## Annual Meeting of Farm Bureau In District Courtroom October 29

Castro County's oldest farm organization will hold its annual meeting at the District Courtroom on Thursday night, October 29, 1959 at 8:00 p.m.

This meeting is an annual affair for the members of the local organization. At this meeting, resolutions are adopted that affect the county organization for the year 1960. The resolutions adopted will guide the voting delegates at the Texas Farm Bureau Convention to be held in November 8-11 at San Antonio, Texas. Delegates to the State Convention and some new directors will also be elected at this annual meeting.

Mr. Collins, county president, stated that it is his observation that people engaged in various activities tend to divide the thinking of farm people on many issues

## Wool Vote Shows Large Sheep Count

Castro County has become the scene of considerable wool production, according to facts revealed in the October 6 wool referendum.

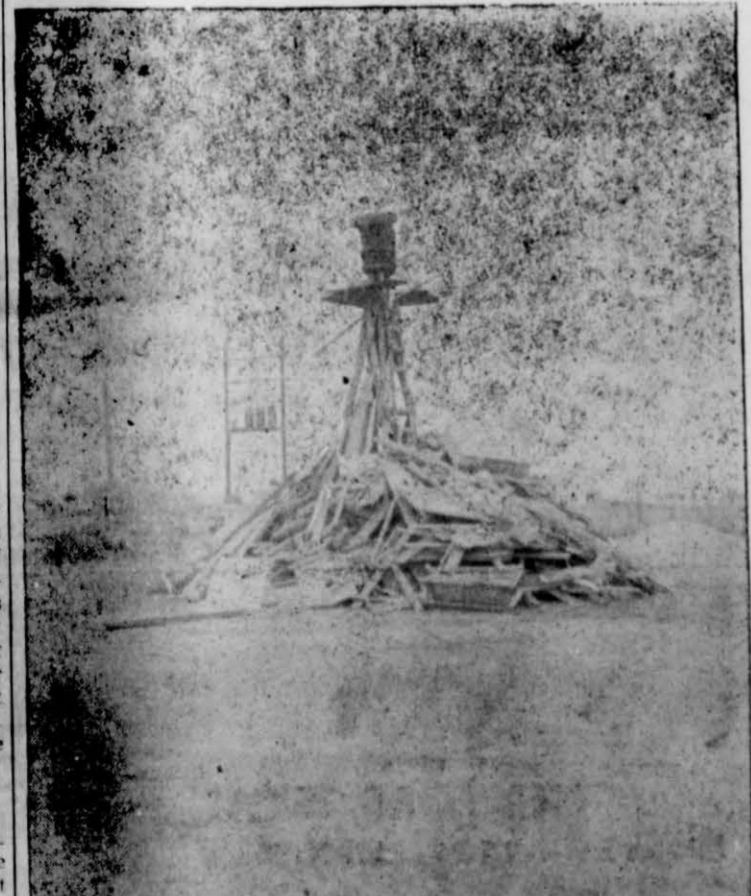

The referendum, which was whether or not to continue deductions from wool payments to be used in the promotion of wool and lamb, had nine wool producers in the county voting 8-1 for the issue. These nine producers indicated on their ballots that they owned a total of 6,192 head of sheep. This would be an average of 688 head per producer. At present there are about 35 producers (26 of which did not vote in the election) and by carrying this average to the total number a sheep population of 24,180 would result. There is no way of knowing at present whether or not this figure is right, but Castro County could logically be considered to contain at least 15,000 sheep which would make this a major production commodity.

The referendum was held to determine producer approval of a proposed agreement between the Secretary of Agriculture and the American Sheep Producers Council, Inc., an organization of sheep producers. The agreement would continue deductions from wool payments made under the National Wool Act of 1954 for the 1959, 1960 and 1961 marketing years. The deductions would provide funds to finance the Council's advertising, promotional, and related market development activities on lamb and wool.

## Annual School Homecoming In Dimmitt This Weekend

The annual Dimmitt High School Homecoming will be held Friday at the High School. This is the day when all past students, teachers and others ever connected with the school are invited back to look through the buildings and watch school activities taking place.

Awards will be made to the oldest alumni present and to the former student traveling farthest to be at the homecoming. Homecoming chief, James W. (Rosy) Bates said this week the distance award would probably

**ENERGIZER**—This big heap of wood near the Fort Worth and Denver Depot furnished the fuel for a big pep-rally bonfire Thursday night to start the Bobcats off on their conference football season. The bonfire was part of Homecoming activities.

and in doing so, tend to weaken the farmers chance of equal opportunity and the realization of a high net income. He urges every member to think realistically and come to the meeting so that the majority will benefit by participating in the meeting.

## Three Dimmitt Students Named On College Cast

**Shakespearean Play To Open New WTSC Branding Iron Theatre**

"A Midsummer Night's Dream" by William Shakespeare, has been chosen to open the new Branding Iron Theatre in the beautiful new Fine Arts Building on the West Texas State College campus, Mr. W. A. Moore, director of the Theatre has announced.

