# Plains Cotton Growers Set Objectives

Directors of the Plains Cotton Growers, Inc. adopted an eight-point set of objectives to apply to future farm legislative proposals in the last official meeting of 1959, held Dec. 17 in Lubbock.

The group did not adopt a specific proposal for an overall farm program, but agreed on eight objectives as "broad principles" upon which the organization can stand until a farm bill is proposed.

The objectives call for a program "to protect farm income" and permit farmers to use land and equipment more effectively and efficiently. A one-price system for cotton to both domestic and foreign mills also was advocated. The group also agreed that a program is needed to reduce the surplus and prevent accumulation of new surpluses beyond that necessary for market stability, national defense or emergency. It should also provide means for orderly marketing and stabilizing price.

Another objective called for a program to increase consumption of cotton and expand production as needed. Cotton also should be made competitive in price and quality to synthetic fibers and foreign production.

The final two objectives called for a program to return cotton marketing to its normal channels of trade and to provide a public relations program designed to give the American public a true picture of agriculture.

PCG directors also toured the pilot spinning plant at Texas Tech and discussed cotton trailer licensing, farm labor issues, the vegetable oil situation and proposals by the American Cotton Producers Association and the Texas Cotton Association.

Wilmer Smith, vice president, announced that the USDA has announced that there will be no change in the skip-row planting program. Farmers will be permitted to plant this method if they so wish.

# Snow Chills Area, Adds To Moisture

A snow which fell here most of the day Tuesday, covered the ground to a depth of from 3 to 6 inches, brought with it zero temperatures and added to the already abundant underground moisture.

Schools were closed in many places on the High Plains Wednesday but the Lockney Schools operated as usual. Attendance was "pretty good" in high school and junior high but was down sharply at grade school with 42% of the pupils absent, according to a report from Principal Mrs. Alma Dutton.

In all four schools absentees totaled 33 per cent of the total enrollment, according to High School Principal F. M. Smith. This included the colored school where only 30 were present out of 76 enrolled. At high school there were 30 absentees out of 230 enrolled and in junior high 35 were absent out of 156 enrolled.

No official temperature reading was available at Lockney but it was unofficially reported at "about zero." Some reports gave readings in this area below zero and others were slightly above.

The snow was melting slowly Wednesday and the moisture was soaking into the ground. Moisture should amount to about a half inch of water but will be much more beneficial than a half inch rain because of the way it soaks into the ground, farmers say.

In addition to benefitting wheat, the snow will put moisture into the ground for a planting season in the spring and save quite a bit of pumping later on. The Beacon was told.

Icy roads resulted from the snow and cold weather and auto drivers were still having trouble late Wednesday. However no serious accidents had been reported here Wednesday night.

## EDITORIAL

Though he fall, he shall not be utterly cast down; for the Lord upholdeth him with His hand.—Psalm 37:24.

LET'S GET TO work! The business people of Lockney need to get something started in the way of attracting and keeping business at home. This is the day of promotion. People no longer trade at one place from force of habit. Something must attract them there or they go other places to trade. Towns likewise. It's not that we're being overlooked by people of the trade territory. It's just that we're not getting as much of their trade as we should get. We need to let them know we have something they want and need — and that we appreciate their patronage. It's been a long time since Lockney has had three empty business buildings. We need to fill them up. Let's get to work.

LOCKNEY RESIDENTIAL area has grown considerably the

past year. Many beautiful and spacious homes have been completed. Others are being planned for this year. Also additional paving is in the planning stage. The city is growing. It will take some effort on the part of business people for the business district to keep up with the remainder of the city.

ARE YOU WORRIED about the present national debt? We owe about \$290 billions and it appears that we will eventually push our national debt to \$300 billions or more. The sad thing is that we're doing that during boom times. How will we ever pay the interest if business conditions fall off and income tax revenues fall considerably? But the \$290 billions is not all our government is obligated for, as one writer points out. We have accrued liabilities for military retirement in the amount of \$30 billions, accrued liabilities for retirement benefits for civilian employees of \$27.5 billions, and we are obligated for veteran pensions and compensation to veterans in the amount estimated at \$300 billions. Thus we are obligated for something like \$650 billion dollars. Maybe it's time we started economizing in some way or other.

WE NEED to let our national Congress know that we favor economy in government. That the Congress is sensitive to the public's sentiment was clearly demonstrated in the passage of the labor reform bill last year. We believe they would listen to an economy theme as well. Maybe we ought to start at home. One daily newspaper writer has estimated that if all the programs advocated by U. S. Senator Ralph Yarborough from this state were enacted into law by Congress, our Federal budget would be upped by more than 10 billion dollars per year. Surely there is some way Mr. Yarborough can serve the great State of Texas other than by spending taxpayers money.

