The change represents a promotion for both men and will be made within the next few days. The Beacon was told Mr. and Mrs. Wood will continue to live here for the time until suitable arrangements can be made to move to Plainview. McCready will probably move his family here soon.

Wood will replace Ray Copeland as district manager of the Southwestern district.

No other changes in personnel are planned at other plant. Mr. and Mrs. Wood have been active in community affairs since moving here. ## L. Sandlin Wins 2nd In State Meet With Declamation

Miss Lajuan Sandlin won second place in the State Inter-scholastic meeting in Austin last Friday, May 2, with her declamation entitled "In Defense of My Generation". Lajuan is the daughter of Mrs. Mildred Sandlin and is a senior in Lockney High School where she is a member of a speech class taught by Mrs. Sid Thomas.

Previous to going to State, Lajuan won first place and a gold medal in Women's declamation at Hardin-Simmons University's second annual Speech Festival in March. Qualifying her for state competition, Lajuan took first place at the District meeting in Floydada and the Regional meeting at Lubbock.

In order to compete in the Regional meet April 19, Lajuan flew to Lubbock from San Antonio where she was conferred a State Degree in Homemaking Friday, April 18. Lajuan has been a member of F.H.A. four years, the Pep Squad three years, and a member of the National Honor Society two years.

Other honors conferred on Lajuan include her selection for B&PW Club Citizenship award, Senior Class personality, Lariat Club president, feature editor for the Lariat, declamation club member, in Senior play and Speech play.

## CHAMBER OF COMMERCE DRIVE REACHES 115 MEMBERS, \$4410

The annual membership drive of the Lockney Chamber of Commerce has gone over the top. Chamber officials said Wednesday. A total of 115 members have been secured and the total subscriptions to the Chamber budget now stands at \$4410. Some of the directors still have a few more contacts to make, it was said.

President Claude Brown said "We certainly appreciate the fine support the people of the community are giving the Chamber which will enable us to do even more for the community than we had planned. We're going to try to spend our money wisely so as to get the maximum benefits from it."

The membership drive has been underway for the past month with the directors doing the soliciting.

Following is a list of the Chamber membership up until Monday of this week:

## Critical Stage Reached In Cotton Fields

The critical stage for getting a stand of cotton has been reached in this part of Floyd County. The Beacon was told Wednesday. From 70 to 85 per cent of the cotton acreage has been planted, some of it almost long enough to come up. If hot, dry weather will continue another week, most farmers will have a stand of cotton.

The estimate in the immediate Lockney area is that 75 per cent of the acreage has been planted. Many farmers are through planting, some are planting now and a few haven't started, waiting for more settled weather or more volunteer maize to come up before starting.

A few farmers south of Lockney are having to plant over due to the rain falling last Friday afternoon. Up to an inch of moisture fell in that area although the rain here measured only .35 of an inch. Others are replanting because their seed didn't come out as they expected, probably due to cold ground.

At Aiken Mrs. John Powell estimated 80 to 85 per cent of the cotton was planted and at Lone Star the estimate was about the same. Neither had enough rain last Friday to affect the cotton crop.

If no rain falls before that time, some farmers are planning to start watering wheat the first of next week. The big rank stalks pull the moisture out of the ground rapidly, they say.

Clouds were heavy Wednesday afternoon and the forecast was for scattered thunder showers.

## John Hodel Is Buried Saturday

John Hodel, another of the earlier settlers of this county and a member of the First Baptist Church here for more than 50 years, passed away in Lockney General Hospital late Thursday evening.

Funeral services were held at the First Baptist Church Saturday at 2 p.m. conducted by Rev. E. J. Cobb of Tucson, Ariz., former pastor of the local church, and Rev. Charles Broadhurst, present pastor. Interment was in Plainview Memorial Cemetery. Carter Funeral Home of Lockney was in charge.

Mr. Hodel was born in Alsfrautz, Bukovina, Austria, on December 17, 1873, and came to this country with his parents when he was 16 years of age. They landed at New Orleans, came on to Galveston by boat and traveled by train to Coryell County, where they settled. Mr. Hodel was married to Emma Englebrecht at Crawford, Tex., on November 21, 1895, and the family moved to Floyd County in March of 1907 settling on the farm two miles west of Lockney where Mr. and Mrs. Hodel lived at the time of his death.

Mr. Hodel was converted and became a member of a Baptist Church soon after landing in this country. He placed his membership in the First Baptist Church here in 1907 and had been a member of the church since that time, more than 50 years. He had served the church as trustee and Sunday School teacher and was a faithful member all of his active days. Until his death he was the oldest resident member of the church.

Mr. Hodel had farmed all of his life until his retirement several years ago. He had served on the Lockney school board for several years and had always evidenced a lively interest in community affairs.

Mr. and Mrs. Hodel observed their 62nd wedding anniversary last November with a family gathering at the home.

Illness first struck Mr. Hodel about four years ago but he had been seriously ill only about three weeks.

Pallbearers were Les Ferguson, Charles Baxter, Geo. Webster, Jack Dolley, Milton Ashton, J. R. Riley, R. C. Mitchell, Hamilton Gamage.

