

about dimmitt and castro county

When Ralph Yarborough announced for re-election to the U. S. Senate Monday night, it is doubtful that he surprised anyone—but it is still possible that Governor Price Daniel got his first good night's sleep in months after Yarborough's announcement.

The Senate race this year in Texas will be a tough one. Yarborough is opposed by millionaire Shivercrat William T. Blakely, who, if votes were a dollar each, could buy the Senate seat every term for the rest of his life.

Yarborough doesn't have much money so the fact that he is an incumbent will have to remain his last chance. Senator Yarborough has made a good name for himself in national political circles. He has been smelling the air, trying to learn the ropes, and following many of the examples set by his colleague, Lyndon B. Johnson.

This may come as a shock to most Texans who have learned that to elect a man to public office does not necessarily mean they will be repaid by fair consideration by the official in the future.

All teen-agers in the county should make an effort to participate in the JayCee Teen-Age Road-e-o Saturday. Quite a bit of skill goes into modern city driving and we have felt for a long time this needed ability was lacking in many Dimmitt youths.

City and county police officers understand that certain laxities can be permitted here because Dimmitt doesn't have the traffic congestion other larger towns do. And they can't be everywhere at once so some poor driving habits are easy to fall into.

Personally, we doubt that the parents of teenage drivers know much about modern safe driving. On any long trip the majority of truck drivers show more skill and highway courtesy accidentally than auto drivers do on purpose.

The JayCee Road-e-o isn't aimed at remarking teen-age drivers into experts in one afternoon, but it does want to give recognition to those earnest youngsters who want to learn all about anything they do and who are interested in living to a ripe old age despite the carnage others get involved in on our highways. It takes no training or skill to drive like a wild Indian or become a show-off, but it takes real car savvy to go through the JayCee test without messing up.

One thing we noticed at the JayCee Road-e-o here last year: The winners and participants were mature youngsters, and not the Sunday afternoon showoffs so numerous around here.

We don't often get down to the hospital personally, but the Castro County News does have a representative who is in and out of there quite a bit. She is Mary Flynn and last week she called us and was quite perturbed at the way the beleaguered hospital staff was having to cram patients into everything with a door except the kitchen refrigerator. Hospital manager Frank Latimer also told us last week the hospital was operating at peak capacity.

Teen-Age Road-e-o Planned for Saturday

Dimmitt JayCees will stage their second annual Teen-age Road-e-o Saturday morning at 9:30 at Dimmitt High School. Every teenager in this area is invited to participate in taking the written test and driving skill test. To be eligible he or she must not have reached a 20th birthday, not have been found guilty of a traffic violation within the past six months and must not be a full-time professional driver. Participants should have a drivers license or a permit to drive. About 20 youngsters from Dimmitt participated last year, with James Rogers placed first.

Winner Saturday will be sent by the JayCees to a regional Road-e-o at Plainview May 11th. Participants may sign up at the beginning of the 9:30 testing session in the Dimmitt High School building Saturday morning. The judge has not been announced, but it is expected a member of the State Highway Patrol will be on hand to select the winner.

Purpose of the JayCee Safe Driving Road-e-o is to give the nation's young motorists an opportunity to prove and improve their driving habits and attitudes and to stimulate community activities in bigger and better high school driver education programs.

National winners will receive three scholarships totaling \$4,500 and an all-expense paid trip to Washington, D.C., for the winner of each state Road-e-o.

The Safe Driving Road-e-o grew out of a JayCee regional safety conference in St. Paul, Minnesota in 1952. In six short years the program has grown to be a major project across the nation and in chapters across the nation and in Hawaii and Alaska.

The JayCee Road-e-o is patterned after the National Truck Road-e-o. This is the JayCee's positive contribution to the nation's traffic safety efforts. The JayCees are aware of the general public alarm over the traffic situation and are determined to take positive action to alleviate the situation with emphasis on the young driver. They are particularly concerned over the extreme public criticism directed at young drivers and over the tendency to adopt negative measures as solutions to the problem.

Study Shows Good County School Finances; Present Taxes Adequate

The financial situation of Castro County School Districts was probed by the Hale-Aikin Committee of Twenty-Four recently and this week their report was released which said, among other things, that maximum taxes are now being levied for school purposes.

This maximum is set by law at \$1.50 per \$100 evaluation and this is the rate of all the three school districts in the county. Of this \$1.50, Dimmitt uses \$1 for maintenance, Hart uses \$1.095 and Nazareth uses \$1.225. The remainder is used for bond retirement.

Nazareth leads the county in percentage payment of school taxes. Of total school taxes assessed in the Nazareth district last year, 97 percent were paid. This compares with 95 for Hart and 94.4 for Dimmitt. The Dimmitt district has \$30,427 in delinquent taxes; Hart has \$4,000 and Nazareth has \$2,000.

taxwise, property in the Dimmitt district is assessed on a basis of 40 percent of the market value. Hart is assessed 50 percent and Nazareth 30 percent. The bonded indebtedness of the Dimmitt district is 7.9 percent of the total valuation; Hart is 4 percent and Nazareth is 7 percent. An extensive building program in the Dimmitt district has upped their indebtedness considerably.

Since the Dimmitt district is considerably the largest, its cost per student is slightly smaller than the other two: \$320 as compared to \$349 for Hart and \$328 for Nazareth. Local taxes pay for 38 percent of total cost of Dimmitt schools; 40 percent for Hart and 31 percent for Nazareth. This amounts to \$49,369 for Dimmitt; \$12,775 for Hart; and \$8,075 for Nazareth. How long these general figures will hold true depends on both the cost of living index and future enrollment. During the last five years, the Dimmitt School district has picked up 304 additional students for an average daily attendance increase of 300. Hart has picked up 55 or 45 average per day, and Nazareth has added 43

and came up with an average daily attendance of 55. These schools anticipate about the same increase during the next five years.

