

# Indians Claim Little League Championship

The Indians, managed by Leonard Finley and Frank Hawkins, are 1959 champions of Lockney Little League.

They won three contests this week to sew up the title. The Yankees slumped this week, losing all three of their battles. Only three games remain on the Little League schedule with the other abbreviated contest to be finished.

With a hard-fought 7-6 victory over the Yankees last Wednesday, the Indians pulled into a tie with the team led by the Yankees. The Indians jumped the lead. The Yankees came back in the second game. The Indians won the game. Melvin Sissney was the starting hurler for the Indians.

On Thursday the Cards and Giants played off a tie game before their regular match. In the playoff battle the teams resumed play in the top of the seventh inning with the score tied 1-1. The Cards made a double, 10-10. Each team tied for two runs in the tenth. The contest was broken wide open in the eighth when the Indians collected 13 runs and the Cards made eight. Final score, Indians 25, Cards 20.

In the regularly scheduled game, the Indians held a 7-0 margin in the top of the fourth when the tilt was called because of darkness.

The Indians rallied for eight runs in both the first and third innings as they routed the Dodgers, 17-5, in the Friday game. The victory was sweet revenge for the Indians who had suffered two of their four defeats at the hands of the Dodgers. Melvin Sissney, Indians, and Buck Smith, Dodgers, were opening mounds.

Behind the strong pitching of Bernie Jefferson the Red Sox topped the Yankees, 6-4, on Saturday. Jefferson held the Yankees scoreless until the final inning when they netted four runs. Ronnie Marr and Steve Stansell were on the mound for the Yankees.

Monday the Giants handed the Yankees another setback, 6-2. Neil Mitchell was the Giants starting pitcher. Ronnie Marr and Steve Stansell worked for the Yankees.

In a pitchers battle Tuesday the Indians outlasted the Cards, 4-0. Dale Galloway, one of the league's finest hurlers, was credited with tossing the first shutout in Lockney Little League this year. Olin Degge went all the way for the Cards and turned in a creditable performance, allowing the Indians only one run after the first inning.

The Giants and Red Sox tangled Wednesday afternoon. Score was not available at press time.

**Schedule:**  
Thursday—Dodgers vs. Cards.  
Friday—Red Sox vs. Indians.  
Saturday—Dodgers vs. Yanks.  
Standings through Tuesday game (Does not include Giant-Card contest which will be finished later):

## Little League All-Stars Named, Three Game Series Scheduled

Stars selected from each of the Lockney Little League teams will play a two-best-of-three series next week, Tuesday, Thursday and Saturday, Commissioner Tom Moore announced Wednesday morning. The stars from the American League teams, Indians, Yankees and Red Sox, will play the stars from the National League teams, Dodgers, Cardinals and Giants. Four boys have been selected from each team. If one of the all star teams wins two games straight the third game will not be played. The games will start promptly at 6 p.m. each evening. Commissioner Moore said.

A different method was used in the selection of the all stars this year, Commissioner Moore said. The manager of each team was not allowed to select those from his own team but was assigned another team in the league from which to select the four outstanding boys. The name of the team from which the manager selected was not revealed and is known only to the manager and the commissioner, The Beacon was told.

## Long Illness Ends Friday For Mrs. Fulkerson

An eight year illness ended last Friday evening when death claimed Mrs. M. P. Fulkerson at Nichols Medical and Surgical Hospital here. She was 86 years of age.

Funeral services were held Monday afternoon at 2:30 at the First Baptist Church where she held membership since 1943. Officiating was the pastor, Rev. Charles Broadhurst. Interment was in East Mound Cemetery, near Matador, beside the grave of her husband who passed away April 8, 1943.

Mrs. Fulkerson fell and broke her hip about eight years ago. This began an extended period of suffering and pain for her though at times she improved enough to be able to get around the house. She had been bedfast for the past three years.

She was born in Tippecanoe County, Miss., on March 15, 1873. When she was five years old the family moved to Ellis County, Texas, moved the next year to Erath County where she was reared. She was married to M. P. Fulkerson on June 28, 1896, at Stephenville, Texas. The couple moved to Motley County, in the White Flat community, in December, 1901, and made their home there in Matador until 1943 when Mr. Fulkerson passed away.

At that time Mrs. Fulkerson moved to Lockney and had made her home with her daughter, Mrs. J. P. Truett and family, until her death.

