

ASSIGNMENT MADE TEACHERS BY SUPT. FOR YEAR'S WORK

TEACHERS OF PUBLIC SCHOOLS ATTENDING INSTITUTE.

Canyon Schools Open Next Monday, With Bright Prospects for Successful Year's Work.

The Canyon public schools will open next Monday morning at nine o'clock, and from every indication the school will have an increased attendance over last year. All is in readiness for a very successful year's work.

Superintendent A. D. Payne called the faculty members together Monday afternoon and made announcements for work during this week, which is given over to enrollment of the high school students. The faculty is organized so that little time will be lost when classes start next Monday.

The following assignment of teachers was made by Mr. Payne:

Miss Elva Fronabarger, first grade.
Mrs. J. W. Kleinschmidt, second grade.
Miss Marie Fronabarger, third grade.
Miss Betty Jane McDonald, fourth grade.

Miss Esther Rudolph, fifth grade.
Nay Hale, sixth grade and athletic director of high school.
Emmett Hazlewood, seventh grade and principal of ward school.

Miss Arline Rose, overflow from second and third grades.
Miss Laura Sweetman, overflow from fourth and fifth grades.
Guy Tabor, overflow from sixth and seventh grades.

All of the first seven grades will be held in the old building as all of the room in the high school building is needed for high school work.

The following assignment is made for high school teachers:

W. D. Cox, principal, manual training.
H. O. Smith, science.
Miss Carriewood Cleveland, English and Spanish.
Miss Winnie Mae Crawford, English and Latin.
Miss Jewell Cowan, English and History.
Miss Myrtle Miller, History and Civics.

Miss Zelma Red, Mathematics.
Miss Gertrude Conner, Domestic Science.
Miss Agnes Thomas, Expression.
Miss Lola McGuire, Music.

The school buses will make the two routes Monday morning to gather up the children in the country districts. The buses will go the same routes as traveled last year.

MARRIAGE LICENSES.

Harry Upfold and Mrs. Myra Smith, August 28th.
J. A. Prestridge and Miss Gladys Pearl McDowell, August 29th.
J. L. Ward and Miss Gladys Norene Campbell, August 30th.
George W. Prescott and Miss Mable Cassio, August 31st.

Help Keep Canyon Clean!

PROCLAMATION

Whereas the policy of this nation has always been one of preparation without militaristic demonstration, of reliance on its sovereign, free and patriotic manpower for National Defense:

And Whereas President Calvin Coolidge, chief executive of our nation, has proclaimed Sept. 12, anniversary of the St. Michael victory and the day of the retirement of our illustrious commander-in-chief, Gen. John J. Pershing, as National Defense Day, for a show of defensive strength:

Therefore proclaim we for the City of Canyon, State of Texas, September 12 as deserving of special attention and consideration by the citizens of Canyon; and hereby call upon them, upon military and civic organizations of the city, and upon the rising generation in the schools to cooperate with the local committee in every way to make the day a success as a showing of defensive strength, in accordance with the wishes and command of our President.

(Signed) O. N. HARRISON,
Mayor, Canyon, Texas.

Petition For Paving.

A petition from the property owners on Third Avenue was presented to the City Commission Saturday asking for paving on that Avenue from Tenth to Twentieth Street.

Owing to the fact that Mayor Harrison was absent from the city, no action was taken Monday night on the paving petition, but it is expected that the adjourned meeting of the City Commission will soon act upon the petition.

The petition bears the signature of twenty-seven property owners on the street. Several who did not sign have signified their intention of doing so. It was stated by those handling the petition that there was no serious objections to paving on this Avenue, and it may be almost counted as a certainty that the paving will start within a few months.

DEFENSE DAY PROGRAM TO BE MADE ON FRIDAY NIGHT

NATION WILL OBSERVE FRIDAY, SEPTEMBER 12th.

Mayor Harrison Named Chairman of Local Program—All Local Organizations Will Have a Part.

Mayor C. N. Harrison has been named chairman of the National Defense Day program to be given here September 12 in accordance with the nationwide observance of the day set by President Calvin Coolidge as a test of defensive strength, and proclaimed throughout the State by Gov. Pat M. Neff.

This committee will meet Friday night at Mayor Harrison's office, it is announced by Capt. H. C. Cambie, commanding Company F, 142nd Infantry, Texas National Guard, to decide details of the program. All civic, military and semi-military organizations in Canyon have been asked to participate in the day's events.

Other members of the committee are J. W. Reid, J. A. Hill, George A. Farlow, Clarence Thompson, Louis F. Hart, Grady Oldham, W. A. Warren, H. A. Brown, Irby B. Carruth, A. D. Payne and C. E. Strain. The tentative program for the day includes speaking on the public square and at the Armory, a parade of military and other organizations, headed by Company F, the American Legion, Society of Forty and Eight, veterans of the Spanish and Civil Wars, auxiliaries to all these organizations, Chamber of Commerce, Boy Scouts, City officials and departments, county officials, fraternal organizations and the schools.

Mass singing of "The Star-Spangled Banner," short addresses explaining the object of the demonstration, Battalion Escort to the Color and evening parade of Company F will be other features of the day. Hours during the day for which business will close will be decided by the committee Friday night, meeting at the Mayor's office.

One distinctive feature of the day will be the signing up of patriots, without obligation to military service, and the issue of tags proclaiming the fact that the wearer has signed the roster of defenders.

All Reservists, officers and men, and all ex-service men are requested to join in to the fullest extent to make the day a success. Assembly and registration of officers and recruits of Organized Reserve and National Guard units at their rendezvous points, probably tents pitched on the square, and consideration of the unit mobilization plan, will also mark the day.

Adjutant General Thomas D. Barton has been named by Governor Neff as chairman of the Texas National Defense Day committee, and has written Mayor Harrison for cooperation in making the day a success. The mayor's proclamation is given in this issue of the News.

O. R. WILLETT MARRIED.

Announcement of the marriage of O. R. Willett and Mrs. Meredith of Chicago has been received in the city.

Mr. Willett was a teacher in the education department of the College the past year.

BUILDING NEW HOME.

Mrs. M. C. DeGraffenried has started work on a new house at 1718 Fourth Avenue. The home will be stucco, with five rooms and basement.

THOUSAND TEACHERS ARE ATTENDING THE INSTITUTE

BIGGEST INSTITUTE IN HISTORY OF THE ORGANIZATION.

Watermelon Feed This Evening For All—Programs Continue Until Friday Afternoon.

More than a thousand teachers from twenty-four counties are enrolled in the consolidated Teachers Institute being held at the College this week. All attendance records of the past are broken.

President J. A. Hill made the opening address of the Institute Monday morning.

The feature of tonight is the big watermelon feed just west of the College building. Mr. Jarrett has issued an invitation to all who are enrolled in the Institute, members of the Institute faculty, visitors and friends who are in the city, and to the people of Canyon generally. He would like to have a large number of citizens join in the festivities and to meet the visitors who are in the city.

Prof. R. P. Jarrett, conductor of the Institute, is highly pleased with the success of the program, which is very highly praised by all of the teachers.

A number of county and district school trustees met yesterday at the College where a program and conference was directed by Miss Laura V. Hamner, county superintendent of Potter county. Six other county superintendents were present at this meeting.

The programs for the visiting teachers are especially interesting, and well presented by the able faculty of teaching experts. The program of the day keeps the teachers busy, and gives a good foundation for the year's work, as most of the schools will open next Monday.

The Consolidated Institute has grown very rapidly since the first year it was organized, and the attendance this year is much larger than was anticipated.

A business session of the executive committee tomorrow will take up the plans for the Institute to be held next year.

On account of pressing business incident to the building of the new Teachers College at Kingsville, President R. B. Cousins is unable to fill his speaking engagements at the Institute. In his place Conductor R. P. Jarrett has secured Dr. Shelton Phelps of Peabody College, Nashville.

While the absence of Mr. Cousins is very much regretted, the teachers consider the obtaining of Dr. Phelps a stroke of good fortune. Dr. Phelps is a native of Missouri, and received his early training in the normal schools (Continued on last page)

WEEDS GROWING FAST SINCE RAINS—CLEAN UP NECESSARY

Owing to the continued rains last week, Clean Up Day on Friday under the direction of City Federation did not accomplish much in the way of weed cutting and cleaning up the town generally. The weeds are growing fast since the good rains.

The Federation and officials of the city ask that all citizens get busy and cut the weeds and carry on the general clean up just as quickly as possible.

The College opens in two weeks let Canyon be made spotless before that time!

SECOND FALL TRADES DAY APPEARS EVEN BETTER THAN FIRST—FOOTBALL GAME MAY BE BIG FEATURE

AUCTION WILL AGAIN BE FEATURE OF DAY, TO BE HELD MONDAY, SEPTEMBER 15; FAIR ENTRIES CAN BE BROUGHT IN BY PROSPECTIVE EXHIBITORS—MERCHANTS PREPARING FOR BIG DAY.

Canyon's second Fall Trades Day, to be held Monday, Sept. 15, promises to attract even more attention than the first one, held August 18th.

Cooler weather and the opening of the Fall buying season, together with the assurance of a bountiful harvest, indicate that attendance at this event will top the mark set for any gathering here this year.

Again, the interest in the free lots to be given away is growing by leaps and bounds, with a great deal of impatience manifested for the coming of the second awarding, which will be conducted on the same lines as the first. Tickets permitting entry in the contest will be given on that day by each merchant participating, a complete list of whom will be published the week previous to the awards.

The public auction, which held a crowd for three hours last time, will again be a feature of the day, while a football game, one of the first of the season, is being negotiated for as the sports attraction.

In addition, the day will be sufficiently close to the opening of the Randall County Fair to give opportunity for exhibitors to bring in their entries for the latter event.

