## Lockney Cagers Play At Morton And Muleshoe

Rugged road games face Lockney High basketball teams when they play at Morton Friday night and journey to Muleshoe next Tuesday. The Longhorns can stay in the thick of the 2-AA race with two victories.

The district crown in the boys division is still up for grabs. The race is in an even bigger turmoil after Tuesday night's games when Abernathy suffered it's first setback at the hands of visiting Morton, 41-38, and Muleshoe slipped by Olton, 42-38.

2-AA is having a four-team tussle with Muleshoe, regarded as one of the weaker district quintets, leading the pack with two wins and no losses. Co-favorite Morton has a two won, one lost record and Lockney and Abernathy are third with one loss and one win. Olton is seemingly out of the running with no victories in three outings.

The conference may have no undefeated team next Wednesday after Muleshoe faces two rugged outfits — Abernathy and Lockney — this week.

The picture in the girls' division will clear when Muleshoe and Abernathy lock horns Friday. Both have 2-0 records in 2-AA action. Lockney and Morton should also have a close game Friday night.

The Abernathy sextet had little trouble downing Morton, 65-38. Tuesday night while Muleshoe had an easier assignment, trimming Olton, 45-15.

Local teams were idle Tuesday night.

Muleshoe will journey to Abernathy and Lockney will play at Morton Friday. Olton has an open date. Next Tuesday, Lockney will be at Muleshoe and Abernathy battles Olton. Morton is idle Tuesday.

The 2-AA race reaches the halfway mark Tuesday. Each district representatives will have met every 2-AA foe one time.

Always rugged Abernathy visited Lockney last Friday and carried home twin victories. The 2-AA co-favorites boys dealt the Longhorns a heart-breaking 47-46 loss after the Antelopes had topped the Longhornettes, 63-29.

By using a strong fourth quarter the Longhorns almost overcame an eight point deficit. The visitors led 39-31 after three periods but it took the Big Red only three minutes in the fourth stanza to score eight points and pull into a 39-39 decalock.

The final five minutes were nip and tuck. Abernathy made two points, but with 3:06 remaining the local quintet tied up the contest. The Antelopes pulled ahead 45-44 with 1:08 to play and Gerald Watson sank two free tosses to make the score 47-44. Moe Mickey canned a jump shot with :53 remaining to make the final score. The Longhorns missed a shot with about 20 seconds left on the clock.

Abernathy held quarter leads of 15-13, 28-25, 39-31. Mickey dropped in 25 points to be high point man. Jim Minter made 12 for the Big Red. Bob Heath, 15, and Phil Guinn, 10, led Abernathy scorers.

The Abernathy girls, defending state champions, built up a 23-11 first period lead and were never headed. The visitors were ahead 39-12 at intermission and pushed the score to 53-18 after three stanzas.

Margie Guinn and Linda Shipman scored 18 and 15 for the Abernathy sextet. Pat Buchanan led the Longhornettes with 10.

## Below Zero Weather Hits Area Again

For the second time this month, this area has experienced below zero weather. Early Wednesday morning the temperature was quoted at three degrees below at 6 a.m. and four degrees below at 7 a.m.

**Only 1540 Polls Paid Wednesday**

Only 1540 Floyd County citizens had paid their poll taxes up to Wednesday afternoon, County Tax Collector T. T. Hamilton reported in answer to a Beacon query.

"It's awful slow and it looks like we'll be doing good to sell 2,000 polls," Mr. Hamilton said. The normal is around 2600 poll taxes plus some exemptions.

The last date to pay poll taxes is January 31st, which is on a Saturday this year. Mr. Hamilton said that his office will be open until 5 p.m. on that day instead of closing at noon as is the custom on Saturday.

State and county tax collections have also been slow this month but 86.6 per cent of current taxes had been paid on January 1st. Thus the payment of these taxes is up to normal, the tax collector said.

All things were made by Him; and without Him was not anything made that was made. — John 1:3.

THIS TIME last year this country was rich with moisture. We had enjoyed the benefits of several snows and the ground was wet for a considerable distance. Some were saying that it was as wet as in 1949 when the big sleet came. This year dry land wheat is suffering, some of it dying for lack of moisture. We really haven't had any moisture of any substantial amount since last summer. A slow soaking rain is needed badly now. Such is the variance of weather on the high plains.

THE STATE Legislature has a big job facing it. Continuing rise in costs of things, plus more demands for services by the people of the state, all add up to a need for a considerable amount of money. Where the money is coming from is a big question. Last year there was a great deal of sentiment for a state sales tax. We know that

#### STATE TAX PLAN

Various state legislators are presently making preparations and devising plans to overcome this enormous increase in the state budget. They are talking everything from a general sales tax to temporary taxes on oil and gas production.

