FARMERS WAIT FOR GROUND TO DRY AFTER SNOW STORM

Farmers of the area are waiting impatiently for the ground to dry sufficiently to get into the fields following a snow storm Thursday night. A few combines ran Monday and Tuesday but for the most another day or two of sunshine will be required before fields will be dry enough to hold up the heavy machinery.

Adding to all the other unfavorable weather this area has experienced this fall, snow started falling Thursday afternoon and fell most of the night. The fall here totaled between 3 and 4 inches which amounted to probably less than a half inch of moisture. But that on top of the already wet ground made fields softer than they have been in some time. It was probably the "wettest" half inch of moisture seen here this fall.

The sun came out Friday and has been shining regularly since with most of the snow gone by Sunday. Temperatures also hit a low for the season falling to slightly below zero early Saturday morning. The warm-up started Saturday and continued Sunday with the thermometer getting back to about normal by Monday.

There was some fear that the snow would load down the grain sorghum heads and cause the grain to fall more than it already has, but apparently this did not happen. There was no reports of grain damage from the snow. However farmers are apprehensive of winds that might strike now. The cold weather killed the stalk completely and a wind now would certainly blow down much of the standing grain.

Some Grain Cut
A few farmers took advantage of the hard frozen ground Sunday morning to cut grain but were able to keep going for only a few hours. Some combines ran Monday on ground that was not too muddy. Especially around Irick, Aiken and Sterley quite a bit of grain was cut. Moisture content on the grain is going down and averaged from 15 to 16 per cent Monday, elevator men said. Some reported some "good" 14 per cent grain Monday. Only about one-third of grain crop is cut, The Beacon was told, and another two to three weeks of steady work will be required to get most of the crop cut.

Cotton Still Slow
Very little cotton has been ginned since The Beacon's report last Wednesday. Some pullers were in the fields Monday but most farmers are waiting to strip and gin men say that is 10 days to two weeks off. The cotton probably was not damaged to any great extent by the snow but grades were already low due to rains in previous weeks.

Winter Wheat Good
Bright spot on the agricultural horizon was the winter wheat crop. Elevator men say that a good part of the crop has been sowed and it is up and looking very good. The excessive moisture this fall will, of course, be very beneficial to the wheat.

The snow storm Thursday night not only stopped the harvest of crops but caused the local schools to be dismissed for Friday.

Larry Baker Dies Late Tuesday

Great Plains Soil Conservation Program Ready in Floyd County

The Great Plains Conservation Program in Floyd County is ready to move. Approval by the State Program Committee of a list of soil-stabilizing, moisture-saving practices for the county was announced by Aubrey W. Dalrymple, who as leader of the Soil Conservation Service staff is chairman of the Floyd County Program Committee.

Also approved were the rates at which the federal government will share the cost of installing the practices. These rates, based on average cost of the work in this county, range from 50 to 80 percent of the total cost of installing each practice. Cost-share rates for Floyd County have been worked out by the county program committee and submitted to the State Program Committee headed by State Conservationist H. N. Smith as chairman.

Dalrymple said that the approval of practices and cost-share clears the way for first applications. The purpose of the Great Plains Conservation Program, Dalrymple explained, is to develop an agriculture that resists the weather extremes that are a constant hazard in the Plains area. This will contribute to a more stable economy.

"The county Program Committee is looking forward to enthusiastic response to this opportunity," Dalrymple said. "We have moisture now and that means an opportunity to make a good start on this program. Our records in this county show that there's drought somewhere in the Plains each year. When moisture is good is the time to get ready for the years when conditions are less favorable."

"Indications are that several farmers and ranchers in this county are ready to take advantage of this chance for real help in getting a conservation plan on their farm or ranch," Dalrymple added.

Foundation of the program is a complete soil and water conservation plan for each farm or ranch. The farmer or rancher agrees to establish all needed measures in his plan within a period of not less than three nor more than 10 years.

Dalrymple pointed out that when the farmer or rancher becomes a party to the contract the money for the government's share of the cost is set aside for his part of the program. Congress, in providing for the launching of the program, authorized \$150,000,000 for a 10-year period, but specified that not more than \$25,000,000 will be spent in any program year. Appropriation for the first kick-off year was \$10,000,000.

A total of 233 counties in the 10 Great Plains States has been designated by Secretary of Agriculture Ezra T. Benson for the program. Members of the County Program Committee, in addition to Chairman Dalrymple are: Brentz L. Breed, Chairman of Floyd County ASC Committee and Jack Cassah, Supervisor of the Farmers Home Administration. Also participating in the committee's work are County Agent Cecil Lewis, Gilbert Fawcett, R. G. Dunlap, Fred Jackson, Cecil Purcell and Bert Bobbitt.

A. C. P. Funds Are Available
Floyd County has a small amount of money available to install concrete pipe, apply cotton burs or any other A. C. P. Also participating in the committee's work are County Agent Cecil Lewis, Gilbert Fawcett, R. G. Dunlap, Fred Jackson, Cecil Purcell and Bert Bobbitt.

Lockney-Seymour Clash In Regional Game Friday

Lockney's mighty Longhorns will play the role of underdogs for the first time this season when they tangle with the powerful Seymour Tigers in Snyder High School Stadium Friday night at 7:30. The two teams will be fighting for regional honors and the right to continue playing for the state AA championship.

