EDITORIAL

And be ye kind to one another, tenderhearted, forgiving one another, even as God for Christ's sake hath forgiven you. — Ephesians 4:32.

WE JOIN with other business and professional people of Lockney in extending our congratulations and best wishes to the graduates of Lockney High School. Having one of our own this year brings us to realize even more that graduation is somewhat of an accomplishment and that it does require a considerable amount of work and study. We sincerely congratulate all the graduates, including those 67 youngsters who are graduating from the eighth grade to high school and the rural school eighth grade graduates. Their thrills are probably almost as many as the high school graduating class. The students deserve a lot of credit for their accomplishments and their happiness at the completion of this part of their school work is shared by all.

FLOYDADA'S Golden Jubilee celebration is all next week and we know that people of Lockney and this part of the county will want to join in that celebration. Considerable planning and preparation has been made and the "Prairie-rama" should be something of interest to all, especially those old timers who have spent so many years in this county. Remember that the annual Old Settlers day will be included in the event and will be held as usual on May 28, which is Thursday of next week, com-

plete with parade and everything that usually goes with it. —o—
MORE and more farmers are using weather and temperature records to reduce planting risks, the experts tell us. In addition, the weather bureau is improving the quality of their weather forecasts and thus the farmer is aided in planning his operations. The 30-day forecast is used by some in planning long-range operations but of course the 5-day forecast is more accurate and therefore more valuable to the farmer, and it usually affords enough time to make adjustments in the farming program. Good farming requires attention to detail in many different phases.

THE TEXAS Legislature is having a hard time performing their duties this year. Seems that there are too many conflicting interests. Governor Daniel and Speaker Carr are going to have to get together on this thing if anything is ever accomplished. Probably one of the hindrances to the passing of legislation is the presence of lobbyists from almost every special interest group in the state. As one official said, perhaps if all the lobbyists would go home the legislators could get down to business and get something done.

PUBLISHER TOM ANDERSON of Farm and Ranch magazine writes: "What is this thing we've inherited which we'll defend with our lives? If it's bricks and mortar, factories, cars, houses, gadgets, and places of pleasure — if that's all we're defending, we'll lose them, and all else. What are we defending against the Communists? We are defending the freedom and the dignity of the individual, the right to be masters of ourselves and of our government; and to be servants only of our God. Defend? We must get on the offensive, and take these ideas, these freedoms, and these blessings to the world. 'Containment' of Communism is only a beginning, not an end."

JAPAN TOPPED the world in shipbuilding in 1958. Lloyd's Register of Shipping reports. West Germany went into second place, closely followed by Great Britain and Northern Ireland. Sweden was next, slightly ahead of the United States.

THE AMERICAN MEDICAL Association News reports that examinations of 106 traffic violations in Chicago Municipal Court's Psychiatric Institute showed only 12 to be physically or mentally fit to drive. Ten had organic brain conditions, 11 suffered a mental illness, 21 were chronic alcoholics, 11 were mental defectives, 16 were emotionally unstable, 5 were senile, 7 had sociopathic personalities, and 13 had acute alcoholic episodes.

MR. KNUCKLEHEAD

Knuckle Head Paul Butler, Chairman of the Democratic National party, has stated that the 1960 Democratic Convention will write into the party's platform the "strongest statement that's ever been written on Civil Rights." It looks like Knuckle Head is going to finish wrecking the Democratic party if he has his way. The Democrats have a mighty good chance to capture the White House next year if they keep both feet on the ground but if the party is split, it will be "Katy, bar the door." Knuckle Head, aided and abetted by such radicals as Senator Hubert Humphrey of Minnesota and the Americans for Democratic Action (ADA) organization can, and will, destroy our Democratic party next year if given a free hand. It is high time party affairs be taken out of their hands and placed in the hands of responsible men that people have confidence in. These rabble rousers are not good for the party. Their "traps" should be closed.—J. L. Suits in Petersburg Journal.

EFFECTIVE ANSWER

The new minister in a small town had a bright red car. He drove downtown for the Rotary Club one day and couldn't find a place to park except in front of a beer hall. A member of his

flock, a lady, a widow, spotted the car there, and she started talking. By the time the afternoon was over, she had the minister dog-drunk and wallowing on the floor of the tavern.

The deacons called on the preacher and asked whether he intended to answer from the pulpit the slanderous charge.

The preacher had a different idea; he asked the church janitor to drive the red car to the widow's house on Saturday evening, park it there and leave it all night. — Cecil Waggoner in Claude News.

VANISHING AMERICAN

If plans are successful in unionizing farm labor and bringing them under the hour wage

law, we may soon find the family farm fading from the American scene. In their place will be the factory type farm, covering acres and acres of land, communal type farms if you please, and a return to the land-baron, serf type agricultural set-up.

The farmer cannot add the extra cost of labor to his product like the manufacturer. In fact, he is an economic freak in our system today. He is the only one who must practice "the law of supply and demand," i.e. sell his goods on a so-called free market.

Check the prices of manufactured goods. They are controlled and free enterprise seldom enters the picture. Supply and demand are also closely controlled. The farmer pays what is demanded but he cannot demand anything for what he sells. That makes him the rugged individual who upholds individual initiative and free enterprise. — Cecil Waggoner in Claude News.

Dear Editor:

I see where steel company and steelworker union ramrods are getting together to figure out how much more bite to put on us customers, and how to split same.

My worst-expecting neighbor says everywhere he looks these days there is another bunch of congressmen, or bureaucrats or business-labor caboots making plans to spend some more of his money their way.

And says when he comes home from a hard day on the coffee circuit, likely as not he finds his wife doing the same thing over the ladies' harness section of the mail order catalog.

