In 1896 80% of the qualified voters voted in the general election in November. In 1909, the percentage declined to 73%. In 1912 there was a further decline to 62%. In 1920 this country was governed by a vote of 49% of the qualified voters. There is something radically wrong when 51% percent of the qualified voters of this country refuse to go to the polls in the general election and assist in selecting a president. Texas voters may be charged with a greater percent of negligence, perhaps than most of the states owing to the fact that the nomination of the primary is looked upon to be equivalent to election. Texas voters should make up their minds right now, to have a record vote cast in the general election next month.

Walter Johnson honored himself by winning the last game of the World Series Friday, after he had twice been defeated by the Giants. There is no doubt as to the genuine feeling of satisfaction in the minds of all American lovers of clean sports to see a man of Walter Johnson's type win. He was the whole Washington team, because around his wonderful personality has been built a great team. His teammates are largely of his same, great personality, and evidently the Giants were pleased that since they were to be defeated in the World Series it was by as Walter Johnson and the Washington team.

Various kinds of schemes are going to be proposed in the coming session of the legislature to eliminate from politics the Klan. It is proposed that upon payment of the poll tax, the collector shall take a record of all pledges and fraternities to which the poll tax payer belongs. It is further stated that the poll tax payer shall swear as to whom he voted in the past election. From press reports it looks like some fellows are going to do their best to stir up a fight in the legislature, which will result in a lot of hard feelings, and delay action upon needed legislation. All that the legislature really should do with the election law is to wipe out the unjust party pledge, and establish a preferential primary instead of the elimination primary. The other provisions being suggested are absurd.

A striking cartoon pictures the movie star, the fight champion, the baseball champion and the wrestling champion carrying off millions of dollars for a few minutes work. The other side shows the world delivering genius a swift kick, and handing out meagre pitances to the college president, the preacher, the school teacher and the relief worker. The world has a funny way of rewarding its people. It is the one which can successfully create excitement that gets the money showered upon them. The rest of us work for what we get—but have a lot of fun in our work.

Sealed in its Purity Package

The Floydada Hesperian came out last week with a fine edition containing a lot of messages from the successful business men and farmers of that good county, giving their actual experiences since coming to the Plains. The edition was interesting reading to the people of the Plains, as well as to those who will receive the Hesperian at the Dallas Fair. The more you hear of the Plains, the more you like this section. And the people of Texas are getting more and more to realize that there is a big undeveloped fertile country on the Plains.

The new palace of the air, ZR-3 will arrive in America to take its place in the proposed air fleet which America needs very badly, and must have. Just why such a monstrous air ship is needed and what place it will take is yet to be revealed. But it is safe to prophecy that America is going to see great development of the air service within the coming ten years, and that this country will have a fleet of air machines to compete with the leading nations.

If you want to get real results from your advertising money, place the advertisement in the medium which the people read. The News goes into more than ninety percent of the homes of Randall county, and is there read by the subscribers. Advertising in the News is the cheapest medium any business firm can use to reach the buying public of Randall county.

Many talkative individuals have severely criticised President Coolidge on account of his silence at most time. It may be said to the credit of the President, that when he does talk he has something to say, which is more than most people can boast of.

The fear of La Follette is driving into the republican ranks many conservative democratic who believe that Davis has no chance to win. Davis and Coolidge are both acceptable to the conservative voters. The one which looks certain to be able to beat La Follette will draw the big conservative vote.

Floydada Hesperian: Women of the city of Canyon are thinking ahead in their plans to entertain the women of the Seventh District Federation of Clubs next spring. Canyon will be Tulip Town when the club women meet there. Six thousand tulip bulbs are being planted there this week. A big little thing. It shows, however, that the Canyon people are alive to the opportunities presented and are taking by the forelock in their preparations.

Dr. Butte is a well qualified man and a lot of democrats are going to bolt the ticket and vote for him. But he is probably as near the governor's mansion as he will ever be.

Every hunter who shoots a wild duck will be doing the farmers a very great favor. The ducks are destroying a great amount of fine feed.

