EDITORIAL

By faith we understand that the world was created by the word of God, so that what is seen was made out of things which do not appear.—Hebrews 11:3.

NOW THAT school has started it might be well to remind all motor vehicle drivers of the law which requires that a driver come to a complete stop when overtaking from the rear a school bus which has stopped to receive or discharge passengers. After stopping immediately behind the bus, the driver may then proceed past the bus at a speed "which is prudent, not exceeding 10 miles per hour, and with due caution for the safety of such children." Many people do not realize that the very same rule applies when meeting a stopped school bus. Penalties for failure to comply may be as much as a \$200 fine when no accident occurs. If a child is injured or killed, the penalty to the driver of the car may be much more serious.

TEXAS VOTERS will be issued a little different poll tax receipt this Fall when taxes are paid. The new form will

have a blank space on it called "party affiliation" which will remain blank until the voter votes in the primary. No one is authorized to fill in this blank space except the election judge—or the County Clerk in case of absentee voting. When a person appears at the Democratic primary to vote, the election judge then fills in the blank with the word "Democrat." It also means that you must take your poll tax receipt with you when you go to vote. Most of us have been in the habit of voting without a poll tax receipt in hand since we are known by the election judge and he has a poll list. But next year when you go to vote, better dig out that receipt.

THE BILL in Congress to raise the minimum wage rate to \$1.25 per hour has been held over until the last half of the present session of Congress in 1960. This means that you will have a chance to contact your Congressman and Senators and express opposition to the bill before it comes up again for consideration. Your Senators and Representative want to know your thinking on the matter. We urge that you contact them soon. The minimum wage business has gone far enough, in our opinion. It's time Congress found that out.

BE SURE to attend your Floyd County Fair. It will be well worth your time but you should attend also as an expression to those who have worked so hard to make the Fair possible. Some exhibits are expected to be even better than last year and the Fair generally should be better. Take time to go out and see everything. Don't forget the entertainment. And it might be well to say "thank you" to the Fair officers and directors, the other officials and all those who are responsible for it's success.

TIME FORECASTS that during the last quarter of this year the U.S. economy "will pass a long-awaited milestone far ahead of schedule." We will be producing, earning, spending and investing at the rate of \$500 billion — half a trillion — a year. This works out to the production of about \$11,000 worth of goods and services for each of the country's 45 million families.

READING NOTE: According to Editor & Publisher, we are consuming newspaper at the record rate of 7 million tons a year. And consumption is expected to continue to rise.

TAX FREE
 This isn't about to happen, but suppose Southwestern Public Service Company suddenly decided to make all their service absolutely free to you. Know how much you would still pay for that service?
 You would still pay the government 23.2 cent in taxes out of every dollar you spent on

lights and power.
 Interesting, isn't it?
 Now, if all competitors were required to pay this 23.2 cents in taxes, plus their regular bills, wonder how high their rates would be?
 This is interesting, too.
 We, the users of private utilities are probably paying 5c more of each dollar we pay for service to help carry the tax free institutions who compete against private utilities.
 Some day, some bright consumer is going to file suit because he is not receiving "equal protection" under the law and

our whole socialistic idea of "robbing Peter to pay Paul" will go down the drain. — Cecil Waggoner in Claude News.

COINCIDENT?
 Ran into a bit of interesting numerology recently that may or may not be significant. However, numbers play an important part in Scriptural prophecy and nearly everyone is acquainted with the number 666 or 6 which disposes to show satanic influence.

At any rate, hostilities in World War I commenced exactly at the end of the Kaiser's life. The day World War II commenced in all its fury via the Blitzkrieg, fell exactly at the end of 28 times 666 days of Adolph Hitler's life.

Thirty-six times 666 days from Karushchev's birth will end Dec. 9, 1959!
 But December 9th isn't significant until you realize three other termination dates end at the same time.
 Get your bomb shelter ready. — Cecil Waggoner in Claude News.

My science-warped neighbor has bought himself one of these phonographs which pump knowledge in through a fellow's ears while he sleeps.
 Says this seemed like a very convenient and easy way to get learning, but he can't tell that it is doing him any good.

Says, though, he ought to have known this type of brain conditioner wouldn't work on him, on account of he has listened to sermons while asleep every Sunday morning for years and he is still a Bible duffer.

