won't strike, whereas many American boys (and men) safe over here in America won't work ten hours a day at a dollar an hour!

"Why don't Uncle Sam just swap places with these fellows? We know we got boys in the Philippines who won't strike in a pinch, so why not bring them back here to do this work that must be done and put these quick-to-strike - on - Uncle-Sam-but-slow-to-strike-at-the-enemy boys over in the Philippines?"

"Then if they wanted to strike they could do so and become special guests of the courteous little Japanese. No work to do all day long—nothing but play—for the new Jap recruits. All these strikers would have to do would be just stand around—as bayonet practice for the Jap rookies.

"Strikes in peace time are for shorter hours and higher pay, but strikes in war time (whether we realize it or not) are really for long hours and no pay at all—under Hitler and his crowd!"

"We say if they want to strike put 'em in the army, on the front and give 'em somethin' to strike with—and somethin' to strike at besides Uncle Sam!"

Lubbock Placement District Wants Officers Only

The recent publicity given to the War Department Personnel Placement Service has resulted in a flood of applications and questionnaires which have been appreciated and welcomed by the War Department.

However, until further notice, and to expedite the securing of Officers, the Personnel Placement Agency of the War Department at the West Texas Recruiting & Induction Station, Lubbock, has been advised to route applications for civilian jobs through civil service channels rather than military channels.

Accordingly people who feel that they would like to be a part of the war effort in a civilian capacity are urged to write to Civil Service District, New Orleans, La., stating their age, qualifications, type of work desired and asking to be notified when and where the next civil service examination for this area will be held.

Men who have had commissions in the army or navy and have let them lapse; men who have unusually valuable training such as electrical engineering, radio, chemistry, and the like, are encouraged to contact the Personnel Placement Officer at Headquarters, West Texas Recruiting & Induction District, Lubbock, Texas, so that their qualifications may be quickly brought to the attention of the proper officials in the War Department.

Forced into a cave to get out of the last snow storm that hit this section of the county, Billie Magill, employed by W. R. Holland on a ranch south of here, found two skeletons supposedly to be Indians. Mr. Magill brought the skeletons to town last Saturday and several doctors who examined them told him they were 75 or 100 years old. The skeletons, male and female, are well preserved. Several teeth, well preserved, and in good condition were in the skull of the male skeleton.

The cave is located on the old Shorty Gartin ranch.

Fort Stockton Pioneer — The long a-waited approval of a site just southwest of Pecos for establishment of a United States Army air corps basic training field was received Wednesday in Pecos in a message sent from Washington by Sen. W. Lee O'Daniel, and Pecos residents were jubilant at the success of their efforts to secure the field.

Land was optioned several weeks ago for the proposed field, and army engineers made detailed surveys of the site earlier this month. Meanwhile city officials of Pecos ordered a \$50,000 bond election to provide funds to buy the necessary land and provide other facilities required by the government.

THE SPICE OF SPEECH

(Heard in Passing)

W. P. Rooney, Ft. Stockton: "Though an egg be hatched in an oven, the product isn't yet a loaf of bread."

Coach (after star athlete lays down): "And I've given him the best cheers of my life."

A soldier in town: "Oh, that girl. She's just target practice for guys shooting at stars."

Tourist (at Dryden): "That sure is a pretty little town yonder we're going through, wasn't it?"

Boy Scout (after over-night hike): "When he got through pulling

the cover, there was nothing between me and the stars but atmosphere."

Add Daffynitions:

A dent is something which if your wife backs the car out of the garage there's a fender with.

Freedom is something which if people don't buy enough bonds and stamps, there won't be much of.

Humpty, Dumpty placed his nether portions upon a barricade.

★ AT THE PRINCESS ★

DANGEROUSLY THEY LIVE (Sunday and Monday)

John Garfield, constant screen toughy, has turned face from his usual type films and finally has been given a role that cuts out his smirk and indifferent attitude, although he still packs a powerful punch in the pinches. In this picture, he's an interne in a big hospital and is called upon to do a job that calls for risk and no payoff, and he does it without hesitation.

Nancy Coleman, new to Hollywood, is the girl who has information that foreign agents want, and all the things in a girl that Garfield wants.

Raymond Massey, Canadian-born actor, but best known for

his true American parts in pictures, is the evil fifth columnist, a psychiatrist who plans Nazi action against American military work. He's best remembered as Lincoln in "Abe Lincoln in Illinois" and John Brown in "Santa Fe Trail."

Moroni Olsen plays a Mr. Goodwin, contact man for the leader, and it is he who engineers Nancy's capture and legal removal to the care of the evil psychiatrist.