Mrs. Fulkerson was converted at an early age and became a member of Baptist Church at 16 years. She had been very active in church work, teaching a Sunday School class almost ever since she became a member of the church. She taught at White Flat and Matador for almost 40 years and taught in the Sunday School at First Baptist Church, Lockney, after she came here. She was also active in Women's Missionary Union and Training Union.

Survivors include one daughter, Mrs. Truett of Lockney; one son, Jimmy Fulkerson of Lubbock; two grandchildren, Dolores Fulkerson of San Francisco, Calif., and John Perry Truett, stationed with the Army in France; three sisters, Mrs. H. S. Watson, Matador; Miss Ada Shands, and Mrs. E. Fuller, Modesto, Calif.

John Perry was unable to be here for the funeral services but is due to arrive in the United States Thursday morning on leave.

Carter Funeral Home of Lockney was in charge of arrangements. Pallbearers were Leslie Ferguson, Buck Kellison, J. B. Cumble, Frank Brown, E. A. McLeod, Ben McGhee.

The above indicates that farmers in this area are getting in considerable better financial shape than they have been for the past five years, officers of the agency said.

In addition to his mother, the survivors are his wife, one daughter, Miss Nancy Whorton of Edinburg; one brother, Walter Whorton of Lubbock; two sisters, Mrs. Zeb Baker of Dallas and Mrs. Elna Swartz of Los Angeles, Calif.

Included in the Bargain Days offerings are food stores, dry goods and ready-to-wear establishments, hardware and furniture stores, variety stores, lumber yards, service stations, drug stores, auto stores and others. ## Father-Daughter-Son Day Friday At Lockney Rotary

The Lockney Rotary Club will observe Father-Daughter-Son day at the noon luncheon Friday at the Golden's Restaurant. Each Rotarian is to bring his daughter or son or both to the luncheon meeting. The program will be colored pictures of wildlife shown by W. C. Boyd of Plainview, according to President H. H. Nicholas.

Last Friday the Rotarians heard a talk by Anna Anderson, an exchange student from Gskilstuna, Sweden. She is spending six weeks in Floydada under the sponsorship of the Floydada Rotary Club. The young lady, a beautiful blonde, 22 years of age, told the Rotarians that Sweden had about the same population as Texas, four political parties, Socialist, Conservative, Democratic and Communist. She said that the Socialist had about 55 per cent of the vote and the Communist very little.

Miss Anderson said that out of the 7,000,000 people in Sweden, some 1,300,000 belonged to labor unions, and that store owners and employers also had an organization. Taxes are high, taking as much as 87 per cent of income in the high brackets, she said.

Only nine per cent of the land is in cultivation, but there are paper mills, mining and cattle raising. The tourist trade is also important to Sweden, she said.

Billy Brown of Floydada introduced the young lady, Harold Duvall was in charge of the program.

Elton has spent the summer in evangelistic work in the north-west, working with volunteer teams in holding revival meetings in that area. He is the grandson of Mr. and Mrs. H. S. Calhoun of Lockney.

Sunday evening Mrs. G. C. Applewhite will speak in the interest of the organization called Protestants and Others United for Separation of Church and State. Mrs. Applewhite recently visited the headquarters of the organization in New York. The movement is for the purpose of arousing the public to a threat to American freedom and democracy.

## Bad Publicity Results From Encephalitis Epidemic Scare

Daily newspapers, radio and television news sources gave Lockney lots of bad publicity over the week end, alarming relatives of local people in distant cities and creating a headache for city officials all because of an encephalitis epidemic scare. The epidemic never came about and what causes there were passed the danger point before the big news mediums found out about them.

The Beacon carried a news story last week saying that seven cases of encephalitis had been treated at Lockney General Hospital in recent weeks. All but one of these came from out of town and when the story was run most of the cases had been dismissed. Apparently sensing a sensational news story, the big news mediums enlarged the story out of proportion and spread it all over the state. As a result the State Health Department sent a representative here to investigate and city officials received calls as far away as Houston seeking to sell them fogging machines and other equipment.

Dr. W. J. Mangold, city health officer, said Wednesday there had been no epidemic and that the situation is well under control. All encephalitis cases have been dismissed from the local hospital and no new cases have shown up in the past week, he said.

Mayor J. E. Cox and the City Council met with the State Health Department representative, Bill Powers and R. H. Hancock, Monday evening to discuss the situation. Mr. Smith said, after investigation that mosquitoes were no worse here than other towns on the plains and that the local situation was exaggerated. Mr. Powers further said that city officials were doing everything that could be done to control mosquitoes.

