28 YEARS EXPERIENCE IN THE BUSINESS

PANHANDLE CABBAGE.

There is no use to dodge the issue—the Panhandle country contains the virgin soil of the world. There are many things that the soil will produce most abundantly, but it appears that cabbage surprises even the oldest truck farmers. The Brand here relates two stories of the production of this succulent plant on the Plains.

G. C. Major, who lives 9 miles east of Hereford, has been growing cabbage for the market. This year he has kept an accurate account of the sales of a small patch and the results are as follows:

The patch consisted of only 10 rows 30 yards in length. He and his son used what they needed for their families, and the rest were marketed, selling the output for \$77.30, besides receiving \$3 in cash as prizes at the Fair.

A little calculation will show that this patch is a little less than one-sixteenth of an acre, and on the same count, the production of an acre would have sold for \$1280; it would have weighed 25,600 pounds.

Mr. Major in speaking of farming and gardening in the Panhandle, said that he had farmed in

many sections of Texas, but that crops were raised in the Panhandle easier and with less uncertainty than in any other place he ever lived. He has lived in the Panhandle 6 years and does not care to hunt a new location. He owns a two-section ranch and raises all general farm stuff with equal success.

The other story is quite as good. Tom Beall, who is well known to several people in Hereford, raised some 200 heads on a small patch of 1-16 of an acre and averaged 22 pounds each. He was not the only one in his community that did well, but every one who tried, cut a big yield. This crop was raised last year, but for the past seven years, just as good cabbage have been produced. With your pencil, figure out this yield. An acre at the same rate would have given the enormous yield of 70,400 pounds and at even 3 cents per pound this would give over \$2000 per acre gross income. Taking the local market this season, an average of 5 cents, the gross income would give the unheard-of amount of \$3,520 per acre.

These two stories might be doubted by those who do not know the Panhandle soil, but the Brand is in possession of the facts and can substantiate every statement.—Hereford Brand.

Sugar Beets in the Panhandle.

Among the many things of promise for the Panhandle, the production of sugar beets looms up in perhaps the brightest colors in the horizon of the future.

Colonel H. T. Groom of Carson county, submitted a sample beet of his own raising at this office this morning. He informs us that he has raised sugar beets on his ranch in Carson county nine consecutive years without a failure, that the six different analyses he has had from official experts show 12 1-2 to 17 1-2 per cent of pure sugar. The best Michigan beets contain 12 1-2 to 13 per cent and Colorado's 14 to 16 per cent pure.

Mr. Groom says he raised the beets without any irrigation, that it will stand more drouth even than Kaffir and maize, and that after nine years of practical experiments he is thoroly convinced that the Panhandle is the best sugar beet country on earth. He claims that one acre will grow, with ordinary cultivation, 20 tons of beets in any year.

Colonel Groom, Sr., father of the gentleman who today is a prominent Panhandle advocate, carried on extensive experiments in all lines of agriculture on his

Carson county ranch. He died while at work, but his son has stepped into his place and is continuing the work of the father.

There is no question in the minds of those who have tried to raise sugar beets on our fertile Panhandle soil that the rich and remunerative crop will thrive here. The specimen shown by Mr. Groom looks fertile and thrifty. All that remains to be done now is to get our farmers to raise this beet in supplies large enough to warrant the establishment of a sugar refinery in Amarillo.

It is suggested, and well so, that a sugar beet convention be called for Amarillo in January, that we induce the farmers from a hundred miles around us to attend it, that we have men who can speak authoritatively inform the farmers how to grow the beet, that we offer large cash prizes for the best half acre, second best and so on, thus arousing general interest and get the farmers to raise what promises to be the most remunerative of all our crops.

What success such a movement means to land owners and the entire Panhandle country can readily be seen. It would mean \$100 land inside of two years. The sugar beet question is well worth consideration.—Amarillo Panhandle.