The two lots to be given away comprise the Northwest corner of Block 17, Victoria Addition, adjoining on the West the choice property awarded at the last contest, and are located at Ninth Street and Eighth Avenue, Southeast of the High School. They are high, well-drained, conveniently close to water and sewer lines, and will be free of all encumbrance. Abstract of title will be furnished free to the winners. First prize is the 100x142 corner lot; second prize the 50x140 inside lot. The public is invited to drive by and inspect them now.

PUSHES UP NEW AWNING.

More protection against rain, snow and sun will be afforded frequenters of the southwest side of the square by an extension being made to the awning in front of the Henson properties, the Palace Hotel, Palace Cafe, Star Barber Shop and Post Office.

The awning is being extended two feet and will be sealed and painted underneath and roofed with V-lap steel. Iron posts two inches in diameter will support the whole, which will be uniform throughout.

GIVE NUCLEUS OF PALO DURO PARK AT BOARD VISIT

M'GEEHEE OF WAYSIDE TENDER 120 ACRES OF CANYON TO STATE.

Park Backers Hope for Additional Gifts of Land; C. of C. Manager Urges Importance of Park.

First fruits of the visit of the State Park Board to the Texas Panhandle are seen in the gift of 120 acres to the State by Curtis McGehee and others, of Wayside, last week.

It is hoped by Randall and Armstrong county backers of a Palo Duro State Park that this is to be the first of a series of gifts which will insure for Northwest Texas a State park commensurate with the beauty and importance of the famed Palo Duro canyon, which should become the showplace of all Texas.

E. D. Harrell, owner of a large ranch on the Armstrong County side, has virtually promised the board a generous park site, which, if it can be matched on the Randall County side, will be connected to the latter by a scenic highway, the whole forming a scenic loop between Claude and Canyon.

No one project for the development of this territory, according to Louis F. Hart, manager of the Chamber of Commerce, is equal in importance to the proposed loop, bringing, as it would, tourists by the hundred thousand annually to Canyon. The offer of State aid in building the scenic highway, he declares, is equivalent to a gift to Canyon of the entire scenic wonder, since it is at present inaccessible to any but the most persistent sightseers.

The cost of purchasing a section suitable for the purpose might run up to several thousand dollars, and yet prove the best investment made by the citizens since the location of the West Texas State Teachers College here, he declares, and is frank to state that between such a park and one year's maintenance of a Chamber of Commerce the park is by far the better investment if a choice must be made.

SMITH-UPFOLD MARRIAGE.

Mrs. Myra Smith and Harry Upfold were united in marriage last Thursday, H. O. Price, justice of the peace, officiating. Mrs. Smith has been the county treasurer of Randall county for the past two terms and has made a success of her work. Mr. Upfold is the son of Mr. and Mrs. A. E. Upfold and is a most prosperous farmer. Both are well known and have many friends here who wish them great happiness. The bridal couple will make their home in Canyon.

CAMPBELL-WARD WEDDING.

Miss Gladys Campbell and Lino Ward were united in marriage Saturday, Rev. M. M. Beavers officiating. The bride is the daughter of Mr. and Mrs. W. B. Campbell. She graduated at the local high school, attended the College for a year and then taught the past year. The groom is the son of Mr. and Mrs. W. E. Ward and is now employed by C. O. Keiser. They will make their home here, and their many friends wish them a most prosperous and happy wedded life.

RAIN STOPS REUNION.

Rain fell in Canyon most of last Thursday morning, which kept a large part of the T-Anchor boys at home, and the slated program could not be carried out.

The few who arrived in the city on Wednesday, before the rain started, had a very enjoyable time visiting during the day.

BOOK CLUB POSTPONED

The first meeting of the Woman's Book Club, which will be a social one, will be held at the home of Mrs. J. A. Hill on Wednesday, September 17, instead of Sept. 10, it is announced by Mrs. Hill, the president of the club.

"Just a set of liars coming true," is the way our distinguished countrywoman, Mrs. Phoebe K. Warner, puts it. Mrs. Warner is known for her plain, blunt and forceful way of expressing herself. And isn't she about right in the matter? Perhaps a majority of the real estate agents who worked this country fifteen and twenty years ago could return and view the rosey pictures they had painted, they would be disappointed that nature had been so kind to the Panhandle, and that their painting really had come true. The Panhandle country has finally arrived in the minds of the people, and in arriving is producing the things promised by men who probably didn't know or didn't care whether their pictures ever fully matured or not. That did not include all of the land men, not by any means. There were many who saw the picture, but at the same time realized that their country's settlers would be tried by drought after drought before the country really arrived at its present stage of greatness. The eyes of Texas are now on this section as the great coming section of the Southwest. The picture painted by real estate men twenty years ago has come true, even though the painting has been painful to many who had a hard lesson to learn in the hard school of experience.

The News predicted several months ago that if this section wanted a park in the Palo Duro canyon the people right here in this section would have to take the lead and start the park. This prediction has been fulfilled in the coming of the Park Commission. The Commission is willing to recommend to the legislature certain things, but it is not likely that the legislature will be in position to do much in the way of park construction with the big deficit hanging over the state. The legislature will look upon the project of more or less local nature, taking it for granted that if the local communities are sufficiently interested to take the lead in a material gift to the state, then the state can afford to put some of its money in the development of the park project. The Panhandle has talked park and talked park for fifteen or more years. At last a commission has the matter in charge and has paid us a visit. That is some progress, to say the least, and progress that cannot be minimized.

August had its quota of fine rains, just at the critical moment when rain was needed and counted most for developing one of the biggest row crops this section has ever had. The crops are certainly coming along fine, and now the country can rest assured of a fine yield this fall. The farmers would appreciate dry weather now for awhile in order to get the wheat land ready.

The school bell rings Monday in Canyon. As educational center of Northwest Texas, every boy and girl, every young man and young woman should be in school the coming year. Nothing pays such big dividends as money invested in education where the boy and the girl really makes an effort to do his or her best. Canyon has the best school system on the Plains. The boys and girls should take advantage of the wonderful opportunities offered by the schools.

Tom B. Love resigned as national committeeman before he was handed his hat and asked not to hurry so. Tom is going to bolt the ticket in November because he hates Ferguson. If we remember correctly he was throwing seven kinds of fits two years ago because the voters were not satisfied when his candidate won. Tom don't like crow—especially Jim crow.

It is not good Americanism for any voters to go into any election and vote for any candidate he knows not to be so well qualified as his opponent. It matters not on what ticket that candidate is running. That is the reason a general election is held. If nomination is equivalent to election in a state that is either reliably republican or democratic, why need the state

go to thousands of dollars expense to hold the general election? The voters duty to his country is greater than it is to his political party. Parties come and go, but a sound constitutional government will continue so long as time continues, and so long as the people are willing to elect good men to office. No party has the legal or moral right to try to bind its voters to a candidate which the voters do not endorse. Laws that are not just are broken generally by the people without the least hesitancy; a continuation of unjust laws makes contempt for law and contempt for the body which attempt to straddle unjust laws on the necks of the people. Thousands of voters in Texas broke the unjust party pledge in the election two years ago. Thousands more are going to break the pledge this fall. In the name of common sense and good government this gag rule of a pledge should be repealed by the next legislature. If the nominees of the democratic party in Texas cannot win in the general election against the republican nominees, then there is something radically wrong with the democratic voters who present such nominees.

The democratic party of Texas assumes the office of a czar when it says to the voter, "you shall vote for the nominee of this primary no matter who or what he is, or what he stands for, or no matter how unfit he may be for the office to which he aspires."

Most certainly Randall county will be at the Tri-State Fair in Amarillo. That Fair is our fair, and the fair of every other county in the Panhandle. Randall county will be there with the bells on.

It is the laugh to watch the antics of Texas politicians. Two years ago a certain element were preaching the horrors of breaking the gag rule imposed by the democratic party of Texas, and were threatening to forever and eternally ostracize those who would not wear the brass collar. That was a beautiful brass collar in those days, decorated up with Earle Mayfield. What a difference in 1924. The ins of 1922 are now out, and the outs of 22 are in. The brass collar doesn't look so beautiful. In fact it is a repulsive thing made to be broken if you don't like it. Tom Love has kicked over the traces, and threatens to vote republicans, independent, socialistic, or most any old thing, just so it isn't for Ma Ferguson. Politics reminds us of a one-eyed man attending a three ring circus, and trying to see everything. We are going to have a hot time in November.

John G. Willday, State Tax Commissioner of Texas, raised a pertinent question: "Is taxation equal and uniform so long as the man with a profitable occupation, in which but little physical property is used, earns per annum \$60,000 yet pays in taxes but \$48.00, while the one who operates property earning an income of \$60,000 is required to pay \$6,000?" Mr. Willday has been wrestling with the taxation problem for several years. He can easily point out the defects in the tax laws of the state, but to get a remedy is still another thing. "Just and equal" taxation has probably never existed, in Texas or any place else, and probably will never exist. There is no such animal.

Dr. George A. Works has discovered that Texas must have better trained high school teachers. Most towns have fine high school buildings, and adequate facilities, but when it comes to teachers the trustees want to go the cheap route and are not willing to pay a sufficient salary to demand teachers holding degrees. From indications, the School Survey of Texas will recommend a number of vital changes in school management. Few school trustees realize that a well qualified teacher is more important than a good school building or good equipment.

The clean up campaign planned for Friday was knocked in the head by the continued rain. The rains are making the weeds grow fast and faster, until they resemble young forests in some parts of town. In spite of the fact that the ground has been wet the past weeks, it never gets too wet to cut weeds.

Pepsinated Calomel Is Better than the Old-Time Sickening Kind

It is gentle, imported English Calomel, combined with Pepsin and other helpful ingredients. It is mild but certain, causing no harshness or unpleasantness and will absolutely relieve indigestion, biliousness, bad colds, constipation and sick headaches. And best of all it does it at once—quickly and pleasantly. Take one small tablet at bed-time and you will get up hungry and feeling fine. Recommended by Jarrett Drug Company

Only 887 votes were cast in the second primary in Randall county, 511 for Robertson and 376 for Mrs. Ferguson. In the July primary there were 1225 votes cast in the county. According to the Tax Collector's records there are 1500 eligible voters in Randall county. Where were all of these voters on election day? They should have taken an interest in the affairs of our country.

