Information Concerning The Church of Christ
May be obtained by reading the New Testament, which Christ sealed with His blood, the "perfect law of liberty," once for all delivered unto the saints." (James 1:25; Jude 3, R. V.)

We do not rely upon traditions men to prove (?) our doctrine. (Matt. 15:7-9)

We do not claim any divine authority to make or change doctrine, nor to stamp "our interpretations" with the presumptuous term, INFALLIBLE. (I Thess. 2:3-4)

We will gladly defend, publicly or privately, what we believe the teachings of God's word to be . . . founding our defense solely upon this principle:

LET US SPEAK WHERE THE BIBLE SPEAKS, AND BE SILENT WHERE IT IS SILENT.

Congregational Church
Sermon Topic: "The Two Fires."
We cordially invite our neighbors who have no church home in Friona to come and worship with us.
Wayne Balmun, leader.
Ladies Aid Society, Wednesday, 2:30 p. m.

FARM NEWS
Every day newer and better farming methods are being tried and approved by some progressive farmer. His neighbor looks across the fence and sees what is taking place and immediately adopts that particular practice.

We can learn a lot about modern fertilizers by looking across the fence at our neighbor's alfalfa patch or wheat field. A few years ago, it was the opinion of most of us that all this country needed to produce the maximum is moisture. Here are a few examples: Gus Schlabs of Friona applied 100 pounds per acre of ammonium nitrate to 70 acres of late wheat. Two weeks ago this wheat was beginning to boot with 70 head of cows on it. Last year J. G. McFarland of Friona applied 200 pounds per acre of 20 percent superphosphate to his alfalfa. He estimates that his yield doubled over previous years and the quality of hay produced was of higher protein.

Jesse Osborn of Mulleshoe regularly applies a commercial mixture of nitrates, phosphates and potash. His cotton yields are almost unbelievable. Of course the use of fertilizers is expensive but results obtained pays off and the natural soil is conserved.

This office is in a position to help you with your fertilizer needs. All ready nine cars have been delivered to Parker County. Only one car was delivered last year which goes to show that we have been watching our neighbor.

All Commodity Credit Corporation grain loans mature on April 30th. Producers with grain that has not been redeemed are advised to take steps before the maturity date.

The best system of terraces constructed in Parker County in recent years was completed last week on the Mervin Wilterding farm in the Lazbuddie Community. About 200 acres were terraced by Blackman and Howell of Mulleshoe. A conveyor type terracer was used with the sharp shoulders usually left being pulled in and plowed immediately. The lines were surveyed by Ollie Linder, Parker County Extension Agent. The entire cost of construction was paid by Production and Marketing Administration.

Girl Scout Recognition Ceremonies Held at Club House Tuesday Evening

The Friona Girl Scouts held a city-wide Recognition Ceremony at the Club House, Tuesday evening April 13.

Following the invocation by Rev. Seago, of the local Methodist Church, the colors were presented by the Boy Scouts.

Miss Rosemary Head, Area Executive, of Clovis, N. M., presided at an Investiture Ceremony for Board Members, leaders and troop committees. Miss Head also invested two new girl scouts, Sammy Carol and Ruth Bass, into the Tenderfoot ranks.

About fifty Brownie Scouts were present to receive membership cards and Brownie pins. Nineteen Brownies are also eligible for Brownie wings.

The intermediate Girl Scouts gave the Friendship Ceremony in recognition of the founders and leaders of Scouting all over the world.

Mrs. Dan Ethridge, board member, presented second class badges to Gay Ann McFarland, Anna Jo Southall, Denise Magness, and Carol Blackburn, Jo Ann Agge, Bessie Ferguson, Margie Haws, Mary Lou McReynolds and Atheda Norwood. Hostess badges were also presented to Patsy Reed and Mary Sissal.

Recognition of persons and groups who have helped Scouting in a special way during the past year, was conducted by H. T. Magness. The Meeting was closed with the Girl Scout Prayer and a benediction by Rev. Seago. Over one hundred fifty board members, Girl Scouts and their parents were present.

years was completed last week on the Mervin Wilterding farm in the Lazbuddie Community. About 200 acres were terraced by Blackman and Howell of Mulleshoe. A conveyor type terracer was used with the sharp shoulders usually left being pulled in and plowed immediately. The lines were surveyed by Ollie Linder, Parker County Extension Agent. The entire cost of construction was paid by Production and Marketing Administration.

