

PROSPECTUS '85

KING

It's 1985—almost. As we bid farewell to 1984 and look forward to the promise of the new year, the News asked city and county officials to prepare a prospectus: a look back at 1984, and a look ahead to 1985.

Agriculture

By CARL KING
President, Texas Corn Growers Association

First, let's look at our objectives for solving the agricultural dilemma facing America:

1. We must save the farmer financially;
2. We must assure the American consumer of an adequate supply of food and fiber;
3. We must establish a loan level on feed grains equal to the cost of production, which should be based on each region's individual costs;
4. No target would be required, provided a mandatory diversion is implemented, and the loan level raised to the cost of production. The diversion rate should be based on a national commodity base acreage, which should be a total of all acres. National commodity per acre yield should be a five year average, adjusted to reflect improvements;
5. TCGA is convinced diversion acres should be adjusted annually, according to carryover stocks of feed grains. The diversion should be flexible enough to assure an adequate grain supply for domestic use and exports;
6. A two-price loan system should be required to assure grain farmers a competitive place in the world market. One price will be for domestic grain equal to the cost of production, while the other is a payment-in-kind or subsidy to exporters to keep the price of US commodities competitive in world markets.

Currently, growers are losing \$40/acre, based on an average of 8,960 acres irrigated yield at \$5.10/lb. during harvest. We must implement these and other steps now.

We must eliminate the cargo preference law, since it costs farmers while providing protection to shippers who sell grain under government programs. Protectionism, if it must be used, is needed on both sides. We must have protection if we are to stay in business.

There must be a moratorium on FMHA and SBA foreclosures and interest until the producer is showing an adequate profit.

Mandatory controls on acreage or pounds and bushels strike a sour note with those who advocate a free market system, but that animal is dead

for the time being, and we must have these controls if the farmer is to survive. We believe that the majority of farmers prefer not to have subsidies or supports IF there is a loan level on basic commodities equal to the cost of production, plus mandatory controls to get supply in line with demand, plus growing enough for domestic use plus exports.

After the 1983 PIK program and drought, we almost saw the light at the end of the tunnel. With the 1985 Feed Grain Program announced Sept. 14 so similar to the 1984 program, we're going to be producing more corn and sorghum that can be absorbed. We have to have a new, long-range program implemented NOW. We have to have a profit for agriculture NOW, or chaos will prevail in agriculture, and the entire nation will suffer.

We are at a crossroads. We can adopt a program of supply management, or we can stand still as we are now, and let agriculture, and the nation, go down the drain.

Development

By JERRY MARVIN HANNERS
Castro County Economic Development Commission
1984 was the year I became acquainted with the curious

business of "color analysis." "A color analyst," my wife explained, "is a consultant who examines your hair color and complexion tone and advises you on which clothing colors and make up shades are most flattering."

I was surprised to learn that there are many color analysts

in our area and that they are serving both men and women. It is evidence that we are moving into the information age, that opportunity exists for entrepreneurs and that "special service" is one of the fastest growing sectors of our economy.

In 1984, we have read about

the restructuring of almost all basic industries. There have been dramatic changes in the banking industry, oil and gas, auto manufacturing, and telephone and communications industry, construction and agriculture. Many of our biggest and best known corpora-

HAPPY NEW YEAR!

Babson's Business Forecast

1985 economy should keep rocking along

By Babson's Reports Inc., Wellesley Hills, Mass., December 27, 1984.

A year ago the American economy was running under a full head of steam. After only a mild upturn during the winter months of 1983, the business tempo suddenly quickened dramatically in the spring and remained much stronger than expected through year's end. The vigor and tenacity of the economic revival was such that one of the major points of concern was that the economy would overheat and pave the way for a new wave of inflation and other devastating problems.

It was against that backdrop that the staff of Babson's Reports predicted a period of further economic growth for 1984, albeit one less spectacular than was the case in 1983. As 1984 unfolded it seemed as though there would be no stopping the onrush of business, with the year's first two quarters continuing to display vigor and stamina on

the economic front. While this development served to exacerbate anxieties over the possibility of an overheated economy, the high rate of manufacturing capacity utilization and brisk consumer and business demand for goods and services thankfully did not translate into renewed inflation and a straining of credit.

RECESSION FEARS EMERGE

When the long awaited cooling down of the pace of the economic recovery/expansion did occur, however, the let-down was both abrupt and pronounced. Midway in 1984 the rate of business advance suddenly slowed to a crawl. The marked contrast of an economy catapulting ahead earlier to one which seemed lacking in vitality caused to a shift in the focal point of national concern from the possibility of fresh inflationary pressures to the new threat of what might develop into another period of recession.

Throughout the second half

of the year now drawing to a close, the Babson staff steadfastly maintained that the slowdown was a necessary correction period — not a prelude to a recession. After all, five of the eight calendar quarters of 1983 and 1984 were marked by superb economic growth, at rates far above the nation's historical long term economic growth achievement, and hence the breathing spell was a natural development. Nonetheless, it was disconcerting that the widely watched index of leading economic indicators suffered a downturn of sufficient duration to constitute at least one warning signal that an economic recession may be in the offing.