Survivors include his wife, Mrs. Emma Hodel; five sons, Henry, Bill, Jimmy and Verner of Lockney, and Otto of Eunice, N. M.; four daughters, Mrs. Grady Burson of Amarillo, Mrs. W. B. Seitz of Spearman, Mrs. J. C. Owens of Plainview and Mrs. James Postlewait of Ankara, Turkey, 17 grandchildren and eight great-grandchildren. All the children were present with the exception of Mrs. Postlewait.

Other survivors include three brothers, Frank Hodel of Crawford, Texas; Jake Hodel of Gatesville, Texas, and Henry Hodel of McGregor, Texas; two sisters, Mrs. Frank Joeckle, McGregor, and Mrs. Carrie Schanz of Gotebe, Okla.

## And Each Win In State

A pair of outstanding Lockney athletes — Jerry Williams and Bill Musser — tied up well in the Class A track and field meet at Austin last week end. Williams placed fourth in the 100 yard dash and Musser placed fourth in the mile run.

The speedy Williams reported off to a bad start in preliminary heat Friday but he in third which qualified him for the finals. Sidney Garton of New Boston set a new record of 9.6 seconds in his preliminary race Friday and tied record in the finals Saturday. Garton got off to a bad start in the finals setting a preliminary better mark. James Parkers, West Columbia, and Donald Denson, San Antonio Central, ran second and third in the 100.

A strong finish by Musser enabled him to finish behind leading state champion Dudley Coleman and Jerry Garton of Cleveland in the day qualifying heat. Byerly Roberson finished one-two in the finals and George Robinson, Jasper, came in third. The runner's time was 4:36.4.

The Longhorns tied for 20th place in the team standings with eight points. Floydada was ninth with 19 and Tulia tied 30th place with one point.

Floydada boys claimed one place and tied for another. Patterson set the pace in the 120-yard high hurdles. Patterson's time was 15 seconds. Charles Ogden tied Charles Parker, Taft, for first place in the high jump with a leap of 4.2 in.

A. C. Harris of Abernathy qualified for the finals in the 50-yard dash but failed to see Dalhart's 440-yard relay team, Region 1 champs, won first place in Saturday's finals. Coach Elvin Lyon accompanied Musser and Williams to Austin. The trio left after school Wednesday and returned Friday afternoon.

Jerry and Bill are both seniors and they ended their high school eligibility at the state meet.

## Scouts Going June 7

Cub Scout Master Buck Latimer said this week that local Cub Scouts and their dads were planning to attend an overnight camp at Camp Post on June 7th. He reminded the parents that the registration fee is for both dad and son must be paid to him not later than May 15th since that is the deadline for mailing registrations. The money should be left with Mr. Latimer at Parker Furniture here.

A number of awards were presented to Cub Scouts in a pack meeting last Thursday evening at the Scout Hut. Cubmaster Latimer made the following awards: Gold Arrow, Eldon Stapp, Jimmy Thomas; Wolf Badges, Vernon Vincent, Harry Beedy.

A weiner roast preceded the program. Scout Field Executive Ray Howard of Plainview was present.

## EDITORIAL

Lead me in Thy truth, and teach me; for Thou art the God of my salvation; on Thee do I wait all day.—Psalm 25:5.

**ONE WONDERS** at times in this so-called enlightened country, why it is that some free American men and women, who have organized themselves into labor unions, will allow racketeers and gangsters to gain control of those unions, defraud it of funds and use it almost entirely to their own advantage. Perhaps the number of unions in this condition are in the minority but there are too many at that. The strength and tactics of some union officials were exhibited last week in the U. S. Senate in the consideration of a bill designed to correct some of these abuses. After members of the Senate had carefully drawn and considered a bill designed to safeguard union health, and welfare funds against abuses, suddenly about 40 amendments to the bill were introduced, apparently designed to delay or even prevent action on the bill. Senator Lyndon Johnson, in his weekly letter, says that he is confident the Senate will still approve legislation to protect working men and women from exploitation by a handful of racketeers.

**LABOR UNIONS** are important to the welfare of this country. We need organized labor because without it the industrial tycoons will exploit the working man and abuse

his position as employer. There are many good unions in this country but the practices allowed by some unions are deplorable. The attitude of "do what you want to as long as I get my share" allows the gangster and racketeer to get started in unions. Little can be done, it seems, without the adopting of some moral principles by the individual members. A union can be only as good as its members want it to be.

**"BETTER PRICES** for vegetables this year" is the prediction of some of the produce men of the area. Reason is that the market will not be glutted this year as it was at times last year, the experts say. Generally poor vegetable crops in Florida, Alabama and Arizona are in sight for this year and of course, a short crop in one area usually works to the advantage of another.

**WE HAVE NOTHING** but admiration for the tenacity of local farmers and others who have been raising vegetables here for two or three years. Some have lost money at times and the double bogey last year of poor crop conditions and poor markets was enough to chill most anyone's enthusiasm, but the Lockney area will again have quite a few vegetables this year in spite of all the discouragements. It takes a few sturdy pioneers in any situation to iron out the kinks and pave the way for the rest to follow. The Lockney area has its vegetable pioneers.