The committee felt that all practical consolidation had taken place during the past ten years and that further consolidations would not affect noticeable economies of operation. During the past five years, Dimmitt has spent \$1,050,000 on new construction; Hart has spent \$75,000 and Nazareth, \$130,000. This construction came at a cost of \$1000 per pupil for Dimmitt to its capacity by 300 students; \$410 per pupil at Hart for increased capacity of 50 pupils and \$650 at Nazareth for an additional 90 pupils. None of the systems plan new buildings soon.

The report of finances is the first to appear in the Castro County News. Previous reports concerned the teacher supply situation and construction. The next and final report will deal with programs of Castro County Schools.

According to the committee's report, Castro County schools are apparently in better shape due to general increased teacher recruiting and just completion of long-range building programs. These are no serious teacher or classroom shortages in the county and the financial situation appears adequate with little or no immediate revision in the tax structure or evaluations.

Highway Association Has Membership Drive Here

Dimmitt increased its membership in the International Parks Highway Association, which links Canada to Old Mexico through this area.

Made up of state improved highways, the north and south route traverses Texas, Oklahoma, Colorado, Nebraska, South Dakota and North Dakota. Highway 51 comprises the chief section of the route through Texas.

An active program is underway to have the entire north and south route designated through the United States designated as a federal highway. This would bring about re-line marking on all highway maps, would effect augmenting the already growing travel on the road, and would bring about increased commercial activity all along the route.

Much progress is being made in having the entire routes designated as US Highway 851, which is a combination of 85 in North Dakota and 51 in the three states aforementioned.

The Association, which was promoted and originated by the late T. A. Singer of Dimmitt, has become one of the nation's largest and hardest-working highway associations. Mr. Singer said several years ago that besides being a definite asset to the people of the Great Plains by affording better traveling conditions, federal designation of this route would also be a boost to the economy of every town along the road.

Work toward gaining new membership this week in Dimmitt was under the direction of Morley Drake, field manager of the International Parks Highway Association, Drake, former publisher of the Lamb County Leader at Littlefield, said "Dimmitt citizens seemed very happy to renew their membership in this association and they have been very cooperative in every way."

Dimmitt FFA Boys Enter Area Contests Dimmitt FFA Contest Teams entered Area I District Contests in Lubbock Friday to join over 1,500 other boys in this area in contests such as livestock and dairy judging. The contests began Saturday morning at 8:30 and lasted most of the day. The teams were furnished sack lunches by Texas Tech and during the afternoon were guests at a barbecue.

Dimmitt entries were the livestock team consisting of Jerry Cluck, Zay Gilbreath and Glenn Odum; dairy team of Berl Hyatt, Don Robb and Junior Pesina; dairy products team of Charles Gibson, Darless Goolsby and Bruce Odum; meats team of Harold Ratcliff, Jack Bradley, and Carlos Barnes; and poultry team of Billy Stephens, Jimmy Adams, and Stanley Calvert. Results of the judging have not yet been announced.

Jack Sharp Wins 4-H Tractor Contest The 4-H 1958 Tractor Program came to an end Saturday with the big contest. County winner was Jack Sharp.

65 boys entered the county contest beginning with 50 True and False questions in the Dimmitt School Cafeteria. After the written part of the contest, the boys gave a demonstration to the judges showing and telling them what they had learned in the program.

The last part consisted of driving a tractor through a staked course. \$260 was donated to the program by 16 donors consisting of Implement and Fuel Dealers in the county.

Mrs. Eva Burks, County Pioneer, Died Thursday

Mrs. Eva Burks, wife of the late E. C. Burks, a resident of the Arney Community in Castro County for fifty years, passed away Thursday, April 24 at 9:15 p.m. in the Castro County hospital in Dimmitt. At the age of 77, she had been ill for several weeks.

She was born February 14, 1879 at Red River station in Montague County, Texas. Later she moved with her parents, Mr. and Mrs. W. M. Dixon, to the Indian Territory in Oklahoma before she married Mr. Burks. Her first husband died. She often told of how she spent the night with Indian captives who were afraid to stay in themselves from the Indian who were cooking during the summer by throwing them on the coals in the fire place to cook and the Indians enjoyed this practice very much.

Mrs. Burks could never seem to have any appetite for supper on those nights.

In 1935 she moved in a covered wagon with her parents to Castro County. The Dixon family bought a farm five miles west of Nazareth and lived in a half dozen on July 25, 1903, she was married to Everett C. Burks. The two were married in the home of the bride's parents west of Nazareth. The newly wed couple moved to a half dozen three miles south of her present home in the Arney Community. In June of 1904 the Burks family moved to Orellana County and later they moved to Hansford County. In 1909 the Burks family moved back to Castro County and bought the farm and home Mrs. Burks was living in at the time of her death.

Mrs. Burks was an active member in the Arney Church and community, until recent years. Her husband preceded her in death. Mr. Burks passed away in June of 1953.

Survivors are two sons, Marcus Burks of Roy, New Mexico, and Charles Burks of Happy, three daughters, Mrs. Edna Fortner of Happy, Mrs. Rachel Hunter of Herford, and Katie Mae Giddens of Amarillo; two brothers, Bill Dixon of Dumas and Henry Dixon of Belen, New Mexico and nine grandchildren.

