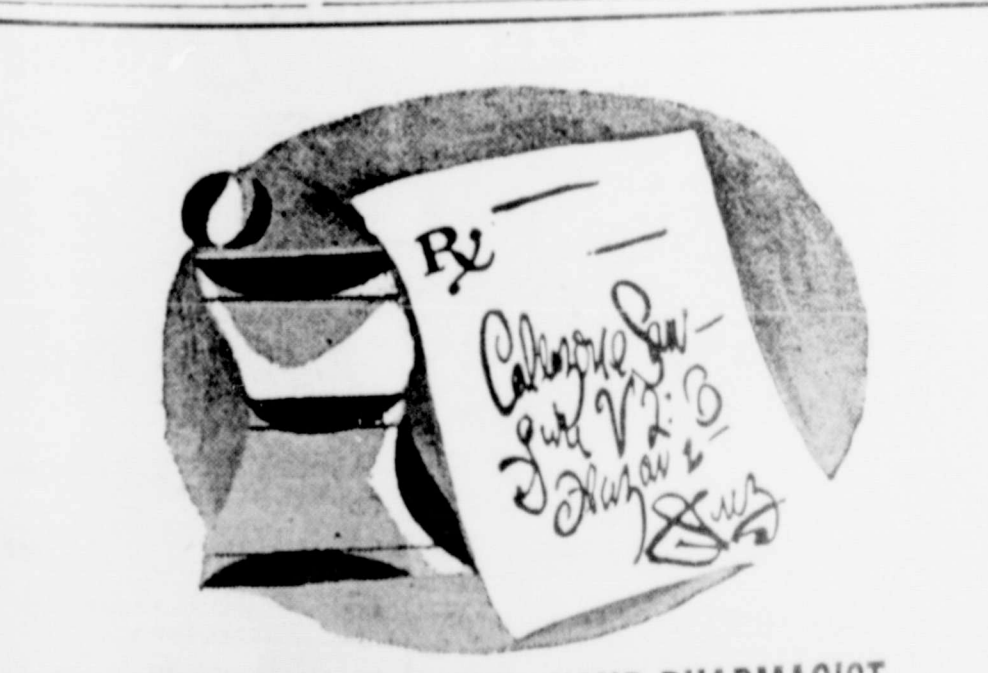

The Great Plains program, brought into being by Public Law 1021 only last August, is designed to give farmers and ranchers, in the Great Plains area of the 10 involved states, both immediate and long-range help in the use of their land within its capabilities. Smith pointed out.

He explained that Public Law 1021 authorized an appropriate

TEXAS STARS... A special all-Texas Navy recruit company forms the Lone Star on their arrival at Great Lakes Naval Training Center where they will undergo nine weeks of intensive training. The Texans will pay tribute to their state during Texas week, July 1-7, at the Great Lakes Navy Homecoming.

tion of not over \$150 million for a 15-year period. Funds to aid farmers and ranchers are expected to be available after July 1, 1957. Expenditures may not exceed \$25 million in any one year.

The program will apply in counties to be designated by the Secretary of Agriculture in portions of Colorado, Kansas, Montana, Nebraska, New Mexico, North Dakota, Oklahoma, South Dakota, Texas and Wyoming. "The continued drought in these states has emphasized the need for such a program to help develop a more stable farm and ranch economy in this region," Smith said.

Wind erosion conditions in the Great Plains area of Texas are serious with 403,000 acres damaged during October and November. Approximately 6,500,000 acres in a 68 county area of Northwest Texas are in condition to be damaged by wind erosion this winter and spring, Smith announced.

He emphasized that the Great Plains program is not an annual or disaster-type program nor does it replace any other existing agriculture program.

"This is a way to an enduring agriculture based on the capabilities of land and geared to the climatic hazards that we all know are ever-present in this important area," he said. "It is not a production adjustment or an income supplement program. It is a voluntary program with long-term assurance of needed financial help for a complete soil and water conservation plan applied to individual farms and ranches."

"The program," Smith added, "will point up the responsibility of local people in fitting their agriculture to the capabilities of the land and the hazards of climate. This responsibility is shared by farmers and ranchers, soil conservation districts, county committees, county commissioners and by all other groups, urban and rural, interested in the economy and the development of their home areas."