A European critic says Americans don't know the art of conversation. He's probably right: It wouldn't occur to us to hold seventeen economic conferences to decide to go back to work. —Detroit News.

If this is history that the world is making now, we are almost persuaded to agree with Henry Ford that "history is bunk." —Columbia Record.

THE PASSING DAY

By Will H. Mayes, Department of Journalism, University of Texas.

The people of the United States have been vying with each other in the effort to show the Prince of Wales that we are pleased to have him visit this country, as indeed we are. The Prince is a nice sort of a visitor and a democratic kind of a fellow in spite of his inherited title. He knows himself agreeable in a truly American fashion and seems to be without that affectation that we have learned to expect in Englishmen generally. That being true, he must at times have a feeling of disgust at the propensity of the average American to bow down and worship royalty. Doubtless he would much prefer to be accepted for what he is rather than for his title, but Americans will not have it so.

In spite of our democratic ideals, we are not far enough removed from monarchical government to keep from toadying royalty and seem to delight in paying homage to those highest in authority. This is shown so often in the character of our entertainments. The most popular spectacular shows we have are our pageants depicting the crowning of a king and queen, with great royal processions of dukes and duchesses, ladies in waiting and attendants. In spite of the almost ludicrous mimicry of such affairs people turn out in great numbers to witness these processions of imitators of royalty, and the royal performers pay immense sums to bedeck themselves in what they regard as royal apparel. The spectacle would be amusing if it were not so pitiful.

We are too much disposed to truckle to those in authority. Every citizen is under obligation to support, and should delight in supporting, those to the affairs of government are entrusted but this does not carry with it even a suggestion that those in service are a while better personally than other citizens. It is interesting to watch the almost servile attention we give to a president or even a governor and then to see how quickly and how far he can drop from public sight as soon as his term of office expires, and that in spite of the fact that his service has in most cases made him a really greater man. A governor is a great man so long as he is governor; an ex-governor is merely a man who is down and out so far as the people are concerned.

A man is handicapped by what he has been unless he is constantly striving to go forward to greater things. He can't live on past achievements and hold that position in public esteem which those achievements won for him. The more he accomplishes the more the public expects and has a right to expect. The things done in the past indicate his capacity for greater undertakings, and unless he is willing to make the effort to carry on he soon finds himself losing his own grip as well as the confidence of his friends. On their part there comes a feeling that perhaps he has been over-estimated. There is no stopping place in life at which one can hold all that he has gained in the way of public favor.

Perhaps public favor should not be

Flying Atlantic

Capt. H. Flemming, Chief Pilot of the new U. S. Dirigible ZR-3, in its flight across the Atlantic ocean to deliver it here from Germany. In trial trips the great airship has successfully met all tests.

regarded as a test of one's worth to his fellow-men, yet it is about the only test by which he may be gauged. Certainly few persons may be accepted on their own evaluation; for that is either too high or too low. The public is the safest criterion of human values, even though it is too much disposed to give hero-worship to those temporarily in the lime-light and to forget those who are not constantly endeavoring to lift themselves by their own boot-straps.

Certainly if you are not in good favor in the community in which you live, and you can learn your own standing if you really want to know it, it behooves you to examine yourself to see just where the trouble lies and then to correct it. Every one owes it to himself and those about him to do his best to hold the favor of others. He is justified in having a pride in his community standing, but should take care not to develop a spirit of arrogance, a holler than thou, or better than thou attitude.

International finance is a fascinating thing. It consists mainly in borrowing money to repay money that has been borrowed to repay money previously borrowed.—San Diego (Cal.) Union.

In a new play a real meal of soup, fish and champagne is consumed in the stage. With all this passion for realism, perhaps some day they'll give us a real play.—Punch.

Speaking at Cricleth, Mr. Lloyd George said that he often used the Welsh language at the Versailles Peace Conference. That explains everything.—Punch.

First waistlines were to be lower; now announcement is made they are to be higher. In the interest of stability why not make the waistline immovable—like a flexible tariff?—Detroit News.