RALPH T. MOORE writes in the Oregon Voter: "A great deal of our school trouble stems from the persistent and completely fallacious presumption that public education can be measured by the dollars spent more than by the actual results obtained."

### COMMERCIALIZATION

Every year I hear a great deal about the "over" commercialization of Christmas. I now believe it is more a state of mind than a statement of fact. It may well stem from the growing cult in America who believe it is a sin to make a profit.

If you took the tinsel out of Christmas would it generate a deeper spiritual attitude? By the same token why not do away with the music and hymns of a church service? They are but tinsel leading to deeper truths.

The pace is changed, the colors bright, the attitude a bounds and for a moment we are caught up in a new spirit of things. There is a joyous side to Christendom as there is a sacrificial. We become children again and see good in all that abounds. The mistrust is relaxed for a moment and the beauty and song of it all lifts our ailing spirit.

Let us also remember that this so-called commerce pays the wages that eventually find their way into our churches, our schools, our organizations of benevolence, our government and our way of life. Otherwise we would be completely dependent upon a cold, calculating government for even our necessities of life.

Man can only pursue the dignity of his own conscience when he has a choice. And though commercialization may seem gross, he exercises that choice in the many avenues of its service and service is the rudiments of unhampered commerce. Without it we would still be reposing in an eighteenth century world of serfs and barons.

So why attempt to destroy by denial of the Christmas spirit, what the Christmas spirit created in the first place? Instead, relax for a time and enjoy a happy, wholesome session that has been a blessing to us for age immortal.—Cecil Waggoner in Claude News.

### POLL TAX TIME IS HERE AGAIN

There is some talk of eliminating the poll tax requirements

in Texas but, come what may, those who vote in 1960 will be required to have the little white slips.

As usual, poll tax payments are lagging at this particular period. In January, however, they usually pick up — and that time is fast approaching. Most people well know the importance of casting their vote for, upon this function, depends our entire government existence.

Even for America, this particular area provides more freedom in voting than many others. No organized cliques, no party bosses, and no wards exist to dictate who will be elected. People just go down and vote to the best of their ability.

The only real requirement is that of paying one's poll tax — and compared to other nations this is small indeed. A few people may not have the money but most of those who

default will do so through neglect or carelessness which, after all, provide no excuse for such an important obligation and privilege.—Herford Brand.

### SCHOOL PROBLEMS

This school mess in McLean is certainly regrettable and without assuming the court's responsibility of settling the thorny question of who is right and who is wrong and how much, it is even more regrettable that we citizens — here as well as throughout the country — are more concerned with cars than education.

Every public school row I have ever heard concerns some rather trivial issue. I have heard of a hassle developing because the kids weren't being made to study enough. — McLean News.

SOME 10 MILLION Russians are learning English; an estimated 15,000 Americans study Russian. The government and educational institutions are working to help us catch up in the linguistic race, and now a company that publishes phonograph-record language courses for children has come out with a set on Russian.

Dear Editor:

I see where some college economic seers say that if our government will get a little more aggressive it can wipe out us low income status people in 30 years.

My tax-paupered neighbor says this is logical, except that if government gets any more aggressive with it foraging activities, it won't take 30 years to eliminate poverty.

Says most poor people are already a little skinny, and a couple more tax hikes so they can't pay their grocery bills ought to starve them out in about 30 days.

## Parmer County Boy Wins Grain Yield Contest

College Station. — Larry Johnson, a Parmer county 4-H Club boy, is the top winner in the 1959 Texas Hybrid Grain Sorghum Production program. His yield of 8,840.3 pounds from an acre of TX660 was produced under irrigation and gave him the overall state honors. The top yield without irrigation was made by Dan Pustejovsky, Route 2, Hillsboro, with 6,137 pounds from an acre of RX610. Both used anhydrous ammonia before planting and Johnson made a second application as a side-dressing.

The complete list of winners as released by Ben Spears, extension agronomist, included in the irrigated section. Jim Shearhart, a Deaf Smith county 4-H boy, with a yield of 8,586.8 pounds an acre — second; Harold Shearhart, Route 1, Hereford, third, with a yield of 8,452 pounds; fourth was Donald Smithson, a Castro county 4-H boy, with a yield of 8,442 pounds and fifth was a joint entry by Mack and Jack Thompson, also Castro county 4-H members with 8,264.8 pounds.