Long Ago In Lockney

May 23, 1929

A deal was consummated this week between Messrs. J. W. Monroe and Ryan Speegle of the Monroe-Speegle Insurance Agency and Mr. Frank Perkins of Rising Star, Texas, by which Mr. Perkins bought the insurance business of Monroe-Speegle in Lockney.

An explosion in the oven of the Quality Bakery, owned by Lawrence Hill, badly damaged the building and oven about six o'clock a.m. Wednesday. The explosion occurred when Mr. Hill lighted the oven. The plate glass window and another window were blown out as Mr. Hill was hurled against the wall by the impact. Hill narrowly escaped death in the accident since he was not directly in front of the oven door as he usually was when he lighted the fire. Barlow Hill, father of Lawrence, who is deputy sheriff and night watchman, says he thinks someone entered the building during the night and turned on the gas jet.

George Washington Brewster, age 72 years, died Tuesday night at his home of a heart ailment. The death of Mr. Brewster marks the passing of one of Lockney's fathers. He played an important part in building Lockney from a cow camp to a thriving city. Mr. and Mrs. Brewster have been engaged in the hotel business here for 33 years, having moved here in 1896. He is survived by his wife, six children and 17 grandchildren.

FAMILY GROUP — These four are children of Mr. and Mrs. Weldon Graves of Lone Star community. They are, back row, left to right, Katherine, age 6 and Frankie, age 5; front row, Glen, age 3 and Sherry, 9 months. They were photographed at The Beacon office recently.

members elected by district caucuses rather than the whole convention. This provision was removed and the law remains as it was.

He also didn't like the Legislature's proposal to have state conventions before the second primary, so the date was changed to 10 days after the second primary.

NEW LAWS — These changes in Texas' way of doing things result from bills passed in the final days of the regular session:

DRIVING AN AUTO without the owner's permission becomes a felony offense. Under old law, to get a prison sentence, state prosecutors had to prove the person who took another's car intended to keep it. Maximum punishment under new law is three years in prison.

BOAT OWNERS will have to register their craft and pay a license fee after April, 1960. Bill also requires warning lights and other safety devices on boats and prohibits reckless boating and water skiing.

NON-ENGLISH SPEAKING children can receive three months pre-school instruction in basic English at the expense of the public school system.

STATE INSPECTION of livestock at auctions was provided. An amendment to assess livestock owners for cost of the program, estimated at nearly a half-million a year, failed.

INTERIM STUDIES have been authorized for the Investment of the Teachers' Retirement Fund, laws governing formation of water districts, financing of the Board of Water Engineers and fees charged by state agencies.

ADVERTISING PRICES as wholesale has been outlawed, unless the goods are intended for resale and a bona fide wholesale price is listed.

CALF - ROPING CONTESTS will be legal under a new law. Unknown to many people, they apparently were not legal before.

A STATE ADVERTISING PROGRAM, under the joint direction of the State Highway Department and Texas Industrial Commission, was set up. An appropriation to get it going will have to come later.

16 SUCCESSORS to the governor were officially designated in a continuity of government bill passed to assure a living chief executive in event of atomic disaster.

CORN MEAL AND GRITS must be enriched with vitamins and minerals if they are to be sold for human consumption.

ROAMING LIVESTOCK on state highways will be prohibited under a law to take effect in July, 1960.

PENSIONS of \$80 a month were voted for some 100 former Texas Rangers and widows.

YOUR OPINION SOUGHT — Governor Daniel has invited all Texans to share with him their ideas on how to meet the problems of children and youth. He has appointed a statewide study committee and has urged the organization of local groups. Persons with suggestions and ideas may send them to the governor's office or work through local groups.

Senior Play Is Well Received

The senior class presented their play "Our Hearts Were Young and Gay" Friday night to a large and appreciative audience.

During the intermissions the High School orchestra played and a solo was sung by Elaine Cooper. Glen McCandless, emcee for the program, presented a gift to Mrs. R. L. Thornton, in behalf of the senior class in appreciation of her help with

the performance.

Following the play the seniors were guests of Mrs. G. C. Applewhite, one of the sponsors, for a party at her country home at Lone Star.

Other sponsors attending the party were Mrs. Myrtle Cope, Mr. and Mrs. Owen Thornton, Mr. and Mrs. Milton Ashton, Mr. and Mrs. Clark Harris, G. C. Applewhite and Miss Myra Applewhite.

NEW ARRIVAL

Mr. and Mrs. Bobby Frank Carthel, Lockney, are parents of a daughter born at Plainview Hospital and Clinic at 2:56 p.m. Friday, weighing eight pounds, four ounces. Grandparents are Mr. and Mrs. O. B. Patterson and W. F. (Cap) Carthel, all of Lockney.

OFFICE SUPPLIES at The BEACON OFFICE.

Tex. — Between now and the middle of June the Legislature has only one goal at — getting the state budget passed.

Price Daniel limited the 30-day special session to (1) paying off the \$100 million deficit from the 1958-59 session, (2) passing an appropriation bill for 1960-61 and (3) passing a tax program appropriation.

These things are taken care of by the governor indicated submit such items as the Alkin school program and medical payments for the state. He favors both these things, said Governor Dan-

iel, but believes in taking "first things first."

To cover these "first" needs, the governor is pushing a tax program very similar to what he proposed last January. This includes the "bookkeeping bill" (to cut down the deficit by crediting more money to this year), a 3 per cent severance tax on natural gas, a higher corporation franchise tax and the abandoned property bill, under which the state would take over unclaimed bank accounts and property.

He is willing to revise the abandoned property bill to meet some of the objections that caused it to be defeated dur-

ing the last session.