In our opinion, our own representative, W. S. (Bill) Heatly, has come up with a tax plan that is not only the best solution to this problem, but the more practical as far as the general public is concerned.

Heatly's proposal would bring in approximately \$135,000,000 of the necessary funds to offset the new budget. He suggested that a tax of five cents on a bottle of beer and a tax of two cents per ounce on whiskey. These two items are now taxed less than any other product.

Smokers pay five cents per package tax on cigarettes. Motorists pay a five cent per gallon state tax on gasoline. We firmly believe that state taxes should be equalized and that our representatives' proposal would do just that. — Kenneth Tooley in Paducah Post.

#### "I CAN GET IT WHOLESALE"

Since the close of World War II, there has been a growing number of merchandising concerns that apparently have felt the only way they can sell merchandise to the buying public is to mislead them by offers to sell their merchandise at "wholesale" prices.

In other words, these suppliers' operations are similar to the legitimate retail operation with one exception — they promise to sell the consumer at the same price at which they purchase the merchandise from the manufacturer or at "wholesale" cost.

Since, if the concern intends to stay in business, such transactions are not possible, it is one of the best examples of "false" advertising and the public pays the penalty.

It is also estimated that the amount of consumer merchandise being purchased by business organizations supposedly at wholesale prices and for the purpose of reselling to their employees, reaches a staggering total each year in excess of 19 billion dollars! Many such items, while being bought under the assumption that the prices are true wholesale prices, are actually higher than those charged by the retailer. — H. M. Baggarly in Tulsa Herald.

#### COOPERATION IN WATER PROGRAM

The outcome of a hearing on "tail water" waste before the High Plains Board in Lubbock this week should be consoling to most residents of this area.

The violators merely agreed to comply with regulations, and the case became a matter of cooperation in the preservation of a valuable natural resource.

Actually, when you get down to brass tacks, it seems to us that most similar cases will follow this pattern. No one endorses sheer waste of water. Just because it is plentiful does not mean that water is not expendable. As we have said before, irrigation water pretty

well belongs to the community, and every citizen of the community should be equally zealous to protect and intelligently use the asset.

Cooperation with the High Plains District and the Commissioners Court of Deaf Smith County will eliminate any future cases along this line. This, we feel and hope will be the outcome.

Certainly, water conservation is highly important; waste on the other hand is inefficient and costly. The district and the commissioners would much rather help people conserve water than prosecute or haggle with violators. All in all, the road ahead on this particular problem seems to be straight and clear. — Hereford Brand.

Dear Editor:

I see where the comptroller of Texas denies that employees in his department gave him \$28,000 cash for Christmas over the past 10 years. Says it was only \$15,000.

Which my anti-Santa neighbor says is a pretty nice wad, even with inflation, and ought to be enough to qualify the comptroller as one of the world's most highly-thought-of bosses.

Says, though, he don't believe he would like working in an office where the Christmas Spirit just seems to overpower everybody except the boss.

## EDITORIAL

All things were made by Him; and without Him was not anything made that was made. — John 1:3.

THIS TIME last year this country was rich with moisture. We had enjoyed the benefits of several snows and the ground was wet for a considerable distance. Some were saying that it was as wet as in 1949 when the big sleet came. This year dry land wheat is suffering, some of it dying for lack of moisture. We really haven't had any moisture of any substantial amount since last summer. A slow soaking rain is needed badly now. Such is the variance of weather on the high plains.

THE STATE Legislature has a big job facing it. Continuing rise in costs of things, plus more demands for services by the people of the state, all add up to a need for a considerable amount of money. Where the money is coming from is a big question. Last year there was a great deal of sentiment for a state sales tax. We know that

quite a few of the county school study groups recommended this to the state committee. It is the fairest tax, from our viewpoint, that could be levied since it taxes only the money that is spent and the more money a person spends the more tax he pays. On the other hand there is a group of people who pay very little tax and equalize the tax in that respect. But when Mr. Daniel came out saying that he would not approve a state sales tax, it seemed to kill the matter for the time. We know that it is politically popular to oppose a sales tax. But we are wondering what other kind of tax the State Legislature can levy that will provide the money needed by the treasury. We shall see

WAGGONER CARR, the Lubbock boy who won a second term as Speaker of the House, seems to have political aspirations. Looks like he is going to be running for Attorney General in 1960. We're wondering though how much the bitter race he waged for speaker will affect his popularity in 1960. No doubt but that some areas who wanted Burket to be speaker will remember the race. At any rate we'll expect to see Carr running for Attorney General, or possibly some other state office, in 1960.