Lockney carries a ten won, no loss, one tie record into the game. The Longhorns' hopes stayed alive last week when they squeaked past the improved Dimmitt Bobcats by the margin of 14 first downs to 12 first downs for Dimmitt. The score in the bi-district battle was knotted at 13-13 and penetrations were tied at two each. The big Seymour eleven won their bi-district game with Perryton, 13-6, and enter the game with a ten won, none loss record. The Panthers won their district, 4-AA, with a stirring 19-0, triumph over defending state champion Stamford. Stamford's rugged crew was given a good chance to repeat as AA titleholders.

The Seymour club has been mentioned by many as the next AA champion. Seymour, who boasts a huge line, is primarily a running team. The Panthers rate as one of the best outfits in the state and are definitely the roughest team encountered by the Longhorns. The 4-AA champs have a line that averages 189 pounds per man. Seymour has a pair of large tackles, 206 and 233 pounds, and a heavy 224 pound center.

The Panthers, mainly because of their size, have a strong defensive unit. They are very adept on pass interceptions. The two halfbacks and big, 184 pound fullback share ball carrying duties. Halfback Larry Martin, who scored two touchdowns against Perryton last week, is probably the best back.

Lockney and Seymour have played no common opponent, making the teams hard to compare. However, the Longhorns downed Slaton, 25-0, and Stamford beat Slaton, 26-0. Seymour outscored Anson, 34-21, and Lockney won over Spur, 34-13. Anson and Spur played to a 0-0 tie early in the year. Longhorn Coach Rudy Haile stated that he had confidence that his boys could whip Seymour. Coach Haile said the team would be ready for Seymour because they knew they had to win this one to stay in the fight for the state title.

Anticipation of the big game is running very high this week in Lockney High School. The Student Council has proclaimed this "Beat Seymour Week." Coach Haile said that Dimmitt was "really fired-up" in the bi-district game and wanted revenge for the earlier, 32-0, loss suffered at the hands of Lockney. It is a definite disadvantage to play a team twice in one season.

Lockney and Seymour officials met in Childress at 10:30 Saturday morning to agree on a playoff site and time. Supt. H. H. Nicholas, Coach Rudy Haile, and High School Principal F. M. Smith represented Lockney. Snyder Stadium is reported to have a seating capacity of from 5,000 to 7,000.

Farmers Union Adopt Several Resolutions

The Floyd County Farmers Union adopted a number of resolutions to be presented to the state convention in the county meeting last Thursday evening. Bad weather prevailed and the crowd was light but the business of the meeting was carried out, President Kenneth Wofford said.

Among the resolutions adopted were these:
1. Urging repeal of the law applying to sliding scales on cotton price supports and the immediate establishments of 100% parity with loan basis on 7-8 inch middling cotton. Also urging that light spot cotton and plus cotton be considered as separate grades and carry a different loan rate.
2. Urging the installation of machinery to provide uniform humidity conditioning of cotton samples at all cotton classing offices.
3. Urge break-down of large cotton classing offices into small offices located closer to the area they serve.
4. Urging repeal of the law applying to sliding scales on grain sorghum support prices and continue efforts to have feed grains receive the same treatment as basic crops and 100% parity support prices.
5. Oppose any form of federal or state sales tax.
6. Continue the gasoline tax refund law.
7. Urge stricter controls be placed on certification of planting seeds in Texas.
8. Favoring 27 1/2 per cent depletion exemption on income taxes to cover crops raised by underground water irrigation.
9. Favor placement of underground and surface water on an equitable basis with industry and domestic use.
State Secretary Richard Alexander of Denton spoke to the sparse crowd and two representatives of Blue Cross insurance were also present and spoke.

Special Buses

A number of special buses will make the trip to Snyder Friday for the regional football game between the Lockney Longhorns and the Seymour Panthers. Business men and other local fans have contributed most of the money necessary for chartering a special Texas New Mexico and Oklahoma bus for the football team, coaches and managers. The school will pay a small portion of the cost. The bus will leave soon after noon Friday for Snyder.

Two special buses for the Longhorn Band are being considered. At a Band Parents meeting Monday night, it was decided that if all parents of band members would pay their dues to the Club, enough money would be available to charter the buses for the band. Dues are \$2.00 per person or \$4.00 for both parents. Some extra seats on the second bus will be sold to band parents to help pay for the bus. The buses will leave Friday at 2:30 p. m. If funds are not available for the chartered bus the band will travel to the game by school bus.

Chartered TNM&O buses for fans are being arranged and it appeared Tuesday that at least two buses will make the trip to Snyder. Local Agent Clyde Breyer at Lockney Drug Co. said that the fair will be \$4.21 per person, any age. However to get the bus reserved fares must be paid by Wednesday afternoon. Mr. Breyer said. The money must be on hand before the bus company will consider the bus chartered. Fares are to be paid at Lockney Drug and if the number is insufficient to charter the bus, all fares will be returned, of course. The bus will leave here about 4 p. m. Friday.

The high school pep squad will make the trip by school bus, according to plans Tuesday. Two buses will go and will leave about 3 p. m.

Pep Rallies

A pep rally with both students and fans invited will be held in the business section Wednesday afternoon at 3 o'clock. Supt. H. H. Nicholas said Tuesday. The entire student body will be present and all the business people and other fans are urged to attend and boost the Longhorns on to victory over Seymour.