BUFFALOES AND EAGLES WIN IN FRIDAY'S GAMES

The Buffaloes annexed the second football scalp Friday, by running over the light Normal University team of Las Vegas. The score was 77 to 0. Coach Burton used practically every man in uniform, withdrawing the first string bunch early in the game.

The Normal University was hopelessly outclassed and out weighed, and from the kick-off no one was in doubt of the inevitable outcome. After the first half was over and the Buffaloes were leading 51 to nothing, over half of the crowd dispersed.

The never-say-die spirit of the 17 year old quarterback, Bell of Las Vegas, was typical of the fighting spirit of the New Mexico team. The team stayed in and fought to the last notwithstanding the fact that it was playing against such a superior team that they were able to make only two first downs while the Buffaloes were making thirty three.

Coach Burton played his entire string of men during the game and every man on the squad had a chance to show his wares to the coaching staff. The substitutes all played will and all-in-all the game helped the coaches see what some of the rookies could do under fire.

First Quarter.

In the initial quarter the Buffaloes started scoring by taking the ball from Las Vegas, once on a fumble which Cowboy recovered, and made two touchdowns by straight football. Herm kicked one goal and missed one. Bivens scored by running from the 18 yd line for a touchdown. Herm kicked goal. The Buffaloes scored next when Scott, who had just replaced Burk, broke through and ran 25 yards to cross the goal line. Bivens failed to kick goal. Brown kicked to Las Vegas but the wind prevented the ball from going ten feet away and a general scramble resulted. Mitchell, old "52", fell on the ball. And on the first play Burson broke through and went 35 yards for a touchdown. Herm failed to kick goal. The quarter ended with the ball on Las Vegas 35 yd line with the Buffs in possession.

Second Quarter.

At the beginning of the second quarter many new faces were appearing in

the Buffalo lineup. Burson and Bivens carried the ball down the field. Bivens took it across. Burson kicked goal. Gamble, a sub backfield man, ran 20 yards on the first play, he was aided greatly by splendid interference by Sadler, also a second string man. Scott, Burson, and Gamble carried the ball to the half yard line, Gamble carried it over. The extra point was made by a completed forward pass, Burson to Anderson. A series of line plays followed and then Gamble broke loose and went 45 yards for his second touchdown. Burson failed to kick goal.

Third Quarter.

Only two men started the second half who were regulars. They were Captain Burson and Brown, who would have been taken out in favor of Angel, had not the latter been ruled ineligible for registering too late. In this quarter, after Burson had punted, Las Vegas made a first down, and it instilled some fight into the boys, but they were dismayed a few minutes later when Burson intercepted a pass and went 45 yards for a touch down. Burson failed to kick goal. This quarter saw a series of plays that marched the Buffaloes down the field and Burson scored again running 45 yards. Burk kicked goal. The quarter ended with the ball on Las Vegas 9 yard line.

Fourth Quarter.

With 9 yards to go for a touchdown, a change was made in the backfield, a new man talked, and the Buffaloes were penalized 15 yards. A pass was incomplete. It was the fourth down. Las Vegas tried two line bucks, failed to gain, then passed gained 9 yards but failed by line plunge to make other yard. Bivens soon made a touchdown. Burson failed to kick goal. Just as Burson went over for a touchdown the whistle blew to end the game. Final score 77 to 0.

But, when Senator La Follette, taking the money from the rich and giving it to the poor, makes the rich poor and the poor rich, whom will he cuss out in the next campaign?—Columbia Record.

Most of us are opposed to child labor as well as other kinds.—Colorado Springs Gazette.

The Canyon High School Eagles won the first district championship game Friday afternoon over the Tulla High School team by a score of 7 to 0. Failing to take advantage of breaks cost the Eagles at least two more touchdowns.

It was a fast and clean game that brought the Canyon Eagles the first district victory Friday, and showed a team fighting equally as hard as it had fought against the Amarillo Sandies in the opening game of the season.