**DAMON STETSON** of the New York Times reports that "The automobile industry is facing a period of crucial decisions." There are three main reasons why: the growing popularity of the small economy car, a trend which may force the Big Three to enter this field; lagging new-car sales; the wage and other demands which Walter Reuther's UAW will make on the companies during new contract negotiations.

**GEORGE F. KENNAN**, considered by many the foremost American authority on Soviet affairs, writes: "Kruschev has now offended and estranged from the central political process, one by one, the intelligentsia, the industrial managers and a portion of the officers corps of the armed services. He has now achieved the pinnacle of power which he apparently wanted, but I suspect that he is rather isolated up there, and that the winds around him are becoming increasingly chilly."

### WHO'S SURPRISED?

U. S. Sen. Ralph Yarborough finally has announced his candidacy for a full six-year term in the Upper House of Congress, after several months of playing like he didn't know whether he'd seek that office, or run for Governor.

If there was any surprise registered in Texas over the Junior Senator's belatedly announced decision, there's no report that it was sufficient to cause citizens to suffer fainting spells.

As was periodically forecast by every Texas political writer who had cut all his teeth, the Senator actually had no choice of campaigns. His principal supporters need him in the Senate much more than they need him in Austin; he has a much better chance of election to a full term in the Senate than he would have had in attempting to unseat able Gov. Price Daniel. These facts have been clearly apparent, despite the Senator's seeming reticence to speak out.

campaign. Therefore, money for campaign workers, for constant travel, for advertising, etc., is of major import to any office-seeker on the far-flung Statewide level. Very often, the amount available is the decisive factor.

Actually, Senator Yarborough has been playing possum in an effort to keep State politics off balance. If he could have stalled off a serious opponent in the Senate race, the extreme Liberal wing of the party which espouses him would have had more money from inside and outside Texas to spend in an effort to put one of their own into the Governor's office. But when the opulent Conservatives put former Sen. Wm. Blakley into the race, the jig was up. The Liberal emphasis now must all go on the Yarborough campaign and there'll be precious little money for use in the State races. Certainly there won't be enough for a full-blown assault on Daniel, which probably wouldn't get to first base, anyway.

It doesn't cost as much to run a candidate for either Lieutenant Governor, or Attorney General as for Senator, or Governor. But it's doubtful if the extreme Liberals will make an all-out effort to take over those offices. They're not too far out of step with Attorney General Will Wilson, anyway, and

Lieut. Gov. Ben Ramsey would be no pushover, even if the Liberals had a widely known and well-beeled politico under wraps to take him on.

So the big political fight in Texas this year will be for the Senate plum.

And nobody, but nobody, is surprised. — Lubbock Avalanche.

## COMPETITIVE PINNACLE

Educational Competition, the title of Roy Bedichek's book on the history of the Interscholastic League, comes to a close annually at the State Meet. The best in the State in debate, extemp speech, athletics, declamation, journalism, and all the other League contests have won their way to the State finals.

There will be no "sugar coated" competition at the State Meet in Austin, nor will the May 1, 2 and 3 activities be a "play day" or festival where everyone wins. It will be a tough competition conducted under a set of rules agreed upon by the majority of the schools.

The struggle to break records and be first has resulted in some of the finest achievements in the world. It makes a fine contribution to the democratic way of life found in America and helps to prepare youth for its struggle in other fields of activity. — Interscholastic Leaguer.

Dear Editor:  
I see where our foreign aid department says it is not either dozens of Cadillacs they are distributing to the underprivileged people of Laos, but is just cheap model Buicks.

My Cadillacless neighbor says this penny-pinching habit of passing out only the cheaper types of merchandise is likely what has turned so many of our foreign friends against us.

After all, he says, if we can't take first rate care of our needy neighbors, we ought to get out of the charity business.

Former Senator Karl L. Lovelady Announces For State Senate

TO THE VOTERS OF THE 30th SENATORIAL DISTRICT:

I take this means of announcing my candidacy for the office of State Senator of the 30th Senatorial District in the forthcoming Democratic Primary. I make this announcement after careful and considered appraisal of the voiced opinions of the many persons who have come to me and that I have gone to see, who have insisted that I make this race based on my past record in the State Senate of Texas to keep the state out of debt and to vote a vote for all the people and not a vote for the chosen few.