A gigantic pep rally-bonfire is also planned for Thursday evening at 7 o'clock. The pep rally-bonfire, sponsored by the Student Council, will be two blocks north of the band hall. Students, businessmen, and all other Longhorn boosters are urged to be present. The Longhorns can beat Seymour and stay in the race for the state AA championship if everyone will get behind them.

To Be Broadcast
Station KVOP, Plainview, will broadcast the Lockney-Seymour game starting at 7:15 p. m. Friday. Local sponsors of the broadcast are Lockney Drug Company, Baxter & Smith Grain Co., Rowland-Gordon Oil Co., Brunner Lumber Company, Handley Shop & Pump Co., "Whitey" Baccus Motor Co., Pylant Grocery & Market and First National Bank.

High school students wore red and white this week and the pep squad is selling red and white booster caps. Future Teachers Association is selling booster ribbons this week.

Holley Named On Grain Sorghum Study Group

The possibilities of expanding the agricultural and industrial utilization of Grain Sorghums was the chief topic of concern at a recent meeting at the Hilton Hotel in Plainview. The conference, which was arranged by Loyan Walker, of the West Texas Chamber of Commerce Agricultural Division, was attended by fourteen invited farm, business, industry, and research individuals interested in grain sorghum production or utilization. Walker indicated that this initial conference was of an exploratory nature and that a joint utilization committee backed by both the West Texas Chamber of Commerce and the Grain Sorghum Producers Assn. was appointed to further develop a broad program related to the potentials for expanding agricultural and industrial uses of sorghum grains. This committee is headed by Bill Nelson, Exec. Vice-Pres. of the Grain Sorghum Producers Assn. Others, in addition to Walker named with Nelson are: Dr. N. W. Kramer, Leader of Sorghum Investigations, Texas Agricultural Experiment Stations; R. F. Holland, DeKalb Agricultural Assn.; Dr. Harold Loden, Paymaster Farms; Claud Holley, Exec. Vice-Pres.; First National Bank of Lockney; Dr. Gerald Thomas, Research Coordinator for West Texas Agric. Exp. Stations.

Frank Moore, a Hale County farmer and director of the Grain Sorghum Producers Assn., pointed out that any program designed to expand the use of grain sorghums must be back-

ed by a balanced agricultural program which would include legislation conducive to orderly production and marketing as well as individual and community wide efforts in water conservation, market quality preservation and farm management practices. He indicated that grain producers realizing this need for a balanced approach to the agricultural situation are backing a self-help program of research, market development, and legislation through a 2 pound per thousand deduction of grain from their deliveries through the county elevator. One-hundred-two grain elevators in a 17 county area as assisting their farm customers in these efforts.

After studying available information relative to research on grain sorghum, the group concluded that research relative to breeding and production practices have been commendable but investigations into marketing and utilization potentials have been generally neglected and need immediate attention if grain sorghum sales are to keep pace with the expanded production capabilities.

LONGHORNS TAKE "FIRST-DOWN" WIN OVER DIMMITT

FIRED-UP BOBCATS HOLD LOCKNEY TO 13-13 TIE

Lockney Longhorns took a hard-fought bi-district win over the fired-up Dimmitt Bobcats Friday night in Bulldog Stadium, Plainview. The Longhorns won the thrilling game by chalking up 14 first downs to 12 first downs for Dimmitt; the contest ended in a 13-13 tie and penetrations were even at two each.

The win enabled Lockney to continue in the state playoffs and play ever-tough Seymour for regional honors Friday night at 7:30 in Snyder.

The Bobcats grabbed a 7-0 lead in the first period and held a 7-6 halftime lead. The Big Red controlled the ball most of the third quarter, scoring their second touchdown with seven seconds to play in the third stanza.

Some 1500 chilled but excited, fans looked on as the Dimmitt eleven, aided greatly by a pass interference penalty, drove 92 yards to score with 5:44 remaining in the final quarter to knot the contest. Big John Hanst, Longhorn captain, broke through the Bobcat forward wall to block the extra point attempt and preserve the victory.

Dimmitt owned the ball on Lockney's 41 as the game ended.

Speedy little halfback Jerry Williams sparked the Longhorn attack. Williams scooted around right end for 19 yards to score the Big Red's second tally. Jarring fullback Dickie Barton, the Longhorn workhorse, drove eight yards to score the first touchdown and added Lockney's extra point. Barton appeared to have crossed the double-stripe in the first extra point attempt, but officials ruled that he had not made necessary yardage.

The Longhorn attack moved fairly well in the second and third periods, but the Big Red offensive bogged down in the first and fourth quarters. Lockney's highly-touted defense kept the Dimmitt running attack checked most of the game, but the Bobcat passing attack clicked for 140 yards.

The game was played in nine to twelve degree weather.

Summary of the game:

Dimmitt won the coin toss and elected to receive. Lockney chose to defend the south goal. Hanst's kick traveled to the 18, but was returned to the Dimmitt 32. Lockney took over on their 30. Barton charged for 3, 3, 1, and Race punted to the Bobcat 21. The ball was returned to Dimmitt's 30.

Barton picked up 4, Race kept for 3, Williams pushed for 2, Race punted to the Dimmitt 34.