Not knowing much about this matter myself, I will again quote from our own representative in Congress, the Hon. Eugene Worley. (Quote.)

"I am glad to report further progress in connection with the enlargement of the Veterans Hospital at Amarillo. In conference with the President at the White House last Wednesday, he personally assured me of his approval and full cooperation in securing early action."

As advised last week, I have already introduced necessary legislation to increase the capacity to 500 beds and hope to secure the earliest possible Congressional approval." (End Quote.) —Mr. Worley.

These above mentioned matters of national interest, I am deeply interested in, as all good Americans should be. I am not qualified to give advice along these lines, but I can call attention of other people to them. I can say, however, that I heartily approve of the sentiment expressed in the two quotations that are given above.

One would, perhaps, think that a meeting or convention of a press association would be one place where a mere street corner philosopher would not have any occasion to be; but, believe it or not, I was in attendance at just such a convention on Friday of last week. And—again, believe it or not—I learned that editors and publishers and reporters, do sometimes turn their attention to matters that do directly concern every quick American citizen.

During the few hours that I was there I heard two of the best and most sensible and most interesting speakers—or, they may be more properly termed lecturers—that I have heard in many years, and one of them especially should be heard and seriously considered by every American citizen. It would please me greatly if the citizens of Friona could become enough interested to invite the speaker to come and deliver his speech in our city.

This particular speech was made by Mr. Charles A. Guy, publisher and editor of the "Lubbock Avalanche," who, rather recently returned from a five-months visit to the war torn countries of Europe, whither he had gone as a member of a group of fourteen American editors, so that they might learn for themselves, from seeing and hearing, just what they thought to be the true conditions of the people and the countries over there.

Mr. Guy is a clear thinker and a ready and forceful speaker, and held his audience in rapt attention for at least an hour, and at that time all were loathe to have him stop. He made his hearers see the destruction and to feel, as it were, the heart throbs of the people of those war devastated countries. Among other things he stated that he had been even radical in some of his views regarding the two World Wars, but after seeing and hearing what he did while in Europe, his opinions had been reversed and he had become almost if not quite as radical the other way. It is just TOO bad that every person in the Panhandle, and the entire nation for that matter, could not have heard him.

The other speaker was Mr. Olin Hinkle who is at the head of the department of Journalism at the State University at Austin. It is true that Mr. Hinkle's

It IS the Waldorf

Texas, I quote.)

"I know that Texans are far ahead of the nation in awareness of the international tension. The people originated my campaign to call a halt to the senseless demobilization of our war plants while we talked of mobilizing our men."

It is late, but better late than never. It's now time to move along. Two times, in two crises, we tried to keep out of war by lowering our guard—by unpreparedness, by trying to sit it out, by following the advice of those who thought things would cool off. Those experiments cost many lives and many dollars.

Sitting on my hands would be more pleasant and much easier for me than leading the campaign for the draft and UMT.

"I believe preparedness will prevent another war; and I believe another war will destroy our form of government and possibly our very civilization. And I believe the people of Texas agree with me in a program of action. These hours are critical. I think no other question is important alongside the question of preventing another war." (End of Quote.) —Mr. Johnson.

I am neither criticizing nor commenting on Mr. Johnson's remarks, but I think they are worthy of consideration. The question deals with preparedness, which includes UMT and a draft. Read it, consider it and arrive at your own conclusions.

And there is another matter that is receiving quite a bit of consideration—that of improving, enlarging and equipping the Veterans Hospital throughout the nation—for the better care of our boys who have returned from the war and are in dire need of medical and surgical attention.

There seems to be a crying need for some such action on the part of our government, and, if all I hear and read is true, it is becoming a reproach to our nation that something has not been done regarding it long ago. And especially is this true with regard to the Veterans Hospital, right here in our midst, the hospital at Amarillo.