WHAT CAN WE do to make Lockney and this community a more attractive place to live should be a matter of utmost consideration in our minds. While many times the people of this community are described as "the best people on earth" yet we still lose desirable citizens who choose to build their homes elsewhere. Of course the size of the town is of some consideration. Growth would help some, and the town is growing but apparently not fast enough. More co-operation with the Chamber of Commerce in its efforts to build the town would be helpful. More ideas as to what is good for the town from the common man who holds no official position would also be helpful. Many times a plain citizen sees something that would be beneficial to the community when the man in office overlooks it. More interest in the welfare of the community and more desire to see it grow and prosper on the part of all citizens is needed. We lack a certain community pride that we note in other communities.

ON THE NEGATIVE side perhaps less complaining and griping about conditions and more work to correct those conditions would help. Some people do nothing to improve conditions but spend much of their time criticizing and complaining. That type of citizen is of little value to the community. When we all take a positive approach to community betterment, then we'll see results.

### STATE TAX PLAN

Various state legislators are presently making preparations and devising plans to overcome this enormous increase in the state budget. They are talking everything from a general sales tax to temporary taxes on oil and gas production.

In our opinion, our own representative, W. S. (Bill) Heatly, has come up with a tax plan that is not only the best solution to this problem, but the more practical as far as the general public is concerned.

Heatly's proposal would bring in approximately \$135,000,000 of the necessary funds to offset the new budget. He suggested that a tax of five cents on a bottle of beer and a tax of two cents per ounce on whiskey. These two items are now taxed less than any other product.

Smokers pay five cents per package tax on cigarettes. Motorists pay a five cent per gallon state tax on gasoline. We firmly believe that state taxes should be equalized and that our representative's proposal would do just that. — Kenneth Tooley in Paducah Post.

### "I CAN GET IT WHOLESAL"

Since the close of World War II, there has been a growing number of merchandising concerns that apparently have felt the only way they can sell merchandise to the buying public is to mislead them by offers to sell their merchandise at "wholesale" prices.

In other words, these suppliers' operations are similar to the legitimate retail operation with one exception — they promise to sell the consumer at the same price at which they purchase the merchandise from the manufacturer or at "wholesale" cost.

Since, if the concern intends to stay in business, such transactions are not possible, it is one of the best examples of "false" advertising and the public pays the penalty.

It is also estimated that the amount of consumer merchandise being purchased by business organizations supposedly at wholesale prices and for the purpose of reselling to their employees, reaches a staggering total each year in excess of 19 billion dollars! Many such items, while being bought under the assumption that the prices are true wholesale prices, are actually higher than those charged by the retailer. — H. M. Baggary in Tulsa Herald.

### COOPERATION IN WATER PROGRAM

The outcome of a hearing on "tail water" waste before the High Plains Board in Lubbock this week should be consoling to most residents of this area.

The violators merely agreed to comply with regulations, and the case became a matter of cooperation in the preservation of a valuable natural resource.

Actually, when you get down to brass tacks, it seems to us that most similar cases will follow this pattern. No one endorses sheer waste of water. Just because it is plentiful does not mean that water is not expendable. As we have said before, irrigation water pretty

well belongs to the community, and every citizen of the community should be equally zealous to protect and intelligently use the asset.

Cooperation with the High Plains District and the Commissioners Court of Deaf Smith County will eliminate any future cases along this line. This, we feel and hope will be the outcome.

Certainly, water conservation is highly important; waste on the other hand is inefficient and costly. The district and the commissioners would much rather help people conserve water than prosecute or haggle with violators. All in all, the road ahead on this particular problem seems to be straight and clear. — Hereford Brand.

Dear Editor:

I see where the comptroller of Texas denies that employees in his department gave him \$28,000 cash for Christmas over the past 10 years. Says it was only \$15,000.

Which my anti-Santa neighbor says is a pretty nice wad, even with inflation, and ought to be enough to qualify the comptroller as one of the world's most-highly-thought-of bosses.

Says, though, he don't believe he would like working in an office where the Christmas Spirit just seems to overpower everybody except the boss.

**Dear Editor:**  
I see where a Special Committee reports that Social Security is a sound proposition and we can safely rely on it to finance our old age.

My bled - turnip neighbor says his business would be sound, too, if everybody had to trade with him whether they liked it or not, and he could keep raising his prices.

