Mitchell Shows Reserve Champ At Amarillo

David Mitchell, 12-year-old son of Mr. and Mrs. R. C. Mitchell of Lockney, showed the reserve champion fat barrow at Amarillo Fat Stock Show this week. The animal was a medium weight Chester White bred by the Mitchells on their farm southwest of Lockney.

The Chester White barrow won his weight class and then was named breed champion before being selected reserve champion of the entire barrow show. Some 400 animals were entered in this division.

David is a 6th grader and has been in 4-H work for four years. County Agent Cecil Lewis is coach for county 4-H club members. David has shown animals in the Lockney show and in the Floyd County show and won top places on several occasions. His father is a Chester White breeder and an official of the National Chester White association. David showed another Chester White which won fourth place in the light weight class. Handy Lacey, also of Lockney, showed two Chester White barrows at the show which won 6th and 10 place. Bob, Paulette and Jimmy Kropp showed lambs at the Amarillo show.

Olton Cagers Here Tuesday

Lockney's Longhorns and Longhornettes will have an open date this week end before playing host to Olton Mustang squads next Tuesday night.

Local teams ended the first half of their 2-AA slate Tuesday night when they entertained Morton Indian teams. In two close contests, the Longhornettes earned a 53-50 victory and Morton boys took a 42-41 win. In the boys tilt the 'Horns maintained a lead throughout the first half but fell behind in the third period and were unable to catch up. Not over four points separated the teams in the final two periods. Score by quarters: L 11-M 6, L 25-M 21, M 33-L 29, M 42-L 41.

The local boys were weakened when Terry Clark was forced out of the contest with a knee injury and Don Ivie fouled out in the third quarter. Oyama Buchanan, playing with four fouls after half, fouled out in the final minute of action. Buchanan dropped in 14 points for Lockney and Doyle Freeman had 10. Mervin Gathwright paced Morton with 12 points.

Janice Boedeker sent 30 points through the hoop as Lockney's claimed their second 2-AA win. Teammates Nancy Webster and Pat Buchanan chipped in with 12 and 10 points, respectively. Three girls also hit in double figures for the losers.

The hard luck Longhorns dropped another one point verdict last Friday night. The Abernathy Antelopes had a real battle before winning, 50-49. The visiting Antelopes took a 16-12 lead after one quarter but trailed the 'Horns 23-20 at intermission. Abernathy recaptured the lead after three periods, 40-37.

Phil Guinn sank 17 and Larry Florence netted 14 for the winners. Clark and Ivie each hit 14 for Lockney.

In the girls game, Abernathy had little trouble, taking a 66-30 triumph. Janice Boedeker and Nancy Webster each made 14 point for the 'Hornettes.

At the halfway point in 2-AA action, Abernathy holds the lead in both divisions. The Abernathy boys and girls are boasting 4-0 records.

Mothers Will March On Polio At 7 Tonight

The Lockney Business & Professional Women's Club has made plans for the annual Mother's March on polio tonight (Thursday) at 7 o'clock. The members of the club will meet at Lockney Variety just before 7 p.m. for materials and instructions.

The mothers will make a house-to-house canvass for donations for polio and at the same time collect information from each family as to members affected with polio, arthritis or birth defects. The National Foundation is furnishing a census card to be filled in by each family.

The fire siren will blow at 7 o'clock to remind residents of the city to turn on their porch lights as an indication they have funds for the polio drive. Meanwhile, Jackie Lou Frizell, Lockney High senior, who is in charge of the drive in Precinct 2 of Floyd County, has announced her community chairmen for this part of the county. She also reports that \$63.00 has already been collected for the polio fund at C. N. Townsend school here.

No goal for the county has been set, according to Barry Barker, chairman of the Floyd County Polio Chapter, but officials are hoping that donations will go above \$3,000 for the county. Half of the funds remain in the county to pay for treatment of local patients while the other half goes to the National Foundation for research. During 1959 the county chapter paid out a total of \$1,045.53 for patient care with the payments ranging from \$7.50 for a doctor's call to \$488 for an operation to restore use of an ailing limb.