Absolute deadline for getting the money problems solved is September 1, when the state begins a new fiscal year. Unless new appropriations are provided by then, the government, including schools, hospitals, etc., will grind to a halt.

HOPE SPRINGS ETERNAL — Legislators are again asking the people for a pay raise — this time a more modest amount.

A proposed constitutional amendment, approved on the last day of the regular session, would give lawmakers an annual salary of \$4,800. In addition, they would get \$12 a day expense money for a 120-day session every other year.

Last November a proposal for annual salaries of \$7,500 and annual sessions was decisively swatted down at the polls.

At present, both senators and representatives get \$25 a day for a 120-day session plus \$25 a day for each called session. It's a minimum total of \$3,000 for two years when there are no special sessions. Under the new proposal, the minimum for two years would be \$11,040. People will vote on this plan at the general election in November, 1960.

"NO SWEAT" ELECTIONS — One of Texas' oldest traditions — electing hot election days — is passing into history.

Governor Daniel signed into law measure moving primary elections up to the first Saturday in May and the first Saturday in June. Under the old law they were the fourth Saturdays in July and August.

State conventions will be the second Tuesday after the runoff primary — or about the middle of June. This is the convention to name delegates to the national presidential nominating convention.

Earlier elections had the strong backing of U. S. Sen. Lyndon B. Johnson's friends and supporters. As a possible presidential nominee, he would be in a stronger position if his race for a new senatorial term were behind him at national convention time.

Governor Daniel took exception to and got the Legislature to change certain provisions of the bill before he signed it. He objected to having Democratic executive committee

God's Word — His Authority

The nation of Israel had been in Egyptian bondage for many generations. God sent Moses to deliver them some 1500 years before Christ. Ten plagues were brought upon the Egyptians and they finally let Israel go. The 10th plague was the destruction of the firstborn. The first passover was kept, which became an annual feast of Israel and kept as a memorial of their deliverance from Egypt.

God's orders were as follows: a lamb of the first year, without blemish, was to be put up on the 10th day of the first month and slain on the evening of the 14th day. This could be done by each family separate or two could go together. They were to roast the lamb whole and eat it with bitter herbs, unleavened bread, with their shoes on and staff in their hand. It was to be eaten in haste and they were to be ready to march at God's command. The blood of the lamb was to be caught in a basin and by the use of hyssop sprinkled on the two side posts and upper door post of each house and they were to stay in the house for protection. The firstborn was slain in each family where the blood was not found but the houses where the blood was sprinkled they were protected and delivered. (See Exodus 12).

Hebrews 11:28 says, "By faith he kept the passover, and sprinkling of blood, lest he that destroyed the firstborn should touch them."

"For even Christ our passover is sacrifice for us" (1 Corinthians 5:7.) The faith that protected them through the blood of their passover lamb was obedient faith. We can only hope to be delivered from the bondage of sin and protected by the blood of our Passover Lamb, Christ, by obedient faith. Faith without works is dead (James 2:17).

Brannan To Speak At Hale Center May 25

Charles F. Brannan, former secretary of agriculture, now associated with National Farmers Union, will speak at an area wide Farmers Union rally at the high school auditorium in Hale Center on Monday, May 25th. A barbecue is planned for 6 p.m. and Mr. Brannan will speak at 8 p.m.

C. L. Henderson, Floyd County Farmers Union officer, said that some 40 are expected to attend from this county.

Farmers Union is demanding an end to the continuing decline in prices on farm commodities as advocated by the Republican administration and the Farm Bureau, local Farmers Union officials say. The Farmers Union is asking for a parity of income for family farmers through a combination of price supports, loans, purchase agreements, market surplus diversion purchases, parity income deficiency payments direct to the farmer, regulation of imports, export incentive payments, stabilization operations by farmers and government, marketing premium payment for sale of livestock at desirable weights, a system of marketing quotas for all commodities, and other points, officials said.

Everyone is invited to hear the former secretary of agriculture speak.

Fowler Named Consumers Manager

Buck Fowler, who has been employed at Consumers Fuel Association for several years, was named temporary manager by the directors of that association in a meeting last Thursday evening.

Fowler succeeds Thurman Davis, who resigned when he and Durward Jack purchased the Brunner Lumber Co. here. Davis will manage the lumber firm.

Jehovah Witnesses To Meet June 12-14

The Plainview congregation of Jehovah's witnesses was informed at their Watchtower study last night, that their coming semi-annual circuit assembly will be in Wichita Falls, June 12-14.

Clarence W. Hall Sr., presiding minister of the witnesses in Plainview, said this information was received from the Watchtower Society of Brooklyn, N. Y., the directive agency of Jehovah's Witnesses in more than 170 lands today.

"This assembly," Hall stated, "will be a small scale pattern of our big international assembly held last year at Yankee Stadium and the Polo Grounds, where 123 nations of people assembled for eight days, overflowing both stadiums with a record multitude of more than 253,000 persons for the last day."

"The bulwark against communism," Hall said, "is to be

LUNCH FOR A DAY IN MAY

It's called "croque-monsieur" in France. In this country it may be identified as a ham and cheese sandwich. But when made in this way it is truly something very special: Trim 8 slices of white bread and place a thin slice of ham and one of Swiss cheese between 2 slices of the bread. Beat 2 eggs lightly with 1/4 cup of water and dip each sandwich into that mixture. Sauté each side in butter over the "try" flame of your range. Allow about 10 minutes frying time for each side. Serve piping hot with a spring salad and fresh strawberries.

a Teacher of the Good News which is the theme of the three day assembly." He continued, "Jehovah's Witnesses worldwide emphasized this by their preaching activity."