Perhaps the reason it appealed to me so strongly was the fact that he expressed and as I thought, stressed an idea that I have long held with regard to Education. And that is that there are many subjects of prime interest to the rising generation that can be taught in our schools without setting aside any definite period for their presentation.

As I understood Mr. Hinkle, he, like myself, considers the use of this education, they should be instructed as to how to choose their subjects and how to present them. Any criticisms?

BEN GALLOWAY IMPROVING

The many Friona friends of Ben Galloway will be pleased to learn that Ed New received a letter from him Thursday morning stating that his health is improving, but is still confined to his bed. He will not be able to return to Friona for several weeks.

Mr. Galloway, who is visiting with his son-in-law and daughter, Mr. and Mrs. Bill Hanold, at Alpine, had an attack of influenza before going to Alpine and suffered a relapse after arriving there. E. R. New has been looking after his machinery business during his absence. Mr. Hanold will arrive here next week to take charge at his store.

ATTEND MEDICAL MEETING

Drs. R. C. Stokes and E. D. Anderson, of this city, attended a meeting of the Panhandle District Medical Society, which was held at Amarillo on Monday and Tuesday of this week.

In order that we should have a physician in Friona, each day, they attended on different days; Dr. Anderson attending on Monday and Dr. Stokes attended on Tuesday.

Snug Like a Bug

After moving his family from a \$16-a-month bathless flat to a \$12.50-a-day room in New York's swank Waldorf-Astoria Hotel, Navy veteran Richard E. Cox buckles down to helping his wife with diaper laundering. Cox said he would pay \$40 a month of the Waldorf's bill and send the balance to Mayor William O'Dwyer because the city failed to provide suitable housing for veterans. Jimmy, 1½, and Richard, Jr., 2½, seem to like the place—Richard tries to stand on his head.

speech or lecture, was indeed more truly addressed to publishers and editors, rather than to the general public, but the keynote as one might express it, was of such a nature that it might have been heard with interest and benefit by all classes of American citizens.

Committee Is Named To Study Parmer Schools

Senator James E. Taylor, Chairman of the Gilmer-Aiken Committee, has notified the following persons of their appointment to membership on the Parmer County Advisory Committee to Study Education. (See enclosed list of County Committee names.) At the time of notification, each member was mailed a copy of the Committee handbook, Let's Look at Our Local Schools in Texas as a guide to the county's study of the public school system.

Hospital Notes

Patients Admitted:
Mrs. Frank Truitt, Friona, maternity; Mrs. J. A. Harvey, Mulleshoe, maternity; Paul Stewart, Lubbock, medical; Mrs. Raymond Gonzales, Hereford; Mrs. W. E. Thornton, Bovina, maternity; Jerry Don Carlton, Hereford, medical; Joe E. Wilson, Friona, medical; Errol Johnson, Parwell, medical.

Patients Dismissed:
Mrs. Jess Showers, Mrs. Frank Truitt and baby, Mrs. J. A. Harvey and baby, James Williams, Paul Stewart, Mrs. Raymond Gonzales, Jerry Don Carlton, Radford Venable.

At a recent meeting of the Board of Directors of the Parmer County Community Hospital, Judge Lee Thompson, of Bovina, one of the newly elected members of the board, was chosen as chairman.

Wilton Lillard Is Prize Winner In Art Contest

Wilton Lillard, son of Mrs. Carrie Lillard, of this city, won first prize in the Student's Division of the Tri-State exhibit, that was sponsored by the Texas Federation of Women's Clubs, that was held at Pampa.

Slight Damage in Collision Here

A car collision was reported here Saturday evening in which a local car and driver and a tourist car and driver were the participants.

Making Friends

Mr. and Mrs. Neal Young and Mr. and Mrs. Bruce Woodwell and children, of Hereford, visited in the home of Mr. and Mrs. Gardon Massey, Sunday.

Organization of Chamber of Commerce Here Is Well Underway: 150 Attend Meeting

Following are the rules for the Better Homes and Yards Contest as sponsored by the Friona Woman's Club.

First—Enter the contest by giving your name to a member of the committee on or before Monday the 19th of April. No entrance fee will be charged.