Wayland Mission Band Going To Canada Soon

Plainview. — To assist Southern Baptist churches in Canada seven Wayland Baptist College students and Dr. E. P. Maddox, their sponsor leave August 7 for a three weeks trip. Going will be: Delbert Serratt, Sudan, president of the Volunteer Mission Band; Roma Brewer, Tahoka; Shelby Baucum, Idalou; Beulah Savage, Devine; Betty Martin, Ropesville; Betty Isham, Sunray; Leslie Thompson, Plainview.

All are members of the Wayland Volunteer Mission Band and experienced in witnessing putting on religious dramas, helping with Vacation Bible Schools and musical programs. Baucum is music-education director of First Baptist Church, Happy.

Arrangements for Canadian appearances are being made by Rev. Jeff McBeth, formerly of Plainview and a Wayland graduate, who is now pastor of Argyll Baptist Church in Elberton, Alberta, Canada. They will also go to other places in Elberton, from which Bill Goebel, an August graduate, and Charlie Jinks, a 1955 graduate, came to Wayland. On their

CROSS ROADS REPORT

Dear Editor:

I see where the Department of Health, Education and Welfare wants money for a federal advisory council on the arts, so as to encourage artistic efforts and appreciation among the common people.

I guess it's true that lots of us need more culture and, like Pres. Ike says, whatever we need we had ought to have whether we can pay for it or not.

But my unpolished neighbor says culture is sort of like the itch. Them without it are happy, and them with it can't rest until they have scattered it around everywhere.

Ponies Can Now Be Restocked With Fish

The long-dry tanks and ponds of Texas farms and ranches—most of which are now filled with water from recent rains—can be restocked with game fish — Senators Ralph Yarborough and Lyndon Johnson have announced.

