

Kenneth Pinner Dies In Traffic Accident Dec. 26

Kenneth Wayne Pinner, 21, was killed instantly last Friday morning when the 1955 Chevrolet sedan he was driving collided with a Dodge panel truck at an intersection in Springdale, Arkansas, where he lived.

Funeral services were held at the Bentonville Church of Christ Monday morning at 10 o'clock. Burial was in the Bentonville Cemetery. Attending the services from this area were his parents, Mr. and Mrs. Ray Pinner and son, Doyle; Mr. and Mrs. Jewell Rexrode and Joe, Mr. and Mrs. J. B. Teaff, Jim Pinner, Mrs. Cecil Pinner and sons, Bobby and Arlie, Glen Cooper, Roland Watson, James Morris, Cleona Graves, Eldon Wylie of Providence and Mr. and Mrs. Oscar Ray Wylie of Somerville, and Fay Pinner of Dimmitt.

The parents had left here at 6 a. m. Friday going to Arkansas to visit their son and his family and knew nothing of the accident until they arrived at Springdale. The accident happened at 7:55 a. m. only about a half mile from young Pinner's home.

Relatives said that Kenneth had just left home going to his work and was traveling east on Highway 68. The panel truck was coming in the opposite direction and turned off to the left to take a cut-off to another highway when the two vehicles collided. Two brothers in the truck were cut and bruised but not seriously injured. Kenneth suffered a crushed chest and a broken neck in the collision.

Kenneth was born August 22, 1937, at Levelland. He had lived here most of his life and attended Lockney schools. He moved to Arkansas in early 1956 and was married there in September of 1957. He was a member of the Bentonville Church of Christ.

Survivors include his wife, Ardyth, a two-months-old daughter, Melinda Beth; his parents, Mr. and Mrs. Ray Pinner of Lockney; one brother, Doyle, and his grandmothers, Mrs. Verga Pinner, Lockney, and Mrs. Frona Lee, Hamlin.

Griffith On Second Team

Five Longhorns On South Plains All-Star Squad

Lubbock Avalanche-Journal released their annual All-South Plains football team in the paper's Sunday issue. Duane Griffith, Lockney center who is a candidate for the Class All-State team, was chosen second team defensive middle guard.

The All-South Plains squad is composed of players from schools with AAA, AA, A, and B classifications. The selections were made by the Avalanche-Journal sports staff. Griffith and other Longhorns would have possibly been rated higher had any member of the Lubbock paper's staff seen the Big Red in action.

Griffith was the lone 2-AA athlete selected unanimously to both the offensive and defensive All-District team. The Longhorn center and co-captain was also picked to the All-Regional team.

The Lockney club placed four players — fullback Bill Race, end Milton Mickey, tackle Steve Handley, guard Dan Smith — on the All-South Plains honorable mention list.

Handley and Smith were on both the offensive and defensive All-District team. Race made the offensive eleven and Mickey the defensive unit. Race, Handley, and Smith were given honorable mention on the All-Regional team.

Tackle Danny Shipley of Floydada and linebacker Arno Hall of Olton were named on the first defensive unit of the All-South Plains grid squad. Selected to the second defensive team was Lyndal Black, Muleshoe end, Bill Patterson, Floydada end, and Carroll Powell, Abernathy guard, were placed on the second offensive eleven.

County Officers To Be Sworn In Today

Several county officers, those elected in the November general election will be sworn in today (Thursday). County Clerk Margaret Collier will swear in the officers and she will be sworn in by County Judge J. D. McBrien.

Those who will be sworn in include County Judge J. D. McBrien, Miss Collier, District Clerk Mary L. McPherson, County Treasurer Troye L. Stansell, County Surveyor W. D. Newell, Justice of the Peace J. J. Harris, Commissioner Precinct 2 Bob Jarrett, Commissioner Precinct 4 Bill McNeill.

"NOT TOO GOOD, NOT TOO BAD" BABSON SAYS OF 1959

1. Not too good and not too bad. Both the boom and the recent recession will be awaiting developments following the recent November elections.