**Ford's Falcon
Will Be Shown
Here October 8**

Ford Motor Company has released photos of its new economy car, the Falcon, said to be a "revolutionary breakthrough" in automotive design, and compared the significance of its introduction with that of the Model T and Model A. The Falcon will be shown at Baccus Motor Co. here Thursday, October 8th.

Henry Ford II, president, said the Falcon is an all-new, six-passenger car with a new, slinder, 90-horsepower, air-cooled engine capable of 28 miles to the gallon of gas.

Ford said the Falcon is one-quarter of a ton lighter than the Ford Fairlane, yet has passenger space compared to standard cars, has a big-car trunk and excellent structural rigidity and durability.

He said, represents a major engineering breakthrough that could "materially change the future of the automotive industry."

The new car will weigh 2,366 pounds compared with 3,758 for the average 1959 sedan.

A Word About Your Cotton Defoliants!

DEFOLIATION CAN BE NEAR PERFECT!
DEFOLIATION CAN BE UNCERTAIN!

Cotton defoliants can aid an earlier harvest and better grades. Applied prior to a freeze, it will cause some bolls to make white cotton that otherwise would not.

The results will be in direct relation to the maturity of the cotton. If the cotton is ready to defoliate, the percentage of leafdrop will be high. If the cotton is immature the percentage of leaf-drop will be low.

Let us discuss your cotton defoliants with you.

Franklin Rainey, Ed Noel, Kirk Slater, M. B. Swanner, James Jeffress, Stinson and Bill Stringer, Darrell Mayo and Jim Carey.

Sand Hill 4-H Club will meet Monday night, Sept. 14, in their regular meeting. Election of officers will be held. Everyone is invited.

Home Making Hints

Don't Overload Your Freezer

Does your freezer look like an overloaded suitcase? Even though you can still close the lid or door you may be losing food quality, flavor and nutrition by improper loading. Whether you buy frozen packages of food to store in your freezer, or actually prepare and freeze them at home, there are some points to keep in mind.

First of all, keep all fruits, vegetables and meats stored at 0 degrees F. or below.

Freeze fruits and vegetable soon after they are packed. You can put a few packages at a time into the freezer as they become ready, or keep packages in the refrigerator until all are ready then transfer them to the freezer. If you have a large amount to freeze at once, it may be wise to have them quick frozen at the locker plant.

Freeze packaged meat as soon as possible to prevent juices from draining. For best results, quick freeze meat at

the locker plant where correct freezing temperatures 20 degrees below F. in still air or 50 degrees F. in circulated air are maintained. These low temperatures are not reached in most home freezers. Transfer the meat to the home freezer in an insulated bag.

To prevent overloading, put no more unfrozen food into the freezer than will freeze within 24 hours. This is about one or two pints of food per cubic foot of freeze capacity. Overloading slows the rate of freezing, and food that freezes too slowly may lose quality or spoil. For quickest freezing, place the packages against the freezing plates or coils and leave a little space between the packages so air can circulate between them.

Scoring Canned Fruits

This is what your canned fruit will be judged by at the fair. In selecting your jars of fruit to take, consider these points.

CONTAINER — 15 points. Clean, polished standard jar, lid free from rust and corrosion, neat, plain label placed 1/4" from bottom of jar. If jar leaks, it is disqualified.

PACK — 25 points. Practical but not fancy, uniform in size whether whole or in pieces, space in jar filled but not crowded, large proportions of

fruit to syrup, fruit covered with syrup, 1/2 inch head space in jar.

clear syrup.

TEXTURE — 30 points. Shape held, uniform maturity, not mushy from over ripeness or overcooking.

COLOR — 30 points. Characteristic of fruit—not faded or darkened. Uniform ripeness, I'll see you at the fair.