\$75.00 GIVEN AWAY

ABSOLUTELY FREE

This amount is to be given in four prizes—\$40 first, \$20 second, \$10 third, \$5 fourth, as follows:

A ticket will be given with every fifty cent CASH purchase of anything in our store; this ticket will have two duplicate numbers on it; tear one number off and place in a lock box which we will keep here, the other number for you to keep. On November 1st we will get three men to open this box and place all the tickets in a big box and after mixing them up we will blindfold some little girl and have her draw four tickets from the box, the first ticket to get first prize and the second ticket second prize and so on down same way.

This is for Spot Cash Only.

Our stock of Dry Goods, Clothing, Shoes, Hats, and in fact everything carried in an up-to-date store is complete, and as for our Grocery Department, our many satisfied customers will testify to that. We have bought the largest part of our stock at the old prices, so we are able to save our customers money on nearly every purchase. You get the goods at the old prices and stand a chance of getting a nice prize.

THE DANGEROUS CESSPOOL.

Typhoid fever is produced by a microbe. Outbreaks of this dangerous disease are usually caused by polluted water. This is commonly brought about by excremental matter coming in contact with the source of supply. It can do this either by direct connection or by percolation through the soil.

As geologists inform us that the Plains are underlain with sheet water direct contact may be had through any inlet, a single well, perhaps. The indirect, percolation or seepage contamination may result from cesspools or pits.

Now, in Canyon City and other Plains towns, owing to the pervious nature of the soil at a depth of, say eight or ten feet, a cesspool may easily communicate with a nearby well and thus coming in contact with the general supply stream poison all the wells in the neighborhood. That such a condition confronts the town, in the presence of cesspools and pits, is the candid opinion of The News' editor.

In previous issues The News has invited a thorough ventilation of this subject from those among our citizens most competent to speak on it, our physicians, but for some reason they come not. The News, therefore, relying upon the force of its own convictions, is compelled to condemn the cesspool and pit business as extremely dangerous to the public health.

"KEEP THE BALL ROLLING"

For the Palo Duro National Park and Game Preserve.

GEO. A. BRANDON,
 Pres. Commercial Club.

DEAR SIR:—We must act and act quickly, and we must have the active cooperation of the wide-awake people of Hereford, Amarillo, Claude, Silverton, Tulla and Plainview, which cities are most immediately interested, as well as all the Panhandle of Texas, also deeply interested and to be permanently benefitted. In fact Texas at large, and the whole South and Nation with the teeming millions present, and to follow, are to be blessed, recreated and instructed by establishing the "Park" and what will be its natural consequences.

It is recognized by the few, who have explored its grandeur that there is no other spot on earth, all things considered, comparable to the 40 miles of the great wonder of the "Llano Estacado," the Palo Duro Canyon, the native heath of the buffalo, and at the head of this great gorge Canyon City resides.

In recognition of the propriety of this as a National Park and in response to our suggestions the Legislature of Texas, has authorized the National Government to acquire this property by purchase, donation or condemnation and control it as a park. Congress is ready, willing and anxious, with millions of dollars, the just dues of the Southwest, idle in the National Treasury. Will we be utterly blind, or criminally indifferent to our duty and great opportunity to bless ourselves and the people at large? I say no.

Will you please call a meeting of the Commercial Club, adopt plans for a convention and action of the cities above named to convene and take wise steps at once,

and let us secure the "National Park" at the meeting of our next Congress.

Very truly yours,

JASPER N. HANEY,
 Mayor of Canyon City, Texas.

Tuesday the Dallas News was twenty-two years old and it celebrated the event with an illustrated edition of forty pages. What ever may be said of the Dallas News' editorial department, its news columns have been always straight. Like the Galveston end of the business, of which the editor of the Canyon City News can speak from experience, the Dallas News has ever required its reporters to state the plain unvarnished facts—to give the news without color and without favor—and these it has invariably published whether contrary to its editorial policy or no. This course, commendable in any newspaper, has made the Dallas News what it is today—the greatest State of the Union.

HOFFMAN PARAGRAPHS.

The Fifth Sunday meeting at Paloduro was well attended. Hereford, Canyon, Umbarger, Vega and Summerfield being well represented. A good spiritual meeting was had. Bro. O. W. Dean, of Hereford, delivered a fine discourse Saturday on the Lord's Supper. He also preached on Sunday to the largest crowd that has ever gathered at this place.

