The Bible and nosegay were nestled in pink angel hair and backed with three white tapers in crystal holders. White satin streamers extended from the flower arrangement onto the table. White cake squares iced in pink topped with a white sugar bell were served with pink punch poured from a crystal bowl. Favors were miniature replicas of white Bibles which were lettered in gold with the names of the newly weds and their wedding date.

Sand Hill News
By Mrs. James Jeffress
After the boiling clouds and dust cleared Monday morning we received about an inch of rain. It seems like winter this week instead of the first week of summer. Wherever you look you can see many on tractors wearing heavy coats. Anything can be expected in this wonderful country of ours. Most all the wheat and barley has been harvested. Hot winds hurt the crops pretty bad.

Prayer Meeting at Sand Hill Baptist Church on Wednesday night has been changed to 8 p.m. The book of John is being studied.
Marilyn McLain, daughter of Mr. and Mrs. Hollis McLain, left Monday with her grandfather, E. L. Cornelius for Capitan, Oklahoma, to spend the next ten days visiting Mr. and Mrs. Don Cornelius and family.

Mr. and Mrs. Hollis McLain and family were the Sunday guests in the home of Mr. and Mrs. Pierce King, Floydada.
Remember Saturday is picnic day for Sand Hill Baptist Church at the Baptist Encampment. Everyone come, bring a picnic lunch, and enjoy swimming and other recreation. E.A. boys will leave early with the pastor to enjoy some swimming before time. Hollis McLain will act as life guard.

Mr. and Mrs. Jess Starkey and family spent Sunday visiting his brother, Mr. and Mrs. Charlie Starkey at Flomont.
Norma Sue Hollums is spending this week with her aunt and uncle, Mr. and Mrs. Roy Hollums at Earth.

Mrs. W. R. Billington has been in the Crum Clinic in Lockney this week. She was able to come home Friday. She is recuperating in the home of her daughter, Mrs. Ross Yan-

Mrs. Edward Baird of the Harmony community was critically injured Friday afternoon saving her daughter Debbie from being run over by a moving tractor. Mrs. Baird fell and the tractor ran over her. Gene's condition was still critical Sunday afternoon. She is in room 214 at Methodist Hospital in Lubbock. We are all hoping and praying her condition will soon improve.

The Adult Training Union enjoyed a barbecue supper in the home of Mr. and Mrs. J. M. Williams Tuesday night. Present to enjoy barbecued chicken and all the trimmings with home made ice cream were Messrs. and Mrs. Dale Stringer, Glen Baird, Bill Rowland, Tom Thomas, M. B. Swanner, and Grover Coffee.

Mrs. Ola Donaghue and daughter, Lois, from Afton are here staying with her mother, Mrs. Mattie Baird, who has been very ill but is able to be home from the hospital this week.
Sand Hill Baptist Church is happy to have Mr. and Mrs. Gerald Vincent and Jimmy Jeffress as candidates for baptism into the church. Wonderful services were held Sunday morning.

The R.A.'s will meet Friday afternoon at 7:30 p.m. It was announced Sunday by leaders James Jeffress and Stinson Stringer. Harold O. Starkey will be in charge of refreshments.
CARD OF THANKS
Lockney is an awfully good place to be sick. If kindness, good will and sincere affection are to be found anywhere I have found them here in flowers, in visits, in cards—so many—and in gifts saying we care! Thank you, my friends, for these and thank you for the prayers for my recovery—silent, unspoken, but felt just the same. To Dr. Mangold and the entire staff of the Lockney General Hospital my appreciation for their excellent care. May each of you be blessed for your thoughtfulness.
Mrs. Hoyette (Ila) Hodges

Dear Editor:
I note that Mr. Khrushchev wishes to buy a lot of merchandise from the U.S. just as soon as we can get him fixed up with a credit card.

Likely figures on promoting some richer-living for his own bureaucrats via the U.S. system of charging it and borrowing money to pay off when it comes due.

My psycho neighbor says that's the way it goes, though. We envy the Russians how they can fly a sputnik, and they envy us our ability to steal from our grandchildren.

WEST TEXAS MUSEUM AT TECH IS VERY INTERESTING PLACE

Summertime, when the living is easy, means things are livelier than ever in the West Texas Museum at Texas Tech.