Three Dimmitt students have been selected to star in this initial presentation. Moore has cast Miss Jo Beecher as Hermia, Gary Wyatt as Lysander, and Morris Westberry in two roles, Egeus, Hermias' father and Starveling, a tailor, one of the rude mechanicals.

"These are major roles and are challenges to the best actors," Mr. Moore said. "These students are especially fortunate in that they all worked in the original Branding Iron Theatre during the past summer so they know something of its traditions and are able to appreciate more than most freshmen the wonderful facilities of the new Theatre," Moore continued.

"These students were fortunate also to have had as their teacher, Mr. James W. 'Rosy' Bates, one of the charter members of the original Branding Iron Theatre cast, Moore said. Bates played in "Dear Ruth," the opening play in the original Branding Iron Theatre also many leading roles during his college years at West Texas State. Moore also said that "(We) are especially pleased to have three of his former students to represent him in the opening show of the new Branding Iron Theatre."

"Midsummer Night's Dream," plays Wednesday, Thursday and Friday, October 21, 22 and 23 at 8:15 p.m. and October 24 at 2 p.m. Admission will be \$1.00 for adults; 75 cents for High School and Junior High School students; and 50 cents for grade school children.

THIRTY SECOND YEAR

DIMMITT, CASTRO COUNTY, TEXAS, THURSDAY, OCTOBER 22, 1959

12 PAGES — NUMBER 52

**TAKE COTTON TOUR**—These youngsters and the adults shown with them took a trip to Lubbock Saturday to see what happens to cotton after it leaves Castro County gins. They went through a spinning plant, cotton oil plant, classing office and other places of interest in Lubbock and at Texas Tech in their cotton tour. The boys are participating in the 4-H cotton program. A grain sorghum tour is planned later on for that part of the yearly 4-H program. Shown shortly before leaving are (standing, left to right) Kent Glenn, Jim Axe, E. L. Ivey, Jim Alldredge, Wes Anthony, Burris McRee, Bob Cranford, Bruce Odom, Maurice Campbell and County Agent Charles Hotel. (Sitting, left to right) Ken Campbell, Joe Lust, Dan Petty, Larry Odom, Brice McRee, Delbert Redwine and Rodney Hutto. —staff photo

## Collison Sunday Injures Woman Near Nazareth

A two-car collision near Nazareth shortly after noon Sunday hospitalized Mrs. Andrus Szogedin of Hereford with a broken leg and numerous bruises.

The accident occurred when Mrs. Szogedin's husband, a Lutheran minister, attempted to pass a pickup driven by Sam Berryman at an intersection, Berryman attempted to turn off the highway to the left and onto the road to his home when the collision occurred. Heavy damage was done to both vehicles, but Mrs. Szogedin was the only one seriously injured.

**Visitors from Houston**  
Mr. and Mrs. Guy Price and Gregory of Houston spent last week visiting their parents and brother, Mr. and Mrs. Glenn Smith and Jim.

## Applications for 5 Liquor Store Permits Made

Notices of application for liquor store permits to be used in five package stores in Precinct 4 are being published this week in the Castro County News.

Three of the stores are to be located in Nazareth. They will be known as Ball's Package Store, to be operated by Mrs. Josephine Ball and Urban Ball; Warren's Package Store, to be operated by Joe Warren; and Ann's Cut Rate Liquors No. 2, to be operated by Ralph Lowe who owns a similar store in Amarillo.

An application for two package stores has been made by Frank, Fred and Don Armen. One of these will be located 4 miles east of Nazareth near the Swisher County Line and the other eight miles north of Dimmitt on Highway 385.

Opening dates of the stores and whether or not the state liquor control board will approve the applications is not known. The stores will be operated under provisions of an election held October 10 in which the proposition of legal sales of alcoholic beverages for off-premises consumption was approved by voters of Precinct 4.

## 'Mixed Grain' Can Cause Overplanting

Farmers should remember that any "mixed grain" acreage containing any degree of wheat will be classified as allotted wheat acreage Charlie Hill, ASC manager said this week.

As such a farmer may find himself paying a penalty because he planted his regular allotment in good wheat and didn't plow up while green his mixed-grain acreage. Mixed grain acreage is usually caused by planting barley over hauled-out wheat acreage or vice-versa, which permits both grains to come up on the same ground. In such a case the acreage involved is deducted from allotted wheat acreage and the grain is definitely counted as wheat so far as the price support is concerned.

"Before you seed any wheat on barley land or barley on wheat land, in excess of your allotment, we would encourage you to do some serious thinking since it could very easily cause your farm to be considered as an overplanted farm and subject to Marketing Quota penalty," Hill said.

## Bobcats Face Friona Chiefs In 1-AA Opener

After a week's rest, the Dimmitt Bobcats take on the Friona Chiefs Friday night in the annual homecoming game at the local stadium. The Bobcats are rocking along, the proud possessors of a 6-won, none-lost record.