Tassie is very glad, indeed, to have a "Happy" correspondent; would be glad to have some more, as it helps our editor to make our paper newsy.

We were glad to have Mr. J. Gregory with us during our meeting as he was once one among us but now lives at Gatesville.

J. C. Coker and wife are going to Corpus Christi to spend the winter.

Biooma Cage is able to be in school again.

Mrs. C. H. Hitchcock furnished Paloduro church with a fine pulpit that was gladly received. God bless the donor.

A young man from Deaf Smith wanted to visit a certain place in our community last Sunday, drove up to a house, took his horse out and went in and asked if that was the place. On being told he had made a mistake he got a double move on himself

and tried it over. If any information is needed ask Miss Ora Cage.

TASSIE.

HAPPY ITEMS.

Mr. Baggerly has gone to Plainview for a few days' stay.

Rev. Robeson preached in Happy Sunday, September 29.

Rev. Tarlton will preach Saturday evening and also Sunday the 6th, both morning and evening.

R. E. Foster of Canyon was a Happy caller Sunday.

Miss Foster, a niece of Will Foster, is visiting in this locality from southeastern Texas.

D. G. Mabie is expected home this week from an extensive trip through Iowa, Nebraska and Dakota with a bunch of home-seekers.

B. H. Overholt of Greenfield, Iowa, a brother-in-law of Mr. and Mrs. W. S. Cook, is here for a short visit.

Oct. 1. HAPPY.

There are ten hogs on Panhandle farms now where there was one two years ago," remarked one of our farmers the other day in the writer's presence. This is the best hog country on earth, and I have raised hogs in Iowa for thirty years," he continued. "I have 160 hogs of all sizes and more are coming. There are millions in hogs in the Panhandle, and the sooner we farmers see it the better." The gentleman is on the right track—Daily Panhandle.

Important Notice.

On account of the size of the Dunbar building a reception committee of the Christian church will meet their friends before or after the turkey dinner at Prichard's drug store. Graphophone music and comfortable chairs will be furnished and up-to-date fancy work will be displayed. Everybody cordially invited.

The status of the Panhandle is settled. It passed through its critical period this year. It passed in safety and came out a winner. Men of other countries come, see and are conquered. The next six months will see the largest immigration to the Panhandle ever witnessed in any country not homesteaded. We need the people, the people need our country.—Daily Panhandle.

City Council Proceedings.

On Tuesday, the regular monthly meeting, the following was done:

The hog ordinance was suspended for sixty days on petition of 57 citizens.

An order was entered to advertise for bids for a thousand yards of gravel delivered on the streets.

The marshal was instructed to have all obstructions removed at once from the following alleys:

Two alleys in block 42, two in block 46 and one in block 8.

The city marshal was allowed 10 per cent upon all revenues collected by him and turned over to the treasurer.

The Council will meet again next week, maybe Monday night.

Books with cattle-bills of sale.

National Park Proposition.

Mayor Haney, in his letter in this paper, does not make the matter of the National Park proposition any too strong.

It will, if possible to obtain this Park, and The News does not now see why we should not be a great thing for Canyon City and not only for us, but for the entire Plains country.

As, stated by The News last week this Park question and how to go about getting it is to be one of the important questions for the Commercial Club meeting next Tuesday.

There are other matters of importance also to be considered but this one, if carried through successfully, will beyond doubt be of the most lasting benefit to us.

The Club meeting will be held

at the courthouse on Tuesday evening, beginning at 3 p. m., and all of our citizens, whether members or not, are invited and urged to be present.

Money in Broomcorn.

A few years ago George Courtney came to this county with \$13.50. He purchased 170 acres of land thirteen miles northeast of town and has diversified in farming. His 170 acres is now valued at \$5,500. Besides, the usual crops he has raised broomcorn, for which he has found a ready market. He is now using two broom machines and working four men. He exhibited heads of this year's crop of broomcorn to us a few days ago that were over four feet long. Most of the above facts we got from a neighbor, but we saw the heads of broomcorn.—Haskell Free Press.

 meeting and adjournment.