Jones, Mayben, Crain, Sanders, Hazlewood, Brown, Lowes, Christian, Greenfield, McCormick and Martin, captain, started the game for the Eagles. A number of substitutions were made, but no injuries sustained.

Tulla received the kick off and returned by a punt to the Eagles' 20-yard line. A steady march started down the field, and the fans were calling for a touchdown, when a fumble gave Tulla the ball. The Eagle line held like a stone wall, and Tulla was unable to gain. Kicked. Eagles unable to gain and kicked. Tulla lost 5 yards, and kicked. Trying to make a yard on the last down, the Eagles lost the ball on their own 30 yard line, and it looked bad. After two plays Tulla fumbled, and Canyon had the ball on her own 20 yard line. Canyon fumbled on the first play, and Tulla took the ball. Tulla tried all her stuff, but could not make a gain.

In the second quarter, the Eagles started another march, but fumbled in midfield. Tulla could not gain, and kicked. Eagles returned the kick. Punts again exchanged, when Tulla fumbled on her own 40 yard line, and in four plays the Eagles went over for the only score of the game.

The first half was fought very largely in the Eagle territory, but Tulla failed to make a first down. The second half was practically all in the Tulla territory, with the Eagles gaining ground on practically every play, but failing to put over a touchdown.

Tulla resorted to attempted forward passes, but none were completed. The Eagles completed four forward passes. Three place kicks were attempted by the Eagles, but none were good. At

one time the Eagles were within five yards of a touchdown, but failed to put over the necessary distance.

The game was one of the best the fans have witnessed this year.

It is too early to start the Democratic Blues—what looks now like organic trouble may turn out to be only a case of in-Digest-ion.—Norfolk Virginian-Pilot.

"Norfolk, Virginia," says the National Geographic Magazine, "is the peanut capital of the United States." Not when Congress is in session.—Detroit News.

Up in New York they are having literacy tests for voters. Advanced literacy tests for the candidates would help the general situation some.—Columbia Record.

The new 16-inch rifles which hurl a ton thirty-five miles would be handy for suburban coal delivery.—New York Herald Tribune.

NOTICE OF SALE UNDER CHATTEL MORTGAGE.

The State of Texas, County of Randall.
WHEREAS, on the 9th day of September A. D. 1924, J. T. Lane and D. G. Houston of Randall County, Texas, made, executed and delivered to J. S. McCormick a certain chattel mortgage on the following described personal property, to wit:

All of the furniture and fixtures in what is known as the Palace Cafe, more particularly described as follows: One 35 foot counter; 14 porcelain stools; 1 Victor Safe; 1 Hall Rack; 3 show cases; 8 square dining tables; 6 large dining tables; 50 dining chairs; 1 electric fan; 1 meat box; 6 candy and chewing gum jars; 1 olive typewriter; 2 round dining tables; 1 coffee urn; 1 electric ceiling fan; 1 large refrigerator; 1 cigar lighter; 1 large buffet; 1 small side board; 1 large heater; 1 cash register; 1 large water cooler; 2 prrene fire extinguishers; 1 new majestic range No. 22325; 1 door electric fan; all dishes, knives, forks and spoons, and all kitchen utensils, which said chattel mortgage is duly registered in the Chattel Mortgage records of Randall County, Texas, in Vol. 10 Page 146, and is Chattel Mortgage No. 7193 in said register.

Said Chattel Mortgage was given for the purpose of securing the payment of Two Certain promissory Notes executed by the said J. T. Lane and D. G. Houston, one for the sum of \$800.00, and due on or before October 5th, 1924, and one installment note for the sum of \$2500.00 payable in 33 monthly installments of \$75.00 each and the 34th installment of \$25.00, the first installment being due November 1st 1924, said notes dated September 9th 1924, and bear interest at the rate of 10 percent per annum.

Said Chattel mortgage specially providing that on the default of the payment of the principal or interest on any note, when due that the mortgagee is authorized in his option to declare all of said notes due and to take actual possession of the property and sell same at public auction for cash according to law as same is made governing the sales of personal property under execution.