This is the first game of the conference season and Dimmitt's competition is expected to become immediately tougher. Friona, always a dark horse in this conference, has both taken and handed out beatings this year. The Bobcats, presently picked by area sportswriters to take the 1-AA championship this year, will be the prime target for Friona, Tulla Canyon and Dalhart—all good teams this year.

There will be several pre-game activities planned of an entertainment nature and fans should be at the field by 7:30 p.m. to see the show.

## Mrs. Stringer Leads Delegation Of HD Agents

Mrs. Sybil Stringer, Castro County Home Demonstration Agent is attending the National Home Demonstration Agent's Association annual convention in New Orleans this week.

As president of the Texas Home Demonstration Agents' Association, she will head the 150 member delegation from the state and report on their activities. Mrs. Stringer is serving on the convention committee for the 1959 annual meeting. Over 1200 home demonstration agents from 48 states and Puerto Rico will be in attendance.

## Cotton Queens Bowling League Started Tuesday

The new women's Bowling League—the Cotton Queens League—got underway Friday night with a meeting at the First State Bank Community Room. First bowling of the league was Tuesday night at the brand new Cotton Bowl Lanes in Southeast Dimmitt.

The Queens League will bowl every Tuesday night at 7:30. Officers for the organization are Maxine Walker, president; Maxine Childers, vice-president; Helen Ames, secretary-treasurer; and Melba Aldridge, sergeant-at-arms. Following Tuesday night's bowling team standings are: 1. Taylor, Harrison Agency; 2. Community Grain Co.; 3. Citidel Finance; 4. Bob's Super Market; 5. Piggy Wiggly; 6. West Texas Telephone Company; 7. Lindsey Cleaners and 8. Cashway Food.

## Frost Causes Livestock Injuring Prussic Acid to Form in Sorghums

Johnsongrass or sorghum after a frost is sometimes extremely high in prussic acid content and is very dangerous to livestock, warns Dr. C. M. Patterson, A&M veterinarian.

Certain chemical changes sometimes occur in the plant and it develops a content of prussic acid, or hydrocyanic acid when wilted by frost or drought, he explains. The poison acts quickly and can kill an animal within a short time after the damaged plant is eaten.

An appearance of nervousness, difficult breathing and difficulty in standing are symptoms of the poisoning. Whether a poisoned animal can be saved depends upon how quickly a veterinarian can get to it. Treatment involves injecting antidotes directly in the blood stream.

Young plants will develop more prussic acid after frost or drought than those approaching maturity, points out the veterinarian. Their

leaves will contain from 3 to 25 times more acid than leaves of plants in the boot stage. Also, upper, younger leaves will contain more acid than lower leaves.

Dr. Patterson cautions against grazing frosted Johnsongrass or sorghum before it is completely dry. If Johnsongrass or sorghum is ready to cut for hay before a frost, it may be cut the first day after the frost, if care is taken to see that it is completely cured before baling.

It may also be used for silage, he adds. Generally, enough prussic acid is lost in gaseous form during the ensiling process and as the silage is removed and fed to make it safe for livestock. However, animals shouldn't be allowed to self-feed from a pile filled with frosted sudan or sorghum. If the silage is questionable it should be chemically tested by a local veterinarian or by letting one or two inferior animals eat it.

## Olton Ex-Convict Finds Slim Pickin's In Theft Attempts In Hart Area Saturday

When Russel Stewart, 45-year-old alumnus of several state and a federal penitentiary saw a pickup belonging to Leon Mitchell parked near Hart Saturday, he decided to help himself to several loose items in the vehicle.

He was busily transferring some anti-freeze, gauge wheels, tire and other items when Mitchell drove up on a tractor. Mitchell made the ex-convict put the stolen goods back and told him to hit

the road. Stewart was later picked up while trying to hiest some equipment from an irrigation well belonging to Charles Starret. He had managed to make off with some batteries belonging to Bill Hill of Hart and had them in his station wagon at the time of his arrest.

He was hauled into court and fined \$180 on counts of theft and Driving While Intoxicated. Stewart is married and is from Olton.

**25 YEARS**—Earl Brock (right) was presented with a 25-year service award October 14th by Southwestern Public Service Co. Shown also is Mrs. Brock (second from right) and Mr. and Mrs. Davy D. Cavitt. Cavitt also from Dimmitt received a five-year award. Brock is manager of Southwestern Public Service Company's Dimmitt office.

## Brock Receives 25-Year Award From Electric Co.

Earl J. Brock and Davy D. Cavitt, residents of Dimmitt, were honored along with 48 other Plains Division employees of the Southwestern Public Service Company, at the eleventh annual service awards dinner held by the company at the Hilton Hotel in Plover, Wednesday night, October 14 at 7:30.

Mr. Brock was presented with a 25 year service award, while Mr. Cavitt was honored for 5 years of service with the company.

The presentation was made by A. R. (Lon) Watson, executive vice-president and general manager for the company, with offices in the Amarillo office, and Jim Collins of Plover, Plains Division Manager, acted as master of ceremonies.