2. 1959 will be a "do nothing" year for Congress. Both parties will hold their cards close to their chests until 1960 — when the Republicans will want good business. Most Democrats will vote for most of the inflationary legislation; but only a few of these Congressmen will vote for such legislation over the President's veto. The Democrats will be in a dilemma. In their hearts they will not want good business in 1960; but they must be very careful not to do anything which could be held against them in 1960.

Every act of Rockefeller's and of other leading Presidential candidates of both parties will be carefully scrutinized to analyze their vote-getting possibilities for 1960. We will comment on these possibilities in our Forecast for 1960 a year from now.

3. So long as Russia is fearful of China's loyalty, she will not intentionally start a shooting war. I hope that Chiang Kai-shek will come to his senses so that China will become an ally of the United States. Marshall surely bet on the "wrong horse" when he made his report to Truman.

4. Our national budget will show a heavy deficit in 1959. This and other factors should cause a continued gradual, although not dangerous, inflation.

5. Serious competition will continue at all levels in 1959. Manufacturers, merchants, and others who reduce advertising and other selling appropriations will surely suffer.

6. Despite competition, the profits squeeze will be eased for many concerns by strenuous cost-cutting programs and improving business.

7. More foreign goods will enter the United States during 1959. This especially applies to German, Italian, Japanese, and Russian goods.

8. New cargo ships, built in Japan, England, Germany, Norway, Sweden, and Italy, will be launched in 1959. This should result in most American-built and American-registered ships operating at a loss. More subsidies will be demanded.

9. Failures may not increase during 1959. Some big corporations, now listed in the Dow Jones Averages, may get in financial difficulties.

10. Federal cost-of-living figures will be disputed in 1959. Labor rates and wages which have been tied to the Federal Tables will be disputed by both Labor and Management.

11. On the basis of the above statements, I forecast, on the average, no wide change in 1959 for commodity prices. The recent recession is not over. Russia is still fighting us with an economic war.

12. There will be more strikes and labor troubles in 1959 than in 1958. Due to fear of unfavorable labor legislation and poor business conditions, labor leadership.

LOCAL MAN CHARGED WITH MURDER IN DEATH OF WIFE

Robert Branum, 37-year-old employee of Paymaster Gin at Aiken, has been charged with murder by Floyd County officials after his wife was shot one time in the face with a 12 gauge shotgun some time last Sunday afternoon on a Highway near Lockney.

Officers said that Branum carried the body of his wife, wrapped in a blanket to a point near Hugo, Okla., where he threw it into Red River. The body was recovered shortly afterword by Oklahoma peace officers and Branum was arrested at the home of his cousin near Hugo.

Sheriff Walter Hollums and District Attorney John Stapleton left Monday afternoon for Paris, Texas, where Branum was lodged in jail. They were due back in Floydada with the prisoner late Wednesday. They had not returned at 5 p. m.

Branum and his wife, who moved here last fall, were making their home in one of the Kenady apartments on Southwest First Street. Branum told officers at Paris, Texas, that he had shot his wife and his only explanations was that he was "just fed up." He said that he and his wife had been drinking and he had shot her during an argument.

Branum apparently left here late Sunday and drove to his mother's home at Roxton, Tex., near Paris, where he arrived about 4 a. m. He told his mother that he had shot his wife and when she went toward the pickup he drove away. He crossed Red River into Oklahoma and went to the home of J. C. Boss, a cousin, whom he asked to help him bury the body. Branum leveled the shotgun at Boss and forced him to accompany him but Boss later slipped away and notified officers. Branum then carried the body to the river where he weighted it with rocks and threw it into the muddy waters.

He then returned to his cousin's home where he went to sleep and where officers arrested him. He took them to the spot he had dumped the body and it was recovered with grappling hooks.

Branum had been the object of a two-state hunt since local officers started a search for him Sunday afternoon.

