about dimmitt and castro county

_by b. m. n.

At a recent meeting of the Dimmitt Lions Club, Boss Lion Gene Ivey informed the club that it was time for the local club to be thinking about selecting a candidate to participate in the Lions District Queen Contest. By the time the Boss Lion stopped talking Frank Latimer was ready with the retort, "Well, let's start feeding out one" -adacc-

Many of the folks in the area say they are planning on going to Waco for the girls' state basketball tournament, I would hazard the guess that there will be more people at the tournament from Dimmitt than there will be from larger towns (with teams participating) closer to the site of the tournament. The people of our highly productive county are ardent supporters of their athletic teams, all youth activities and civic projects designed to promote the development of the area. That is one of the chief reasons that development has been so rapid within the past few years. We have been consistently producing champion athletic teams, 4-H Club and F. F. A. champions, livestock and otherwise, all backed up by the untiring support of the public. Mr. King's 4-H Club boys have successfully shown the grand champions in the neighboring stock shows during the early months of this year, and the Bobbies are going to equal his record by again winning the girls state basketball championship. People that don't live in Castro County sure are making a mistake by not moving here, this is the land of opportunity and the record of youth projects prove it.

The City Commission will consider the proposition of renaming and renumbering the city streets at their next regular meeting Wednesday night. Local citizens who have conducted limited investigation of the project are of the opinion that the endeavor could be accomplished without too much confusion and inconvenience and the benefit from the move would be immeasurable.

by Rob't. (Bob) Kirk

DO YOU KNOW what a suit for "alienation of affections" is

live together peaceably without Miller, Agriculture junior. some outsider enticing one of the parties away from the other is a valuable right, which the Courts will protect, and allow substantial damages in case outsider does interfere with the home.

Thus where the husband and wife are living peaceably and happily together, and some woman gets interested in and shows considerable attention to and causes the husband to become interested in her, and to neglect and finally leave his wife and family for the other woman, the Courts will allow damages to the wife against the other woman for alienation of the affections of the husband for his wife. Similarly, the result would be the same, if it was the wife who was enticed away from the home. In which case, the husband would have a cause of action against the other man.

FOR FURTHER INFORMA-TION ON THIS SUBJECT, SEE YOUR LOCAL ATTORNEY.

Sidney Bob Taylor On Dean's List

Commerce,-Sidney Bob Taylor of Dimmitt is listed on the Dean's list for the fall semester at East Texas State Teachers

The announcement was made by Dr. C. B. Wright, chairman of the scholastic committee. To be eligible for the Dean's list, a student must have a grade average of better than a "B".

T. B. Symptoms

AUSTIN, March 8. "It has been well said that procrastination not business trip to Amarillo Friday. community have been taking turns only is the thief of time, but frenquently the thief of health Mr. and Mrs. George Bagwell and life," Dr. Geo. W. Cox, State Health Officer, said today. "In-Mr. Moss Howell was moved to due to the illness in the family of deed, medical records in physithat many persons die because they do not receive early diagnosis and prompt treatmens for Mr. and Mrs. Glenn Williams of their condition. An outstanding example of this fact is the great number of deaths from tuberculosis that could have been prevented.

"Tuberculosis is a powerful enemy, no matter what its stage, but the fact remains that early discovery and adequate treatment offer the best opportunity for cure. If the patient upon being told that he has tuberculosis cooperates fully with the strict regimin and discipline outlined for him, the disease can usually be overcome."

Dr. Cox said that in line with some of the other major killers, tuberculosis is insidious in its approach. Acute pain and discomfort are absent usually, and the symptoms are so comparitively mild that the patient is thrown off guard and considers them of little importance. Herein lies the real slaying ability of tuberculosis.

"The symptoms which, singly or in combination, demand an immediate checkup by the doctor are easy tiring, a persistent cough, and continued loss of weight

"While it is true that any of these symptoms can be present without the patient having tuberculosis, this is no reason to imagine that such is the case. Therefore, if one is suffering from any of these manifestations, the only sensible and safe thing to do is seek the advice of the family physician at once," Dr. Cox warned. "If such a course is pursued, and the condition turns out to be not serious, nothing has been lost. On the other hand, if tuberculosis is discovered, the patient by doing the wisest possible thing has probably saved his life.

Shell color of eggs does not affect the flavor, the food value or the cooking performance. There is no advantage to the homemaker in paying more for brown or white eggs of the same quality and size.

AND, FOR GROWN-UPS, TOO!

