The old swimming pool is in very bad repair, it doesn't have a filter and it is almost impossible to put it in useable shape, is the opinion of many people who have had something to do with its operation. ## EDITORIAL

Search me, O God, and know my heart; try me and know my thoughts. — Psalm 139:23.

**THE HEAVY VOTE** in the school trustee election Saturday was indicative of several things, in the opinion of The Beacon. First it indicated that people are still very interested in their school and are willing to express themselves concerning the school. Second we would say that the heavy vote indicated a dissatisfaction. It is not within the ability of The Beacon to know the mind of all the people but we are convinced, after hearing a number talk, that one big reason for the dissatisfaction is the board's policy of appointing a nominating committee and attempting to keep trustees coming from the old school districts. We do not believe that the people are especially dissatisfied with the committee's nominees or with the men on the committee but with the policy of appointing a nominating committee. People generally want to be free to vote for anyone — they do not want to be limited in their choice. We believe that the elimination of a nominating committee will

help to do away with dissatisfaction.

**WE HEAR TALK** of the "old agreement" to elect trustees from the seven original school districts. We do not know who made the original agreement although it did seem an appropriate action at the time. But, as The Beacon has pointed out in past discussions, time and changes in the district have served to nullify the advantages of the old custom, according to our viewpoint and now such a practice is a detriment to the school district. We would favor the election of trustees from all the district, with the consideration being their qualifications to serve rather than where they live.

**WILL FLOYD COUNTY'S** delegation to the State Democratic Convention go instructed to vote for Lyndon B. Johnson? Not necessarily. In fact the delegation will not be instructed for Johnson unless more interest is shown in precinct conventions than has been shown in the past. We are sure that the vast majority of Floyd County voters favor Johnson but what counts is who attends the various voting precinct conventions which are held on the same day of the first Democratic primary. The decision as to who is supported and what policies are adopted is made at the precinct level and the group which has the most present at that meeting is the one who controls the actions. They elect delegates to the county convention and the group which controls the most precinct conventions also controls the county convention. Thus it Floyd County people want their county to support Johnson in the state convention they had better attend their precinct conventions.

**NO LESS AN** authority than Maurice H. Stans, Director of the Budget Bureau, reports that the federal government's indebtedness now approaches \$750 billion. Here's how that figure is reached: National debt, \$290 billion; future obligations for past services, \$350 billion; commitments for future spending, \$98 billion.

**FROM NATIONAL REVIEW** Bulletin: "Some interesting figures on the labor union movement: last year, for the first time, unions bidding for certification as bargaining agents won fewer than 60 per cent of the elections conducted under the guidance of the National Labor Relations Board. In the last quarter of 1959, the figure went to the all-time low of 57 per cent."

### ON THE WAY

In recent weeks, a number of prominent speakers, in different parts of the country, have warned of the trend toward Socialism in evidence in the U.S. It may be a coincidence that so many have spoken out, almost simultaneously, on the subject, but it does give evidence that serious-minded people are worried about the trend. Many have pointed out that the U.S. is in danger of becoming a Welfare State, which is the next thing to being a Socialist State. It is a complete contradiction of the type of government our forefathers founded. As a matter of fact, this nation already has moved a long way down the road to Socialism. The Federal Government now takes more than half the net profits of business. It manufactures more than a fourth of all electrical power — in direct competition with private utilities. It owns a third of all the land area in this country. It has 22,000 businesses of its own, operating in competition with private enterprise. It has entered into almost every

field of activity — business, social and educational — and constantly is expanding its power and influence.

If the trend is not checked, the U.S. seems destined to become a Socialist Nation — and Socialism is just one step from Communism. In fact, the official name of the Soviet Union is the Union of Soviet Socialist Republics. — Lubbock Avalanche.

### SECOND IN THE WORLD

We can become reconciled to the fact the world has come to look on the west and the United States in particular as second in the world. What saddens is the fact that our country has become secondary in the hearts of the oppressed of the world. What is official America doing in the name of the people of the nation that would make a South American mob want to spit in the face of our official representative on a visit there? And in Cuba, where we are presumed to have been the friends of the oppressed, to have gained for them their freedom and handed it to the people on a silken pillow. What is the matter? How are our millions and billions being spent if we come up only with the wrath of the poor peoples of the earth sharply whetted against us? — Homer Steen in his entered into almost every Floyd County Hesperian.

### VICIOUS CIRCLE

On the other side is a graph in the form of a clock, illustrating the following sequence:  
1—The people go from chains to spiritual faith.  
2—From spiritual faith to courage.  
3—From courage to liberty.  
4—From liberty to abundance.  
5—From abundance to selfishness.  
6—From selfishness to complacency.  
7—From complacency to apathy.  
8—From apathy to dependency.  
9—From dependency back to bondage.