THREE SISTERS — These young ladies are children of Mr. and Mrs. Tommy Scarberry, Route F, Lockney. They are, left to right, Belinda, age 6, Edna Louise, age 3, and Dorothy Ann, age 1. The pictures were made by a professional photographer at The Beacon office recently.

Power Mowers Are Dangerous

The discarded nail was hidden in tall grass. The mower blade hit it and suddenly it was buried an inch deep alongside the shinbone of the 23-year-old Williamson County secretary.

Accidents of this type will be on the increase now — this is lawn-mowing time, you know — until fall weather brings a welcome respite from the weekly chore.

The State Department of Health does not keep statistics on non-fatal accidents, so the extent of injuries from carelessly handled power mowers is unknown. But a random check of private physicians and an emergency hospital confirms the fact that the number is considerable.

Like the man who stopped his car at the curb, intending to say hello to his perspiring neighbor busily mowing the grass. Neighbor wheels up with mower to return the greeting. Man in car — elbow resting on window — finds his forearm pinned to bicep with a five-inch piece of wire flung at him by the whirling blade.

Power equipment is a tremendous boon to the man who likes to keep his yard neat with a minimum of effort. But it takes constant concentration to do the job safely. Even experience is no substitute for concentration.

A garden club member in a major Texas city used to pride himself on his safe and sane use of power tools that helped him maintain the sharpest yard in the block.

But no more. One afternoon recently, while trimming his driveway with a power trimmer, he reached down to lift a bloom-laden branch of a rose bush out of the way.

When he withdrew his hand two fingers were missing. "I wasn't alert," he wryly explained.

One of the most frequent mower accidents has this sequence.

A stick or wire or rock jams between cutting bar and blade. The operator attempts to clear the jam without going to the trouble of killing the motor. Result: Badly cut or severed fingers when the surge of power spins the freed blade.

Most power mowers come equipped with safety guards. Trouble is that guards are removed by owners for one reason or another and never replaced.

But use one carelessly and you're liable to become a candidate for a quick trip to the emergency ward of City Hospital. (A weekly feature of the Health Education Division, Texas State Department of Health.)

Bill Patterson Stars At State Track Meet

Bill Patterson, Floydada High's all-around athlete headed a list of area boys who sparkled at the Class AA state track meet at Austin last week end. Patterson won the 120-yard high hurdles and was runner-up in the 180-yard low hurdles.

The big Whirlwind massed 18 points for Floydada in the team totals. Olton and Tulla teams gained 10 points and Spur was credited with eight.

Olton's mile relay team — Arno Hall, Jimmy Robbins, L. H. McAdams, Royce Bodkin — ran third. In the 440-yard relay the Mustang quartet finished fourth. On the 440-yard team Randeel Buchenau spelled Hall.

Sidney Davis of Tulla won first place honors in the mile run.

Other area athletes placing in the AA finals were Deanne Elliott, Tahoka, third in discus throw; Jeff Jones, Morton, tie for sixth in high jump.

CROSS ROADS REPORT

Dear Editor: I see where some folks are riled up, thinking the U. S. farmer is living high off the taxpayer, like as if he was a congressman's cousin or a foreigner.

But my soil banked neighbor says in this case you can't blame the farmer, who mostly just can't stand the expense of luxuries like getting the Department of Agriculture all upset over his trying to run his own farm.

Says a poor man simply can't afford to pay the stiff fines this Department's wheels lay on farmers who hurt their feelings by having spells of self-reliance.

Annual Texas 4-H Roundup Set June 9-10

College Station—"4-H Leads the Way" is the theme of the 1959 Texas 4-H Roundup to be held on the campus of Texas A&M College on June 9-10. An estimated 2,000 4-H members, adult leaders, county extension agents, friends of 4-H and others are expected to attend.

While major emphasis and activities of the Roundup will be devoted to determining state winners in 25 different judging and team demonstration contests, plans have been perfected for other features. The feature of the general assembly on the evening of June 9 will be an address by Dr. Kenneth McFarland, educational consultant and lecturer for General Motors, Topeka, Kansas.

Always a highlight of the Roundup, the Chuckwagon Barbecue sponsored by the Texas 4-H Club Recognition Committee, will be the opening feature of the second evening's program. A general assembly will follow the barbecue and will feature an address by President M. T. Harrington of the Texas A&M College System. Entertainment for the evening

will be provided by 4-H members when selected acts from the Share-the-Fun program will be presented. Members of the State 4-H Council will participate in both general assembly sessions.

June 10 will be a day long remembered by the 4-H members. They will be competing for state honors, and in some cases, the right to represent Texas in national contests. All contestants won the opportunity to participate in the state contests by winning first place in

their county and then winning first or second place in their respective districts. The youth phase of the National Extension Service is now on. Last year 10,229 girls were members of the State's 4,026 local clubs.

New Texas Highway Map Is Available

Austin—The new 1959 official Highway Travel Map will be available for distribution Monday by the Texas Highway Department. Copies of the "travel encyclopedia" of Texas, as it has been called, may be obtained by writing the Texas Highway Department, Austin 14, or at the highway district offices and travel information bureaus. County tax offices have map cards available for requesting copies of the map.

The new map is the answer to today's demand for more and more travel information. The steady growth of Texas from a state with a population of slightly over seven million just ten years ago to its present estimated population of more than nine million is reflected by the information appearing on the 1959 map.

Nine more cities and towns are shown than on last year's map, making a total of 1,821. The increased mileage reflects some 1,600 miles of multilane divided highway now completed in Texas, including the completed sections of the National System of Interstate and Defense

highways located in the state. The map now shows approximately 61 major lakes and reservoirs, and includes countless rivers, creeks, and streams. Roadside parks, long cherished as rest stops and picnic areas by Texans and tourists alike, now number 1,046 as compared to the 1,026 shown on last year's map.