Fogging operations have been going on at a steady pace, having been stepped up about two weeks ago. The city lake and the Griffith lake south of town in the area near Lockney may be sprayed later, Mr. Cox said.

Members of the Fire Department have been assisting city employees in operating the city's fogging machine.

Others meeting with the mayor and council Monday evening were Bob Jarrett, county commissioner; City Officer Lowell Bilbrey, Hoyt Curry of Plainview, Dr. W. J. Mangold and Dr. Pat Williams of the Lockney General Hospital.

The Council passed a resolution to stage a clean-up campaign here as a preventive measure but plans were not completed. It was emphasized that each individual should see that weeds are cut on his own property and that pools of standing water be treated. Shrubbery should also be sprayed with BHC powder to prevent them from harboring mosquitoes, it was said.

A mosquito trap was set up here by State Health officials and tests will be run to see what per cent carry encephalitis germs.

## Sterley Community Club Is Organized

The Sterley Community Club was organized at a meeting of a group of ladies of the community last Thursday. The meeting was held at the community building.

Mrs. M. A. Boone was elected president, Mrs. J. H. Stringer is vice-president, and Mrs. Kenneth Brosech was named secretary-treasurer.

The club will meet at 2:30 p.m. on the second Friday of each month and will have family night each fourth Friday.

The club members invite everyone in the community to join in and take part in the club activities. They hope to make it a big success with everyone's help.

## EDITORIAL

Walk while ye have light, lest darkness come upon you; for he that walketh in darkness knoweth not whither he goeth. — John 12:35.

**UNFAVORABLE** publicity by the realms has come to Lockney the past few days because a news reporting agency chose to call seven cases of encephalitis an "epidemic." Dr. W. J. Mangold, city health officer, has said again that there is no epidemic, that the situation is in hand and that there is no need for alarm. But this kind of statement doesn't make sensational news, so the daily press picks up some of the details of the local situation, draws on its imagination for a lot more and saturates the state with a story about the "terrible epidemic" at Lockney. This kind of irresponsible reporting could easily cost the City of Lockney considerable, not only at the present time but in the future. Lockney merchants may feel the results of the story in sales. The growth of the city could even be affected.

**THE TRUTH** of the matter is that of the seven cases treated at the Lockney General Hospital in the past three weeks,

### COTTON COMPETITIVE

Area ginners heard good news for the cotton industry Monday morning.

John Gregg told some 15 ginners that cotton now is competing favorably with synthetics in the market place. Mr. Gregg is with the National Cotton Council.

"Our long range market prospects are better now than in the past 25 years," he declared. He said the Council's market research has turned up several reasons for these brighter prospects.

1. In the past two years cotton surplus has been reduced in spite of continued production.

2. For the first time since 1953 there is a belt-wide acreage expansion.

3. Domestic cotton mills will be getting cotton four cents a pound cheaper next month, through government assistance. This coupled with a two cent increase in the cost of rayon has broadened the base of the domestic cotton market, Mr. Gregg said.

Domestic consumption last year was eight million bales. This year it will reach 8,700,000 bales. Mr. Gregg said that if the trend continues, consumption soon will go to 9,000,000 bales. He said exports should move from 2.8 million bales to 6.5

million bales next year. This means sales of 15,000,000 bales with a production this year of about 14,000,000 bales... a million bale reduction of the surplus.

Cotton men are jubilant over what appears to be happening to their old competitor, rayon. Mr. Gregg said DuPont has sold out its rayon business, closing down all its plants it was not able to sell.

Mr. Gregg said that since cotton is now so competitive with synthetics, the blending incentive has been killed. In the past, synthetics have been blended with cotton much to the concern of the cotton industry.

Mr. Gregg said that a labeling law goes into effect in 1960 requiring that blended textiles be labeled as such. — Olton Enterprise.

## THAT ARROGANT LOBBY

The governor and the members of the legislature who want to get more revenue from the gas that is moving from Texas to other states, are indeed faced by the most formidable lobby Texas may have ever known. The lobbyists have a point, all right, but they so arrogantly lord it around at Austin they are easy to hate. They may, indeed, have the battle won. But in our opinion they are "sowing the wind" that will be a hurricane in the not too distant future. — Floyd County Hesperian.

Dear Editor:  
I see where some remarking has been done on how our U.S. Art Exhibit in Moscow runs long on the abstract or doodle type of work.