And, whereas the said J. T. Lane and D. G. Houston, failed and refused to pay the principal and interest due on the \$800.00 note above mentioned, when same became due on October 5th 1924, and that on or about the 14th day of October 1924 the said J. T. Lane and D. G. Houston abandoned said property, and because of the failure of said parties to pay said note when due the said J. S. McCormick, the holder of said note, and the mortgagee in said mortgage has elected to declare all of said notes due, and has on this the 15th day of October 1924 taken possession of said property. That all of the above described notes, both principal and interest are now due and unpaid.

Now, Therefore, Notice is hereby given that on the 27th day of October A. D. 1924, between the hours of 10 o'clock A. M. and 4 o'clock P. M., I, J. S. McCormick, the mortgagee in said mortgage and the payee in said notes, will proceed to sell the above described property, at the Court House door in Canyon, Randall County, Texas, to the highest bidder, for cash, for the purpose of satisfying the above described notes.

Said sale to be made in conformity to and with the terms of the Chattel mortgage above described.

In Testimony whereof, witness my hand at Canyon, Texas, this the 15th day of October A. D. 1924.

J. S. McCORMICK, Mortgagee.

Buy, Build, and Live in Canyon.

GROUND BROKEN BY LETTER MEN

SENATOR REID MAKES AN ADDRESS

Work Starts Tuesday But Official Breaking of Ground Is Done Friday

To three members of the T. I. A. A. Championship Basketball Team of last year was given the honor of breaking the ground for the new gymnasium Friday morning at the chapel period. These men were J. Davis Hill, present basketball captain, and Odus Mitchell and Nay Hale, former captains. It was a rather awkward and awe-struck trio which guided the plow, but the veterans of many athletic battles were game—and they broke the ground in good fashion. Hill led the team of horses, Hale took the lines, and Mitchell wrestled with the walking plow.

Led from the auditorium by the College Band and the letter men of last year's basketball five, the large body of students formed a circle around an improvised platform. On the platform were D. A. Shirley, S. D. Burton, T. B. McCarter, W. E. Lockhart, C. W. Warwick, C. R. Burrow, R. A. Terrill, President J. A. Hill, and Elizabeth Dabbs. Last year's basketball letter men who are in Canyon now were called to the stage, and these were Hern, Bivens, Law Sone, Hale, Mitchell, and Davis Hill. Two other men, Captain Joe Lancaster and Louis Hill, were absent. Both are teaching.

President Hill opened the ceremonies by citing some school history and telling about the growth of plans for the gymnasium. He thanked the business men for their interest in the project. He then introduced Senator J. W. Reid who formerly was head of the Chemistry department of the College.

Senator Reid stated that he appreciated the opportunity of again meeting with students. He characterized the Plains children as the best "white faces" in the land, and declared that they should have the best advantages possible. The gym, he said, is being built to enhance the physical being. Perhaps the most striking thing the speaker said was in regard to clean athletics. "Win fairly and lose gallantly," he

THE GYM IN BRIEF

- Cost: \$14,000.
- Size: 96 x 104 feet, 28 foot ceiling.
- Materials: Steel, hollow tile, pebble dash finish.
- Seating capacity: 1400 or more
- Court: 52 x 96 (Standard).
- Location: 28 feet south of athletic park, opposite driveway leading north from west entrance of main building.
- Finance: Local: College local funds, contributions and work by students, faculty and local citizens.
- Completion: January 1st.

urged. "I'd rather a boy of mine should stay at-home than be taught unfair tactics in school. The coach who teaches a boy to steal a football game is preparing another teapot dome. May this gymnasium never house a person of such ideals."

President Hill commended the loyalty and public spirit of C. R. Burrow and C. W. Warwick of Canyon, who are boosting the gym. They represented the business men of the city.

In the absence of the '24 basketball captain, Joe Lancaster, Mr. Hill asked Odus Mitchell to speak for the team. The famous center told of his affection for his former teammates. "I don't know how I can sit on the sidelines," he said, "but I hope this year's team will be as much bigger than our's as this gym is larger than the one we played in."