The community chairmen are as follows:

Janice Boedeker, Providence. June Caldwell, Lone Star. Carolyn Merrell, Aiken. Loveta Jones, Prairie Chapel. Carolyn Harris, Pleasant Valley.

Mrs. Kenneth Brosh, Sterley. Mrs. Dale Lockwell, Irick. Ann Brown, Lockney business district.

EDITORIAL

I can do all things through Christ, which strengthen me.—Philippians 4:13.

DO YOU want to have a say in who is elected to public office during the coming year? Do you want to voice your opinion if a bond issue is voted on, or the question of sale of liquor comes before the voters of this county? Do you want to have a hand in naming members to the board of Aldermen in the city or to the school board this spring? If so, you better make sure you have paid your poll tax. This is the last week to do that since Jan. 31st is on Sunday. Tax Collector T. E. Hamilton has announced that he will keep his office open until midnight Saturday night if necessary to take care of poll tax sales. Be sure your poll tax is paid this week.

SOME PEOPLE have, in the past, thought they had paid their poll tax when they had valorem taxes, only to find too late that their taxes were not paid. Don't guess at it. Make sure you have a poll tax receipt in hand.

NEXT MONDAY, February 1st, is the deadline for filing for a place on the Democratic party ballot. After that the smoke will clear away and we will see who has filed for what. Several prospective candidates for state races have not, at this writing, indicated whether they will actually be candidates or not. But they cannot put off a decision much longer.

IF EARLY HUMORS are borne out, Mr. Benson will see to it that support prices on all farm products are set at a lower figure this year than last. Mr.

Benson is in the peculiar position of supposedly working for the interest of farmers generally and at that same time apparently trying to slowly starve them to death. We're thinking that Benson's policies, which must be those of the Republican party, will serve to hurt that party in the presidential election this year. At least we hope such will be the case.

THE LAUREL, Montana, Outlook, says editorially: "The present national debt, one that must be paid, exceeds the total average gross earnings of all the nation's wage earners for a period greater than a year."

A NEW STUDY, reported in a publication of the American Medical Association, shows that nearly as many Americans die from bee stings as rattlesnake bites. Over a five-year period rattlers killed 55 people in this country, and bees 52.

EVEN DURING the Korean War, when competing modes of transport were not hampered by rationing of fuel and scarce materials as in World War II, the railroads were called upon to transport 72 percent of all military freight, and 64 percent of military passenger volume. It is generally assumed that intensification or spread of that conflict would have sharply boosted these ratios.

WRITING ON LABOR problems, David Lawrence says: "The basic point is collusion and conspiracy. Workers have the right to join a union in their own plant and to strike if they cannot agree with the employer through collective bargaining, but have they a right to monopolize an entire industry, and by collusion throughout the country, conspire to bring on an industry-wide strike? This is the real issue that the congress will have to face at its next session, and it may also be one of the most important controversies in the 1960 congressional campaign."

DR. FRENCH, economist, business consultant and educator, a former dean of the School of Business Administration at Tulane University, made the following statement in Monthly Tax Features: "Fiscal affairs are at the heart of the democratic process. Citizen concern over taxes led to representative government. If democratic government is to survive not only in this country but in our world, citizens must somehow gain control of government spending and taxes, instead of letting them dominate their business and personal lives."

THE WITHDRAWAL of Governor Rockefeller as a candidate for the Presidential nomination has, as all the political writers are saying, made Vice President Nixon's selection as certain as anything can be in politics. On the Democratic front, more and more of the writers are doubting if the two most active aspirants, Senator Kennedy and Humphrey, can win.

ARL-CIO DEMANDS

The AFL-CIO has long backed those who would centralize the power of government in Washington. It is much easier to control a centralized government than one balanced between the federal and state agencies.

The AFL-CIO is demanding:
1. Federal aid to education in school construction, salaries and teaching standards. This would result in full federal control of the schools.

2. They want the federal minimum wage raised to \$1.25 an hour with broader coverage. This is already a controlled field but it would expand its coverage.