City route maps are provided of the state's 12 largest cities — Amarillo, Austin, Beaumont, Corpus Christi, Dallas, El Paso, Fort Worth, Houston, Lubbock, San Antonio, Waco, and Wichita Falls.

The reverse side of the map, with a theme of "Texas, Land of Contrasts," reflects, in 20 full-color pictures, some of the outstanding scenic, historical, and recreational features of Texas. A section entitled "Facts About Texas" gives facts and figures on Texas' natural resources, recreational opportunities, state and national parks, historic points of interest, flora, farming and ranching, terrain features, and climate.

The Official Highway Travel Map is used by all state and governmental agencies in the state for determining highway distances, mileages, zones, and like information. The same map is equally as useful to tourists seeking roads leading to good times in Texas.

Andrews Band Director Goes To L. C. C.

Everett Maxwell, band director at Andrews High School, has been appointed band director and music instructor at Lubbock Christian College, according to Dr. F. W. Mattox, President. Mr. Maxwell resigned his position recently to accept the new appointment, which begins in September.

During his twelve years in Andrews as band director, his band won the inter-scholastic league sweepstakes nine times, in addition to numerous awards in parades and festivals. Mr. Maxwell, a graduate of Abilene Christian College, is a member of Phi Beta Mu, national bandmasters' fraternity. For the past two years he has been regional chairman of the organization. Mr. Maxwell is a composer as well as director, having published "Marcho Vivo" and "Herald Trumpets."

Besides his interest in music and teaching, Maxwell has served two terms as a city councilman and for the past six years has been an elder in the Andrews Church of Christ. He has taught, in addition to the twelve years at Andrews, at Cordell, Oklahoma; Denver City, Texas; and at Lovington, Anthony, and Bronte, New Mexico. He has earned a high reputation for public service, excellent teaching, and fine musicianship.

Mr. and Mrs. Maxwell have two daughters, Sue, a junior at Abilene Christian College, and Jane, a junior in high school. They plan to move to Lubbock in early summer.

NEW ARRIVAL
Mr. and Mrs. Curtis Lemons of Route 3, Plainview, are parents of a son, Keith Dwayne Lemons. He was born in a Plainview hospital Wednesday morning weighing eight pounds, one ounce. Grandparents are Mr. and Mrs. J. W. Kidd, Lockney, and Mr. and Mrs. Homer Lemons, South Carolina.

THE CHURCH FOR ALL ... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

When does a baby start to think?

Nobody knows, exactly. But thoughts do come by association. Baby eagerly responds to the sight of a bottle because experience has proven that the bottle offers both satisfaction and comfort.

Because baby does learn by association, it is important that parents take care to enlarge their children's horizons as they grow. A very small child will respond to a simple prayer. And a child of three will find great enjoyment in attending Church School geared for youngsters of that age.

Religious instruction and guidance is not for the mature only—it is needed regularly by everyone. The spiritual life of your child needs constant cultivation, just as the mind needs day by day development and the physical body needs exercise and training.

Rural Postal Patrons Will Get Survey Cards

Postmaster Jeffie Griffith announced today that Rural Mail Carriers will begin distributing June 1, 1959 Livestock Survey Cards to patrons on their routes about May 21.

This mid-year livestock survey is the first of three which your Post Office and U. S. Agriculture Departments cooperatively make each year. The June 1 survey provides basic information to the Texas Crop and Livestock Reporting Service in Austin for estimating the 1959 calf crop; what the spring pig crop actually numbered and a preview of farrowing intentions for the fall season. Also, poultrymen will get information on number of chickens raised during the spring. Those chickens will be

the coming fall and winter's laying flock. To be sure our community is well represented in this survey, Postmaster Griffith urges each patron receiving a card to fill it out and return to his mail box.

Rural mail carriers working on this project are Route One, Arthur Nigh; Route Two, Thomas Marr; Route F, Lona Stowers; Route Q, Cliff Gilley, and Route M, Mrs. Vestal Eiland.

ENERGY COCKTAIL

You can take the chill off those first few outdoor meals by starting with a mug of blended soup. Use a can of condensed beef broth and a can of condensed tomato soup and add 1 1/2 cans of water. Heat over a low flame for 15 to 20 minutes. Serve with pretzel sticks or corn chips.

GO TO CHURCH SUNDAY.

CITIZENS OF TOMORROW — Another group of youngsters who were photographed at The Beacon Office recently are: top row, left to right, Ike Gonzales Jr., age 6 years and Jessie Gonzales, age 10 months, children of Mr. and Mrs. Ike Gonzales of Lockney; Kyle Vance, age 10 months, son of Mr. and Mrs. Douglas Degge, Lockney; bottom row, left to right, Mary Leslie age 5, daughter of Mr. and Mrs. Douglas Degge; Nancy, age 6, and June, age 8, daughters of Mr. and Mrs. Hubert Davis, Lockney.

\$400 Scholarships Offered For Best Dairy Projects

Chicago. — A dozen \$400 scholarships are waiting for as many 4-H Club boys and girls who prove that they do an outstanding job in their 4-H dairy or swine projects. Announcement of the scholarships was made by the National Committee on Boys and Girls Club Work, a service organization which arranges 4-H award programs in cooperation with the Extension Service.

Prior to the opening of the National 4-H Club Congress in Chicago on November 29, approximately 1,500 top 4-H records from every state will be judged for national honors and awards. Nearly 190 high-ranking 4-H'ers in some 50 categories will be selected, according to the National Committee.

