LISTEN TO LUKE

Last week end, we were one of about seventy-five guests who had been invited to attend a meeting of the Travel U. S. 90 Association in Big Bend National Park. The purpose of the affair was the presentation of the concessions manager of that place.

We are sorry that there were not more from Sanderson on that trip for several reasons.

The purpose and intent of the Travel U. S. 90 Association is to increase the interest in tourist travel to this portion of the country which directly helps many and indirectly helps all who live here.

Members of that organization are spending all the money they can get to induce travelers to this section which brings money into the hands of local merchants, who when they are able to pass on some of their profits to others which finally gets down to the consumer by passing a better line and a wider variety of merchandise and possibly at a cheaper price.

We are sorry, too, that more did not go because we would have loved seeing people carry home with them some of the hospitality and friendliness that was so characterized by our hosts.

We also would like for more people to know of the facilities in that beautiful place. Facilities for comfort, facilities for relaxation, facilities for a vacation, and facilities for enjoyment.

Nice, neat, cabins, with hot and cold running water, bath, good plenty of room, privacy, are available. A good cafe where clean meals are served. A snack bar with cold drinks, some staple groceries, if you are a camper, currier, film, service station facilities, are available at very reasonable prices.

If you are a little conservative and desire to rough it some, you can get a cabin without a bath, or you can camp out.

All of this in one of the quietest, yes, and remote — places in the United States. Full of some of the most rugged scenery north of the Rio Grande, and an ideal spot for the camera fan, painter or nature lover.

Very personal attention is given to all matters in the park to assure visitors that they really are interested in your being interested in the park. It's almost insurance personal guide service to any of the remote reaches of the park.

The next time you want to take your family on an outing, for a week or week end — visit your Big Bend National Park. The weather elements permit a park open year 'round within our easy reach, and it's worth your while.

We are sold on the Big Bend National Park! Have you seen it? And if any of the local citizens, business men or not, are in favor of attracting tourists to this area of U. S. 90 travel, watch for an announcement of the next meeting and come out.

It's a money-making proposition, and if you don't believe it, ask how much you spent on your last vacation.

So far this column has had no readers who would contribute to the cause by writing a column of their own beliefs under the stipulations given in the invitation of this week.

We did, however, have a nice little bouquet sent the column in the form of an anonymous note. The column likes to know that there are those who read what we have to say and there are a few.

All local fans are urged to come out and support the local team.

BIG BEND PARK DEDICATION SET OCTOBER, 1954

Rotary Speaker Tells Of Future Plans For International Park

Glenn Burgess, professor of journalism at Sul Ross State College in Alpine, was guest speaker at the Sanderson Rotary Club Wednesday at noon at the Turner Hotel and spoke to the members present of plans of a future international park joining the Big Bend National Park on the Mexican side of the Rio Grande.

Burgess has been active in the past in working with officials of this nation in trying to influence Mexican government officials in the designation of a large area of the states of Coahuila and Chihuahua as a part of a great international park area. He recently returned from a trip into the proposed area for exploration and photography.

He told members of the local club his ideas on what the park would mean to this section of the country and how it could affect the boom of this portion of Texas as a year-round resort area for tourist travel.

He stated that the proposal was meeting with much interest on the part of Mexican officials and that the dedication of the National Park in October of next year would probably be the deciding factor in the decision of the officials from Mexico.

Nolberto Villegas Killed In Freak Accident Here

Nolberto Villegas, 28, World War II veteran, was killed instantly early Thursday morning, about 1 o'clock, when the car he was driving headed into a deep drainage ditch in the north part of town across the street from the home of Mr. and Mrs. John T. Williams.

Several of the people residing in that neighborhood had been either awakened or alarmed by the car being driven up into driveways and into dead-end streets and when the car crashed into the ditch, Mr. and Mrs. Williams went out immediately to investigate the accident.

It is reported that the engine was still running and the horn was hung when the Williams got to the car. She got inside the car to turn off the ignition and help Mr. Williams get the body out of the car, since both feared that a fire was eminent.

Local officers and a physician were summoned and the physician reported death instantaneous as a result of a broken neck.

Villegas is survived by his wife and four children; his parents, Mr. and Mrs. Bartolo Villegas, six brothers and three sisters. He has lived in Sanderson all his life and was employed by H. B. Zachry Construction Co. at the time of his death.

ABOUT 200 ATTEND P-TA PICNIC MONDAY

A large crowd estimated at near 200 attended the picnic on the courthouse lawn Monday evening when the Sanderson Parent-Teacher Association honored the members of the faculty.

Fried chicken, beans, salads, pickles, iced tea, coffee and cake were served on long tables arranged on the lawn. Rev. J. W. Byrd gave the invocation.

Big Bend National Park pledged their support to the project of boosting "the number one attraction of the State of Texas and of U. S. 90 — the Big Bend National Park." Officials of the park welcomed the members of the visitor promotion association who came from Fort Davis, Marfa, Alpine, Marathon, Sanderson, Dryden, Del Rio and Ciudad Acuna. More than 75 members attended.