Three prizes will be awarded, first, second and third, for city homes within a radius of ten miles of Friona.

The contest will close on August 1st. Three competent judges from outside the territory will see your home some time during the next week, and again after August 1st, and your home will be judged on—

1. Improvement;
2. Arrangement;
3. Beauty.

We urge you to enter your home in this contest. It will be worth while to you and to your community. The committee consists of the following named ladies: Mrs. J. C. Wilkinson, Mrs. J. H. Boyles, Mrs. G. E. Reed, Mrs. Wesley Hardesty and Mrs. S. V. Jordan.

Any further information concerning this contest may be obtained by interviewing either of the above named committee women.

The county convention of May 4th will send delegates and alternates to the Republican State Convention to be held in Corpus Christi, May 25th, at which the 33 delegates and 33 alternates from Texas to the Republican National Convention in Philadelphia will be elected.

Osborn Home Was Damaged By Fire Saturday

Our people were again stirred by the sound of our local fire bells shortly before noon last Saturday, and all were anxious to hear just whose home was burning.

Within a very short time the word got around that it was at the Claude Osborn farm about four miles northwest of Friona, where the house that is occupied by Mr. and Mrs. Joe E. Wilson was on fire from some unknown cause.

The first knowledge of the fire was when Mr. C. Osborn Jr. noticed smoke coming from the roof, and gave the alarm to his parents and Mr. and Mrs. Wilson, who began at once with the meager means at their command, to extinguish the fire while Mr. Osborn went to the phone and called the Friona Fire Department, who, it is stated, were on the ground within a very few minutes.

Those fighting the fire were able to keep it checked, while persons passing in removing the household goods from the building and the fire boys soon had the fire extinguished with only a comparatively slight damage to the building.

It was a one story house and the fire was all between the roof and the overhead ceiling, which was burned through in one room and only one hole was burned through the roof. Since that part of the house was unoccupied, the only clue to the origin of the fire seems to have been some fault in the electric wiring.

GIRL SCOUT INVESTITURE

The Friona Girl Scouts held a Court of Awards and an Investiture ceremony for Troop Committees and Board Members at the Club House, Tuesday, April 13, at eight o'clock.

WASHINGTON NEWSLETTER: ACTION ON HOOF & MOUTH DISEASE

Hoof-and-Mouth Research Bill Clears House And Worley Predicts Quick Senate Passage

(BY EUGENE WORLEY)

I am glad to report further progress in connection with enlargement of the Veterans Hospital at Amarillo. In a conference with the President at the White House last Wednesday, he personally assured me of his approval and full cooperation in securing early action. As advised last week, I have already introduced necessary legislation to increase the capacity to 500 beds and hope to secure the earliest possible Congressional approval.

Another matter of vital importance to farmers and ranchers of the Pan-handle is passage by the House last week of the bill providing for research on the Foot-and-Mouth Disease virus. The efforts of this government in cooperating with Mexico in stamping out the disease in Mexico have not been nearly so successful as either country had hoped they would be. The only known way to positively stamp out the disease has been to slaughter and bury immediately infected and exposed cattle. Should the disease spread into this country, it has been estimated that land values in Texas alone would drop a billion dollars. The States

and Federal Government would have to begin immediate slaughter and burial of infected livestock. The result would be not only the loss of the cloven-hoofed animals themselves but would also create greater scarcity of meat supplies. Quarantine lines would be necessary with a resultant freezing of many types of commerce between Mexico and the United States and among the States themselves.

The purpose of the legislation is to set up a research laboratory with the hope of finding a preventive or cure for this dread disease. It will be staffed by top-notch scientists in order to eliminate as much danger as possible to our own livestock industry, the bill provides an island site shall be used. Scientists have assured Congress that every possible safeguard will be taken and the quickest possible work will be done. The disease is now within 300 miles of the Texas border. So far the quarantine line established at that point has held but this country cannot afford to overlook any step designed to confine the disease to Mexico and continue every effort to eradicate it from that country. The Senate will probably adopt the House bill this week.

"John, something tells me our new neighbors aren't very sociable."