3. They insist on uniform and higher standards in unemployment compensation and medical cost insurance for the retired elderly. This would deepen an already federal controlled field.

4. They want federal aid to depressed areas which is very definitely a state rights area.

5. They demand that Congress provide for federal construction programs enlarging or initiating home construction, slum clearance, urban redevelopment, road and airport improvements, water, sewage and recreational facilities. This would cut deeper into state responsibilities, increase the tax burden we now have and wipe out more state's rights.

And above all, these leaders want the McClellan "Worker's Bill of Rights" repealed. It would be interesting to find out just how many laboring men actually favor this increased control of their lives,

property and rights? — Cecil Waggoner in Claude News.

ON MR. YARBOROUGH

The Honorable Ralph Yarborough was one of the 12 Democrats senators who voted last week to strip his colleague, Lyndon Bain Johnson, of some of his authority as majority leader in the Senate. Although we supported him in his campaign for the office, we must now admit that in all the volumes of mail he sends us at government expense, Senator Yarborough has not pointed to a single accomplishment worthy of mention since his appearance on the Washington scene.

It looks like Ralph's tour of duty will resemble a quotation from Shakespeare's Macbeth "Full of sound and fury, signifying nothing." After his full term the Senator probably will be reduced to shrill but seldom heard yammering on the fringes of the Lone Star State's political limbo.

To make things worse for Ralphie, LBJ probably will get the Democratic nomination for President on the fifth or sixth ballot when Kennedy's supporters realize that the time is not ripe for the Vatican to make a bid for the White House. — Troy Martin in Olton Enterprise.

ON ADVERTISING

"I don't need to advertise," an established merchant in Kansas once told William Allen White, renowned publisher of the Emporia Gazette. "Everybody knows me and knows what I sell."

"In that event," replied the

publisher. "We can dispense with the oldest advertising medium for the oldest institution in the world. See that church down the street," continued Mr. White, pointing to one of Emporia's oldest and most beautiful structures. "That church has been established here for many years. Everyone knows what it is and what it does. In the tower of the church is a bell and every Sunday it rings out to remind folks to come to church."

"Shoppers go where they are invited and stay where they are well treated," concluded the publisher. "Regardless of how well established a firm may be, newspaper advertising is a repeated invitation and a reminder to come and do business with that store." — Mary Ann Sarchet in Briscoe County News.

MR. TRUMAN

What was the name of the old curmudgeon who put into Mr. Truman's head that the Tidelands steal would be a good thing for the country? Recall that Texas was still a president but we are not among them. When the president was in Texas several days ago he repeated the canard about the Tidelands. — Homer Steen in Floyd County Hesperian.

"Almost everyone knows the difference between right and wrong. But some just hate to make decisions." — Joseph Salak.

Dear Editor:

I see where President Ike figures that the national budget may have a \$4 billion surplus next year.

My unthrilled neighbor says it is a little early to get excited about this, due to the large number of people in Washington and elsewhere who look on unspent money as a challenge.

Like one time he had \$3 left after paying all his bills that couldn't be stalled off another month, and his wife was so happy over this budget surplus that she ran out and spent \$87 of it.

Chevrolet speaks of the Sixties like no other car—with a broad accent on spaciousness, stirring new concepts in styling and strong emphasis on spirit and thrift.
Step inside this superlative '60 and look at the worlds of room around you: head room, hip room, shoulder-squaring room. Note how Chevrolet's engineers have further flattened and narrowed the transmission tunnel to give the middle man more foot room. Chevrolet's greater roominess is inside where you want it—not outside in useless body overhang.
You'll find economy teamed with performance in a new standard V-8 engineered to deliver up to 10% more miles for every gallon, or the strapping Hi-Thrift 6.
And riding comfort in the new car is a never-ending treat, thanks to Full Coil spring suspension. There are also thicker, newly designed body mounts that filter noise and vibration to the vanishing point, more rigid frame and many other engineering advances.
But you'll have to drive the Sixty sizzler yourself—that's the clincher.
Why not see your Chevrolet dealer now—for a drive and the happy details on Chevy's new lower prices.