My honest neighbor says this is what this exhibit had ought to have in it, on account of it is supposed to give the Russians a true view of the American Way of Life.

Says all the abstract art he ever saw looked like illustrated confusion, and since being mixed up is sort of a national condition, it would be cheating to show any works which might lead anybody to think we know which end is up.

**Fertilizer Tests Show Value Of Soil Testing**

College Station. — In eight fertilizer demonstrations conducted on cotton in Hockley County in 1958, soil tests closely predicted the most profitable rate to use in all but one case, said W. F. Bennett, extension soil chemist.

Prior to establishing the demonstrations, Bill Taylor, Hockley county agricultural agent, sampled the demonstration sites. The samples were then tested by the A & M College Soil Testing Laboratory and fertilizer recommendations were made. These recommendations were then compared to the actual results of the demonstration, said Bennett.

On one farm the soil test showed that a 50-60-0 fertilizer was needed. The highest profit rate on this farm proved to be 45-60-0. On another farm the recommendations called for a 50-60-0 fertilizer. The highest profit rate here proved to be a 50-60-0 fertilizer.

Results on two farms showed that a rate higher than recommended by the soil test was the most profitable, but the soil test rate was the second highest profit rate.

Only on one farm did the soil tests not closely predict need. In this demonstration, there was no profitable response to any fertilizer application.

Bennett points out that there are many factors that affect crop yields which a laboratory cannot analyze. But a farmer can put a soil test recommendation together with these factors and come up with a better decision on proper fertilizer rates, said Bennett.

### Parents Are Blamed For Child Troubles

Almost two-thirds of the responses from newspaper readers in Texas expressed the belief that the greatest problem of children is lack of parental care, guidance and discipline.

Governor Price Daniel announced today in disclosing first results of a state-wide newspaper public opinion poll conducted by the Governor's Committee for the 1960 White House Conference on Children and Youth.

The committee had requested readers to send their opinions on the ten greatest problems facing Texas children and youth, and most newspapers printed the poll as a public service.

A tabulation of the first 1,000 replies to the poll revealed that 63 per cent considered lack of parental care and guidance the top problem. Three-fifths of this group specifically cited lax parental control, while two-fifths cited lack of spiritual training and church attendance.

Dr. Guy D. Newman of Brownwood, chairman of the Governor's Committee, presented results of the poll to the Governor.

Under problems relating to parental care and guidance, specific complaints most often repeated were lack of spiritual training; poor church attendance; poor parental examples; not giving child enough responsibility; lack of discipline and obedience to parents; lack of family unity and teamwork; lack of parental responsibility; too much freedom with cars; lack of teaching respect to others.

Other problems mentioned in order of frequency were: Lack of educational opportunities, 10 per cent; too much time and too little work, 9 per cent; working mothers, 5 per cent; poor public influences such as lewd and violent shows, obscene literature, alcohol and drugs, 4 1/2 per cent; juvenile delinquency, 3 1/2 per cent; financial need, 3 per cent.

Governor Daniel pointed out that the poll is still open, and that radio and television stations are requesting listeners to send their views on youth problems.

"These opinions from the grass roots level will serve as a guide for the committee members when they attend the White House Conference next March," the Governor stated.

#### DOUGHNUT TIME

How many ways can you make a doughnut? Today it can be made quickly from refrigerated biscuit dough, cream puff mix, yeast roll dough, or you can start from scratch. Good cooks usually find one method and stick to it. The important point is to pre-heat the fat to 390 degrees and keep it at that temperature. If the fat gets too hot the doughnuts will brown before cooking through. When the fat is not hot enough they soak up grease.

#### DO YOU REFUSE FRYING FAT

If fat is not overused, it can be used repeatedly for frying. Cool it slightly. When particles have settled to the bottom, pour the fat into another container. Cover and store in the refrigerator. **SOIL CONSERVATION DISTRICT NEWS**

operators of the Floyd Conservation District are among those honored in the world's first issuance of a conservation stamp. A. W. Dymple said today.

Dymple said the stamp, to be issued August 26 at Rapid City, S. D., is a "tribute to the conservation farmers of the world, including the Floyd County District which has been operating since 1908."

The 4-cent stamp is in recognition of the farmers and ranchers who are "demonstrating good soil stewardship" to their neighbors. It is a salute to the conservation districts, and the professional workers of the Federal Government and State who help them.

The stamp will go on sale at the postoffice on August 27. Collectors interested in "first day covers" should have

their requests in mail by August 1, to postmaster of the Rapid City, S. D. postoffice.