THE CIGARETTE MUST GO.
 For some time past the heads
 of the larger business institu-
 tions of the country have real-
 ized that the cigarette fiend was
 not as efficient in his work as the
 man who was not addicted to
 such habit, and for that reason a
 discrimination has been made
 against the young man who clings
 to the cigarette. The great rail-
 road corporations were among
 the first to "cut out" the young
 man who insisted on his cigarette
 and then followed other large
 business concerns. It has now
 extended to almost every line of
 business and when a business
 man advertises for help it is usu-

ally stipulated in the advertise-
 ment that he "must not smoke
 cigarettes." This crusade against
 the cigarette smoker has been
 given quite a boost recently in
 this state by the statement of
 one of our prominent educators,
 Prof. Harris, principal of the
 Southwest Texas Normal of San
 Marcos, in which he takes the
 position that cigarette smokers
 do not make good teachers, and
 for that reason all students will
 be expelled from the Normal who
 insist on the use of the cigarette.
 Prof. Harris is to be commended
 for this move, and in a very few
 years he will find all colleges
 making the same ruling. The
 use of cigarettes is one of the
 worst habits the young man can
 be guilty of and stringent meth-
 ods should be adopted against
 this practice all along the line.

 To the Stockholders of the Pecos &
 Northern Texas Railway Co.:

You are hereby advised that
 the Board of Directors of the
 Company have called a meeting
 of the stockholders, to be held at
 the principal office of the Com-
 pany in the City of Amarillo,
 Potter county, Texas, on the 10th
 day of October, A. D. 1907, at 10
 o'clock a. m. to consider and act
 on a proposition to ratify, con-
 firm and approve the action of
 the Directors of the Company in
 causing an amendment to the
 Company's Articles of Incorporation
 to be approved by the At-
 torney General of Texas and
 filed in the office of the Secretary
 of State of the State of Texas,
 on the 14th day of March, A. D.
 1906, which amendment provided
 for the construction of two
 branch lines of railroad and fixed
 the amount of the capital stock
 of the Company at Five Hundred
 and Seventy-five Thousand
 (\$575,000.00) Dollars, divided into
 5750 shares of the sum of \$100.00
 each, which proposition, if adopt-
 ed by a vote of two-thirds in value
 of the stock of the Company will
 increase the capital stock of the
 Company from \$100,000.00, the
 amount fixed by the Original Ar-
 ticles of Incorporation, to \$575,-
 000.00, the amount fixed by said
 amendment so filed to the origi-
 nal Articles of Incorporation.

A MOST TOUCHING APPEAL
 falls short of its desired effect if ad-
 dressed to a small crowd of interested
 listeners. Mr. Business Man, are
 you wasting your ammunition on the
 small crowd that would trade with
 you anyway, or do you want to reach
 those who are not particularly inter-
 ested in your business? If you do,
 make your appeal for trade to the
 largest and most intelligent
 audience in your commu-
 nity, the readers of this
 paper. They have count-
 less wants. Your ads will
 be read by them, and they
 will become your custom-
 ers. Try it and see.

COME TO
The Northwest Texas Panhandle
THE LAST WEST--THE LAND OF NOW
 The shallow water district of
 the Texas Panhandle affords good
 agricultural land well located,
 with deep, rich soil of uniform
 excellence.
 A climate which affords com-
 fort and good health.
 An inexhaustible supply of
 pure, soft water.
 Ample and seasonable rainfall
 with all conditions favorable to
 the luxuriant growth of a splen-
 did variety of farm products, and
 fruits, and the highest degree in
 stock raising.
 All the advantages of living in
 an old established, resourceful
 and wealthy State, with the best
 of public schools, excellent social
 conditions and the lowest tax
 rate of any State in the Union.
 And with all these advantages
 and perfect conditions, we are
 offering land at ten to twenty per
 cent of the cost of the land, not
 as good, in other States.
 Where else will you find such
 a desirable proposition?
 On the first and third Tuesday
 of each month low rate round
 trip, 30-day limit tickets can be
 purchased to Canyon City, Texas,
 from all points west of Pittsburg,
 Pennsylvania, over any line of
 railroad via the Santa Fe railroad,
 from Chicago or Kansas City, Mo.
 On your arrival here we will
 show you free of charge, any or
 all of our many good propositions.
 We will furnish you with any in-
 formation that you may desire
 and assure you that our every
 statement will be based on facts
 and no matter how much or how
 small the amount of land that you
 desire to buy, you will receive
 the same courteous treatment
 that we endeavor to extend to all.