Annual 4-H awards are provided by leading business concerns, educational foundations, and private individuals. Among them are the Oliver Corporation, Chicago, donor of the dairy awards, and Moorman Mfg. Co., Quincy, Ill., donor of the swine awards.

The two Texas 4-H'ers who won the state awards last year are Paul Payne, 20, of Mt. Pleasant, Titus county, for his dairy achievement, and Jesse Holloway 16, of Petersburg, Hale county, for the best swine project. Both boys were delegates to the National 4-H Club Congress in Chicago.

In addition to college scholarships, 4-H award winners receive all-expense-paid trips to the Chicago club congress. To be eligible for a national award, members must be over 14 years of age and have satisfactorily completed three years of 4-H Club work.

Texas Electric Co-Operatives Lead All States

Texans have always done things in a big way. And the construction and operation of electric systems through cooperatives are no exception.

The Electric Cooperatives of Texas have borrowed more money (\$226 million), built more lines (146,000 miles), are serving more people (388,000), have paid more interest (\$25 million), and have paid back more money on their loans (\$40 million) than the co-ops in any other state in the Union.

Part of the explanation lies in the tremendous size of the Lone Star State. Another reason lies in the thousands of remote farms and ranches that often required a dozen miles of line just to serve one member. But perhaps the most important consideration is the courage and determination Texas people have shown in getting electricity on their farms and ranches.

Fewer than 10 per cent had electricity before the cooperatives started. And 90 per cent who were doing without were ready to say good-bye to the kerosene lamp, the old-fashioned scrub board, and the wood stove. The Electric Cooperatives have succeeded in electrifying rural Texas in spite of some king size handicaps. New techniques had to be devised to insure cheaper distribution of electricity. An ingenious two-line distribution system was developed and has become standard in most rural areas.

The cooperatives were formed with the understanding that the people all over the area would be served — regardless of their remote location. This resulted in the construction of a mile of line, on the average, to serve two consumers. This is a fantastic ratio when you consider that most metropolitan systems well over thirty-three consumers per mile.

But in spite of the hardships that had to be overcome, the cooperatives were equal to the task and succeeded in bringing a new way of life to the rural community. Today, some 400,000 rural Texans enjoy television, refrigeration, electric lights, and hundreds of labor-saving devices as a result of membership in electric cooperatives.

DIALS ARE WORK SAVERS

Today good laundry procedures are quite different from those of 10 to 15 years ago. According to Margaret Spader, home service editor of the Gas Appliance Manufacturers Association, homemakers who use judgment in sorting their clothes and selecting the correct temperatures for washing and drying fabrics will preserve appearance and save on ironing time. Dials on automatic washers and clothes dryers make the difference. Correct sorting and accuracy in setting the dials guard the fabrics.

STATE CAPITAL Highlights AND Sidelights

by Vern Sanford
TEXAS PRESS ASSOCIATION

N. Tex. — Senators and representatives will have only a breather between regular special sessions of the Legislature. Gov. Price Daniel said that lawmakers would convene again, the first of next week.

Big question around the Capitol now is how many special sessions will be needed to solve the state's tax problem.

Since the lawmakers failed during their 120-day regular

session, to erase the \$65,000,000 deficit and balance the budget for 1960-61, that chore will be number-one on their agenda. And most observers think it will take at least two, and maybe more, 30-day special sessions to iron things out.

Only matters specifically offered by the Governor may be considered during a special session of the Legislature, and all legislation started during the regular session must start over, practically from scratch. Revenue-raising proposals will have to be introduced again in the House, heard in committee, etc., before they can go to the Senate.

"OPEN SHOP" TEACHING — Any college graduate could teach school in Texas — at least for a year or two — under a House-passed bill.

Bill would grant a teacher's certificate good for one year to any bachelor's degree holder, whether he had had teacher training or not. Certificates could be renewed twice. After that, the applicant would have to take 12 semester hours of teacher education.

Miss Maud Isaacks of El Paso, herself a teacher for many years, sponsored the bill. Professional educators were divided on the merits of the plan.

Some said it would increase qualified personnel; others, that it would attract to Texas the misfits and ne'er-do-wells from "all the freshwater colleges" in the nation.

PLOUGHED UNDER — In the final days of a session, there usually isn't time to revive a bill that gets pushed aside. Among the bills whose setbacks were interpreted as death for this year are these:

MILK IMPORT REGULATIONS, sponsored by Sen. Grady Hazelwood of Amarillo. House supporters couldn't muster the two-thirds majority to take the bill out of order. Proponents said the restriction on milk brought across the state line was needed for health reasons. Opponents called it a trade barrier that would raise the price of milk.

BROADENING THE COMMON PURCHASER OIL LAW, by Sen. Hazelwood. Senate refused to take up the bill which would require pipelines to provide connections to new fields or transport the oil to market by truck.

BAN ON SUNDAY AUTO SALES, by Sen. George Parkhouse of Dallas. It passed Senate, but House refused to take it up.

BAN ON NUDIST CAMPS, by Rep. James Turman of Gober. Senate passed, but House refused to call it out of committee. Committee had referred it to the Attorney General who said it would be legal.

HIGHWAY ZONING — Both houses moved quickly toward passage of a bill to protect smaller roads from heavier truck loads.

Governor Daniel asked for such regulations when he signed the bill to increase permitted truck loads from 58,420 to 72,000 pounds.

Proposed bill would allow the State Highway Department to

zone state highways and farm roads for lighter truck loads and give same authority to County Commissioners for county roads.

INSURANCE QUESTION MARKS — Whether the State Board of Insurance should operate full-time or part-time was an issue expected to carry over into the special session.