Says, in fact, he don't see how Social Security could ever get in any strain, with millions of auto drivers striving to hold down the number of folks who live long enough to be burdens on the fund.

**Vash Young and the 52 PHONE CALLS**

In his book, "The Go Giver", Vash Young tells of making a telephone call to one prospect for 52 consecutive weeks before he got results.

Vash Young is one of the all time great insurance salesmen. He used tact, diplomacy, intelligent presentation and persistency. In this particular instance he telephoned a prospect for an appointment. The prospect put him off until the next week. And then he put him off another week and another until the telephone calls got to be sort of a game.

Vash Young kept right on calling every week — without ever getting an appointment. On the 52nd call he was startled when the prospect told him of another man who wanted to buy a substantial amount of insurance. Vash Young followed the lead and took an order for the largest policy he had ever sold.

If Vash Young had given up after the second or third call he would never have sold the big order. And so it is with newspaper advertising. It takes more than one or two "calls" to the potential customers to get the best results. It is the consistent, persistent advertiser who eventually gets the "big order."

## TELEPHONE TALK

by J. C. Oakley, Manager

### OUR NEW YEAR'S RESOLUTION TO YOU

Happy New Year to everyone in Lockney from all of us at the Telephone Company. Since this is the season for resolutions, I thought you might want to know a little bit more about a resolution that we try to follow 365 days a year in providing telephone service to you and your neighbors.

Here it is —

### WE DEFINE OUR OBJECTIVES

"Our objective is to furnish the best possible telephone service at reasonable cost — a cost consistent with financial safety and fair treatment of employees. Service ranks above everything else in this policy. And the only good service is one that is continually improving. To furnish this service we need the best people, the best equipment, the best methods, and the best management we can develop.

Reasonable cost has been defined as one that produces an ever-growing public demand. Our equipment, training, and methods would net us nothing if the cost of service became so high that people would not buy it.

Financial safety should not be endangered by setting the price of service too low. In the long run, a price that provides profit enough to undertake new research and development results in better, cheaper service to the public.

Fair treatment of employees means good pay, good working conditions, reasonable job security, and opportunity for advancement based on merit. It is people — employees — who are the most important element in the success of any business.

### WE ACCEPT THESE RESPONSIBILITIES

"TO THE EMPLOYEES . . . provide machines, methods, equipment, direction, leadership, job training, incentives to progress, selection for promotion.

"TO THE PUBLIC . . . more and better service at a reasonable cost. Contributions to public welfare and national defense.

"TO THE OWNERS . . . run business in a sound, profitable manner.

### LOOKING AHEAD

"Progress has long been the keynote of the telephone business. And, if business forecasters are anywhere near correct, the next 20 years will bring more growth and development than we have ever seen before.

"The future can be faced confidently with a policy of equal consideration for owners, employees, and the public.

"That's probably the longest resolution you've ever heard about, but it takes a lot of effort to give you the best in telephone service.

Call by number. It's twice as fast.

Miss Glenda June Ross, daughter of Mr. and Mrs. Sam D. Ross of Flomot, became the bride of Wayne Ras Ware, son of Mr. and Mrs. W. P. Ware of Lockney in a ceremony solemnized Saturday, January 10 in Glad Tidings Chapel, Lubbock.

The Rev. Daisy M. Wiltbanks, aunt of the bridegroom, read the vows at 7:30 p. m. before an altar decorated with arched candelabra, holding cathedral tapers, and tall baskets of white flowers and greenery.

Bob Murphy, organist, Lubbock, presented the traditional wedding music.

The bride was gowned in exquisite bridal white imported Chantilly lace over blush pink satin. The gown was designed with a figurine long stem bodice of lace featuring a portrait neckline edged with lace flowers, and embroidered with pearls and iridescent sequins. The long lace sleeves tapered to petal points over the hands. The bouffant skirt was scalloped at the waltz length hemline and she wore a matching bridal white Chantilly lace mantilla to complete her costume. She carried a bouquet of white sweetheart roses atop a white Bible.

June Ware, sister of the bridegroom, was maid of honor. She wore a blue velvet dress designed on lines similar to those of the bride's gown. She wore a blue hat flecked with sequins and carried a bouquet of red sweetheart roses.