### STRANGE, BUT TRUE

A business man in a southern city who writes for a number of newspapers, summed it up this way. Said he: "If I allow my payments to the church to lapse for four or more Sundays, I begin to question the sincerity of the men in the front pews. "If I permit my payments to get three months in arrears, I find fault with the preacher. "If I neglect my obligation to the extent that I owe on my pledge for a large part of the year, I begin to suspect that the church spends too much money, its officials are hypocrites and everything is wrong in proportion. "If all brings to mind the saying of an old deacon: 'Preachin' that ain't paid for don' sound good!'" — Pension Fund Bulletin

## CROSS ROADS REPORT

Dear Editor:

I see where the experts figure that at the rate children are being born these days, we are on the verge of a big population explosion.

But my panic-proof neighbor says a lot of figures thought everybody would keep buying hula hoops, too, but they didn't.

Says people are switching fads all the time, and it doesn't mean we are going to get overrun with descendants just because here lately the human race has had a multiplying spell on. D. E. SCOTT

## Rotarians Attend District Meetings In Plainview

A number of Lockney Rotarians and Rotaryans attended the third annual conference of District 573, Rotary International Friday and Saturday in Plainview.

On Friday morning Mrs. Thurman Davis and Mrs. Wilson Kernickel were present for a breakfast at the Hilton Hotel for Rotaryans. They were joined at noon for a luncheon and style show at Plainview Country Club by Mrs. Payton Powers, Mrs. Howard Smith and Mrs. Edgar Hays. Both events featured elaborate decorations and excellent programs. Plainview women modeled the spring fashions shown by Dunlaps of Lubbock. Prices of the fashions ranged from \$12.95 to \$695.95. Mrs. J. C. Oakley was in charge of the beautiful program. Plate favors were two kinds of perfume.

Highlight of the convention was the Governor's Banquet held Friday night at 7 o'clock in the National Guard Armory. Dr. James H. Jauncey, brilliant scholar, scientist theologian, from El Paso, warned Rotarians to exercise their inner power in support of their country or it would meet a fate similar to that of the Roman Empire in its decline and fall. We are not succumbing to pressures, but to inner tension. A contributing factor to juvenile delinquency is the fact that they are living for and they are lacking in patriotism. People are happiest he added, when they are struggling and we are so eager for security in this day, that we are losing the intestinal fortitude to stand on our own two feet.

Those attending the Governor's Banquet were Mr. and Mrs. H. H. Nicholas, Mr. and Mrs. Jesse Cox, Mr. and Mrs. Henry Ford, Mr. and Mrs. Wilson Kernickel, Mr. and Mrs. Howard Smith, Mr. and Mrs. Edgar Hays. Mr. Nicholas and Mr. Ford attended a breakfast Saturday morning for Rotary presidents and Mr. and Mrs. Kernickel were among those attending the last session which was an all conference luncheon Saturday.

Guam has the highest birth rate of any area of the world, with 58 births per year for each 1,000 population. (U. S. average, 24.8.) Monaco claims the low record of 14.2 per 1,000 population.

## Grapho-Analyst At Rotary Club Friday

Mrs. Roy Hale of the Harmony community in south Floyd County, a grapho-analyst, presented the program at the Lockney Rotary Club last Friday. Mrs. Hale first described the art of interpreting the character of a person from his hand writing then took a hand writing specimen from several members and told something of their characteristics. The program was very