Local sources said that Horton Kenady, son of Mrs. Jewell Kenady, owner of the Kenady apartment, and a brother of the accused, Milton Branum, had gone to the Kenady farm near South Plains Sunday afternoon on an errand and had taken along Kenady's 12 gauge shotgun to hunt rabbits. They had shot some rabbits on the farm and while there Robert Branum and wife drove up having followed the two men to the farm. Kenady and the younger Branum started back to town and stopped enroute, having sighted a rabbit. While there Robert Branum and his wife again drove up to

them. Branum asked to borrow the shotgun to shoot some rabbits since the other two men were coming back to town. Kenady hesitated knowing that Branum had been drinking but agreed to loan the gun upon the urging of the younger Branum.

Within a short time after the two had arrived at their home here, Robert Branum drove up in the pickup and asked his brother about a 5-gallon gas can. When none could be found he said, "Skip it," and started to leave. The younger man asked him if he had shot any rabbits and he answered, "No, but I shot my wife."

Robert was reported to have threatened the life of his brother if he told officers and then left. Kenady found Milton Branum crying at the rear of the house and when questioned the younger Branum told Kenady what had happened. Kenady immediately drove to town and notified officers. The older Branum had a considerable amount of blood on his hands and arms, the brother said.

It was believed here that Branum shot his wife somewhere along Farm Highway No. 135 east of Lockney between Lockney and the intersection with the Floydada-Silvertown highway. It was on this road that he borrowed the shotgun.

The pickup Branum drove to Oklahoma belonged to C. L. Vincent, local farmer, for whom Branum once worked. He had loaned the vehicle to Branum to drive to his work at the gin at Aiken.

Branum and his wife had no children but he had a 12-year-old son by a former marriage. The boy lives at Roxton. The woman's body is in a morgue at Hugo awaiting word from relatives. Her parents are reported to live in California.

Hollums and Stapleton were delayed in returning with the prisoner due to the necessity of questioning a number of people who had talked with Branum after he arrived in that area with the body of his wife. The Beacon was told.

EDITORIAL

A new commandment I give unto you. That ye love one another; as I have loved you, that ye also love one another. John 13:34.

MUCH PUBLICITY preceded the Christmas holiday season urging drivers to drive carefully and avoid accidents. One phrase which we hear a great deal about is "Speed Kills". No doubt this is true and that many auto accidents result from excessive speeds. But there is another type of driver on the highways that is just as dangerous and that is the "slow-poke" driver. Seems to us it is just as dangerous to drive a car down a crowded highway at 30 miles an hour as it is to drive at 70 mph. Ninety-five per cent of the autos are running at better than 50 miles per hour, many of them setting on 60, some exceeding the speed limit. The "slow-poke" driver creates a dangerous situation with most other cars trying to pass him and having to wait for the opposite traffic to clear. Maybe we ought to have a minimum speed limit as well as a maximum.

THE CATHOLIC bishops of the United States joined Friday in a statement saying that their church is "undergoing the worst persecution in the 2000 years of Christianity." It is strange to hear the Catholic Church complain of persecution when it has been the chief instigator of

religious persecution since the Dark Ages. Today in Spain, where the Catholic Church is the state church, a protestant or non-Catholic group cannot meet in a public place to worship. They cannot even advertise their meeting to let others know that they are meeting to worship. Couples of protestant faith cannot be married. Their own preachers are not allowed to marry them and the Catholic priests won't do it. In Italy for many years missionaries from this area fought a battle with the Catholic Church and officers of the state for permission to put a sign over their building telling the populace what kind of church it was. In South America Catholic believers, urged on by priests, have stoned protestant believers and missionaries, wrecked their buildings, and virtually made it impossible for them to worship. Now the persecutor turns and says he is being persecuted. Many of us will worry little about the matter.

IN THE UNITED STATES the Catholic Church is trying in many ways to increase its power and influence with the government. The Catholics already have more governmental influence than any other religious group. They believe in the union of the church and state, not the separation which is the law of this land and whatever they can do to enhance their position with the government you may be sure and they will do that thing. The nation expressed its opinion on Catholics in office in 1928 when Al Smith ran for the presidency. Whether that attitude has been changed is not known but we may find out in 1960 when the Democratic party may again present a Catholic as a candidate for the highest office.