Lee Patrick and Esther Dale lead the supporting cast.

KEEP 'EM FLYING (Wednesday and Thursday)

Bud Abbott and Lou Costello are back on the job again with

more slapstick shenanigans, and backed by a few of Hollywood's most consistent actors. This time they're timed up in an Academy of Flying, and with Martha Raye, doubly dizzy as twin sisters.

The core of the picture is the adventures of Dick Foran as a stunt flyer who has been enrolled in the Academy, and his double job of wooing Carol Bruce while keeping William Gargan away. Saving Carol's brother's reputation helps him most in her esteem, but also gets him out of the Academy. It's the Abbott and Costello team that saves the day.

Martha Raye has a double job in this one, with Abbott making love to her as one character, and Costello making love to her as her twin sister. It's confusing, yes.

SECRET OF THE LONE WOLF (Tuesday)

Because the Lone Wolf knows so much about stealing jewelry, the New York Police department

decides that he should also know how to keep the Napoleon Crown jewels from being stolen; so they hire him to show them how and to let them in on some of his secrets. He tells them a few of the secrets but reserves the best ones to keep himself clear of them.

The villain this time is not the Lone Wolf, but someone trying to fill his shoes. At that he does get the jewels, but due to the Lone Wolf, he doesn't keep them long. Eric Blore, valet, is mistaken for the Wolf by the villain, and so takes a little punishment not due him. Victor Jory slips in and out of scenes by the oil of his hair and mystifies everybody.

The trick of the picture is the instance where Warren William as the Wolf, shows the cops how the jewels were stolen, and Thurston Hall, the detective is

more dumbfounded with the knowledge. Roger Clark and provide love interest shooting.

IT'S JUST A BIT OF CLOTH BUT . . .

There's something beneath the Stars and Stripes that makes it a great emblem. It's not just a field of stars and a row of stripes. It is representative of the freedom of America.

It's pretty and colorful . . . but though it were unsightly to a stranger's eye, to the people who revere it, there is nothing more beautiful.

As long as it waves free to the winds, as long as it bends the poles on which it flies without obstruction, Americans will walk, talk, and enjoy life with the feeling of nonchalance peculiar to this nation.

The Stars and Stripes are being challenged . . . and that nonchalance must be replaced by determined action. Those who dare the banner must be defended and to assure that defeat, the American people must pay.

Increase your investment in the American fight to keep the flag poles bent with the Stars and Stripes. Make your stamp and bond purchases regular, and as often as you can.

LIFE OF A SENIOR

By Lois Bea Osgood

On January 7, 1923, a precious little blond haired, blue-eyed boy was born into the Vincent family at Gunter, Texas. This tiny baby was named James Donald Vincent, but is better known to everyone as J. D. To his close friends he is "Slim".

J. D. began his educational career in Langtry, coming to Sanderson in 1936 to enter school here. J. D. is taking English IV, general math, typing, and algebra II. Of these algebra is his favorite. J. D. has taken band the past several years and at present is a member of the band club. Basketball gets most of his sports interest.

To really annoy J. D.—girls just act crazy. This is his pet annoyance. Pictures are his hobby and enchiladas his favorite food. Radishes are Slim's most disliked food. It seems as if his favorite color and favorite song go hand in hand blue being his favorite color and "Blues in the Night" his favorite song.

In selecting his favorite movie star, J. D. goes for Lana Turner. When not delivering the daily papers, J. D. loves to work on that sleek, fenderless, green car of his.

After graduating this May, J. D. plans to enter Duncan Field, San Antonio.

Football Ticket Sales Bear the Expense For Junior Picnic

On Friday, March 27, the junior class, accompanied by Mrs. W. T. Frazier, Mrs. R. E. Corder, Mrs. W. D. Frazier, Miss Margaret Kinkler and Miss Vashti Mixon, went to Longfellow Lake on their picnic, won by selling the most football tickets during the 1941 football season.

A delicious picnic lunch of pimiento cheese, beef and pork sandwiches, olives, potato chips, fritos, potato salad, deviled eggs, cake, ice cream, punch and cold drinks was served. Mrs. W. T. Frazier gave three dozen eggs; Mrs. W. D. Frazier and Mrs. Corder gave cakes; James O'Connor and Bill Davis gave two gallons of ice cream and two and a half cases of cold drinks. Janice White, Kathryn Nell Nance, Mickie Corder, Betty Frazier, Joe Ross Phillips, and Marshall Cooke made the sandwiches.

The students divided into two groups, with Miss Kinkler and Miss Mixon as captains, and played capture the flag until seven o'clock.