Tricks For Sick Youngsters
Keeping a convalescent child in bed, quiet, and happily entertained is a real problem at times. Here are a few suggestions for keeping a youngster happy while "on the mend". Provide plenty of "just looking" activities. An airplane or mobile on a string from a light fixture or window shade will catch and hold his interest. Or arrange a bulletin board near the foot of the bed. Each day add a new surprise — a new member of an imaginary family, a new animal or bird, or anything else which amuses him.

Many a child has been amused by the cingle device of catching sunlight with a pocket mirror. When it begins to get dark, a miniature flashlight will bring him minutes of pleasure as he explores dark corners.

"Surprise" is a magic word to a child. Plan a simple, gayly wrapped surprise box. The gifts need not be purchased. A cookie brightly wrapped, a post card, a picture book, a pipe cleaner doll, funny drawings, or a paper party hat will entertain a child.

A picture puzzle can be made for a young child from a picture post card. Cut it into 4 or 5 irregular shapes. If the child can read, write a message on the back of it before it is cut into a puzzle.

Paper work can be fun for the child. Wrapping paper, paper bags, colored paper, paper doilies, paper plates, greeting cards, and old magazines can be used. With a pair

of sharp, but blunt scissors, and paper, the child can be kept occupied a long time.

Remember, don't give the child too much at one time. Stretch out the fun ideas so he will look forward to something new and exciting to do each day.

Colds
If colds common in your family? If so it may be wise to check your daily menus to be sure you are including some foods rich in vitamin A and C. Both of these vitamins are effective in preventing the invasion of cold germs. That's because they help the linings of the nasal passages resist bacterial invasion. So they help provide resistance to all types of bacterial infections, not just colds.

There are other benefits too. Vitamin A improves the eyes ability to adjust to light and dark. Lack of it causes "night blindness". Children need vitamin A for good growth, and vitamin C for proper formation of teeth and speedy healing of wounds and burns.

Good sources of these vitamins are dark green leafy and yellow vegetables, citrus fruits, tomatoes, raw cabbage, milk, butter, eggs, cheese, cantaloupes, strawberries and potatoes.

Cub Scout Pack Has Meeting

Cub Scout Pack No. 59 held a regular meeting Thursday evening at 7:30 in the grade school cafeteria.

Den No. 3 sang several songs disguised as "alley cats" to start the meeting off.

Cubmaster Robert L. McDonald introduced O. C. Allison, commander of the Lockney post, Veterans of Foreign Wars, who spoke briefly on his organization's aims in sponsoring Cub Scouts and their Program for Youth.

Adult leaders for the Pack for the year were introduced as follows: Institutional representative, Fred Huggins; Chairman of Pack Committee, Paul Teuton; Committeemen, Herman King and James Jeffress; Assistant Cubmaster, J. M. Tye.

While business matters pertaining to the pack were taken care of by the parents, Paul Teuton and Fred Huggins instructed the Cub Scouts in the use and care of the American Flag.

Awards were made to several Cub Scouts. Two silver arrow points under the Wolf award were presented to Ben King; the Bear award was presented to Bill Bowman. Certificates of registration were given to two new members, Gary Stone and Humberto Flores.

The next pack meeting will be the annual Blue and Gold Banquet to be held Feb. 18th. The banquet will be of special significance this year since it marks 50 years of Scouting in America.

CAWD OF THANKS
We wish to express our sincere appreciation to our many friends who were so thoughtful and kind at the passing of our dear mother. The flowers, the food, cards, letters and phone calls as well as your presence at the services were all such a comfort to us. May God richly bless each of you.

Services were in the Bethel Baptist Church in Plainview. Officiating was the Rev. F. W. Elmore, pastor of the Baptist Church of Fritch, and the Rev. R. L. Swanner, pastor of the Bethel Baptist Church.

Mr. Muse died at 10:20 p.m. Thursday at his home at 1613 Joliet Street in Plainview following a long illness. He was born Sept. 25, 1880, at Paluska, Tenn., and moved to Texas in November of 1896.