Funeral arrangements were by Dennis Funeral Home.

Nazareth Legion to Give Barbecue Dinner Everyone in the county has been invited to a barbecue dinner at Nazareth on Thursday, May 8th. Sponsored by the Nazareth American Legion, the day's program will include games and refreshments from 11 a.m. to 9 p.m. and a dance from 9 p.m. to 1 a.m. Adults can get all they can eat at the barbecue for 50 cents and grade school pupils will be served for 25 cents each. The dinner will last from 12 til 2 p.m. Music will be by Lou Walker of Amarillo.

WINS SCHOLARSHIP—Miss Virginia Ann Smith (left) was named winner this week of a tuition scholarship to Eastern New Mexico University in Portales, N. M., on the basis of her outstanding performance in Dimmitt Drama Department's presentation of "Sunday's Child" at the Fourth Annual Drama Festival held here last Friday and Saturday. Miss Charlotte Ann McElroy (right) was named alternate for the award. Another scholarship was awarded to other visiting school actors at the festival. These two girls were not alone with their superior ratings at the event. Jo Beecher won the same rating and Cary Johnson, Gary Wyatt, and Morris Westberry won excellent ratings. The play, directed by Drama Instructor James W. (Rosie) Bates, was considered the best of ten presented. Bates was awarded a Director's Superior Award for his work. Evaluations were made by Mrs. Oma Link Rowley of the Amarillo Little Theatre.

JayCees Take First Big Step Towards Scholarship Plan

Dimmitt Junior Chamber of Commerce made Plans Thursday to make a major effort this week and next to learn whether or not Castro County citizens are willing to foot the bill for a continuing scholarship for reserving area high school graduates.

Under direction of JayCees Calvin Lippard and Bill Reisdorff, the JayCees will contact as many people as possible in person and send folders through school children.

This plan calls for a sustaining plan of contributions of any size to a central fund that will send students from Castro County to college who have no access to the necessary funds.

The plan presumes that when a student graduates, he will make some arrangement for repaying what he has used to the fund so another student can be aided. According to the present thought, no interest will be charged and repayment of the loan will be on a moral basis rather than legal.

Other plans of this type have proven through practice that such a fund loses virtually no money in the long run through graduates refusal to repay.

There have been many cases over the past few years in this county where lack of financial resources have kept students from attending college after high school graduation. Inflation and extremely low wages paid in college towns make it almost impossible for a student to support himself in college on part time work. The JayCees hope any student taking advantage of the loan will work when ever possible, but no requirements will be made.

The JayCees have draft authorizations available for persons who want them. Anyone wishing to contribute any sum whatsoever to this Castro County Scholarship Fund should see a member of the Dimmitt Junior Chamber of Commerce this week. It will be impossible for the JayCees to see everyone in person. A sustaining membership is to be continued as a series of systematic donations over a period of time as agreed by the JayCees and donor. The donor can terminate these contributions at any time. The contacts made this week and next by the JayCees are more to see if the county would be willing to undertake this project rather than actually get it underway. However, it was decided at the Thursday meeting to get the sustaining membership drafts filled out as quickly as possible to be returned to the donor should the program fail to get underway.

Walter Rogers' WASHINGTON NEWSLETTER
CUBA
Ten persons, representing themselves as former Members of the Cuban Congress, have sent a memorandum of the members of the United States Congress. This memorandum includes statements of a very serious nature, insofar as the United States is concerned. For instance, the second paragraph of the letter is as follows:

"There is at present a widespread belief in Cuba that the United States Government is supporting Batista's ruthless dictatorship in contradiction to the repeatedly declared American policy in favor of world freedom and democracy. This belief is buttressing Batista's dictatorship prolonging the terrible civil war now ravaging the country and seriously impairing the prestige and good-will of the United States in Cuba."
You will note that the statements contained in that paragraph are conclusions of the writers and not factual; however, this paragraph is followed by another paragraph containing four subheads purporting to document supporting facts.

CARDS OF THANKS

We would like to take this means of expressing our sincere appreciation to our many friends and neighbors, Dr. and Mrs. Cogswell and the hospital staff for the wonderful care, attention and devotion shown during the passing of our loved one. We also thank everyone for the prayers and their help. May God bless each and every one. The Burks children and families

We wish to thank those Dear Hearts who were so kind and thoughtful to us during my recent illness. May there be many blessings bestowed upon you.
Mrs. Kenneth Hollums

I wish to express my appreciation for the thoughtfulness of my relatives and friends during my stay in the hospital. Thanks too, for each of your visits, for the flowers, cards and other gifts. To Dr. Cogswell and the nurses, thanks for your every service.
Mrs. Joe M. Scott

May we take this opportunity to express our deepest gratitude for the many kind expressions of sympathy and words of comfort during our sorrow also for the many flowers, cards and words of encouragement to Quinford during his stay in the hospital.
May God bless each and every one of you.
The Oakley Family

No where could we find in this world any nicer people than you. Thank you so much for seeing that our every personal need is met and for the wonderful gift of money for our special nurses. We hope we can be of help to someone in time of need the way you have helped and are continuing to help, during our period of illness.
A special thanks to those who gave their blood.
Sincerely
Tex and Norma Conard

A close observation of the matter contained in the four subheads reveals the assumption of facts rather than the documentation thereof.
The information has been sent out by one Dr. Lincoln Rodon, 5121 Alton Road, Miami Beach, Florida, and he is joined by 9 others. The gravity of the charges would certainly warrant a full investigation by the Department of State, the Department of Justice, and the Department of Defense.