I base my candidacy on the following platform:

- HONESTY AND INTEGRITY** — The past few years have brought dark clouds of dishonesty and corruption in our state department, and I for one, if elected your State Senator, propose to do my part to see that the people of Texas shall once again have confidence in our government.
- FARMING** — I believe in a broader "Farm-to-Market" road program, by trying to get an additional \$50,000,000 per year to the amount now spent, for more farm roads. I believe in a much broader rural electrification and rural telephone program so that every farmer will benefit. I would like to see a state supported experimental farm, to be located in the heart of the vegetable growing district, for experimentation in the growing of vegetables. I would support a program to conserve our surface water supply by the state expending money for the construction of dams on all rivers and draws where needed. (In doing this we would also have places for recreation right here in West Texas.) I would amend the present employment law so that the TEXAS EMPLOYMENT COMMISSION would bring into any given area suitable labor to be used on the farm where said labor is not locally available at the time when this labor is most needed by the farmer. I would vote for and support a stronger seed regulation law in order to put this state on a par with other states in seed regulation. I will always oppose any legislation to unionize farm labor.
- SCHOOLS** — A stronger emphasis on the teaching of the basic subjects of reading, writing and arithmetic in the lower grades, and on mathematics and science in high school, so that we can better equip our students to preserve our leadership as a nation in the world. Better pay for all school teachers, and more money for better school plants from the state. (I think teachers should receive salaries equal to other professions of similar education and training.) I think we should have a state supported Junior College near the center of the district so that buses can run from the various towns carrying students to said college.
- BUSINESS** — I would abolish the State Store Tax, State tax levied on stores that sell cigarettes and charge the collection of all taxes and cosmetics, etc., now collected by the merchant to that of the manufacturer who makes them. (In fact I think the merchant, farmer and all retail businesses should be taken out of the business of collecting taxes for either the state or the federal government). It is about time the small business man got a break in this government of ours. The present "Hot Check" law should be amended so that when any person gives or passes a check whether for cash, to pay a bill or to receive merchandise, he or she may be handled by the proper court if said check is not honored at the bank for payment. Any person who makes a bill for groceries, clothing or drugs, same being necessities, the merchant should have stronger laws than we now have for the collection of said debts.
- LOAN SHARKS** — I would vote and support a law to place all loan companies under the same regulations as the Banks are now under.
- CITIES AND TOWNS** — I believe that all cities and towns in the state should be given aid from the state, based on population for use in building streets, alleys and for the purchase of highway rights-of-way through their cities and towns. (As you know all this expense is now carried by the property tax payer who already has all the burden he can carry.)
- PROFESSIONS** — I believe that the present laws regulating the illegal and unethical practice of law, medicine and healing arts should be strengthened so that the public may be better protected, and any professional person or so called professional person who, either in private, in public, or in print, wilfully misleads a client or a person should be prosecuted by law for so doing.
- WELFARE** — I would give additional aid to all persons under the welfare program where need can be shown to exist. (Any increase in pension checks, etc., would help our economy because they spend their money on the necessities.)
- OFFICIAL NOTICES AND CITATIONS** — I would vote for an amendment to the present law on official notices and publications to provide that all official notices and citations now posted at the court house door be published in a newspaper in the County so that the public will be properly informed, and that individual citizens affected will not be deprived of their just rights under our laws.
- FREE PRESS** — Our laws should be amended so that all government records and all government meetings shall be open to the press so that the people may be informed on all happenings and acts of the government of state, county and political subdivisions.
- TAXES** — The State Comptroller has estimated that by January 1, 1959, the State shall be about \$100,000,000 in debt, thus the next session of the Legislature will be faced with the duty of getting the state out of the "red". I think that this can best be done by the abolishing of needless jobs and the elimination of duplicate functions of various state agencies, none of which render any service to the tax payer. With times getting harder economy should start at Austin. I would abolish the State Property taxes, as the property tax payer now has too great a burden to carry in supporting our school, cities and county governments.

I am not supported by any clique or clan, nor am I fighting any group or individual in this campaign, but if elected your State Senator, I will be your State Senator in fact and in truth, and the fighting that I will do will be on the floor of the State Senate, fighting for your interest. I implore that each person reading this announcement check my past record in the legislature halls of Texas, and as a public spirited citizen in the community in which I reside.

I am outspoken in my beliefs and never ride the fence on any issue. Trusting that you will take this announcement to your heart for the good and future prosperity of this district, and that we all go forward together with progress consistent with our times for the good of all of us.

SINCERELY, KARL L. LOVELADY

**Cotton Acero Pr Grants**  
Directors of the Cotton Growers, Inc. voted to secure help in the form of a report on a new cotton legislative plan, authorized \$12,000 in grants for cotton production research work this year April 29 at a meeting here.  
Proceeding the business session W. O. Fortenberry, President, was presented a magazine as "Most of The Year" in Texas Agriculture" for 1957. The award came as a surprise to Fortenberry, who was selected for the honor by the editors of Progressive Farmer. R. Kretzinger, a representative of the magazine, said the editor had their eyes on Mr. Fortenberry and his outstanding agricultural work for more than a quarter of a century.  
Funds authorized for cotton research are to be distributed as follows: \$5,000 to the High Plains Experiment Station; \$4,000 to the Lubbock Agricultural Experiment Station; and \$3,000 to the Spur Agricultural Experiment Station.  
Funds supplied to the High Plains and Lubbock Station by the FCG will be used for expanded research on the fertilization of cotton and how it influences quality. The Spur Station will use its funds to work on dryland cotton production.  
George Pfeiffenberger, Executive Vice President, told directors that there appeared little chance of getting passage of the bill mapped by the American Cotton Producers Association as it now stands, but that best chance may be to supply a compromise cotton bill which the House Committee Agriculture is now working which contains several provisions of the ACPA plan.  
Pfeiffenberger said feelings in Washington are that if organizations and groups not "all get behind the bill," the cotton industry stands a chance of not getting "a kind of legislation at all."  
And if no legislation is acted this year or at the next session of Congress, the cotton industry automatically take a 25 per cent cut in acreage, since present cotton acreage freeze restrictions expire the end of this year, he pointed.  
Farmers with allotments 15 acres or more will bear brunt of such an acreage reduction and High Plains allotments will probably be cut to 30 per cent.  
Quoting from the National Cotton Council's publication "Cotton's Week," Pfeiffenberger outlined the plan drafted by House Cotton Subcommittee three-year program.  
The plan would give individual cotton farmers a choice two programs for the 1959 year. Farmers could retain present acreage allotment the 1958 price support level under one choice. As an alternative, they could take a 30 per cent increase in allotments receive 65 per cent of parity support.  
In 1960 and 1961 the choice would be (1) calculate in accordance with the formula in the present law, or (2) per cent of parity in all years.  
The "base" acreage allotment in 1960 and 1961 would be the acreage required to produce the estimated domestic Commodity Credit Corporation stock would be offered for at 68 1/2 per cent of parity.  
This plan would go into effect only if approved by...