New Law Affects Butane Users And Dealers

A new state law which went into effect Tuesday of this week, Sept. 1, will have considerable effect on butane and propane users and dealers. The new law includes all special fuels such as butane, propane, and diesel kerosene, providing that taxes on such fuels be collected at the wholesale level. Local dealers who deliver special fuels into fuel supply tanks or in bulk quantities for redelivery must secure a permit under the law. On the other hand users of special fuels, including farmers, are required by the law to sign a statement declaring that fuels purchased tax free will not be delivered or permitted to be delivered into the fuel supply tank of a motor vehicle and that taxable use of such fuel without securing a Users permit will forfeit the right to purchase special fuel tax free for a period of one year. Highway vehicles must either be serviced by retail dealers who will issue him an invoice showing the date, quality, highway license number and speedometer reading on each "fill-up"; or the user must secure a permit to use special fuels purchased tax free in a highway vehicle, then keep records and pay taxes on the amount used. This requires LP gas operated vehicle owners to keep speedometers in operating condition at all times to correctly measure and register the miles traveled. Persons who violate this law will be penalized by having to pay taxes on all special fuels used, for any purpose, for a period of one year. Both dealers and users are governed by the new law and three local dealers have published an advertisement that appears on another page of this edition for the benefit of users. They also stated they would give users further information on the law upon request.

Acceptable Worship

Men do not have the right to worship God except as God has directed in his word. Worshippers are commanded to worship God "in spirit and truth" (John 4:24). To worship in truth is to do as directed by God's word. "Thy word is truth" (John 17:17). All human doctrines and systems of worship are positively forbidden by Christ. "But in vain do they worship me, Teaching for doctrines the commandments of men" (Mt. 15:9). Every act of worship should be tried by this infallible test, the WORD OF GOD. If not taught in the word of God it is a doctrine of men and is therefore VAIN WORSHIP. WELCOME TO THE GOSPEL MEETING AT MAIN STREET NEXT WEEK. SEE ELSEWHERE IN THIS ISSUE FOR FULL INFORMATION. West Texas Boys Win Awards From Santa Fe Railway

Five Future Farmers of America boys from West Texas and the Panhandle area have been named to receive educational awards sponsored by the Santa Fe Railway company. At the same time, nine other Texas boys were named to participate in the Santa Fe's grant of \$2825 to the Texas Education Agency for carrying out F.F.A. work in Texas during 1959.

The awards were announced at the Texas FFA convention in Austin in July by L. M. Olson, Santa Fe's general manager at Galveston, after certification to the railroad by George H. Hurt, Texas State F.F.A. advisor. The boys were selected on the basis of individual performance by F.F.A. leaders.

West Texas winners are Bobby Logan, Clarendon; Teddy Carruth and Jarus Flowers, both of Tullia; Charles Stenhold, Stamford; Kenneth Smith, Tahoka; and Weldon Tabor, Quanah.

Carl Talley of Route 1, Clarendon, and Carruth, of Tullia, were named as winners of the two \$350 college scholarships granted by the Santa Fe in Texas each year.

Educational awards to F.F.A. boys are a continuing practice of the Santa Fe. All winners receive financial aid from the Texas Education Agency out of the railroad grant.

Longhorns Victorious In Opener

PASSES PAVE WAY FOR 20-6 WIN OVER HALE CENTER OWLS FRI.

AN EXPLOSIVE PASSING attack, a weapon used sparingly by Lockney elevens in recent years, sparked the Longhorns to a 20-6 victory over the Hale Center Owls Friday night in the season's opening encounter for both teams. Hale Center was unsuccessful in winning the initial battle on their new field, which was dedicated prior to the kickoff.

Although the Big Red counted on only four aeriels in its attempts, two of the completions went for touchdowns, and other two passes were in goalward marches.

Quarterback Bill Mangold and halfback Doyle Freeman each had a touchdown pass the first time the Lockney team punted the ball. Late in the second stanza Johnnie Belt threw a perfect pass to end the game.

Leading the Longhorn defensive platoon were Dan Smith, Wayne Cooper, Gant, Allard, Lewis Eiland, Ricky Collis, Mickey Mosley, Oyama Buchanan, James Davis, Joe Carthel, and others.

Summary of the contest:

They gained 3, 2, 4, and punted to the Hale Center 49. Allard returned two yards. Allard picked up 3, Mangold tossed to Freeman for a first on the 32. After an incomplete pass, Freeman dashed to the 15.

Another aerial went awry. Clark gained 8, Mangold found Freeman alone in the end zone for a touchdown. Mangold kept for two points but the play was nullified because Lockney was offside. On the second try Hale Center was offside, and on the third attempt a pass was incomplete. Lockney 6, Hale Center 0.

Mangold failed to pick up two points on a running play. Lockney 12, Hale Center 0.

Smith's kick was returned from the 23 to the 38. A pass was complete for a first on Lockney's 38 as time elapsed in the first half.