THE REORGANIZATION OF THE DEFENSE DEPARTMENT
The President's proposal to reorganize the Defense Department will probably cause major fireworks on Capitol Hill. There is a decided division of opinion as to the role that should be played by civilians in the military setup. It is accepted that the military has always been very jealous of what it considers its jurisdiction. This applies not only to the military as a whole, but to the several departments of the military, to wit, the Army, the Air Force and the Navy. In fact, there have been rumors of jealousies cropping up between the different branches of each of the departments. It is these inter-service rivalries that could be the major factor prompting the President's new proposal. It will be remembered that it was only a few years ago that our military establishment was reorganized and the Offices of Secretary of Defense created. This new office was given cabinet status and replaced the former Secretary of War and Secretary of the Navy. That reorganization was supposed to answer all of the inter-service problems and unify under one command the operations of our military. The purpose to be accomplished was a more effective military operation at less cost to the taxpayer.

It has been argued many times that unification was not accomplished by that reorganization and that costs were not reduced but increased; that the actual result was nothing more than the creation of a new and additional department of the military. It would certainly be safe to say that the sought after result was not accomplished by the previous reorganization; otherwise, there would be no need for the new proposals of the President. Whether or not the President is right in this new approach is not the controlling question in my mind. The fact is that something must be done in order to clarify our entire military establishment. Our national security program now consumes over 60c of each tax dollar. In other words, the security program is slated to receive almost 46 billions of dollars out of the 72 billion dollar budget request of the President for the 1959 fiscal year. During the 1959 fiscal year the government will collect 38.5 billions of dollars in individual income taxes, but must more than half of all of the taxes collected by the federal government from every source. The military not only consumes all of the individual income taxes, but must dip into other taxes to the tune of an additional 7.3 billion dollars. The back of the American taxpayer is already at the breaking point; therefore, it is essential that every effort be made to provide better efficiency at less cost in the military. This will not only better serve the defense of this nation, but can also be the source of much needed tax relief for John Q. Public. Let us all hope partisanship will not prevent a sound and practical evaluation of our military establishment to the end that proper changes be made in keeping with our best interests.

F. A. I.
Delegates of the Federation Aeronautique Internationale are meeting in Los Angeles, California, on April 14 for their 51st convention.

These delegates came through Washington and were entertained several times. The delegates came from both sides of the Iron Curtain, some being from Russia, Poland, Rumania, Bulgaria, Czechoslovakia and Yugoslavia. They were welcomed in the Rose Garden of the White House by the President, who held them, among other things:
"If we can get people talking to each other, living together, going to each other's homes, I am certain that most of the World's troubles would be over . . ."
"I have tried in this country to talk about people meeting people. I think governments are far more stupid than are their people."
These delegates, 200 strong, were also entertained by the Washington Aeronautics Club at the Mayflower Hotel where they were addressed by Secretary of State John Foster Dulles. F. A. I. is an international organization which held its first meeting in Paris on October 14, 1905. Aviation at that time was just about as young as is space travel at the present time. If the same progress is made in space travel as has been made in air travel, watch out, Mr. Moon.

Dairy Festival Cheese Cake
 (Makes 10-12 servings)

2 tablespoons (2 envelopes) unflavored gelatin
 $\frac{1}{2}$ cup cold water
 3 eggs
 $1\frac{1}{2}$ cups (large can) undiluted Carnation Evaporated Milk
 $\frac{1}{4}$ cup sugar

1 teaspoon salt
 1 teaspoon grated lemon rind
 1 teaspoon vanilla
 2 cups cottage cheese
 $\frac{1}{2}$ cup lemon juice
 9-inch Spiced Crumb Crust*

Soften gelatin in cold water. Beat eggs, $\frac{1}{2}$ cup Carnation, sugar and salt together in saucepan. Stir over medium heat until thickened (about 4 minutes). Remove from heat; add softened gelatin, lemon rind and vanilla. Stir until gelatin dissolves. Beat cottage cheese until fine; add to egg mixture. Chill cottage cheese mixture 30-45 minutes in refrigerator. Beat until light and fluffy. Chill remaining Carnation in refrigerator tray until crystals form around edges of tray (15-20 minutes). Whip until stiff (1-2 minutes). Add lemon juice; whip very stiff (1-2 minutes longer). Fold whipped Carnation into cottage cheese mixture. Spoon into Spiced Crust.

*For 9-inch Spiced Crust, mix 2 cups graham cracker crumbs with $\frac{1}{2}$ cup sugar, $1\frac{1}{2}$ teaspoons cinnamon, and $\frac{1}{2}$ cup melted butter. Place in 9-inch Spring Form pan. Top Cheese Cake with sweetened sour cream and strawberries, if desired.

"Sunday's Child" Rates Superior in estival

Dimmitt's one act play, "Sunday's Child," was given in the Fourth Annual Drama Festival at Eastern New Mexico University April 25 and 26, in Portales, New Mexico. The cast presented Sunday's Child in order to get it evaluated by Mrs. Oma Link Rowley of the Amarillo Little Theatre. The Play took all honors, winning Superior over ten other towns. Charlotte McElroy, Ann Smith, and Jo Beecher won Superior, and Cary Johnson, Gary Wyatt, and Morris Westberry won Excellent on individual acting. Ann Smith won the Alpha Psi Omega Scholarship Award and Charlotte McElroy won alternate. The Play was directed by James W. Bates, who received the Director's Superior Award.