1985 — SLOW GROWTH, NO RECESSION

Six months of listless business have dampened public sentiment considerably. Hence, anxieties that an economic recession may be lurking nearby cannot be summarily dismissed. There are, in addition, some major problems

confronting the nation which, if not brought to heel, could ultimately produce harmful economic and monetary consequences.

Among these are the outsized federal budget deficit, the overwhelmingly adverse balance of foreign trade, the lingering plight of the farm sector and some of the once indispensable "smoke stack" industries and the regions where they are situated, and the uncertainties of what changes will be wrought by the federal income tax "simplification" effort and the moves to cut the budget deficit.

However, Babson's Reports forecasts that 1985 will not suffer an economic recession. The drastic slowing of the pace of the economy's uptrend during the second half of 1984 was a welcomed pause, one needed to keep inflationary pressures at bay.

In addition to serving as a relief valve with respect to inflation, the slowdown also paved the way for a subsidence of

high-level interest rates and facilitated the transition of monetary policy from anti-inflation restraint to an approach which can more readily accommodate the credit-easing moves needed to fend off the threat of a recession. The resultant downturn in interest rates of recent months should bolster public confidence, shore up the erosion in the pace of consumer spending, and bolster residential building sufficiently to forestall the onset of an economic recession. Thus, the staff of Babson's Reports looks forward to a year of slow but steady economic growth in 1985.

THE ECONOMY REMAINS FUNDAMENTALLY SOUND

Recent months' faltering business notwithstanding, the American economy remains more solid than is generally perceived. Even though public sentiment is not as ebullient as it had been when the economic recovery was burgeoning, there is no widespread sense of

pessimism. Nor should there be, since the trend of economic activity is still upward and employment and income conditions remain generally favorable.

Moreover, the economy has not developed the major excesses which in the past have topped advancing phases of the business cycle. This time, consumers became more selective in their spending once pent-up needs were satiated. In response to softening consumer demand, businessmen moved quickly to trim orders, thus averting a serious case of inventory indigestion in most instances.

In the housing sector, high interest rates in recent years served as a deterrent to widespread speculative building. In addition, during this economic recovery/expansion, businessmen have focused capital expenditures upon productivity enhancing equipment and systems, and there has been no let-up in the vital

(Continued on Page 6)

Kent Hance: ending six busy years in Washington

(Editor's note: Although many of you have received Congressman Kent Hance's newsletters over the past six years, we thought it worthwhile to print, in Kent's own words, a summary of the most important legislation that he has worked with during his six years as US Representative from the 19th District. 100 public laws have had the name of Kent Hance on them, either as sponsor or co-sponsor. It's a record of which Kent is proud — and so is the News — jb.)

For the past six years I have had the high personal honor and privilege of representing the 19th Congressional District of Texas in the US

House of Representatives. During these years, the Congress has made considerable progress in addressing many of the problems that face our nation. At the same time, however, there are many other problems that still confront us. The following report represents my thoughts on what has been accomplished during my service in Congress.

On a more personal note, the last six years have been the most rewarding and challenging of my life. I have many fond memories of my years in Congress and of the people I represented. I trust that you have found my stewardship of your vote to be one of integrity,

Dimmitt, Texas, Thursday, December 27, 1984

12 Pages Plus Supplement

Cotton harvest set to resume

Cotton harvest, held to a standstill over the last two weeks as farmers have to slog through muddy fields, is set to resume as land dries from recent rains.

Yields have been some of the best in years, with much higher than average staple and micronaire; however, the market has soured in the past two months, with prices down \$25-\$35 per bale.

"It seems that whatever we grow is just backwards from what the market wants," said Clay Davis of Flagg Farmers Gin. "We're getting some excellent, long staple. It's averaging just over an inch. The mic is not bad, but the buyers are wanting a short staple with higher mic."

"It looked like this was going to be one of our better years, but the market

deteriorated and the weather is definitely hurting," Davis said.

Davis said Flagg-area farmers are only 60% through with harvest, which seems to be the average around the county. The Ross Family Gin at Sunnyside was the only gin reporting harvest nearing completion.

"We're 95% through," said Gene Ross. "We could be through by late this week or early next week. We're getting a lot of two bales per acre and better yields, with the staple averaging around 35. The mic is running from 2.7-2.9. Things would be a lot better, though, if the markets would cooperate."

"The mic on this cotton varies a lot," said Layne Myatt of Easter Farmers Gin. "Irrigated is running around 2.5, with dryland up to 4.0. Yields have been excellent, up to two-

plus bales per acre. The average is about 1½ bales per acre."

Bill Birdwell at North Gin and Mike Bryant of Five Point Farmers Gin both said they are about 60% through, and will probably have to run well into January "if the weather

News sets early deadlines; many businesses open Jan. 1

Many Dimmitt businesses plan to remain open through the New Year's holiday, with local, state and federal agencies closing Jan. 1.

Due to the New Year's holiday, the News has established early deadlines for the Jan. 3 issue.

All advertisers should have their copy submitted by 5 p.m.

cooperates at all" to get all of the cotton ginned.

L. J. Rice, manager of Hart Producers Co-op Gin, said they are "about 70% through. It should take us about two weeks to get everything ginned. We're averaging 1½ bales per acre, with pretty good mic and staple."

Friday, with all news from correspondents and others in by noon Monday.