25 YEARS EXPERIENCE IN THE BUSINESS

PANHANDLE CABBAGE.

There is no use to dodge the issue—the Panhandle country contains the virgin soil of the world. There are many things that the soil will produce most abundantly, but it appears that cabbage surprises even the oldest truck farmers. The Brand here relates two stories of the production of this succulent plant on the Plains.

G. C. Major, who lives 9 miles east of Hereford, has been growing cabbage for the market. This year he has kept an accurate account of the sales off of a small patch and the results are as follows:

The patch consisted of only 10 rows 30 yards in length. He and his son used what they needed for their families, and the rest were marketed, selling the output for \$77.30, besides receiving \$3 in cash as prizes at the Fair.

A little calculation will show that this patch is a little less than one-sixteenth of an acre, and on the same count, the production of an acre would have sold for \$1280; it would have weighed 25,600 pounds.

Mr. Major in speaking of farming and gardening in the Panhandle, said that he had farmed in

many sections of Texas, but that crops were raised in the Panhandle easier and with less uncertainty than in any other place he ever lived. He has lived in the Panhandle 6 years and does not care to hunt a new location. He owns a two-section ranch and raises all general farm stuff with equal success.

The other story is quite as good. Tom Beall, who is well known to several people in Hereford, raised some 200 heads on a small patch of 1-16 of an acre and averaged 22 pounds each. He was not the only one in his community that did well, but every one who tried, cut a big yield. This crop was raised last year, but for the past seven years, just as good cabbage have been produced. With your pencil, figure out this yield. An acre at the same rate would have given the enormous yield of 70,400 pounds and at even 3 cents per pound this would give over \$2000 per acre gross income. Taking the local market this season, an average of 5 cents, the gross income would give the unheard-of amount of \$3,520 per acre.

These two stories might be doubted by those who do not know the Panhandle soil, but the Brand is in possession of the facts and can substantiate every statement.—Hereford Brand.

Sugar Beets in the Panhandle.

Among the many things of promise for the Panhandle, the production of sugar beets looms up in perhaps the brightest colors in the horizon of the future.

Colonel H. T. Groom of Carson county, submitted a sample beet of his own raising at this office this morning. He informs us that he has raised sugar beets on his ranch in Carson county nine consecutive years without a failure, that the six different analyses he has had from official experts show 12 1-2 to 17 1-2 per cent of pure sugar. The best Michigan beets contain 12 1-2 to 13 per cent and Colorado's 14 to 16 per cent pure.

Mr. Groom says he raised the beets without any irrigation, that it will stand more drouth even than Kaffir and maize, and that after nine years of practical experiments he is thoroly convinced that the Panhandle is the best sugar beet country on earth. He claims that one acre will grow, with ordinary cultivation, 20 tons of beets in any year.

Colonel Groom, Sr., father of the gentleman who today is a prominent Panhandle advocate, carried on extensive experiments in all lines of agriculture on his

Carson county ranch. He died while at work, but his son has stepped into his place and is continuing the work of the father.

There is no question in the minds of those who have tried to raise sugar beets on our fertile Panhandle soil that the rich and remunerative crop will thrive here. The specimen shown by Mr. Groom looks fertile and thrifty. All that remains to be done now is to get our farmers to raise this beet in supplies large enough to warrant the establishment of a sugar refinery in Amarillo.