Following the dinner and presentation of awards, the honorees and their special guests were treated to a special musical program furnished by Miss Armstrong and Miss Furell of Plover.

FOR JUST PLAIN GOODNESS YOU CAN'T BEAT APPLES!

look at these RECIPES FOR EVERY DAY GOOD APPLE EATING!

**APPLE RELISH SALAD BOWL**  
Unpared, cored, 2 tablespoon lemon juice  
2 cup red apples, sliced, minced  
1 medium head lettuce  
1/2 cup French dressing  
1/2 cup mayonnaise  
1/2 cup sugar  
1/2 cup vinegar  
1/2 cup oil  
1/2 cup salt  
1/2 cup pepper  
1/2 cup onion  
1/2 cup celery  
1/2 cup carrot  
1/2 cup radish  
1/2 cup cucumber  
1/2 cup tomato  
1/2 cup lettuce  
1/2 cup parsley  
1/2 cup dill  
1/2 cup chives  
1/2 cup basil  
1/2 cup oregano  
1/2 cup thyme  
1/2 cup rosemary  
1/2 cup sage  
1/2 cup lavender  
1/2 cup mint  
1/2 cup lemon  
1/2 cup lime  
1/2 cup orange  
1/2 cup grapefruit  
1/2 cup pineapple  
1/2 cup mango  
1/2 cup papaya  
1/2 cup kiwi  
1/2 cup guava  
1/2 cup passion fruit  
1/2 cup dragon fruit  
1/2 cup jackfruit  
1/2 cup breadfruit  
1/2 cup soursop  
1/2 cup tamarind  
1/2 cup cashew  
1/2 cup almond  
1/2 cup walnut  
1/2 cup pecan  
1/2 cup hazelnut  
1/2 cup pistachio  
1/2 cup macadamia  
1/2 cup brazil  
1/2 cup cashew  
1/2 cup almond  
1/2 cup walnut  
1/2 cup pecan  
1/2 cup hazelnut  
1/2 cup pistachio  
1/2 cup macadamia  
1/2 cup brazil

**APPLE BROWN BETTY**  
1/3 cup butter or margarine, melted  
2 cups soft bread crumbs  
6 cups sliced, pared, cored apples (about 2 lbs.)  
1/2 cup granulated sugar  
1/2 cup water  
Heat oven to 375 degrees F. Toss butter with crumbs. Arrange 1/3 crumbs in greased 1 1/2 qt. casserole. Cover with 1/2 apples, and 1/2 combined sugar, nutmeg, cinnamon, rind. Cover with 1/3 crumbs, rest of apples, rest of sugar mixture. Spoon on combined lemon juice and water. Top with rest of crumbs. Cover. Bake in moderately hot oven of 375 degrees F. 1/2 hour. Uncover, bake 1/2 hr., or until apples are done.  
Serve warm, with cream, whipped cream sprinkled with cinnamon or grated cheese, Hard sauce, Sterling sauce, or ice cream. Makes six servings.

### "Sparky Sez"

By Willie Wood

Your fire department was called by Dimmitt (in & Elevator) recently to help extinguish a fire in a pit of the truck lift at the elevator. No damages resulted from the fire. Your department was called to the farm of Mr. Raymond Amon on Monday afternoon where a field of maize was on fire. The fire was put out before the arrival of the department by the quick thinking of Mr. Amon and Mrs. Barryman. You people who are in the process of harvesting this maize need to be careful because these stalks and fodder will burn and result in damage to the grain.

**GET READY FOR BIGGER CROPS**  
IN 1959 with **DOW 82 AMMONIA**

This year farm operators see conclusive proof that use of anhydrous ammonia produces substantially bigger crops. In areas where weather prevented timely application of Nitrogen, yields are down. Where Nitrogen was used, farmers who had check plots report highest returns on their investment in Nitrogen fertilizer.

Get ready for next year's big crop. After milo harvest, apply Dow 82 ammonia. Milo stalks and roots provide the ideal organic material to help the fertilizer work best for you. Dow's 82 Nitrogen speeds decomposition of the ground, ready for use. Spring plantings get a healthier, quicker start, develop vigorous root systems that help prevent blowing soil.

## BLANTON BUTANE

Phone 331 Dimmitt, Texas

Church now stands, you will recall the lot where the Methodist member that the entire attic was removed before it was discovered. The old bell tower served as a fire for the fire to travel upward very rapidly. Because of these things extinguishment is hampered greatly and most of them become a total loss. What has been done in YOUR church to prevent fires and prevent the spreading of fires. Has anyone checked your church to see that there are no fire hazards present or that there are fire extinguishers close to places most susceptible to fire such as your kitchen, etc.? You spend a lot of money and time trying to save the souls of your fellow man, but how much have you spent to try to save a life in the event of a fire in your building?