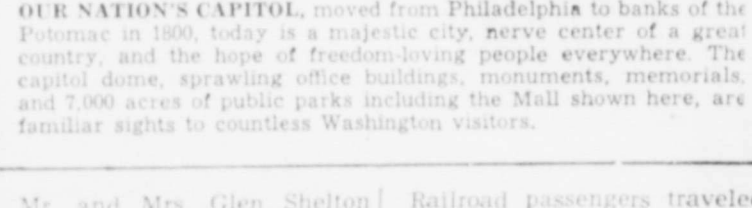

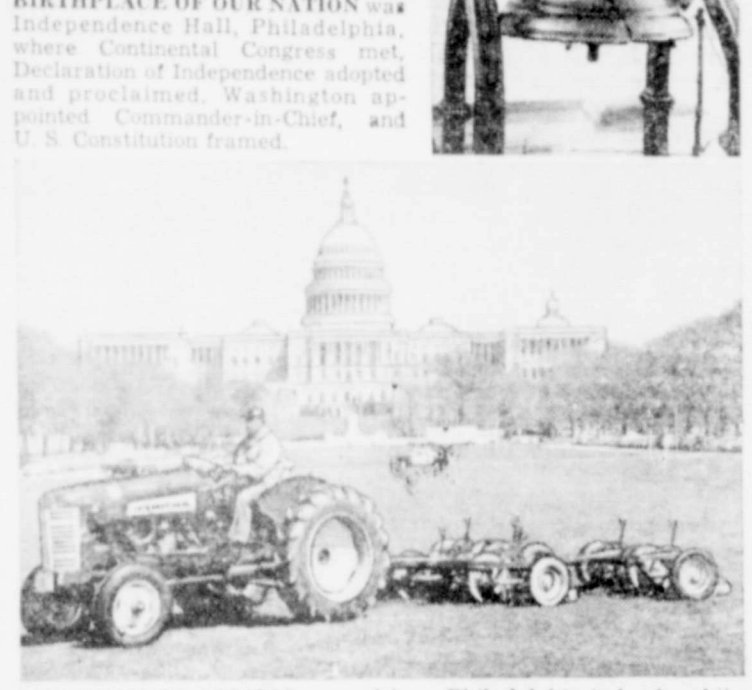

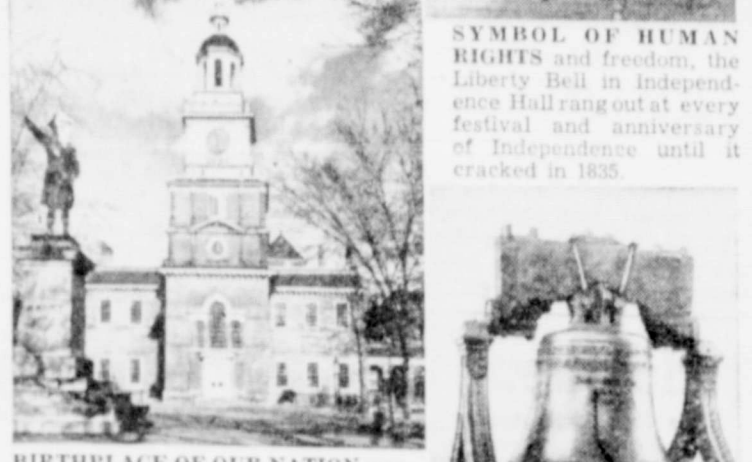

The two Texas senators said they had been informed by the U. S. Fish and Wildlife Service that "fish for restocking are available and orders can be filled without delay."

This is the procedure for securing fish, as outlined by the Texas senators by the Fish and Wildlife Service:

1. The land owner makes application for the fish from the federal fish hatchery nearest him. There are five federal hatcheries in Texas, at Austin, Fort Worth, San Marcos, Burnet and Uvalde.
2. The application is sent by the hatchery to a regional office at Albuquerque, N. M., for processing.
3. Upon application approval, the fish are delivered.

Mrs. J. M. Mayfield spent the July 4 holiday here with her parents, Mr. and Mrs. J. R. McDonald.

U.S.—Bulwark of Freedom

BIRTHDAY OF A FREE NATION as the Declaration of Independence was presented to Congress in 1776. Contrary to popular belief, instead, the Act by which the original 13 states broke colonial allegiance to Great Britain was approved by Congress July 2, proclaimed on July 4th, and signed at various times up to Nov. 4.

SYMBOL OF HUMAN RIGHTS and freedom, the Liberty Bell in Independence Hall rang out at every festival and anniversary of Independence until it cracked in 1835.

BIRTHPLACE OF OUR NATION was Independence Hall, Philadelphia, where Continental Congress met. Declaration of Independence adopted and proclaimed. Washington appointed Commander-in-Chief, and U. S. Constitution framed.

OUR NATION'S CAPITOL, moved from Philadelphia to banks of the Potomac in 1800, today is a majestic city, nerve center of a great country, and the hope of freedom-loving people everywhere. The capitol dome, sprawling office buildings, monuments, memorials and 7,000 acres of public parks including the Mall shown here, are familiar sights to countless Washington visitors.

S. Plains Gridders On Tech Line-Up

Lubbock → Former South Plains gridders would dominate Texas Tech's probable starting lineup if the Red Raiders were to open their 1957 season this week.

Coach DeWitt Weaver's pre-season top eleven includes ends Gerald Seeman of Fort Worth and Pat Hartsfield of Lubbock, tackles Jim Henderson of Lubbock and Billy Woodin of Roaring Springs, guards Charlie Moore of Lubbock and Lynn Elliott of Houston, center Jack Henry of Floydada, quarterback Floyd Dellinger of La Vega, halves Milton Vaughn of Littlefield and Jimmy Knox of Gramam, and fullback Charlie Dixon of McCamey.

To help bolster the right guard spot, weakened by the departure of Floyd Hood of Wellington through a freak injury and by the loss of two others through grades, Weaver has moved Texarkana College grad Ray Campbell from center and Ed Strickland of Pampa from end.

Hood, one of the Southwest's leading linemen, pulled two vertebrae apart when he lifted

THE LOCKNEY BEACON, LOCKNEY, TEXAS, JULY 4, 1957

his six-months old, 20-pound son this month and cannot play again.

Veterans May Lose Social Security

Disabled veterans who fail to apply for Social Security disability payments at age 50, and rights to old-age and survivors insurance payments for themselves or their families in the future.

When a veteran becomes disabled and unable to work, there is a gap in his Social Security record, that will cause his future Social Security benefits to

be reduced or completely lost. If he applies to have his record frozen, the gap in his record because of his disability will not count against him in figuring his Social Security benefits at age 50 or the benefits to his family in case of his death.

