

Who'll Be Miss Dimmitt?

OUR WEATHER GIRL. Connie Nelson, formerly of Dimmitt and now of Cape Kennedy, Fla., demonstrates that winds from the west blew steadily and mightily over the weekend, often reaching a velocity of 60 mph and seldom waning below 40. She was checking her wind gauge Sunday afternoon when it suddenly got away from her and she was blown right out of the picture. The three-day blow was especially harmful to farmers because

—well, if you planted last week, your seed is now being gobbled up by mullets in the Atlantic. The winds were accompanied by a threatening drop in the temperature that was still hanging on at midweek. It blew so hard to the east, even, that the clock is now running on hour ahead of the sun. All in all, it was a horizontal week, weather-wise.

Teachers Seek Pay-Hike Help

The president of Dimmitt's Classroom Teachers Association issued a plea this week to support state legislative proposals that would hike Texas teacher salaries.

Mrs. Dorothy Sheffy urged those interested in school's to push Senate Bill 16 and House Bill 264, which call for an across-the-board raise of \$800 a year for all Texas public school teachers.

THE IDENTICAL bills are now in committee and have a May 10 deadline, Mrs. Sheffy said. Both bills are supported by the Texas Classroom Teachers Association, but Gov. Connally has said he favors lesser salary hikes proposed in alternate bills.

Mrs. Sheffy noted that a Western Union "public opinion message" containing up to 15 words may be sent to legislators in Austin for 95 cents. She said telegrams should be addressed to State Representative Bill Clayton or Sen. Jack Hightower at the State Capitol Building.

Nine teenage beauties will vie for the title of "Miss Dimmitt" Saturday night at the annual Jaycee-sponsored pageant in Dimmitt High School Auditorium.

The contestants include seven from Dimmitt, one from Hart and one from Nazareth.

"FANTASY LAND" will be the theme of the pageant, and curtain time is 8:15 p.m.

The girls, all high school students, will compete in sportswear, talent acts, formals and interviews. The Jaycees have ruled out swimsuit competition in the pageant.

The winner will succeed Linda Logan, Miss Dimmitt of 1966. A BRIGHT sidelight of Saturday night's show will be a "Little Miss Dimmitt" competition to open the second half of the pageant. In this contest, pre-school girls will appear in their best Sunday dresses.

Jack Clark, chairman of the pageant, said the new "Miss Dimmitt" will be crowned by a Dimmitt Jaycee — but no one knows yet who he will be. The Jaycee selling the most tickets to the pageant will get to do the honors.

All Jaycees are now selling tickets at \$1 for adults and 50 cents for students. Tickets will also be available at the door Saturday night.

JUDGES of the pageant will be Mrs. Kay Smiley of Amarillo, vice-president of the area Jaycee-ettes; Jim Berry, president of the Muleshoe Junior Chamber of Commerce and Bill Barnett of Tulsa.

Don Nelson will be master of ceremonies, and Mrs. Marty Benton is in charge of staging. Organ music will be provided by Mrs. Keith Howard.

The curtain-raiser will be "Zip-py-de-de-dah," followed by sportswear competition and a special number by three former "Miss Dimmitt" winners — Lynda Logan, Keith Ann Howard and Kathy Hill. The contestants' talent acts will ring down the curtain on the first half of the pageant.

AFTER THE "Little Miss Dimmitt" feature and formal competition, a brief second intermission will be held before interviews, finals and crowning of Miss Dimmitt 1967.

The winner will represent the Dimmitt Jaycees at many civic functions during the year, and the Jaycees will also sponsor her in the annual Miss Grain Sorghum Pageant, Texas Junior Miss Pageant, and other beauty and talent contests in the area and state.

Members of the Miss Dimmitt Pageant Committee staging Saturday night's show are Jack Clark, chairman; Mrs. Walter Maynard, entries chairman; Mrs. Marty Benton, decorations chairman; Carl Lee Kemp, Pete Wright, Lewis McDaniel, Wade Maynard and Robert Benton. Former "Miss Dimmitt" winners are also junior members of the committee.

Gas Users Call 'Crucial' Meeting

The annual meeting of the Castro County Gas Users Association to-night (Thursday) will concentrate on a "crucial" situation now facing members, according to President Wade Mills.

THE MEETING will begin at 8 p.m. in the assembly room of the court house.

Mills said the main topic at to-night's meeting will be two competitive gas lines that have received approval to cross the area.

"A far-reaching decision was made by an examiner of the Federal Power Commission recently which can have a vital influence on the price of gas in our area," Mills told members in a letter this week. "In the past three weeks two major pipe line companies were granted permits to cross our area, and they plan to proceed with construction this summer. A full report will be made on this and other developments at the county meeting."

HE ADDED, "It is important that you and your neighbors attend this meeting and lend your support at this crucial time. You will be interested in a report from the attorney and the witnesses who testified in Washington, and in knowing exactly what this can mean to you and your price of gas."

Also on tap tonight are the election of officers, board members, and a director to the Plains Irrigation Gas Users.

NHS Seniors To Give Play

Nazareth High School's seniors will present their annual class play Saturday and Sunday nights in the NHS cafeteria.

THIS YEAR'S senior play is "Creeping Shadows," a three-act mystery comedy. Director is Sister Benedict Marie.

Curtain time is 8 o'clock both nights, and admission is \$1 for adults and students from seventh grade up, and 50 cents for pupils in grades one through six. Preschoolers will be admitted free.

Thursday Wreck Hospitalizes Man

Roscoe Henry "Chief" Rickert, 62, was hospitalized with a severe "whiplash" neck injury last Thursday afternoon after his 1959 Ford sedan was hit by a 1952 Chevrolet driven by Marion Sisco, Cathy, 53, of 403 NW Eighth St.

CITY MARSHAL W. W. Jones said Rickert pulled from the curb into the eastbound lane of West Bedford in front of Cathy's car. Cathy's Chevrolet struck Rickert's car at the left rear door, Jones said.

Rickert was cited for making an improper start from a parking position. He was released from Plains Memorial Hospital Tuesday.

Band Earns Rating of 2

Dimmitt High's Bobcat Band earned a Division II rating in the Buccaneer Music Festival in Corpus Christi Friday.