When the fire alarm sounds in this city, the telephone switchboard lights up like a Christmas tree. The operators have to work under a great strain and sometimes the members of the fire department can't even find out where the fire is because of the confusion which comes in from just curious persons. This hampers quick action taken by the department that might save a life or some of your friends. Wouldn't you hate to know that you were one of the people who had asked in the delay of the fire department's response to a fire which took the life of one of your friends because of your thoughtlessness? It has been advertised in the Castro County News and most of you have heard on KPAN Herdolph about the fire being reported over that station just as quickly as possible. If you will refrain from calling in when the alarm sounds, the operators can complete the call to the station and if you will just turn your radio on to KPAN you will find out a lot more quickly where the fire is and what it is. If the operators can get the call through more quickly, it will save them a lot of unnecessary calls too. So please don't cooperate with us and the telephone operators and the people who are making this service available to you and help us to answer these alarms more quickly?

**CHURCH FIRES ON THE INCREASE** is the headline in one of the National Board of Fire Underwriters' bulletins. In 1958 there were 4200 church fires recorded with losses running into the millions and 1956 was even worse. They are constantly on the increase. Most church buildings are more susceptible to fire than any of the other buildings around because of their high steeples and steeple lighting and because of the overloading of their heating systems for short periods of time and because of their frequent occupancy fire is less likely to be detected until it is too late. Because of the construction of these buildings with their high ceilings, steeples and bellfries fire spreads a great deal more rapidly than buildings of a different structure. If any of you remember the old church building that burned

**THE VOICE OF EXPERIENCE**  
Pop, what does a woman do with the years she subtracts from her life? she adds them to the ages of other women.

Fire prevention questions you should answer and take action on:  
1. Are there plenty of fire exits in all rooms of your home? YES NO  
2. Do you use bracket-labeled ap-

proved flexible cords to insure safety from electrical fires? YES NO  
3. Is an adult always present during the entire time trash, leaves, etc. are burned out doors, and is the fire completely extinguished when you leave it? YES NO  
4. A fire is always painful and often disfiguring.  
The Fire Chief's wife puffed plaintively as her husband failed to assist her onto the bus. "Henry, you aren't as gallant as I was when I was a girl," Henry: "I know, dear, but you aren't as buoyant as when I was young."

**LET'S KEEP OUR FIRE LOSS DOWN**

**Walter Rogers' WASHINGTON NEWSLETTER**

**OIL CENTENNIAL**  
When we consider the size, scope, and contribution of the oil industry today, it is difficult to realize it is only one hundred years old. It was, however, born on that August day in 1859 when Colonel Drake drilled down sixty nine and one-half feet near Titusville, Pennsylvania and found the first barrel of oil produced in America. A great deal has already been said about this historical event, and rightfully so, since it fostered the gigantic industry which provides much of the energy that has contributed to our economy and our standard of living. Since the State of Texas produces some forty percent of all domestic petroleum liquids in the United States, it is doubly fitting that we join in paying tribute this Hundredth Anniversary year.

It is interesting to note some of the facts and events of this first hundred years. Of the 1,729,708 wells drilled for oil and gas up to January 1, 1959, 27.3 percent of them turned out to be dry holes. The State of Texas, with 443,827 drillings, experienced a higher percentage of dry holes with 140,450 or 31.7 percent. Incidentally, the deepest well ever drilled, 25,340 feet, was in Texas and was a dry hole.

During 1859, the first year of domestic production, 2,000 barrels of crude oil were produced, as compared to 2,617,283,000 barrels in 1956. Of the 574,515 producing wells in the United States at the end of 1958, 179,678 of them were in Texas.

As of December 31, 1958, 31 of the 48 states had oil and/or gas production, and 210 of Texas' 254 counties had production. Crude oil and natural gas production in America employs 310,019 people, of which 118,126 are in the State of Texas. The total value of crude oil, natural gas liquids, and natural gas in 1958 was \$9,303,962,000, of which more than one-third was produced in Texas.

Hard work and science have gone hand in hand in building our domestic oil industry and will continue to do so in the second century. In an earlier day the gas from a producing well was a waste product. It is now a \$2.15 billion business and it is the nation's fifth largest industry.

We have learned that this great natural resource must be used wisely and conserved for future generations. We know that new reserves must be constantly sought and the industry has implemented this search continually, so that as

of January 1, 1959 there were 36,739,935,000 barrels of proved liquid petroleum reserves in the United States.

To me, the story of the first hundred years of domestic oil production in this country is a splendid example of the solidity and challenge of our free enterprise system. It is a story sprinkled with millionaires and paupers, heartbreak and joy, and with generous splashes of color, but it is the story of what ingenuity, hard work and the rewards therefrom can mean to our democracy. There are many who would deny some of the magnificent contributions which our democracy has derived from the fact and example of the

**RAILROAD FEATHERBEDDING: \$500,000,000 LOSS TO THE NATION—INCLUDING YOU—EVERY YEAR**

Featherbedding on the railroads—pay for work not done or not needed—is costing the American people the shocking total of more than \$500,000,000 a year.