The response was made by the present basketball leader, J. Davis Hill. In a speech punctuated by eloquent pauses, the popular captain spoke of the loss of four letter men, but he expressed confidence in the quality of new men who are eligible to play this year. He stated that it is the ambition of this year's team to play winning basketball in the new gymnasium.

Led by the band, the students then sang the alma mater and gave a few short yells as the three captains took the team from the contractor and turned the sod for the excavation.

When a row of earth had been turned up, the workmen took charge of the team and plow and continued the work. From now until completion, the construction work will be rushed.

OUT THE WEEDS—NOW!!!

Texas Has A Very Low Rank On Investment Public Education

Texas ranks 44th in per capita state and local expenditures for all public purposes, including schools and state and local government. Texas ranks 37th in per capita state and local expenditures for all forms of public education. These facts have just been made public by Dr. George A. Works, director of the Texas School Survey. He stated that the averages are based on the total population, and they include 48 states and the District of Columbia.

For all public purposes, including all forms of public education, Texas spends \$19.42 per capita, ranking 44th. Nevada ranks first with an expenditure of \$102.26, and Alabama last with \$12.13. For all forms of public education Texas spends \$8.41 per capita, ranking 37th. Montana leads with \$24.46, and Kentucky is last with \$4.36.

These facts, said Dr. Works, justify the conclusion that Texas maintains an inexpensive public service, including schools and state and local government as compared to her sister states.

The second section of his report deals with the funds being spent on public elementary and high schools, exclusively, according to Dr. Works. Details in this show that in its per capita expenditures for public elementary and high schools, Texas ranks 37th, the amount per person being \$7.32. Montana leads in this respect with \$22.33 per capita, while Mississippi is lowest with \$3.54.

Texas gives \$3.64 out of state taxes to the public elementary and high schools, taking in this respect 10th place. Nevada leads again with \$7.51, while Florida is last with 70 cents. But Texas is far down the line in respect to local taxes spent on education, taking rank as 43, giving only an average of \$2.77. Montana leads here with \$17.64, and Mississippi is last with \$1.72. In the percentage of the total revenues for providing for elementary and high schools that comes from the state, as contrasted with local sources, Texas ranks first. There is no state in which a larger proportion of the revenues for these schools comes from the state treasury. But Texas is the lowest state in the nation in the proportion of expense of provid-

ing for elementary and high schools borne by the local communities.

The savage desert tribes of Africa pay no taxes, so it is a mystery what makes them savage.—New Britain Herald.

Red Men Rekindle Fires and Re-elect Chief Sitting Bull

On Wednesday night, while the Indian moon darkened, the Loyal Order of Red Men touched the firebrand of loyalty to the waiting faggots and sang again the war song of the Indian. Sweet juices of autumn fruit replaced the smoke of the peace pipe, and the Red Men took again their vow of allegiance to the Buffalo.

The red skins then laid plans for the future. Chief Sitting Bull Tate Fry was re-elected and Jerry Malin named Little Chief Lone Wolf. Mans bucks surprised their fellows by words of cheer and eloquence. The Indian god, the Buffalo, was cheered time after time during the council as the Red Men started plans for the Simmons game, when the Indians intend to make the best demonstration of the year.

The Red Men appeared briefly at the Las Vegas game. Their calls are echoing through the halls: "Get behind the Buffaloes." "Beat Simmons." "Lela Scheta Toe Oakshels La Sumpa Oata Enochancee wachessa Team!"

MANY CORRESPONDENCE COURSES BEING TAKEN

One hundred seventeen people have rolled in one hundred thirty five correspondence courses offered by the Department of Public Service. Of this number, forty one have enrolled since September 25. Most of the courses are English, History, and subjects of the Sophomore year. Much of the work is taken in order to fill out programs.

SESAMES ELECT OFFICERS

At a call meeting of the Sesame Literary Society last Tuesday evening officers for the fall quarter were elected and plans laid for society work. Enthusiasm over the prospects for a successful year was prevalent and a real society spirit developed.