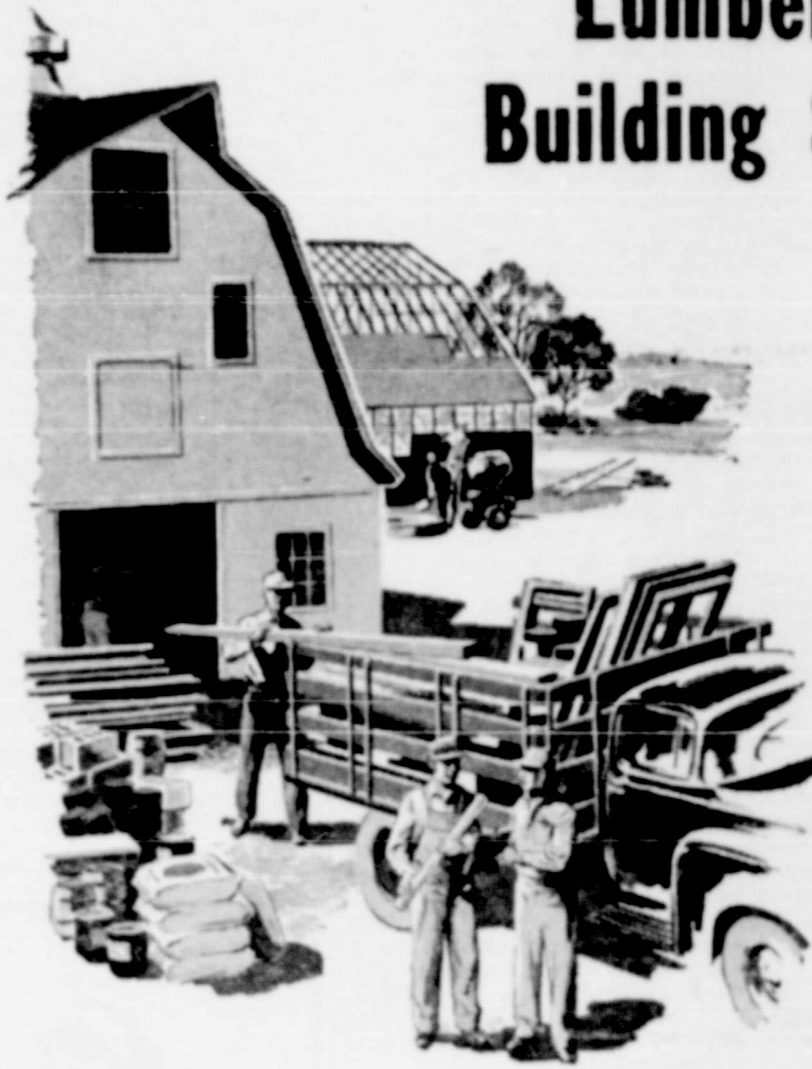

interesting and Mrs. Hale kept overtime by club members who were interested in analysis of their hand writing. L. R. Durham was in charge of the program. Visitors were present from Plainview, Floydada and Rock.

## AS FAR AS EYE CAN SEE . . .

It is an inspiring sight to drive through the country on the High Plains of Texas in the summer time and see acres and acres of cotton growing . . . or to pass the cotton yards in the city and see bales and bales of cotton stacked as far as eye can see.