You pay for it every time you shop, because featherbedding costs are hidden in the price of everything you buy.

Obsolete union work rules, involving the railroad operating employees, are responsible for this gigantic burden. Right now, for instance, these rules require every diesel locomotive to carry a fireman—even though diesels have no fires to stoke, no boilers to tend.

The forthcoming negotiations between the railroads and the unions are urgently important to the whole nation.

In asking the unions to drop these featherbedding rules, all the railroads ask for is a fair day's work for a fair day's pay.

**I GIVE YOU TEXAS**  
By Boyce House

Can you remember when a representative of the weekly paper in a little town was at the depot at train time to get "personals" about who was leaving and who was arriving?

Turning through the forgotten biography of a forgotten man, Senator Foraker of Ohio, I came across this passage, speaking of President Benjamin Harrison:

"He was one of the ablest men who ever occupied the White House. . . . Someone truthfully said that he was a man of measures but none for men. Nearly everyone who called upon him came away with the feeling that he had been in an awesome victory. . . . This made him much trouble, so much so that it was with difficulty he secured a re-nomination. The defeat that followed was almost altogether to the fact that, while everybody had great respect and admiration for his integrity and ability, nobody had any enthusiasm for him personally."

And a "Cincinnati bankroll" is a large bill wrapped around a lot of one-dollar bills.

Longest and deepest undersea telephone cable stretches from California to Hawaii. Placed in 1957, it is 2,400 miles long.

### The Restoration

—By FRANK WINTERS—  
"If any man speak, let him speak as the oracles of God." (1 Pet. 4: 11.)  
Today we wish to present a brief historical account of the restoration of the church of Christ, and by whom alone. Every student is more familiar with the great restoration movement known as the Latter Day Saints, which began with Joseph Smith in the sixteenth century and was continued in later years by John Calvin Wesley. They were great and good men and did a great work in the world. They were the first to bring the paths of Christianity, and unto us we confess a debt of gratitude which we shall never be able to repay.  
Notwithstanding the good intentions of these men, however, a great evil arose in the wake of their fanaticism and the new religious liberty, which, although desired by all sincere believers, has been the greatest hindrance to the Christian religion. It was a multitude of sects and denominations which sprang into existence, all governed by different laws, written by men. In spite of sincere efforts at reformation, a difference between these denominational bodies became more pronounced and more impossible to reconcile. The latter part of the eighteenth century presented a dark picture, not alone for a world of atheism and infidelity, but also for the Christian faith. Thomas Paine had recently published his "Age of Reason," and philosophy was widely rampant in Europe and America. These conditions caused many thoughtful leaders of different denominations of widely scattered sections of Europe and America, to advocate the putting forth of every effort to unite a halt to the divided state of Christendom by minimizing human creeds as the stumbling cause. The Haldane others of Scotland, James Kelly of North Carolina, and urton W. Stone of Kentucky, were meers in a great movement that was soon to burst into flame. A little more than one hundred ars ago in the eastern section of our country occurred a revolutionary event in religious history, which, in its practical importance, Christianity, we believe is perhaps the greatest occurrence since the day of the apostles. We refer to the undertaking and accomplishment by a group of devoted people

Color printing was used as early as 1457 in Germany.

Demomology is the study of evil spirits.

to restore to earth the pure religion and worship of the church of our Lord as it was originally established by Christ and the apostles. This was accomplished by the rejection of all creeds and doctrines as their rule of faith and practice. Alexander Campbell and his father, Thomas Campbell, were the most active leaders, although they were assisted by at least a dozen other outstanding preachers. The question is asked, "Did Campbell, then, establish the Church of Christ?" The answer is emphatically "No!" He denounced churches founded by men as unscriptural. Neither did these men seek to reform any church, for this had also proved to be a mistake.  
Campbell and his collaborators had as their object to dig deep beneath denominationalism and to restore that which had once existed on earth and which for hundreds of years had been buried under the rubbish of ecclesiasticalism. No man was ever taught to believe anything because Alexander Campbell taught it. This restoration movement met with great popular success, for thousands and then hundreds of thousands of people heard the word of the Lord and God's plan of salvation preached directly from the Bible. They became members of the church only after the New Testament name and they called themselves nothing but Christians. They considered themselves not as a denomination, but having restored the original church and its spiritual order, they invited all believers to unite on the only possible basis of unity, on the Word of God and upon that alone. There were two principles upon which they reasoned this could be accomplished. They had the same seed on earth as Peter and John and on Pentecost, which Jesus said was the Word of God, and the same soil which Christ said was the hearts of men. If they planted this seed in the soil, it would produce, just as it did then, nothing but Christians.  
Their inviolate rule was to preach nothing but God's Word. "Where the Bible speaks, we shall speak, and where the Bible is silent, we shall be silent." Today in a troubled and divided world, and with nothing but love and respect in our hearts for all sincere believers in God and His Christ, we earnestly plead and confidently believe that believers might all be one if in reality and in truth His Word, and that alone, should be received into every heart.