If an eligible veteran applies before June 30, his record can be frozen as of the time of his disability. This applies to veterans of World War II and the Korean Campaign.

County Service Officer D. G. Ayres announces that he will be glad to assist veterans in filing applications for the disability freeze.

DUNLOP "MATCHED SET" SAFETY

SAFETY — a new peacetime atomic process that assures thickness and uniformity, now puts "Matched Set" into Dunlop tires. This means that every tire in "matched set" of four has equal strength, balance and features. No overweight tires to run hot, break and blowout. No fear of ply separation and premature wear from underweight tires. With four Dunlop tires MADE TO MATCH... you'll get greater safety, longer life on every wheel. And, because Dunlop tires are uniformly balanced, you'll enjoy positive steering control, a smoother, more comfortable ride. Be sure your tires are "matched" by Dunlop... at no extra cost.

Notice To Cotton Farmers!

According to information from the Internal Revenue Service, beginning this year — 1957 — an employer of an agricultural worker must report and pay social security on said worker if he pays him \$150.00 or more per year cash wages or the worker performs agricultural labor for him on 20 or more days during such year for any amount of cash wages computed on a time basis.

However, under the law, the farmer may enter into a written contract with the "Crew Leader" for the labor he wants done and in this way the "Crew Leader" assumes responsibility for the collection of the taxes and maintenance of records, thus relieving the farmer of this responsibility.

We have these blank contracts at our office for your convenience.

Hi-Plains Gin Company
RAYMOND SMITH, Mgr.

Mr. and Mrs. Glen Shelton and family visited friends here the first part of the week. Mr. Shelton is the son of Jim Shelton, who farmed in this vicinity years ago. Glen did not graduate here but was a member of the class of 1938. He was looking up class mates. His father now lives at Sun Valley, California.

Railroad passengers traveled 28 and a half billion miles during 1956.

Here's why Chevy's best showroom is the road!

Because Chevrolet's sleek good looks, its advanced features, are only part of the story. The big bonus is its remarkable roadability, the crisp precision handling that has posted an entirely new standard for cars in every price class. There are reasons for this, of course: Chevrolet's balanced weight distribution that takes excessive loads off the front wheels, the wide stance of outrigger rear springs, Ball-Race steering, spherical-joint front suspension. Sure, you can admire the sculptured lines in the showroom. But Chevy's a car specifically designed for beautiful motion—you have to travel in this one to know just how terrific it is. Try it, this week!