WHAT IS SO thrilling about stealing lights off an outside Christmas tree? Apparently someone in this community or some nearby community thinks there is a great deal of fun in such action since a number of lights were stolen from trees in Lockney during the Christmas season. We can't believe that anyone would want lights for their own tree bad enough to steal them and thus we conclude that someone is doing the stealing for the kicks. A thief is a thief whether he steals a string of Christmas lights or a wad of money. Seems to us it would be somewhat annoying to go around branded by one's conscience as a thief merely because we wanted to do something exciting. Don't believe it's worth the price.

With Our EXCHANGES

LABOR PARTY

George Meany, president of the AFL-CIO, drew enthusiastic reaction the other day when he suggested that organized labor "may have to form a political party of its own" in the U.S. The enthusiastic reaction came from AFL-CIO members in the New York convention assembled, but it is doubtful if their enthusiasm for a Labor Party could be any greater than that of a lot of us who prefer to be free agents in the getting, performing and improving of our jobs.

I am one who should like very much for organized labor to set up its own political party and thus free the Democratic Party from labor domination which is becoming greater all the time.

That would permit labor to function freely and aboveboard politically. It also would give the rest of us an opportunity to once again work within the framework of a party whose principal interest would be better government for the majority of Americans, rather than the advocate of special privileges for tightly organized minorities. — Plainsman in Lubbock Avalanche.

SCHOLASTIC AWARDS
Twenty-four of the brightest

Dennison high school students are now being awarded varsity jackets similar to those handed out for athletics. The way they earn one: excellence in scholarship!

By Dennison rules, 12 awards go to boys and 12 to girls. They are distributed in sophomore, junior and senior classes.

Achievement in English, mathematics, science and social science — four pillars of education — earn the awards. Academic work has taken a back seat to the Golden Extra-Curricular in our high schools too long. This "letter award" system looks good for encouraging studying and pride in scholarly achievement.

When we were in high school any kid taking books home to study was considered slightly odd. Any teacher assigning over 30 minutes homework was rated an Enemy of the People.

Crosbyton schools already give certificates for high academic rating and, who knows, perhaps one day they'll be handing out varsity jackets too. Our warped system of values is getting back into balance. — Rambler in Crosbyton Review.

ALASKA

They seem to be having somewhat of a boom in Alaska, along with several promotions by alert con men. Anchorage real estate prices have zoomed 10 and 15 per cent, along with other investments. Groups from Louisiana, North Carolina, New York and other states have formed development corporations to invest in Alaskan ventures. People are also showing up from foreign countries. Most all of them are surprised to find that good farm land runs up to \$100 an acre in many places, whereas they had figured on \$2 and \$3 an acre. I wonder if Dave Beavers ever proved up his claim? — Jimmie Gillentine in Hereford Brand.

Dear Editor:

I see where the President has promised to keep a tight rein on spendthrift lawmakers during this next spell of Congress, and it's leaders say they are going to hold him down from spending too much.

Which my jeerful neighbor says ought to guarantee us a cheap government unless like and the lawbreakers lose control of each other.

And he thinks if they do get a real economy epidemic started as advertised, the next logical move would be to put national traffic control in the hands of a select committee of ditch-'em players.

Rev. Lee Roy Brandes, son of Mr. and Mrs. Ben Brandes of this community preached the morning service. Brandes now is serving Emmula's Lutheran Church at Seguin. They will leave Wednesday.

New Year's Day service will be held at Trinity Lutheran Church Thursday at 10 a. m.

HAS HEART ATTACK
 Carl Weathers of Kress, son of Mr. and Mrs. Clayton Weathers of Lockney, suffered a heart attack on Christmas Day but was reported to be at home and improving this week. He must remain in bed 12 to 15 days, relatives said. He suffered the attack at the home of his mother - in - law in Lubbock where the family was spending Christmas. Carl was reared here and lived here all of his life until he moved to a farm near Kress about 10 years ago.

"Not Too Good—"
 (Continued from Page 1)
 ers were on their good behavior in 1958.

13. It is now difficult to forecast the unemployment situation for 1959. Owing to the increase of automation, working forces will continue to be cut. Looking ahead to the elections of 1960, manufacturers, who are mostly Republican, will want no more serious unemployment to occur.