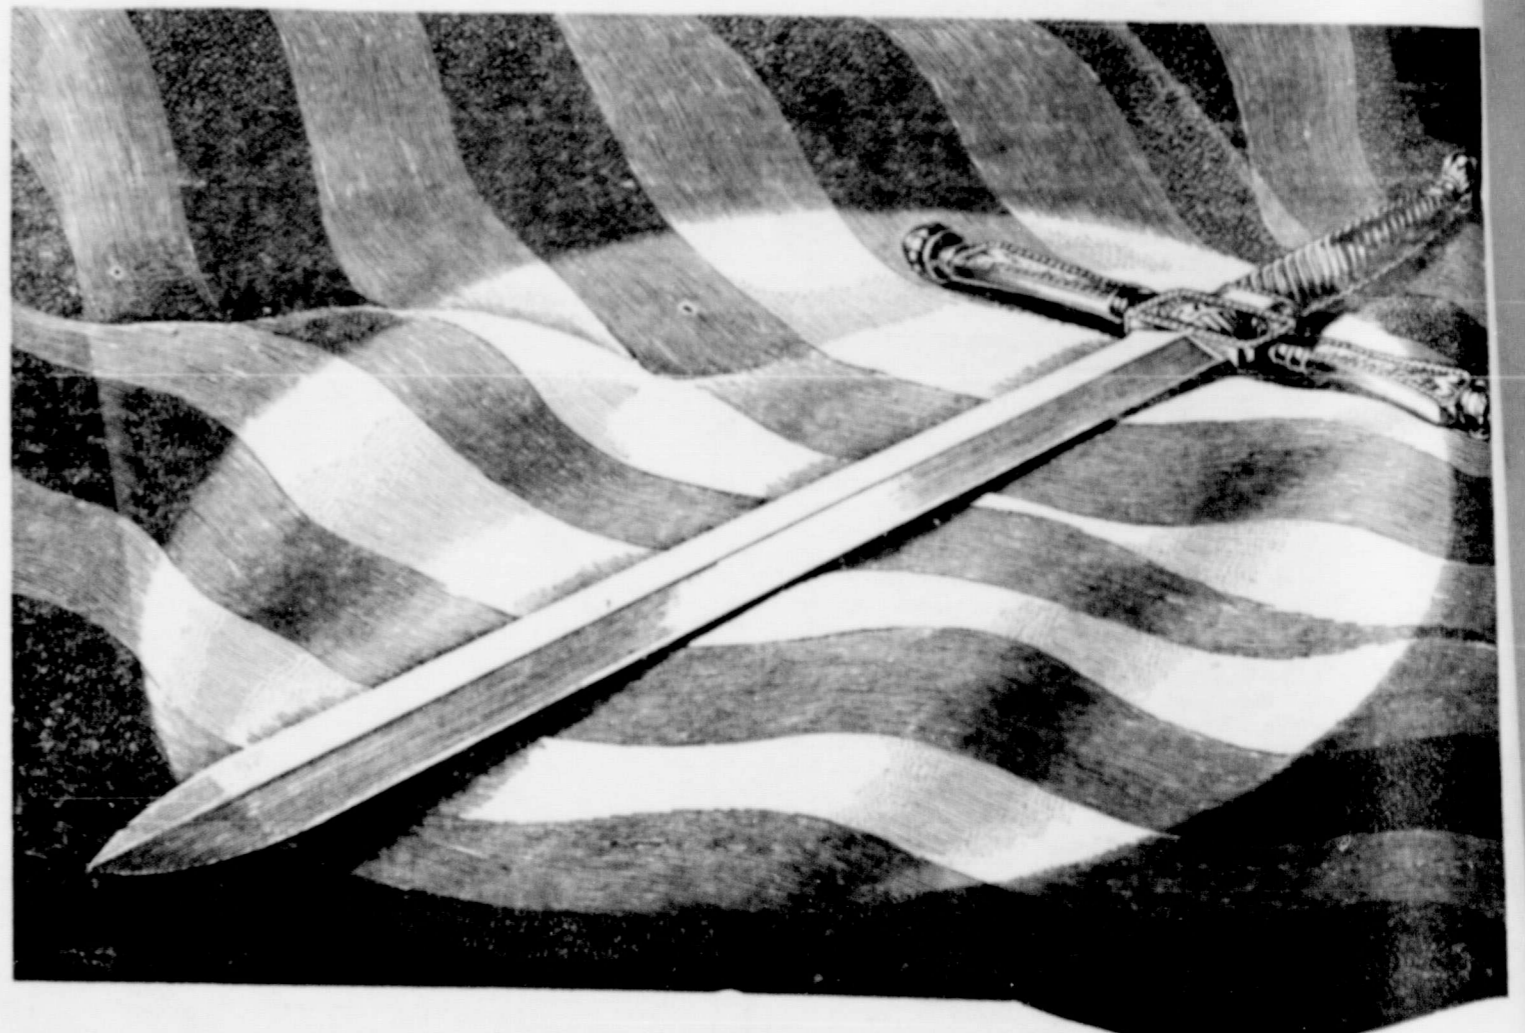

This all serves to remind us the very important part which cotton plays in the economic life of this great area. Every acre of cotton . . . every bale of cotton means money in the pockets of our citizens . . . and money that we all share in eventually.

That's why it is so important to all of us to insist on cotton when we are buying clothing. It means a greater market for cotton and eventually more money for us all.

## FREEDOM IS A MIGHTY SWORD

We Americans can rightly be proud of the fact that we are a peace-loving people. That our aim as a nation is to strive to improve human welfare, with freedom and justice for all. \* Such a people is always slow to anger, tolerant and patient. But when patience is exhausted, a peace-loving people can turn its peace-time skills into weapons of fierce and righteous wrath. There is only

one way such a nation could be enslaved. That would be through propaganda that misleads through lack of knowledge, and of truth. America's greatest strength is . . . freedom of the printed word . . . to give the people truth, truth that builds freedom of thought, of word, and of vision. \* This great Freedom tempers the steel out of which a nation and a people can forge mighty swords.

## Man Speaks at Washington School March 25

By Wavelly Washington  
Paul Ebhomielen, of Nigeria, is presently a student of Wayland College at Plainview, Texas. He was the guest speaker at the Washington School, Friday, March 25.

Mr. Ebhomielen previously was a teacher in the public schools of Nigeria. However, in view of the tremendous influence which missionaries have had on the growth of the civilization of a once dark continent, he felt that pursuit of a theological degree would place him in a greater beneficial position for his people.

His subject for this occasion was "What Type of Education Do We Need?" and he emphatically stressed that education should train the mind, the heart and the hands. He made an appeal to the students that they not look for an easy way out in acquiring know-

ledge but believe that if anything is worth having, it is worth the exertion of great effort to obtain. Here, Mr. Ebhomielen stated most pointedly that we should value our schools, churches and added that the dark curtain of ignorance has been greatly lifted through the work of schools and missionaries in his country. Africans now place the value of an education so highly that they work harder to pay fees required for some grades in their public school systems. An additional and very interesting fact is Mr. Ebhomielen's statement that Nigerians have great faith in and respect for Americans and America.

Mr. Ebhomielen very patiently answered questions of the pupils from both schools which revealed more interesting facts. Nigeria is on the move and will, on the 14th of October, gain its independence from the British.

Most of the educational institutions are not co-educational and courtship is postponed until completion of formal education.

**Knowing Plentiful Foods Aid In Meal Planning**  
Planning ahead makes a big difference in meal preparation just as it does in other efforts. A wise menu planner knows the food items that are in abundant supply. For this reason the U.S. Department of Agriculture prepares a monthly list of plentiful foods.

For April, cranberry products lead the plentiful list. Supplies of cranberry juice and sauce are large enough to encourage wide use of this food all month.

Cranberries go well with other plentiful foods also—pork, including ham, broilers, fryers and shrimp. Other high protein plentiful foods are eggs, milk and dairy products, peanuts and peanut butter.