It is suggested, and well so, that a sugar beet convention be called for Amarillo in January, that we induce the farmers from a hundred miles around us to attend it, that we have men who can speak authoritatively inform the farmers how to grow the beet, that we offer large cash prizes for the best half acre, second best and so on, thus arousing general interest and get the farmers to raise what promises to be the most remunerative of all our crops.

What success such a movement means to land owners and the entire Panhandle country can readily be seen. It would mean \$100 land inside of two years. The sugar beet question is well worth consideration.—Amarillo Panhandle.

\$75.00 GIVEN AWAY

ABSOLUTELY FREE

This amount is to be given in four prizes---\$40 first, \$20 second, \$10 third, \$5 fourth, as follows:

A ticket will be given with every fifty cent CASH purchase of anything in our store; this ticket will have two duplicate numbers on it; tear one number off and place in a lock box which we will keep here, the other number for you to keep. On November 1st we will get three men to open this box and place all the tickets in a big box and after mixing them up we will blindfold some little girl and have her draw four tickets from the box, the first ticket to get first prize and the second ticket second prize and so on down same way.

This is for Spot Cash Only.

Our stock of Dry Goods, Clothing, Shoes, Hats, and in fact everything carried in an up-to-date store is complete, and as for our Grocery Department, our many satisfied customers will testify to that. We have bought the largest part of our stock at the old prices, so we are able to save our customers money on nearly every purchase. You get the goods at the old prices and stand a chance of getting a nice prize.

THE DANGEROUS CESSPOOL.

Typhoid fever is produced by a microbe. Outbreaks of this dangerous disease are usually caused by polluted water. This is commonly brought about by excremental matter coming in contact with the source of supply. It can do this either by direct connection or by percolation through the soil.

As geologists inform us that the Plains are underlaid with sheet water direct contact may be had through any inlet, a single well, perhaps. The indirect, percolation or seepage contamination may result from cesspools or pits.

Now, in Canyon City and other Plains towns, owing to the pervious nature of the soil at a depth of, say eight or ten feet, a cesspool may easily communicate with a nearby well and thus coming in contact with the general supply stream poison all the wells in the neighborhood. That such a condition confronts the town in the presence of cesspools and pits, is the candid opinion of The News editor.

In previous issues The News has invited a thorough ventilation of this subject from those among our citizens most competent to speak on it, our physicians, but for some reason they cogate not. The News, therefore, relying upon the force of its own convictions, is compelled to condemn the cesspool and pit business as extremely dangerous to the public health.

"KEEP THE BALL ROLLING"

For the Palo Duro National Park and Game Preserve.

GEO. A. BRANDON,

Pres. Commercial Club.

DEAR SIR—We must act and act quickly, and we must have the active cooperation of the wide-awake people of Hereford, Amarillo, Claude, Silverton, Tulia and Plainview, which cities are most immediately interested, as well as all the Panhandle of Texas, also deeply interested and to be permanently benefitted. In fact Texas at large, and the whole South and Nation with the teeming millions present, and to follow, are to be blessed, recreated and instructed by establishing the "Park" and what will be its natural consequences.

It is recognized by the few who have explored its grandeur that there is no other spot on earth, all things considered, comparable to the 40 miles of the great wonder of the "Llano Estacado," the Palo Duro Canyon, the native heath of the buffalo, and at the head of this great gorge Canyon City resides.

In recognition of the propriety of this as a National Park and in response to our suggestions the Legislature of Texas, has authorized the National Government to acquire this property by purchase, donation or condemnation and control it as a park. Congress is ready, willing and anxious, with millions of dollars, the just dues of the Southwest, idle in the National Treasury. Will we be utterly blind, or criminally indifferent to our duty and great opportunity to bless ourselves and the people at large? I say no.

Will you please call a meeting of the Commercial Club, adopt plans for a convention and action of the cities above named to convene and take wise steps at once,

and let us secure the "National Park" at the meeting of our next Congress.

Very truly yours,
JASPER N. HANEY,
Mayor of Canyon City, Texas.