July 24 Deadline For Direct Loans To Veterans

The Central Office of Veterans Administration, Washington, D.C., has advised the Loan Guaranty Division of Veterans Administration, Regional Office, Lubbock, that direct loan funds may not be committed after July 24, 1960, expiration of the time in which World War II veterans can apply for a G.I. Loan.

The Loan Guaranty Division of VA Regional Office, Lubbock, states that they expect to receive the last loan fund allocation in April 1960. The funds now on hand, together with any funds to be received in January 1960, must be committed, disbursed, and the loans closed prior to June 30, 1960, the expiration date of the direct loan applications.

All veterans desiring to make applications for the direct loan should do so as soon as possible, so that such applications can be processed and the loans completed before June 30, 1960, according to D. G. Ayres, county service officer.

Mr. and Mrs. Zoel Watson and son, Doyle, of Albuquerque, N. M., were here this week visiting friends and relatives. The Watsons are former residents of Lockney.

GO TO CHURCH SUNDAY.

District Census Office Opened At Lubbock

Establishment of a district office for the 1960 Census of Population and Housing at Lubbock County Court House, Lubbock, was announced today by Director James W. Stroud of the Census Bureau's regional office at Dallas.

Earl E. Kerr will be supervisor of the district office. He will direct a force of 24 crew leaders and 376 census takers in the following counties: Andrews, Bailey, Cochran, Crosby, Lubbock, was announced today by Director James W. Stroud of the Census Bureau's regional office at Dallas.

Taking the 1960 Census nationally will require services of 160,000 enumerators, 10,000 crew leaders, and 400 district supervisors, all temporary workers. The district supervisors, working under the general direction of the permanent regional field directors, are responsible for all phases of the census in their districts.

Duties of the district supervisor include the recruiting of the crew leaders, obtaining space for crew leader training, recruiting and training a small office staff, reviewing the completed questionnaires, and direct supervision of the field canvass which begins on April 1.

Prior to the start of the census, all households will receive in the mail an Advance Census Report Form, a new census-taking device which is designed to speed up the field canvass and provide more accurate statistics. Distribution of this form, which contains the basic population and housing questions, gives the family a chance to assemble information about each member in advance of the census taker's visit.

STATE CAPITAL
Highlights AND Sidelights
by Vern Sanford
TEXAS PRESS ASSOCIATION

AUSTIN, Tex. — With the filing deadline (Feb. 1) drawing near, the political ring is filling with hats — most of them familiar to Texas voters. Since there's to be no wholesale re-shuffling among top state offices, liveliest interest is focused on legislative campaigns.

Texas Legislative Service's compilation on legislative races indicates about six of the senators running for re-election have opposition or prospects of opposition. Usually the opponents include a representative from the senator's district.

New faces have entered the races in more than 50 of the House districts. In 19 of these the present representative is not a candidate for re-election.

Besides the usual preponderance of lawyers, there are a number of school teachers and former school teachers among the newcomers.

Campaign platforms rest mainly on these issues:
(1) Betterment of schools and improvement of teachers' salaries.

(2) Revamping or doing away with the new merit plan auto insurance rates.

(3) Providing medical payments for persons on the welfare rolls and raising old age pensions.

(4) Enacting stiffer highway safety laws.

(5) Developing a comprehensive statewide water program.

(6) Solving the state's fiscal problems. This is generally covered in some broad, fairly vague statement, such as "modernizing the state tax system," "eliminating unnecessary expenditures" or "finding an equitable method of taxation."

ENOUGH'S ENOUGH — Presidents of Texas' tax-supported colleges and universities have come out against adding any more schools to the state's higher education system.

Their reasons: (1) We've got enough already and (2) there isn't enough state money to go around.

University of Houston is seeking admission. Its cases will be heard by the Commission on Higher Education in April. Commission will report to the Legislature, which makes final decision, in 1961.

Del Mar College of Corpus Christi, a municipally-supported junior college, would like to follow the course of Arlington College and become a state-supported four-year college.