In 1958 the conservation stamp featured forestry. It was released at Tucson, Arizona, and had about 406,000 "first day covers". The stamp is now a scarce item even though 160 million were printed, according to Dymple.

**Farm Bureau Institute Is Set For August 2-5**

Dallas. — The 11th annual Texas Farm Bureau Institute will be held at the Hotel Adolphus here August 2-5, according to J. H. West, president of the state farm organization.

Purpose of the three-day school is to train county Farm Bureau leaders in the operation of a "grass roots" farm and ranch organization on the county level. Theme of this year's Institute is "The Challenge of Change."

Registration gets under way at 3 p.m. Sunday, August 2, in the lobby of the hotel. Some 350 county leaders from nearly 100 counties over the state are expected to enroll.

Nine regular courses will be offered. In addition, two half-day assembly periods will be devoted to a discussion of dangers to the American way of life and problem areas in public education. The training school will close at a noon luncheon Wednesday, August 5, with an address by Frank K. Woolley of Washington, D. C., legislative counsel for the American Farm Bureau Federation.

Dr. George S. Benson, president of Harding College, Searcy, Ark., will lead the August 3 general assembly discussion of "Our American Way of Life Under Fire." The second assembly discussion on August 4, "Problem Areas in Our Public Education System," will be led by Robert H. (Bob) Lawrence, Dallas, executive director for the Texas Bureau for Economic Understanding.

Dr. John C. Stevens, assistant president of Abilene Christian College, will speak at the evening service Sunday evening. A recreation party Tuesday evening will be under the direction of Miss Lucille Moore, College Station, state extension specialist.

The faculty will be composed of Texas Farm Bureau staff members and officers with the exception of three guest instructors. They are Dr. Michael Kolivosky, academic dean of Hillsdale College in Michigan; Mrs. Marie Daugherty of Chicago, director of women's activities, American Farm Bureau Federation; and O. R. Long, also of Chicago, director of APBF field services division.

Dr. Kolivosky will teach a course of "Principles of Motivation." Mrs. Daugherty will instruct a class in "Women and Youth in Farm Bureau," and Long will teach a course on "Equipping Farm Bureau to Meet the Challenge of Change."

Other courses to be offered deal with history and philosophy of Farm Bureau, public relations, services for members, membership acquisition, policy development and policy execution, and agricultural policies and economics.

**MENU FOR STAGGERED LUNCH HOURS**

Cubes of cold meats, cheese and pickles, alternated on skewers, make an attractive start for a luncheon menu. Add a hot soup or beverage with crackers or hard rolls, some fruit and cookies, and it will taste as good to the last diner as it did to the first. Soups and beverages will keep hot without searching on the automatic top burner heat control of the range. It frees you from hours of pot watching and boil-overs caused by hurrying.

**McAda Reunion Held Sunday**

**HOW TO FRY IN DEEP FAT**

Controlling the temperature of fats and oils during deep fat frying results in less calories in fried foods, better looking and tasting foods and it lengthens the life of the fat. Use an aluminum kettle over the automatic top burner heat control on your range. The kettle should be at least 6 inches deep, the fat should be 3 to 4 inches deep. A basket or sieve will facilitate removing the fried foods. To avoid bubbling over, fry small quantities at a time. Always drain foods on several thicknesses of paper towels to remove excess fat.

Dear Editor:  
I see where the law in some states any deputy constable can just decide you are crazy and put you in a nut pound for treatment, at least long enough to get you on record as an alumnus of the place.

My calculating neighbor figures anybody with a sympathetic official friend could thusly arrange to piteyhole a non-cooperative wife, husband, rich uncle, etc.

But says he is not worried about such a law being used to deactivate him, on account of he owes everybody except his wife, and he thinks he can outrun her to the courthouse.

**Law Violation Costs More Now.**  
It costs more now to violate the law in Floyd County. Recent action of the Commissioners Court raised court costs on cases in Justice Court to \$15.50 instead of the previous \$13.20. Justice of the Peace J. J. Harris said this week.

Lowest fine on any case is \$1.00 of course and this added on to court costs has made the minimum fine in recent years to be \$14.20. But as of July 1st the minimum fine, including court costs, is \$16.50.