Vacation time brings a special flow of visitors, many of them from far away places, as Lubbockites and other South Plainsmen bring them by for a look at the Peter Hurd mural and many other exhibits that give an idea of what the area is like and has been like.

In addition, area people — who've seen the Museum's permanent exhibits many times — are in for a look at special art exhibits or a try at a summer short course.

Albert Mirovitch, famed Boston pianist, gave some special demonstrations in the Museum recently.

Mr. and Mrs. Charles Lindstrom of d'Young Museum in San Francisco have been conducting a South Plains Art Guild Workshop in the Museum.

Biggest attraction to all of course, is the Hurd mural depicting South Plains life and history. It is located in the rotunda.

"If a tornado doesn't strike it, the Hurd mural should be here a thousand years," Lindstrom, who's spend a lot of time studying it, declared.

"An important thing is — it will increase in value through the years," he continued.

"Of course, now, a good part of its importance lies in its familiarity to people of the area," he added.

He said that in his study of it he's noticed how warmly it is received by many of the South Plains people who have viewed the art work.

"It's wonderful to see their personal interest," he continued. "So many communities today have very little in the way of common symbols to hold them together as a community."

In this capacity alone, the mural is serving a valuable purpose, he declared.

Lindstrom is teaching adult classes in the South Plains Art Guild Workshop being held partly in the Museum. Mrs. Lindstrom is teaching the children's classes, which have more than 100 participants divided into five sections.

The youngsters are painting objects in the Museum.

If you're one of the Lubbockites who haven't been by the Museum recently, here's a quick survey of what's currently showing.

Feature of the historical gallery is a music box collection loaned by Mr. and Mrs. C. T. McLaughlin of Snyder. Nearby are the reproductions of early-day rooms in the area, a West Texas dugout house and a respiration.

The Life on the Plains gallery tells the story of the area from the days of Indians through those of Spaniards, cowboys and later farmers and other modern plainsmen.

Featured are exhibits on life of the Comanche Indians and cowboys. Of special interest to children is the story of Funny Feather, an Indian boy.

A focal point in the agriculture and water exhibit is an eclipse windmill.

For Tech exes, there's a replica of a buffalo robe with the institution's history depicted on it.

Drawing attention in upstairs galleries are two art exhibits.

One is a collection of French prints from the post Impressionist period. Loaned by Mr. and Mrs. E. S. Speck of Lubbock, it features work by Picasso, Cezanne, Matisse, Miro and others. It will be in the rotunda gallery through June.

The other exhibit in the art gallery includes 25 prize-winning pictures from the American Watercolor Society.

Painters represented with scenes from Maine to Mexico include Fred Whitaker, Greta Matson, and John Costigan.

A popular exhibit in the hall of natural history is "The Lord's Supper" done in mother of pearl.

The Museum also maintains a souvenir desk where brochures, post cards and other mementos of the area may be purchased.

More special exhibits and music programs for the summer will be announced, according to Dr. W. C. Holden, Museum director.

Water Study Is Recommended At Plains Station

Expansion of research on water conservation and the economical use of underground water resources as the greatest need for High Plains economy was recommended to the Advisory Council of the High Plains Station, at their meeting June 17, by Dr. C. L. Lundell, Director of the Texas Research Foundation.

With crop, fertilizer and soil research well under way for 1958, the next step would be to add a Water Specialist to the Station staff to give equal emphasis to irrigation research.

Members of the advisory Council met at the 310 acre Experimental Farm at Halfway Tuesday and heard reports on the 1958 research program under way, including ten new programs initiated in 1958 by Dr. T. C. Longnecker, Head of the Station. Facilities reported as needed to permit year round studies were a Greenhouse, small laboratory, seed storage building and an office to relieve present crowded conditions in the four room dwelling temporarily in use as a headquarters. Joe Foster of Lockney attended the meeting from Floyd County.

Frank Moore, Finance Chairman, received reports from board members in each county on the number of investors and the amount pledged to the five-

year budget of \$550,000.00 together with their plans for securing additional investors. Mr. Moore concluded his report by urging members of the Council to set up their soliciting organization early this fall. He announced that 1511 firms and individuals had invested a total of \$330,000.00 with the large majority of donors being farmers.