Survivors include his wife; two daughters, Mary Aileen and Judy; two sons, Jim and Bruce, all of the home; the parents; three brothers, Robert L. of Union, N. J.; Harold E. of Los Angeles, Joe of Abilene; three sisters, Mrs. W. L. Crouch of Los Angeles, Mrs. E. F. Smith Jr. of Novato, Calif., and Mrs. Earl Hensley of Santa Rosa, Calif.

Ninety-five per cent of our people live within 100 miles of a state college now, the Council advises.

CHILDREN'S AID REFORM URGED — Texas' aid to dependent children program seems to be creating more of the same social ills it was supposed to alleviate.

This is the verdict of the Texas Research League after a

two-year study made at the request of the State Welfare Department.

It seems that these abandoned children — those whom the parents refuse to support, or can't — often grow up to have children they too won't or can't support.

Welfare workers are seeing more and more second and third generation cases, said the League.

League recommends re-shaping the whole program to put the emphasis on rehabilitation. At present, says the League, the program does little or nothing to help families help themselves or to get at the problems that caused them to be in need in the first place.

ADC payments go to about 105,000 persons in Texas — 80,000 children and 25,000 parents. Cost: \$21,000,000 a year, of which 80 per cent is federal money.

LEGISLATIVE EXPENSE RULING — Legislators who carry out between sessions committee assignments are entitled to \$8 a day and 8 cents a mile for travel, according to an attorney general's ruling.

A special law covers the expenses of members of the Legislative Council and Legislative Budget Board. They may be reimbursed for the actual cost of meals, rooms and other expenses incidental to this work.

Regular pay for state employees traveling on state business is \$9 per day and 8 cents a mile.

BIG BUSINESS — Texas General Land Office, sometimes described as "the biggest real estate agency in Texas," did a land office business during 1959.

Land Office, which is the management and collection agency for the state's public lands, took in \$60,583,603 in the past year. This came from oil and gas royalties, bonuses, grazing rentals, etc.

Main beneficiaries were the public school permanent fund and the University permanent fund. In addition, 18 other funds received deposits.

Land Commissioner Bill Allcorn said 384 veterans paid off their land loans, bringing to \$2,352,767 that can be used for more veterans' loans.

SEGREGATION SUIT SIDE-STEPPED — Dallas is in a bind between a federal court order to desegregate its schools and a state law prohibiting desegregation without a local option election.

State Supreme Court has refused to overturn a lower court ruling that Dallas was not entitled to a court order freeing it from the effects of the state's anti-integration law. A law passed in 1957 says that a school district that integrates without a local option election shall lose its state aid. For Dallas this would be some \$2,600,000 a year.

A federal court ordered Dallas schools in 1955 to integrate "with all deliberate speed."

80 Acre Feet Of Water Put Back Into Ground

Approximately 26,081,600 gallons of water, which amounted to 80 acre feet, were recharged during a seven month period in 1959 at the High Plains Research Foundation at Halfway. This water flowed by gravity from the Playa lake into the underground sand through an irrigation well with a pipe inlet from the lake. There were 26 acre feet pumped from this well for irrigation during this period which amounted to 1-3 of the amount recharged. This means that 54 acre feet are available for irrigation in the next pumping period, James Valliant, water engineer for the Foundation, reported today.

"There are many benefits to be realized from the establish-

ment of a recharge well" Valliant said. "In actual dollars, based on \$65.00 an acre foot applied to cotton, the water is valued at \$5,200.00. However, this does not start to tell the complete value of recharging. The land which is drained can be put into cultivation in most years, the water level in the sands in the immediate area is built up and the pump does not have to be lowered because of an over-pumped formation. The life of the water in the formation is prolonged due to this abundance of recharged water added to the underground supply.

Recharge of water into the underground sand presents the problem of silting the formation. Pumping of the well for one hour in each 24 hours of recharge activity is the procedure practiced at Halfway. Plans for a filter study to reduce silt and tests of flocculating materials are included in the 1960 program.

MILTON MICKEY DOING WELL ON TEXAS TECH FROSH TEAM

Milton "Moe" Mickey, star of the Lockney Longhorn basketball team during the 1958-59 season, is the fourth leading scorer for the Texas Tech freshman cagers. Mickey is averaging 7.4 points per game for the team's five contests, according to Bill Holmes, Sports News Director of the Texas Tech Athletic Dept.