AFTER RETURNING from the 1,200-mile round trip, Director Ralph Smith said he was "well pleased" with the band's performance in the huge Memorial Coliseum.

Dimmitt School Board Member Named to Area Governing Body

M. E. Cleavinger, Dimmitt school board member, has been elected to a regional board that will establish and govern an education center to serve the entire Panhandle.

HE WAS elected to the seven-member board at an Amarillo meeting of school trustees from all 26 Panhandle counties.

The new board will set up and govern a regional education service center, including an education media center, that will provide the latest in specialized teaching materials to all schools in the Panhandle.

Supt. Paul Hilburn described the new center as "a big step forward in the advancement of general education in public schools." He said the new center will serve as an equalizing force, providing modern equipment and services to school districts that have been unable to keep pace with richer districts.

THE NEW lending center has been authorized by the State Education Agency under provisions of Title III of the National Elementary and Secondary Education Act of 1965. Its cost will be shared by the federal and state governments and local school districts. The local district's share will be \$1 per pupil, based on average daily attendance.

CLEAVINGER, a farm equipment dealer and former school principal and superintendent, has been on the Dimmitt School Board nine years, serving as president for six years.

Other members of the new regional board of education are Charles Rogers and Charles Lutz of Amarillo, Joe Gidden of Canyon, Andy Rogers of Childress, Aubrey Steel of Pampa and Ernest Langley of Hereford.

The new board will organize and elect officers May 19.

THE EVENT will begin at 8 p.m. Berl Huffman, assistant coach at Tech, will be the main speaker. Coffee and cookies will be served.

Program Chairman Bill El is of Friona said the meeting "will not be for fund-raising of any kind—it's just for Tech exes and friends of the college to get together."

2. Airmail to the rest of the Western Hemisphere remains 15c a half ounce...

3. Airmail to Europe and Mediterranean Africa from 15c a half ounce to 20c.

4. Airmail letter rates to the rest of the world remain unchanged at 25c a half ounce.

5. Aerogrammes and air post cards increased 2c each from 11c to 13c.

6. ITEMS SENT by air, other than letters and parcels, such as small packages, books, periodicals and other printed matter increased 10c per piece to all countries except Canada.

7. Most letters going by surface transportation to all nations (excluding Canada and Mexico) increased from 11c to 13c. Post cards raised from 7c to 8c.

8. Most printed matter, including publications, increased one cent a piece. For second class publications to Canada only, the one cent increase will be deferred for six months to become effective Nov. 1.

9. Surface parcel post rates to all nations increased 20c a parcel, an average of 7 percent.

Postage rates for surface first class letters and air letters and surface third class type printed matter to Canada and Mexico correspond to US domestic rates, which are set by the Congress.

"GAIN THE WHOLE WORLD BUT FORFEIT LIFE"

By Ronnie Parker

We are all busy writing the history of our lives. At the end of each year we close another chapter and at the end of life we close the book.

Jesus said, "For what shall a man be profited, if he shall gain the whole world, and forfeit his life? Or what shall a man give in exchange for his life?" Matt. 16:26.

The soul is of value because it comes from God and is made in his image. It is the only part of man that is eternal and if the soul is lost, it is lost forever.

Ask any boy and he will tell you... IT'S A WONDERFUL FEELING

When winter is past and most of the spring rains have come and gone, what a joy it is for a boy to go barefoot and feel the warm moist earth oozing up between his toes and the hot sun on his back... It's a wonderful feeling — remember?

If it has been some time since you were in the warm company of like-minded Christians and basked in the warmth and love of God's glory and grace as manifested in His Church, attend this coming Sunday. It's a wonderful feeling to sense that you are in tune with God, your fellow man, and the universe.

"I was glad when they said unto me, let us go into the House of the Lord." Psalm 122:1.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish.

Postal Service Still Attempting To Close Savings

United States postal savings certificates which are on deposit at post offices stopped earning interest for depositors last Thursday, Postmaster John Wood said today.

Nationwide, the Post Office Dept. is holding more than \$90 million in the now obsolete program, which was discontinued by Congress March 28, 1966.

As of April 27 a year ago, postal savings were discontinued, and no deposits were accepted by the Post Office Dept. Certificates whose anniversary dates have been reached since last April 26 have earned their final interest payment, Wood said.

ON JUNE 30, he said, all remaining funds in the program will be turned over to the Treasury Dept. to be held in a trust fund until liquidated. There they will remain available for payment without time limitation whenever proper claims are received.

Wood urged that all postal savings depositors close out their accounts and invest their funds into US Savings Bonds or the new Freedom Shares.

GOP Taps Price For Crime Study

House Minority Leader Gerald Ford of Michigan and Congressman Charles E. Goodell, chairman of the House Republican Research and Planning Committee, have announced the appointment of Panhandle Representative Bob Price to a newly created Task Force on Crime committee.

The task force, made up of 13 Republican members of the House, will be headed by Congressman Richard Poff of Virginia.

IN A JOINT statement Ford and Goodell said:

"The Task Force on Crime will provide thoughtful analysis of the problems and a practical program for dealing with crime. ... With the rate of criminal incidents outstripping population growth, action based on sure knowledge is urgently needed. There is an atmosphere of fear of the criminal throughout the nation. A recent survey by the President's Commission on Law Enforcement and Administration of Justice reported that 43 percent of the respondents stay off the streets at night because of fear of crime."

Congressman Price, they said, "was selected for membership on this Task Force because of his background as a rancher and banker and his participation in regional Boy Scout and other youth activities as well as his interests in crime problems on all levels."

POFF SAID the Task Force would deal particularly with such matters as juvenile delinquency, crime prevention, rehabilitation, organized crime, law enforcement and the administration of criminal justice.

Scout Camp Plans Begin

The camp staff of the South Plains Council will assemble at Camp Post May 28 to begin a one-week training session to prepare for the coming action that will start June 4 as Boy Scouts from the area converge on the camp for the 1967 season.

Tcm Cherry, assistant Scout executive, said there will be at least four donkeys complete with pack saddles for the Scouts to use this summer on overnight hikes to areas in and around the camp.