Students Assist In Play Production

Play production has been greatly assisted this year by three Senior students. These people are Cary Johnson, who has had a leading role in the Junior play of 1957, the Senior play of 1958, and the One Act play, which won District and also Superior ratings at the Portales Drama Festival this year. George Frye was the "handy man" of the Senior play, "Mister Angel." George did a large part of painting and construction of the set. Last, but certainly not the least, is Patsy Query. In addition to her job as Student Director this year, she had the props and sound effects ready when they were needed.

Behind-the-scene work is just as important as a role in the play.

Senate Officer's Work Overtime

The president and vice-president of the Student Senate should be commended for the work they do out-side of school. Gary and Jonalyn have done a lot of work on different activities of the student body. They are the ones that do much of the planning of these activities. They plan many of the school assemblies that are held for the student body. The Student Senate has planned Religious Emphasis Week for this week, and Gary has asked local ministers to speak to the student body on the importance of religion.

FFA Enters Area Contests

The Dimmitt FFA Contest Teams left last Friday for Lubbock to enter the Area I District Contests.

Over 1500 boys in this area entered contests like Livestock Judging and Dairy Judging. The contests began Saturday morning at 8:30 and lasted the better part of the day. The teams had about an hour off for lunch, when they had a sack lunch furnished by Texas Tech, and in the afternoon they were guests at a barbeque.

The Dimmitt entries were the Livestock Team consisting of Jerry Cluck, Zay Gilbreath, and Glenn Odum; Dairy Team, Berle Hyatt, Don Robb, and Junior Pesina; Dairy Products Team, Charles Gibson, Darless Goolsby, and Bruce Odum; Meats Team, Hal Ratcliff, Jack Bradley, and Carlos Barnes; Poultry Team, Billy Stephens, Jimmy Adams, and Stanton Calvert. Results of the judging have not yet been received.

Band Elects New Officers

The DHS Band met and elected the new officers for the year 1958-59. They are Boyce Tate, president; Norman Nelson, vice-president; Sandra Leeth, secretary-treasurer; Sandra Thompson, reporter.

The band would like to take this opportunity to acknowledge their thanks to the officers of 1957-58. You did a wonderful job.

FHA Officers Complete Busy Year

It takes a lot of work to have an FHA Chapter, Best Beau Banquet, and other FHA activities. There are always a few people who make these things possible. Charlotte McElroy is President of the FHA Chapter. She is a Senior and has done a good job. Linda Hance is the new President for this year. She went to San Antonio to the state FHA meeting. Linda was also chairman of Freshman Initiation and the Popcorn Pop for Pops. Norma Battles is the new Vice-President. She went to the state meet and was the decorating chairman of the Best Beau Banquet.

Secretary for this year was Mona Dell Hunter. A point system was set up and she had the highest number and won a prize. She is treasurer also for the new year. Another outstanding worker this year was chairman of Twirp Week, Martha Catoe. She is a Freshman and her job was well done. Ann Smith won the Betty Crocker Homemaking award.

The rest of the officers for this year: Jeanneane Robinson, Historian; Hazel Rogers, Song Leader; Mary Lynn Hendrix; Pianist, Evelyn Cummings, Reporter; and Ann Smith, Parliamentarian.

Other new officers for next year are Recording Secretary, Mary Lynn Hendrix; Corresponding Secretary, Sandra Leeth; Historian, Ka Estes; Parliamentarian, Kay Carpenter; Reporter, Tommy Allen; Song leader, Mary Behrends; and Pianist, Charlene Vaughan.

DHS Poll Is Against Latest Styles

Question of the Week: What do you think of the new style dresses? Alice Waggoner—Maybe it is all right for the grandmothers, but not the granddaughters. Charlotte Mears—I don't think they are for women. Myles Sadler—In the 20's they were all right, but not now. Carlos Barnes—Built for cows, not women. Zay Gilbreath—I think they should leave the feed in them. Gary Cleaver—I don't like them because I like to see some of the curves. Jimmy Curtis—I think they look good on Peg, but not on anybody else. Karl Kemp—Sack dresses is what some girls need. Zandra Barnes—I don't like them and they're tacky. Sharon Maynard—I think they're out of the world. Richard Catoe—They look like a parachute with legs. Carl Moore—They look like old toesarks. Printer's Note—Be honest now, which dress looks best, H or ()?

Optimum cotton planting dates on the Texas High Plains are May 5-20, Don L. Jones, former Superintendent of the Lubbock Experiment Station, has reminded Plains Cotton Growers, Inc. members.

"Later planting usually results in lower quality cotton and if planting must be done after June 1, select an early maturing variety," Jones advises.

As to prior planting, Jones explained that years of research work at the Experiment Station has shown that the best results for planting comes when the soil temperature averages 60 degrees for 10 days at an 8-inch depth from the top of the bed.

Daily radio and newspaper report are now being broadcast and published which gives the average daily temperatures. This information is part of the Plains Cotton Growers, Inc. Educational Program to try and help High Plains Cotton farmers produce a higher quality cotton in 1958.

In other planting tips Jones urged farmers to use delinted, treated seed if possible, and warn them to check the seed germination percent and to alter planting rates accordingly.

A uniform stand of approximately four stalks per foot in 40-inch rows is recommended. Plant 20 to 30 pounds of seed per acre, adjusting the rate according to germination tests and the use of a seed press wheel and shallow furrows will help plant emergence to be rapid, he added.

The method of harvest to be used should help determine the variety to plant when practical since storm-resistant cottons maintain quality longer in the field and strip better than open-boll types, Jones concluded.

Under the leadership of Clarence Birkenfeld and Pat Braddock, who were awarded medals for leadership, and Edward Backus, chairman, Julius Birkenfeld received 1st place trophy and Tommy Wethington, second place trophy in the first year. Junior division. Others entering were Marvin Lester, and Benny Schulte, Phillip and Ralph Brockman, Francis Backus, Jimmy Leinen and Dick Schacher.