Spears said the program, sponsored by the Texas Certified Seed Producers, Inc., in cooperation with the Texas Agricultural Extension Service, was originated to prove the value of Texas developed hybrid grain sorghums, and sound production practices such as the use of fertilizer.

Area winners will receive cash awards of \$50, \$35, \$25, \$10 and \$5. The over-all state winner will receive in addition to the area award \$50 and a plaque. The dryland winner in addition to the area award will receive a plaque. All participants were required to plant a minimum of one acre to one of the Texas developed hybrid grain sorghums.

Locally, said Spears, the county agricultural agent was in charge of the demonstration program.

Spears added that all participants who produced 6,000 pounds of grain an acre were eligible for membership in the 3-TON GRAIN SORGHUM CLUB OF TEXAS. Twelve participants in the 1959 program exceeded this figure.

Presiding minister of the Plainview congregation, Clarence W. Hall Sr. said, "We look forward to these conferences to give us the needed stimulus to 'Do the Divine Will' which is the theme of the conference."

"We often convene in congregational, circuit, district, national and international conferences," Hall said, "to meet the challenge of the day and to stem the tide of delinquency by 'Doing the Divine Will.'"

Hall stated, "Skilled workers require advanced training, so the Christian worker needs a firm foundation in Bible education. The training at these assemblies is designed to improve the quality of our preaching activity."

"We sincerely hope that the advanced training planned for us there will enable us to live closer to the Bible and its teachings," Hall said.

## Use Last Year's Records To Plan This Year's Work

College Station. — Were profits made from your farming or ranching operations in 1959? If improvement is needed, consider carefully your plans for the new year.

When good farm records are summarized they may reflect vital points of slack in the business, points out C. H. Bates, extension farm management specialist. Some operators are using their financial records primarily for income tax reporting. Others are getting an "extra" dividend of stabilizing their future plans by study of all records. Records may be used somewhat as a mariner's compass to direct the future course of operations.

How may cost reductions be made? One example may be by study of the major item of operating costs — that of machinery and equipment, says the specialist. As mechanization and labor-saving practices are extended to more operations, ownership of some equipment items may become prohibitive for smaller farms. Volume of business is often insufficient to justify overall investment costs. Careful consideration should be given to custom service or joint ownership of equipment items if savings will result.

Similarly, such practices as the purchase of feed in bulk or during seasons of lowest prices may reduce costs in livestock operations. A small percentage saving on major, recurring cost items can boost profits materially.

Now is the time to review last year's business to plan adjustments prompted by the current outlook situation. Also, emphasizes Bates, consideration should be given to every opportunity for reducing operating costs per unit of output. Use your farm records in discussing plans for 1960 operations if assistance is desired. Records, Bates adds, may be especially helpful where credit is needed to expand or adjust operations.

See your local county agricultural agent for assistance in record keeping and management problems. Where intensive management problems exist, your county agent has access to trained specialists in the field of management.

**GRANDFATHER PASSES**

W. A. Morrow of New Home, grandfather of Wyatt Burkhalter, Lockney, passed away at the home of his daughter, Mrs. Marvin Wall in Paducah Sunday about noon. He was 91 years of age. Attending the services which were held Monday, January 4, 3:00 p.m. at the Methodist Church of New Home were Mr. and Mrs. Burkhalter, C. L. Record and Rev. Russell McAnally.

**GLAZE FOR LAMB AND PORK CHOPS**

Concentrated orange juice, lemonade and limeade make glamorous and tasty glazes for many meats. To save dishes, use an oven proof skillet and brown the chops first over a high flame. Drizzle 1/4 cup of concentrated fruit juice over the chops and bake, uncovered in oven, preheated to 350 degrees for 45 minutes. Baste frequently with drippings from the pan.

## Farmers Have Optional Date For Filing

Farmers and ranchers are afforded optional filing dates with their Federal income tax returns, according to John J. Sloan of Internal Revenue Service, Plainview.

Uncle Sam's tax laws define a farmer or rancher as one who gets two-thirds or more of his gross income from farming or ranching.

"Farmers and ranchers," Mr. Sloan said, "have until Friday, January 15 to file their estimated Federal income tax return for the year 1959, unless they choose to file their final return on or before February 15."

The IRS representative said that farmers-ranchers who file an estimated return on January 15 and pay the tax due have until April 15 to file their final returns and pay any balance of tax due. Otherwise, they must file final returns and pay the full amount of the tax due by February 15.