Don't go into a newspaper office and ask the editor to "roast" somebody. You don't know how it looks or you wouldn't do it. That is no different than for you to step up to a friend and say, "Bill, you're a good friend of mine, and I wish you'd go over and cuss out that ornery brute of a neighbor of mine, for I'm a little afraid to do it myself. He might whip me."

Every rain brings up a lot more weeds to destroy the beauty of the city. Cut the weeds quick before they go to seed.

Cut the weeds in Canyon! Cut them NOW!

NATIONAL DEFENSE DAY.
The refusal of Governor Bryan and of the State officials of Nebraska to cooperate in National Defense Day was strongly reminiscent of an earlier Bryan, who contended that our National defense should consist of nothing but a National network of concrete roads, over which a million farmers in their Fords could be mobilized between sunrise and sunset.

Senator James A. Reed of Missouri is eminent for his plain, common sense, and his ability to hit the nail square on the head. He thus crushes the contention that American preparedness is a menace to the peace of the world:

"For more than fifty years the United States has been in a state of preparedness against Mexico and all the South American countries. As to them, her power was, and is, irresistible. She could, within ninety days, have crushed any or all of them. It is plain, therefore, that the possession by America of power has never led to a policy of aggression. The claim that by placing ourselves

in a position where attack will certainly be repelled we thereby attack borders on the idiotic—It answers itself." Defense Day will be observed by loyal American citizens on September 12, in spite of the protests being made by those who do not understand its meaning, or who try to distort the facts of case to stilt their fancy.

PARENT-TEACHERS MEET.
The Parent-Teachers Association met Friday afternoon at 3:30 in the Club Room at the Court House in the first regular session since June. The P. T. A. wishes to thank the public for the splendid cooperation given in putting over the summer's work. This manner is taken to thank those whose untiring efforts made possible the reception given in honor of Mrs. S. M. N. Marrs; our hostess, Mrs. W. J. Fleisher; those who gave the program, Mrs. L. F. Sheffy, Misses Ada Clark, Hazel Allen, Pauline Brigham, Corinne Hamill, Helen Croson, Willie Mae Beavers, Ruth Knight, Johnnie Rowan, Mabel Rowan, Imogene McIntire, Edith Harrison, Dorothy Burrow, Rose and Ruth Stewart; and those merchants and individuals who contributed so generously.

The success of the Story Hour for children was due to the direction of the Public Speaking Department of the West Texas State Teachers College. Misses Stewart, Simmons, Lowes, Elva Fronabarger and Richardson were among the story-tellers for the summer.

A skeleton believed to be that of King Richard the Third, who was killed at the battle of Bosworth Field, in Leicestershire in 1485, has just been unearthed and handed over to the Leicester museum.

Poem
by Uncle John

My little niece has learnt to sing, at least she reckons so. . . She thinks she's ketched the proper swing in that air tremmolo, she's spent a fortune on the thing . . . but . . . really, I dunno!
Most every night when I tune in, I listen at her squall,—the wiggle, wabble, trill an' screech—I suffer through 'em all,—but I'd sooner face a firin' squad—my back against the wall!
It's turrrible—how fur they've led the human voice astray—an' twisted an' distorted, in their diabolic way . . . My idea is, they've murdered it—an' done the job fer pay!
But,—we might as well be hopeful, as to try to raise a fuss; I wouldn't want my sister-law to listen at me cuss . . . And, Teeny's finished "trainin'" so, her voice can't get much wuss!

For Your Health, Eat More Fruit, Says Red Cross Nutrition Nurse

Miss Mildred E. Smith, Red Cross Nutrition Worker, sends the News the following article, following up the work she did in the county last spring: Fruit is one of the best tonics in the world. We would need far less medicine if we used enough fruit.

- Why eat fruit?
1. It has iron to build red blood.
 2. It has bulk to prevent constipation.
 3. It has an abundance of vitamins to keep us in good general health.
 4. It gives us energy.

How often should we eat fruit? Have two fruits every day, if possible, never have less than one a day. Breakfast is a good time for one fruit. An orange the first thing in the morning will stimulate the appetite. In fact, an orange a day has helped many an underweight child to gain.

The other fruit may well be served as dessert at dinner or supper. It is far better for both children and adults than rich cakes and pies. However, there is no set time for fruit. It is one of the few things that may be given in between meals. Any time is "fruit time."

What kind of fruit shall we use? Any kind, except it is not well to use many bananas. Children under six or ones may have them occasionally if they are really ripe. If baked they are more digestible than if eaten raw. But, as a fruit, bananas do not count; they do not have the nutritive value of other fruits.

Fresh fruits are best. Of course, we have to be careful about giving little children many berries, for the seed make them hard on the digestive organs. With this exception, it is almost impossible to give children too much ripe, sound fruit. They thrive on it.

When you cannot get fresh fruit,

Do You Cough?

San Antonio, Texas—"We have used Dr. Pierce's Golden Medical Discovery in our family for coughs and bronchial trouble and it gave entire satisfaction. I am a practical nurse and have found the 'Golden Medical Discovery' to be of great benefit to those recovering from sickness which had left them in a weakened condition. It enriches the blood, improves the appetite and aids digestion. I can conscientiously recommend this medicine."—Mrs. C. E. Smith, 230 E. Dittmar Ave.

Go at once to your neighborhood store and get the "Golden Medical Discovery" in tablets or liquid.

Youth Mates With Age

Edward Cochran, 23, and his bride of 69, Mrs. Mary McGinnis Cochran, who were recently married in Los Angeles, claim that love alone was the reason for this strange match. Cochran, formerly an oil field worker is now manager of his wife's apartment houses.

use canned or dried fruit. When you cannot get oranges, remember that canned tomatoes are about as good for you. Dried fruits, like prunes, raisins, figs, dates and apricots are rich in iron and should be used freely. Try putting some raisins or dates into your cereals a few minutes before you take it up, and see how good oatmeal can be.

The old adage says, "An apple a day keeps the doctor away." Of course it is not entirely true. But it is true that a liberal use of fruits will help keep you healthy.

You can begin giving fruit to the little baby. Orange juice should be given to the baby when he is four months old. Begin by giving a few drops diluted with a little boiled cooled water. Gradually give more and more, until by a year he is getting the juice of a medium sized whole orange. Strained prune pulp and apple sauce may be given to the 8 or 9 months old baby. Do not give raw fruit to the children under 3 or 4 years; scraped raw apple is an exception. Even after this age, raw fruit must be cut up finely and given in small amounts.

Professor Happy says: "Prune Yourself." "The \$5 gold pieces in Healthland are made of sliced oranges." "Eat fruit and fruit juices. You need pep, not pop."

America's annual loss through embezzlement by trusted employes has increased five times over since 1910, and is still increasing. E. A. St. John, president of the National Surety Company, estimated the country's present loss at \$100,000,000 to \$125,000,000 a year.

Bills providing for the construction of a national art gallery are being prepared for introduction into Congress should funds for the structure not be raised by gifts and bequests by this autumn. Charles Platt, of New York City, has been commissioned by a group of art patrons, who have subscribed \$10,000 to design the building.

THE HONEST GOLFER
Ned: He plays a fair golf game, doesn't he?
Ted: Yes, if you watch him.

NOT SO PROFICIENT

A colored man was being vigorously questioned on the stand, and was promiscuously using "I think" in answering the queries. The Judge, weary of listening to this waste of words, admonished the witness to make positive statements, one way or the other. Whereupon the witness replied: "Judge, you see, I ain't no lawyer. I ain't talk without thinkin'."

WRONG AGAIN

Junior—I'm sorry sir, to have overstayed my holiday, but I was detained on very pressing business.

Boss—Oh, so you want two more days of grace, eh?

Junior (absent-mindedly)—No, sir—of Molly!—London Mail.

In South Africa the government has appropriated \$1,000,000 to fight a plague of locusts, the worst on record. In one district near the Orange River a single swarm of locusts, which extended in an unbroken mass 150 miles in length, is reported to have devoured all vegetation.

When John Keats left three thousand dollars to his wife, who, by the way, was his third wife. When she died, at her request, a tombstone was erected over her grave which bore the inscription: "Elizabeth, the third and best wife of John Keats, the poet."

The first free library given by Andrew Carnegie in Dumfermline, Scotland, and was dedicated on July 27, 1881.

NEW PURITAN PRINTS
We have just received a new shipment of these. The patterns are so clever and different. The colors are fast, and the garment will really look brighter and better each time it is laundered. Per yard 50c

SCHOOL STOCKINGS
Sure, young folks are hard on the stockings. Everybody was a youngster once, and you can't blame them. The best thing to do is to get the best stockings for the money. And we believe Pony Stockings for Boys and Girls are the best stockings on the market. Brown and black, we have them in all sizes. Per pair 50c
We also have some dandy stockings for 25c and 35c the pair.

NEW SHIRTINGS
Little Tommy simply must have a big supply of blouses. Here we have so many new patterns in percales and madras that any little boy can be pleased. We have them at any price Mother wants to pay.

GOOD OLD GINGHAM
We just simply could not get along without that old standby—Gingham. We have so many patterns and new ones are coming in all the time. Little girls, never get tired of gingham dresses, they launder so well and wear—forever. All prices.

BOYS' HATS AND CAPS
Hats and Caps for the boy must be provided for; the old one just will not do. We have 'em, boys. All kinds. Priced at 50c and up.

SCHOOL SHOES
What we have just said about the stockings we can say about the shoes. Of course, shoes will wear out, but good shoes will wear longer than the other kind. We can recommend **BILLIKEN SHOES** as the best shoes in the world at the price. For both boys and girls.