Charles Birkenfeld won second place trophy in the First Year Senior division.

Under the supervision of Clarence Birkenfeld, Pat Braddock and Edmond Backus the Club garnered four trophies and four other places.

Now an owner of a farm in agricultural production and on which the operator plans to produce at least \$400 worth of farm commodities for sale or home use may qualify for the 4 percent long-term housing loan provided that he meets other standard eligibility requirements.

Formerly an eligible applicant had to own a farm that produced a more substantial part of the operator's annual cash income.

Loans may be made to build, improve, or repair farm houses or other essential farm buildings, and to provide water for farmstead and household use. Mr. Dent said that in addition to financing major construction, the loan funds can help meet many other needs for farm and farm home modernization such as adding bathrooms, utility rooms, better kitchens, and many other improvements to the home as well as to farm service buildings. While tenants and farm laborers are not eligible, the owner may borrow to do the construction work or make improvements for them.

The loans are made to farm operators who need credit to finance building improvements or repairs, but find that adequate credit is not available through banks or other regular credit channels. The interest rate is 4 percent and loans may be amortized over periods up to 13 years.

Eligibility for loan assistance is determined by the three-member County Farmers Home Administration committee, and applications now being accepted in FHA county offices.

\$13,408 Worth of Savings Bonds Sold in March in County

"During the month of March \$13,408 in Savings Bonds were sold in Castro County," reported Judge Robert Estes, county chairman. This is 33.9 percent of the year's 93,000 goal.

Savings Bond sales in Texas for March were \$14, 831,097 which is 11 percent above sales for March 1957.

"Keeping America strong in military preparedness and economical sound must be the concern of every American," stated Judge Estes, county chairman.

"Savings Bonds help strengthen America's peace power by building economic stability," Judge Estes concluded.

Gary Beeson Finishes Basic

Gary J. Beeson, son of Mr. and Mrs. Jehu Beeson of Route 2, Hart, graduated from recruit training April 18 at the Naval Training Center, San Diego, California.

The graduation exercises, marked the end of nine weeks of "boot camp," a full dress parade and review before military officials and civilian dignitaries. In nine weeks of instruction, the "raw recruit" is developed into a Navy Bluejacket, ready for duty with the fleet.

Storm Cellar Easy to Build

If you were to see the destructive, black funnel of a tornado rushing directly toward your home, where would you and your family go for protection and safety?

No, this question is not far-fetched. In fact, many Texans have experienced this and other similar disasters from time to time. Many of them had never realized the value of a safe place just as we never miss the water until the well goes dry.

But, why not construct a storm cellar before a tornado strikes to remind you that you need one? It can be constructed easily without any special skills and only a few special tools.

Since tornadoes generally move from southwest to northeast, the storm cellar should be located south west of the house. Its entrance should face northeast. It should be located far enough from the house that a falling wall, large

trees or other debris will not block the entrance. Too, select a well-drained site which can be landscaped to harmonize with the home surroundings.

Storm cellars should be constructed strong enough to withstand the impact of falling debris. It should also be watertight, economical and relatively easy to keep.

The size of the cellar depends on expected use. For an extended period of comfortable occupancy, allow about 10 square feet of floor area per person. Short occupancy requires only about two square feet per person. Adequate ventilation should be provided.

Instructions on constructing a satisfactory storm cellar plus other information, such as other uses for the cellar, food storage, for example, is contained in a Texas Agricultural Extension Service leaflet, L-388, "The Disaster Cellar." It may be obtained from local county agents or the Agricultural Information Office, College Station, Texas.

"CONFLICTING VOICES"

"And the serpent said unto the woman, Ye shall not surely die." Gen. 3:4; but God said, "Of every tree of the garden thou mayest freely eat: But of the tree of the knowledge of good and evil, thou shalt not eat of it: for in the day that thou eatest thereof thou shalt surely die." Gen. 2:16b, 17.

Some men say "There is nothing we can do to be saved." The Bible says, "And with many other words did he testify and exhort, saying, Save yourselves from this untoward generation." Even believing on Christ is a work and must be done, John 6:29; Mark 16:16. Man must repent or perish, Lk. 13:3-5. Man must confess, or be denied, Matt. 10:32,33. Man must be baptized to be saved, Acts 2:38.

Some men say "One church is as good as another." Jesus promised to build his, Matt. 16:18, and never authorized the building of any other. The saved were added to the Lord's church, Acts 2:47. Christ is the saviour of the body, Eph. 5:23, which is the church, Eph. 1:22,23.

Some men say there is "nothing in a name." But the Bible says "Neither is there salvation in any other: for there is none other name under heaven given among men, whereby we must be saved." Acts 4:12.

Some men say there are many ways to heaven. But the Bible says there are just as many ways to heaven as there are Christs—that is one, John 14:6.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

Mr. Eldon Davis, whose place is near Dodd, was by the SCS office Monday and mentioned a conservation practice that he uses that might be worth passing along. The first of August, 1957, Davis planted two rows of barley between rows of cotton on twenty-two acres. He used the Soil Conservation District legume seeder and did not damage the cotton. His purpose in planting the barley was for winter and spring grazing for his sheep; however some other results were obtained that no one expected. In the first place the twenty-two acre field interplanted with barley made almost forty-four bales of good cotton or two bales per acre. Davis' other cotton that had the same treatment, same amount of water, etc., except no barley was interplanted, made a little over one and a quarter bales per acre. Besides the difference in yield, Davis grazed the barley all winter with

...indoors or out- live better electrically!