First Speech Banquet Highlighted by Awards

Dimmitt's first Speech Banquet was given the Colonial Inn Saturday night, April 22. All speech and drama members were urged to attend this as it would be to honor outstanding members of drama.

As we walked in, the party favors caught our eyes. At each place was a small package of make-up. SANDRA COFFMAN, president of the National Thespians, gave a warm welcome to everyone. Mistress of Ceremonies, Carolyn Dunn, then took over and started

the entertainment. Sharron Flynt read a cute poem entitled "When Boy Meets Girl." Garland Jarvis played several piano selections. While Garland was playing, Miss Griffing practiced an impromptu pantomime to the beat of Garland's music. She had everyone laughing by the end of Garland's selection. Garland retaliated by striking an extra loud note and this brought a big burst of applause for him. After Garland had soothed us with his piano selections, Sammy King ambled up to the speaker and had everyone cheering at his "Cajon" jokes. Guests especially enjoyed the Southern accent. Evelyn Taylor told a "hillbilly" story and sang on "Speech Defects." Wendell Moore and brother, Gary, really entertained with their three guitar selections. Gary became very unhappy as Wendell kept telling him, "Not yet, Little Brother!"

was presented to Susan Walker for her hard work in drama and especially on the banquet.

The speech and drama classes would like to thank those who put in so much work to make the banquet possible. We would like to put in a special note of appreciation to Susan Walker and Miss Griffing. We hope these banquets will become a yearly tradition.

Latin America Assembly Topic

Monday, April 24, 1967, Mr. and Mrs. James Holden came to Dimmitt High School with some very interesting tales to tell. The Holdens are missionaries in Colombia, South America.

THEY BEGAN touring high schools all over the United States by request of the Rockefeller Foundation to inform students of life in our neighboring countries south of the border.

Mr. Holden took the students on an imaginary tour from Miami, Florida, to Bogota, Colombia. He gave his view points on several important issues in our government today. The student body showed its appreciation by giving him a standing ovation.

AS MR. HOLDEN said, one can never really appreciate the opportunities and advantages of the United States until one has lived in another country for some time.

Powell Deserved It

"Vote for me! I am your leader. Don't listen to what Congress says. They're just a bunch of low-down skin-flints."

The preceding statement was made recently by Mr. Adam Clayton Powell. This is very typical of one of his speeches. He has called Congress many things I will not even try to repeat here. He has degraded our very form of government by throwing such insults at our governing body.

HE HAS BEEN ousted from Congress for misappropriation of funds, and now he is appealing to his own people to show Congress up. He has counted on and recently won the race in Harlem. Yes, he has fooled the people,

and now he expects to fool Congress.

Many people say that perhaps he is innocent. It is not true! Congress made sure he was guilty before they ousted him. After all, what would Congress have to gain by lying? For one thing, Congress doesn't like to have one of its members investigated. It gives Congress a bad image. So Congress would make very sure before convicting one of its members of anything "un-American."

NOW, AFTER being convicted beyond the shadow of a doubt, Mr. Powell thinks he can make Congress appear foolish. This should not happen. There is no room in

our government for dishonest politicians.

This country was built on the principle of honesty and integrity. If this man is allowed to return, then our country was built for nothing. All the lives lost in wars for the cause of honesty and goodness have been in vain.

Today in this country, honesty is at its lowest level. Integrity and goodness are no more. Rising crime, deinquency, drugs and many other things prove this. It's just about time that our Congress proved that America is still honest and free. If they will refuse to re-seat Powell, they can prove to the whole world that honesty in America still lives.

Students Present Oil Paintings To Mrs. Dollar and Mr. Moore

"Twenty-five, fifty, seventy-five, a dollar, yeah! We have enough—let's go get it!"

This statement was heard in the DHS hall on April 24, 1967, as the students counted the pennies donated to buy Mr. Moore, DHS principal, and Mrs. Dollar, a good secretary and faithful friend to every student in DHS, an oil painting exhibited at the art show in DHS.

Mr. Moore was presented a painting of a colorful clown smoking a cigar at the assembly Monday morning.

LATER in the day other students took up a collection to buy a painting which had caught Mrs. Dollar's eye. Tears of joy came to her eyes when she learned all the money she had been counting was for her. The painting she received was a sunset on an ocean. Both paintings were on black velvet in frames finished in antique off-white.

Both Mr. Moore and Mrs. Dollar have done so much for the school and student body. These gifts were a token of the appreciation from the DHS student body, because we do appreciate them and their faithful work.

Spanish Teacher Lauds Assembly

Miss De La Cerda, sponsor of the Spanish Club was very pleased with the assembly, Monday. She has traveled all over Old Mexico and studied in Mexico City. She said the display of paintings was a very good representation of Spanish art. The Spanish Club bought two beautiful paintings, which were donated to the Spanish room.

MR. AND MRS. James C. Holden, missionaries from Colombia, have been traveling in the United States for twenty-six years. Mr. Holden stated that the purpose of the display was to show of the culture of Latin America and add color in the program. He also said Texas, Oklahoma, and New Mexico were the most patriotic states he has visited, and Dimmitt High School ranked among the most courteous schools to which he has been.

History Students Make the 'Top 10' In Canyon Event

Last Thursday the ninth annual United States and World History Contests were held in Canyon. Two separate contests were conducted — one in World History and one in United States History.

STUDENTS entering the World History event from Dimmitt were Sandra Hilger, Judy Arnold, Rob Upfold, and Charles Shannon. Students entering the United States history division were Robbie Sheffy, Tommie Hutcheson, Vikki Otte and Mary Lee Stone.

Since both contests were held at the same time, the contestants could only enter one contest.

THE TESTS consisted largely of objective examinations which covered the entire scope of the courses in the United States history and world history. A brief essay was written on a topic which was assigned at the time of the test.

The purpose of having this contest every year is to encourage the study of history in high schools of this area by providing public recognition for the best students in these two fields.

TROPIES were awarded for first and second place in each contest. Class I medals were given to the top 5 percent of the contestants in each contest and Class II medals to the next 5 percent in each contest.