14. Many plans for expansion of plants were postponed during 1958 for fear of a real depression. Some of these plans will be executed in 1959, although on a more moderate scale.

There will be a need for continued economic readjustment in 1959; but the playing of politics by both parties may temporarily postpone it.

15. 1959 will not see any marked change in money rates. However, borrowers who have not established good credit will continue to find it difficult to get new funds in 1959.

16. This means that it should be more difficult, on average, to sell long-term bonds in 1959 than in 1958. Buy only non-callable serial bonds or bonds of reasonably short maturities.

17. The supply of non-taxable state, municipal, and revenue bonds will increase during 1959. This will be due both to less readily available credit and to rising needs of municipalities.

18. The "fly-in-the-ointment" will be the uncertainty of the Federal policy regarding the new \$30,000,000,000 roadbuilding program. Will it compete with or protect toll roads recently built? I believe this program will not harm outstanding Turnpike Bonds.

19. Many investors will switch from stocks into bonds in 1959, thus obtaining both higher income and better security.

20. As inflation becomes more serious, only short-term bond issues — other than convertible bonds — should be held to maturity. Bonds should no longer be considered good "permanent" investments unless they are non-taxable or convertible on a reasonable basis.

21. The best investment policy during 1959 will continue to be a well-diversified portfolio — of stocks, short-term bonds, and cash. Every conservative investor will keep one-third of his portfolio liquid, to have funds available in case of a sudden very severe drop in the stock market. This will come some day.

22. As the 1958 Congress has not accomplished more in correcting abuses in the Teamsters Union, the 1959 Congress will do little to improve the labor situation. Therefore, invest in companies which will not be subject to strikes. Banks and utilities probably are the most nearly immune.

23. The Taft-Hartley Act will not be amended, nor will labor's exemption from anti-monopoly laws be removed, until after the 1960 election. Labor leaders will get more and more power until — with Russia's help — they bring on a real depression.

24. Due to unemployment and the difficulty of borrowing funds for installing automation (automatic factories), the machinery industry will continue quiet during 1959.

25. I now see no probability that either wages or retail prices will be "fixed" during 1959 unless Russia threatens World War III.

26. Most wage-workers will be more efficient during 1959, which should enable some managements to increase their productivity and profits.

27. Executives will attend more strictly to business during 1959, reducing time spent on luncheon clubs, golf, etc.

28. Good building land on the proper side of growing cities will continue to increase in price notwithstanding a decline in suburban building. Small farmers holding such land should not now sell.

29. Small farms without any suburban possibilities may well consider selling to adjoining farmers if offered a fair price in 1959.

30. Large commercial farms with latest machinery should prosper during 1959; but small farmers may not do so well.

31. Pending a serious war, there will be no radical change in the Government's farm policy during 1959.

32. With less fear of serious war, the real estate situation in the larger cities may improve; but municipal taxes will increase.

33. Some suburban houses now owned by well-paid executives will come on the market in 1959, due to loss of positions or moves to other sections of the country.

34. Real estate mortgage money will be tighter in 1959 than in 1958. Furthermore, due to inflation, it will be worth less when due.

35. The demand for motels is largely satisfied; but there will be an increasing demand for very modern apartment houses — especially of the co-operative type. Old houses of all kinds will depreciate during 1959.

36. Woodland will continue to be in demand during 1959. This especially applies now to pine, which is used for pulp. Hold woodland in 1959.

37. More Russian imports of pulpwood may be expected in 1959; but this should largely be offset by the increased domestic demand for cartons and packages for shipping and displaying merchandise.

38. Both timber and oil reserves of Canada will gradually increase in value. I am bullish on many Canadian and African investments.

39. The greatest factor in determining the price of city land and businesses in general is the automobile and availability of parking space. This is responsible for both the boom in suburban real estate and the decline of city property. Buying city real estate without nearby parking facilities is a great mistake.

40. I was wrong in my forecast a year ago as to the Dow-Jones Averages. Although many stocks sell lower today than a year ago, the Dow-Jones Averages — especially the Industrials — sell higher. However, I will again run the risk and forecast that they will sell lower sometime in 1959 than they do today.