City Hall, the Castro County Courthouse, all federal offices and county post offices will be closed New Year's Day only.

Most restaurants and other businesses plan to remain open Tuesday.

On the Go with Mary Edna Hendrix, 647-3343

Some of the teachers enjoyed parties before they went home for the holidays. The Dimmitt Middle School teachers prepared a Christmas breakfast and invited members of the administration as their guests. The teachers brought food and the CVAE classroom students with Jacque McLeroy as their teacher, made the blueberry muffins. They served baked eggs, blueberry muffins, fruit bread sandwiches, juice and coffee. Sausage and apples were furnished by Emmett Broderon and Terry Ellison.

The Richardson Elementary teachers, aides, administrators and some retired teachers had a "Sock it to me" party. They exchanged socks for presents. Poinsettias were used for decorations. The teachers served chips and dips, sandwiches, cookies, cake, candy and punch.

The Elmer Berryhills invited the teachers to their home for a come and go party.

The Sundowners Extension Club held their Christmas party at the home of Karen Carter with a Christmas dinner serving ham, potato salad, mixed vegetable salad, Jello salad, tossed salad, homemade rolls, candy, punch and coffee. Gifts were given by playing a game — taking gifts away and giving them to someone else by throwing dice.

Members of the Presbyterian Church enjoyed a covered dish lunch at the courthouse party room on Sunday at noon. Santa came and brought gifts to the kids.

Here is a poem that might apply to us during this season with all of the eating we do:

The Twenty-Third Pound
My appetite is my shepherd:
I shall always want.
It maketh me to sit down and stuff myself.
It leadeth me to my refrigerator repeatedly.
It leadeth me in the path of "Burger King" for a whopper.
It destroyeth my shape.

Yea, though I knoweth I gaineth, I will not stop eating for the food tasteth so good.

The ice cream and cookies, they comfort me.

When the table is spread before me, it excites me, for I knoweth that, soon I shall dig in.

As I fillet my plate continuously, my clothes runneth smaller.

Surely bulges and excess weight shall follow me all the days of my life and I will be fat forever.

The Dimmitt Dinner Club drove to Bovina for their Christmas party in the home of Buster and Mearle Morgan. A delicious meal of ham, sweet potatoes, broccoli casserole, fruit salad, Jello salad, cherry chiffon pie, homemade candy and cookies was enjoyed. Gifts were exchanged and Mearle gave some fun gifts to a few of us — I got a small barrel of monkeys! Others enjoying the night were: Oleta and Guy Walser, Morgan and Geneva Dennis, Ivor and Hazel Bagwell, N. A. and Thelma Bryson, Gene and Connie Ivey, Elmer and Mauzee Youts, Billye Wesson, Irene Carpenter, and Mary Edna Hendrix. We drove in the thickest fog I have ever seen!

I went with Walter Maynard to Lubbock to deliver some clothes and toys from the FBC to Buckner's Orphans Home. We visited with the administrator, Annie Mae Monis, she is a delightful person. There are six cottages and we toured one of them. There is room for six girls and six boys in each cottage, a large living room and dining room, a kitchen and a private apartment for the house parents.

While we were in Lubbock we saw Suzanne Axe and Heather, Jacque McLeroy, Patricia Braafladt and Tiffany and Joann Smith.

Kent Hance was on "Good Morning America" on Thursday morning. Kent was inter-

viewed by Joan Lunden on the subject of the prospects of selecting Deaf Smith County as the site for the Nuclear waste dump.

Gene and Connie Ivey entertained all their girls and their families for Christmas. Gene and Raneal Perry, Mark, Suzanne, and Rebecca from Tonkawa, Okla.; Wilton Graef from Hale Center, Leisa Bubliss from Wichita Falls and Anton; Brent Graef from Midland; David Graef from college in Iowa; Carl Graef from Wichita Falls; Zetha and J. E. Blackburn, Denise and Sara Adrian from Spearman; Laurel and Roy Carpenter, Brody, Melissa, Rachel, and Dallas, from Alton City.

Ivor and Hazel enjoyed having all their family home for Christmas — Milton and Sandra, Steve and Anita, and Rick Bagwell all from Dimmitt, Randy from Denver, Scott from A&M, Kyle from Amarillo, Nelda Falwell and her family from Dallas, Craig and Kristin Moore from Arlington, Carol, Dave and Royce Moyers from Childress.

N.A. and Thelma Bryson will entertain their daughter and family, Frances, Dan, and little Alan Ramirez from Cedar Hill and their son Neil Bryson and Carolyn from Tulia.

The Youts had all the Youts clan in their home for the holidays. They came from Monahans, Midland, Austin, Sunray, Amarillo and of course the Dimmitt relatives.

Decimae Dennis came in from Midland to be with her parents Geneva and Morgan Dennis. Debbie and Connie came in from Lubbock to be with Edgar and Betty and they all got together for the holidays.

Buster and Mearle Morgan and their sons Randy and Ricky went to Oklahoma City to visit Deanna and family for Christmas. Everyone went to Waco the next day after Christmas to visit Mearle's family. They all got together for a family reunion. There are eight brothers and one sister in Mearle's family — a big group with all the children and grandchildren.