Amarillo High, Tascosa, and Palo Duro, all of Amarillo, took the lion's share of awards. Pampano High students won trophies in the American History contest.

The participants from Dimmitt were in the top ten percent and we are very proud of them.

So ended another mystifying case at DHS!

When Band Goes, Classes Dwindle

Late Tuesday afternoon it was reported 115 students were missing! Wednesday morning this report was confirmed as the halls of DHS were almost empty.

THERE WAS NO trace of them at all, except for a few tire tracks made by a large truck or bus.

At school some of the kids moped around without speaking a word. The classes were small and very quiet. Everyone was amazed at how this many students could just disappear. Where they playing hooky, or had they been kidnapped?

Several people were asked how they liked such a small high school, and the replies were: David Morrison, "I think it is rather lonesome." Mr. Cooper: "It's the quietest these halls have been in a long time."

THE REPORT was that these missing students were members of the "A" band, who, with Mr. and Mrs. Ralph Smith, Mr. and Mrs. Lusk, and several parents boarded four charter buses bound for Corpus Christi. The group returned Sunday after a fun-filled week.

So ended another mystifying case at DHS!

Graduation, Then What?

The lights in the auditorium had just been darkened; the last "Congratulations" had been fervently bestowed; and the last graduate had left the halls of a loved place.

Then what? Have the last frontiers really been conquered? Is this as far as we will go?

SCIENTISTS OF today tell us that in the near future there will be vast harvests of food from a few hundred square miles of the ocean. That from the ocean will come drugs and antibiotics which may possibly be the cure for diseases which so far have been considered incurable. Isn't this a challenge to discover what is yet unknown? Isn't this an unknown frontier to explore?

What about the graduate of tomorrow? Those promising students who are awaiting the begin-

ning of what seniors in high school are now completing? Isn't each little mind a frontier which needs developing in knowledge, citizenship, and patriotism? Isn't there a place here for those who would dare to train a new generation?

WHAT ABOUT the freedom of a great country such as ours? Each year there is a threat to this marvelous freedom we enjoy. Both from within and without are those influences which would destroy the American way of life. Each dawn brings a new frontier of courage to face, battles to be won, and advances to be made to keep what is so dear to our hearts.

What about the souls of men, who have not yet sought a Supreme Being to whom they can dedicate their lives? Isn't this the greatest of all endeavors, that we teach men not only how to live,

but how to die? Isn't this endeavor a new challenge?

The lights are out! Maybe — but we who will go out to fill a place in our world, face the opportunity of turning on lights in all fields of endeavor if we hold within ourselves the courage and convictions which are our heritage.

**Need a Friend?
BE a Friend!**

Look around you. You are surrounded by people. Each of these persons is a potential friend. With so many of these people around, why are you lonely?

Friendship is a 50-50 proposition. One has to give a little and take a lot. A person must be able to overlook those little faults in friends. Don't expect a friendship to blossom unless you make the first move to be friendly. When you meet a stranger, don't wait for him to greet you. Give him a hearty smile and great big "Hi there!" You can bet it will always be returned in the same manner.

DON'T BE a loner. Join the masses—be a part of the action. The best way in the world to meet people is to unite for a common cause. The cause is not necessarily the dominant factor. It can range from a Saturday Sewing Circle to the Society for the Prevention of Cruelty to Animals. The important thing is the team-work. Join in the many things you enjoy doing and be an enthusiastic member. You will never be lonely in a warm environment created in this manner.

It is human nature to feel the need of companionship. Why be lonely? Give of yourself and you will be smothered with friendship.

Band Leaves Halls Bare

DHS was a rather barren place this past week while the band was in Corpus Christi. The band left Tuesday night about six o'clock and returned Sunday morning around six. The group participated in a contest, went sight seeing, swam, ate, and had a fine time generally.

Cheerleading tryouts will be held May 22, in the gym. The announcement was made Monday that practices would begin sometime this week.

Many DHS boys were at the Amarillo Drags he'd Sunday afternoon to support the "Cantankerous Canary," as Mike Woods entered his car for the first time in D-gas class. Although he did not win anything, his car is expected to get from 13 to 12½ e'apsed time.

GARY SINGER, a sophomore, won a trophy in F-Stock automatic class. Another trophy winner was Steve Buckley for J-pure stock. Chuck Lay entered in class A-Stock automatic but did not receive a trophy.

The DHS Industrial Arts Club went to West Texas State University Saturday, for the Industrial Arts Fair. Projects in both wood-working and drafting were entered. The club will also attend a luncheon and hear guest speaker Thomas Oliver, who was named Texas Industrial Arts Teacher of

the Year. Some fifty students will enter the group projects in this fair. Mr. DuBose accompanied the group.

Sunday afternoon, Carolyn, Patty, and Betsy Simpson, Ronnie Andrews, Stan Solomon and David Harris took a picnic dinner to Pa'o Duro Park. After a good meal with the rest of the ants, they loked and goofed around and had fun.

CHARLES HODGE, David

Bunch, and Billy Glidewell were victims of an accident Sunday, April 23. The three were driving on a country lane in Charles' pickup. And, for some unexplained reason (according to the boys) the pickup flipped over. We are glad there were no serious injuries, especially after we saw the pickup.

Sue Gee was injured also this week. She caught her thumb in a Cash Register, of all things! And

Engaged Couple Buys Paintings

Have you ever heard of anyone buying pictures for a home before living in it? Tommy Stafford and his bride to be, Donna Dehtan purchased three beautiful paintings after the assembly, Monday, April 23. They were bought to live up their new house.

THEY PLAN to exchange vows May 28, 1967. Tommy is a senior in DHS and Donna graduated in 1966, and is working at the First State Bank in Dimmitt.

There just couldn't be a house without something to look at so, they decided to decorate it up to par. One painting was a Siamese cat with a statue of Buddha in the background. The other two were matadors. Surely they will enjoy these paintings very much.

Pampa to Host Air Show Sunday

Pilots and other interested persons within a 350-mile radius of Pampa are invited to attend an Aviation Day Celebration at Perry Lefors Field in Pampa Sunday.

The event is sponsored by Pampa Senior Squadron Civil Air Patrol.