"Those who filed Federal income tax returns last year should already have received by mail their necessary forms for 1959," Mr. Sloan said. Additional tax forms are available at the IRS office, 118 East Seventh, Plainview, or at local post offices and banks.

Everyone who had a gross (not net) income of \$600 or more during 1959 must file a Federal income tax return this year, whether or not any tax is owed.

Only exception to this rule is for taxpayers 65 or over at the end of the year, who are not required to file a return unless their gross income was \$1,200 or more.

Mr. Sloan said that farmers in this area with questions about their Federal income tax returns may get a copy of the IRS publication, "Farmers Tax Guide," by phoning CA 4-5915, or by writing his office.

## Mrs. Roach Says Thanks For Business

Mrs. Perry Roach, former owner of the Dixie Cafe here, has asked The Beacon to express her thanks for the nice patronage she had during the years she operated the cafe.

Mrs. Roach recently sold the cafe to Mr. and Mrs. Garland Sams and they have been operating it since about Dec. 1.

Miss Gayle Rucker returned Sunday to Abilene where she is a student at McMurry College. She was accompanied by her parents.

Dear Editor:

I see where a newspaper says the Russian people are taking to installment buying like politicians to new tax territory.

But my tricky neighbor says we would do better to decoy these people into taking up the coffee break, which inactivates about one-sixteenth of a working man's time on the job.

He estimates roughly that this would have the same general effect as killing six or seven million Russians in battle, and be much cheaper.

## Hunting Season Draws To Close With Good Year

Austin. — Deer hunters now can put their rifles away until the 1960 season opens. The season closes Dec. 31. Duck season closes Jan. 1 and goose season closes Jan. 8.

The final shooting date of the 1959-60 season is Jan. 16, the end of the quail season. Dove, quail and deer hunters report the best harvest in years. Duck and goose shooting was scattered, according to the director of law enforcement of the Game and Fish Commission.

On public deer hunts held on the five management areas of the Game Commission, there was a 40.49 per cent success, according to reports from the Restoration Division.

The results follow: Black Gap area, 136 deer killed for a 45.33 per cent success; Kerr area, 177 deer killed for a 60.82 per cent success; Engeling area, 70 deer killed for a 56.91 per cent success; Sierra Diablo area, 33 deer killed for a 50 per cent success; Angelina area, 84 deer killed for an 18.46 per cent success.

In northeast Texas heavy kills were reported in counties only recently reopened to hunting. In Bowie County there were 442 bucks and 316 does harvested; Red River County reported 209 bucks and 210 does for a total of 419. This was a total of 1237 deer killed in the two counties.

By Mrs. Murray Julian

The New Year of 1960 has come in with temperatures in the low twenties, and families are home from trips over the holidays; youngsters are back in college and schools, and life has again settled down to normalcy.

School board members and other men of the community finished insulating the ceiling at the South Plains schoolhouse Saturday.

Sunday morning services at the Baptist Church here showed 67 attending and 28 at night services. It is hoped by next Sunday all the families will be back in church.

Mr. and Mrs. Austin Beedy of Plainview have a baby daughter, named Tracy Lynn, born Christmas Day in Plainview. We extend our congratulations to the parents and to the paternal grandparents, Mr. and Mrs. George Beedy, formerly from South Plains, as are the Austin Beedys.

The Roy Bledsoes returned Tuesday after spending the holidays in Big Spring with her sister, Mr. and Mrs. Ralph Proctor, and his folks, the Jim Smit family in Winters. They visited friends in Abilene and at Snyder with Mrs. R. W. Newman at the hospital.

where they viewed miles upon miles of orange groves. While in Miami they saw many old friends and went through the Orchid Jungle, Rare Bird Farm, Coral Castle and the Spanish Monastery.

South Plains P-TA will meet Friday at 3 p.m. with Mrs. Roy Bledsoe giving a book review entitled, "Preachers Kids" by Grace Miles Fletcher. This is a true story, and everyone will want to be present.

Mr. and Mrs. Ernest Smitherman took their son, Larry, to Amarillo Sunday where he left at 8 o'clock for Denver, Colo., to resume his studies at Colorado Institute of Art. He had been home for Christmas holidays. On the way home the Smithermans stopped in Canyon to visit with Mr. and Mrs. E. T. Cummings.

### Enrolls in Radio School, Dallas

Kenneth Kendrick, son of Mr. and Mrs. Ray James, Lockney, left Saturday for Dallas where he enrolled Monday in Elkins Radio School. The course will last six weeks and gives opportunity for rapid progress by actual experience.