Tuesday the Dallas News was twenty-two years old and it celebrated the event with an illustrated edition of forty pages. What ever may be said of the Dallas News' editorial department, its news columns have been always straight. Like the Galveston end of the business, of which the editor of the Canyon City News can speak from experience, the Dallas News has ever required its reporters to state the plain unvarnished facts—to give the news without color and without favor—and these it has invariably published whether contrary to its editorial policy or no. This course, commendable in any newspaper, has made the Dallas News what it is today—the greatest newspaper in the greatest State of the Union.

HOFFMAN PARAGRAPHS.

The Fifth Sunday meeting at Paloduro was well attended. Hereford, Canyon, Umbarger, Vega and Summerfield being well represented. A good spiritual meeting was had. Bro. O. W. Dean of Hereford, delivered a fine discourse Saturday on the Lord's Supper. He also preached on Sunday to the largest crowd that has ever gathered at this place.

Tassie is very glad, indeed, to have a "Happy" correspondent; would be glad to have some more, as it helps our editor to make our paper newsy.

We were glad to have Mr. J. Gregory with us during our meeting as he was once one among us but now lives at Gatesville.

J. C. Coker and wife are going to Corpus Christi to spend the winter.

Bloom's Cage is able to be in school again.

Mrs. C. H. Hitchcock furnished Paloduro church with a fine pulpit that was gladly received. God bless the donor.

A young man from Deaf Smith wanted to visit a certain place in our community last Sunday, drove up to a house, took his horse out and went in and asked if that was the place. On being told he had made a mistake he got a double move on himself

and tried it over. If any information is needed ask Miss Ora Cage.

TASSIE.

HAPPY ITEMS.

Mr. Baggerly has gone to Plainview for a few days' stay.

Rev. Robeson preached on Happy Sunday, September 29.

Rev. Tarlton will preach Saturday evening and also Sunday the 6th, both morning and evening.

R. E. Foster of Canyon was a Happy caller Sunday.

Miss Foster, a niece of Will Foster, is visiting in this locality from southeastern Texas.

D. G. Mabie is expected home this week from an extensive trip through Iowa, Nebraska and Dakota with a bunch of home-seekers.

B. H. Overholt of Greenfield, Iowa, a brother-in-law of Mr. and Mrs. W. S. Cook, is here for a short visit.

Oct. 1. **HAPPY.**

An Inquiry Answered.

A gentleman at Bembsi, Rhodesia, writes to inquire where Chamberlain's Cough Remedy can be procured. He says he has learned of the good effects resulting from its use, and as children in that locality are often subject to coughs, he desired to give it a trial. This remedy may be procured from any store or chemist. For coughs, colds and croup there is nothing better, and as it contains no injurious substance it can be given to the smallest child with perfect security. For sale by S. V. Wirt, druggist.

Important Notice.

On account of the size of the Dunbar building a reception committee of the Christian church will meet their friends before or after the turkey dinner at Prichard's drug store. Graphophone music and comfortable chairs will be furnished and up-to-date fancy work will be displayed. Everybody cordially invited.

An Infallible Remedy.

No matter how severe an attack of diarrhoea may be, Chamberlain's Colic, Cholera and Diarrhoea Remedy never fails to give relief. You cannot afford to be without it. For sale by S. V. Wirt, druggist.

FOR
Farm
AND....
Ranch

WHEAT DRILLS--Our "Superior" leads them all.

SULKY AND GANG PLOWS--Our Parlin & Orendorff make has few if any equals and there is nothing better anywhere. This we stand ready to swear by.

STOVES--Buy a "Bucks" and you are fixed for years to come.

WINDMILLS--The celebrated "Eclipse" is the best of all--the most others can say of theirs is, "just as good." Get the Eclipse and you have the best.

THOMPSON HARDWARE CO.

Successors to Stringfellow-Hume.

City Council Proceedings.

On Tuesday, the regular monthly meeting, the following was done:

The hog ordinance was suspended for sixty days on petition of 57 citizens.

An order was entered to advertise for bids for a thousand yards of gravel delivered on the streets.

The marshal was instructed to have all obstructions removed at once from the following alleys:

Two alleys in block 42, two in block 40 and one in block 8.