**Sand Hill News**  
 By Mrs. James Jeffress  
 We've had just about every kind of weather this week from snow to a slight duster Sunday. The snow was beautiful Wednesday but just wasn't enough. Very little moisture.  
 Sand Hill organized a community 4-H Club Tuesday night when Harold Ellison and Phyllis Roggendorff met with children and parents. All we need now is more project leaders. Mr. and Mrs. James Jeffress will be organization leaders. Mrs. Orton Miller, food leader and Mrs. Hollis McLain, clothing leader for the girls. Boys project leaders will be selected at the next meeting Tuesday night, Feb. 10. All those interested in being in 4-H or helping are urged to attend. Officers will be elected at this meeting. All members should have project sheets ready to turn in. Those present for the meeting were Becky, Lon and Trudy Miller, Elaine and Mary Stankey, Marilyn McLain, Janice Miller, Warren Mitchell, Beverly Jeffress, Joe Ed and Johnny Noel, Cecil Jackson, Betty Miller and Jimmy Huckaby. Parents present were Mr. and Mrs. Orton Miller, Mmes. Fred Jackson, Ed Noel, Lynn Miller, James Jeffress, Miller, assistant county agent Harold Ellison and home demonstration agent, Phyllis Roggendorff.  
 Happy birthday wishes to Mr. Dale Stringer who celebrated his birthday this week. Also Grandmother Holmes and Jim Holmes have birthdays within the next few days.  
 Mr. and Mrs. Leroy Durham had open house Sunday at their new home in Plainview. Although we didn't get to go everyone says it is beautiful and we know they are proud of it. They will be moving from the community some time during the next few weeks and we're going to miss them. Mr. and Mrs. Jess Stankey and family will move where the Durhams now live.  
 Mr. and Mrs. Williams and family of Wolforth were Sunday guests of Mr. and Mrs. Fred Jackson and family.  
 Mary Stankey was in Silverton Friday night and Saturday afternoon playing in the basketball tournament.  
 Buck Jackson was involved in a collision Saturday in Floydada, when a truck hit his car and smashed it up pretty bad. No one was hurt in the collision.  
 A good number was at both church services Sunday. Bro. Rowland announced that a Baptist program would be presented each Sunday afternoon over KDUB in Lubbock by the Baptist Convention. Let's all remember to watch this program.  
 Mrs. Alice Mooney of Floydada and LaWana Womack were the Sunday guests in the home of Mr. and Mrs. Jim Holmes and Billie Gail.  
 Sunday dinner guests in the home of Mr. and Mrs. J. M. Williams in Floydada were Mr. and Mrs. T. C. Hollums, Norma Sue and Beverly Jeffress.  
 Billie Dale Stringer was the Sunday dinner guest in the home of his parents, Mr. and Mrs. Dale Stringer.  
 Molly and Christy are away visiting her sister, Jo Francis who has been very ill.  
 Mr. and Mrs. W. R. Billington spent Sunday at Happy visiting their daughter, Mr. and Mrs. Ross Yandell and family, who have recently moved to Happy from Plainview.  
 Sunday dinner guests in the home of Brother and Mrs. Bill Rowland were Mrs. Dobson and Mr. Hopkins of Plainview.  
 Sand Hill Church is happy to announce that we were able to pay for our parsonage this year. It's a good feeling to know our church buildings have all been paid for, and now we are looking forward to starting another building program in the near future.  
 Let's all remember the week end revival starting at the Sand Hill Baptist Church January 30-31 and February 1. Look for other announcements in the paper next week and let's all start making plans to attend.  
 Another important date to remember is January 23, Friday night and the date for the "March of Dimes" chili supper at the Sand Hill school. The supper and games are free and all donations will go to the "March of Dimes".  
 The March of Dimes chairman is Mrs. Hollis McLain. Miss Barbara Barnard is helping so if you are unable to attend the party, one of these will be calling on you for your donation to this worthy cause.

# Your Biggest Investment (don't depreciate it)

All of us who live and work in this community are stockholders in it. As it prospers, we prosper.

Many of us have invested years of our lives and much or all of our fortunes here. Trade volume largely determines whether our stock goes up or goes down in value . . . trade volume that depends to a great extent upon our own individual and collective buying habits.

Every dollar we put into circulation here makes our investment a better one . . . more profitable in cash, in better-living dividends . . . and more valuable as a legacy for our children.

On the other hand, every dollar that we remove from local circulation reduces trade volume in our area, lowers the value of our investment.

You can shop with confidence in our local business and service firms. Your paramount importance to them guarantees more conscientious treatment and service; their entire success depends upon pleasing their home people and, because they are friends and neighbors too, they are more interested in your problems and in helping you to solve them.

**Home Making Hints**

**WHEN YOU BUY SHEETS**

Do you just assume that you are getting your money's worth from the wide choice available to you, or do you compare quality and know that you are getting the most value for the price? Do the sheets you choose fit your needs? Before taking advantage of the white sales, think a little on what you need and want.