### TOPS NATIONAL SORGHUM SHOW

C. J. Miller (right) of Slaton, Texas, showed the grand champion sample among 6000 heads at DeKalb's National Sorghum Show at the recent Tri-State Fair in Amarillo, Texas. Reserve champion went to George Heard of Hereford, Texas. Other state winners were Miss Souri—Joe Barner, Clinton, Colorado—Henry Wittling, Vernon; Kansas—Glen McArthur, Lyons; Nebraska—Dean Parsley, Benkelman; New Mexico—L. T. Hanes, Clovis; Oklahoma—Frank Morgan, Potts.

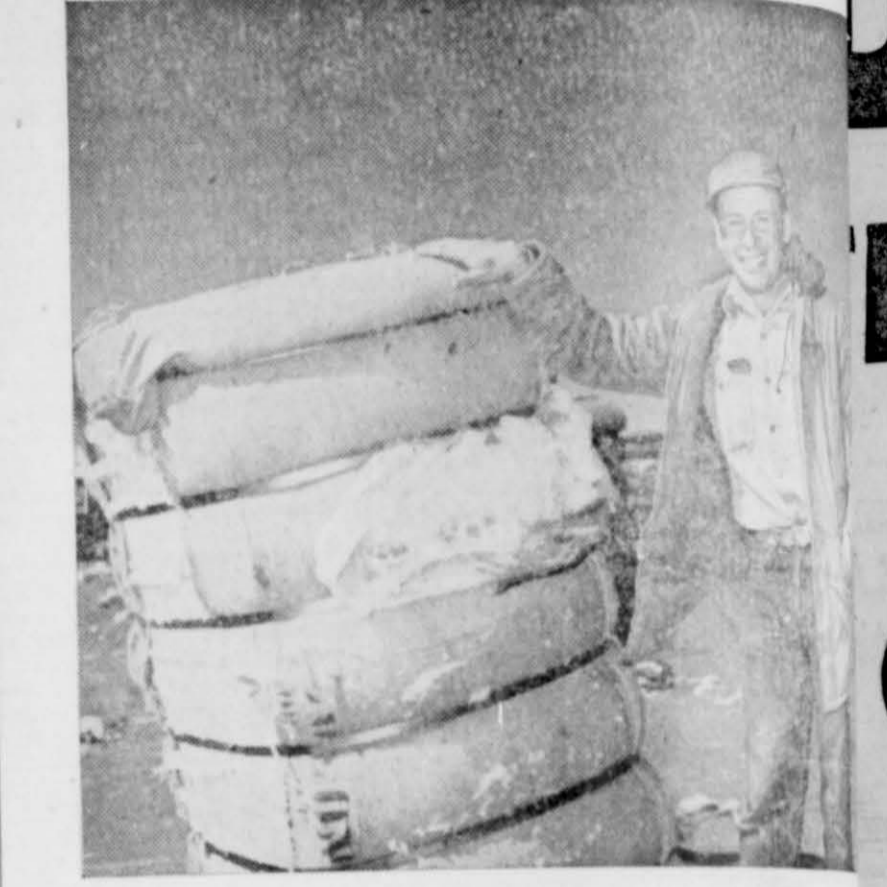

### Five Dimmitt Teachers Attend Area DKG Meet

Six chapters of Delta Kappa Gamma met in Littlefield Saturday, October 17 for the 1959 Regional with Epaulon Delta as the hostess chapter. Theme of the meeting was "Awareness—The Key to Insight and Understanding." Directors were Mrs. Mildred Sullivan, Alpha State Music Chair, man from Pampa, Texas and Miss Layuna Hicks, Alpha State Publications Chairman, Gainesville, Texas. Miss Mildred Hulsey, Alpha State Vice-president, Tulsa reported on the Southwest Regional held in Tulsa. The keynote panel discussed "Opening Doors in Tomorrow's World." Miss Hulsey quoted Una Holden as saying "Enthusiasm is the key in our pocket to open doors."  
For the second morning session, those attending were divided into four special interest groups to further discuss how "Awareness" could be developed in Delta Kappa Gamma.  
Following the luncheon in the school cafeteria, Miss Hicks viewed the awareness of our founders.  
The 1960 regional meeting is to be held the second Saturday in October in Crosbyton. Delta XI Chapter placed second in the mileage award with 16 members attending.  
Those from Dimmitt attending were Miss Hazel Merritt, Mesdames Fann Weiker, Helen Richardson, Genevieve Howe and Para Renner.

### Federal Hall in New York City served as the first Capitol of the United States, after the Constitution was adopted.

The Nobel Prize was instituted by Alfred B. Nobel, the inventor of dynamite.

According to the latest figures, last year's 100 top national newspaper advertisers invested over \$300,000,000.

A dead person may vote, legally if he mails an absentee ballot and then dies before election day.