Mr. and Mrs. Wayne Davis came in from Pecos to visit Garner, Ysleta, and Debra Ball for Christmas. Mrs. Davis and Ysleta are sisters and their mother, Beulah Newton, from Earth will join the group for all the activities.

Visitors in the home of George and Irene Blanton for the Christmas holidays were Lanelle and Gerald Stevenson and Jason from Denton; Georgene and L. W. Woods and Leslie from McKinney daughters of George and Irene's sister and her family, Mr. and Mrs. Sam Shaw, Barbara and Wayne Shaw, all of Tucumcari, N.M.

Mr. and Mrs. Clarence Smith of Tucumcari, N.M. spent Tuesday in the home of George and Irene Blanton.

The Ewell Kelley family went to Lockney to the Joe Cunyus home for feast and Christmas tree. On Christmas Eve Ewell always plays Santa. Cindy Kelley, who teaches in Pampa and Greg Kelley who works out of Lubbock were home for the holidays.

Rodeo Assn. will meet

All past and present members are asked to attend a meeting of the Dimmitt Rodeo Association Tuesday, Jan. 8 at Ann's Steak House at 7 p.m. "This is a very important meeting," said Association president Kenny Ebeling. "We need all past members to join with us for this meeting."

TIME...

As the old year passes and the new begins, we are more conscious of time itself than we are at any other time of the year.

These are days when most everything is geared to a higher speed. Automobiles are faster, aircraft set new records. Production is speeded up to make the best possible product in the shortest time... but this is a good time to slow down and review the past and to make plans for the future. Think of the past, but only of how you can improve on it. Plan now for the future. Make sure that you will have time for the Lord this New Year. Start now to attend church, make it a regular habit.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Coleman Adv.

More about

PROSPECTUS '85

(Continued from Page 1)

tions have been involved in mergers, buyouts, bailouts, takeovers and bankruptcies. Education is being restructured. And the biggest industry of all, the federal government, is proposing major changes.

With this confusion, it is easy to lose sight of the fact that the United States is creating incorporated businesses at a record rate. More than 600,000 new firms are starting up each year. Most of these firms are small, information or service oriented companies. The US Labor Dept. projects that 75% of all new jobs during the next 10 years will be in the information and service sector of our economy.

Since 1957, white collar workers have outnumbered blue collar workers. Increasing numbers of Americans are earning their living handling information and providing various services.

While many traditional businesses are disappearing, the new information-service sector is growing. Dimmitt reflected these changes in 1984 and we will see additional evidence in 1985. For example, we can now buy a satellite receiving dish from one of several Dimmitt firms. We have a Diet Center and a Fitness Center. We have brokerage firms, four financial institutions that offer checking accounts, and a business that specializes in renting home movies. A new janitorial service has been formed and at least one business is planning to offer a new line of computers in the near future. This is the information-service sector at work.

In 1985, we expect our business community to continue its restructuring — reflecting the changing needs and interests of our market place.

If we are to do well in the coming year and beyond, we must recognize that change means opportunity.

To fully exploit these new opportunities we must also be willing to change. We must be willing to redefine what "business" and "industry" mean, according to changing needs and lifestyles.

Can we expand our definition of industry to include tourism, small business and creative use of farm land?

Can we expand our definition

of "business" to include the myriad of entrepreneurial pursuits — including "color analysis?"

Can we reach out for new markets and consider new products and services?

Most of all, in 1985 and beyond, we must be willing to exercise initiative — to do something for ourselves. Our goal should be self-reliance.

Many successful business firms of today did not exist five years ago. Others that will be successful in the future are not yet born. 1985 may be your year to begin a profitable new venture. Find a need and meet it. Find a problem and solve it. Find a void and fill it. Success is just an idea away.

Dimmitt

By WAYNE COLLINS
Mayor, City of Dimmitt

In looking ahead and planning for the future, it seems proper that we should first look back and determine where we are now and how we arrived at our present state of affairs.

Dimmitt and Castro County have been blessed with wise, far-sighted leaders in the past, and the growth and prosperity of our area is evidence of the quality of the people in our area. The corn wet milling plant, the vegetable processing plants, the cattle feeding industry, and the development of irrigated agriculture are all indications of the high-caliber people that we have in this area. People saw a need and an opportunity, and they rose to the occasion. The result was economic growth and prosperity for the entire area. In the past our people have met the challenge of changing times and conditions and have moved forward to develop a successful and prosperous region.

Today, we stand at a great crossroad, not only here in Dimmitt and Castro County, but also at the state, national, and international levels.

At the international level, massive starvation and the threat of human annihilation by nuclear war are the paramount issues that must be resolved. At the national level, we are threatened with economic chaos by massive federal government debts and by changing conditions as our economy moves from a manufacturing base to an information base. At the state level, Texas faces major changes as our oil reserves are

depleted.

At the local level, we face major changes as agriculture and agricultural related businesses undergo realignment. The experts tell us that farms will become larger and fewer. Farm equipment manufacturers are also going through a consolidation with the business being concentrated in fewer and fewer companies. Many old and trusted names are being changed or dropped. Our area, as well as the entire world, is undergoing major changes, but with change comes opportunity. The wise person — and the wise community — will adapt to change, convert adversity to opportunity and move ahead to even greater opportunity and economic prosperity.