Room 13, under the direction of Miss Ruby Adcock, is proud of the fact that they have 43 pupils and 43 pupils own stamps.

It is Janice and the next time it is Lois Bea.

We hear that Tom is very glad that Ivy Lou is back.

Billie, why did you blush so in assembly? Curtis didn't mean those things he said to Janice.

Every time someone mentions a drink, all the boys jump and yell, "where?"

It seems that there will be quite a few hearts broken when Ruth Ann leaves.

That romance between Billie and Curtis is still going strong.

Why does Ross look mad when he sees other boys glancing at a certain little girl?

Dramatics Club Gives High School Comedy In Thursday Assembly

The Dramatics Club presented a comedy entitled "The Younger Generation" in the high school auditorium Thursday morning, March 26.

Billie Jo Corder announced the program, and the cast included Mickie Corder, Adeline McCaughy, Betty Frazier, Bill Davis, Curtis Litton, Janice White, Yvonne Oberling, and Harlan Slay.

The story is that of a very stern aunt who is keeping a niece for a year. Influenced by gossip, she allows the niece very few privileges. The aunt's childhood sweetheart returns, and after recalling several humorous school day scrapes, the aunt realizes that she is being unreasonable, and gives her niece permission to take part in social activities with her friends.

getting romantic—she goes stargazing at the McDonald Observatory.

What makes so many people go out and watch the tennis tournament—the playing or the pretty girls in slacks, etc.?

Wilma Lois chased M. G. up a hill—trying to capture him for jail, of course.

Betty Frazier is stepping out. Seen very often with Kenneth Litton.

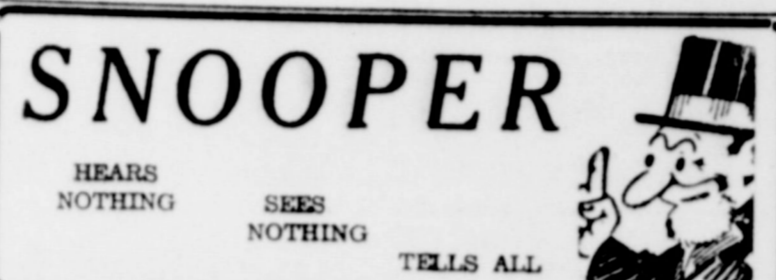

Betty Frazier and Mickie had the equal to mud-packs Friday afternoon.

Of all the pictures taken on the picnic Friday afternoon, Snooper wonders who got the worst.

Prisoners, don't trifle with James O'Connor. Just ask Edward Kerr what happened when he said he just walked out of jail.

With Janice, Mickie and Betty for jailers, the boys didn't seem to mind being caught.

DR. LEO DANIEL
FORT STOCKTON DENTIST
will be at the offices of Dr. R. E. Lester Thursday of each week.

Everyone was thoroughly covered with the sticky mud, so there was a lovely bunch of juniors on the picnic—mud makes you beautiful, so we hear.

Dagger enjoyed capturing Janice in that little game of "Capture the Flag".

That sly cat, Kat, had nearly gotten to the flag when Bill Stirman got her. "It was fun," Bill said shyly.

How come Margaret Ruth and Duck didn't go on the picnic? We sort of think they didn't want to leave their respective "sweethearts". Ain't love grand, though?

Well, well, well, the age of miracles isn't past. H. H., Little Butch, and Bill Cochran all had dates Friday night. The girls, Janice, Katherine Neil, and Betty, were pleasantly surprised.

Marshall, it took you a long time to finally ask Janice to go riding. We've known you thought her cute for a long time.

Billie Babb was there rooting for Curtis when he played Bill. Guess that's what made him win.

Bob Nichols and Mickie have up quite a case. They even enjoy walking, in each other's company.

Maurine Cox got left out all the way around the other night when Ross Underwood and J. D. each thought she had a date with the other.

There's always quite a crowd of interested spectators whenever Janice plays tennis—mostly male.

Mmmmmmm, Betty's excited when a certain blond ex-student plays tennis.

Theron and Lois Bea make a cute couple. They're seen together quite often.

Billie Jo and J. D. look nice dancing together. They look nice—period.

Donald, that picture of you and Doris Lee is certainly good.

Who was that good looking lad you were with Monday night, Lois Bea?

Curtis, it was awful because Billie couldn't go on the Junior picnic, wasn't it?

Loyd Deaton, do you and Hazelle Babb have a good time in the show every night? Snooper sees you.

"Miss Boo", "Osie", and "Wallie" were having a good time Saturday. They seem to like those little rides.

Why didn't Doris Lee and Milton play their love game of tennis the other afternoon?