Harold Hinn, Chairman of the Advisory Council, presented the plans for future semi-annual meetings of the Council. One meeting will be held on the Annual Field Day in September to determine subsequent years program the other the second Wednesday in March in time to review the years program in time to make any changes found advisable just ahead of planting time.

Following a chicken dinner, served by the Home Demonstration Club at Halfway, the Council and their guests made a tour of the Station.

Mr. and Mrs. W. L. Street of Lockney accompanied Mr. and Mrs. John Garner of Tahoka to Sentinel, Okla., for the week end where they visited Tom Street and Mr. and Mrs. Elbert Corbin.

COTTON IRRIGATION — The
best time for irrigating cotton
the first time is when white
squares appear. If we water too
soon and our plants are not
loaded with squares, we cause
it to make vegetative growth
instead of fruiting growth and
this causes it to be delayed in
maturing.

Below is listed the Growth
Pattern of cotton in average
number of days:

1. From emergence to square
35 to 40.

2. From square to white bloom
20 to 25.

3. From white bloom to open
boll 50 to 65.

4. From bloom to full grown
boll.

5. Average number of days to
peak blooming 90 (Approximate-
ly 35 to 40 per cent of blooms
make bolls).

COTTON INSECTS — Some
fields are showing 6 to 10 flea-
hoppers per 100 terminals. Some
of the older cotton is develop-
ing nicely and should be check-
ed regularly for flea-hoppers.

Some fields are receiving
damage from the False Chinch
Bug. This insect is more com-
monly found in grain sorghum,
but is doing damage to cotton
next to wheat stubble. These
insects as adults are black with
silver wings and are rather
small. The use of Toxaphene,
one quart per acre or one and
one-half pint of dieldrin per
acre has given control.

Happiness is not guaranteed by a more prosperous community but it sure helps

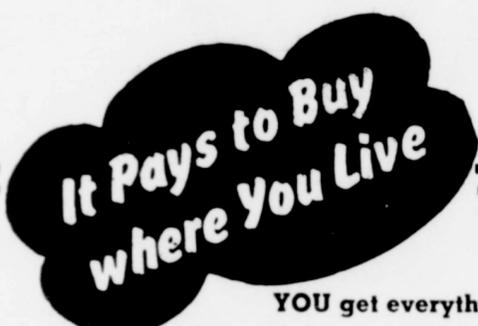

THE RECIPE for true happiness calls for various ingredients to satisfy different people . . . just as cakes are baked with a variety of frostings and flavorings to please different palates. But . . . with cakes . . . the basic ingredients are always the same . . . flour, sugar, shortening, etc. Much the same thing is true of happiness.

No matter what type of trimmings each of us may prefer on our happiness, the fundamental ingredients are about the same for all . . . first, good health . . . then a good job or a prosperous business, good schools for our children, strongly supported churches in which to worship . . . and many good neighbors, friendly and secure.

These latter things . . . call them the material ingredients of happiness, if you will . . . can be assured by a substantial and ever-growing trade volume in our community. Which we ourselves can create if all of us spend our money here . . . where we live, and make our living. Spending away from home strengthens the foundations of our city neighbors' happiness, weakens our own.

Trade in Lockney

. . . where your trade flourishes the material ingredients of your own happiness

YOU get everything that your money pays for . . . merchandise **AND** a trade-invigorated community live in . . . when you buy from your home town merchants . . .

FARM EXODUS Is Slower

College Station — A Texas A&M agricultural economist has predicted that Texas exodus from the farm to the city will be slower in the future.

Dr. Robert R. Skrabanek says that it is highly probable that the farm population will continue to decline but at a much slower rate than the 26.6 per cent — about 369,000 — who have moved to the city from 1950-57.

In the survey made by Texas A&M, in cooperation with the USDA, Dr. Skrabanek said also that the farm population declined more slowly in Texas than in nearby Arkansas, Oklahoma, and Louisiana where the loss was 30.2 per cent during the same period.

However, compared with the nationwide farm to city movement, Texas 26.6 per cent has been much higher than the national average of 18.6 per cent. The Texas farm population — 1,018,000 — made up 11.1 per cent of the state's population in 1957, with five out of every 100 farm residents in the U. S. residing in Texas.

There was much migration to and from farms during the 1950-57 survey period, Dr. Skrabanek added. An estimated 815,000 moved from Texas farms during that period, but at the same time 314,000 moved to farms.