- Indoors, it's the automatic electric range for modern kitchen cooking. Outdoors, it's dad and the electric rotisserie plus outdoor lighting. Yes, in or out you can live better electrically so why delay? Get your new automatic electric range this week. Start to live better electrically indoors and for a start outdoors, see the message at the right.

TWO OUTDOOR Bug Lamps for OUTSIDE LIVING AT NIGHT

Yes, now you can get a certificate good for two bug lamps at any Public Service office just for watching a demonstration of an electric range at your Reddy Kilowatt dealer store. Get your demonstration soon so you can enjoy outdoor life in the cool of the evening. Yellow bug lamps, which fit ordinary sockets, eliminate most of the light that insects see, yet provide a soft comfortable light for outdoor living.

Charlotte Lee Paintings Set For College Show

Charlotte Lee of Roswell, New Mexico, will be honored with a one-man show of her paintings during the annual Festival of the Arts, which opens May 4 at West Texas State College.

Mrs. Lee's hometown is Dimmitt, where she was graduated from high school. She is the daughter of Mrs. J. R. Moore of Hereford.

Mrs. Lee's exhibition will be on display in the West Texas State library, where a tea honoring the artist will open the show at 1:30 p.m. Sunday. Besides Mrs. Lee's works, there will be displays of paintings and other art works and crafts by WTSC students and faculty.

The festival will also feature a concert by the college's band, choir and Madrigal Singers Sunday at 4:30 p.m. in the Administration Building auditorium. A third major attraction is the six-night run in the Branding Iron Theatre of Shakespeare's comedy, "The Merchant of Venice," which opens May 5.

The public is invited for all events of the Festival. Mrs. Lee's paintings are semi-abstract designs in pastel oils. She studied painting with Carl Compton at North Texas State College, where she earned her B.A. degree in art, with Mrs. Jane Davison at Eastern New Mexico University, and with Dr. Emilio Caballero at WTSC.

A member of the Art Group in Roswell where she and her husband teach in the public schools, Mrs. Lee has exhibited paintings at the Eastern New Mexico State Fair, the Roswell Art Group's annual Sidewalk show, and had a painting selected for the regional annual Circle Exhibit at the Roswell Museum.

Sandra Glenn, Don Robinson to Wed

Mr. and Mrs. A. B. Glens, of Dimmitt, announce the engagement and approaching marriage of their daughter, Sandra, to Don Edd Robinson, son of Mr. and Mrs. Gaston Robinson of Lamesa.

Vows will be read June 14 at 6 p.m. in the First Baptist Church with the Rev. B. H. Baldwin officiating.

The bride-elect is a graduate of Dimmitt High School and is employed by the Hereford Brand at the present time. Her fiance is also a graduate of Dimmitt High School and is attending Texas Tech in Lubbock.

The couple plan to make their home in Lubbock where he will complete his schooling. Friends of the couple are invited to attend.

ARNEY NEWS

By Mrs. Bonnie Barrett Mr. and Mrs. Charley Moore of Dallas are the parents of a son, born last week in Dallas. The baby was born prematurely and weighed 4 pounds 15 ounces. The Moores have another child, a daughter, Mrs. Moore is the former Betty Hancock.

Mrs. Carroll Hancock is in Dallas attending her daughter and the baby.

Guests for dinner in the Albert Schaeenberger home Sunday were her parents, Mr. and Mrs. Andrew Acker, her sister Josetta and brother, Charley of Nazareth.

Mr. and Mrs. Lawrence Acker and family also of Nazareth visited Sunday evening in the Schaeenberger home.

Arthur Williams, of Plainview spent the week end in the home of his brother and sister-in-law, Mr. and Mrs. Kenneth Williams.

Mrs. Gayle Hopkins and children Debbie, Dirk and Cheri of Utiaca, Kansas came last Thursday for several days visit in the home of her uncle, Mr. and Mrs. Harry Edwards and other relatives and to attend to some business.

Mr. and Mrs. Evan Murdock and son, Ervin, from Los Angeles, California Mrs. Hopkins brother and family, were in Happy at the same time also visiting the Edwards and attending to business.

Mr. and Mrs. Bruce Feilds were in Amarillo Sunday visiting Arthur Miller at Northwest Texas Hospital and Ollie Spear at the Veterans hospital.

Relatives and friends here for the funeral of Mrs. Eva Burks last Saturday were: Mr. and Mrs. W. D. Dixon of Dumas; Mr. and Mrs. Leroy Dixon, Mr. and Mrs. Tommy Dixon, Mrs. Edith Powell and Mr. and Mrs. Grady Bailey all from Amarillo. Mr. and Mrs. Bobby Harris of Altus, Oklahoma, Mr. and Mrs. George Harris of Santa Ana, California and Mrs. Bill Miller of Amarillo.

Mr. and Mrs. Charley Morris and children, Robert, James and Becky Ann, from Gainesville, are new residents in the community. Mr. Morris is employed by Leo Witkowski.

Frances and Odie Hudson enjoyed an outing and a few hours spent fishing at Buffalo Lake last Tuesday.

Miss Jo Boyd and Mrs. W. E. McFarland took the children from the Junior T. U. department of the Arney Baptist Church on a missionary trip Sunday to a town near by where they were invited into a home in the Spanish-American labor camp.

The children presented the family with a box containing articles of clothing, shoes, toys and religious pictures and miscellaneous items.