Dimmitt's star, Keith Lowe, returned the ball nicely to Lockney's 25 to set up the first touchdown. The Bobcats were charged with an offside penalty; two passes fell incomplete and on fourth down, quarterback Truman Touchstone passed to Lowe for 30 yards and

a Dimmitt touchdown. Lowe kicked the point and Dimmitt went ahead 7-0, with 3:28 to play in the first stanza.

Cliff Hardy returned the kick 1 yard to Lockney's 17. Williams broke for a first on the Longhorn 34, Kenneth Calloway, right halfback, ripped for

Postmaster Sets "Mail Early" Drive
 Predicting that the Christmas mail this year will set an all-time record, even exceeding the record set in 1956, Postmaster Jeffie Griffith announced her 1957 "Mail Early For Christmas" Campaign today.
 With Christmas only a little more than a month away, the Postmaster reminds us, "It's later than you think." Most folks have a tendency to wait until December rolls around before they give their Christmas mailing plans a thought.
 The Postmaster further suggested that right now is the time to take the following steps: Check your Christmas card lists very carefully—make sure that each address includes the full name, street and number, city, zone and state.
 He said, also, that it is a good idea to stock up on heavy wrapping paper, sturdy corrugated cartons, strong card, and paper adhesive tape for use in securely packing and wrapping your Christmas gifts. If you'd like to include your Christmas card or letter inside your gift package, just add the appropriate First Class mail postage to the postage for the package itself; thus, insuring simultaneous arrival of your gift and greeting.

FROM THE County Agent's Office
 By Cecil Lewis and Lynn Pittard

Floyd County has held their Annual 4-H Achievement Banquet and we would like to extend congratulations to all the boys and girls for the outstanding work they have completed in this past year.
 Good quality cotton planting seed may be in short supply in 1958, so plans should be made for securing planting seed early.
 Here are some suggestions for storing cotton seed. Check the seed for damage and store seed with a high germination, (80% per cent is very good). Seed saved for bulk storage should contain less than 12% moisture. Small quantities of seed should be turned and sacked.
 In checking for germination, 30 tests should be made until the seed have been stored at least 30 days which is the normal rest period of freshly ginned seed.
 We have a list of certified cotton seed producers in Texas available in the County Agent's Office for any one interested in locating some.
 Here are some questions and answers about the new Texas Egg grading law.
 Question: Under what conditions will I as a producer have to have a license?
 Answer: If you claim a grade.
 Question: What is meant by grade?
 Answer: Grade consist of weight and quality, for example Grade A large.
 Question: As a producer do I have to sell my eggs on grade?
 Answer: No.
 Question: As a producer selling directly to consumers, can I label my eggs "fresh" jumbo eggs, new laid, fresh hennery, or other words of such import, regardless of grade?
 Answer: Yes, you are exempt from this provision of the law.
 Question: Can I sell to retail stores cartoned eggs labeled fresh jumbo eggs, new laid and other words of such import without regard to grade?
 Answer: Yes. However, the retailer is not exempt from this provision and would be in violation if he offered for sale eggs fresh, jumbo, etc., below the grade of A.

Nov. 22-28 Is Farm-City Week

By Soil Conservation District
 The week of November 22-28 has been designated as "Farm-City Week." Saving the soil will save the Main Streets of Lockney and Floydada.
 Every American, every farm, ranch and village, town or city is dependent upon the soil. Soil made poor and unproductive through erosion and loss of plant food means a loss to you, wherever you live, whatever you do.
 Bankers, merchants, professional men, newspapers and Chambers of Commerce, certainly all landowners, farmers and ranchers, have a vital stake in the proper use and conservation of our land, for saving the soil is saving the Main Streets of America.
 Lets keep these conservation facts in mind:
 1. The better we produce the better we live.
 2. Soil and water conservation is the best insurance for your land.
 3. Soil conservation is one of the "musts" in modern farming.
 4. For future prosperity, soil conservation is the answer.
 5. We can conserve and improve our land while using it.
 6. Conservation farming is efficient farming.
 7. Soil is the basic of all wealth.
 8. Like money in the bank, soil and water conservation pays off for everybody.
 9. Soil security is the best security.
 10. Soil and water conservation builds a better community.
 If you are a businessman, it is your duty as a good American to support your local Soil Conservation District.
 If you are a farmer or rancher, see your local technicians of the Soil Conservation Service located in the Agriculture building in Floydada about a complete soil and water conservation plan for your farm or ranch.

Why use two when one will do?

You'll do better to protect your motor with this one all-weather oil than to change from heavy oil to light oil according to the season.

Phillips 66 Trop-Artic THE ALL WEATHER MOTOR OIL

Users of TROP-ARTIC All-Weather Motor Oil never have to worry about using different grades of oil at different seasons of the year. TROP-ARTIC is a light oil and heavy oil in one (grades 10W through 30). Furthermore, it lubricates and protects your motor far better than any of the old-fashioned "single grade" oils.

The reason is that TROP-ARTIC never gets too thick or too thin. In a cold engine it flows quickly for easy starting. In a hot engine it retains the "body" necessary to prevent wear. It reduces friction to save you gasoline. It keeps your engine clean. Compared to old-fashioned oils it can even double engine life. South Plains

By Mrs. Murray Julian

School will be dismissed Wednesday for Thanksgiving holidays, and be resumed Monday morning, Dec. 2. Friday there was no school at South Plains because of the snow storm.