The school is connected with the Texas State Rehabilitation program and accepts only 15 students in each course. Kenneth will be trained in the engineering field of radio. He is a 1958 graduate of Lockney High School.

Kenneth received a serious leg injury in an automobile accident about a year ago and has not fully regained use of the limb.

"Advice is what the old give the young when they can no longer set them a bad example." — Irvin Cobb.

Life is very much like Christmas — you're more likely to get what you expect than what you want.

Here's a pate snowball that's as glamorous as it is good to eat. Mash 1/2 pound liver sausage, add 2 tablespoons lemon juice, 2 teaspoons grated onion and 2 tablespoons mayonnaise. Pack the mixture into a small bowl, cover tightly and store in the refrigerator for several hours. When it is formed and the flavors have blended, frost it with a cream-cheese mixture made of 1 3-ounce package if cream cheese whipped with 3 tablespoons of milk. Garnish with parsley and stuffed olives and serve with assorted crackers and rye bread.

## MANY STRANGE CUSTOMS MARK NEW YEAR'S DAY

Not everyone celebrates the beginning of the New Year on January 1. But people in all parts of the world have special customs to insure that the New Year will get off to a good start.

Church services and frantic parties, for example, are typical ways of celebrating in the U.S.

In many European countries, gifts are exchanged on New Year's Day. The custom originated with the Romans, according to World Book Encyclopedia. Back in 747 B.C., reportedly, they presented the king of the Sabines with branches of bay and palm trees consecrated to Strenia, the goddess of strength.

The "strenae," or gifts, became more elaborate, in expectation of royal favor, and the emperors came to regard them as deserved tribute.

Augustus Caesar is said to have passed the word along that he had had a vision in which he saw himself receiving gifts from the Senate and the people on January 1.

Claudius finally stopped the influence-peddling by limiting the cost of gifts.

Henry III introduced the custom into England, in the 1200's, and Elizabeth I collected enough loot to replenish her wardrobe for a year. The custom went out with Oliver Cromwell.

In Scotland, bad luck is in store for a family if the first person to set foot in the house on New Year's Day is a woman ... or a gravedigger ... or a

man with red or blonde hair. To minimize the risk, the Scots appoint a tall, dark man as the "first-footer." On New Year's Day he enters each house in silence, places a bundle of fagots on the fire, then wishes the family good luck.

Even the poorest Chinese buy new shoes for the holiday, because it is bad luck to step down on the ground into old shoes on New Year's Day. And the Portuguese ignore their debts, because the man who pays a bill on this day will pay out money all year.

The Brazilians open the New Year by expressing the hope of all men ... they designate January 1 as the Day of Universal Brotherhood.

Local students attending West Texas State College, Canyon, and Texas Tech, Lubbock, left Sunday to resume their respective studies.

Mr. and Mrs. Loyd Widener and Lee, Mr. and Mrs. J. C. Widener and David, spent New Year's Day visiting the Loyd Widener's daughter, Mrs. Ray Dean Fleming and husband at Friona.

Loyd Lee Widener left Sunday afternoon to return to A.C.C., Abilene, after spending the holidays with his parents, Mr. and Mrs. Loyd Widener.

GO TO CHURCH SUNDAY.

### Sand Hill News

By Mrs. James Jeffress  
Holidays are over, and many farmers are anxious to get back into the fields and start readying this month is income tax, and many are wondering which cotton allotment will be the best this year.

We wish each of you a happy and profitable 1960.

So many have had guests and have been on trips the past two weeks, I know I will miss many of you but I will list some.

Sand Hill Home Demonstration Club enjoyed their annual Christmas party Dec. 21 at the hotel dining room in Floydada. A delicious supper was enjoyed. Christmas games were enjoyed. Mrs. Ed Noel was in charge of recreation. The president, Mrs. Lynn Miller, presided; Mrs. H. F. Jackson received a THDA pin for being the most outstanding club woman in the Sand Hill Club for the past year. Gifts were exchanged. Present were Messrs. and Misses Lynn Miller, H. F. Jackson, Ed Noel, James Jeffress, Hollis McLain, Walter Knight, Pat Bullocks, Wayne Billington, J. T. Myrick, Jim Holmes, C. B. Carmack, Orton Miller, and Clifton McLain from Tennessee. James Jeffress spent several days during the holidays near Brady and Vaco, Texas, deer hunting and brought back an

eight-point buck. Mrs. Jess Starkey and Mrs. James Jeffress entertained their daughters, Mary and Beverly, with a Christmas party Saturday, Dec. 19, in the home of Mrs. Starkey. Games were enjoyed, pictures taken and records played. Refreshments were served to Cecil Jackson, Mary Starkey, Beverly Jeffress, Joe Frank Hawkins, Norma Hollums, Jimmy Huckleby, Janice Miller, Jenny Huckaby and Roy Ford.