Theron, we do wish you would make up your mind. One time

Sanderson, Texas, April 3, 1942

To the Voters of Precinct No. 3

and of Terrell County: I take this method of advising you of my sincere and deep appreciation of the many evidences of trust and confidence you have reposed in me in electing me to the office of County Commissioner for the past several years, the duties of which I have endeavored to perform to the best of my ability and in accordance with the law and the best interests of the people of the County.

Believing, as I do, that I have held the office long enough, and that another should be selected to fulfill its duties, I beg to advise that I shall not be a candidate for re-election, either in the primary or in the general election of 1942.

Very Sincerely,

CCC Reorganized For War Training In Defense Work

Austin—Among the government agencies born of the depression to be completely transformed by the war is the Civilian Conservation Corps. Private employment and the army have been responsible for closing camp after camp in Texas until the state now has only four remaining camps. The whole purpose of the program has been changed from aiding needy families and conservation of natural resources to training for defense industries, war production, and conservation work which is directly related to national war strength.

The CCC has a policy of continuous selection, and Texas is being called upon to fill a quota of 3,000. Boys who are 17 to

23½ years old, of good character and unemployed, are eligible for six months enlistment and may re-enroll for as long as 24 months. The local county welfare office accepts applications. The CCC does not want boys who are needed in war industrial or agricultural programs at home; for their selection would defeat the purposes of the present program. The Selective Service classification of a boy does not affect his eligibility, although boys expecting to be called momentarily will not be accepted.

"The CCC is now a 'Victory Program,'" J. S. Murchison, Director of CCC Selection for Texas, stated. "All enrollees will be more intensely trained than ever before, and this service will aim to prepare these boys to cope effectively with the difficult work ahead."

Boys who enroll must agree to being sent to any camp in the continental United States. Texas enrollees are now serving in Arizona, California, Colorado, Nevada, New Mexico, Utah and Wyoming, as well as in Texas. Camps that are not necessary for national defense are being closed and their occupants transferred to camps participating in the training program.

"We need every eligible white and colored boy in the state to apply for this important service to our country," Mr. Murchison said. "Boys below draft age can make a valuable contribution to the war cause as members of the CCC."

Pay is \$30.00 per month—\$12 cash, \$8 placed in savings until discharged, and \$10 sent home if there are dependents, otherwise \$18 is placed in the savings account. Clothing, food, housing and the best of medical attention are provided without charge.

To date over 150,000 Texas boys have been in the CCC, serving an average of ten months, returning to their parents, or dependents, approximately \$35,000,000, an average of about \$250 each. To care for Texas boys alone the government has spent approximately \$105,000,000. During the year July, 1940 to June, 1941, over \$3,500,000 in actual cash was sent home to the parents of Texas boys.

The CCC has an excellent health record. During the fiscal year, 1941, with an average strength of 250,000 boys the death rate, due to both diseases

Double the Flattery of Your New Hair-do by Scientific Shampoo

HAVE you been wearing your hair in the same way for ever so long? Then this is a good season to step up your morale—and your good looks. Take your cue from beauty-wise belles and do a bit of experimenting. You can wear your curls long or short with the stylist's blessing and you can be "top" fashion with such varied arrangements as a chignon, a feather cut or a pompadour.

But, no matter how flattering your new hair-do may be, don't forget that the first essential of beautiful hair is cleanliness and health. For years many doctors have recommended olive oil castile soap as the best choice for shampoos and skin care.