Alexander Will Be Commencement Speaker at Tech

LUBBOCK, April 12—Dr. William H. Alexander, prominent religious leader in the Southwest and pastor of the First Christian church, Oklahoma City, will give the baccalaureate address for the 1948 Texas Technological College graduating class at the college stadium on June 6, Pres. W. M. Whyburn announces. The young pastor has gained recognition in his native Oklahoma and in the Southwest through his Sunday radio programs. His radio hour has polled more listeners than any other religious feature presented on the air. He is widely known also for his successful leadership among youth groups.

The baccalaureate ceremony is expected to honor the largest group of degree candidates in the college's history with 500 students scheduled for graduation. The service will begin at 6 p. m.

Clovis Stockyards Now Have Federal Cattle Inspection

Lloyd Otten of the Clovis Cattle Commission Company announces that the Clovis Stockyards now have a Federal inspector.

Federal inspection at the Clovis stockyards means that cattle from

any locality or region may be shipped there without a permit. This, says Otten, is the only Federally inspected stockyards between Oklahoma City and Los Angeles.

Now It's Neckties Made of Milk!

Fellow in Andy Botkin's Tavern was boasting about a trick necktie he was wearing made out of a by-product of milk. "Took 33 pounds of milk to make this tie," he says.

Bill Webster was unimpressed. "Personally," he says, "I'd rather have the milk to drink. Just as I wouldn't change one glass of good American beer for a necktie made from thirty barrels of it!"

Yes, modern science being what it is—seems like you can make "anything" out of anything" these days. But in the case of milk, well

I guess drinking it is still a whole lot better than just wearing it.

Of course there are lots of other ways of abusing goods and beverages—like a fellow who doesn't appreciate good beer enough to drink it slowly and in moderation. But from where I sit, most people who enjoy a wholesome beverage like beer or ale are moderate—because beer itself is a beverage of moderation.

Joe Marsh

Dimmitt Boy Killed by Car Friday Night

Billy Roy McDermitt, 9 year old Dimmitt youngster, died at the Plains Memorial Hospital in Dimmitt Friday night, a few minutes after he was struck by a car on a Dimmitt street.

He was a son of Mr. and Mrs. Lester McDermitt of Dimmitt.

The youngster was struck by a car driven by Billy Joe Rothwell, also of Dimmitt. Rothwell took the youngster to the hospital, but the boy died within fifteen minutes after arriving there.

He had attended a school play in Dimmitt Friday night, friends reported, and was walking home with a group of youngsters when the accident occurred.

Funeral services were held Sunday afternoon at three o'clock at the First Baptist Church in Dimmitt. Burial was in the Dimmitt cemetery under the direction of E. B. Black Funeral Home of Hereford. Survivors, besides the parents, are four sisters, Betty Fay, who is a twin sister; Audrey Lee, Doris and Janey; one brother, Kenneth; and two grandmothers, Mrs. Ed Cart-singer of Hereford and Mrs. W. C. Hall of Allen, Oklahoma.

Veterans Hospital Manager to Address Legion Convention

PAMPA, April 12—Dr. George Pratt, manager of the Veterans' Administration Hospital at Amarillo, will be the principal speaker at the annual spring convention of the 18th District of the American Legion which will be held for two days here Saturday and Sunday, April 17 and 18. G. F. Sanders, Childress, 18th District Commander, has announced.

A full two day program for the American Legion, the 40 and 8 and the American Legion Auxiliary has been arranged by the local post which is commanded by Lee Roy Franks.

Registration will start at 12 noon at the Schneider Hotel, Saturday. At 1:30 o'clock that afternoon an open house for Auxiliary members will be held at the city club rooms at the city hall. At 3 o'clock an 18th District 40 and 8 wreck will be staged. At 4 o'clock a tea for Auxiliary members will be given at the city club rooms. At 6 o'clock a dinner for registered 40 and 8 delegates will be enjoyed in the Palm Room at 7 o'clock. This will be followed by a business session of the District 40 and 8. At 8 o'clock Saturday evening, a Pan-American program "Argentina" will be presented for the Auxiliary. Saturday's program will be climaxed with a dance starting at

9:30 in the American Legion building with music by R. E. Smith and his 11 piece orchestra.