Mr. and Mrs. Lynn Miller and family spent a few days during the holidays visiting her brother, Mr. and Mrs. Gete Corder and family in Ft. Worth.

Mr. and Mrs. Jim Holmes Christmas eve for El Paso where they spent Christmas visiting Mr. and Mrs. Don Cornwell and Jan. Billie Gail Holmes made the trip back to El Paso with them. She had been visiting in El Paso for a few days. The Holmes went on to Crane and spent a few days with her daughter, Mr. and Mrs. Johnny Stokes and family, and in Midland with Mr. and Mrs. Langston.

Visiting Mr. and Mrs. James Jeffress and family during the holidays were Mr. and Mrs. Tom Brown, Mr. and Mrs. Bob Brown, all of Lubbock, Mr. and Mrs. J. R. Turner of Providence.

Our deepest sympathy goes out to Mr. and Mrs. Ed Noel and family on the death of Mrs. Noel's brother, Jake Simpson of Matador. May God comfort them in their hour of sorrow.

Bro. and Mrs. Franklin Rainey and Paul returned Saturday night from Houston where they spent two weeks visiting their parents.

Mr. and Mrs. Dale Stringer and Stinson spent a few days near Houston visiting Mrs. Stringer's sister.

Mr. and Mrs. Bill Stringer and Christy spent several days at Munday visiting her parents, Mr. and Mrs. Joe Earp.

The Ed Noel family moved to South Plains Community this week. Our loss will be their gain. The Noels left many vacant spots in the church, club, and community as a whole and we cannot express how much we will miss them.

Sand Hill 4-H Club will meet Jan. 11th at 7 p.m. This is a very important meeting and all members are urged to attend. Bring money from the candy sales.

Mr. and Mrs. Leroy Durham and Anita of Plainview and Mrs. James Jeffress returned home this week from a business and pleasure trip to Washington, D. C., and it was wonderful. We left Lubbock at 7:55 a.m. Sunday, Dec. 27, and arrived in Dallas at 8:50 a.m. At 10:30 a.m. we boarded the

American Jet Power Electric and landed in Washington, D. C., at approximately 1:40 p.m. where we were met by Mr. Durham's brother, Mr. and Mrs. Clyde Durham and Nancy. We were guests in their home during our stay in Washington.

The weather was very wet during our stay but it was warm, so we were able to do some sightseeing between our business appointments. Monday night we attended a party in our honor near Baltimore, Maryland. Tuesday we toured the White House, Washington Monument and Arlington Cemetery and the Tomb of the Unknown Soldier in Virginia. Other points of interest we were able to see were the Potomac River with the boats, the Capital, M. I. T. Treasury Department, Dept. of Agriculture, Federal Commission Bureau, and the huge Christmas tree. The District itself is a very interesting, historical trip. I returned home Wednesday to Dallas by the Braniff Jet Powered Electric where I was met by my husband. We visited his mother, Mr. and Mrs. Arthur Todd in Gunter, his sisters, Mrs. J. M. Jackson and family in Prosper and Mr. and Mrs. K. E. McConnell and family in Denton, returning home Saturday.

Mr. and Mrs. Durham and Anita returned Saturday by jet and were met in Lubbock by Mr. and Mrs. Jess Starkey.

Mr. and Mrs. W. R. Billington entertained with a dinner party in their home Saturday night. Present were Mr. and Mrs. H. F. Jackson, Mr. and Mrs. William Mayo and Mr. and Mrs. Jim Holmes and the host and hostesses.

Mr. and Mrs. Pat Bullock and Judy spent the week end at Shamrock.

Keith Hollums of Lubbock spent the holidays with his parents, Mr. and Mrs. T. C. Hollums and Norma. The Hollums all attended the Lightfoot

### TENTH ANNUAL PUBLIC SCHOOLS OBSERVANCE PROCLAIMED

TEXAS PUBLIC SCHOOLS WEEK has been proclaimed by Governor Price Daniel for February 28-March 5. Receiving the proclamation for the tenth annual statewide observance is John McKee (right), who has served as State Chairman of the Texas Citizens' Committee for Public Schools Week since the week was inaugurated in 1950. Chief purpose of the observance is to induce more citizens — not only parents but all others — to visit the schools and see for themselves the functioning of our democratic system of education.