Despite the freezing temperatures and snow Thursday evening, the Floydada Whirlwind Band with many members from here went to Lubbock for the marching contest, and won a first division rating with Abernathy in the class AA competition.

Bill Beedy visited his brother, George Beedy near Plainview Wednesday and found him able to be around some with the aid of a cane, or holding to a chair. Neighbors are glad to find him improving in health day by day.

Sleet and driving snow started here Thursday about 5 p. m. and continued into Friday. Some farmers cut grain until darkness and snow drove them indoors. They are trying to combine while fields are frozen. Over six inches of snow was reported in our section.

Thanksgiving services will be held at the Baptist Church Wednesday at 7:30 p. m. Remember on Dec. 1, that the Annual Children's Home offering will be taken. The heating unit is repaired at the church, but due to bad roads only 40 were present for Sunday morning services. Hymn night will be held at Quitaque Baptist Church on December 2, with theme "Our Baptist Heritage."

Mr. and Mrs. Murray Julian and Bruce spent Saturday in Post visiting Mr. and Mrs. Richard Althof, Carolyn and Harold, of Roscoe. Mrs. Althof had spent the past week in Columbus, Georgia, visiting Mr. and Mrs. Terry Julian.

Mr. and Mrs. Albert Scribner of Olton were guests of Mr. and Mrs. Grigsby Milton Sunday, helping the Miltons celebrate their 19th wedding anniversary.

Womens Missionary Union was held Monday afternoon at the church with Mrs. L. T. Wood presiding. Members voted to send Thanksgiving CARE packages to displaced persons in Germany. "A Man Called Peter" was studied with Mrs. Karr in charge of Bible Study. Present were Mmes. L. T. Wood, Bryan Karr, Walter Wood, Thomas Pierce, Sim Reeves, Dock Jones, Murray Julian, John Smitherman, Larry Faus, Shelby Calahan, and Grigsby Milton. GA met at 4 at the schoolhouse with counselors, Mmes. Pierce and Julian. Girls present were Beverly Pierce, Barbara Sue Milton, Beth Calahan, and Kethy Mulder. WMU will meet Dec. 2, for Royal Service at the church.

Mrs. John Key West will be hostess for a pre-nuptial bridal shower honoring Miss Louise Pritchett December 3, from three to five p. m. Miss Pritchett will be wed December 14 to Robert Olin Turner of Floydada, in a home wedding at the home of her parents, Mr. and Mrs. E. P. Pritchett.

An important telephone meeting was held at the school house in South Plains at 8 o'clock Tuesday night. Bell Telephone officials met with those in the southeastern and north

part of our area, and although the original cost of having the telephones put in will be quite considerable, they spoke in a favorable vein as to getting telephone service soon.

Mr. and Mrs. Fred Fortenberry spent Saturday in Tulla. They went to Vigo Park and got her sister, Mrs. Elvin Hutson and family and had dinner with their mother, Mrs. N. C. McCain in Tulla.

Miss Bonnie Upton and Karl Craig will be wed Thanksgiving Day, Nov. 28, at the Joseph A. Hill Chapel in Canyon, where they both are attending college, and many friends, neighbors and their parents will be in Canyon for the event which will take place at three o'clock in the afternoon.

Skeet Thornton went deer hunting in south Texas over the week end, returning home Tuesday. Mrs. Thornton visited her children while Skeet was away.

Katherine Mulder went to the Pitts Hospital Sunday suffering with an attack of flu. Since she is to be in the wedding party of Miss Bonnie Upton Thursday, we are hoping she will be out and able to attend. She is to go home Tuesday.

Wednesday afternoon from 1:30 to 5:30 WMU members and guests met at the church for a mission book review "Continent in Commotion." Mrs. Murray Julian gave the review. During intermission coffee and cookies were served by Mrs. Shelby Calahan, Mrs. John Smitherman, and Mrs. Larry Faus. Present were Mmes. Larry Faus, John Key West, Shelby Calahan, Frank McClure, Grigsby Milton, Bryan Karr, H. S. Calahan Jr., John Smitherman, Sim Reeves and Murray Julian.

Dinner guests of Mr. and Mrs. Fred Fortenberry Sunday were Rev. and Mrs. Richard Brewster and baby, Dorothy.

Mrs. Murray Julian the past week end, Bonnie Upton also of WTSC was home Saturday night visiting her folks, Mr. and Mrs. Raymond Upton.

Mrs. Fred Marble was feted Friday at a pink and blue shower in the home of Mrs. Frank McClure at three o'clock. Mrs. Ernest Smitherman registered guests. They were greeted by Mrs. McClure, Mrs. Marble, her mother, Mrs. W. O. Tye, and Mrs. H. L. Marble, her mother-in-law.

The serving table was decorated in pink and white. White linen cloth covered the table which was centered with a tree laden with little baskets trimmed with ribbons, and holding baby dolls. The arrangement stood beside a stork. Pink candles lighted the table.

Mrs. Beedy served white cake squares topped with ABC's. Miss Juanell Wood presided at the punch bowl.

Hostesses for the occasion were Mmes. Frank McClure, John Key West, Sim Reeves, Harry Hartman, Raymond Reeves, Raymond Upton, George Weast, I. H. Parks, L. T. Wood, Albert Stewart, Bill Beedy and Ernest Smitherman.