Fruits include canned blackberries, freestone peaches, raisins and fresh dries.

Carrots, rice, almonds, filberts and lard complete the April list for Texas.

These are the foods that pave the way for hearty spring time eating in the weeks ahead. The supply of each is expected to exceed normal demand, so these will be economical buys.

**Check Frost Damage on Shrubs**  
Check your shrubs to see if they have been damaged by frost this winter. Any damaged limbs should be removed, otherwise the plant may exhaust itself trying to heal the injury. Plants vary in their ability to overcome injury.

One of the general rules for pruning is to cut off all dead or injured limbs to make way for new growth. Now is the time to do it.

## CHEVY! YOU CAN'T BUY ANY CAR FOR LESS UNLESS IT'S A LOT LESS CAR!

Anyone who's looked around knows the majority of Chevrolet models—6's and V8's together—list for less than comparable models of other low-priced cars. But the price tag alone is only one of a whole raft of reasons a Chevy does better by your dollars.

Nothing near Chevy's size and price can match the Full Coil cushioning of its ride, or the fine, finished workmanship of its Body by Fisher. That even applies to some cars that cost a lot more. You're up in the higher price brackets before you find a car that moves as quietly as a Chevrolet or offers the inner space that Chevrolet does.

Or look at the extras Chevy gives you—at no extra cost—that others in its class can't offer at any price. Shock-cushioned steering. Safety Glass in every window. Keyless locking of all doors. Crank-operated vent windows. Chevrolet offers the widest choice of power teams, too. Drive a Chevy just once. You'll have a tough time settling for anything less.

The two men were partners in a business at Grants and had been to El Paso by plane on a fishing trip. The Johnsons have six children and the Warrens were expecting a child within two months.

Funeral services for the Johnsons were held at 3 p.m. Wednesday at the First Methodist Church in Floydada, conducted by the pastor, Rev. Dewitt Seago. Burial was in Floydada Cemetery.

Mrs. Johnson was the daughter of Mr. and Mrs. H. N. Powell of Dougherty and a sister to Mrs. Ed Wester of Floydada.

## Ewings Will Celebrate 50th Anniversary Sun.

Mr. and Mrs. John W. Ewing of Quitaque, pioneer residents of Floyd and Briscoe Counties, will celebrate their Golden Wedding Anniversary Sunday, April 10th. Open house will be held at the Quitaque Methodist Church from 2 to 5 p.m. when friends will call to congratulate the couple.

An unusual occurrence relating to the celebration is that the couple were married on a Sunday, April 10, 1910, and that their 50th anniversary comes on the same day of the week.

Mrs. Ewing is the former Ruby Gregg, whose father, the late W. S. Gregg, helped to organize Briscoe County. In fact the first election of officers for

that county was held in Mr. Gregg's dugout.

Mr. Ewing's father, John A. Ewing, was a pioneer resident of Floyd County and he, along with Jim McLain and Tom Braidfoot, came to this county in 1889 and helped to organize the county in 1890. They moved to the plains from near St. Joseph, Mo., and landed at old Lella Plain, a town located several miles east of Lockney. Mr. Ewing recounts that Jim McLain had a hotel there and that they lived in this hotel until they could get their dug-out completed.

In the election of 1890, Floydada was selected as county site over Della Plains and Della Plains soon withered away with most of the buildings being moved to Lockney. Another early day town, Mayshaw, sprang up in about 1893 and 1894 but that town soon disappeared also. Mr. Ewing says The Ewings moved to Hall County in 1899. He recalls some

of the hardships of early days in Floyd County included a grasshopper plague in the twenties in which the pests covered everything that was out and the great prairie fires which swept over many miles of range land, destroyed all grass and sometimes buildings. Mr. Ewing is an uncle of Mrs. Buck Sams and Miss Juanita Thompson of Lockney and also of Maurice Ewing, the noted earth scientist of Columbia University, New York City. The local ladies' mother, Mrs. Rose Thompson, was an early day school teacher in this county. Her maiden name being Miss Rose Ewing, in fact the old Rose Ewing school, located some eight miles northeast of Lockney, was named for her. She was a sister of John W. Ewing. The Ewings have no children of their own but raised two of their nieces, Mrs. Charlene Smith of San Antonio and Mrs. Anna Belle Wilson of Longview. They, along with many other relatives and friends are expected to be present for the gala occasion.

The couple lived all their married life at Quitaque, except for some years that Mr. Ewing was engaged in work for the civilian air force during World War II. He helped to incorporate the city of Quitaque, was mayor for six years and served for many years on the city council. He helped to build the lovely city park, unusual for a town so small, was instrumental in securing the first pavement for the town, and actively interested in all civic improvements. Mr. Ewing owned and operated a hardware store for many years — starting in 1909, and recalls that he had \$7 in the cash drawer when the store opened for business.