Preceding the business session W. O. Fortenberry, PCG President, was presented a plaque from Progressive Farmer magazine as "Man of the Year in Texas Agriculture" for 1957. The award came as a surprise to Fortenberry, who was selected for the honor by the editors of Progressive Farmer. R. D. Kretzinger, a representative of the magazine, said the editors "had their eyes on Mr. Fortenberry and his outstanding agricultural work for more than a quarter of a century."

Funds authorized for cotton research are to be distributed as follows: \$8,000 to the High Plains Experiment Station at Halfway; \$1,000 to the Lubbock Agricultural Experiment Station; and \$3,000 to the Spur Agricultural Experiment Station.

Funds supplied the High Plains and Lubbock Stations by the PCG will be used for expanded research on the fertilization of cotton and how it influences quality. The Spur Station will use its funds to work on dryland cotton production.

George Pfeifferberger, Executive Vice President, told the directors that there appears little chance of getting passage of the bill mapped by the American Cotton Producers Associates, as it now stands, but that our best chance may be to support a compromise cotton bill on which the House Committee on Agriculture is now working.

Pfeifferberger said feelings in Washington are that if farm organizations and groups do not "all get behind the same bill," the cotton industry stands a chance of not getting "any kind of legislation at all".

And if no legislation is enacted this year or at the next session of Congress, the cotton industry automatically will take a 25 per cent cut in acreage, since present cotton acreage freeze restrictions expire at the end of this year, he explained.

Farmers with allotments of 15 acres or more will bear the brunt of such an acreage reduction and High Plains allotments will probably be cut up to 30 per cent.

Quoting from the National Cotton Council's publication, "Cotton's Week," Pfeifferberger outlined the plan drafted by the House Cotton Subcommittee, a three-year program.

The plan would give individual cotton farmers a choice of two programs for the 1959 crop year. Farmers could retain their present acreage allotments at the 1958 price support levels under one choice. As an alternative, they could take a 30 per cent increase in allotments and receive 65 per cent of parity for support.

For 1960 and 1961 the loan charge would be (1) calculated in accordance with the formula in the present law, or (2) 65 per cent of parity in all three years.

The "base" acreage allotment in 1960 and 1961 would be the "acreage required to produce the estimated demand," Commodity Credit Corporation stock would be offered for sale at 68 1/2 per cent of parity.

"This plan would go into effect only if approved by two-

thirds of the farmers voting in a referendum to be held in November," Pfeifferberger said. "If the referendum failed to carry, the present law would remain in effect and the usual

referendum would be held in December."

In action on the legislative situation, PCG directors voted to continue support for the ACPA program, but if passage of that program is deemed impossible, PCG officials were instructed to work for the "best possible program for High Plains cotton producers".

J. D. Smith and Ross Lumsden, both of Littlefield, reported on a meeting with U. S. Department of Labor officials in

Washington last week on the Bracero Labor situation.

Smith said that the hourly wage and positive recruitment phases of the labor program forced, but Congressmen George Mahon notified area friends this week that Labor Department officials may be yielding ground. No other definite information was given by Mahon.

Fortenberry told directors that PCG officials would keep check on the labor situation

INSECTS ON ORNAMENTAL PLANTS — Be looking for an assortment of hungry insects to attack ornamental plants. Determining the kind and amount of insecticide to use on the different insects becomes a problem.

To answer these and other questions, extension entomologists have prepared a leaflet entitled, "Texas Guide for Controlling Insects on Ornamental Plants."

The leaflet defines the most common insect pests, describes the type of damage and gives directions for treatment, complete with dilution chart for mixing sprays.

Copies are available from your local county agent's office.

### CROSS ROADS REPORT

Dear Editor: I see where a University professor says schools hadn't ought to give out report cards to kids on account of it might discourage them.

Seems like the idea is that if we would keep the youngsters from finding out about harsh realities, they could enjoy a rich life in hog heaven.