41. My forecast of the bond market for 1958 was correct. I am inclined now to reverse that forecast in the case of long-term non-convertible corporate bonds — that is, they should sell for less sometime in 1959 than they are selling for today.

42. I continue to forecast that high-grade, cumulative, non-callable first preferred stocks will sell higher sometime during 1959 than they do today.

43. I repeat what I said last year regarding "cheap" stocks: "The large fortunes made in the stock market have come from buying non-dividend-paying common stocks at \$5.00 a share or under. These will be the first to reach a buying level." If you are to buy these low-priced common stocks, you should seek companies without too much prior debt or cumulative preferred stock outstanding. They are the best common stocks for "capital gains."

44. Convertible bonds should hold up fairly well during 1959.

45. The best investment policy for 1959 is for one now to have a good bank account so funds will be available to buy bargains when a sufficient break comes in stocks, bonds, real estate, and commodities.

46. There will be many failures in hastily organized electronics, nuclear, and similar companies during 1959.

47. With two or three exceptions, railroad stocks should be avoided during 1959 and until a definite long-range program of government aid is assured.

48. For steady income and fair marketability, well-established utility stocks should be the best for conservative investors not looking for profit. This especially applies to cumulative first preferred non-callable utility stocks.

49. The three handicaps to American business are the fear of inflation, the fear of union labor leaders, and the fear of President Eisenhower's physical collapse.

50. The three hopes for America are our churches, our schools, and a desire to "pay as you go!" For these to function properly we must depend upon the parents of our nation.

Spring Fashions To Be Shown At Texas Tech Show

Lubbock — Cottons — from sheer gossamer-like voiles to heavy coating — will be featured at a national premiere of women's spring fashions January 27 at Texas Tech.

Fabrics for the show, which is sponsored by Tech's School of Home Economics, Vogue Patterns and other national manufacturers, are being furnished by textile mills from the east to west coasts.

"All the fabrics are representative of the finest in design, fiber, construction and color," said Dr. Gene Sheldon, head of Tech's clothing and textiles department. Most of the fabrics will be available in local market during the early spring.

A collection of colors featuring greens, reds and blues in a wide range of values and intensities will highlight the fashion show. Vivid prints and subtle color combinations will be shown.

Fabrics are being selected for round-the-clock activities. Modeled will be appropriate apparel for activities ranging from leisurely breakfasts to gardening, afternoon shopping, meetings, luncheons and teas.

Attire for evening affairs — both formal and informal — will be presented and the show will be climaxed with garments for a bridal party.

Fashion highlights of the show will include suits of cotton tweeds; matching skirt and jacket outfits which fit themselves into a basic wardrobe; and a coat with a weatherized finish to make it wearable rain or shine.

These new fabrics are being made into garments by more than 40 students in Tech's clothing and textiles department. Dr. Sheldon is supervising their work.

Shorthorn Banquet Reveals Jr. High Football Queens

Cheryl Rucker and Sandra Smith were crowned Junior High Football Queens at the Shorthorn Banquet Saturday night, December 13 in the High School cafeteria.

The girls tied for the honor and both reigned as queens. The royal throne was decorated in the high school colors and placed under football goal posts on a carpet of green. Terry Mosley and Paul Ballard crowned the queens and presented them with gold footballs.

Pat O'Brien served as toastmaster for the program and Coach Elvin Lyon gave a talk following the invocation offered by David Cates. Coach R. L. Rhoten introduced the

football boys and their dates. Special songs were presented by a group of football players, accompanied by Miss Barbara Carruth. Tommy Musser gave the benediction.

The banquet tables were laid with white cloths centered with a strip of red paper. Centering the head table was a miniature football field. On the side table were small goal posts featuring the school colors of the opposing teams played during the season. Place cards were miniature football jerseys featuring the number of the player instead of his name. Hanging from the chandeliers were multicolored balloons carrying the scores of the games played. Places were laid for 65.

Mothers of the football players were in charge of arrangements for the event and freshmen homemaking girls served.