The hostesses gift was a folding high chair. Many friends and neighbors presented gifts during the afternoon.

Mr. and Mrs. Frank McClure went to Silvertown Sunday afternoon to visit Mr. and Mrs. Willie Weast.

Loys D. Barbour, Iowa Park, secretary-treasurer, revealed Tuesday that the organization ended its fiscal year with a membership of 72,680, the largest in its history.

In a report to the opening session, Barbour said that figure represented a gain of 2,521 members over 1956 and marked the fifth consecutive year for the state's largest farm organization to show a gain.

He said the present membership figure represented less than 50 per cent of the 182,000 commercial farmers classified in the 1954 agricultural census.

County Farm Bureaus were honored for outstanding achievements in membership work during the past year at recognition ceremonies Tuesday.

Awards were presented to the county having the largest membership, the one with the biggest percentage increase in membership during the year, and the county with the largest percentage of its farmers enrolled in Farm Bureau.

The top membership award for the county with the largest membership in the state—went to Hidalgo County for the third consecutive time and the fourth time in five years. The South Texas county had a total of 1,839 members at the end of the fiscal year on Oct. 31.

The Silver Loving Cup, which is awarded each year to the county Farm Bureau with the biggest percentage increase in membership, went to Culberson County with an increase over last year of 188 per cent.

Kleberg County, with 202 per cent of its commercial farmers enrolled in Farm Bureau, retained custody of the High Plains Plaque which it received last year.

In addition to the awards, meritorious certificates were presented all counties having at least 60 per cent of their farmers signed up in Farm Bureau.

Heading a slate of nationally-known speakers was Gov. Price Daniel who addressed the convention Tuesday afternoon. Other speakers were John C. Lynn, Washington, D. C., legislative director, American Farm Bureau Federation; Louie E. Throgmorton, Dallas, vice-president of Republic National Life Ins. Co.; and Jeff Williams, Chickasha, Okla., lawyer-humorist-philosopher.

Andrew Carnegie, industrial tycoon and philanthropist, came to this country from Scotland at the age of 10.

Stay-At-Home Night Interest Growing

Interest is mounting in the "Stay-at-Home Night" set for December 10 and sponsored by Lockney Parent-Teacher Association as a financial project, according to Henry Ford Jr., PTA president.

Mr. Ford states that the P. T. A. Executive committee appreciates the cooperative spirit with which the community has entered into the project and with the continued cooperation of the public the effort will be successful. It is hoped that this will raise sufficient funds to carry out PTA projects throughout the year and if so, no other money raising project is planned.

The PTA also thanks school patrons who have substituted for teachers who have visited other schools in the interest of gaining helpful ideas to be used in the local classrooms.

Dog Poisoning Hits Lockney

A number of dogs have been poisoned in Lockney recently, according to reports reaching The Beacon office. Raymond Smith lost a registered English setter recently by poison and other dogs have died, it was said.

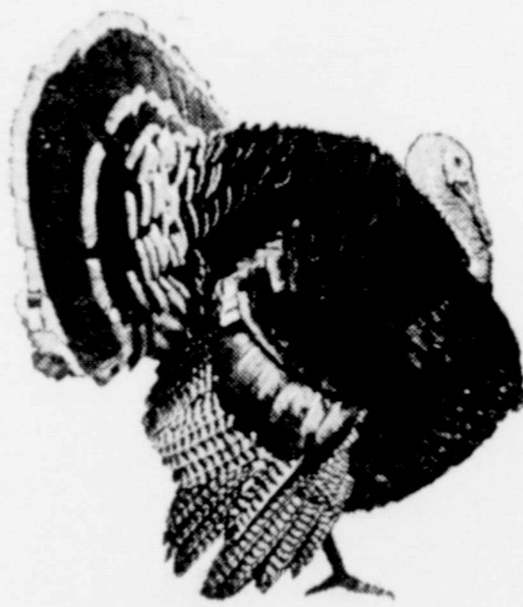

Some 30 dogs have been poisoned in Plainview recently. A Plainview organization was reported to be offering \$250 reward for information leading to persons who spread the poison in this area. The Beacon was told.

**Arterburns Express
 Thanks To Ladies**

The Beacon has been re-
 quested to run the following
 note of thanks from the Arter-
 burn family in order that all
 who helped may read it:

Trinidad, Colorado,
 November 13, 1957.

To the ladies of the Method-
 ist and Baptist Church:
 This note is a difficult one
 to write. How does one say
 thank you for the gracious
 overtures of friendship made
 to our family at a time of suf-
 fering and sorrow? Words are
 weak, empty, and inadequate
 to express the deeper emotions
 and inner feelings. Apprecia-
 tion of your deeds can only be
 held in the heart.

My husband, mother and I
 were riding together. Somehow
 we became separated from the
 other cars. Thinking we were
 far behind, we did not stop to
 eat. However, we were happy
 to have the delicious lunch and
 refreshing coffee to share in
 the home of my uncle, where
 we spent the night. Sharing
 that lunch with those dear to
 us meant more than eating it
 alone.

Please accept our simple
 thanks for all you did in the
 name of friendship. May God

bless each one of you.

