Knit Sweaters to Buy More Bonds

Sweaters are dear to the school-girl's heart. Because she likes them warm, colorful, and smartly styled, she is knitting her own to have these qualities on a minimum budget. Fashionable extended shoulders and cardigan neckline win top honors for this gray sweater gaily striped with bands of yellow, red and green. There's a matching stocking cap for campus and sports wear. Invest the precious money saved by knitting your own sweaters in extra War Bonds. U. S. Treasury Department

Soap From Sweet Milk

A Seminole woman, Mrs. F. E. Belt, has been successful in making soap from whole sweet milk, instead of grease. Ingredients needed, according to Mrs. Belt, are two gallons of whole fresh sweet milk, and the milk should be some recently milked and not yet refrigerated, she said, 1 can of good lye and 1 quart of water. Mix water and lye. Put milk in a granite container and gradually pour water and lye mixture into container. It is not necessary to stir this while pouring the mixture into the container but the mixture should be poured from one granite container to another for about 20 minutes. Let set for 24 hours and then it is ready to cut and use—Lubbock Avalanche.

Mr. and Mrs. C. G. Ballard and family recently moved from Frederick, Okla., to their farm home in the Flagg community which they purchased from Mr. Ernest Jones.
Mr. C. W. Boothe was dismissed from the Dimmitt Hospital Tuesday where he had been seriously ill since last Friday. His condition is reported as improving.

IN THE HOUR OF TRIUMPH

Behind us lie 3½ years of deadly struggle in which, with God's help, we have prevailed.

So, today, we celebrate a victory.

After the celebration, what lies ahead?

For most of us, the outlook is a bright one. If we will simply use the brains, the will, the energy, the enterprise . . . the materials and resources . . . with which we won our war, we can't fail to win the peace and to make this the richest, happiest land the world has known.

For most of us, the years ahead are bright with promise. But for others of us—and, ironically enough, their part in bringing victory was a major one—the years to come must bear a different look.

In America today are hundreds of thousands of injured men. Men with neatly pinned-up sleeves and trousers. Blinded men. Men with clever iron hooks instead of hands. Worst of all, men with hurt and darkened minds.

These men need our help. Helping them will cost a great deal of money. We can help them best by buying Victory Bonds.

Far away from America today are millions of Americans. As we would be, they're on fire to get back—to their wives, to the children some of them have never seen, to their jobs.

These men need our help. Helping them will cost a great deal of money. And we can help them best by buying Victory Bonds.

This is our day of triumph. But it's theirs too—the injured men, the men who are still far away.

Let's not forget them, in our just rejoicing. And the one way we can help most to care for our wounded . . . to bring our veterans home . . . to give them a fresh start in the country they fought for . . . to care for the families of those who died before the victory was won . . . is simply this:

Buy all the Bonds you can. Keep all the Bonds you buy.

5 Good Country Tricks for Saving More Used Fats

THIS year our domestic supply of fats and oils will be approximately one and one-half billion pounds less than last year. Right now, we are facing our worst fat shortage since the war began. To make up for this staggering loss, the government is depending on the women of America—and particularly women on farms and in smaller cities.

Every spoonful, every drop of fat is needed to help make battlefield and homefront essentials. So roll up your sleeves and do an all-out job, won't you? Clip this checklist and pin it up in your kitchen as a reminder.

1. **FRIED SALT PORK**—with milk gravy. Salt pork yields so much grease, you won't need it all for gravy. Pour the rest into the salvage can.
2. **DEEP FAT FRYING**—use the fat over and over; but when it's too dark and smelly to use any more, don't forget Uncle Sam wants it!
3. **ROASTS AND CHOPS**—save all trimmings (scraps from plates, too.) Keep them in a small bowl; once a week melt them down.
4. **SAUSAGES**—they're better if you parboil them first. Skim the fat off the cooking water—scrape the fat from the frying pan.
5. **CHICKEN SOUP**—chill it before you use it. Scoop off the hardened grease (soup tastes better, too!)

When the salvage can is full, take it to your butcher promptly. He will give you 2 red points and up to 4c for every pound of used fat you turn in.

100,000,000 More Pounds of Used Fats Are Needed This Year

Approved by WPA and OPA. Paid for by Industry.

"Sweet" Outfit Helps Buy Bonds

"Sweet as sugar candy" aptly describes a frosty white eyelet-trimmed blouse, worn with purple and pink flower-splashed peplum skirt. Make it with a pattern available at local stores. Watch the War Bonds grow when you add your savings from sewing.

OUR COMPANY'S "HIGHLINE HIGHWAY"
Vital to Victory

From our power stations—over our Company's "Highline Highway"—from town to town—to war plants, encampments and other military installations, flows the electricity so vital to Victory. Without this huge generating capacity and many miles of highlines, we would have been unable to accomplish our important job of helping win the war.

And, to the homes and farms, stores and shops, this same dependable electric service is on the job 24 hours a day at a cost which is the lowest in the history of our company.

MOTOR OIL
TO SEE YOU THROUGH
The days are gone when you could trust to luck and get by with inferior lubrication. These days, your present car, truck or tractor equipment has got to last.
You can count on Amalie Motor oils to give lasting, extra protection. They are refined from pure, 100% Pennsylvania crudes by the exclusive Amalie straight-run method. Conclusive tests prove they are far richer in oilness—the vital essential to effective protection—than less carefully refined oils. Switch to Amalie NOW.