Mrs. William Mays was returned home from the hospital last Tuesday. She is still on the sick list, but is so happy to be home.

Mr. and Mrs. Dale Stringer and Stinson spent a few days in Waldo, Arkansas visiting their daughter, Mrs. Dorothy Rilea. They went by way of Munday and took their son, Billie Dale, and visited in the home of Mr. and Mrs. Joe Earp. Mrs. Bill Stringer and Christy had been there a few days and Billie returned home with them.

slight concussion. About ten days before Jimmy was hit in the temple with a hard ball and rushed to the hospital where he was put under observation for 24 hours. He was said he would have to stay out of school another week and it will be at least six weeks before the fracture heals.

A. F. Carey returned home with the Franklin Rainey's from Galveston where he had been with his son Jim. Reports say that Jim continues to improve, but it will be a long hard road. His daughter, Sarah Carey from Canyon spent the week end with her father. Mrs. Carey is still at the bedside of her son and doesn't know when she will be able to return home.

W. R. Billington returned home from Plainview Hospital Friday where he had surgery about ten days ago. His condition continues to improve but it will be six weeks before he is able to work or ride in a car.

We would like to thank each and everyone of our friends for the cards, flowers and help we received while our son Jimmy was in the hospital. Words cannot express our appreciation for all your kindness, Mr. and Mrs. James Jeffress, Bev and Tim.

Visitors in the home of Mr. and Mrs. James Jeffress over the week end were Mr. and Mrs. Ed Noel and family, South Plains, Mr. and Mrs. J. R. Turner and family, Providence, Mr. and Mrs. Dale Stringer.

## UNDENOMINATIONAL CHRISTIANITY

Every seed produces after its kind. Wheat will produce wheat. Corn will produce corn. Watermelon seed will produce watermelons. This is not only true in the natural realm but is equally true in the spiritual.

### THE WORD OF GOD WILL PRODUCE WHAT?

Jesus said, "The seed is the word of God" (Luke 8:11). The word of God, unmixed with human doctrines and commandments of men, will produce NEW TESTAMENT CHRISTIANITY and not denominationalism. The pure word in the days of the apostles produced no denomination. That same word, unmixed with creeds and theories of men, will produce no denomination today.

### OUR PLEA TODAY

The plea of the church of Christ today is to depart from the doctrines of creeds and church manuals formulated by man and take the pure word of God. This will make all who do so members of Christ's church, the one established by him, Matthew 16:18, and not of some denomination. It will make Christians only and only Christians. This is how to have UNDENOMINATIONAL CHRISTIANITY.

# STATE CAPITAL Highlights AND Sidelights by Vern Sanford

TEXAS PRESS ASSOCIATION

**Austin, Tex.** — Texas leads all other states in the building of new interstate highways since the beginning of the program four years ago.

To date, 622 miles have been completed in Texas, says State Engineer DeWitt C. Green, and 855 more miles are under construction. Cost so far: \$400,000,000.

Target for the State is to have 4,000 miles in this main, heavy-duty truck system.

These roads, green points out, have built-in safety features and are three times as safe as ordinary highways.

Features that enable these roads to cut the traffic toll by one death a year for each 10 miles of length are:

1. Dividing traffic to eliminate head-on collisions.
2. Grade separations to cut out intersections.
3. Wide lanes with surfaced shoulders to provide ample room for passing.
4. Controlled access entrances and exits to ease cars on and off the highway.

But the super-roads are only a fraction of the program in the state with more miles of public roads than any other in the country.

In the less elaborate highway system, not in the interstate system, Green says the state now has 1,029 miles of divided highways with a goal of at least 2,700 miles by 1975.

Most Texas mileage is in the farm-to-market system, now up to 30,156 miles.

**NEW INDUSTRY SEEKING** — Reorganized Texas Industrial Commission is setting out toward some tall goals with a slon stick.

Commission, with a staff of one man plus a secretary, is after a Texas-sized share of new industries for the state. Its appropriation for the year is only \$23,750.

Other agencies of government have assisted, however, with research. Questionnaires already have been sent to Texas cities to build up a permanent file of data on potential sites.

**NO WIDE OPEN SPACES** — As Texas prairie gives way to subdivisions, more and more Texans are getting in each other's way.

Problems growing out of the population explosion and rapid urbanization of Texas were the subject of a two-day Austin conference for newspapermen, civic leaders and planners.

Texas newspapers were commended by Steve Matthews, executive director of the Texas Municipal League, for their efforts in keeping the reading public informed on complex and changing city problems.

Conferees pondered how to plan orderly, pleasant communities for the two million additional residents expected to be added to Texas cities in the next ten years. Also, how to correct the all-too-prevalent bane of "acres of hot asphalt and cold stone," congested streets and the "grotesque suburban sprawl."

**ONE WORD MAKES DIFFERENCE** — Because of a slip of the tongue or typewriter in Potter County, Court of Criminal Appeals dismissed appeals in three cases mistakenly addressed to the Court of Civil Appeals.