A Sketch Of The Senior Trip

By Katie Rucker

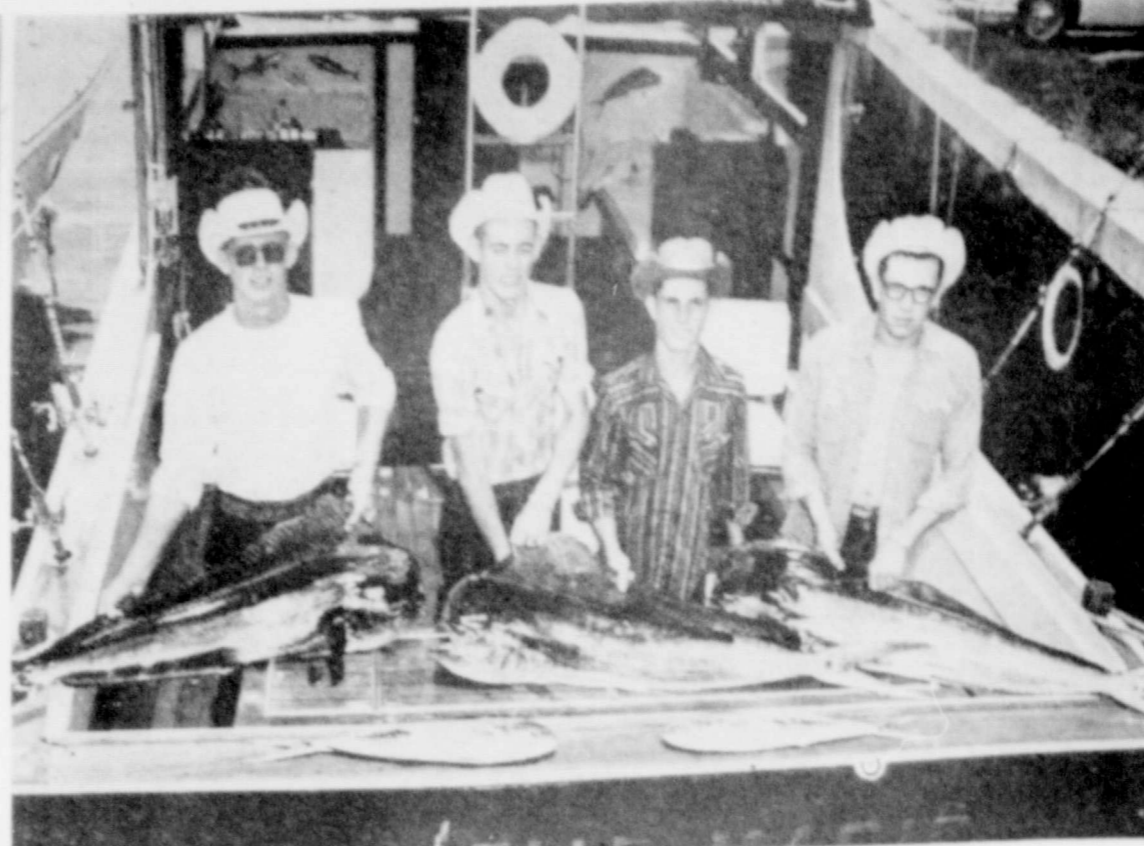

On June 1st at 12:01 a. m. a group of happy and anxious Seniors left Lockney High School with only one thought in mind — to get to Miami, Florida. After driving all night the group finally arrived at Shreveport, Louisiana at noon on Saturday. That night the Seniors and their sponsors attended the "Louisiana Hayride" in which Paul Ray Williams represented the class in a musical contest.

Early the next morning we began the long trip to Montgomery, Alabama. Many interesting historical sights were seen along the way. The next day we caught our first sight of Florida sunshine. Arriving at Saint Augustine, Florida at 5:00 p. m., the Seniors couldn't wait to get their toes in the salty water of the Atlantic.

That night and the next day the group took various kinds of tours of the "oldest city in the United States."

We caught our first view of Miami, Florida, the next day, arriving there about 6:00 p. m. The next four days were spent in many interesting and enjoyable ways. Some took tours, viewing the seagullarium, the airport and many other sights. Others went deep sea fishing, others deep sea diving, water skiing, and of course swam in the ocean. Some of the boys rented M. G. sports cars, in which they toured the city as they wished. The Seniors enjoyed Miami so much that they decided not to make the trip to Key West.

Leaving Miami on Saturday, June 8th, we began to see the sights that make Florida so famous. Cypress Gardens was the first stop. We saw the skiing show and took in the sights of

SENIORS HAVING FUN — Several boys on the Senior Class trip took time out to go deep sea fishing and brought back the evidence. Shown here with their fish are, left to right, Jerry Workman and his 38 pound bull Dolphin, Marvin Weiss and Jerry Mickey with a 37 pound bull Del-

phin they caught together, and Roland Watson with his 40 pound Dolphin. These, along with some smaller fish, were their catch on the first day out. They went out again the next day and Jerry caught a 31 lb. Dolphin on a 12 lb. test line. It was at Miami Beach the boys went fishing, going 17 miles out into the Atlantic on a charter boat, "The Michelle Marie." Captain was Johnny Bulk.

On the second day out, the above four were accompanied by Morris Meriwether and the bus driver, Elbert Horton. —Photo by Doris N. Barnes.

IN COLOR

All the savage spectacle — all the earth-quaking terrors of the killer horde — of the Philippines — the most savage guerrilla war on earth — see the sea of fire — the savage torch attack.

Also **CARTOON**

the beautiful gardens. The next stop was at Silver Springs, famous for its underwater springs and numbers of fish. That night the bus rolled into Tallahassee about 10 p. m.

The next day we spent making the long trip to New Orleans. Arriving there about 4 p. m. we went to the famous amusement park, Pontchartrain Beach. The next day was spent touring the city. We saw the French quarters, the many cemeteries and cathedrals and many other famous sights.