The first step in the solution of any problem is recognizing that there is a problem. After much discussion and deliberation, the people of this area realized that we do have a problem with the changes that are taking place in our agriculture-based economy. It was resolved to take positive action to insure that our economy will not stagnate and decay, but rather, continue to grow and expand, thereby providing a growing job base and increasing economic prosperity for our area.

The first action taken was to form a commission, the Castro County Economic Development Commission, for the purpose of planning, coordinating, and directing the community efforts in developing and encouraging economic growth in our area. The response has been very favorable. There has been a ground swell of enthusiasm from the entire area. Farmers, cattlemen, businessmen, civic, and government leaders have all responded very favorably. All segments of our population have responded very generously with both time and money. In order to succeed, a project of this nature must have the support of the people. This project does have the support of the people.

Based on the quality of the people in this area and based on the previous performance of our people when faced with difficult times, I believe that we will succeed and that our economy will continue to grow and prosper.

Commerce

By DELORES HELLER
Manager, Dimmitt Chamber of Commerce

Here we go again . . . off and running with a new year ahead of us. It's exciting and as a Chamber we constantly remind ourselves that it's possible only because of you — the community, the volunteers.

This year has been full of community activities to help make us a stronger unit. By way of the Fun Breakfasts, Harvest Days, the Follies, the Christmas Parade, Beauty Spots, and numerous other activities, we have played together as well as worked together. A new group insurance program has been adopted as a service to our membership, and we hope to do

more work on our membership involvement next year.

The Chamber has enjoyed its first full year in a new office home. It is more available to the public and, therefore, more effective. Distribution of community information has increased over the past year. This was made possible because of the strength and belief of our members — the volunteers.

Because of our economy, our main emphasis has been on economic development. Pheasant hunting is still a major resource of our area and we have hopes of utilizing it better in the future. Through the efforts of many people, the Economic Development Commission has been put in place. We have great expectations for the coming year and feel "the grass is greener on the other side." Our 1985 can be greener, but it will depend on our attitude and our willingness to progress.

When times are tough, we have two choices. We can join one of two groups: the Predictors of the Inevitable, or the Pursuers of the Possible.

Banquet tickets to be available

Tickets for the Chamber of Commerce banquet are scheduled to go on sale Wednesday at the Chamber office for \$10 per person.

Jack Jackson, chairman of the board of LDI Inc., a management consulting firm in Oklahoma City, will be the speaker for the event, set for Jan. 17 at the County Expo Building.

Recognition will be given to those named Citizen of the Year, Citizen Through the Years, and Teacher of the Year. Nominations for these honors are still needed and may be submitted through Wednesday. Nomination forms are available at the chamber office and may be returned there.

When a problem arises, the Predictors decide things have just gotten out of control and there's nothing more we can do. They discourage anyone who tries by predicting their failure.

At the same time, there are Pursuers of the Possible. When things get tough these same people are afraid, but overcome their fears with their confidence in themselves. Their feelings of concern move them to take action and always have hope.

In 1985, it is the Chamber's goal to try to keep our community, which has been so supportive, always looking ahead and accepting new challenges and opportunities. Let's be Pursuers of the Possible!

Happy anniversary!

Gerber named region's Class A top player

GERBER

Chris Gerber helped improve his all-everything status Thursday, when he was named South Plains player of the year in Class A by the Lubbock Avalanche-Journal.

Gerber, a unanimous four-way pick and player of the year in District 2-A, was selected by the A-J at runningback and defensive back, and joined teammates Billy Huseman and Billy Steffens on the South Plains unit.

Steffens, a junior, was picked

at defensive line and center, while Huseman, a senior, was chosen at offensive tackle.

On offense, Gerber reached his stride during the conference schedule and ripped off five consecutive 200-plus-yard games. For the year, Gerber picked up over 1,600 yards on 221 carries and scored 19 touchdowns. Adding 28 extra points and two field goals, that gave Gerber 148 points to lead Class A scoring in the region.

Defensively, Gerber recorded

84 tackles in 10 games at defensive halfback, while recovering four fumbles and intercepting eight passes.

Steffens headed the defen-

sive front four with 124 tackles, 12 quarterback sacks and seven fumble recoveries for the Swifts.

He joined Huseman in an-

choring the front line that opened holes for Gerber and his backfield mates, Ricky Backus and Roger Wilhelm, all season.

Bobcats blow by Chieftains

Dimmitt's Bobcats cruised to an easy district win over Friona before the holiday break, while the Bobbies were left with a bad taste after a tough loss to the Squaws last Friday at Friona.

Friday's 77-39 win lifted the Bobcats to a 2-0 slate in District 2-3A action, while the Bobbies fell to 1-2 with their

54-46 setback.

"Their free throw shooting had a lot to do with their winning," said Bobbies coach Doug Porter. The Squaws hit 24 of 29 free throws.

"We didn't rebound very well, but a lot of that was because of some bounces in the wrong direction for us," Porter continued.

The Bobcats played well in just one quarter of their win Friday, but coach Ken Cleveland was most disappointed with the bench play.

"Friona came at us with an awfully young ball club," Cleveland said. "A good team, though, plays well in spite of the competition, and we only played well in spurts."