**MUSLIN SHEETS**

Muslin sheets are made in two types. Type 128 is a medium weight sheet. It is quite strong and gives satisfactory wear for the money invested. This type is frequently used for everyday household service.

Type 140 is the longest wearing and most expensive muslin sheet. Since it is made of heavy weight muslin, you will want to

choose it if durability is your chief consideration.

**PERCALE SHEETS**

Percale is a fine grade muslin. It is more expensive and not as strong as heavy weight muslin. You may prefer percale sheets because of their smooth soft texture and light weight.

Type 180 is sometimes called fine count or utility percale. These are light weight, strong and long lasting. They feel soft and smooth to the sleeper.

Type 200 is known as combed or original percale. This type sheet is the finest, most luxurious cotton sheet made. They are light weight, fine and soft in texture. Original percale sheets are the most expensive cotton sheets on the market.

**WHAT IS THE BEST BUY?**

Each homemaker must answer this for herself. There is no "best buy" for everyone,

because so many factors must be considered: how much you are willing to pay, personal preferences, living standards, where it will be used.

There are several ways to determine the wearing qualities of the sheet.

Examine the fabric construction. The weave should be firm, close, and uniform.

Check the selvage. Good sheets are made with a tape-like selvage. It should be firm, strong and neat, with no loose untidy threads.

Appearance is determined by the fabric construction; workmanship and finish. Hems should be straight and neat, or the sheet will not fold properly.

Information about shrinkage is often given on labels. Many times the maximum amount of shrinkage which will occur is stated, with a guarantee by the manufacturer that the amount stated will not be exceeded. A label may say "pre-shrunk" not saying how much may still occur, or may say "fully pre-shrunk" indicating that no more shrinkage is expected.

Flat sheets are not always preshrunk, so it is a good plan to buy them a little larger than you need. Fitted sheets are usually preshrunk so they will fit the mattress.

Know what size you need before you buy. Sheets are made in several lengths. The 108" is most popular. This measure is made before hemming. The hems take about 5" and shrinkage about 5" which leaves about a 98" sheet.

**SANDHILL COMMUNITY 4-H**

**FLOYD COUNTY STOCK SHOW**

The dates have been set and plans are well underway for the Junior Livestock Show. The show will be held on March 9, 10, 11.

Ernest Lee Thomas has been selected as the General Show Superintendent for the 1959 stock show.

Three different judges have been selected to judge swine, sheep and steers.

Entries must be in the County Agent's Office by March 2, 1959.

Two new rules have been added and deal with weight limits. Lambs will be sifted if they weigh more than 130 pounds. Barrows must weigh 180 pounds to be eligible to show.

Caliche is being planned for the stock show grounds and new scales will be added to the show barns.

**INCOME TAX BOOKS**

The 1958 guide for income tax is available in the County Agent's Office. These booklets contain a lot of useful information.

the schools. This gives the 4-H members a better opportunity to take part in their educational program and recreation.

Mrs. Arlon Miller and Mrs. Hollis McLain will be the foods and clothing project leaders. The agricultural project leader has not been chosen yet.

We hope that all prospective 4-H members, ages 9 to 20 who live near Sandhill will attend the next meeting, February 10 at the Sandhill school house for the election of officers.

**RAT CONTROL**

The rat control campaign has proved of high interest. 4-H clubs, home demonstration clubs and FFA chapters have collected orders for 3,950 pounds of rat poison. They have ordered the bait and distribution will be made during the week of January 26, 1959.

**COMMITTEE SETUP**

The Floyd County Program Building Committee was organized Monday night, January 12. The following people were elected as officers: Raymond Rucker, Chairman; David Battey Jr., Vice Chairman; Mrs. Sherwood Ramsey, Secretary-Treasurer.

The following subject matter fields were set up to plan programs for and, sub-committee chairmen were named. Home-making, Mrs. J. T. Spears; Livestock, Oscar Golden; Field Crops, R. C. Mitchell; New Crops and Marketing, K. E. Probasco; Soil and Water, Shirley Irwin, and 4-H, Bill Colston.

This organization is being set up to plan programs that the Extension personnel need to work on during the year.

The Extension personnel felt that this is the best way to meet the needs of the farm families in Floyd County.

This group represented all communities and special interest groups in the County.

Dear Editor:

I see where some folks are complaining about the new U.S. flag, on the grounds that the star field looks unorderly, like maybe it was laid out with a shotgun.

But my non-censorious neighbor says this ragged-looking star pattern maybe represents confusion, and there is nothing wrong with having something on the flag to symbolize Washington.