Leaving New Orleans the next day we made the long trip to Dallas, stopping at Baton Rouge, the capitol of Louisiana. We saw the beautiful capitol building. That night about 9:00 we rolled into Dallas.

The Seniors arrived home at 4 p. m. Wednesday and there was never a happier group to see the city limits of Lockney. Thus ends the last school year for the Seniors of 1957 and each one wants to thank you, the people of Lockney, for being so kind and generous these many years.

Sterley News

By Mrs. Virgil Adams

The Sterley Home Demonstration Club will meet Friday afternoon, July 5, at 2:30 in the M. A. Boone home. The program will be "Why Cotton?" Ball call will be answered with "I Like Cotton Because..."

Mrs. J. H. Stringer is visiting her daughter, Molly Ann, who is in Austin completing her nurse's training. Mrs. Stringer will also visit her son, J. Stringer, at Taylor, Texas.

Mr. and Mrs. M. A. Boone visited with Mr. and Mrs. L. M. Boone and family in Childress last week.

The J. B. Webster family recently returned from a two-week vacation. They visited his parents in Wheeler and her parents in Amarillo. Her mother, Mrs. Trajillo, spent last week with them.

Mr. and Mrs. G. P. Nelson had their granddaughters visiting with them last week.

Mr. and Mrs. T. J. Hobb's two grandchildren are visiting with them from Amarillo this week.

Mrs. Robert L. Smith returned recently from a 10-day trip to Ruidoso, N. M.

Mrs. Tommy Montandon was in Lubbock on business Monday.

Mr. and Mrs. T. J. Mathis visited in Amarillo last week with her brother's wife and family.

Mrs. Pete Anderson is visiting in the O. D. Parker home.

Mr. and Mrs. L. A. Anderson and family, Lubbock, were guests Sunday in the T. J. Mathis home.

Mrs. Jean Taylor, Amarillo, spent the week end with her father, J. H. Stringer.

Rev. Rex Newkirk spent the week end here. He is attending school in Dallas and returned there Monday.

Dinner guests in the Johns Cox home Thursday evening were E. C. Cox, Highland, California; Mr. and Mrs. Pepper May and Bruce; Mr. and Mrs. Fred Ivy, Sheila and Dale; and Plainview, Misses Lanell Johnson and Lovilla Cox.

TO TULSA

Diann and Debra Woodburn who have been visiting here the past two weeks with their grandmother, Mrs. Lula Woodburn, were taken to Tulsa, Oklahoma Saturday, by their great aunt and uncle, Mr. and Mrs. Clyde Dunn, Kermit. Mr. and Mrs. Dunn spent Friday here with her sister, Mrs. Woodburn. Parents of the young ladies are Mr. and Mrs. Pat Woodburn, Ft. Morgan, Colo. They will visit in Tulsa with their maternal grandparents, Mr. and Mrs. L. A. Bell.

INTO ARMY

Donnie McGowan, son of Mr. and Mrs. "Bud" McGowan of Lockney, left Monday for Fort Carson, Colo., where he will spend eight weeks in army basic training. He recently volunteered for army service. Following basic, Donnie will be sent to helicopter school at Fort Eustace, Virginia.

Matador Loses Farm Loan Office To Floydada

Matador. — Efforts to effect economy in the operation of national farm loan associations is causing Matador to lose an agency operating here almost a quarter of a century. The Association is being grouped with the Farm Loan Agency, effective July 1. Rumors of the merger have been circulating for months. Jake B. Wainwright, secretary of the association, will continue to serve as secretary of the MNPLA for the next half year, but no plans, other than to be declared.

And I Quote . . .

"Nothing changes the direction of a man's thinking quicker than spading up fishing worms while digging in the garden." — Bill Vaughn.

"To train children at home, it's necessary for both the parents and children to spend some time there." — Quote.

"The huge national debt our younger generation will inherit should keep them from one indulgence — ancestor worship!" — Walls St. Journal.

"Many a husband will question his wife's judgement, but never in her choice of a spouse." — Bob Haymes.

Jimmie Howell Gets Award At Camp

Kerrville. — James Stanley Howell, 15, of Sterley climaxed his stay here at the unique Texas Lions Camp for Crippled Children Friday night by participating in the awards night ceremonies.