THE DAY will start with a fly-in breakfast from 7:30 until 10 a.m. Following the breakfast will be an exposition of sky diving at 10 a.m. and 2 p.m. Helicopter rides will be available as well as airplane rides for a penny a pound.

A variety of aircraft will be on display. Also to be held will be several flying skill contests including a jack-pot spot landing and flour bomb contest.

CAP members will serve sandwiches and cold drinks throughout the day.

to make matters worse, the cash register was at Amarillo Air Force Base! She CLAIMS she was making change for her brother who works at the base.

THE LOCAL Rotary Club arranged for the Mobile X-Ray Unit to be in Dimmitt, May 3 and 4 to take chest X-Rays of all students of Dimmitt schools 12 years of age or over.

Price Bill Asks Beef Import Cut

A bill to revise the meat import quota system and cut present US beef imports by more than one-third was introduced by Congressman Bob Price last Thursday.

PRICE WAS joined by both Democrats and Republicans in introducing the bill.

Price told House members that meat imports were now approaching the 1963-64 level of more than a billion pounds a year which, he said, had wrecked the

cattle market and resulted in "bankruptcy prices to cattlemen." The Panhandle congressman charged that the meat import act passed in August, 1964, had been ineffective because the roll back figure was too high to begin with.

Also, Price said, the adjusted base formula used in the bill had allowed imports to increase since that time by 179 million pounds annually and that the present rate could reach almost a billion pounds a year before any action to impose quotas could be taken.

"**THIS bill,**" Price said, "would do six things: First, it would eliminate the 10 percent over-run so that imports could not exceed the actual adjusted base quota. Second, it would relieve the Secretary of Agriculture of the duty of estimating in advance the level of imports to determine whether they might be greater than the allowable. Instead, the quota would be imposed by the law itself.

Third, the bill would change the period under which total quotas would be based. This bill would use the average of the 5-year period 1958-62 thereby eliminating the highest year on record, 1963, and establish the base at 585,500,000 pounds compared with the 1967 base of 904.6 million.

FOURTH, the bill proposes that quotas be imposed quarterly instead of annually at present and thereby smooth out the flow of imports throughout the year and prevent seasonal surges.

Fifth, the bill would give the executive branch authority to impose quotas on the importation of other meat products if necessary to prevent a damaging flood of other products.

Sixth, the bill provides that offshore purchases of meat by the Department of Defense for the use of our troops abroad or otherwise shall be charged against the quota applicable to such meat.

SINCE last year," he continued, "the price of cattle has declined sharply. Choice steers on the Chicago market in March averaged \$24.67 a hundred pounds compared with an average of \$29.22 for March a year ago. Cattlemen are facing, if not already in, a repetition of the conditions of 1963-64 when imports were finally rolled back."

Price said he was a firm believer in reciprocal trade, but that "agriculture cannot be sold down the river in the interest of industrial exports and a favorable balance of trade without further serious injury to the farmer and rancher."

Price Reports:

Worsening Farm Plight Demands Public Action

By BOB PRICE
Congressman, 18th District

One of the big problems Congress faces, especially the House Agriculture Committee on which I serve, is the worsening farm situation.

I HAVE HAD many letters recently from both farmers and businessmen in smaller Panhandle communities about the continuing decline in farm income and the resultant depressing effect on business in the smaller towns.

Actually, business in Amarillo, Borger, Pampa, Hereford and other communities with industrial payroll is adversely affected by the comparatively low level of farm and ranch net income.

Farm prices dropped in February to only 74 percent of parity and remained at 74 percent during March. In only one other month since 1934 have the prices farmers received for what they produce been so low in relation to the prices of the things they must buy to produce their crops and livestock and to live on the farm.

CONSUMERS of this nation should understand that we might be short of food in this country today if our farmers depended solely on prices received in the market place and if these prices had been as low in all the years since 1940 as they are today.

There probably would not be enough resources now left in the agricultural economy to provide abundance for our own people and certainly no possibility of sharing food with the hungry millions of other nations.

Addressing a farm credit group in Houston recently, Rep. W. R. (Bob) Poage, chairman of the House Agriculture Committee, said he was deeply concerned by the hue and cry last year from housewives and boycotts across the country when the prices farmers received for some of the goods they produce advanced moderately and prices at the grocery stores advanced more.

And this all happened, Poage pointed out, in a year when prices farmers got for what they produced were substantially — actually 5 percent — below what they were 20 years before, and they are substantially lower than that today. Food prices for the same period are up 35 percent.

TODAY, the farmer receives only 5 1/2 percent of the US consumer's total after-tax income for his products — one-half the share he received in 1947. But during the past 20 years hourly earnings of industrial workers have advanced 123 percent and corporate dividends are up 232 percent.

This story could go on and on — the inflated prices a farmer must pay for everything — machinery, building materials, labor, medical and hospital care. In the nation as a whole and particularly in the Panhandle, agriculture is our biggest industry. It is also our most vital industry, but the least rewarded.

The competition of higher paying jobs and public assistance payments in cities keeps a steady stream of farmers and farm workers moving off the land. Our farm population today is down to 12 million, less than half what it

State Ag Rendezvous Recommends Board for 'Optimum Development'

Creation of a state board for "optimum development of agriculture" was one of 12 recommendations to come from an Agriculture Study Rendezvous at College Station last week.

The governor-appointed board would be composed mostly of persons in agriculture and agribusiness.

ABOUT 400 industry leaders and A&M personnel attended the rendezvous, which climaxed a year-long look-see at the state's agricultural conditions and aspirations. The Texas A&M University System board of directors requested the study.

The 12 recommendations were listed by Fred Wulff Jr. of Brady, general chairman of the agriculture study steering committee. In addition to the state board, other recommendations were:

—Set up a method for Texas agriculture to provide some of its own funds to help market food and fiber.

—Establishment by the A&M System of an Agricultural Planning System of Texas to develop long and short term objectives.

—A STUDY of A&M organization, with the possibility of more coordination of natural resources activities.

—A re-examination of the A&M College of Agriculture to assure top coordination in a dynamic agricultural industry.

—Emphasis on A&M's program to staff and equip research and extension centers in the state.