After training union Sunday night, Miss Boyd asked Leonida Thornton to tell her impressions of their visit. Leonida painted a word picture of unbelievable poverty and need in the one room home where six children and their parents lived. As she talked, pitiable conditions in the home were revealed. In her words, "there was one big bed and one small cot and not very much bed coverings and it wasn't very clean." There were no storage space of any kind and not a single item of food visible except a coffee can and a box of salt. A single light bulb provided light in the one room house. The family was unkept and half clad and the articles of clothing they saw, "were not very good." Such were the impressions of a little girl on her first missionary trip.

Mr. and Mrs. Kenneth Williams visited Sunday in Plainview in the home of his parents, Mr. and Mrs. W. B. Williams.

May 5 Date for Crippled Children Clinic in Lubbock

Plans to conduct a clinic for all crippled children of Castro County and surrounding counties have been announced by Dr. Wallace I. Hess, Acting Director of the Lubbock City-County Health Unit. The clinic will be held on Monday, May 5, 1958, at the Lubbock Cerebral Palsy Treatment Center, 3502 Avenue N, in Lubbock.

Registration for the clinic, sponsored by the Lubbock County Society for Crippled Children, Inc., the Lubbock-Crosby County Medical Society, the Lubbock City-County Health Unit, and the Crippled Children Division of the Texas State Department of Health, will begin at 9:00 a.m. No charge will be made for examination.

It will be open to all children, under 21 years of age, who are crippled or who have conditions which might lead to crippling. Parents are requested to accompany the patient.

Services rendered by the Crippled Children's Division of the State Department of Health include the location of crippled children through the establishment of clinics similar to the one planned in Lubbock. The program includes the financing of hospitalization, medical and surgical care, artificial limbs and related services from funds of the State and Federal Governments for children whose parents cannot finance their care, provided their eligibility has been established under the State law.

A few of these crippling conditions include: Infantile Paralysis, Osteomyelitis, club feet, cleft palate, hare lip, burns, curvature of the spine, dislocated hips and many others.

The overall purpose of the sponsors of the clinic is to provide a means of examination of all children with crippling conditions, in order that no crippled child should go without needed attention.

Attended Relays at Lubbock

The CREDIT BUREAU

The files of the Credit Bureau contain the record of every citizen, who buys on credit, and every member of the bureau has access to this record. We consider ourselves fortunate to be listed in "Who Who" or the Social Register, but our credit record in the files of the Credit Bureau is far more important in our daily lives! In this "Who's Who" of Business are listed the credit records of the citizens of this community: How they pay the grocer, the butcher, the other stores, the physician and the dentist - every credit granter. The records are constantly revised through reports from members, periodical check-ups and a close watch over court records and other sources of information.

Cotton Germ Requirements Are Lowered

The Texas State Seed and Plant Board has lowered the germination requirements for certified cotton seed to 40 percent, according to Dr. A. W. Young, Texas Tech professor who is chairman of the Plant Board. While this is only a temporary measure for the 1957 crop of seed only, cotton producers on the Texas High Plains are warned to be sure and check the germination content of any seed they buy for 1958 plantings and alter planting rates accordingly. Cotton seed produced under certification regulations in 1957 may now be certified if they test as high as 40 percent germination, exactly half of the standard requirement of 80 percent.

"This change was made on the basis that farmers in some sections of the state have already had to replant cotton, and were unable to find adequate high germinating seed," Dr. Young said.

"If it is necessary to plant low germinating seed, he added, we feel that it will be better to plant those produced under certification regulations than others of unknown or questionable origin."

The board recommended that low germinating certified seed be used only where there is not an available supply of seed with higher germination, Dr. Young explained.

"A farmer should expect to purchase the low germinating seed at a reduced price, since they will contain less live seed per bushel," he added.

Adverse weather conditions during the harvesting of 1957 cotton seriously impaired the quality of cottonseed throughout the Cotton Belt.

Dr. Young is cooperating with the Plains Cotton Growers, Inc., the Texas Experiment Station and the Extension Service in making public information which help High Plains cotton producers in the production of quality cotton this year.

Dr. Young's announcement on cotton seed germination is a direct part of the Plains Cotton Guide, now available from all county agents of the Plains Cotton Growers Inc.

9,000 County Acres in Conservation Reserve Over 3.3 million acres of cropland had been offered for contracts under the 1958 Conservation Reserve of the Soil Bank through March 28, according to preliminary reports received by the U. S. Department of Agriculture from State Agricultural Stabilization and Conservation Committees.

Castro County has 46 contracts covering 8,830.3 acres. Three new contracts were made this year. The reports showed an increase of 332,019 acres over the nearly 3 million acres reported signed as of March 14.

CONTROL JOHNSON GRASS (AND OTHER GRASSES) CHEMICALLY... WITH DOWPON Unwanted grasses are usually the toughest problem where farming is best. They thrive on the very climate and soils that should produce top crops. Now you can control grasses, without cutting, cultivating, or oiling. Dowpon, is the new chemical way to keep grasses from invading your fields, throttling irrigation and drainage ditches. Hoeing, chopping, cultivating, and oiling only get grass out of sight temporarily. Dowpon gets rid of it. How DOWPON works Dowpon is a systemic grass killer—meaning that it kills by working through the plant's system. You simply spray the foliage. Dowpon is absorbed through the leaves and works down through the plant, right into the roots, usually killing the entire plant. Because it works inside the plant, a Dowpon spray is less likely to be affected by weather conditions. Rain can't wash it off after it has been absorbed. You can use Dowpon with safety on your farm—foliage sprayed with Dowpon is non-hazardous to grazing livestock. FOR SALE BY BLANTON BUTANE Dimmitt, Texas Phone 331