Sunday's activities begin bright and early with a breakfast for all District Commanders and Adjutants at 7:30 o'clock at the Court-house Cafe. At 9:30 the general session of the American Legion and Auxiliary will open at the Junior High School Auditorium on West Jenkins Avenue. Welcome addresses will be by Robert W. Curry of Pampa with response by Mayor Warren Jenkins of Higgins. Dr. Pratt will make his address and this will be followed by memorial services conducted by the Department Chaplain, the Rev. Alan Harvey-Brooks of Borger.

Business session of the Legion will be held Sunday afternoon with addresses by James R. Gleaton, Stamford, Fifth Division Commander and Henry Teubel of Tulsa, Fifth Division Membership Chairman. District Commander Sanders will call for reports from all Division committees and District officers will be elected.

ASSEMBLY LINE EFFICIENCY

The method that Henry Ford originated and the Ford Company has made famous is used in rebuilding authorized Ford Rebuilt Engines. Each operation is accomplished by a man skilled in his particular job, and he is aided by a machine designed for the purpose. The assembly line method reduces the cost to you and insures efficiency in every operation. If your old engine is tired and "cranky," trade it in on a new Ford Rebuilt Engine.

Annual District PTA Congress Amarillo Tuesday, Wednesday

The 25th Annual District Eight Texas Congress of Parents and Teachers will meet in Amarillo April 20-21 at the Polk Street Methodist Church with headquarters for delegates at the Amarillo Hotel.
Theme for the conference is "New Frontiers."
Registration will begin at 8 o'clock Tuesday and members from Hereford are welcomed as delegates since 42 delegates are allowed from this city.
Mrs. Elmer Patterson, president of Hereford PTA will be prepared to give information about the conference and help those needing transportation since several cars are going with passenger space.

On Tuesday morning reports of standing committees and officers will be heard. A health program under the direction of Mrs. Hugh Cypher of Borger will be presented.
A lunch at noon will be at the Amarillo Hotel for all delegates and visitors. Reservations for the lunch should be sent early to Mrs. N. C. Ferguson, 1501 Van Buren of Amarillo.
In the afternoon Mrs. C. R. Lamer and Mrs. H. F. Godeke as representatives of the organization will have parts on the program as will Mrs. Poke Bonnett of Plainview.
A tea will be held from 4:30 to 6:00 o'clock at the Senior High School.

Dr. James P. Cornette, West Texas State College executive vice-president, will be the speaker for the evening at 8 o'clock at the Methodist Church.
Wednesday at 9:30 AM election of officers will take place and a resume of local reports from officers will be heard. Superintendent George Graham of Hereford will make the morning address.
The meeting will be concluded with an election report and installation of officers.

Prize Photo

This photo of a viceroy butterfly won honorable mention in the animal life division of the Third Chicago International Exhibit of Nature Photography at Chicago Museum of Natural History. Roger E. Richard of Dearborn, Mich., took it, one of more than 1600 entries.

Social Security Offices Do Not Want Your Money

It's time for employers to file their quarterly social security tax returns again—but the Social Security Administration doesn't want

that they should exercise care in reporting the complete name and exact social security number of each employee who worked, for no matter how short a period, during January, February, and March. The returns must be filed not later than April 30, 1948, by all employers of one or more persons on work covered by the Social Security Act.

Now is the time to sell any surplus goods you have on hand. If you can't use 'em somebody else can. Tell 'em with a Want Ad!

State-Wide Wheat Variety School Is Planned at Amarillo April 22 and 23

A large enrollment is expected when country elevator and mill grain buyers as well as county agents, agricultural teachers and certified wheat growers meet at a state school to continue study of wheat kernel characteristics April 22 and 23 at the Grain Exchange Building in Amarillo.

Invitations to buyers and others extended by K. E. Sodor, Director, Texas-Oklahoma Wheat Improvement Program, list six instructors headed by Fred T. Dimes, nationally recognized variety expert employed by Tex-O-Kan Flour Mills. Other instructors include: R. H. Jordan, Grain Inspector (in Oklahoma) and Claude Goodnight (in Texas); Willis B. Combs, USDA Grain Marketing Specialist from Chicago; plus several A & M College representatives. Other state schools will be held at Fort Worth, Frederick and Enid, Oklahoma.