—More emphasis on the humanities in college level curricula for undergraduate students in agriculture.

—EXPANSION of vocational training for teenagers and adults not attending college.

—Extended study leaves for professional staff members of state educational institutions.

—Endorsements of the Agricultural Extension Service specialist concept.

—Strengthening of the Agricultural Extension Service area specialist program to enable county home agents to better serve the public.

—Teaching and research facilities in wildlife ecology (environment) and management should be bolstered.

THE overall study was made by five task forces. Subject areas and chairmen of each were livestock, poultry and animal products, V. A. (Bill) Clements of Longview; crops, Norman Moser of De Ka'b; supplying, processing and distributing industries, Dan Davis of Lubbock; natural resources, John Wells of Plano; and human resources, Penrose B. Metcalfe of San Angelo.

Cotton Committees Meet Today To Map Attack on Boll Weevil

Policies and procedures for the 1967 High Plains Boll Weevil Control Program will be determined by the program's Area-wide and Steering Committees at a meeting of the two groups today (Thursday) in Lubbock, according to Ed Dean, field service director for Plains Cotton Growers, Inc.

THE MEETING will begin at 10:30 a.m. at the Holiday Inn Parkway, 2600 Parkway Drive. It was called by John Fugh of Lubbock, chairman of the Area-wide Committee, and Don Anderson of Crosbyton, Steering Committee chairman.

"The success of the first three years of this program cannot be questioned," Dean said. "Weevil populations in the infested zone along the eastern edge of our area have been cut by something like 98 percent and their westward migration has been stopped cold."

But he cautions, "This tremendous progress, unfortunately, does not mean that the weevil threat has been eliminated. There are still some weevils in the area, and studies by entomologists have established that these almost infinitesimal populations will build back to the original level in just one or two years if effective control measures are not continued."

THE CONTROL program for the past three years has been financed jointly by cotton producers in PCG's 23 counties and the Texas Dept. of Agriculture, with matching funds from the federal government. On hand to give the producer committees technical details of a proposed spray program for 1967 will be Dr. Perry Adkisson of Texas A&M's Entomology Dept., and Bill Hare, state supervisor of USDA's Plant Pest Control Division. Both are members of the program's Technical Advisory Committee, made up of the leading boll weevil authorities in the nation.

In addition to the regular operations of the program aimed at reducing populations and controlling migration of weevils, plans are also being made for additional basic research facilities in the

area designed to speed up the development of the sterile-male and other non-chemical techniques for weevil eradication.

THIS WOULD involve a building and equipment for basic research and facilities for mass laboratory rearing of weevils to be sterilized. The Texas A&M Board of Directors has recently approved funds for the basic research installation.

Federal Pricing On Milk Changed

Federal milk marketing orders have been amended effective May 1 to eliminate seasonal pricing schedules and to maintain fluid milk prices paid to farmers under federal orders at levels which generally reflect the higher seasonal Class I price.

This was announced by the US Department of Agriculture, which proposed the amendments after recent nationwide hearings. The proposals were approved by dairy farmers in 67 federal order markets.

Seasonal price schedules will be eliminated in 39 markets where this practice is now followed and, to keep markets in balance across the nation, the fluid pricing acters will be made to apply to 67 federal order markets through April 1968.

In markets where fluid prices are related to manufacturing milk values, the Class I pricing differentials used in computing fluid milk prices will be increased 20 cents a hundredweight on an annual average through April 1968. Also, during the same period, the basic formula price to which the differentials are added in computing fluid milk prices cannot be less than \$4.05.

Federal milk orders set minimum prices to dairy farmers, officials said, but do not regulate retail prices.

Federal order markets in the Southwest included in the action are Lubbock-Plainview, North Texas, Central West Texas, and Texas Panhandle.

THE "VOYAGEURS," who carried the early fur traders into northwestern Canada, paddled their canoes an average of 80 to 100 miles a day.

BUILT BY STUDENTS in Dimmitt Junior High School's industrial arts classes, this frame house will be sold May 15 to the highest bidder. The seventh and eighth grade boys and their instructors will host an open house May 14. In top photo, the two classes of boys and DJHS industrial arts teacher John Stalcup (right) invite the public to see their handiwork. In lower left photo, shop teacher David Keith shows the storage closet at the end of the hallway. The hallway leads to two bedrooms at left and a third bedroom and a bath with shower, tub and vanity at right. Lower right photo shows the kitchen and a portion of the front room, taken from the dining area. The boys have worked on the house as a practical education project since the latter part of October. They did all the construction work themselves except for help on the plumbing from Andy Alexander and on the wiring from Jim Upfold and Ed Dowsa of the school of maintenance department. This is the third annual house construction project by DJHS's building trades department.

'Six Flags' Opens for '67

Six Flags Over Texas began its 1967 season Saturday.

DURING THE spring, the 115-acre, historical entertainment park located midway between Dallas and Fort Worth will be open on Fridays from 5 p.m. to 11 p.m. and on Saturdays and Sundays from 10 a.m. to 10 p.m.

Starting May 26 and continuing through Labor Day, the park will be open seven days a week from 10 a.m. to 10 p.m. Following Labor Day and until the season closes Oct. 29, Six Flags will operate on Saturdays and Sundays only from 10 a.m. to 8 p.m.

The Run-A-Way Mine Train ride, key project in the million-dollar expansion of the Boom Town Section of the park which was begun

last season, has been completed over the winter months.

An attendance milestone will also be reached during the forthcoming season, as Six Flags anticipates welcoming its 10-millionth visitor sometime during August. The park, which opened in 1961, has already counted over 8.5 million visitors.

IT WAS A HAPPY DAY for Friona Friday when Missouri Beef Packers, Inc., officially announced plans to build the Southwest's largest beef packing plant there. Here, Gene Fry (second from right) president of Missouri Beef Packers, reflects the joviality of the announcement press conference as he talks with three members of the Friona

Industrial Development Committee. From left are Dr. Loyd Schackelford, Andy Hurst, Fry, and A. L. Black. Friona residents, through their Friona Texas Development Corporation, raised \$90,000 to provide Missouri Beef Packers with a site for the new plant.