By Mrs. Murray Julian  
Mr. and Mrs. Leo Frizzell of Floydada, parents of Mrs. Garvin Beedy, visited at the Baptist Church Sunday evening to observe baptismal services for their grandson, Larry Beedy. Junior boys who went to the Baptist Camp at the Plains Encampment from Wednesday to Friday last week with Rev. John Gillispie as sponsor were Larry Beedy, Dewey Spradlin, Jerry Calahan, Steve Pierce, Butch Bean, and Larry Adams. The families of Zach W. Cummings, Kendall Cummings, Sterling Cummings, and Mr. and Mrs. Zach Cummings of Lockney left last Friday for Denver, Colorado, where they were to hold a family reunion at the home of a Cummings daughter, Mr. and Mrs. Robert Rose of Golden. The elder Cummings plan to go on to Oregon and California to visit their daughters and other relatives.

We are all hoping Mrs. Loyd Deavenport gets well very soon. She underwent surgery at the Methodist Hospital in Lubbock on Friday, and expects to get to come home the middle of this week.

ported to be critically ill. Our neighborhood was very sorry to hear of the accident that befell Roy Bledsoe Wednesday evening. He was working on a structure about 30 feet high, when it collapsed with him, sending him to the ground. He was rushed to the Lockney Hospital and found to have a rib broken, several vertebrae injured and a slight concussion. We are all thankful it was no worse, and he hopes to be home the end of this week, but will have to be in bed here for some time.

**TWO SALVATIONS**

Jesus told his apostles to go into all the world and preach the gospel to every creature. He that believeth and is baptized shall be saved, but he that believeth not shall be damned, Mk. 16:15-16. To be saved here meant to be saved from their past sins. It had reference to becoming a child of God. God has one plan by which all sinners may obtain salvation and become a child of God. The four simple steps in becoming a child of God are faith, Mk. 16:16, Repentance, Acts 2:38, Confession of Christ, Romans 10:9-10; Acts 8:37, and Baptism into Christ, for the remission of sins, Roman 6:3-4; Gal. 3:27; Acts 2:38.

Paul wrote to Timothy, who was already a child of God and said: "Take heed unto thyself, and unto the doctrine; continue in them; for in doing this thou shalt both save thyself, and them that hear thee." 1 Timothy 4:16. This meant that though Timothy, a gospel preacher, was saved from his past sins, yet he would have to be faithful to God and continue in God's truths in order to go to heaven or to be saved in the home of the soul. Paul also said to this same gospel preacher: "Fight the good fight of faith, lay hold on eternal life, whereunto thou art also called, and hast professed a good profession before many witnesses," 1 Timothy 6:12. Even though Timothy was a child of God and had been washed from his past sins in the blood of Christ, it was necessary for him to fight the true battle for Christ to the end in order to be saved in heaven. We must do the same.

# STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

AUSTIN, Tex. — Tired reading about the Texas Legislature? Well — my friend — you're not alone. Seems like most everybody feels that way — including many members of the House and Senate.

Okay, then, for a little diversion, let's look north and see what has been going on in our neighboring states.

Oklahoma's legislators also had a financial crisis. How did they meet it? First they cut needless expenses, eliminated waste and duplication, then they appropriated for 18 months instead of 24. But they did not increase any existing taxes. Fortunately for them, especially at least, Oklahoma is not in liquor and they now have some brand new tax revenue — or will very, very soon.

Oklahoma, it must be re-

membered, has a state income tax and an across-the-board two per cent sales tax — two things Texas doesn't have.

Putting the state in a better light, collection-wise, Oklahoma legislators swiped Uncle Sam's idea and added a state withholding tax. This to assure more collections from their income tax.

Six months of continuous sessions has just been ended in the Sooner State. Although their financial problems are solved for the next eighteen months, after that a sizeable hike in taxes is expected.

Texas legislators have met almost continuously since Jan. 13. They may even have to go into a fourth special session. But if they do, they will earn the wrath of the old folks whose pensions stop in mid-August unless a sizeable tax bill is enacted. There is no doubt about it in Texas, the people are disgusted. And the legislators are disturbed.

There is much talk that many of them will not be re-elected. Undoubtedly there are some who don't even want to return to the Legislative halls.

Many of the senators and representatives have tried hard to formulate a tax program that would care for the needs of the state. Their efforts have been stymied.

During the past six months there has been talk of a unicameral legislature, like Nebraska's. Also there has been talk of a special election to let the public decide on taxes — especially sales taxes. Some officials feel that the public, if it had its say today, would vote for a sales tax — and thus take the monkey off the backs of the legislators. But so far no one has had the courage to introduce such a measure.