The program will begin at 9:00 A. M. each day. The first day will be a review of past schools and will give beginners an opportunity to catch up, according to Mr. Sodor. Those who have learned to identify four varieties at past schools will learn four more for a total of the eight principal varieties grown in this area. Buyers for mills are demanding desirable varieties for local flour mills and are picking every car they buy for variety. Housewives and bakers, by demanding high quality bread, are forcing mills to pay premiums for desirable varieties whether purchased here at home or in the north, advises Sodor.

Either wanting premiums today or looking to the time our huge export program collapses, country elevator wheat buyers are flocking to these and similar schools to learn to distinguish between desirable and undesirable milling and baking varieties. They will thus be provided to protect their profits when two prices are paid for wheat at country points as is now the case at all major wheat terminals, concludes Sodor.

"Certificates of Merit" will be awarded to all graduates depending on their final ability. Graduates are graded into three groups, Primary, Qualified and Expert.

SANTA FE UPSETS OLD TRADITIONS Easy-to-Read Timetable Is Newest Railroad Wrinkle

A new, easy-to-read time table has made its appearance on Santa Fe trains in the last few days.

T. B. Gallaher, General Passenger Traffic Manager for the Santa Fe at Chicago, today announced the innovation for the additional convenience of travelers aboard the trains.

The new time table carries an individual schedule for each Santa Fe transcontinental train, Gallaher said, and each section includes, in addition to train times, such information as mileage, altitudes, train connections at principal terminals, correct locations to reset watches, rivers crossed and the time of crossing, and other incidental information of interest to travelers, including even a list of tunnels on the Santa Fe, their length and the times the trains will pass through them.

In the old-style time tables it was necessary for passengers on north and eastbound trains to "read up" bound passengers "read down." On the new table, all schedules "read down," and there are separate sections for each direction.

Gallaher said the new folder in no way takes the place of the system time table, which also recently has been revamped, but is intended to prove Santa Fe's transcontinental passengers with a simplified time card pertaining only to the trains and routes on which they are traveling.

The United States now has more than 26,000 miles of navigable waterways, with a third having a depth of nine feet or more.

The Richmond-Williamsburg area of Virginia was a well-settled and prosperous country when southwest Virginia was still a virgin mountain fastness.

The Virginia-Tennessee state line runs along the middle of the main business thoroughfare of Bristol, and the city is claimed by both of the state.

Hydraulic dredges have pumped dredged material for distances of 15,000 to 20,000 feet, discharging it in deep water or behind levees.

"Talk about VALUE," says America "CHEVROLET and ONLY Chevrolet IS FIRST!"

You'll find that new front-end styling—new color—new and even more luxurious interiors add still further to the Big-Car beauty of Chevrolet's Bodies by Fisher. They're the world's finest bodies, found only on Chevrolet and higher-priced cars.

You'll get much better performance with economy from Chevrolet's world champion Valve-in-Head engine. It has the finest record of dependability of any automotive power plant! And Valve-in-Head engines are exclusive to Chevrolet and more expensive automobiles.

You and your family will have Big-Car safety, too. For Chevrolet brings you the three-fold protection of Fisher Unstated body-construction, the Knee-Action Ride, and Positive-Action Hydraulic Brakes—another combination of features found only in Chevrolet and more costly cars.

Yes, from one end of the country to the other, public enthusiasm for the new 1948 Chevrolet points to a great public conviction that CHEVROLET and ONLY CHEVROLET IS FIRST in all-round value as in popularity. More people drive Chevrolets, according to official nationwide registrations and more people want Chevrolets, according to seven independent nationwide surveys than any other make of car. Your own judgment will tell you that this is because Chevrolet gives more value... because it alone offers BIG-CAR QUALITY AT LOWEST COST!

As you know, public demand for new 1948 Chevrolets is at the highest level in all Chevrolet history. For that reason, we urge you to keep your present car in good running condition, pending delivery of your new Chevrolet. Come in, get skilled, dependable service, now and at regular intervals.