A court order from the district court in Amarillo said the defendants had given notice of appeal to the Court of Civil Appeals, Austin.

Since the cases were criminal

cases — driving while intoxicated, contributing to the delinquency of a minor — the civil court could not handle them.

And since they were appealed to the civil court, the criminal court could not handle them.

**TRINITY PERMIT GRANTED** — After the longest and probably most patience-straining hearing in State Water Board history, Trinity River Authority and the City of Houston were granted permission to build a \$40,000,000 dam at Livingston.

Also authorized was a \$5,000,000 salt water barrier at nearby Wallisville.

Conclusion of the matter was a near-miracle of compromise and appeasement. Initially Houston alone had sought the permit with stiff opposition from the Trinity people. They got together and agreed on a joint project with a 70-30 split on costs and water use, with Houston taking the larger portion.

But when the hearing came before the Water Board, the San Jacinto River Authority, North Texas Municipal Water District and affected landowners protested.

SIRA dropped its opposition when Houston agreed to use Trinity water for industry only and to step up buying of San Jacinto water for domestic use. Water Board order provided that the rights of upstream users in North Texas should not be cut into by the new dam. That left only the landowners to satisfy — probably in court.

**HOME HELD UP** — Highly controversial \$100,000 - plus home for the Sam Houston State College president will not be built unless the governor and legislative budget board give the green light.

Henry Sears, chairman of the board of regents for teachers' colleges, made this promise to the Senate cost of government committee. If budget board opinion follows that of many legislators' recent comments, it will take a dim view of the project.

Senators told Sears they were irked with the teachers' college board for what they regarded as a "complete breach of faith" and an apparent by-passing of legislative intent to keep a check-rein on college building programs.

**TOURIST REVENUE FALLS** — Texas had a \$100,000,000 slip in tourist spending between 1957 and 1959.

State Highway Department's 1959 Tourist Industry report shows: for 1957, 10,300,000 visitors, \$531,000,000 spent; for 1959, 9,600,000 visitors, \$431,000,000 spent.

Highway Commission Chairman Herbert C. Petry Jr. said competition for tourists is strenuous. He said he hoped the new state advertising program, due to begin soon, would help to expand the crop.

## 675 Attend PPA Annual Meet

Approximately 675 stockholders and guests attended the 26th annual stockholders meeting of Plainview Production Credit Association held Saturday, April 2, in the Plainview High School Auditorium. The meeting began with a barbecue lunch served in the high school cafeteria.

L. R. Durham, president of the Board of Directors, gave the annual report. He reported that the money loaned in 1959 was twenty seven million as compared to twenty one million dollars in 1958, and that in the same period of time the capital and reserves had increased from \$2,000,000 to almost \$3,000,000. The association showed a gain of almost three hundred new members in 1959 to make a total of approximately 1,500, and built two new field offices, one in Tulla and one in Friona, to make a total of seven offices to better serve the eight county territory.

 County Home

**Stains On Wood Furniture**  
 Heat marks or alcohol stains on wooden furniture are not easy to remove. Often furniture so damaged can be restored only by refinishing. Here are a few suggestions for home treatment of such damage on woods.

When you spill any beverages, perfumes or medicines containing alcohol on furniture, wipe up the liquid immediately before it has time to penetrate into the finish. If the liquid goes completely through the finish, there is only one remedy — a spot refinishing job temporarily and a complete refinishing job later. For temporary protection, polish with wax, using a colored wax for dark woods. If this is not effective, mix powdered pumice and oil into a creamy paste and apply it to the stain rubbing with the grain of the wood, then polish with a clean soft cloth.

Try treating burns the same way, first trying wax, then the pumice and oil mixture.

When penetration is not too deep, heat marks may be eliminated by light stroking with a clean cloth moistened in camphorated oil, followed by a buffing with a clean cloth. Water rings may respond to waxing or to treatment with camphorated oil.

Some protection can be given your furniture with a coat of paste wax applied and buffed with a soft cloth. Do not use an oiled dust cloth on waxed furniture as it will soften the wax.

 I see where Mr. Eisenhower wishes to take down some of our immigration bars and open U. S. jobs to more assorted foreigners.

My us-first neighbor says this seems like a very charitable attitude, but maybe not hardly the right medicine when there is a population explosion threatenig to go off.

## South Plains

By Mrs. Murray Julian

Dust blew Tuesday morning, but the rest of the week was fine until Thursday and again we had a terrible duster from the west. Early morning lows have been in the 30's, with warm and sunny days. Every farmer is working long hours preparing land for cotton planting time, which is nearly upon us.

Remember revival services next week at the South Plains Baptist Church with Rev. E. O. Adams preaching, and Johnny Burnett leading the singing. 104 were present Sunday morning, 60 at night services.