HALF TURKEY TALK

Half turkeys, weighing 8 to
 13 pounds, may be roasted over
 a mound of dressing at the
 same time and temperature
 recommended for a whole bird.
 That means a large half tur-
 key will bake in four to four-
 and-one-half hours in a oven
 set at 325 degrees. The rack in
 the baking pan should be cov-
 ered with aluminum foil so the
 stuffing can be transferred
 easily to the serving platter.

A TRIBUTE . . .

Tribute to our heroic forefathers who suffered unequalled hardships for the freedom which they loved so well . . . and a day set aside each year so that we may say "Thanks Friends" to those whose generous patronage has been ours. We're happy to be a part of this great country and community.

Brown's Cleaners & Clothiers
Brown's Department Store

For the Lord is good; His mercy is everlasting and His truth endureth to all generations.

— 100th Psalm —
—oO—

THE ORIGINAL purpose of Thanksgiving by the Pilgrims was to give thanks unto God for the blessings of the harvest, of course. Most Americans have gotten away from the thought when Thanksgiving comes around and take it mostly as a mere holiday from work and a chance for extra recreation or visiting. It would be better for this country of ours if we could get back to the original purpose — that is, take time to express our thanks unto God and worship Him for His blessings.

MANY OF US complain and grumble because things aren't as good as they were last year or the year before. We get used to a very high standard of living and we never want to let go of it. But we all have much to be thankful for if we would just stop and take stock of our blessings.

SHELTER or HOME is certainly something to be thankful for. Most everyone has a comfortable place to live, a shelter against the elements of the weather. Do you ever stop to thank God for a comfortable place to sleep when you get into bed at night. Millions of people don't have it.

THE FAMILY we belong to is a blessing to most of us. It is good to know that there are those who care for you regardless of what happens, those who are vitally concerned about your welfare, those whose lives are tied in with your own. What if no one in the world cared whether you lived or died. It is a blessing to have someone who cares. In many parts of the world people live who would never be missed if they died tonight.

FRIENDS are a blessing that anyone can have if they want it. Most of us want friends. It would be a bore existence if a man had no friends.

WE SHOULD be thankful for material blessings. We have plenty to eat, from one to four automobiles at every home, luxuries the rest of the world will probably never have. Someone has said two-thirds of the world go to bed hungry every night, when in the United States the problem is over-eating.

FREEDOM OF WORSHIP is another blessing not shared by all the world. Anyone in America can go into the church of his choice and worship as he sees fit without fear of interference by authorities. It is a blessing for which often time we fail to give thanks. When we return Thanksgiving to its original purpose we will cure many of the ills of America.

With Our EXCHANGES

COULD THIS STATES RIGHTER WIN TODAY?

"Let us suppose that a Southern born statesman is nominated for President on a platform containing the following which he says is a law to his party and to himself:
"Resolved, That the maintenance inviolate of the rights of the states, and especially the rights of each state to order and control its own domestic institutions according to its own judgment exclusively, is essential to that balance of power on which the perfection and endurance of our political fabric depend; and we denounce as lawless invasion by armed force of the soil of any state or territory, no matter under what pretext, as among the gravest of crimes."

And let us suppose that the candidate says: "Holding it now to be implied constitutional law that the federal government shall never interfere with the domestic institutions of the state, I have no objection to its being made (by amendment to the Constitution) express and irrevocable."

Would such a candidate, on such a platform, after making such statements, carry a single Northern State?

Such a candidate was nominated on such a platform; he made such statements, and he carried every Northern State.
The candidate was Abraham Lincoln. — Ben W. Boyd, Associate Justice, Second Court in Civil Appeals, in the Fort Worth Star Telegram.

SEGREGATION

Speaking of Integration and Segregation that has the country topsy, turvy, it is going to be a tough problem to solve and is not going to be done as fast as the National Association

for the Advancement of Colored People thinks it will. This has been tried in other countries of the world. Segregation is practiced in many of them between races. Take India for instance. They have their Untouchables segregated from the other castes of that country. They have been segregated for more than 3,000 years. Ten years ago a movement was started and laws passed to integrate the various castes, more especially the untouchables. It has been absolutely a flop. When the law is attempted to enforce there is an uprising of the other castes and blood shed results along with burning villages, homes and all manner of destruction and havoc throughout India. It is practically impossible, except in Russia, to enforce a law where a majority, and especially a large one at that, are not in sympathy with it, be it in India, or the United States, and we are afraid Chief Justice Warren and some other members of the Supreme Court, Attorney General Brownell, V. Pres. Nixon and Sherman Adams are going to find it out. — Petersburg Journal.

PIOUS PEOPLE

I keep running across editorials and into people who profess to know, without a shadow of doubt, what Christians propose to believe or do. In some instances, these self-same people have never studied the Bible, attended Sunday School or Church services, or in any way, support those who make an attempt to be Christian. It reminds me of the Scripture, which relate there will be a time when the sons of satan will run about the earth bringing accusations against the sons of God.
These accusers do not know, nor care to look into facts of Christian teachings or examine what the Christian believes or knows to be true about himself and all men.
Those who sit in judgment

AT THANKSGIVING TIME . . .

It is appropriate that we should pause in our many duties at this time of the year to express our thanks. We are indeed mindful of our many blessings, among which is the privilege we have of serving you. We hope that our pleasant relationships may continue for many years and that your blessings might be as many as ours.