Soundings by the press indicate that a sales tax might very well be acceptable to the people — that the people fully realize the dilemma — that they at least would go along with a reasonable sales tax, although they might be firmly opposed to an income tax.

Maybe a special election on the subject of a sales tax is the answer. At least the public would have a say in the matter and our senators and represent-

atives would not have to face the criticism they now fear. Wish somebody had thought of that earlier, don't you? An election could have been held on the subject at much less expense than that incurred in financing three additional special sessions, all of which actually centered around that very topic.

**NEW BUILDINGS** — While the Senate and House are busy trying to find a way to finance the state's future operations, governmental buildings still are being erected around the Capitol. In fact, they are beginning to dwarf the major edifice.

Occupancy of the first of these buildings to be completed has just been made by the Texas Employment Commission. Its six hundred employees now are housed in the \$2,400,000 structure.

A total of 11,000 pieces of office equipment were moved out of eleven downtown Austin locations into the new six-story building.

TEC began some 24 years ago with a staff of 25 employees in the state headquarters and 50 local offices. Now employed are 2,300 persons, with 93 local offices throughout the state.

**GOVERNOR SIGNS BILL** — A bill by state Senator Bill Fly extending the time for removal of the offices of the State Board of Insurance from the International Life Building in Austin has been signed by Gov. Price Daniel.

The Commission rents some ten floors of the building. However, the rent is paid by the various insurance companies in Texas.

Earl or Senator Fly secured passage of a bill calling for the removal of the Insurance Commission from that building and the construction of its own office headquarters. Work has not yet been begun on the new building.

Other bills signed by Governor Daniel include one by Sen. Hubert Hudson, authorizing certain water districts to waive immunity from liability for negligence of its agents; a bill by Sen. Charles Herring relating to monies appropriated to the State Board of Barber Examiners; and two bills dealing with hunting and fishing. One, by Rep. Sam Parsons, would authorize the Game and Fish Commission to allow fishing and hunting of migratory waterfowl on lakes and rivers located upon a common boundary with other states. The other, by Rep. Zeke Zhranek, related to the catching of catfish from the Trinity River.

**LONG INVITE POCKETED** — A second attempt to get legislative approval of an invitation to Gov. Earl Long of Louisiana to address the Texas legislature has failed. The latest effort, by Rep. Bill Jones of Dallas, drew little support.

Jones said that his invitation

was a matter of "common courtesy" to the governor, who had expressed a willingness to address the Texas legislature when he came through the state recently.

**TRINITY PROJECT PRESENT** — An application from the Trinity River Authority to "appropriate" 840,700 acre feet of water per year from the Trinity River and to store 1,579,000 acre feet, or nearly a two-year supply, has been received by the State Board of Water Engineers.

Hearing has been set for Monday, August 31. The Trinity River Authority proposes to build a dam six miles southwest of Livingston in Polk County.

Its request calls for 95,200 acre feet of storage devoted to municipal use; 672,600 acre feet for industrial use; and 72,900 acre feet for irrigation purposes.

## BEST ENGINES! One of 7 Big Bests Chevy gives you over any car in its field

Open invitation to excitement, the Impala Convertible... and America's only authentic sports car, the Corvette.

You've got more to go on than our say-so: Every motor magazine has given Chevy's standard passenger car and Corvette V8's unstinted praise. SPORTS CARS ILLUSTRATED says it this way: "... surely the most wonderfully responsive engine available today at any price." And if you want the thrif of a six, you still get the best of it in a Chevy.

**BEST ECONOMY** No doubt about this: a pair of Chevy sixes with Powerglide came in first and second in their class in this year's Mobilgas Economy Run—getting the best mileage of any full-size car, 22.38 miles per gallon.

**BEST BRAKES** Not only bigger, but built with bonded linings for up to 66% longer life. Just to prove what's what, Chevy out-stopped both of the "other two" in a NASCAR\*-conducted test of repeated stops from highway speeds.

\*National Association for Stock Car Advancement and Research

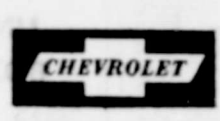

**BEST RIDE** A few minutes behind the wheel will leave no doubt about this. MOTOR TREND magazine sums it up this way: "... the smoothest, most quiet, softest riding car in its price class."

**BEST TRADE-IN** Check the figures in any N.A.D.A.\* Guide Book. You'll find that Chevy used car prices last year averaged up to \$128 higher than comparable models of the "other two."