BOYS' EXTRA PANTS
We just received a new shipment today. Good dark patterns for school wear. All prices.

New Presbyterian Pastor Starts Works in Church Next Sunday

Rev. W. C. Kunze will arrive this week from Eastland to become pastor of the local Presbyterian church, having accepted the call given him by the congregation a few weeks ago.

Rev. Kunze will preach next Sunday morning at the local church.

The new pastor visited Canyon a few weeks ago, his visit leading to the call given by the local congregation. He is counted to be one of the strongest pastors in this section. He has been pastor of the Presbyterian churches in Post, Ballinger and for the past three years at Eastland.

Happy Happenings

Mrs. J. H. McRee returned to her home in Gratiote, Oklahoma, Monday after visiting several days with her husband who is working here.

Tillman Carter was in Tulla Monday on business.

Misses Louise and Hazle Brown and Gladys Miller spent Sunday with Mary Elizabeth Lemmons.

Miss Virgie Mary Ward was in Amarillo Monday.

Mr. and Mrs. Claude Byrd returned Saturday after visiting a few weeks in Central Texas. Mr. Byrd and family will make their home in Vernon soon.

Inez French returned to her home in Tulla after a week's visit with her aunts, Mrs. R. B. Gist and Mrs. Ethel Wesley.

Miss Lucile Hyatt of Amarillo visited Monday and Tuesday with her aunt, Mrs. Martha Lemmons.

Misses Madie and Lois Whitney, with several more friends motored from Amarillo Sunday and spent the day in the Ed Whetley home.

Miss Zeyla McDonald of Clovis is visiting her parents, Mr. and Mrs. W. I. McDonald of this place.

Mr. and Mrs. Grady Davis of Canyon spent Sunday in the parental Ed Markham home.

Miss Ruby Glover of Canyon visited friends here Sunday.

Miss Vellie Dison left Wednesday for Cleburne where she will teach for the coming year.

Miss Pauline Grounds left Wednesday for Dallas where she will attend school. Emmitt Grounds accompanied her to Amarillo.

Mr. and Mrs. R. B. Gist and daughter, Margaret, and Martin Wesley were Amarillo callers Tuesday.

Mrs. Maude Long and children left Saturday for their home in Austin after spending the summer months here with relatives and friends.

Virgie Maynard was in Tulla Saturday.

William Thomas left last week for East Texas where he will attend school for the coming year.

Winfield Miller returned to his work in Amarillo Monday after visiting several days here with his parents.

Wm F. Miller was in Amarillo and Canyon Wednesday on business.

The error that edelweiss grows only in the haunts of the chamois among the Alps is quite a common one, says the London Times, but it grows in hidden nooks in Brompton Churchyard, and other places.

The streets of Seattle, Washington, if placed end to end would reach from that city to San Diego, California.

"SYMPATHETIC HEARING" SAYS HILL OF BOARD OF CONTROL

"The Board of Control gave the Teachers' Colleges a very sympathetic hearing," stated President J. A. Hill on his return from Austin Friday where he presented the budget for the College covering the two years from Sept. 1st, 1925.

Mr. Hill states that no action was announced by the Board of Control, and no indications given as to the recommendations for the various institutions.

The budgets for all state institutions are large this time owing to the fact that no building program has been allowed for some time and the schools and colleges are badly crowded as a result.

Mr. Hill asks a total of \$929,025 for the coming two years, of which amount \$321,043 is for permanent improvements.

NEW GIN WILL BE COMPLETED BEFORE COTTON IS PICKING TIME

Rapid progress, as the opening of the cotton season nears, is being made on Randall County's first gin, being erected here by T. R. Hogan and O. W. Degarimore.

With the main building completed except for parts of the floor and sashes the machinery is being installed and will soon be ready for operation. The stands are already in place and bolted down, the press practically finished and the boiler and engine installed and connected up.

A complete and efficient boll-breaker and cleaner will be a part of the equipment and the whole plant will have the largest capacity of any gin within thirty miles.

The owners and Dee Walker, their manager, are all in Canyon now and are rushing the gin to completion, which will be reached before the first bale is picked, they state.

Twenty-Two Eagles in Uniform and Practice Work Started by Hale

Twenty-two football men responded Monday to the call of Coach Noy Hale and the High School Eagles embarked upon the season of 1924 under very advantageous circumstances.

Prospects are the best the high school has ever had.

Several of last year's best men are back in line, while the quantity of new material is very promising.

The Eagles will go into action during the Tri-State Fair with the Amarillo Sandies, and hence Coach Hale expects to put his men through strenuous training to get them into proper condition.

American tourists will spend not less than \$300,000,000 in Europe this year. This does not include the millions that will be left there by men and women who are mixing business with pleasure of touring.

Athletes in the United States hold thirty-five of the ninety world's records for track and field events, recognized by the International Amateur Federation. Great Britain is next with twenty-five and Finland is third with twelve.

FUNCTION OF KINDERGARTEN WORK IN PUBLIC SCHOOLS IS FULLY OUTLINED

"In 1824, reading and writing for the great majority were frills."

"In 1824 arithmetic was a frill."

"In 1824 grammar and geography were frills."

"In 1824 United States history was a frill."

"In 1924—what is a frill?"

The answer to this question depends upon our definition of education. Why do we send children to school? What is the function, not only of the Kindergarten, but of the school as a whole? The answers which have been made to this question are many. The one we agree upon today is that "We establish schools in which we seek to establish whatever capacities or abilities the individual may possess in order that he may become intelligently active for the common good." Democracy needs those who will contribute to social progress.

A study of report cards from four states shows that this idea of education is being accepted. All of the cards have a place for grades in reading, spelling, arithmetic, geography, etc., as such cards have always had. So far it is like the usual report card, but in addition to this we find a place for a health record—no one can be truly efficient without health, and many children as well as adults have been running in second instead of high speed for lack of knowledge of a few simple health rules. A number of the cards have a place for a report on "Habits and Attitudes Desirable for Good Citizenship" like the following:

- "Is trustworthy in obeying rules."
- "Respects school property."
- "Tells the truth."
- "Uses time to good advantage."
- "Is accurate in his work."
- "Is helpful to others."

Surely these habits are as necessary as geography and history, for habits are the stuff of which character is made. We are largely a bundle of habits, good or bad, long before we leave school.

Let us see how the kindergarten helps to realize the goals set up for all education. Let us see how it effects desirable changes in intellect, character, and skill; how it makes healthier, happier, better children, through self-activity and social participation.

The kindergarten promotes health. It offers the best of opportunity for the normal activity and growth of the child under health-giving conditions. Health habits are encouraged—good posture in standing and sitting, keeping fingers away from the mouth, covering the mouth when coughing.

Early childhood is a motor period, a time to learn to do by doing. Much time is given to handwork. The child who finds ways and means to provide a toy he wants has learned a lesson in self-reliance and in thinking to a purpose. When he illustrates the story of the Boy and the Goat in the sand-table he has both expressed his idea of the story and deepened his impression upon himself so that he will remember it better.

The older child does the same thing when he makes a relief map. Through handwork the child learns to work and to enjoy it. "Idleness is the result of scars left by hours of joyless activity." Handwork projects often call for the participation of several children and they learn the very important lesson of good teamwork.

This is one of the best periods for training in oral language, for a young child likes to talk. He should learn to express himself since ideas kept bottled up have little value to others. He can be given something worth-while to talk about through excursions and other experiences and then be encouraged to tell his ideas in the best way. His vocabulary grows with experiences which the kindergarten provides and a good vocabulary is one of the best indications of an intelligent, educated person. If the work in oral language is well done, there need be little trouble about written composition later.

The child of this age is full of curiosity, of the desire to know, which is the cause of much mischief and of all knowledge. Nature study may satisfy much of this desire and is the best possible background for the study of science later. "Give large interests and give them young," says Alice Freeman Palmer.

Games with their co-operative play train for the co-operation of citizenship. They teach courtesy and quick thinking. They aid in physical development. A spirit of friendliness is developed and both success and happiness are dependent, in fact, upon the ability to make friends.

"Every child needs social contact with other children of the same age as a means of developing social qualities, sociability, self-control, co-operation, and a measure of self-sacrifice. The best preparation for working together is playing together, and we must at all periods live together," is an excellent statement of the needs of all children for the contact with other children on a plane of equality of interests and experiences which a kindergarten gives."

All this is education. It goes on so naturally and happily that we tend to overlook the fact that it IS education. "Experiments and tests carried on in several cities tend to show conclusively that the kindergarten child has the advantage over the non-kindergarten child in definite information about nature, human activities, and number facts, as well as in power to attend and to react quickly and accurately to a given situation."

The kindergarten is the natural transition between home and school. It has long been recognized as a principle of good teaching to build upon what the child already knows. The kindergarten does this; it bases its first work upon the home and the child's experiences in the home. It gradually extends these experiences to include the special interests of the school.

It prepares the children for the three R's. The kindergarten child knows the literature of childhood—stories and poems—and these are the subject matter of much of his reading, so that he more easily masters the symbols of reading.

"There are still many persons who limit all learning to the knowledge acquired from the printed page. They fail to understand that ideas are necessary in order to interpret the printed page. Ideas are gained through the senses, our first teachers. The open eye, the listening ear, the awakened mind are the results of the rich and varied experiences of the kindergarten. The technique of reading and writing, which belongs to a later stage of development, is of small value without the informing mind."

In teaching a child to write, the following processes are involved:

- Holding and directing the pencil.
- Observing the copy.
- Reproducing the copy.

The kindergarten child has had much experience in using chalk and crayons so that he finds it easy to handle the large pencils used in writing. He has drawn pictures until it is second nature to set down the thing he sees.

He has a background for arithmetic, for the building materials and construction work give much experience with counting, simple combination of numbers, and measuring.

Enough has been said to show that the kindergarten does prepare for the work of the first grade, but this is not its fundamental purpose. Let us return to that in closing. Character is the jewel of great price and is largely the result of this great habit forming period of the child's growth. "Character is a plant of slow growth and the seeds must be planted early." Each period lived fully and richly is the best possible preparation for future years.