KNOX GROCERY & MARKET

R. L., BOB and all the Force

A Christian professes only that he loves God. That love doesn't, over night, change his appetite or ways in a world system designed contrary to Christian precepts. He has to contend with what he feels is right on one hand and self preservation in this society on the other.

No where is the non-Christian called brother. No where is the Christian admonished to lay down his faith least it insult the senses of a non-believer. No where is any man or group of men given the right to judge the acts of Christian followers. This power alone rests in the hands of Christ, and any man who assumes that authority will come under the judgment he merits.

To attempt to appease communists and non-believers alike was never intended by Christ. So it is not the judgment of rights, acts, thoughts and ways of a people, but an endeavor to keep peace among people until the Spirit of Christ can bring about a change in those people, and woe to him who deliberately destroys that peace. — Cecil Waggoner in Claude News.

Dear Editor:
I see where the U. S. treasury is fixing to bleed about half a million dollars worth for some poor Western European lads who are short of money to go to school.

My caustic neighbor says this is a very noble thing the spendocrats are doing with our money, and if they would look around a little they could also find some American youth who have been priced out of college.

But he guesses the politicians have some troud rule which won't let them use government money to help the school-hungry kids whose daddies they took it away from.

HOW SMALL, YET HOW BIG

How small a man seems—walking down a lonely road on a rainy day, with gaunt trees towering over him.

How small man is, and how frail in body. The trees in the picture and even the chimneys on the old house will probably long outlive the man.

Yet how big man is—in the things that are not of the body, but are of the mind and soul. God has not made man mammoth. But He has made him potentially great—if he will but accept the blessings given him, and use the tools of Christian teachings.

Man finds in the Church, the encouragement and the instruction to enable him to make from his God-given divine spark something great and enduring—and of benefit to all human-kind.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake (2) For his children's sake (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Moore Is Given Fifteen Years

Floydada. — William Lennis Moore, 42-year-old father and stepfather, yesterday pled guilty in 110th District Court to assault with intent to rape and was assessed a penalty of 15 years in the state penitentiary.

Moore was indicted in October by the Floyd County grand jury on two counts, rape and incest. His alleged victim was a 25-year-old stepdaughter.

Before his plea was entered the court reduced the charges to the lesser offense. He had been in jail without bond since the indictments were returned.

The trial opened at 10:30 and was over in about 30 minutes. Three witnesses were heard and a statement made to the district attorney by the defendant was introduced into the record.

The witnesses were the alleged victim of the defendant, Sheriff W. D. Hollums and Deputy Sheriff Ray Hardin.

The 15-year sentence was entered on the recommendation of District Attorney John B. Stapleton. The defendant waived filing a motion for new trial and the sentence was pronounced forth with.

The defendant is due to be delivered to the superintendent of the state prison by the Floyd County sheriff immediately.

Cedar Oil Test To Be Re-opened

Floydada. — With the re-opening of the abandoned hole at Ralph Abbey No. 1 Howard on Section 23, block GM, GC&SF Ry, survey, northeast of Cedar Hill last week-end the wildcat hunt for oil and gas had testers at work in a four-county triangle in Hale, Floyd, Motley and Dickens Counties.

Meanwhile another test for an outpost well in the expanding Roaring Springs field was also announced last week. and out of Matador comes the news that Magnolia Petroleum Company has assembled a 27,000 acre block in eastern Motley and western Cottle counties.

Of the lot the more sensational is the effort of new owners to make a well of the Howard test at Cedar. This test, 21 miles northeast of Floydada, is said to be seeking production at more than one level according to local report.

This test has been re-named Amarillo Oil and Baker-Taylor Drilling Company No. 1 Howard.

Tye & Sons, local drillers with a contract to clean out the old hole to the bottom of the 8 5/8 inch casing, yesterday had completed their work and were moving from the location. They drilled to 3,375 feet, which is 90 feet below the depth of the casing.

Tye & Sons began work as soon as ground was dry enough to get to the job last week. The casing was milled out Tuesday and is in good condition, Keith Tye said.

A big rig is expected to be sent in by Baker-Taylor Drilling Company at once. The projected depth is below 9,000 feet.

Report has it that the Baker-Taylor test is in search of natural gas, not oil, on the Howard lands. Not only does Amarillo Oil Company have extensive leases obtained months ago, they have recently added adjacent lands to the block. Among these is a part of the Staniforth land, southeast of South Plains. Billy Staniforth said recently he had given Amarillo Oil a lease on 800 or 1,000 acres.

The test in Hale County is by Plymouth Oil Company, five miles northwest of Petersburg. It is named their Daly & Hurlburt No. 1, on Section 3, block CL, EL & RR Survey. Projected depth is 8,500 feet.

Worst news of the week is in the abandonment of the Minnie Adams No. 1 at Lakeview, where production has been maintained for several years. The well is a producer but not in sufficient quantities to justify its continued operation, according to notices given to the Adams heirs and the Texas Railroad Commission by Standard of Texas Oil Company, which owns the lease. Three tests made on adjacent drilling sites have been reported unproductive.

The well has been producing from a formation at about 7,575 feet and at last report was doing about 14 barrels per day.

Meanwhile seismograph crews operating out of Floydada have been scanning a considerable area in west northwest