Friona Packing Plant To Be State's Biggest

The Friona Chamber of Commerce Industrial Committee and Missouri Beef Packers, Inc., announced Friday that the Missouri company will build a \$3 million beef plant southwest of Friona.

THE PACKING plant is expected to employ from 225 to 250 people, and will be located on land to be purchased by the Friona Texas Industrial Development Corporation and donated to Missouri Beef Packers, Inc.

Details of the new industry's size and production capabilities were outlined at a press conference Friday afternoon at the Friona Country Club.

The beef processing plant will have the capability of being the largest of its kind in Texas and the Southwest, and possibly the largest in the world. It will have the capacity to slaughter 10,000 cattle per week, or almost 2,000 per day.

as possible, MBP officials said, and target date on having the plant in operation is April 1, 1968.

ADDITION OF the beef plant further solidifies the market for the area's grain sorghum, and enhances the cattle feeding business in the area.

Cattle feeding, which has just begun to come into its own, received a shot in the arm in Parmer County when two mammoth feeding operations were announced within the past month. One, with a future capacity of 50,000 head, is to be built west of Friona, and another with a possible 30,000 capacity, is to be built near Bovina.

THE AREA already had one of the largest cattle-feeding operations on the Plains, Friona Feed Yards, which operates at 27,500 capacity. Also boosting the area's cattle feeding industry are Castro County feeding operations with a combined capacity of 40,000 head.

The new packing plant will add over \$1 million annually in payrolls alone to the economy of the Friona area.

Presently, the largest independent packing plant in Texas is Neuhoff of Dallas, which slaughters slightly over 100,000 head of cattle annually. The plant to be built by Missouri Beef expects to slaughter almost 400,000 cattle per year.

The industrial development committee of the Friona Chamber of Commerce, spearheaded by Dr. Loyd A. Schackelford, has worked feverishly on the packing plant project for the past six months. Other committee members are A. L. Black, Andy Hurst and Frank A. Spring.

ROBERT E. Frye, who formerly was with Iowa Beef Packers of Dennison, Iowa, is president of Missouri Beef Packers. Harry Nelson is executive vice-president and Melvin Rolif is chairman of the board.

Missouri Beef Packers, Inc., is an independent packing corporation located in Rock Port, Mo. Chartered Nov. 15, 1964, the young giant set up a company on

a sound financial basis unequalled by any new large packer first entering the industry.

The corporation's young management team was aware that it was entering an industry wracked with adversity, but was fully alerted to the fact that the industry was going through its first major evolution in a century, offering tremendous potential for the new

Sen. Ralph Yarborough

18-Year-Olds Need the Vote

By Sen. Ralph Yarborough (D-TEXAS) Dear Fellow Texan: On Jan. 12 of this year, Sen. Mike Mansfield of Montana, the majority leader of the US Senate, introduced a proposal to lower the voting age to 18 through an amendment to the United States Constitution. It was my privilege to join with 37 other senators to sponsor this proposal, known as Senate Joint Resolution 8.

FOR TRADE: We buy, sell, trade, anything of value. Texas Salvage Sales 25 tfc

LEGAL NOTICES NOTICE The Board of Trustees of Dimmitt I.S.D. will receive bids on a dwelling house, built by Building Trades Class, until 5 P.M., May 15th, 1967 at 5 P.M. could well be used by those 18 years of age today. In 1966 3 1/2 million of the 18 and 19 year olds were employed; they were earning money and paying taxes. They contributed to our economy through their efforts and services, and they have helped finance our nation through their taxes. They deserve the right to a voice in deciding where their taxes go.

Today there are over 416,000 young men 18 and 19 serving in the armed forces of the United States. A great many of them are risking their lives daily in Vietnam. And yet they are fighting and dying for a country which does not even allow them a vote in selecting the officials who may determine their destiny. THESE YOUNG people also shoulder a greater responsibility today at home. In 1966, 700,000 of our 18 and 19 year olds were serving as heads of households. Too often we let the sensationalism of our news media obscure the truth of the situation concerning our young adults. The 400,000 young men in uniform, and the millions working their way through college, and the hundreds of thousands who are supporting their families are usually forgotten when we hear of a small minority committing crimes or burning flags and draft cards. A PERSON who supports our nation through taxes and may be called upon to die in Vietnam as a result of decisions by his nation's leaders, also deserves the right to cast this vote in selecting these officials. The recent Gallup Poll shows that 64 percent of all the people in the United States now favor the right to vote by those who are 18 years of age and above. It is for the millions of good citizens of this age bracket that I appeal, for people at 18 years of age in America today are better educated and informed than ever before in our history.

H-D Notes

May Is a Merry, Memorable Month

By IRENE KEATING
Well, here it is May already. I've been here a year and I am proud to say it's been my best. I look forward to another good year. All of you have been wonderful to know and work with.

I'd like to remind you 4-H'ers that our bake show will be May 13 instead of May 6. I am going to Arkansas to my twin sister's wedding this weekend.

NEXT WEEK is "the week" for THDA. It is THDA Week. To celebrate, all Home Demonstration Clubs in the county will have a luncheon May 11 at the Colonial Inn. Martha Nitsa will be guest speaker. The 1967 Home Demonstration Club Woman of the Year will be revealed. Each of the three clubs presented a candidate.

May has been declared as Senior Citizens Month. Let's remember our senior citizens and make them as useful as possible. Why

don't you each do something special this month for an elderly person you know.

SINCE MAY is also National Salad Month, I want to share a'd recipes with you. Prepare several new salads this month.

GOLDEN SLAW
Use four hard-cooked chopped eggs, $\frac{1}{4}$ teaspoon salt, 2 teaspoons prepared mustard, 2 teaspoons vinegar, one-third cup chopped sweet pickles, 2 cups shredded cabbage and $\frac{1}{4}$ cup cooked salad dressing. Combine ingredients and toss lightly. Ch'l. Serve on lettuce; garnish with pimiento strips or chopped parsley. Serves four.