Safe food . . . healthful food . . . tasty food is vital to our very existence. We must have it to survive. But there must be a means of keeping food safe . . . healthful and tasty. Electric refrigeration provides the means . . . proven by years of faultless service to thousands of Panhandle-Plains-Pecos Valley-Eastern New Mexico residents. Today, proper refrigeration is a necessity . . . something you can't afford to do without. If you are not now refrigerating your food the safe, healthful electric way you're missing something. WEAK AND RUNDOWN HADACOL CAN HELP If Your System Lacks Vitamins B., B., Niacin

When Nasty Colds Leave You

and Iron, Which HADACOL Contains

When a nasty cold leaves you in a weakened and run-down condition, HADACOL can help build you up if your system is lacking in Vitamins B₁, B₂, Niacin and Iron, important elements contained in HADACOL. Many folks have found that this fine tamily formula helps overcome these deficiencies and soon they teel good

Mrs. A. Jiminez, 141 East 13th St., Port Arthur, Texas, gave HADACOL to her young son, Floyd, after he had recovered from a bad cold when she heard how HAD-ACOL was helping folks suffering from deficiencies of Vitamins B., B., Niacin and Iron. It helped him so much in regaining his strength and energy that Mrs. Jiminez says she is always going to have HADACOL on hand for

Here is Mrs. Jiminez's statement:

"My son Floyd was very subject to colds. He's eleven years old, and he was rundown didn't seem to have an appetite at all and just simply lacked energy. I heard about HADACOL on the radio, and it was about this time that Floyd was just recovering from a siege of a He was very rundown lacked an appetite, and I started giving him HAD-ACOL. After about a bottle and

a half I could no- Floyd Jiminez tice an improvement. His appetite picked up and he had increased strength. I think HADACOL has done wonders for Floyd, and can't praise it enough. I have continued to give him HADA-COL and intend to always have it on hand for Floyd."

Men, women and children of all ages are praising HADACOL for supplying Vitamins B., B., Niacin and Iron which their systems lacked. Don't let that "After-Cold Run-down Feeling" drag you down—HADACOL can help you, too, if you suffer such deficiencies. Sold on a strict money-back guarantee. You'll feel great after the first few bottles you take or your money back. Trial size, \$1.25; large family economy size, \$3,50

\$115,282,344

Damaged highways, such as the Texas highway shown in this picture, are a hazard to the safe operation of automobiles, farm trucks and other motor vehicles.

It costs three times as much to build roads that will withstand the loads of big trucks now being operated over them than it does for the smaller trucks and automobiles.

Latest records show \$115,282,344 was spent on Texas highways for the year ending August

A bill sponsored by the big truck operators is before the Texas Legislature. This bill proposes

(1) to increase the load limit from the present 48,000 pounds to 72,000 pounds, and

(2) to increase the maximum truck length from 45 feet to 50 feet.

Recent official highway tests at La Plata, Md., sponsored by the U. S. Bureau of Public Roads, the highway departments of eleven states and the District of Columbia, effectively demonstrated that as trucks increased in size and loads, roads cracked up and "died" more quickly.

We need to safeguard our highways for Civilian and Military use. "Increased heavy loading might seriously disrupt the effectiveness of essential routes in the event of an all-out war," according to T. J. Kauer, director of the Ohio Highway Department and Chairman of the La Plata road test committee.

The big truckers want the taxpayers to comtinue providing expensive highways for them to use as "rights-of-way" for their own, selfish, personal gain.

THIS IS A TUG-OF-WAR BETWEEN THE BIG TRUCKERS AND THE TAXPAYERS OF TEXASE

Automobiles and small trucks do not require extra strong, extra costly highways. The truth is, that the big truckers are putting the "pinch" on the pocketbooks of the Texas taxpayers.

Get the facts. Mail the coupon below for your copy of "The Case of the One Per-Centers," and for a reprint of the article published in TIME, January 22, 1951, about the La Plata highway tests.