My harried neighbor says a little more ignorance might improve adulthood also. Like, say, if his banker would consider his feelings and refrain from mentioning the subject when he runs up an overdraft.

# for Want of a Nail

The casual purchase of a pair of shoes . . . a garden hose . . . an occasional chair . . . a tube of toothpaste . . . multiplied thousands of times . . . is the base upon which the prosperity of every community is erected.

Better-paying jobs, more profitable business, more valuable property . . . better schools, stronger churches, fuller living . . . depend on these thousands of little transactions . . . each important as each brick is important in a great structure, and as the fabled nail was important to all the people of a great kingdom.

One drop of water out of the ocean makes the ocean smaller; every penny of local money that is spent in some other town makes this community smaller and less prosperous . . . and every penny that is spent here at home means a little better living in a little better place to live for all of us who make our homes here.

*For want of a nail, a shoe was lost;  
For want of a shoe, a horse was lost;  
For want of a horse, a rider was lost;  
For want of a rider, a kingdom was lost*

THROUGH the centuries this bit of philosophy has been used to bring home a fact we've all observed . . . how an insignificant event can lead to more and more important occurrences . . . and eventually to great calamities . . . or to great good.

### Nat'l Cotton Week Is Set For May 19-24

The Plains Cotton Growers, Inc. is cooperating with the National Cotton Council this year in planning observance of National Cotton Week to be held May 19-24.

To help promote National Cotton Week the Plains Cotton Growers has already contacted most of the department stores on the Plains and told them of dates of National Cotton Week in order they might plan advertising and promotion for that time.

Also the organization has sent out more than 100 Retail Sales Planners furnished by the National Cotton Council. This planner offers a 36-piece special planning kit designed for National Cotton Week promotion.

The kit contains posters, advertising slogans, mats and other merchandising aids for cotton and National Cotton Week.

Any department store in the High Plains area that did not receive a sales planner may obtain one by writing to the Plains Cotton Growers, Inc., Room 220, Lubbock National Building, Lubbock, Texas.

In Lubbock the PCG is cooperating with the Business and Professional Women's Club to sponsor an all-cotton style show to be held during cotton week. Other events are being planned throughout the area to promote cotton during National Cotton Week in May.

### Miss Bybee Finishes Modeling School

Invertebrate refers to animals which do not have a backbone.

### 10 CLUES TO CANCER

#### Clue No. 5, Immunity

Some scientists feel that cancer may be cured as the common cold is cured—by building up our natural resistance to the disease.

Science, however, doesn't know how the common cold is cured. Resistance, or immunity, is a vastly more complicated matter than heretofore has been supposed. Our resistance forces include many blood and tissue elements — antibodies, certain white cells, and other known and unknown substances.

In animal and human experiments the rapidly developing basic information on immunity is being applied to the conquest of cancer.

Help science help you! Send your contribution to the American Cancer Society!

#### CARD OF THANKS

We wish to express our sincere appreciation for the flowers, cards and letters, and words extended us during our recent bereavement. We thank you for every kindness. Mr. and Mrs. J. B. Seale

Dear Editor:  
My practical neighbor didn't pay hardly any income tax this year, since she took time to read over the rules and regulations regarding same.

On account of she deducted all costs and expenses such as food, clothing, beer, etc., which she was out for keeping her husband in working order.

Says this was legitimate deducting though, as the book says you can deduct all necessary expenses connected with the management of management of property held for the production of income.

# STATE CAPITAL Highlights AND Sidelights

by Vern Sanford

TEXAS PRESS ASSOCIATION

**TEC FIRING UPHELD**—After hearing both sides, the Merit System Council voted unanimously not to interfere in the Texas Employment Commission's dismissal of its legal counsel.

Ousted Attorney Lee G. Williams said he would appeal to the courts. Williams was fired last month by a 2-1 Commission vote. R. F. Newman, labor representative on the Commission, opposed the decision by Chmn. S. Perry Brown, public representative, and Maurice

Acers, management representative.

Brown told the Merit System Council he felt Williams' personal feeling prejudiced his legal opinions in favor of labor. Biased legal advice, Brown contended, "is probably worse than none at all."

Williams exhibited legal opinions he had prepared favoring management's side. Newman and three former Commission members pled on Williams' behalf.

**NEW TACK ON TIDELANDS**—International boundary discussion at the current Geneva Conference may dim Texas' hopes in the tidelands struggle, Atty. Gen. Will Wilson noted in a recent speech.

Russia wants national boundaries to be 12 miles out from land, Wilson related, and the U.S. says three miles out. Texas, in a case to be heard by the U.S. Supreme Court Oct. 13, will be trying to protect its longstanding claim to 10 1/2 miles.

But, said Wilson, "the United States can't plug for a three-mile international boundary and turn around and give Texas 10 miles." If the three-mile boundary sticks, he said, Texas will then ask for oil rights to the 10-mile limit.

**WHY IT COSTS MORE**—Wrap-around windshields and loads of chrome inevitably mean higher rates for automobile insurance.

A special legislative committee investigating auto coverage rates was told by State Insurance Dept. officials that costs of both materials and labor have gone up. New rates, to be set next summer probably will have to be higher, they said.