Says, though, while changing the flag it would have been fitting to make the red stripes much wider, in honor of our glorious red ink complex.

# STATE CAPITAL Highlights AND Sidelights

by Vern Sanford

TEXAS PRESS ASSOCIATION

AUSTIN, Tex.—Some cheered and some wept, but none will soon forget the eventful, suspenseful opening day of the House of Representatives of the 56th Legislature.

Waggoner Carr became the third man in recent history to win a second term as Speaker of the House; and Joe Burkett became the only one in many years to lose by so close a vote — 79 to 71.

Burkett and Carr had been in a hard-fought contest for a year and a half. Burkett, from Kerrville in the Hill country, is a staunch conservative. Carr,

from Lubbock in the South Plains, had more liberal support.

When the day came, every representative was present, and the floor and galleries were jammed with spectators. Secretary of State Zollie Steakley served as temporary presiding officer. An elaborate voting procedure was agreed upon to safeguard secrecy and assure fairness.

Representatives filed to the front of the chamber, one by one, had their folded ballots initialed by the clerk and then placed them personally in the

ballot box. Six watchers, three representing each candidate, stood by.

The ballot box was opened and results called out, one by one. Only sound in the large chamber was the scratching of the pens of many score keepers, and the occasional fidgeting as the lead saw-sawed between the candidates.

A cheer went up as Carr received his victory-assuring 76th vote. A round of hand shaking, back slapping and congratulating began. Following the final count, a procession composed of Carr's family and supporters escorted the Lubbock representative to the rostrum to take the oath of office.

**ON WITH THE SHOW** — After the opening dust had settled, Legislators turned to their everyday concerns.

Most immediate and pressing problem was finding money to operate the Legislature. Since the state's main monetary cupboard, the general revenue fund, was bare (worse still, in debt), there wasn't so much as a nickel on hand to pay salaries of the lawmakers and their helpers, not even for stamps, stationery, phone calls and travel. A bill was offered to appropriate \$2,300,000 that had accumulated in two special funds.

Several plans were being talked about to solve the even more vexations long-term problem of overall budget balancing. To do so will involve finding money to pay off an expected general fund deficit of \$65,000,000 plus some \$130,000,000 in new money to meet expected expenses for 1960-61. Only alternative would be numerous and painful economies.

Generally, there seems to be two schools of thought developing on taxation: (1) those who hope to avoid a new tax by upping many present levies, such as selective sales taxes, removing several exemptions and re-shuffling funds here and there and (2) those who say the present tax blanket can't be stretched any further and that "por shot, patch work" taxation should be replaced by an overall plan to distribute the increasing cost of government among more people.

**PANORAMA** — Other items for the record of what promises to be an historic Legislature:

**SENATOR GEORGE PARKHOUSE** of Dallas is new president pro tempore of the Senate, and as such, third in line to the governor. An outdoor advertising executive, Parkhouse is beginning his third Senate term.

**NO FREE OVERTIME**, resolved Senators in one of their first official acts, a resolution to quit on the dot May 12 when the 120-day pay period runs out. House members cheered the announcement.

**A FAMOUS NAME** returned to public life as Martin Dies Jr. of Lufkin took the oath as senator. Former Congressman Martin Dies Sr., long identified with the Dies Un-American Activities Investigating Committee, came to see his son sworn in.

**"BABY OF THE HOUSE"** is Rep. Jack Connell Jr. of Wichita Falls, youngest person ever to sit in the House. Connell was

Dear Editor:  
I see where Congressman Joe Martin was let out of his job as boss Republican in the House, and he took it like a man — hollering he was robbed.

But the House is a considerable body and will keep on furnishing him with a free Cadillac to ride around in.

My ex-mayor neighbor says he was once a big wheel, only on a smaller wagon, so he can warn Joe that getting knocked loose from importance is painful, but nothing like the shock later on when you first notice how smooth things can run without you.

21 years old plus 14 days on general election day.

**A FOOTBALL STAR** when he's not a lawmaker is Yale Lery, freshman representative from Fort Worth. Lery, a defensive back for the Detroit Lions pro team, was a college star for Texas A&M.

**ONE GOVERNOR'S SON** succeeded another as W. P. Hobby Jr. was named parliamentarian of the Senate, a post held last session by Dan Moody Jr.

**AN EARLY CRISIS** was averted when the House sergeant-at-arms rushed a spittoon to the desk of snuff-dipping Rep. Jerry Sadler of Percilla. Spittoons, once a standard accessory, had gotten lost in the chamber's revamping.