(Editor's note: The above article is from the pen of Miss Edna Haines of W. T. S. T. C. Miss Haines speaks from a large fund of knowledge and training, and wide experience in kindergarten work.)

The oldest shoe factory in the country has gone out of business. Since 1762 the shop founded by James Benedict has continued under ownership of his descendants to produce the celebrated New Canaan handmade shoe, which for a century enjoyed the largest sale of any factory footwear. It is said that the competition of machinery which the House of Benedict refused to install, is responsible for the factory being closed.

It is reported that, on arriving at Berlin, Douglas Fairbanks and Mary Pickford were practically ignored by the public. We understand that the film stars are rather surprised at being treated like mere exiled monarchs or members of an Allied Commission—Punch.

A turquoise, regarded by collectors as the largest and most perfect in the world, has recently been presented to the Field Museum in Chicago by Hohannes Topakyan, grand vizor of Persia. The stone, which weighs about 400 carats, was an heirloom in his family and its history has crossed the lives of shahs and beys for generations.

An unknown airplane pilot dropped a note over Talladega, Alabama, recently, stating that there was a "fire near railroad station." An alarm was turned in and the fire in an unoccupied frame dwelling was put out without much damage because of the timely warning.

Eventually the Germans will succeed in borrowing from the world what they started out to take from it.—Columbia Record.

Announcement

I wish to state to the public that I have leased the Vetesk Market & Grocery to Wilford Taylor and Pat Robinson, who took charge of the business September 1st. I am retiring from the business for the present. The business will be carried on along the same lines as when I was in charge, and the stock will carry the same lines as usual.

I take this opportunity of thanking the people of this community for the volume of business you have given me during the sixteen years I have been in your city and trust that our relationship has been cordial and profitable to you.

I trust that you will continue to give Messrs. Taylor and Robinson your business as they understand the business thoroughly and will accord you every possible accommodation in order to fully merit a continuation of your trade with this market.

J. M. Vetesk

Campbell Notes

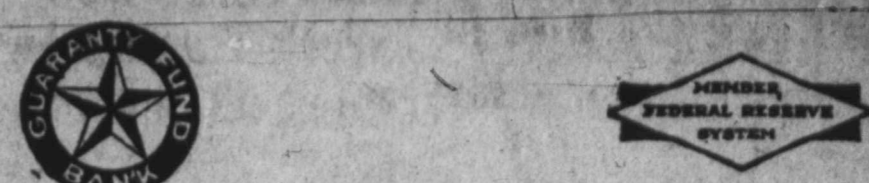

Bro. Dowell held a two weeks Baptist meeting at the Campbell School House, the meeting closing last Sunday morning. Had a good meeting, quite a few conversions; eleven joined the church, and were baptised Sunday afternoon. Bro. Dowell was assisted in the meeting by his son, Ernest. M. J. Bellamy and family of Chillicothe visited the Covingtons and relatives last week. Miss Marjorie Gordon-Cummings is attending institute at Lubbock this week. C. J. Williams is teaching a singing school at the Campbell School House. Dale Burrus and family of Clay county are visiting with A. J. Burrus and family. Both families visited Jean Zachary's Monday. O. S. Brown and family and G. R. Stratton and family motored to Amarillo Thursday. A strange feature of the grade-crossing situation is that the railroad companies seem bent upon keeping us all from being killed while we all don't seem to mind whether we are or not.—Columbus Ohio State Journal. Who ever supposed that the manufacture of hairpins would be classed among the non-essential industries?—Cleveland Times and Commercial. Heaven is the place reserved by man for the eternal felicity of those who agree with him in matters of religion and morals.—Columbia Record. The new Immigration Act has just come into force in America, and English lecturers can now only enter the country in half-gross lots.—Punch.

Preparations for the Fall Session Are Nearing Completion

That the approaching long session will be a very great year is the confident expectation of students and College instructors. The College has expanded its various departments to meet an increased enrollment. Attempts will be made to start the student activities at the very beginning, and every student will be urged to take part in some extra-curricula activity. The students and ex-students have entered heartily into the arrangements for the coming long session. Many of last term's students and a great many former students have been taking summer work and will stay for the fall session. Letters are arriving daily in great numbers in the offices of the president and registrar; every indication is that the next enrollment will considerably exceed prior records. Both dormitories and a great many of the larger boarding houses are reserved already.

Wayside Items

We hope every one has plenty of moisture. Hot sunshine for growing crops would be much appreciated. Much land is being turned for another wheat crop. In the absence of regular Supt. at Sunday School, H. H. Gillham led last Sunday. Very good attendance. Miss Willie Mae Serris of Lakeview Arizona, is visiting her uncle, J. R. Stockett, on her way to Altus, Okla., to attend school in a few days. Parts of three families of McGehee's visited Canyon relatives last Sunday. Mrs. Ida Sluder accompanied them to visit mother McGehee. All returned Sunday night. Mr. and Mrs. R. L. Grigsby left Saturday for Abernathy where they will teach school. J. R. Stockett, wife and Roy accompanied them, returning Sunday p. m. Mr. and Mrs. Brown and Miss Ulha Strawn moved in the Gillham house Saturday p. m. Our teachers for the coming term. A goodly number of Waysiders met a few of the Park Board Friday a. m. in the Happy Park. We were very much. D. L. Adams' nice peaches and tin of Dallas, our own Mrs. Phebe K. Warner of Claude, Mr. Hobart Key of Marshall and M. V. Prather of Kentucky. They were tendered a bountiful dinner, which all enjoyed very much. D. L. Adams' nice peaches and grapes were much appreciated. Time was limited, but the board was well pleased with what they saw. Miss Vada Bussell came Friday and is visiting with Misses Lorine and Bernice McGehee. Miss Ruby Lee McGehee left Sunday night for Nogalis, Arizona, where she will teach school. She joined a party at Plainview, from there they proceeded by-car route. W. C. McGehee and wife made a business trip to Amarillo Tuesday. W. H. Hamblen accompanied them. Born to Embury Wesley and wife, Sept. 1, a big boy. Mother and babe are getting along very well. Mrs. Ethel Bourland and two children are visiting with her parents, Mr. and Mrs. Chales Heisler, near Beverly. Mrs. Bourland has been in poor health for a long time. Some improved. Among the first records of paper-making in the American colonies was that of Leffingwell, of Connecticut, in 1768.

DREAMS COME TRUE WHEN THEY ARE PLANTED IN THE SENSITIVE SOIL OF LIFE

Life is a series of planting, and whatever you may be planting now will take root and grow. Ambitious people are sowing all the time. Planning ahead is planting. Are you preparing for later requirements? A growing bank account is essential for your future security. The real step forward is when you open an account with us and start to build a competence for the future.

PIMPLES

How to get rid of them.

WHY ENVY a clear, lovable complexion? Why wish and hope? It is within your reach! There is always one quick and safe way to make your complexion free from all eruptions, pimples, blackheads, boils and that impossible muddiness. That is by building up your red-blood-cells. S.S.S. will do it for you! Because S.S.S. does build red-blood-cells, it cleanses the system and makes those so-called skin disorders impossible to exist. S.S.S. contains only pure vegetable medicinal ingredients. It is also a remarkable builder of firm flesh, which is also important to beauty. It will fill out your hollow cheeks, put the "ruby" of health in your cheeks and the sparkle in your eyes. Since 1826 S.S.S. has been beautifying complexions and giving women physical charm. This is why S.S.S. is accepted as the greatest of all blood cleansers and body builders. Begin taking S.S.S. today and give yourself what you have been looking for, for years.

Deeds Filed This Week Transferring Randall County Land

The following deeds as furnished the News by the Randall County Abstract Company, have been recorded in the County Clerk's office.

- Henry Beckman to Anton Beckman, survey 110 block B-5, consideration \$11,320.
- L. G. Allen to M. Moss Richardson, lot 4 block 37 Canyon City, consideration \$1000.
- W. Ferguson to W. H. Richardson, north half and sw fourth survey 2 block Z, consideration \$10.
- R. C. O'Keefe to F. B. Hill, lot 12 block 12 Conner addition to Canyon, consideration \$125.
- L. F. Shetty to David H. Munson, lot 12 and east 5 feet lot 11 block 1 Normal addition, consideration \$4700.
- L. S. Baker to David H. Munson, east 10 feet of west 45 feet lot 11 block 1 Normal addition, consideration \$10.
- J. T. Burnett to R. R. Burnett, lot 8 block 68, Canyon City, consideration \$1225.
- G. M. Simms to Louise M. Simms, south half section 43 block B-5, consideration \$1.
- T. I. Poor to Joe Morris lot 4 and east half 5 block 58 Canyon City, consideration \$230.
- W. D. Smith et al to G. G. Foster lot 3 block 22, consideration \$80.
- Mrs. Edna Moore to Mrs. W. B. McBrayer lot 11 and east half 12 block 2 Ballard addition, consideration \$3675.
- Dan K. Usery to Mrs. Edna Moore, lot 3 block 55 Canyon City, consideration \$3000.
- Charles A. Fisk to Lon D. Marrs, 10 1/2 acres section 184 block Z, consideration \$1.
- Dussie O'Keefe to Mary E. Hudspeth Hall lot 8 and west 40 feet lot 7 block 12 Conner addition, consideration \$900.

IT'S YOUR HOME TOWN.

Mrs. Doctor, Mrs. Hardware Merchant, Mrs. Groceryman, Mrs. Banker—suppose everybody in town went to the city to buy medicine, stoves, gold fillings, beans, or make bank deposits; your husbands would starve to death. Each time that you go to a city to spend money that your husband earned in your home town you are parking the wolf on the front veranda of a local business man who could have supplied your needs. It's a practice which keeps the small town small and makes the large cities larger.