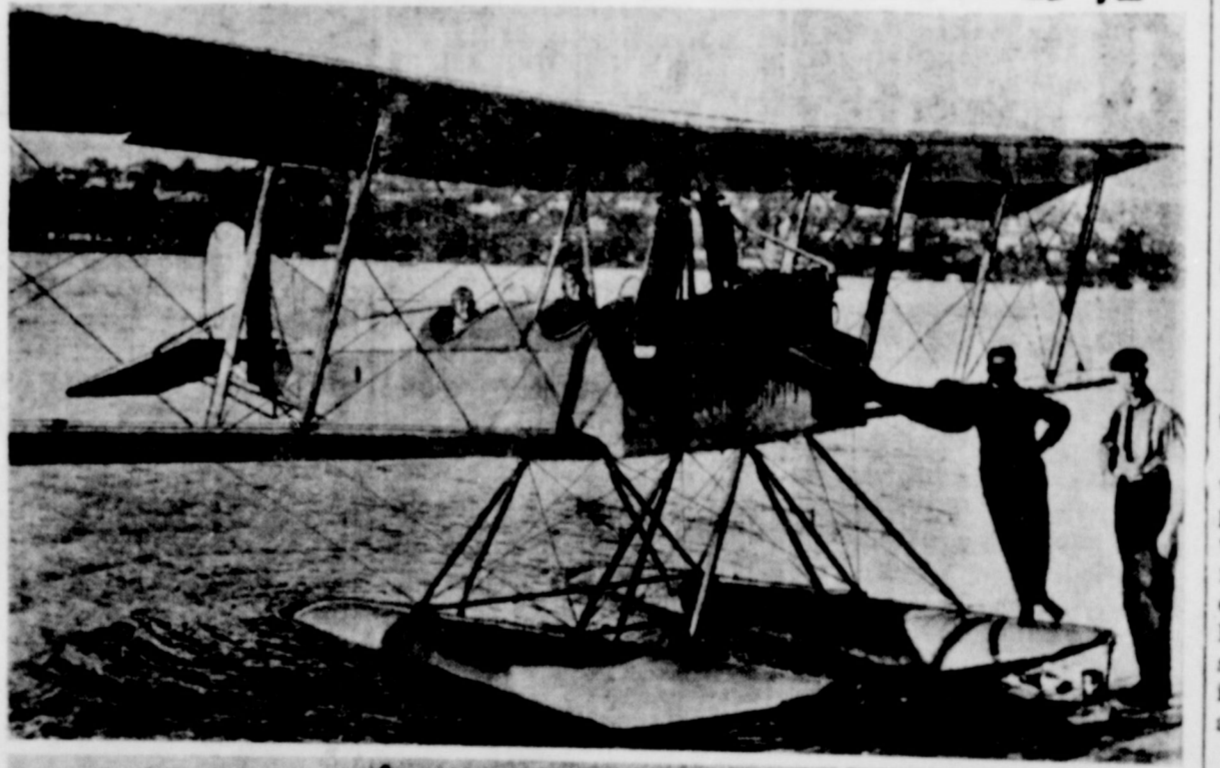

Fortunately for beauty budgets, the soaring prices of imported castile needn't affect the glossy beauty

of any lady's hair. A new soap called Swan is mild and the finest per cent olive oil castile all the most stringent for a soap that will be every beauty purpose shampoo.

Another advantage of this new soap is that it makes softening of the old-style hair so easy. See how you get richer, creamier skin in the hardest water.

Although Swan gives beauty advantages of castile, this sensation is so inexpensive any woman can afford to use it for her things and for kitchen as well as the family bathroom.

1918 . . . THEN AND NOW . . . 1942

Two wars . . . airplanes . . . and graphic evidence of the amazing progress made by the American aircraft industry. (Top)—the Boeing Model C seaplane trainer of 1918 in which many an American aviator of World War I earned his wings. (Bottom)—one of the hardest hitting aerial weapons ever devised, the Boeing B-17E Flying Fortress heavy bomber of World War II. The Model C, typical of the "stick and wire" construction of 24 years ago, had a top speed of 70 miles per hour. The performance of the "stick and wire" B-17E is a military secret, but in raids by Britain's RAF, earlier versions of this air giant have struck from the stratosphere at speeds four times that of the 1918 trainer. Both pictures from Aviation News Committee.

WED EXPEDIENTLY, SELECTEE SEEKS DRAFT DEFERMENT

Ozona Stockman—Just what a "marriage of expediency" might be is being pondered by the Crockett county draft board following receipt of a letter from a registrant who now lives in Sparrows Point, Md., and who offered the fact that he had become a "party to a marriage of expediency" in support of a claim for draft deferment.

"I am taking this method of informing you of a situation which I believe merits a change in my draft status," the registrant wrote.

"On Sunday, March 8, 1942, I was a party to a marriage of expediency, and I find that my wife is soon to be confined. Her father, who has eight dependents, will not be able to support her. I am asking, therefore, since I am employed in defense industry, that I be deferred for a reasonable length of time.

"Thanking you in advance for whatever consideration you are able to give me in this matter, I am, etc."

The dictionary defines "expediency" as practical efficiency" which might be as good as any to describe the developments as outlined in the letter, and satisfactory from that angle as an explanation to the board. But under "expedient" the dictionary gives "apt and suitable to the end in view," and "characterized by mere utility rather than principle; conducive to special advantage rather than what is universally right." And that definition might be just what the registrant had in mind but hardly meant to say.

Anyway, the board may just consider it a fancy word for "shotgun" and let it go at that, since national draft officials have made it pretty plain that marriages after December 7, 1941, have little bearing on one's draft status anyway.

There's no place like home—for fires, says Marvin Hall, State Fire Insurance Commissioner, but they can be prevented if you drive out the hazards.