### 2.25-Bale Cotton

James B. Cox, successful young Swisher County farmer, says: "By side dressing my cotton with 80 pounds of Phillips 66 Ammonia the latter part of June, we picked an average of 2 1/4 bales of lint per acre. "I also averaged 5200 pounds per acre of maize grain, after applying 130 pounds of Phillips 66 Ammonia. I am putting down 100 pounds of Phillips 66 Ammonia on my cotton this year, and 140 pounds on my maize."  
Other successful Southwestern farmers have discovered that they make more profit per acre, using Phillips 66 Ammonia, more cotton that cleans better, yields of sorghum grain or soybeans increased... profits on wheat are increased through higher yields of improved forage... more nutrients are harvested.  
Phillips 66 Ammonia can be used either by you or your distributor as about Phillips 66 Agriculture. It gives you more strength in any other form of fertilizer.

Here and Hereafter

I believe the "hereafter" is just as real as life as we
know it now. The life here now is fleeting and short at best.
Death knows no season. I have seen death come to old and
young alike. This must not be the end; it cannot be. How-
ever long it lasts, it is not the end; it is only a part of the
whole. The hereafter depends upon what we do here. Many
are totally unprepared to die. Their sins are not pardoned;
their souls are unclean. Some of these would complain of
the shortness of life, but few improve it as it flies. In view
of the unprepared, it is easy to understand how precious
the death of a child must be in the sight of the Lord.

SENIOR BOY OF THE WEEK
On November 18, 1941, in Kemp
Texas, an 8 pound, 7 ounce baby
boy was born to Mr. and Mrs.
V. Barnes. He was named
Carlos.
Carlos went to Slaton in the
first grade, then to Tahoka
where he went until middle of
the 8th grade, when he came to
Dimmitt. His activities are foot-
ball, basketball and track. After
graduation, he plans to major in
mechanical engineering in college.

## 'Coon, Sweet 'Taters Menu at Hunters' Feast

By "Ole Man" Jordan

The newly organized Coon Hunters Sports Club met in the home of W. J. "Ole Man" Jordan recently for the purpose of setting up some rules for the club and enjoying a delicious banquet.

The rules governing the club are patterned after those the members had in their younger days when they all owned coon dogs and raced them after the tricky, bushy, ringed-tail raccoon under round, yellow harvest moons. The rules however are subject to change at any of the meetings.

All the charter members were on hand to be served a delicious meal of 'coon and sweet 'taters as the main dish. Fried chicken pinto beans, 'tater salad hot corn bread, lightbread, chocolate cake, strawberries and whipped cream completed the menu. Coffee and grape juice were served as drinks.

Members present were Edwin (Goose) Ramey, 69; G. L. Blanton, 89; John A. Simmons, 81; E. G. Thomas, 80; Tulla; J. W. Hawkins, 85; John F. Smith, 81; S. D. Kam, 89; Louie Allen, 54; Ray Martin, 48; John Draper, 47; Hereford; B. G. Ramey, 80; W. T. Gollehon, 85; C. W. Boothe, 79; and W. J. Jordan, 80.

HAYS IMPLEMENT Co.

# HERE'S WHAT MAKES THE CORVAIR REVOLUTIONARY

Short and sweet! Engine's in the rear—where it belongs in a compact car. With more weight on rear wheels, you get extra road-gripping traction for cornering and driving on ice, mud or snow. Also, by avoiding nose-heaviness of front-engine compact cars, Corvaire handles easier, brakes better, rides smoother. Styling of both 4-door models is clean and uncluttered... as fresh and functional as modern architecture.

### Unipack Power Team

Engine, transmission and drive gears are neatly wrapped in one lightweight package. Takes less space, leaves you more.

### UNISTRUT BODY BY FISHER

Body and frame are combined into a single rigidly constructed unit that reduces Corvaire's weight, enlarges its passenger space.

### Practically FLAT FLOOR

Corvaire is America's only compact car with a virtually flat floor that gives you full 6-passenger comfort. For extra space, folding rear seat converts easily to make room for 17.5 cu. ft. of cargo. Optional at extra cost.

### TRUNK'S UP FRONT

Lots of luggage space under the hood, where it's convenient for groceries, packages.

### NEARLY 3 FEET SHORTER

Corvaire's almost 5 inches lower, 1,300 pounds lighter, too. Its compact size makes it a joy to jockey through traffic, a pleasure to park. No need for power assists.

### AIR COOLED

You never have to fuss with antifreeze. Turbo-Air 6 warms up quicker, with less wear on parts. Air-plane-type heater\* goes to work almost instantly. \*Optional at extra cost.

### 4-Wheel Independent Suspension

Springs at each wheel cushion bumps independently of each other for a ride that rivals much costlier cars.

### Revolutionary Rear Engine

works small miracles with mileage. It's the world's first production 6 with the ultra-smooth power of horizontally opposed pistons.

...and the most practical thing of all is Corvaire's LOW PRICE!

see it drive it

Corvaire BY CHEVROLET the happiest driving compact car