Bobcats, Bobbies enter tough Caprock field

The toughest tournament field of the year awaits the Dimmitt Bobbies and Bobcats this weekend at the annual Caprock Holiday Basketball Tournament in Lubbock.

The Bobcats take on Lubbock Christian High School this morning at 10 in the Lubbock Municipal Coliseum, while the Bobbies square off against the Monterey Plainsmen at 2:30 p.m. at the Coliseum.

If the Bobcats win their first-round contest, they'll play the winner of the Lubbock Dunbar-Shallowater contest tonight at 7. Should the Bobcats fall, they will play at 10 a.m. tomorrow morning. Those two games are scheduled at Lubbock Coronado High School.

the consolation and championship division at the Coliseum. The consolation finals are scheduled Saturday afternoon at 3:30, the third place game at 12:30, and the championship finals at 8:45 Saturday night.

The Bobbies, should they defeat Monterey, will face the winner of the Lubbock Cooper-Estacado game at 11:30 Friday

morning at Coronado. Should they lose the first round game, they'll face the Cooper-Estacado loser at 5:30 p.m. Friday at Coronado.

Consolation finals in the girls tournament are set at 1:45 p.m. Saturday at the coliseum, with the third place game at 5:15 p.m. and the championship game at 7 p.m.

Clovis, N.M. is new home for Mr. and Mrs. Treider

Mr. and Mrs. Reginald Charles Treider are at home in Clovis, N.M., after a wedding trip to Ruidoso, N.M., following their Nov. 29 exchange of marriage vows in the Sacred Heart Catholic Church of Clovis.

The bride is the former Launa Dene Brockman, daughter of Phil and Judy Brockman of Lazbuddie. The groom is the son of Raymond and Charleta Treider, also of Lazbuddie.

Reading the double-ring ceremony was Fr. Frank David. Alba and Gary Wilcox of Lazbuddie were the vocalists, singing "Theme from Ice Castles," "Theme from An Officer and A Gentleman," "Through the Years," and "To Me."

Maid of honor was Sharon Glover of Lazbuddie. Bridesmaids included Becky Schacher of Lazbuddie, Staci Ivy of Ruidoso and Shari Schilling of Dimmitt. Flower girl was Casey Beth Schulte of Easter, cousin of the bride.

Keihm Smith of Lazbuddie served as best man. Groomsmen were Charleson Steinbock of Lazbuddie, Russell Treider of Houston, brother of the groom, and Larry Kitchens of Mulshoe, brother-in-law of the groom. Ushers were Guy Brockman of Lazbuddie, brother of the bride, and Blake Buchanan of Houston. Nephew of the

MRS. REGINALD CHARLES TREIDER
... nee Launa Dene Brockman.

groom, Joshua Kitchens of Mulshoe, served as ring bearer.

Candlelighters were Leland Brockman of Lazbuddie,

brother of the bride, and Becky Botkin of Clovis, niece of the groom.

Given in marriage by her father, the bride wore a formal-length gown of white silk chiffon and re-embroidered Alencon lace, adorned with seed pearls. She wore a hat of mesh accented with lace and pearls and anchoring a veil of illusion in fingertip-length. Her bouquet was formed of white and burgandy carnations accented with pink lilies.

After the ceremony, a reception was held in the Farwell Community Center.

Serving at the reception were Chandra Engelking, Connie Puckett and Lori Hanks. Gina Smith registered guests.

A 1984 graduate of Lazbuddie High School, the bride plans to attend Eastern New Mexico University in January.

The groom is a 1980 graduate of Lazbuddie High School and is employed as a contractor/carpenter.

Gerber, Hampton exchange wedding vows in Nazareth

Sharon Gerber and Johnny Hampton were united in marriage Saturday afternoon in a ceremony in the Holy Family Catholic Church of Nazareth with Father Harold Waldow, pastor, officiating.

The bride is the daughter of Mr. and Mrs. Vincent Gerber of Nazareth. Mr. and Mrs. Travis Hampton of Dimmitt are the parents of the groom.

Large white poinsettias decorated the altars of the sanctuary and the center aisle was decorated with candle globes and green ribbons.

Mrs. Jim Peggram played the organ and Greg Birkenfeld played the guitar. A vocal ensemble of Becky Hoelting, Dwayne Kleman, and Greg and Glenda Birkenfeld sang, "There Will Never Be Another," "Walk Hand in Hand," "We've Only Just Begun," "Sweet Adoration," "Nobody Loves Me Like You Do," "Wedding March and Recessional," and "Theme from The Young and The Restless."

Given in marriage by her parents, the bride wore a formal length gown of white organza featuring a victorian neckline with a stand-up collar of lace ornamented with pearls. The bodice was overlaid with Chantilly lace and seed pearls, and the yoke had a sheer insert of the same lace, which also formed the French pouf sleeves. Sheer organza formed a second layer over the top half of the sleeves and a lace ruffle formed the cuffs. Her train was a full chapel sweep, styled with long layers of organza net and Chantilly lace flowing to a scallop arrangement that cascaded down the back.

Her hat was a matching turn-of-the-century style of window pane weave trimmed with lace and flowers, along with pearls and sequins. It held the bridal illusion, which was gathered in back to a bow of net and fell to fingertip-length. She carried a cascading bouquet of white roses accented with white lilies.