House made its preference clear by putting full-time salaries in the House appropriations bill and by passing a bill specifically providing for a full-time Board.

Senate version of the appropriation bill provided for what would amount to about one-third time salaries (\$5,000 a year) for Insurance Board members. Many senators opposed a full-time Board in addition to a full-time Commissioner when the Department was re-organized two years ago. Since then, they have been angered because the Board retained William A. Harrison as Commissioner after the Senate had disapproved him.

Since no conference committee was appointed to adjust differences between the two houses' appropriation bills, it was obvious the insurance hassle could not be resolved in the regular session.

TOURIST BILL PASSES — The much discussed and battered bill to permit the state of Texas to advertise its tourist advantages finally was approved by both houses of the Legislature before adjournment of the regular session.

As passed, the bill puts into effect the constitutional amendment approved by a close margin by the voters at the election in November. It differs in one important respect, however. It does not provide that industries shall match state funds — which was used to effect passage of the amendment by Texas voters.

Designed to handle the program is the Governor, the Chairman of the Senate Highway Commission, and the Chairman of the Texas Industrial Commission.

SHORT SNORTS — House passed a resolution opposing federal regulation of wages to imported farm labor. It was sent to the U. S. Dept. of Labor and to Congress. Some called it the "get your cotton picking hands off our cotton picking hands" measure. . . . Senate approved the House-passed bill to allow for abolishing the office of county school superintendent in counties not needing one. But it was amended so it applied to only two counties, Young and Parker. . . . Number of persons receiving unemployment payments in Texas is one-third fewer this month than in the recession spring of a year ago. Texas Employment Commission reported 58,410 jobless now compared to 90,946 in May, 1958. . . . It was a rough session for a presiding officer, but House Speaker Waggoner Carr had "his day." Many colleagues paid tribute to Carr on Speaker's Day, and Carr and his family received numerous gifts.

State F. F. A. Meet Set For July 15th

Five thousand Texas Future Farmers are expected to assemble in Austin's new three million dollar city auditorium next July 15 for the beginning of the rural youth organization's annual convention according to Lewis Bracy, Convention Chairman for the host city.

Though the opening session of the three day meeting is still months away, several committees of adults in Austin are at work planning the many convention attractions.

The commercial exhibits committee, headed by H. Q. Haile and A. J. Maloney of Austin, are currently assigning spaces for firms planning exhibits before the leaders of tomorrow's farmers and ranchers. "With both inside and outside exhibit areas, almost any product may be presented to an unusually large farm market," Haile points out. "In addition, nearly one thousand vocational agriculture teachers — who advise farmers and ranchers daily — will be in attendance."

The Senior Class History

by Janice Hays

Dear Mr. Smith: You may be surprised to receive a letter from me, since I'm not even an ex-student yet. But I felt it my duty to fill you in on some details about our class, because you look so bewildered at times. We started a little different than most classes. You see, the grade school had burned and they had to make-shift for us. Now, some classes met in the City Auditorium but not us. I believe they assigned us to the West Side Church of Christ hoping that the ecclesiastical atmosphere would impress us in some way. What an excited lunch we were. There were Pat Anderson, Pat Ashton, Nancy Bollman, Elaine Cooper, Debra Ferguson, Ann Griffith, Rita Johnson, Janice Hays, Wetia Kent, Shirley Mitchell, Lawana Taylor, L. T. Cooper, Clarence Hardy, Jackie Calahan, Thomas Copeland, Larry Elam, James Ferguson, Ronnie Harris, Stephen Handley, Alvin Hayes, Joe Mack Holmes, Glen McCandless, Doyle Pinner, Bill Race, Don Schacht, Lesley Wilkes and Jerry Wofford. That Christmas Peggy Ford joined us. So you see, Mr. Smith, we had our share of all kinds and couldn't possibly have been a bad class.

When we got to the second grade, we had begun to settle down and work a little, or so the teachers hoped. But Jerry and Jackie fought over Debra, and Janice was always falling out of her chair. We were lucky to get Linda Baxter and Shannon Eiland that year and I would say that it was a fairly successful year.

In the third grade we began to use our heads. Bill Race used his for baseball, but we did have some intellects. Not studying the reading lesson was excused if you had to go to church the night before. It seems to me that Larry Elam was the most religious boy in the whole class. That year Kenneth Callaway joined us.

As we moved on up to the fourth grade, life became more interesting and we really enjoyed visiting together. Rita Johnson had to stand in the corner and Linda Baxter had to stand in the hall for talking and sliding shoes across the room. Also, one of the sections changed teachers in the middle of the year and that gave them an excuse to have to get readjusted. We all looked forward to the birthday parties each month with a whole afternoon away from studies.

The fifth grade was more fun than ever. Having two young single teachers certainly didn't help matters. But we did behave that year.

I can remember how grown up we felt when we reached the sixth grade. One of our favorite sports was for the boys to run off with a girl's cap or shoe. This gave the girls a perfectly good excuse to chase the boys. It's funny that now we don't even have to have an excuse. That was the year that Bill Race perfected his

style of running, the slumber parties began, and Aileen Musser, Linda Durham, Wyman Cooley and Jimmy Minter joined us.

Even though we didn't realize it, Mr. Smith, we had finished half of our school days. We were the oldest in grade school in the seventh grade and thought that this entitled us to be big shots. Shirley Mitchell tried to reform all the boys into little gentlemen.