We hear you say, "That's true, but Mr. Local Merchant doesn't offer the things I want." No and Mr. Merchant never will if he can't sell them. If you demand the things you want he will have them or he'll be glad to get them for you, but if you remove the demand to some city the local merchant can't afford to stock the things you want.

The old adage of throwing stones at the glass houses might apply to your case if you'll analyze it.—Plainview Herald.

And the same thing is true of the business man who sends printing out of town. Chances are that all of the printing handed out to printing peddlers, who spend nothing in Canyon but a little time, could be handled in Canyon, and whatever profit made re-invested in Canyon to make the local merchant's business worth more and the whole town better.

The Shuberts have canceled their plans to produce revues, and buy or build theaters in Germany. Many newspapers published warnings to actors and chorus girls that the Shuberts mistreated actresses, paid badly, did not pay for rehearsal time, and generally did not deal with artists as European managers. It is said, several newspapers are said to have invited the Shuberts to remain away.

A San Antonio, Texas, man pays \$60 a year for a safety deposit box in a bank in which he keeps a rusty old horseshoe.

This Week

By Arthur Brisbane

BULL MARKETS. FUTURE TRANSPORTATION. THE DAWES PLAN. OF WHAT WOULD YOU THINK?

"Wheat prices jump in wild bull market."
That headline was predicted in this column a long time ago. You read it yesterday and you will read more like it.

"May wheat" sells above \$1.40 in Chicago. One dollar and fifty cent wheat isn't far off. And that is not bad news for Calvin Coolidge.

As for corn, its high price means wealth for farmers lucky enough to raise any, and high cost for the meat that is fed on it.

Steel common above 110, corn worth more than \$1 a bushel on the farm, twenty cents more than that in Chicago; wheat for delivery next May selling at \$1.40, stocks crawling up so that brokers, afraid to buy, rub their eyes saying to themselves "It can't be real." **SOMEBODY** thinks were is a boom coming.

Lieutenant Donald Phillips flew 1,300 miles from Texas to Ohio. You may say, "That's nothing, everybody does it." But notice the size of his flying machine, called "Alouette," spread of wings 18 feet, total weight including motor, 480 pounds.

That machine does 20 miles on a gallon of gas, goes 105 miles an hour, and could take a traveling man from New York to Chicago in 9 hours across the continent in 30 hours. "Alouette" could be stored on an "upper shelf" of a garage, the earth car below, flying car above.

Best width will be cut from the wings, weight taken from the engine, speed more than doubled. And the individual transportation problem will be solved.

The Dawes plan will have its trial and the world will see what happens.

Germany gets four years to prepare big reparation payments expected to amount to \$650,000,000 annually.

We thought it pretty big when we built the Panama Canal in several years. Germany will pay those that conquered her enough to build three Panama Canals every year, if this plan goes through.

What books would you take to a desert island?

What would you do if you knew you had only one more year to live?

What would you do if you had twenty million dollars? Helen Stein, intelligent young secretary of last Nathan Straus, replied to that last question, "I'd go crazy."

Those are old questions. Here is a new one, based on the experience of three Italian mountain climbers, that, held by a rope, hung for five hours over a mountain precipice, waiting to be saved.

What would you THINK about hanging for five hours below the edge of a precipice? Would you review your sins and mistakes, vowing better conduct, if spared, or would you just HANG OVER THE PRECIPICE?

We are all hanging over the edge of one steep precipice, called death. A great majority of us "just hang" and think about it very little.

What story of loneliness, despair and, perhaps, jealousy, lies back of a dreadful murder and attempted suicide reported from Lindsey, Ontario? A mother twenty-eight years old, in her husband's absence, erected an improvised gallows, on which she hanged her two children aged seven and eight. She then cut her throat, and was found bleeding to death by her own husband when he returned to their lonely, isolated farm, from "a visit to the city."

Afer she had hanged the children, the mother dressed them in their best clothes and laid them out. Then she cut her throat. She may get well. The woman said nothing but "they are dead," when her husband questioned her.

Reading about that may by comparison comfort some who think they have serious troubles.

CORRESPONDENCE BULLETIN IS READY FOR DISTRIBUTION

A shipment of correspondence bulletins published by the Bureau of Public Service of the College have been received from the printer and are being mailed to prospective students. The bulletin contains detailed information about the correspondence work and gives an outline of many new courses.

Copies of the bulletin may be obtained by writing to Mrs. T. V. Reeves, Director, Public Service Bureau, Canyon, Texas.

Only one hundred of the four hundred twenty-five miles of railroad which would carry the products of the great northwestern grain-fields of Canada to salt water at Hudson Bay remains to be finished. However, due to the fact that it will cost approximately \$22,500,000 to complete the railway, erect terminals and dredge the channel, it is doubtful if the work will be finished.

The automobile industry uses fifty-four per cent of the upholstery leather supply of this country.

DOES YOUR BACK ACHE?

Bad Backs Bring Suffering to Many Canyon Folks.

Is that dull, constant backache making you old and miserable? Does your back throb and ache until it seems you just can't keep going? Do you suffer headaches, dizzy spells and urinary disorders; feel weak, tired and worn-out? Then look to your kidneys. Delay may mean serious kidney sickness! Use Doan's Pills—a stimulant diuretic to the kidneys. Doan's are recommended by Canyon folks.

R. E. Hileman, prop. bicycle and gun repair shop, 1402-8th Avenue, Canyon, says: "My kidneys were weak and acted too freely, especially at night when I had to get up several times. When I stopped, sharp, cutting pains took me in the small of my back. Headaches and dizzy spells were also very annoying. I felt tired and worn out. I began to take Doan's Pills, which I bought at the Jarrett Drug Store and they cured me. I have had no return of the trouble since."

BUILD NOW!

LUMBER

Your Home!

Down through the ages the constant use of wood has proven it to be the best material for home-building. A lumber-built home with wood floors, wood mantles, staircase, window-frames and doors brings kindly memories to most of us because it was in such a home that we were born and raised. Lumber gives that "homey" atmosphere that all other materials lack. Use lumber to build your home. Lumber gives greater home comfort at more reasonable cost. Let us help you in planning and financing your home.

Texas Needs Better Trained High School Teachers Says Works

Texas must have better trained high school teachers, says Dr. George A. Works, director of the Texas School Survey. In the first of the reports on the finding of the survey, the director suggests that legislation be set in motion to require high school teachers of academic subjects to have college degrees.

This could be accomplished gradually according to the recommendation, which asks that the percentage of members of the staff teaching academic subjects in any high school who do not hold college degrees shall not exceed 20% in 1925; 15% in 1926; 10% in 1927; 5% in 1928; and that thereafter no certificates to teach academic subjects in a high school be granted to anyone without a college degree.

Small city high schools show a low rating in number of teachers with degrees, according to the statistics submitted. The larger cities where better salaries are paid, claim most of the degree teachers.

Algebra is receiving undue stress in Texas schools, says another section of the report of Dr. Works. He points out that more students study Algebra than study all sciences put together, and he condemns this condition and urges a change be made. The present status is accredited to the influence of the University of Texas, since it requires a large amount of mathematics in its own curriculum.

The natural sciences—chemistry, botany, physics, physiology and hygiene, geography and nature studies—are of equal value in mental discipline, and of more practical value than algebra, says Dr. Works.

In English the survey finds that formal phases are emphasized to the loss of practical application, and that grammar and composition receive too much attention in comparison with American and English literature. Spanish and Latin receive more attention than literature in the English languages.

Ancient and medieval history are over stressed in Texas, to the great loss of modern and American and Texas history and civics. This should be reversed, according to the recommendations of the report.

Crops and market reports sent out by radio from Washington have in many instances been the means of farmers literally picking dollars out of the air. Also use of the air-mail in dispatching crop reports to the Department of Agriculture at Washington will be a tremendous advantage to agriculture and industry and means not only a great saving of time, but a shortening of the period between the receipt of the reports and the date of their release at Washington.

More than eighty-five per cent of the United State's corn crop is fed to livestock and somewhat less than ten per cent is used for human food. The hog is the largest consumer of corn, forty per cent being fed to swine on farms. Horses and cattle are next in order.

Bobbed hair has ruined the hair-net industry in China. With the cutting of the queues after the revolution of 1911 there was placed on the market in China enormous quantities of human hair which led to the development of the hair-net industry.

Eight and one-half per cent of the landowners in fifteen corn and wheat producing states in the upper Mississippi Valley lost their farms in 1923. The average price of plow land fell from \$70 an acre in 1917 to \$22 in 1923.

The brain of an ant is about the size of the head of a darning needle. These insects live from eight to ten years as a general rule, although specimens in captivity have been known to reach the age of fifteen.

A drove of "floating islands" was recently encountered by a steamer off the coast of Borneo. The largest was about seven acres in area, and contained palm trees more than a hundred feet high.

Washington—Mrs. Stan Harding, British journalist, who was kept in a Soviet prison, in 1920, on charges of espionage brought by Mrs. Marguerite Harrison, an American. English statesmen now demand reparation for Mrs. Harding's incarceration.

London—Maj. Gen. Sir Lee Stack, British commander in the Sudan, has asked for reinforcements to maintain order at Athara, where the British garrison was fired upon by native troops. Gen. Stack's photo is shown above.

DEFENSE DAY.

Sure we'll fire the policemen and the sheriffs, and the constables because we don't want any more violation of the law and no more crime. Sure we'll dismiss the firemen and abandon the school fire drills because we don't want any more fires. Sure we'll disband all military and naval forces because we don't want any more war.

In 1920 Presidents Wilson and Harding both agreed that universal peace was the one thing "devoutly to be wished" but in their wisdom, gained through the more intimate knowledge of the world affairs they felt it best to minimize, not to abandon a program which would stimulate peace through a limited preparedness for protection.

The Defense Day Act of 1920 was not objected to at the time of its passage but now that its operation gives jingo politicians of all parties another pole with which to push their shaky rafts further toward shore there is a hue and cry that National Defense Day is but the encouraging element and forerunner of all sorts of boding dangers.