THE COOKED salad dressing used in this recipe is also good for many other kinds of salads. You can make this dressing with 2 tablespoons sugar, 1 teaspoon salt, 1 teaspoon mustard, $\frac{1}{2}$ tablespoons flour, 1 egg (slightly beaten), $\frac{1}{4}$ cup milk, $\frac{1}{4}$ cup vinegar and 1 tablespoon butter or margarine. Combine the sugar, salt, mustard, flour, egg and milk in top of double boiler; blend thoroughly, stir in vinegar gradually. Cook over hot water, stirring constantly until thick, about 10 minutes. Remove from heat, add butter or margarine and blend. Cool and store in refrigerator. Makes $1\frac{1}{2}$ cups.

There are many variations of this dressing, which can be used for various types of salads. Three of the most popular for vegetable salads are:

CALICO dressing: To $1\frac{1}{4}$ cups cooked salad dressing, add 1 hard-cooked chopped egg, one pimiento, chopped, and 2 tablespoons dill pickles, chopped. Makes $1\frac{1}{2}$ cups.

MUSTARD DRESSING: Add 2 tablespoons of prepared mustard to the basic recipe after cooking. Makes $1\frac{1}{2}$ cups.

SAVOY dressing: Add $\frac{1}{4}$ cup pickle relish to the basic recipe after cooking. Makes $1\frac{1}{2}$ cups.

ONE OF THE finest of salads for those special occasions is CEASAR SALAD. You'll need 2 cloves garlic, one-third cup salad oil, 3 tablespoons vinegar, 1 teaspoon Worcestershire sauce, $\frac{1}{2}$ teaspoon salt, $\frac{1}{4}$ teaspoon pepper, 2 cups bread cubes, $\frac{1}{4}$ cup salad oil, 3 quarts shredded salad greens, one-third cup grated Parmesan cheese, one-third cup blue cheese (crumbled), 6 anchovy fillets and 1 raw egg.

Make croutons by frying bread cubes in $\frac{1}{4}$ cup salad oil with 1 clove garlic, split. Fry until crisp and golden brown on all sides.

To mix the salad, mash 1 clove garlic; add one-third cup salad oil, vinegar, Worcestershire sauce, salt and pepper. Place salad greens in wooden bowl. Top with cheese and anchovies. Strain garlic from dressing. Pour dressing over salad; add egg; toss until egg is not visible. Add croutons; toss lightly. Serve immediately. Serves 6-8.

Mrs. Wesson served a salad plate to Mesdames Jimmie Pinner, Cosby, Ivey, Lester McDermitt, J. A. Ramsey, C. A. Hance, Bill Booher, Faye Kemmore, Sam Maynard, Raymond Hance, Lela Dodson and Leora Calhoun.

The night WMS meets at 7:30 the first Tuesday night of each month and new members are welcome.

How do you measure a church? I'm not speaking of space in a church building but spirituality in church members.

Two tangible plumb lines are used: i.e. attendance and giving. These do not tell the whole story but they are partial indicators.

Showing up has to be a measure of faith. We would question the sincerity of a man who says, "I believe in democracy but I don't vote," or "I'm crazy about football but I never go to the games." How about that strange specimen who asserts, "I love God but I never worship Him?"

Giving has to be a measure of faith. Money plays so dominant a part in our lives that it has become an extension of our personality. What we do with money shows what we think is important. How inconsistent to say, "I love Him but not enough to support His work!"

The Church in Training Union
April 30, 1967

A dejected farmer once asked, "Preacher, do you know what it is like to prepare a field, sow a crop, care for it and then watch it destroyed by hail?" I wonder, could it be kind of like coming to the earth, dying on a cross, cultivating with deep love, planting seeds of the gospel in people's hearts and to see them ignore you as they are destroyed by their own selfishness?

THE 1967 'BOBCAT,' Dimmitt High School yearbook, came in this week—and it's a beauty. Justifiably proud of the new school annual are these five "department heads" of the staff. Seated from left are Carolyn Simpson, photographer, showing part of the senior picture section; co-editor Peggy Dunn, displaying a double-page, full-color print of the DHS entrance; and co-editor Carolyn Dunn, with her annual open in the personality section, entitled "Pride and Joy of DHS." Standing are advertising manager Sandra Coffman, displaying the introductory pages of the "Community Life" advertising section; and Miss Bernice Littlepage, sponsor of the annual staff. The yearbooks were distributed to students Wednesday.

DHS Yearbook Colorful

Dimmitt High School's 1967 yearbook, "The Bobcat," uses more than a thousand pictures — many of them in full color — to tell the story of the school year.

THE ANNUALS arrived from Taylor Publishing Co of Dallas and were distributed to students Wednesday.

This year's annual staff attained a new height of excellence for the yearbook with its many full color reproductions of student life. This is the first year for the "Bobcat" to use full color photos.

The color prints include double-page inner covers of the "Spirit Week" bonfire, a two-page "Alma Mater" spread showing students gathered in front of the school's modern entrance, and color photos of cheerleaders, pep rallies, and the Bobcat Band.

CO-EDITORS of the annual were Carolyn Dunn and Peggy Godfrey. Carolyn Simpson was the staff photographer, and Sandra Coffman was advertising manager.

Sponsor of the annual staff is Miss Bernice Littlepage, DHS history and journalism teacher.

Staff members included Tommy Stafford, Ronnie Kenmore, Kent Lindsey, Janis Fuller, Teresa Cranford, Susan Walker, Randy Hasley, Kita Struve, Garland Jarvis and Keith McMahon.

The 250-page yearbook uses an informal format, with its sections entitled Views of DHS, Press of Business, Pride and Joy of DHS, Circle of Acquaintance, Social Life, Battle of Life, Great Doings, and Community Life.

MODERN script type is used throughout for page and section headings. The title page describes the effort simply as "DHS as we found it, knew it and left it in the year '67."

Impressive portraits using school symbols in abstract settings provide unique introductory pages for the annual's various sections. The yearbook's buckram cover is purple, with silver lettering and a silver Bobcat seal on the front.

Between these covers, DHS students will find a priceless album of more than a thousand portraits, new photos and snapshots to remind them of their 1966-67 school year.

BLACK BASS, both largemouth and smallmouth, are the most popular of all our fresh-water games fishes.