The eighth grade was quite a success. We had just moved into the new building and we were still the biggest ones in our school. There were parties at least once a week, and lessons definitely came last. Our volleyball team wasn't the very best, but then it couldn't have been the very worst. Byron Brock and Duane Griffith came in from Lone Star. Ronnie Thornton from South Plains, and James Ansley, Gloria Gonzales and David Roberson came from other towns. Then came our Junior High graduation and High School at last! It was hard to realize we had come this far. We had a rough time with those boys' and girls' stairs, but Mrs. Zeigler straightened out all us slimy fish. It was homecoming year and we were really on cloud nine. We got Pat McLaughlin and Mary Jones from Providence, and also Nancy Tyler.

That Sophomore year was better than ever. Other than all the marriages we managed to maintain our usual crowd with Gloria Gonzales coming back again, Mary Martin coming and going, and Barry Epps and Milton Mickey coming to fill in the gaps.

With the promotion to the Junior class came two new experiences. The Junior play and the Junior-Senior Banquet. We were glad to get Mary Martin back. I will never forget how much fun we had working on "Cheaper By The Dozen" and planning our Hawaiian theme for the banquet. We thought we had reached the top but then there was our Senior year to come.

And so here we are with the football season over, all the basketball games played, the football banquet, the Honor Society Banquet over, Mr. and Miss L. H. S. Football Queen, Basketball King and Queen, Most Beautiful and Most Handsome all revealed and the year almost over. We gained Patsy Reeves this year. And now we're looking forward to the Junior-Senior Banquet, again, but as guests.

Now, Mr. Smith, maybe you understand a little more about our class, our past and so, our future. These years have been the most impressive of our lives and we'll always remember them.

How To Raise A Juvenile Delinquent

(From the Lariat)
The Police Department of Houston, Texas, gives to parents of each juvenile who runs afoul of the law twelve rules:
1. Begin with infancy to give the child everything he wants. In this way he will grow up believing the world owes him a living.
2. When he picks up "bad" words or "dirty" words, laugh at him. That will make him think he is "cute". He will run off and pick up some other words that will blow the top off your head.
3. Never give him any spiritual training until he is 21 and then let him decide for himself. By the same logic, never teach him the English language. Maybe when he is old enough he may want to speak Banter.
4. Praise him in his presence to all the neighbors: show how much smarter he is than the

neighbors' children.
5. Avoid the use of the word "wrong". It may develop in the child a "guilt complex". This will prepare him to believe that when he is punished later on for stealing cars or assaulting women that society is against him, and that he is being persecuted.
6. Pick up everything after him: his shoes, his books, his clothes. Do everything for him, so that he will be experienced in throwing burdens on others.
7. Let him read anything he wants. Have no concern whatever for what goes into his mind. Provide him with Lilly cups for his lips, but let his brain drink out of any dirty container for words and ideas.
8. Quarrel frequently in the presence of your children. In this way they will be prepared for broken homes later.
9. Give him all the spending money he wants: never let him earn his own.
10. Satisfy every craving of

the child for food, drinks, and everything that has to do with the sense of taste and touch, gratifying every sensual desire.
11. Take his part against policemen, teachers and neighbors. They are all "prejudiced" against your child.
12. When he gets into real trouble, always defend yourself and say: "I never could do anything with him."

Inquire Before You Retire For S. S. Benefits

One of the goals of the Social Security Administration is to pay benefits as promptly as possible to those persons entitled to payments. John G. Hutton, manager of the Lubbock office stated today:
To do this, Hutton said, it is necessary for the person claiming benefits to make inquiry for payments at his local social security office. A worker should inquire for payments before he retires if he knows he will be retiring on a certain date. This will give the Social Security Administration and the person claiming benefits time to get the information and evidence together to establish his rights to the payment before the time his first check is due.
Generally, evidence will be required to prove the age of the retired person and the age of his wife. This may be a birth certificate or other record of age that is old and reliable. Also, evidence of the worker's earnings in the taxable year that ended before he plans to retire is necessary. This may be a copy of the income tax return for self-employed persons or the W-2 forms for wage earners.
Mr. Hutton again stressed that for prompt payment of your first social security check "inquire before you retire" at

Onion Production

Hail has caused considerable damage to the onions in certain areas. Small onions tend to recover if properly cared for. A fungicide applied to protect the plant from onion diseases will prevent many diseases that cause trouble. The possible side dressing with nitrogen will speed up the recovery of the small plants.

4-H Leadership Camp

4-H boys and girls are making plans to attend the leadership camp in Lubbock, June 2, 3 and 4. The boys and girls will be selected on the basis of achievement. Four boys and four girls will represent Floyd County. They will study different phases of leadership that can be used in the county.

Swine Production

Joe Keeter of Keeter Market in Lockney is going to work with the Swine Producers in Floyd County in helping identify the meatier strains of hogs in the county.

To qualify for this program a breeder must raise at least eight pigs per sow and they must weigh a certain number of pounds at 5 to 8 weeks of age. The breeder then takes two pigs out of the litter and has them killed. Measurements are taken on carcass length, backfat thickness, and loin eye muscle. This should be a big help in swine breeding in Floyd County.

FRIVOLITY FOR DIETERS

Beat 2 egg whites until stiff. Fold in 1/2 cup chive cottage cheese and season with salt, pepper and cayenne. Pile the fluffy mixture on slices of melba toast, rye crisp or crackers and broil under a low flame until delicately browned. Serve piping hot with a big fruit salad plate and a cup of tea.

PASTRY GARNISH FOR FRESH FRUIT

Preheat the oven to 400 degrees. Mix a package of pie crust mix with 1/2 cup brown sugar, 1 cup chopped walnuts and 1 teaspoon cinnamon. Spread the mixture on a cookie sheet and bake in the oven for 15 to 18 minutes. When it is cool break it into crunchy pieces and serve over fresh cherries or berries. The topping may be stored in a canister and used over a period of days.