There were an estimated 199,000 births among farm population during the period and an estimated 67,000 deaths.

The migration from farms was heavier in areas of prolonged drought than in areas where the drought was less serious.

COX APPEAL DENIED — Ex-Rep. James E. Cox of Conroe has lost another round in his fight against a two-year prison sentence.

Court of Criminal Appeals, by a 2-1 decision, upheld the trial court conviction on charges of consenting to accept a bribe. Cox's attorneys have one more recourse left — filing a motion for a re-hearing. Since the appeals court recesses June 28, this could not be considered until it reconvenes next October.

Cox's troubles rocked the state last Spring, during the 1957 legislative session. They began when Howard Harmon of San Antonio, onetime head of the Texas Naturopaths, made public a tape recording of a hotel room conversation with Cox. Harmon and the state's attorneys contended that the conversation reflected an effort by Cox to shake down Harmon in return for killing an anti-naturopath bill which Cox had introduced in the legislature.

JUDGE'S OPPONENT OUT — One election contest has already been settled, some six weeks before Election Day.

Texas Supreme Court ruled Dist. Judge Graham Purcell of Wichita Falls not eligible to

run for the Court of Criminal Appeals against Judge K. K. Woodley. Reason: Judge Purcell has had only nine years experience as a lawyer and judge.

An 1891 amendment to the Constitution requires that Criminal Appeals Court judges have the same qualifications as Supreme Court judges. At that time the requirement for the high court was seven years experience. In 1945 the Constitution was amended to require 10 years experience for Supreme Court judges.

Despite the time lapse, the effect of the two amendments is to require 10 years experience for Criminal Appeals judges, according to the ruling in the Woodley-Purcell case.

Result is that Woodley will be unopposed in the primary and win automatic renomination for another six-year term.

LINE-JUMPING THREAT — Another Supreme Court ruling on an election dispute poses an Election Day dilemma for Dallas voters.

It held that Grover Cantrell, Dallas labor official and self-styled "Stevenson Republican," is entitled to oppose Cong. Bruce Alger on the GOP primary ballot.

Cantrell's candidacy is interpreted as a move to inconvenience Dallas conservative voters. Election results for 1956 indicate a good percentage of "Big D" voters threw their strength behind Conservative Democrats at precinct conventions and primaries, but supported Republican nominees for national offices in the general election. Presumably, unless conservatives are on hand to vote, Cantrell's friends might scratch GOP favorite Alger in his own primary.

But it's a two-edged sword that applies equally to Dallas liberals. If they go to the Republican primary to help Cantrell, they can't vote for liberal Democratic contenders for state office nor fight conservatives for Democratic precinct control.

LIKE A JURY? — Defending the State Board of Health's closed door meetings, Comm. Henry H. Holle said:

"The Board is like a jury. You get a verdict, but you can't get in on their comments."

State Health Board has authority to allocate federal funds under the Hill-Burton Act to match local funds for hospital building. Its policy has been to announce names of hospitals approved to receive funds, but not those rejected or why.

Newsmen had been openly critical of the Board for barring the press from its meetings.

Mrs. Cecil Allf,
1824 ORANGE,

"The deep well cooker is so wonderful for making soups and stews that it's not surprising it does a wonderful job sterilizing baby's bottles. This is a new use that the Public Service Home Service Advisor told me about when I first got my electric range."

"I've found it's economical and practical to prepare soups and stews in large quantities in the deep well cooker and then freeze part for later use. There just seems to be no limit to the things you can do with an electric range."

"Thanks to the dependability of electric cooking, I can set my range to cook while I'm out. I love to entertain and with people in the house, I'm not tied down to the kitchen. I just let Reddy take over. So, in or out of the house, Reddy makes a good, silent, non-complaining servant."

IDENTITY of the persons in this old picture has created considerable comment. It was carried in last week's Beacon. According to John Belt, owner of the picture, the men are, left to right, Earl Alford, Francis Carthel and Kellis Reeves or Charlie Merrick. There is some doubt about the identity of the man on the right. Several people identified a part of the group. Mrs. Lee Seaman believed they were Earl Alford, Bill Alford and Charlie Merrick. G. C. Applewhite thought

they were Earl Alford, Joe Carthel and was uncertain as to the third man. The picture was on the back of a post card written in 1909 to J. L. Belt, John's father, then living at Olustee, Okla., by B. R. Carthel of Lockney. The picture was believed made in 1908. The horse in the center was a Percheon, valued at \$2500. The horse on the right is also a Percheon and Mr. Belt identified the horse on the left as a "Steel Dust" or quarterhorse. Others have called him a Hamiltonian.