Let us look at the thing sensibly and forget the exhortations of the politicians. Plainview Herald.

On September 17, 1923, a crippled German immigrant, his wife and two children landed in New York where they were immediately sent to Canby, Minnesota, to relatives. On July 21, 1924, this immigrant farmer out of his wages as a farm hand, had paid the \$450 borrowed from his brother for passage expenses. He owns four hundred dollars' worth of live stock and has \$100 in cash. He has rented a quarter section of land in Frontier Township and will start farming for himself March 1, 1925.

Ice cream was introduced into this country by a Philadelphia caterer named Bosio in 1800, but it did not become popular until Mrs. Dolly Madison, as mistress of the White House, had it served at state dinners over which she presided in 1817. Since that time consumption of this delicacy has risen until now an average of 2.96 gallons of ice cream are made annually for each inhabitant of the country.

The journal of Columbus during his first voyage to America, discovered in Madrid in 1820 and buried until recently in archives of learned societies, has recently come to light and been translated into English.

John W. Davis is a Presbyterian, but attends the Protestant Episcopal church with his wife, who is an Episcopal communicant.

I reckon the picnic season is the finest time that there is—to set the red blood 'rippin' and to make our emotions whizz. O, it's then we can slip the halter off—an' get up an' shake ourselves, an' feel like a hundred an' one per cent!

As soon as the picnic season's on—an' the styles begin to advance—it's proper to think of the custard pie, when selectin' yer sun-kist pants. And, the hard-biled egg—an' the peanut-salve, which is staple as alfalf hay—They're items to be provided fer, on the eve of the picnic day...

Of course there's handicaps lurkin' around, as there allers will be, I guess...The chigger deploys his sub-mareen band, in the depths of the pic-nic dress...An' I ain't complained, you understand, of the trysts in the coolin' shade—but, the thing that's quickest to call my hand, is—red ants in the lemonade!

The burial grounds of China have always been held sacred, not to be disturbed under any circumstances. The result is that one-twentieth of the country is now occupied by graves. The problem is assuming serious proportions.

Brewery workers have decreased from 45,000 to 16,000 in the United States.

An Inca mummy, believed to be about 2,000 years old, has been discovered near Arica in Chile by Max Uhle, an archeologist.

It's Economy to Trade Your Old Tires For

FIRESTONE

BALLOON GUM-DIPPED CORDS

BECAUSE Balloon Gum-Dipped Cords reduce your repair bills and lower fuel costs, increase tire mileage, car life and the resale value of your car.

These are strong statements but are backed by actual facts. Balloon-equipped test cars and taxicabs have now been driven over 5,300,000 miles, under Firestone supervision and show reduction in fuel consumption, and less delay, because of fewer punctures and quicker starts and stops.

Many leading automobile makers have standardized on these full-size Balloons—pioneered by Firestone and made practical and economical through the special Firestone gum-dipping process.

Over 100,000 motorists are today using and enjoying the satisfaction of genuine, full-size Balloon Gum-Dipped Cords. In fact, in three months the sales of Firestone Balloon Gum-Dipped Cords increased 590%.

Have your car equipped now—for comfort and for the safety of driving this Fall and Winter. Be prepared for mud holes, frozen ruts, dangerous snow and ice. We can equip your car immediately at the new low prices now in effect.

IT PAYS TO USE GOOD SEED WHEAT

By H. M. Bainer, Director, The Southwestern Wheat Improvement Association.

Even though Kansas, Nebraska, Oklahoma and Texas have just harvested a big wheat crop, good authority has conservatively estimated that, through the use of better seed alone, the total yield could easily have been increased 25,000,000 bushels. This is equivalent to an additional profit of \$25,000,000, as good seed costs very little more than ordinary seed. In fact, if better seed had been sown, thereby improving the quality of the crop and eliminating smut, rye and mixtures, the increase in value would easily have been twice this amount.

Mr. A. H. Leidigh, agronomist of the Texas Experiment Station, says: "Through the use of superior varieties of seed wheat in Northwest Texas, during recent years, large increases in yields have been secured. Had this kind of seed been uniformly sown last fall, in the place of a lot of country-run mixtures, the profits to Panhandle farmers this year would have been increased thousands upon thousands of dollars.

"Central-North Texas is known by the mixed wheat it grows; pure seed is almost unknown. The Texas Agricultural Experiment Station has repeatedly tested the mixtures grown, as well as graded versus ungraded seed, and has found that the yield can be greatly improved through pure seed. The Station is ready to recommend and help locate seed of certain pure wheats for sowing in this part of the state."

Country-run seed can be greatly improved by cleaning.

ACTUAL RESULTS FROM GOOD SEED.

In Kansas (From 6 1/2 to 12 bushels gain.) County Agent Roy E. Gwin, of Columbus, writes: "Last fall, Mr. W. H. Shafter sowed part of his field with a pure variety of wheat which gave him an average yield of 31 bushels per acre, while the balance of the field sown with ordinary seed yielded 21 bushels per acre." Mr. G. L. Bainer, a well known farmer of Scott County, reports a gain of 5 1/2 bushels per acre in favor of good seed. Still another farmer from Pratt County reports 23 bushels an acre from good seed, while his neighbor sowed "just wheat" and harvested 11 bushels an acre.

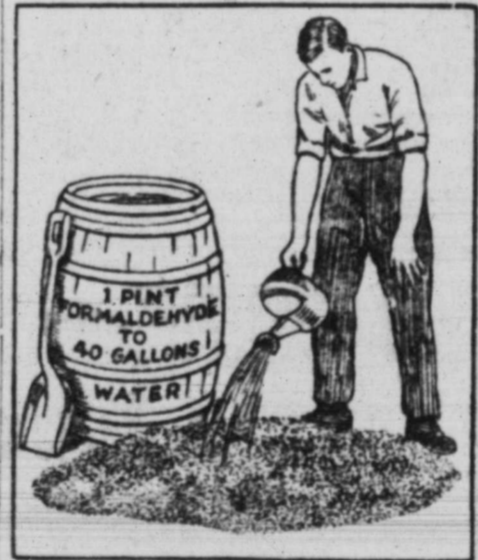

down one grade or more on account of rye. On this basis, the wheat delivered in Kansas City from July 1, 1923, to April 30, 1924, would have included over 1,300,000 bushels mixed with enough rye to lower the quality from one to two grades, representing a loss of approximately \$50,000 on this one market in less than one season.

Mixed Seed.

There may be one predominating variety in mixed seed suitable for local conditions, but it is out of the question to assume that a mixture of two or more varieties is uniformly desirable. Crops from this kind of seed do not ripen evenly, and when sold, grade as "mixed," with considerable reduction in price.

The dry method—applying copper carbonate for smut.

The wet method—applying formaldehyde for smut.

In Nebraska (A gain of 9 bushels.) County Agent C. E. Young, of Dakota City, says: "I furnished seven farmers with good, pure seed wheat, which outyielded the wheat from the common seed of the county by 9 bushels per acre."

In Oklahoma (A gain of 3 bushels.) A report from County Agent Tom M. Marks, of Ellis County, says: "During the past three years, I have kept an accurate record of the yields of twenty fields of wheat sown with good seed of adapted varieties in comparison with the yields from fields sown with the common varieties. All fields were handled alike, so far as preparation, date of sowing and quality of soil were concerned. The three-year average showed an increase of almost three bushels per acre in favor of the adapted varieties."

In Texas (A gain of 7 bushels.) Our last year's records show that eight Panhandle farmers sowed a total of 968 acres of wheat; they made an average yield of 17 bushels per acre on 460 acres, sown with good seed, and 10 bushels per acre on 508 acres, sown with country-run seed.

Sow Clean Seed at Least.

Even though country-run seed may lack purity, it can be greatly improved by cleaning and grading. Good authority states that 20 per cent of the wheat sown in the Southwest consists of cracked, immature or injured kernels that will not grow. The feeding value of these kernels, which are useless as seed, will pay the expense of running the seed through a fanning mill. It is generally known that the best wheat farmers, who reclean their seed and sow only the purest, obtain yields of at least 3 to 5 bushels more than the country average.

Avoid Rye.

The presence of rye in wheat cuts down the grade as well as the price. It darkens the flour and produces a heavy bread. Five per cent of rye in choice milling wheat will reduce the price from 3 to 5 cents a bushel. Over 2 1/2 per cent of the Hard Winter wheat coming into Kansas City during 1919, 1920 and 1921 graded

Jarrett Elected Trustee Bus Drivers are Named for the Public Schools

At the meeting of the board of trustees of the Canyon Independent School District Monday night, R. P. Jarrett was elected trustee, taking the place of F. E. Savage, who will be away for the coming year. Mr. Jarrett was a member of the board for nearly two years and his services were highly profitable to the district.

Jim Webb and John Schramm were elected bus drivers for the two school busses for the coming year. Mr. Webb has been principal of the high school for the past two years, but will study for his degree in the College the coming year. Mr. Schramm lives south of the city.

The routes of the school busses will be the same as last year, according to the decision of the board Monday night.

The First State Bank of Canyon was named depository for the district for the coming year.

Boat divers in the Philippine Islands have gone on strike because of the hunger of the sharks. Schools of small fish have been dynamited to provide meals for the sharks which have become ferocious, surrounding boats on all sides and flopping several feet in the air.

A Canadian explorer recently left Edmonton, Alberta, in company with two others for the purpose of taking photographs of the caribou migration across the barrens. This explorer has received permission to bring out a pair of wild muskox if possible.

The narrowest street in the United States is believed to be in St. Augustine, Florida, the first permanent settlement in the United States. This is Treasury street, measuring only seven feet in width. It was laid out by the Spanish in 1585.

Next to the Bible, "Pilgrim's Progress" has been translated into more languages than any other book. The number now exceeds 107 languages and dialects.