The city marshal was allowed 10 per cent upon all revenues collected by him and turned over to the treasurer.

The Council will meet again next week, maybe Monday night.

Books with cattle bills of sale.

National Park Proposition.

Mayor Haney, in his letter in this paper, does not make the matter of the National Park proposition any too strong.

It will, if possible to obtain this Park, and The News does not now see why we should not, be a great thing for Canyon City and not only for us, but for the entire Plains country.

As stated by The News last week this Park question and how to go about getting it is to be one of the important questions for the Commercial Club meeting next Tuesday.

There are other matters of importance also to be considered but this one, if carried through successfully, will beyond doubt be of the most lasting benefit to us.

The Club meeting will be held

at the courthouse on Tuesday evening, beginning at 3 p. m., and all of our citizens, whether members or not, are invited and urged to be present.

Children in the Home.

Small children are always a source of anxiety to parents. Coughs, colds, croup and whooping cough attack the little ones and serious illness results almost before they are aware of it. One trial of Chamberlain's Cough Remedy for these troubles will prove its efficiency and keep it in the home ever after. For sale by S. V. Wirt, druggist.

Canyon City Club Notice.

Members will please call at office of secretary and pay note due Oct. 1.

 Query box. Our opinion of the work just completed. Business meeting and adjournment.

ally stipulated in the advertisement that he "must not smoke cigarettes." This crusade against the cigarette smoker has been given quite a boost recently in this state by the statement of one of our prominent educators, Prof. Harris, principal of the Southwest Texas Normal of San Marcos, in which he takes the position that cigarette smokers do not make good teachers, and for that reason all students will be expelled from the Normal who insist on the use of the cigarette. Prof. Harris is to be commended for this move, and in a very few years he will find all colleges making the same ruling. The use of cigarettes is one of the worst habits the young man can be guilty of and stringent methods should be adopted against this practice all along the line.—West Times.

To the Stockholders of the Pecos & Northern Texas Railway Co.:

You are hereby advised that the Board of Directors of the Company have called a meeting of the stockholders, to be held at the principal office of the Company in the City of Amarillo, Potter county, Texas, on the 10th day of October, A. D. 1907, at 10 o'clock a. m. to consider and act on a proposition to ratify, confirm and approve the action of the Directors of the Company in causing an amendment to the Company's Articles of Incorporation to be approved by the Attorney General of Texas and filed in the office of the Secretary of State of the State of Texas, on the 14th day of March, A. D. 1906, which amendment provided for the construction of two branch lines of railroad and fixed the amount of the capital stock of the Company at Five Hundred and Seventy-five Thousand (\$575,000.00) Dollars, divided into 5750 shares of the sum of \$100.00 each, which proposition, if adopted by a vote of two-thirds in value of the stock of the Company will increase the capital stock of the Company from \$100,000.00, the amount fixed by the Original Articles of Incorporation, to \$575,000.00, the amount fixed by said amendment so filed to the original Articles of Incorporation.
 J. N. FREEMAN,
 Secretary.

ARBUCKLE'S ARIOSA COFFEE

"For over thirty years," writes a gentleman in Los Angeles, "I have used Arbuckle's Coffee. Many times my family has tried other coffee only to come back to our old reliable, unchangeable Arbuckles. No other coffee has this uniform never failing aroma, I care not at what price. I have often wished I could tell you this." Many other people have the same opinion. Arbuckle's was the first roasted packaged coffee, and its sales exceed all the others put together. That it costs you less is due simply to our coffee business being so much greater than any competitors, in fact, it is larger than the next four largest firms in the world combined. We naturally can and actually do give better coffee in ARIOSA than anyone else can give for the price. Being the standard article it is sold at the narrowest margin of profit.

Some grocers will try to sell you instead loose coffee which the roaster is ashamed to sell in a package bearing his name. Don't take it, neither the looks nor the price indicate its cup quality. No matter where you buy Arbuckle's ARIOSA, or what you pay for it, it's the same old uniform Arbuckle's ARIOSA Coffee.

If your grocer will not supply, write to ARBUCKLE BROS., New York City.