In addition to the staggering tab for fixing the modern-day peace-on-wheels, if it gets smashed, high accident records boost insurance rates in a locality.

For instance, said a depart-

ment official, Dallas' accident rate is only 60 per cent as high as Houston's. Hence, coverage that costs \$18 in Dallas is \$30 in Houston.

"People have to realize," he said, "that they set their own rates."

**CLIMBING COSTS SEEN**—Bad news for budget balancers is an official estimate that state welfare and education programs will cost \$62,000,000 more during 1959-61 than as present. In studying future spending needs, a Legislative Budget Committee noted that:

(1) A constitutional amendment to be voted on next November will, if approved, add \$9,000,000 to welfare costs. Proposed amendment would provide medical care for the needy.

(2) An increase in the number of children would probably up the state's share of the minimum foundation school program by \$4,000,000. In addition, the amount in the available school fund will be less, creating a need for additional appropriation.

Committee commentary received a touchy issue—continued existence of "small, inefficient districts" that might be consolidated into other districts to lower over-all costs.

**ON COURTING BUSINESS**—Growing government and climbing taxes make a chilly atmosphere in which to invite new industries.

This view from present Texas industrialists was presented at a recent hearing of the Texas Industrial Commission. Recently re-activated, the Industrial Commission is charged with finding ways to attract more industry to Texas.

Jim Yancey, spokesman for the Texas Manufacturers Assn., told the Commission that good labor-management laws and some restraint on government costs are needed. "Texas is fast losing its favorable position in comparison with other states in the area," he said.

Commission members noted there had been some "misunderstanding" by regional Chambers of Commerce. Commission's purpose, they emphasized, is to help, not compete with, such groups.

**RATE BATTLE**—An Amarillo insurance firm has advanced one step in its battle to block enforcement of new, lower credit insurance rates.

An Austin district court granted the request of Cosmos Life Co. for a temporary injunction. State Board of Insurance had ordered a slash of about 50

Dear Editor:  
I see where Economic Oracle like says us people ought to quit squirreling our money and buy everything we want.

He figures this would re-boost the economy, and put the unemployed back to work, and build up a demand that would keep the manufacturers busy.

My covetous neighbor says if he bought everything he wanted it would keep the manufacturers busy all right, but not half as busy as the collection agencies and the worry-pill rollers.  
D. E. SCOTT  
Crossroads, U.S.A.

per cent in rates for insurance issued on the lives of persons getting small loans.

Attorney general's department, which recommended the change, said old rates were excessively high. Companies contending the new ones are ruinously low.

Court's injunction affects only Cosmos. Others, unless they join in the suit, must abide by the new rates. Until the case is finally decided, Cosmos must put in trust money equal to the difference between the old and new rates.

**BAIL LAW VOIDED**—A law passed last year to regulate bail bondsmen has been declared unconstitutional by the Texas Supreme Court.

If effective, the law would have required bondsmen, unless they were attorneys, to be licensed. One section applied only in counties of more than 350,000 population, another in counties of from 75,000 to 100,000 population.

High court pointed out that the constitution prohibits such narrow restrictions on laws of a general nature. Dallas legislators, who sponsored the bill last session, are reportedly planning to try again with a revised version.

**SHORT SNCRTS**—Senate general investigating committee has tentatively set its next hearing for mid-May. Topic is still hush-hush, though it has been revealed it does not concern insurance. Investigation has centered in the Houston area. . . . Amid predictions that the recession had "flattened out" Texas unemployment totals seemed to be leveling off. Latest official report showed number claiming unemployment benefits down from 93,289

## TELEPHONE TALK

### YOURS FOR THE ASKING

There are several items that we have available at no charge such as booklets which are colorful and informative covering a wide range of telephone topics; also telephone talks which include a wide variety of illustrated talks and lecture-demonstrations on subjects of high community interests.

For example, there are well qualified women speakers to give programs on proper telephone usage to either men's or women's group. Also we have a lecture-demonstrator who tours Texas giving talks about new developments in telephone science.

Guided tours through the telephone office can be arranged too. Instead of bringing the program to you, we invite your group to the telephone office to see the complex equipment required to provide telephone service.

We also have teaching aids for teaching good telephone usage in the schools, both primary grades and senior high school.

Of course, we have many films covering a wide variety of subjects available free of charge. Do you know enough about this great state of ours, Texas? We have some 26 films about Texas that we would be happy to send to you upon request.

### MOTHER'S DAY REMINDER

Sunday, May 11, will be Mother's Day. Unfortunately, we all won't be able to drop in and wish our Mother a "Happy Mother's Day." The next best thing—as I see it—is to call her on the telephone.

Lots of sons and daughters call home on Mother's Day. That's why I suggest that you place your call early and call by number. In that way you'll avoid delay.

So don't forget—plan now on a Long Distance call on May 11 to make Mother's special day even happier.