Mail bags are now picked up by airplanes in full flight by means of a hook which seizes a rope to which the bags are attached.

Beauty is but one of the many advantages of Genuine Gold Seal Congoleum. Easy to clean and sanitary. It makes housework easy. It is comfortable to walk on and is noiseless for the home. It costs less than any other floor material. See our stock of patterns.

Mackerel Fishing Is too Ethical to Great Extent, Mayor Finds

"The ethics of mackerel fishing—they aint."

This is what Mayor Claude N. Harrison learned on a vacation fishing trip to Corpus Christi, from which he returned Tuesday night after a two weeks absence.

"When a fisherman catches a mackerel out on Corpus bay," the mayor explained, "everybody leaves his own fishing ground and rushes to the successful one. The reason is that mackerel go in schools, and you might as well fish in an oil well as away from the school."

Accompanied by Wallace R. Clark, head of Music Department of the College, the Mayor spent his holidays on the bay and in visiting the various points of interest in the vicinity, Port Aransas, Aransas Pass, Flour Bluff and the neighboring islands. They also went beyond the three-mile limit, but without notable success. They did not stay in the town itself, but on the mainland. The once-famous North Beach, devastated by flood, Mr. Harrison reports, has not been rebuilt. Harbor improvement, however, is being undertaken. Mr. Clark and T. V. Reeves were in the terrific storm that devastated Corpus a few years ago.

During their stay the Canyon men caught about 300 pounds of fish. The mayor caught two 15-pound kingfish and they also caught a 40-pound drum, selling it for 50 cents, this species not being held in much esteem on the Gulf.

"We were very much edified," says Mr. Harrison, "at a close-up of what I call 'fishing de luxe.' There was a fellow out in a boat, dressed within an inch of his life and wearing a pith helmet. A flunky, very attentive, arranged the bait and cast the hook, then handed the rod to his Nibs to reel in. The assistant also played the boat whenever a strike was made. I suppose he also did the cussing when one got away, along with the other minor jobs."

"There was a fellow out in a skiff he had rigged up with a Ford motor. We had a regular marine engine in our boat, but he Cadillac away from us."

The party also were given a lesson

in the ancient profession of "making the other fellow do the work," a new wrinkle in it, in fact. This was when they hired a boat from a fishing concern, the company stipulating that all mackerel caught beyond 50 pounds were to go to the boat owners. "Kind of like fishing on shares, said the Mayor, "but we fooled them. We caught enough for ourselves and quit."

SHOWER GIVEN.

A number of school chums of Mr. and Mrs. J. L. Ward gave them a shower last night. The newly weds were not expecting the young people from town until the latter part of the week, and were really surprised, when several cars drove up to the home of Mr. and Mrs. W. B. Campbell and the jolly crowd hopped out.

Several hours were spent in joyment, after which cake and iced lemonade were served. Leaving the happy couple to look over the many beautiful gifts which were given them during the evening, the jolly party returned to their homes in town.

ANOTHER FREAK EGG.

B. T. Johnson added another freak egg to the News collection yesterday, this one being only 3 inches in circumference the small way and over 6 inches the long way. It looks more like a bullet than an egg. Mr. Johnson states that it is the first one of its kind he has ever seen.

Mr. Johnson also brought in a very fine sample of pear. He states that there were fully twelve bushels on one tree.

STORY HOUR PICNIC.

The Story Hour closed Friday afternoon with a picnic. Sixty-six children listened to the wonderful stories told by Miss Elva Fronabarger, after which they formed a circle with their chairs, and were served sandwiches, while Mesdames Arnold, Black, Cash Greenfield, Harrison and Harter filled their cups with ice lemonade.

CARD OF THANKS.

We wish to express to our many friends our sincere appreciation of the many loving acts of kindness and expressions of sympathy extended to us during our recent bereavement, and also for the beautiful floral offerings.

MRS. T. R. R. ATKINS, AND CHILDREN.

The only universal language that seems to have much success is a wink.

T. R. R. Atkins Died Suddenly in Amarillo Hospital Sunday a. m.

The city was greatly shocked Sunday morning to hear of sudden death of T. R. R. Atkins, furniture dealer in this city, who died Sunday morning at 9:10 in an Amarillo hospital where he had been taken at 6:30 that morning. Mr. Atkins was about his place of business Saturday and seemingly was as well as usual. At 2:30 Saturday afternoon he was taken ill and steadily grew worse through the afternoon and night. It was decided to take him to the hospital with view of an operation. When he reached Amarillo physicians advised that his condition was too serious and within two hours after reaching that city, Mr. Atkins passed away.

An autopsy showed death to have resulted from an ulcer of the stomach. Mr. Atkins had been suffering for years from stomach trouble and the autopsy showed a most serious condition of that organ. Only his close friends ever realized that Mr. Atkins had been a constant sufferer for many years and had been under treatment for some time. To those who knew him only casually Mr. Atkins seemed to be a man of splendid health.

The funeral services were held at the Baptist Church Tuesday afternoon, conducted by Rev. Lyn Claybrook, the pastor. Mr. Atkins has long been a member of this church and has been an official in the local congregation since coming to Canyon.

T. R. R. Atkins was born in Mississippi on February 24, 1866. He was married to Miss Josie London in Denton 27 years ago. They came to the Plains twenty years ago when land was selling at a dollar per acre and settled on a farm 7 miles southwest of Wildorado. They lived there until about twelve years ago when he moved to Canyon and he engaged in the mercantile business.

Mr. Atkins leaves his wife, three sons Earnest, Burleson and Jasper, and one daughter, Miss Lillian. Earnest is a student in John Hopkins, Baltimore, and will soon receive his Ph. D. degree. Miss Lillian was at Estes Park, Colo., when her father died.

A large circle of friends extend heart-felt sympathy to the bereaved wife and children in their great sadness.

The following were here from out of town to attend the funeral.

W. B. Atkins of Lubbock, Mrs. J. F. Witt of Shamrock, Mrs. E. G. McComas of Sarah, Okla., Mrs. A. S. Smith, Misses Lottie, Bonnie and Margaret Witt, Mrs. Bryan and Mrs. H. P. Blake all of Amarillo, and Buck Nelson of McKinney.

FOOTBALL TRAINING CAMP TO OPEN SEPTEMBER TENTH

Head Coach S. D. Burton and Yearling Coach W. E. Lockhart will open the fall football training camp on September 10th. Fifty-five prospective grid stars will report at that time. Assistant Coaches Eckhardt and Jackson will arrive on September 15th.

That doubt expressed by some members of the party in the East about Charles W. Bryan being really a Democrat ought to be set at rest by his announcement that he does not intend to permit his candidacy for the Vice-Presidency to force him to resign as Governor of Nebraska.—Columbus Dispatch.

The state prohibition director of Louisiana has suggested to the Louisiana State Boy Scout Commissioner that his organization aid the cause of prohibition by acting as informants.

The grade-crossings seem to be abolishing the people faster than the people are abolishing the grade-crossing.—Montague in the New York Herald Tribune.

PHONE THE NEWS.
The Randall County News is very anxious to get all of the news of Randall county. Much valuable news is liable to escape if you do not assist us a little. We will appreciate it very much if you will phone us all of the news during 1924. This would mean a better newspaper and a more valuable newspaper for Canyon and Randall county.

THOUSAND TEACHERS ARE ATTENDING THE INSTITUTE

(Continued from first page) of that state. He later went to the George Peabody College for Teachers, where he took his M. A. and Ph. D. degrees. He was then for several years Professor of Educational Administration in the University of Vermont. He now teaches the same work in Peabody College.

In the state of Tennessee Shelton Phelps is recognized as an outstanding leader in education. He is president of the state Association of Colleges and a member of the state Board of Education.

Dr. Phelps has charge of the instruction in the high school section, and in addition is scheduled for three lectures to the General Session.

Of the speakers at the Institute a very large number have been graduated from the Peabody institution at Nashville. Among them are Dr. S. C. Garrison and Prof. A. E. Phillips.

Dr. Garrison is now professor of Educational Psychology at George Peabody College. He took his first degree in Wake Forest College; his A. M. and Ph. D. degrees at the Nashville school where he now teaches. During the war he served in the personnel department of the army. He has had wide experience in institute work and brings messages of fundamental worth of teachers. He is in charge of the Intermediate Section and also speaks three times before the General Session.

Prof. A. E. Phillips is a native of Arkansas. He took his A. B. degree at the University of Nashville; his M. A. degree at George Peabody College. He has completed one year of graduate work toward his doctorate. He is instructor in the Rural School section of the Institute.

Prof. Phillips is now Professor of Education and Director of Teacher Training in the Louisiana Polytechnic Institute, Ruston, Louisiana. He is a leader in the training of teachers for the rural schools and is especially well equipped for that particular work. He has been chosen to speak several times to the Institute assemblies.

Jazz musicians who were recently ordered to leave France say they have nowhere to go. Sufferers in the audience have often told jazz-bands where to go, but they never seem to take any notice.—Punch.

This country once contained 822,000,000 acres of virgin forest. Now only 137,000,000 acres remain.

On the exact spot from which the Pilgrim Fathers took their departure from Immingham Creek in England, for Holland, in 1609, there has been set up and appropriately dedicated a memorial commemorating that event.

A new reform measure in Ireland restricts drinking to eleven hours a day. Somebody is always picking on the Irish.—Columbia Record.

MacLaren, the British aviator, was driven to earth by a fog. Perhaps he thought that he was back in London.—Asheville Times.

It will be a great day for peace when South Americans find a way to satisfy their craving for being generals without starting revolutions.—Portland Oregonian.

WANTED—To buy for cash, Row Binder. John Weyen. 214f

SIXTY and no regrets

Age should have its compensations. It should be free from all worries and responsibilities of younger years. There should be no financial worries—and there are none for the man who during producing years spent less than he earned and banked the difference. At any age, it is neither too soon—nor too late, to be moderate in all things—and happy.