Parents of Mrs. Don Probasco, Mr. and Mrs. Hubert Holcomb and Charlie of Crosbyton were Sunday dinner guests with the Don Probascos and Maury.

Mr. and Mrs. J. P. Taylor spent last Tuesday in Amarillo with her sister, Mr. and Mrs. Jack Douglas and children.

Among those who attended the wedding shower for Mrs. Dorman Turner, recent bride, was Mrs. Travis Young and Mrs. Early Pritchett. The party was held Thursday night at the home of Mrs. C. G. Dever, Floydada.

Mr. and Mrs. Ed Noel and boys visited in Sand Hill Saturday night with Mr. and Mrs. James Jeffress who had just brought their son, Jimmie, home from the hospital.

The Rex Smithermans, Kelly

and Bryan went to Floydada Sunday afternoon for a celebration in the home of her mother, Mrs. Alvie Jackson, who had prepared dinner for Joy's grandmother, Mrs. W. A. Amburn, who was 80 years old.

Mrs. Bryan Karr, Mrs. Fred Fortenberry and Harry Hartman presided at the voting polls Saturday for the trustee election. South Plains school trustees elected were H. S. Calahan Jr., Hansel Sanders, Wendell Johnson and R. H. Adams. Leighton Teeple from here was elected to precinct 3. Tuesday night there will be a trustee meeting to elect officers for the coming year.

Kendis Julian from WTSC at Canyon was home over the week end with his folks, the Murray Julian family. Saturday night Miss Janis Roberts also of WTSC was a supper guest in the Julian home.

Mr. and Mrs. Fred Fortenberry were in Lubbock Thursday. Others spending the dusty day there were Mrs. Skeet Thornton, Mr. and Mrs. George West.

Keith Marble who is stationed with the armed forces in Korea, is spending this week in Japan on a leave.

Mr. and Mrs. Gilbert Bean of Lockney had Sunday dinner with their children, Mr. and Mrs. Shelby Calahan and family.

Mrs. Fred Marble, Mrs. Edith Muncy, Mr. and Mrs. Ernest Wells were Sunday afternoon visitors in the home of Mr. and Mrs. Marvin Wells.

### April Fool Party

Mrs. L. T. Wood and Mrs. Shelby Calahan were hostesses in the Wood home for an April Fools' party Thursday morning, March 31. The affair was a surprise, and guests were called for and brought to the party in all manner of attire, and were not allowed to add to their costumes. There was much merriment as they all congregated for the party. Mrs. Calahan registered the guests, and they were served cold drinks, coffee and doughnuts. As they all left they went by Upton Grocery in South Plains where Raymond Upton served them all cokes. Those who attended the party constituted nearly all of the ladies of the area, except those who were gone or ill. There were forty-nine ladies who registered, and many children.

Mrs. W. B. Wilson of Fairview visited Monday with her daughter, Mr. and Mrs. Bill Beedy.

Mrs. Philip Smitherman and Mrs. Don Bean went to Silverton Saturday afternoon to attend a bridal shower honoring Jack Mayfield, Silverton teacher and his fiancée.

Mr. and Mrs. E. L. Morison left for Dallas Saturday morning where they will attend the Ginners Convention which began Sunday and will go through April 5.

Mr. and Mrs. Grigsby Milton and girlay noon for Lubbock where they visited Mr. and Mrs. Arlis Powell Saturday. They visited his mother, Mrs. Milton, and sister Linnie in Amarillo. They report Mrs. Milton was sitting up and doing fine.

WMU of the Baptist Church met Thursday afternoon with

#### Fertilization

Many farmers are wondering how is the best way to apply fertilizer. Research conducted throughout the state and at the Halfway Research Foundation have shown that best results are received when the fertilizer is banded at least on 20" center. In most instances the type of fertilizer whether liquid or solid does not make much difference in yield. The cost, equipment, and personnel preference mean more than does the type of fertilizer.

#### Stock Show Board of Directors

The directors will have an open meeting Thursday, April 7, at 8 p.m. in the meeting room of the First National Bank in Floydada. All people are invited. Final plans for next year's sale will be decided.

#### Wheat

Many fields of small grains have a lot of weeds in them. The use of 2-4-D is real effective and in most cases will do

Pretty as a picture, isn't she? She looks "downright" angelic. Yet, five minutes from now, she may be a little bundle of fury!

Children change faster than the wind. They haven't learned to hide their feelings. But while grown-ups may present a better camouflage to the world, there are few of us without inner conflicts. And these conflicts can be serious.

It would be a lonely world if we had to keep all our problems to ourselves. We don't. God never intended that we should have to solve all our difficulties single-handed. Remember, He established His Church on earth for us. In that Church we will find understanding fellowship, and the faith to work out our own destinies.

Take your problems to Church. Pray that you will find a solution to them. Talk them over with your minister. And what seems a maze today may become a straight road tomorrow.

### THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