High scoring game for the Lockney High graduate was 16 points against the Station KCLV Rangers of Clovis, an AAU power. Mickey has started all the games for Tech's frosh, who have won three times in five outings.

Other top scorers for Coach Gene Gibson's Picadors include: Tom Clark of Roswell, New Mexico, 22.2 point average; Bobby Gindorf of Pampa, 17.2; Tom Patty of Carlsbad, New Mexico, 17.0; Gilbert Varnell, Sewanee, Tenn., 6.0. All the starters are 6'5" performers.

Because of mid-term examinations, the Picadors do not play again until they meet the Ince Oilers January 30.

Remaining matches for the Texas Tech freshman squad include (Varsity games which follow the freshman tilts are listed in parentheses): Sat., Jan. 30, Ince Oilers (Texas Christian); Tues., Feb. 2, Lubbock Christian College (Arkansas); Thurs., Feb. 11, West Texas State at Canyon; Sat., Feb. 13, Ince Oilers (Bayler); Sat., Feb. 20, Ince Oilers (Texas); Fri., Feb. 26, Wayland College (Texas A&M); Mon., Feb. 29, Station KCLV of Clovis (SMU).

Jehovah Witnesses Meeting In Lubbock

Jehovah's Witnesses, Texas Circuit No. 9, will hold their semi-annual assembly in Fair Park Coliseum at Lubbock, Jan. 29-31. Clarence W. Hall Sr., supervising minister of this area, said all meetings locally are being cancelled for this event.

Hall said, "There will be talks and demonstrations morning, afternoon, and night on the theme of the assembly to show how all may share in doing Jehovah's will."

The crest of the assembly will be 3 p.m. Sunday when R. L. Anderson, district supervisor and chairman, gives the public address "When is God's Will to be Done on Earth?" Anderson is a native of Montana and received his B. S. degree in chemical engineering from the Montana State College. He began studying for the ministry in 1939, was ordained to preach the good news in 1941, and was appointed to serve as district minister in 1953.

Mr. and Mrs. Hoyette Hodges visited in Borger Saturday and Sunday with Mrs. Hodges' mother, Mrs. Jessie Kyser, and her sister, Mrs. Claude Bain and husband.

Providence

By Mrs. Wilfred Stoerner
People seldom improve when they have no other but themselves to copy after.
Providence Community as many of the surrounding communities have been hit with the flu bug. We hope all those who are ill may soon be well. Mrs. A. K. Windecker, wife of Pastor Windecker, was admitted to Lockney General Hospital with an ulcer condition. We wish for her a speedy recovery.
E. M. Quebe is to undergo ear surgery at Methodist Hospital, Lubbock, Tuesday. L. E. Erandes underwent medical treatment at Lubbock this week.
Merlin Boedecker had an accident stepping on a piece of glass and is still walking on crutches. Seems he was washing the windshield on his motor car and the glass was in the wrong place at the right time for a severe cut on his foot.
Mr. and Mrs. Wilfred Stoerner and family were supper guests of Rev. and Mrs. H. L. Anderson and sons while in Seguin. They also got to see Mr. and Mrs. Werner Taggerman of Lubbock, Mr. and Mrs. Louis Anderson who were visiting in Rev. Anderson's home. Both Rev. and Mrs. Anderson commented they enjoyed the Lockney Beacon, especially when Providence news happened to be in the Beacon.
Mr. and Mrs. Wilfred Stoerner and family, Cynthia Ann and Martin Louis, returned from a business and pleasure trip this week end. They took Martin Louis to Dallas for a check up with Dr. Mills. There they visited Mr. and Mrs. Henry Stoerner and motored to Fort Worth where they visited Mrs. Sophie Sonntag and family. They attended the mid-winter conference of the American Legion and Auxiliary. Both Mr. and Mrs. Stoerner represented the 19th district Mrs. Stoerner, at Stephen F. Austin Hotel, Austin, as 19th district president of Auxiliary and Wilfred as 19th district Chaplain. They were in attendance at a banquet honoring the national Legion commander, Martin B. McKneally