### FROM THE County Agent's Office

By Cecil Lewis

#### INCOME TAX

Farmers income tax guides are available in the County Agricultural Agent's Office to those who would like to have a copy. Come by and pick one up or we will mail a copy to those requesting them.

#### FRUIT TREES

Many peach and plum trees in the county may be dying because of insects called Peach Tree Borers and Shot-Hole Borers. The Peach Tree Borer damage will be found at about ground level. Small holes will show their presence. This can be treated within the next month by using Pardichlorobenzene Crystals or Ethylene Dichloride Emulsion around the base of the tree. Place the crystals about two inches from the tree and then add dirt on top of the crystal about six inches high. This should be done in dry soil and when the temperature is above 50 degrees for best results. The mound should be torn down in early spring.

Shot Hole Borers are usually found higher up on the trunk of the tree. To prevent them from attacking trees, a paste should be made with wettable D.D.T. Powder and painted on the trunks of the trees. All dead branches should be removed to prevent borers from attacking the tree. For further information contact the County Agents Office.

#### 4-H CLUB WORK

The 4-H boys and girls are planning for the coming show season. About 16 boys and girls are making plans to exhibit steers, lambs, and barrows at the Amarillo Stock Show. The next show will be the Floyd County Show which will be held March 7, 8, 9. Also included will be the Lubbock and Plainview shows in March.

Mr. and Mrs. Roy Kidd left Sunday for Abilene where they are both students at Abilene Christian College. They had spent Christmas holidays here with their parents, Mr. and Mrs. Clyde Baxter, Mr. and Mrs. J. W. Kidd.

Week end visitors in the home of Mr. and Mrs. E. J. Thomas were Mrs. Bobbie Darden and Mary Jane of Amarillo.

### SAUSAGE SUPPER ON A SKEWER

Pork sausage is a good food buy in January. Thread smoked, precooked sausage alternately with quarters of apples on skewers. Brush the cut surfaces of the apple with lemon juice and cook in the broiler compartment for 8 to 10 minutes, until the sausage is evenly browned. Serve with baked squash, creamed spinach and hot gingerbread.

Mr. and Mrs. Bill Reeves and Donna of Fallon, Nevada, spent the holidays visiting her parents, Mr. and Mrs. G. L. Sims.

### OPEN DISCUSSION IS SCRIPTURAL

We learn from the God's ministers were and willing to openly discuss others their message (Acts 6: 9-15; 9:29; 17:3), and we believe pleased today when His willing to do the same on friendly terms, giving respect for the truth of His word. Paul "set for the defense of the gospel", Phil. 1:13 "gospel is the word of truth", Eph. 1:13.

Truth is precious, whether it be in his religion or any other field. It should be sought for with open minds and sincere more precious in the field of the spiritual other, because man's eternal destiny depends

During the trial of Christ, Governor Pilate the following important question: "What is 18:38. Jesus had previously declared in his Father, "Thy word is truth", John 17:17, his apostles that after he left the earth to the Spirit of truth would come to them from would guide them into "all truth", Jno. 16:13.

We believe the Bible contains all truth God's will to man, and that those holy scriptures completely unto all good works, II Tim. 3:16 and that God will have all men to be saved unto a knowledge of the truth, I Timothy 2:4 can come to a knowledge of the truth by the discussion of matters pertaining to spiritual friendship still remain.

Every sincere person should desire to obey God's truth, because it is the thing that them free, John 8:32, and is the means of Eph. 1:13.

**THE CHURCH FOR ALL . . . ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Day	Book	Chapter	Verses
Sunday	Psalms	100	1-5
Monday	Joshua	24	14
Tuesday	Psalms	34	1-4
Wednesday	Psalms	86	9-11
Thursday	Ephesians	5	19-20
Friday	Colossians	3	15-16
Saturday	Revelation	7	9-10

Most of us take hymns for granted—until the eager mind of a child asks, "Why do we sing in Church?" And then we have to grope for the right answer . . .

It isn't that God prefers singing to other kinds of worship. We know He is concerned with sincerity, not melody.

And we don't sing simply because we are happy. In trouble and sorrow we have turned to a favorite hymn for strength.

Nor do we sing in Church merely because we like to sing. That would seem a self-centered sort of worship.

We sing because sacred music has beauty, feeling, reverence. It is a fitting expression of our faith in God. And we sing because the message of a hymn reaches the soul of the singer and the heart of his neighbor—as well as the throne of God.