At the camp's finale, each youngster received a neckerchief stencilled with symbols of the activities he has enjoyed.

During the two weeks here, each camper had the opportunity to swim, camp out overnight and take part in all sorts of sports and craft activities while making friends with youngsters from all over Texas.

The camp orates six two-week summer sessions and is free to any handicapped child in the state from 7 through 16. Fifteen permanent buildings — including a new air-conditioned infirmary and a duplex for staff members — rest 504 hillside acres.

Cardinals To Hold Tryouts At Lamesa

The St. Louis Cardinals will stage a baseball tryout camp at Lobo Park in Lamesa on July 9, 10 and 11, it was announced today by Farm Director Walter Shannon.

Veteran talent scouts will be on hand each morning at 10 a. m. to eye the young hopefuls. The tryouts are open to all players between 17 and 23.

"This is a big break for the players in the area to show their baseball ability and get a start in professional baseball," commented Shannon, a former player and scout.

"Mind you," continued Shannon, "we don't expect polished players to show up at the Lamesa camp, but we're looking for young fellows with definite big league potential. The Cardinals have the baseball know-how and many years of success in developing players into big league players. An ambitious, talented player will get every chance with us to make the big time if he has what it takes and really works hard."

A player must bring his glove, baseball shoes, and a uniform if he has one. All other equipment will be furnished by the St. Louis Cardinals.

First use of the abbreviation U. S. A. was to stamp approval on barrels of gunpowder made at a mill near Frankfort, Pennsylvania, for Washington's Army.

Cone Lake To Be Drained With 18-Inch Pipeline

Crosbyton. — Cooperation between the road contractor, the State Highway Department and Crosby County is remedying a situation that has periodically put a portion of the Cone community under water, according to Jack Henry, Precinct No. 3 Commissioner.

The rains of April and May caused the water level in the surface lake on the north edge of Cone to rise to the highest peak in the history of the community. Church yards, the gin, a service station and several residences found themselves surrounded by water.

Highway 62 through the town is undergoing a reconstruction and widening job, and the contractor was unable to complete the work until the lake went down. He placed a pump on it with surface pipe leading to a nearby draw, but little visible progress was being made in the drainage attempt.

Mr. Henry first contacted the contractor, who agreed to dig a 3,600 foot ditch from 10 to 16 feet deep to drain the lake into the draw. He then got in touch with highway officials, including Marshall Fosmy, chairman of the Texas Highway Commission, and secured an agreement for the state to pay for the 18-inch pipe to be used. Crosby County has agreed to do the ditch after the pipe is laid.

THE KIDDIE'S KORNER . . .

ANOTHER GROUP of kiddies of the area are shown here. These pictures were made in The Beacon Office recently by a professional photographer. This group includes, top row, left to right, Dinah Bern, 6-year-old daughter of Mr. and Mrs. Albert Bean of Route F, Lockney; Mike Elliott, 3-year-old son of Mr. and Mrs. J. C. Elliott, and Pamela Hope, 5-year-old daughter of Mr. and Mrs. Douglas Reeves of Route Q, Lockney; bottom row, left to right, Rhonda Jean, 2 1/2-year-old daughter of Mr. and Mrs. Ray Gene Carthel; Pamela Kaye, 2-year-old daughter, and James Edward, 7-year-old son of Mr. and Mrs. Paul Teuton.

Sheriff's Sale

There will be a PUBLIC AUCTION of the farm machinery and tools belonging to Bud Dean on July 10, 1952.

Some of the equipment and tools which will be offered to the highest bidder for cash are:

- August 22 — Hammond & Co. vs. Lockney Beacon.
- August 23 — Floydada vs. South Plains; Providence vs. Fire Department.

Dear Editor:

I see where the senate voted \$30,000 out of the public till so their private restaurant wouldn't have to raise the price of bean soup.

But just as soon as the restaurant management got this money appropriated, they went ahead and jacked up the soup price a nickel a cup anyhow.

Our local committee on national affairs is now expecting that since the senator's bean soup went up from 20 cents to a quarter, they may feel justified in voting themselves an equivalent 25 per cent raise in salary.

D. E. SCOTT
Crossroads, U. S. A.

vs. Hammond & Co.; Providence vs. South Plains.