of New York. He gave a most inspiring address to a large crowd.
The Stoerners visited the capitol at Austin and were invited by speaker of the House Waggoner Carr of Lubbock to take a private tour of chambers of the House. The Stoerner children were honored by having their photo taken with Mr. Carr in his private office.
They visited Mr. and Mrs. Henry Schmidt and family of Austin and were given a personal guided tour of the new St. Martins Lutheran Church which will be dedicated Feb. 28, 1960. This church was very near the capitol and was torn down to make room for government buildings.
The Stoerner family then went to Seguin, Texas, and attended the inauguration of Dr. Marcus Rieke, formerly youth director of American Lutheran Church, now new president of Texas Lutheran College. They also attended the inaugural luncheon held on Texas Lutheran campus. They visited Rev. and Mrs. Lee Roy Brandes and family, brother of Mrs. Stoerner, and Rev. and Mrs. H. L. Anderson, former pastor of Trinity Lutheran Church, Providence. In San Marcos, they visited the Aquarena. In Abilene Wilfred visited with two army buddies who were in the 90th Division with him.
While at Seguin they visited Eugene Boedecker and Barbara Sammann, both from Plainview, now students at Texas Lutheran.

THE LOCKNEY BEACON, LOCKNEY, TEXAS, JAN. 28, 1960
and it's members. It was suggested that each club member send Mrs. Windecker a get well card. She is in Lockney General Hospital.
Mrs. Ben Brandes served refreshments of fresh chicken sandwiches, cookies and hot coffee to Mmes. Ben Quebe, L. B. Brandes, J. R. Turner, Sam Jones, Everett Crume, H. F. Quebe, Wilfred Stoerner, Bill Rogers and Miss Roggendorff.

Dear Editor:
I see where a Senator wants to stop all labor disputes and strikes by setting up a parity price for labor like we have got for farm products.

My benchwarmer neighbor says he notes parity is a fair price for a man's work which the government sets and then

hires people to do it. I don't get but 60 percent of it.

Says what the really needs is a price on taxes, and Benson to match Sam's living standards to about 60 percent of it.

THE OLD AND NEW TESTAMENT

Do you realize what a penalty would have to be done in worshipping God if we are still under the Testament? It would be indeed, essary to obey it if it were still in force. Animals would have to be burned on the altar. Incense would have to be offered to God. The cision of all male children, the eighth day would be required. The atonement would be by animal blood and not the blood of Christ. The feast of Pentecost would have to be kept once each year. The Passover was another annual feast binding under the law, the feast of Tabernacles would have to be kept at stated time. No work could be done on the sabbath. Not even a meal could be cooked on that day. The sabbath was the seventh day of the week, would be our Saturday today. How many who are under the law is still in force are doing these things or many other commandments binding in the law of Moses? I do not know of any.

Following are some of the many passages showing the old law was taken away and a new established. Then said he, Lo, I come to do thy will, O God, taketh away the first, that he may establish the second. By the which will we are sanctified through the offering of the body of Jesus Christ once for all — Heb. 10:10. The law contained a shadow of good things to come. Heb. 10:1-4. They who still hold to the old law are living to a shadow, which has nothing but animal blood for atonement. It was impossible for animal blood to take away sins — Heb. 10:4.

when it stays at home

Round and 'round our dollars go . . . building local trade volume with every turnover . . . when we spend them with our own home stores and service establishments.

And every added dollar of trade volume in the community means a little better jobs for us . . . increased business profits, better property values . . . a little better support for our churches, schools and other civic facilities . . . better service to meet our daily and emergency needs.

Just a single dollar . . . spent at home instead of being used to "pick up" some article in the city . . . may account for \$5 or \$6 or more of additional home trade volume as it goes 'round and 'round among us.

Each such dollar put on the home-trade merry-go-round is an investment in enlightened selfishness . . . as it comes around and back into our own hands again from time to time.