**STATE CAPITAL Highlights AND Sidelights**  
by Vern Sanford  
TEXAS PRESS ASSOCIATION

**AUSTIN, TEX.** — If you are adding up the Christmas bills and wondering what all that money was spent for, then consider the task of the Board of Control.

This relatively small state department is personal shopper for 200 state agencies. During the past fiscal year it selected the goods and paid the bills for purchases totaling \$80,000,000. These millions went for more items than the average citizen can imagine. Everyone realizes that it requires tons of paper, thousands of filing cabinets, typewriters, desks and chairs to run the state's business . . . but . . .

Ever wonder how much yellow paint it takes to put a stripe down the highway from Amarillo to Brownsville?

Board of Control staff knows just how much to get for a given stretch of road and sees to it that the paint has little glass beads ground up into it to reflect your auto headlights at night. Just the other day they bought \$100,000 worth of the little glass beads, alone.

Board of Control buys all the state's automobiles — as well as trucks, tractors, motor scooters, motor graders, snow plows and school buses (for schools receiving state aid.) Last week they purchased \$326,000 worth of new Plymouths.

It buys the industrial machinery with which the state prison system makes the state license plates. It buys the paper for your drivers license and pays for the printing.

It also buys buttons and zippers and shoes and socks and surgical tools and skin diving suits.

"We buy practically everything," says Executive Director William J. Burke.

It's a list that sounds unbelievable until the use for each item is run down. Clothing and repair needs for the apparel of the thousands of persons in state hospitals and schools must be bought by the Board of Control. State hospitals use surgical equipment. Game and Fish Commission uses boats and skin diving equipment in its inspection work.

If the State School for Girls at Gainesville starts a pottery class, Board of Control buys the clay. If the prison system builds a new prison building, Board of Control scouts around for the best buy in steel-barred doors.

Board of Control itself is a big user of paper. In the past fiscal year it processed 450,000 invoices. Nine employees handled these at the rate of 1,921 a day. It takes 15,000 envelopes to handle an average weekly mailing of bid invitations to suppliers.

It's all done according to a very businesslike system. Purchases are consolidated, standardized, scheduled, bid on and checked for specifications, value and performance.

Yet all this procedure doesn't kill the element of human enjoyment. Director Burke recounts with relish the million printed envelopes just bought for

a large state department at \$280 a thousand. That's less than the usual cost of unprinted envelopes.

Comparable pleasure can be found in housewives who have just found diapers at a dollar a dozen or tomato juice at five cents a can.

Board of Control is about to have its 40th anniversary. It began operation in 1920 after a statute passed in 1919 combined in one agency a number of state functions.

It is topped by a part-time policy making board whose three members serve overlapping six-year terms. They are appointed by the governor.

Present board members are E. E. McAdams of Austin, chairman; F. H. Flewelling of Austin and C. F. McAuliff of Dallas.

Burke, as executive director, is the top administrative officer. Under him are five divisions set up on what he terms "a check-and-balance system."

A specification division works out requirements for items to be bought. Purchasing division buys them. Administrative services division handles the

clerical work. Inspection division has a team of "watchdogs" who go over the state to check new purchases to be sure they're what they should be.

A fifth division, management, engineering and management, sees to a staggering list of housekeeping chores for the Capitol and state buildings. When the buildings now under way or being planned around the Capitol are finished, the Board of Control anticipates operating a heating system that will put out 60,000 pounds of steam heat an hour and an air conditioning system of 2,750 tons.

It also sees to the upkeep of the Governor's Mansion, the San Jacinto and Fannin State Parks and the State Cemetery. It handles the rentals for state offices outside of Austin which do not have state quarters. Last year this required 356,000 square feet of office space.

As to the state buildings going up in Austin, Burke feels sure they will save the state money over the old rental system. "Besides having to pay rent," he pointed out, "the state can only lease for two years at a time, and you never know when you may have to move, which is expensive."

In the course of their myriad chores, Board of Control staffers become expert on many subjects. They learn the price of dairy cattle (for prison farms) or diamond drills, short wave radios and food mixers.

Many know more about the comparative value of dishwashing detergents and floor waxes than most housewives. They make extensive tests to find out.

As Burke explained, if "Brand-X" can be proved to serve

as well as a more expensive one, in state institution dishwashers, as much as \$30,000 can be saved on one purchase. Specifications people spent hours, according to Burke, proving out a floor wax they felt would save money and serve the purpose. They even applied and polished it, he said, and made periodic checks on its staying power.

"We try to be more careful with the state's money than we would even with our own," says Burke. "I honestly wish I could take every Texas taxpayer on a guided tour of the whole operation."