Her maid of honor was her sister, Leona Gerber of Nazareth. Bridesmaids were Tonya Ethridge of Dallas, sister of the groom, Doretta Gerber of Pampa, sister-in-law of the bride, Stacy Averitt of Hart, and Lori Gerber of Nazareth.

The attendants wore formal-length dresses of hunter green accented with gold trim and a plaid cummerbund. Each carried a single lotus blossom sur-

MRS. JOHNNY HAMPTON
... She's the former Sharon Gerber.

rounded with baby's breath and trimmed with green ribbons.

Serving as best man was Bryan Huseman of Nazareth. Groomsmen were Travis Hampton Jr. of Nazareth, brother of the groom, Kenny Gerber of Pampa, brother of the bride, Norman Gerber of Nazareth, brother of the bride, and Ricky Hunter of Dimmitt.

Ushers were Sidney Gerber of Nazareth, brother of the bride, Jeff Watts of Dimmitt, cousin of the groom, and Rex Minshew of Nazareth.

Gregg and Marty Gerber of Nazareth, brothers of the

bride, were the candlelighters. Shane Ethridge of Dallas, nephew of the groom, was the ring bearer. At the registry was Danelle Schmucker, Leona Kelman and Becky Hoelting carried water and wine to the altar.

After the ceremony, a reception was held in the Nazareth Community Hall. The tables were decorated with pine cone fire-side baskets. Wall decorations were candy canes formed of pine cones. Guests danced after dinner to the music of the Rough Riders Band.

After a wedding trip to Las Vegas, the couple will make their home in Nazareth.

The bride is a graduate of Nazareth High School and of South Plains Junior College, and is presently attending West Texas State University, where she is majoring in business education.

A graduate of Dimmitt High School and West Texas State University, the groom is coaching and teaching math at Nazareth.

LGPA names new officers

The Women's Golf and Pool Association held installation of officers at the group's annual Christmas party held recently at the country club.

Installing officer was Delores Heller. She installed Doris Davis as president, Susie Bradford as vice president, Lue Griffith as secretary-treasurer, and Gaye Keaton as reporter.

The annual budget report was received. A table and chairs for the club were purchased, along with a tee box marker.

Members brought covered dishes, with the turkey and dressing supplied by Neva Hickey and Bernice Hill. Thirty members exchanged gifts, and a gift of appreciation was presented to outgoing president Betty McClure.

Mr. and Mrs. Guggemos to be feted on 35th

Mr. and Mrs. Vincent Guggemos will celebrate their 35th wedding anniversary Sunday at their home from 2 to 5 p.m.

The celebration is being hosted by their children, and friends and relatives of the couple are invited to attend. The home is located west of Nazareth.

The former Josephine Hoffman of Hereford married Vincent Guggemos on Feb. 14, 1950 in Hereford. An early celebration is planned so that all the family may attend.

The couple have four daughters, Jo Ann Patton of Houston, Jackie Dobmeier of Grygla, Minn., Jane Gerber of Bovina and Dorothy Guggemos of Nazareth; and six grandchildren.

Mr. and Mrs.
Vincent Guggemos

ABI Agriculture Business Industry

EDC \$ SIGNS

By JERRY MARVIN HANNERS

In today's business world, it is often difficult to accomplish anything substantial alone. Almost every business can benefit from some assistance. The Castro County Economic Development Commission has been created to provide assistance to beginning businesses and those wishing to expand.

Let's consider for a moment what we might do to assist a growing enterprise that is headquartered at the North Pole, but wishes to relocate to the Texas Panhandle.

First, we would provide detailed information on Castro County as a potential industrial site. The information would include climate conditions, population, transportation facilities, utilities, government, labor, wage rates, and availability of raw materials and support services. We could provide complete demographic information including the fact that 1,149 people in Castro County are under the age of five.

Additional information would emphasize the economic advantages and "quality of

life" factors that would favor a production facility in our county. We, of course, would provide topography maps of specific land sites, floor plans and photographs of existing buildings that might be suitable for the enterprise and detailed cost information on real estate.

Moving from the North Pole to Castro County is a costly venture and we would be happy to recommend some financing alternatives that might be helpful in making the project work. Our Industrial Revenue Bond Program, for example, might provide the necessary financing at a favorable rate of interest.

Through outside resources, we could arrange for additional studies and research if necessary. For example, it might be possible for us to provide information on who has been naughty and who has been nice. This data might be quite useful in assisting the firm to expedite its product distribution.

When a business requires construction, there is almost always some small problems. Things like easements, water rates, cost of utilities, zoning or waste disposal. We might assist in solving these problems by bringing our bearded entrepreneur together with local officials so that decisions could be made and the project expedited.

Our service would continue, even after the workshop is located. We would be happy to assist the new firm in obtaining appropriate personnel, find housing, and become acquainted with local schools, churches and civic clubs.

If your business plans for 1985 would benefit from any of these services, please contact us at the Castro County EDC at 115 West Bedford.

Happy Holidays and best wishes for the coming year.

Garrison Seed names district supervisors

Charley and Alfred Sammann of Corn Savers, Inc., in Dimmitt have been named district supervisors for Garrison Seed & Co., Inc., of Hereford, according to Bob Crume, Garrison proprietary sales manager.