CLIP AND MAIL NOW

From Washington by

Congressman Rogers TAXATION OF EXPENSE AC-COUNTS AND SIX WORKING DAYS A WEEK FOR FEDERAL EMPLOYEES: On February 12th I introduced HR-2576 to make certain expense allowances of the President, Vice-President and tax. The passage of this bill will so gallantly stemmed the tide of cost this Congressman, as well Communistic aggression. The as other members of Congress, approximately \$800.00 a year each and we all know that we are under the present tax rate. An headed into a period of sacrifices increase of taxes would increase that \$800.00 to approximately \$1,-000.00. This is in addition to what

This period going to be shortened by selfishness and greed on the part of individuals, but it can be shortened by unity of purpose and sincere industry by all. Lip service alone will not suffice; therefore it is my position now that the members of the Executive and Legislative branches of this Government should submit for taxation their annual expense account allowances; that all departments of the Government should be open and doing business six days a week without further costs to the

taxpayers, and that Federal em-

ployees should lead the way to-

ward more production and greater efficiency without additional

This bill and my statement have both pro and con. I have been severely abused by some Federal employees—this abuse did not come from the 18th District of Texas. We have reached a point | in our history when the primary question is, "How much are we willing to give for the preserva-tion of our liberties?", and not "How much can we get with the least amount of effort?" I did not introduce HR 2576 for the purpose of trying to make anybody happy, or for so-called political reasons. I introduced it and I made the statement in connection with it because I believe it is right, sound and honest. To date,

Just In Case . . .

The Bobbies are playing in the state tournament now-that is in this, but found that it was if they beat Aledo, which we predict they did (The Bobcat Tales must only one of Dimmitt High Schools be turned in on Monday).

The Bobbies have had a successful season, and we know they want the state championship as much as any other girls whoever put their heart into the game.

They may win, they may not. If they do, it will be one of the greatest things that ever happened to D. H. S. But in case they don't, are hoping to win district, which 3rd and 4th. let's pat them on the back and compliment their good season and wonderful team. By the law of average, a team should win state only one or two times a century, so let's not hold the team to anything. Remember they are doing their best-let's not ask for anything more than that.

Spring

(By Beth Hance)

Spring is fast arriving upon us.

That strong wind hitting you in the face as you turn the corner is one of the things that come with spring. Of course, that is the dark side. Let's look at the happy and bright things spring brings with it. Flowers begin to blossom, grass turns green and everyone is laughing and gay, for that is the effect that spring will have Did you ever consider flying? on you. One of the symptoms did; a little (well, so what?) spring brings with it is spring report card time. Everyone begins for Easter. Each season is always Having learned how to fly a greeted joyously but usually a 880 yd. dash (half mile)-Mule- kite I naturally feel capable of little more joy is expressed at the arrival of spring because of the things it brings with it for us

FARM CASH **INCOME SHOWS BIG INCREASE**

January farm cash income in Texas averaged a 26 per cent gain over January, 1950, the University of Texas Bureau of Business Research reports.

Cotton and wheat were lower than in the year-earlier period but oats and corn rose 25 and 22 per cent respectively.

Although the total farm cash income dropped 27 per cent in January, 1951, from December, the livestock market showed strong gains. Income from cattle was up 36 per cent from December; calves were up 42 per cent; hogs, 39 per cent; and sheep and lambs, 23 per cent.

Cattle, the major cash farm product during both months, brought \$30,900,000 in January, or \$8,300,000 more than in December, and more than twice as much as in January, 1950. Cotton brought Texas farmers \$10,600,-000 during January, 1951, compared to \$39,600,000 in December.

Poultry was 64 per cent lower than during the December holiday boom. Egg shipments dropped from 26 carloads in December to two. Total January milk and milk-products income was up 25 per cent from December and up 74 per cent from the year-earlier

BELT PULLEY SPEEDS

If you always operate belt-driven machines at belt pulley speeds recommended by their manufacturers you'll always get longer service from the machine, do better work, and do it safely . . . at lower cost. But you can't do this by "guesswork"! No one can guess that well.

The new Proof-Meter-available only on the new Ford Tractor-makes it easy. It shows you belt pulley speed at a glance! You don't have to guess, and you don't have to fool around with a separate speed counter.

Once you have the right size pulley on any belt-driven machine, you simply look at the Proof-Meter, and set the throttle on the Ford Tractor to keep the machine operating at a speed that's recommended. It's a mighty easy way to help increase profits! The Proof-Meter is valuable in other ways too . . .

5 Instruments in ONE! In addition to Belt Pulley Speed, Proof-Meter shows you Engine Speed, Tractor Travel Speed, Power Take-Off Speed, and Hours Worked. Nothing else like it.

Only the Ford Tractor has the Proof-Meter!

SEE FOR YOURSELF! Let us show you, right on your own farm, the dozens of ways in which the versatile Ford Tractor and Dearborn Farm Equipment can help make more money for you.