THE CHURCH FOR ALL ... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Day	Book	Chapter	Verses
Sunday	Philippians	1	3-6
Monday	Philippians	2	1-5
Tuesday	I John	1	5-7
Wednesday	Ephesians	5	25-28
Thursday	Ephesians	5	29-33
Friday	I Corinthians	7	10-17
Saturday	Romans	12	4-5

It was autumn, and as we looked out at the beauty of the valley Bruce asked me to marry him. Though I loved him, I was afraid to say yes.

I've always been a church-going person. Bruce wasn't. I knew that before I could marry him I would have to show him how much the Church meant to me. I asked him if he would start attending Sunday service with me.

He did; and in the beginning I knew that he was coming only to please me. Then, as time went on, I could see that the Church was beginning to have a new meaning for him. And finally the day came when he turned to me and said, "I had no idea what I had been missing."

That was the turning point. Bruce and I have been married five years, now—and you'll still find both of us in church each Sunday.

THIS IS A SCENE from the film, "Too Young To Retire" to be shown at the Plains Theatre as a feature of John Deere Day on Wednesday, January 7th.

JOHN DEERE DAY SET HERE WEDNESDAY OF NEXT WEEK

Lockney Implement Company's annual John Deere Day will be held here Wednesday of next week, January 7th, according to announcement by Pat Stanell, manager, early this week.

The big event will be featured by a free lunch at the noon hour at the local implement house and a free show at the Plains Theatre here in the afternoon. The lunch is set for 11:30 a.m. and the show will begin at 1 p.m.

Tickets to the affair are available without charge at the Lockney Implement Company and local farmers and their families are urged to get all the tickets necessary for the whole family to see the show.

The show at the Plains will include a feature picture in color along with several shorts. Cantagenerous Tom Gordon, farm character long popular with John Deere Day audiences, stars in "Too Young to Retire."

As usual, he gets himself into a situation that involves the whole Gordon family, and then takes only his own advice in finding the solution. There is plenty of fun and suspense before everything ends well.

Harvesting takes the spotlight in "Oddities in Farming." This film subject, always popular with John Deere Day audiences, will show a custom built pea harvester in Wisconsin; a field-going packing plant for sweet corn in Florida; and a big salt recovery operation in the San Francisco area.

Another new edition of a popular feature, "What's New for 1959," will introduce the portable, batch-type John Deere Grain Dryer. Detail of controls and operation of the dryer will be clearly shown, and principal steps in an operating cycle will be demonstrated. Besides the dryer, three new multi-purpose sprayers will be introduced, together with an exciting lineup of other new equipment.

"Building the Big Ones" is the title of another fascinating section of the program. This film will take the audience "behind the scenes" to see how the giant 95 Combines are built at the John Deere Harvester plant.

There are plenty of music and variety acts, too, in the John Deere Day show. Everyone will

enjoy the numbers put on by the John Deere Singers and Dancers. The Mid-States Four, nationally known quartet, will present some close "barbershop" harmony as well.

For the unusual in music, there's Will Mahoney. This performer makes music with his feet, by actually dancing on the xylophone. Another professional is George Johnstone, magician. John Deere Day guests will have some surprises when this entertainer unfolds his tricks. A straitjacket escape, featuring "Max the Magnificent" promises to be one of the most talked-about acts.

One of the most famous vaudeville troupes of all time, Willy West and McGinty, will wind up the show. Not a word is spoken, but these masters of pantomime would never be heard anyway over the laughs of the audience.

Chuck Wagon Gang At Floydada Sat.

The Chuck Wagon Gang, Columbia recording artists, will appear in person at the Floydada High School auditorium on Saturday evening of this week for a two-hour gospel concert, according to Glen Amburn, March of Dimes drive chairman for this county.

All proceeds from the concert will go to the March of Dimes drive, Amburn said. Admission will be \$1.00 for adults and 50 cents for children. The program starts at 7:30 p.m.

Mrs. Wedeman was converted and joined the Methodist Church at the age of 12 and was a charter member of Flomot church which her husband helped to build.