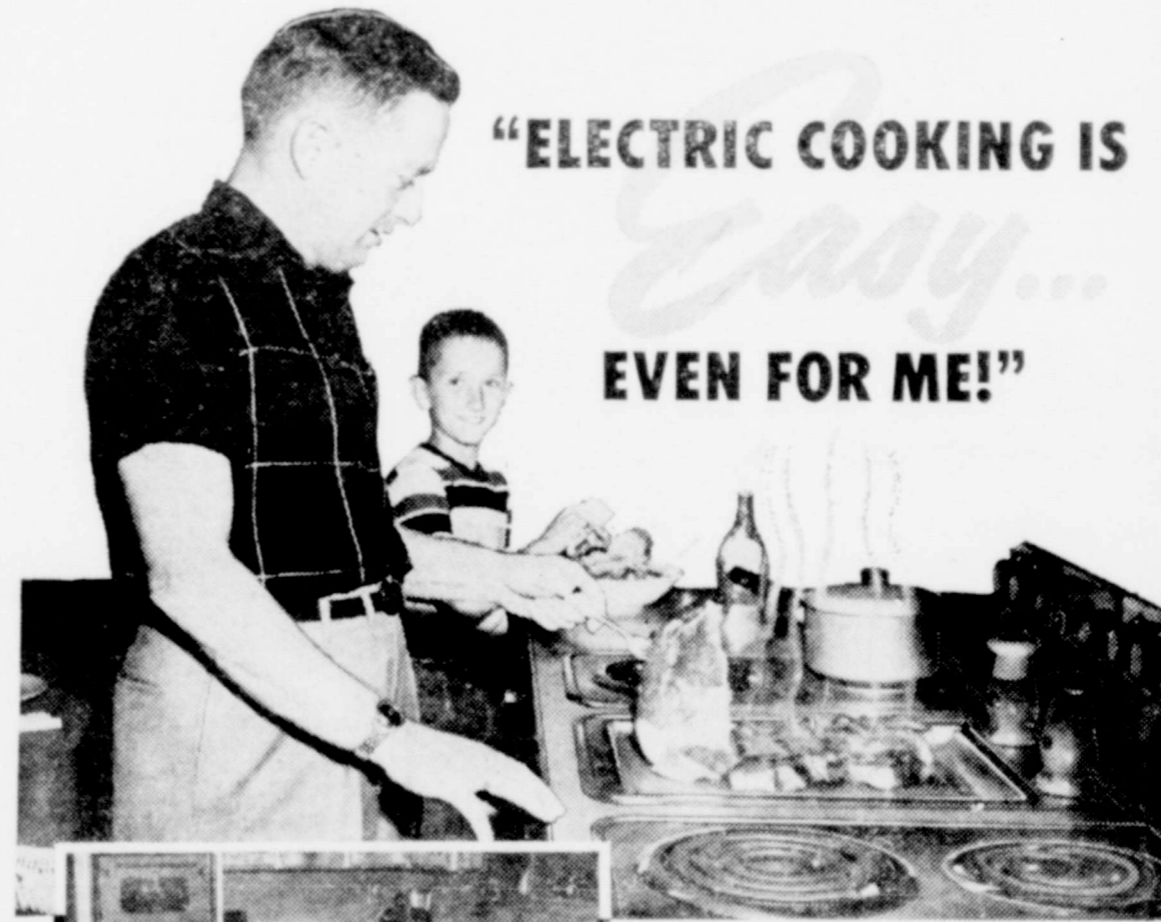

### ON AND OFF THE JOB

On the job, telephone people here in Lockney have a responsible part in keeping the town's telephone system working properly to serve you.

Whatever our jobs, whatever our favorite community activities, we telephone people share a common interest with you—making Lockney the best possible place to live in and raise our families.

says CARL MCKINNON  
GUYMON, OKLAHOMA

Mr. McKinnon says, "Cooking electrically is easy for even inexperienced cooks like me. I never thought I would actually enjoy preparing dinner for the boys while Lou, my wife, is not at home. Now, when she goes to her church and social affairs, the McKinnon men take to the kitchen. Roger helps with the salad, Doug helps set the table, and Warner, like most four-year-olds, just does a little bit of nothing. Although we're having steaks tonight, the boys ordinarily vote for hot dogs or hamburgers; regardless, our electric grill does a wonderful job, no matter the menu."

"Now, with our steaks, salads, green beans and cake (Lou baked it in our electric oven this morning), we are ready to settle down and enjoy our meal, along with our 'men talk.' With Roger and Doug, that's football — with Warner, cowboys and TV."

### HOUSECLEAN THE MEDICINE CHEST

Develop the habit of keeping your medicine chest up to date, says Margaret Spader, home service editor of the Gas Appliance Manufacturers Association. Older medicines and disinfectants change their characteristics with age, making them unsafe to use. Miss Spader advises that you discard old supplies and prescriptions. Keep only the essentials. Harmful supplies should be stored high out of reach of small children.

You will get more edible asparagus from each pound you buy in May and June than from the stalks you purchased earlier in the season. Early cuttings of asparagus are shorter than later ones because the stalks have not had time to grow as green and tall as they might. Look for close-tipped, slender round stalks. These will give you more servings per pound with minimum of trimming.