**FOLKS WITH MONEY**, SPENDING IDEAS had best be armed with money — finding ideas when they come to the Legislature this year. This warning was issued by Sen. William S. Fly of Victoria in an Austin address.

**THIRD HOUSE** has its own ceremonies this year as, for the first time, lobbyists are required to register under the new law. From the length and variety of the list, there's a lobbyist for practically everything and everybody — teachers, farmers, firemen, policemen, labor unions, industries and even church groups.

**GOVERNOR'S APPOINTMENTS** — Gov. Price Daniel has appointed Secretary of State Zollie Steakley to a second term and promoted two assistants to the governor's office.

George Christian, former press assistant, becomes executive assistant, taking over non-legal duties of Jake Jacobsen. Jacobsen left to enter private law practice.

John Goldsum was promoted to administrative assistant and will take over Jacobsen's legal duties.

**PAY FOR SECRETARIES DELETED** — One of the first issues in the 56th Legislature was pay for secretaries of Sen-

## Air Show At Reese AFB Set For Saturday

Eleven aircraft will be on display at Reese Air Force Base Saturday, January 24, when the base observes open house to commemorate the passing of the TB-25 from the Air Training Command's pilot training program.

On display will be the B-25, T-33, T-37, T-28, T-29, T-34, F-100, F-89, H-21 helicopter, and the C-47 transport. All aircraft will have identifying placards, will have qualified personnel to answer questions, and will be open to the public.

The open house also will feature a parade and an air show. The parade, with an accompanying B-25 flyover, will start at 10 a.m. At 10:35 a.m., Capt. Robert Fogg, Air Force test pilot, will demonstrate the T-37 twin-jet trainer. He will be followed by Bob Hoover, North American Aviation Corporation test pilot, who will put the F-100 jet fighter through its paces.

At 11:10, the Colorado Air National Guard's crack precision flying team, "The Minute Men," will go through their maneuvers in the F-86 jet fighters. They will perform the bomb burst, diamond loop, diamond roll, corkscrew, five-ship loop, and many others.

Reese's gates will be open to the public from 8 a.m. until 2 p.m. for the occasion.

With the graduation of Class 59-E January 24, all conventional pilot training in the basic phase will end and all future classes will train in the T-33 jet trainer.

ate and House members. Generally accepted rate is \$14 per day for Senate secretaries and \$10 for the House. But a resolution must be passed setting amounts of the salaries, at the beginning of each session. Rep. Obie Jones of Austin said House secretaries should receive \$12 a day because the \$10-a-day figure was embarrassing to House secretaries when they met their Senate counterparts during coffee breaks. Rep. R. H. Cory of Victoria pointed out that the state couldn't afford the increase. "Maybe," he said, "we'll have to pay them out of our own pockets," and he pointed out that not all Senate secretaries receive \$14 — that some of them were paid as low as \$7 per day.

### TAXES PILE ON HIS DEFENSELESS BACK

## U. S. MOTORIST IS A SUCKER

If Uncle Sam keeps a sucker list, the U. S. motorist is right up near the top.

In early depression years, motorists were stuck with a federal gasoline tax and a string of automobile levies imposed as "temporary emergency" measures to help out the Treasury. Each time a new "temporary emergency" came along, these taxes were increased. And, of course, a "temporary" tax is seldom repealed.

Then in 1956 Congress enacted a massive new federal highway program linked to national defense. And who was selected to pick up the tab to defend the country, promote commerce and the like? The motorist, of course. The federal gasoline tax was boosted to three cents per gallon and other new special taxes were imposed. To make it still tougher for motorists, Washington planners refused to earmark all of the revenue collected from taxes on motor vehicle ownership to be used for the highway program. More than \$1.5 billion of this money by-passes the highway fund each year and winds up in the general fund.

Then came another "temporary emergency" — the recession — and Congress voted to enlarge and speed up the federal highway program to spread around more federal money. In fact, this program has now been boosted up so high it's beyond the receipts from federal motorist taxes originally provided for its support. We are told that the Highway Trust Fund will wind up next year some \$900 million short.

While this looks like a pretty staggering figure, it's not a bit more staggering than the conclusion being drawn from the discovery in Washington. That conclusion is that the federal gasoline tax will have to be raised next year to keep the program going. In other words, the first suggestion of a shortage of road funds produces an automatic request not just for more motorist taxes, but for higher levies on motor fuel which is already taxed at a rate far beyond luxuries.

Does the motorist want to get off Uncle Sam's sucker list? If so, let him demand that all the money he's now paying in special federal automotive taxes to be earmarked to support the road program. If this is done, there won't be any financing problem.