The following officers were elected:
Amy Daniel—President.
Louise McGee—Vice President.
Frankle Broyles—Secretary.
Madge Day—Treasurer.
Ann Mansell—Reporter.
Louise Walker—Yell Leader.
Carola Hettler—Sergeant-at-arms.

Child-birth

Is explained in wonderful book sent free to all Expectant Mothers
MAKE the months of expectancy easier, freer from tension and pain; and make the birth of your child a happy event, free from any fear or apprehension, by using "Mother's Friend," the externally applied remedy for expectant mothers, known and used by three generations of mothers.
Use "Mother's Friend" as our mothers and grandmothers did. Start today, and meanwhile write to Bradford Regulator Co., B-A 11, Atlanta, Ga., for wonderful free booklet (sent in plain envelope) containing information every expectant mother should have. "Mother's Friend" is sold by all good drug stores—everywhere.

This Week

-dangerous Decision. This Thrifty Country. Watching Teddy. New Ocean to Rule.

Laymen, out of respect for the courts, assume that the Supreme Court judges of California interpreted the law accurately when, by a majority of only one, they decided that La Follette's electors, although duly named by petition, should not go on the ballot in November.

The people do not like to be told by a judge, or anybody, that they may not vote for their own choice. For a court by a majority of one, in disregard of established custom, to say that State electors are the servants and agents of political conventions, and therefore the people have no right to name their own electors by petition, is DANGEROUS.

This California decision will be worth a great deal to those who believe that the public, having power to put judges on the bench, should also have the power to take them off.

Louisiana follows California by refusing La Follette electors a place on the ballot. President Coolidge, much to his credit, expresses regret that any American should be forbidden to vote for the man of his choice. The President's statement will be applauded by ninety-nine per cent of American voters.

Somebody is saving money in this country, because of higher wages or prohibition, or whatever you choose. Savings deposited in 1923, as revealed at the bankers' convention in Chicago, amounted to more than EIGHTEEN THOUSAND MILLION DOLLARS. While the population of the country increased fourteen per cent, savings bank deposits increased 108 per cent.

Business men that put Detroit on the map and Detroit products

all over the world, propose to add control of the flying machine industry to their automobile industry. Edsel Ford supplies money for airplane research, and puts a flying field near his Dearborn plant at the service of all working on metal airplanes. The Hudson and Packard motor companies are spending money generously in the same direction.

All that is good news for those interested in this country's independence of foreign domination.

Two thousand years ago the land in Palestine was marvelously fertile, a real earthly paradise. Money would restore that fertility, and strangely enough the money, more than Palestine ever dreamed of in all its glory, may be taken out of the Dead Sea.

That great body of intensely salt water is found to be heavily charged with potash. It can be got out simply, at a cost of \$5 a ton, and marketed in Europe at \$15 a ton, against the now prevailing price of \$30. There is a chance for enterprising Americans.

Americans will watch with interest young Theodore the Second, following in his father's footsteps. The original T. R. went to the New York Legislature, so did his son. The original T. R. ran for Governor and was elected. His son is now running for Governor. Whether he will be elected or not remains to be seen.

Georges Clemenceau celebrates his eighty-third birthday in his little house on the French coast, looking out on the wild waters where ancient Basques used to catch whales.

Clemenceau's health is good, because he is winning. A fighter all his life, he avoids all controversy now. Anger poisons men always, and in old age it kills them.

Picking a rose in his garden he says, "I like flowers; they have an advantage over men, they are silent."

The average citizen in this country pays less attention to news of the war in China than he would to news about someone falling off a horse.
Yet there are 500,000 men lined up for the decisive Chinese battle that is expected. And that is no child's play. The Chinese like the Japanese are building fighting flying machines. Let that be remembered by elderly naval gentlemen dosing sweetly, unconscious of the fact that the battleship is obsolete, out of date, a joke in war. The flying machine is the new weapon, the ONLY one that counts. The air is the NEW OCEAN. Who rules that ocean, rules the world.