\*National Automobile Dealers Association

**BEST ROOM** Official dimensions reported to the Automobile Manufacturers Association make it clear. Chevy's front seat hip room, for example, is up to 5.9 inches wider than comparable cars.

**BEST STYLE** It's the only car of the leading low-priced 3 that's unmistakably modern in every line. "In its price class," says POPULAR SCIENCE magazine, "a new high in daring styling."

NO WONDER MORE PEOPLE ARE BUYING CHEVROLETS IN '59 THAN ANY OTHER CAR!

**Membership Meeting Of Plains Cotton Growers Set August 28**

The third annual meeting of the general membership of the Plains Cotton Growers, Inc. will be held August 28 at Municipal Auditorium in Lubbock, W. O. Fortenberry, President, has announced.

Two nationally known speakers have accepted invitations to address the PCG at that time, Fortenberry said. They are J. M. Cheatham, President of Dundee Mills, Inc., Griffin, Ga., and first vice president of the American Cotton Manufacturers Institute; and Bill Foreman, Public Relations Manager of the National Cotton Council of America, Memphis, Tenn.

"There will be additional people from the cotton industry on our program and we feel we already have two of the top industry leaders who will be able to give our members a firsthand report of conditions now as they exist for the cotton producer," Fortenberry said.

"We want to extend a special invitation to all cotton producers and businessmen to attend our meeting. It will begin at 10 a.m. Friday, August 28, at the Municipal Auditorium here in Lubbock. A free lunch will be served and our program will conclude about mid afternoon.

Directors of the PCG will meet prior to the annual meeting, at 9 a.m., at the Auditorium for a business meeting and the annual election of officers, Fortenberry explained.

"We have had the Plains Cotton Growers, Inc. in existence for more than three years now, and we feel this past year was one of our most successful years. At the annual meeting we will review the progress and outline our program for 1959-60. I hope all our producer members and others will help us in observing this third annual meeting — a milestone for the cotton industry on the Texas High Plains," Fortenberry concluded.

Additional details about the annual meeting will be announced later.

**OPEN KITCHEN PLANS**

Open kitchens that blend with family or dining rooms add spaciousness and companionship for the cook. If they result in noise, odors and unsightly vistas to the other room the plan is not good. Acoustical panels on walls and ceiling will reduce noise. Confining the cooking to one area with a good forced exhaust system and hood over the range will remove cooking smells. Careful screening to keep work areas from view will make the open plan more attractive for all concerned.

**Youth Activities Week August 2-9**

The Methodist Youth Fellowship will sponsor their annual Youth Activities Week beginning Sunday night August 2.

Each night of the week will be filled with study, recreation, and worship especially for youth. Leading discussion groups on various nights will be Barry Barker on "Facts of Love and Life for Teenagers", Rev. Russell McAnally on "Youth at Prayer" and Mrs. McAnally on "About Myself". On Sunday night, the youth will give to the church a dramatic presentation on "Right Here, Right Now", the theme for the week. The program for Monday night features a discussion of "This Is Your Life, Right Here, Right Now". Bill McKinley, youth director for the Phillips Methodist youth, will present "These Are Your Responsibilities" on Tuesday night. Family life will be emphasized on Wednesday with a churchwide covered dish supper. "This Is Your Decision" is the topic for the Thursday night swimming party and tampleire service. Bobby McMillan, youth director, will preach for the weekend Youth Revival which is the climax for the week. All young people are invited to attend the activities and especially the revival services Friday night and Sunday.

Sponsors for the M.Y.F. groups with Bobby McMillan are Mr. and Mrs. Harold Duvall, Mrs. Gene Handley, Mrs. Don Hatch, Mr. and Mrs. Don McMahan, Mr. and Mrs. Frank Hawkins, and Mrs. Bobby McCormick.

**MELONS ARE EXTRAVERTS**

Fragrant melon aroma mingles readily with other foods in the refrigerator. To avoid this, wrap the ripe melon in waxed paper or foil. Left-over melon can be cut in balls or cubes and stored in the freezing compartment of the refrigerator. When you serve frozen melon balls, serve them partially frozen as they tend to have a rubbery texture when completely thawed.

**DOUGHNUTS A CENTURY AGO**

Two coffee cups milk, 1 coffee cup butter, 1 coffee cup of sugar, 1 coffee cup of yeast, 2 eggs, spice to your taste and flour enough to roll out. This doughnut recipe, taken from an old cookbook, illustrates that fashions in writing recipes change just like fashions in dress.