The Sammanns will be responsible for coordinating product sales and service and supervising Garrison dealers in Castro County.

Garrison is headquartered in Hereford, where their production and research facilities are also located. The company recently announced that they are marketing their lines of hybrid corn, grain and forage

sorghum under their own SG Brand name. They had previously produced under contract for other seed companies.

Presbyterian happenings

Sunday is the first Sunday in the Christmas season.

There will be a Sunday Church School class for everyone every Sunday at 10 a.m. The Adult Bible class meets at the home of Mr. and Mrs. J. R. Brown. All other classes meet at the church.

"The Hope That Springs Eternal" will be the subject of Pastor Edward D. Freeman's sermon at the Sunday morning church worship service at 11. A series of studies on "The Love of God" will begin Wednesday at 7 p.m.

Tax rebates are higher

With this month's sales tax rebate checks being the first to reflect receipts from taxes on new goods and services collected for the first time beginning Oct. 2, the payments are higher than those received last year for the three cities in the county that collect the 1% city sales tax.

December checks represent taxes collected in October and reported by Nov. 20.

The December 1984 rebate for Dimmitt was \$11,763.39, nearing twice the \$6,815.10 that was received in December 1983. For all of 1984, Dimmitt has received \$137,468.15, while in 1983, only \$129,701.03 had been received, showing an increase of 5.99%.

Hart's December 1984 rebate check totaled \$1,301.27, while in December 1983 none was received because of a delay in reporting. The year-to-date total for 1984 for Hart is \$17,484.64, while in 1983 only \$14,095.59 had been received, for a gain of 24.04%.

Nazareth received \$1,417.57 for its December 1984 rebate, compared with \$870.25 received in December 1983. The 1984 year-to-date total of \$16,693.13 compared with the 1983 total of \$15,934.08 shows an increase of 6.46%.

The 1983 figures were down some from the 1982 figures, except for Nazareth. The 1984 figures have exceeded what the 1982 figures were except for the Dimmitt year-to-date total.

On a quarterly basis, the 197 sales outlets in Castro County reported gross sales of \$43,315,342 for the second quarter of 1984, while in 1983 \$34,811,748 was reported, showing a gain of 24.4%.

ASCS news

PAYMENT LIMITATION

The \$50,000 payment limitation will apply to all deficiency and diversion payments under the 1985 program. Payment limitation rules will apply to conditions as they exist on March 1 each year.

1984 COOPERATING GINS

All gins in Castro County have certified that they will use bagging and ties which meet CCC Specification for all cotton that is to be pledged to CCC for loan.

FOREIGN INVESTMENT

Foreign Investors who purchase agricultural land must file a complete report (Form ASCS-153) to the Secretary of Agriculture no later than 90 days after the date of purchase. Forms are available in the Castro County ASCS Office.

WOOL

Jan. 31 is the last day to file

to be eligible for incentive payment on sale of wool and unshorn lambs during the 1984 marketing year.

1985 FARM PROGRAM

Sign-up for the 1985 program began Oct. 15 and runs through March 1.

Crime Line

A \$300 reward is being offered by the Castro County Crime Line for information in the burglary of the Menzies McWilliams residence in which \$1,505-worth of items were taken.

Sometime between 11 a.m. and 6:14 p.m. Friday, entry to the home was gained by breaking the glass out of a rear door using a stick of firewood. The home is eight miles north of Dimmitt on US 385 and five miles east on a dirt road.

Items taken include a 19" color TV, a microwave oven, a C.B. radio, a vacuum cleaner, luggage, dishes, a belt buckle, assorted eight-track tapes and a tape case, a blanket, a jar filled with pennies, and two Christmas gifts containing a sewing kit and perfume.

Anyone having information in the incident is asked to call Crime Line at 647-4711. Anonymity is assured through the use of code numbers and a drop system for payment of rewards. Information given must lead to an indictment for the reward to be paid.

Senior Citizens

Castro County Senior Citizens Center is located at Third and Jones. It will be closed through New Year's Day, but will open on Wednesday, continuing through the rest of the week, from 8 a.m. to 4 p.m. Quilting, crafts, and table games are daily activities.

Bridge will be played on Wednesday, Thursday and Friday at 10 a.m.

Membership is open to anyone who is 50 years of age or older without discrimination as to sex, color, race, ethnic background, national origin, religion, denominational preference, political party, economic status, or handicap.

WHY DOES THIS 4450 COST \$6,816 LESS THAN THE LAST ONE WE SOLD?

It's simple. This tractor is equipped to keep initial cost low, but still deliver John Deere efficiency and productivity.

Quad-Range™ . . . now the standard transmission for 4050, 4250 and 4450 Tractors equipped with exclusive Caster/Action™ mechanical front-wheel drive . . . costs less.

Ordering standard gauges and an analog (dial) tachometer

also saves money. Specifying the standard seat suspension system saves still more. And ordering offset cast rear wheels with 6-ply rated tires on 96-inch axles cuts

cost even further. In addition, this tractor was ordered without the popular, but optional, front fenders and dual electric horns.

That's the sum total of differences, but the differences total \$6,816 . . . a tidy sum. See us for more details on the right way to order a new 100-hp 4050, 120-hp 4250 or 140-hp 4450. You can still get the best . . . but for less.