Andy Rogers—

(Continued from Page 1)

protect their "darlings" and to gain new ones.

I am on their list for extermination. They will stop at nothing and stoop to anything. Their methods of political slander, deceit and legislative control have been perfected to an art. And, as has been said, "the perfection of art is to conceal art."

It is well known in Austin and Dallas that the Top brass of the loan-sharks, electric utility monopolies, gas pipelines, the liquor lobby and others are licking their chops over the slick tricks and schemes they have cooked up to deceive you about your Senator.

Actually, theirs is an old tune with a few new verses—only a little face lifting to bring their show up to date. I have suffered economically, socially and politically at their hands. But I have not run from them in the past, and I will not do so now or in the future.

Taxes And Economy
There is no need for either a sales or income tax for Texas. No other state has ever abus-

ed its citizens on tax matters as has Texas. A few examples: Nearly 55% of present taxes collected in Texas are consumer (or "hidden") sales taxes. The consumer gasoline tax is more than that paid on all crude oil. The consumer cigarette tax is larger than the total natural gas tax. Other states, even communists, can buy our gasoline tax free, but you pay 5c per gallon. Other states tax OUR natural gas up to ten times as much as we do. Roughly, 70% of both of these Texas products are consumed outside of Texas. Few of the really big industries in Texas pay more than a proportional TOKEN of taxes, compared with the average businessman, farmer and worker.

Last year two (2) groups had their taxes reduced — natural gas producers and part of the Texas electric utility monopoly. Two (2) groups had their taxes raised — 10% increase on YOUR car and truck licenses and a doubling of tuition on students of State Colleges.

CONCLUSION: Stating such facts is often political suicide in Texas, but we merely need legislators who will see that these out-of-state corporations pay their share of the load

while exploiting our resources. I have fought for this.

Labor

I will continue to fight to maintain a strong and workable RIGHT-TO-WORK law in Texas. This should be supplemented by a little Tatt-Hartley law for Texas, as our present labor laws are a hodge-podge and leave loopholes unfair to business, labor and the public.

Appointments And More Representation

I was one of a dedicated group that forced legislative redistricting. West Texas gained NINE new Representatives and THREE new Senators there-by.

For the first time in history, since I have been your Senator, our immediate area (District) has had a Chairman and member of the Highway Commission, Chairman of Water Engineers, The State Water Planning Board, the State Dental Board, the State Optometric Board, the Public Safety Commission, two of seven members of the State Board of Colleges and others.

These appointments are made with the advice and consent of the State Senate. Such things don't "just happen," and have never happened to us before.

Schools And Colleges

Our young people are our greatest resource. In 1952 I stated that we were "destroying our future with a false economy school program." We have made some advances. In these, Andy Rogers has been in the forefront.

One law I authored, which equalized our share of the State's school financial burden, has ALREADY saved our fifteen county Senatorial District nearly TWO (2) MILLION DOLLARS (from your pocket) in only 4 1/2 years.

Agriculture

The economy of our Senatorial District is based, first and best, on agriculture. No present member of our State Legislature has a record to surpass my efforts in this field. This record was made on such legislation as has been requested and approved by the farmers, ranchers and businessmen of our District. Andy Rogers' record includes accomplishments and efforts regarding underground and surface water, rural roads, seeds, feeds, "gas for irrigation," experiment station work, animal health, the Extension Service and many others.

I STILL believe that in Austin, as elsewhere, "moral integrity is needed most." I will conduct no smear campaign; I

will stick to the record and the facts.

YOU, the people of our agricultural 30th Senatorial District, elected Andy Rogers to be your State Senator in 1952 by an overwhelming majority for one-half (1/2) a term. In 1954 you gave me a full four-year term without an opponent.

It has been a privilege and an honor to be your State Senator. With humility and sincerity, I ask for the opportunity to continue to serve you.

ANDY ROGERS.