Financial pledges made by the member towns at previous meetings were fulfilled one hundred per cent and the money on hand has been allocated for the painting of attractive window and luggage stickers designed to bring more travelers to see the many attractions along the route of U. S. 90 including romantic Old Mexico, Big Bend National Park, the land of fun and sun. Signboards at Van Horn are also in the process of erection and these will direct traffic away from heavily traveled oil and butane routes and onto U. S. 90 where motorists can enjoy a safer, faster, scenic-filled ride to San Antonio and points east.

The Big Bend National Park will be augmented by added park lands just across its southern border — the Rio Grande — as the Mexican Government has agreed to also preserve as a conservation refuge a large portion of northern Coahuila and Chihuahua facing the Big Bend in Texas. October 1954 has been designated as the dedication date and presidents Eisenhower and Cortinas will be invited to the opening of the Big Bend International Peace Park — project of the two good neighbor republics — the United States and Mexico.

Sunday afternoon, November 1, will find the membership of Travel U. S. 90 Association meeting in Ciudad Acuna. The local chapter of the association — the Mexican Border Trails — and the Lions Club of Ciudad Acuna, have invited all members to meet at noon in the Lions clubhouse in Ciudad Acuna, to partake of a buffet luncheon, and to be their guests at the final bull fight of the 1953 season which will be held in the arena of LaMacarena.

The Saturday night barbecue given by national park officials in the Big Bend was followed by a color film lecture made and delivered by Peter Koch who graphically revealed the fantastic beauties of nature that await the visitor who comes to the Big Bend country. A Sunday morning "brunch" was served to the members by L. L. Lewis, manager of the National Park Concessions at the Big Bend, who also provided excellent sleeping accommodations, all gratis. Sightseeing through the park preceded and followed the regular meeting.

Attending the meeting from Sanderson were: W. J. Ferguson, Jr., Mrs. W. J. Ferguson and Miss Mary Ferguson, Mr. and Mrs. Jolly Harkins and children; Mr. and Mrs. L. H. Gilbreath and their guests; Mr. and Mrs. C. N. Word and son of Odessa; Mr. and Mrs. J. A. Gilbreath and daughter; Mr. and Mrs. Jimmy Martin and daughter; J. R. Hodgkins, E. F. Pierson and John Williams of Dryden.

W. J. Ferguson, Jr., who had been selected as representative for the Sanderson group, asked to be relieved of the duty because of pressing business responsibilities which rendered him incapable of doing justice to the obligation. He has been quite active in all promotional work for the Big Bend area and plans to continue as time will permit. The local group selected Jimmie Martin to replace Ferguson as local director for the Travel U. S. 90 association. Martin plans to have a meeting in the near future to formulate plans for the continuance of the work of the association. Names have been listed for contacts and the meeting will likely be sometime next week, Martin said.

Hot and hearty breakfasts are a must for school children. To introduce variety, serve French toast, DDP day-old raisin or white bread into a mixture of egg and milk, lightly salted. Sauté in melted vitaminized margarine till golden brown and serve with bacon.

Don't throw away your old powder puffs. Soft yet firm, they're splendid for rubbing silverware and help to avoid stains on the fingers.

There's less work for mother and more incentive for the children when they help to keep themselves neat and tidy. Give them their own shoe polish kit, with liquid and wax polishes, brush and cloths. And don't let them stop at shoes, either—a neutral colored shoe polish does wonders for school bags, pocket books and belts.

Surprise dad and the kids with a tempting Waldorf salad in their box lunches. Per person, chop 1 medium size apple, 1 stalk of celery and some walnuts. Mix with 2 tablespoons real mayonnaise and pack in a small plastic container. For those who want lettuce, wrap separately in waxed paper.

Dish towels come in such a variety of colorful patterns that they're naturals for kitchen curtains. For the standard low, wide window over the kitchen sink, two 18" x 36" towels are just right. Sew six white plastic rings at the top of each towel and there are your curtains. Trim with ball fringe or rick-rack braid, if desired.

Hunting and Fishing Digests Being Mailed

Austin — Three hundred and fifty thousand copies of the Game and Fish Laws Digest are being mailed out for the benefit of Texas hunters and fishermen.

The Chief Clerk of the Game and Fish Commission said these official guides to all hunting and fishing regulations are consigned to Game Wardens, County Clerks and Licensed Deputies.

He said a limited supply of a digest supplement, covering migratory waterfowl and game birds, has been sent to each of the individuals and agencies handling hunting and fishing licenses. The supplement was necessary since the regulations for migratory game were set after the printing deadline of the digest.

The information in the combined pamphlets, according to the Chief Clerk, is designed to advise Texans as to the what, when and how on hunting and fishing. He suggested that persons finding the material inadequate should contact their local game warden.

Occupational Therapy Materials Sought By County T-B Group

The Terrell County Tuberculosis and Health Association met on Monday evening in regular quarterly business session with the vice president, Mrs. H. E. Ezelle, presiding.

The group voted to continue the Christmas Seal sale this year and Dr. John E. Carter, County Health Officer, was named medical adviser for the organization.

A letter from the McKnight Sanatorium was read and it was revealed that a new occupational therapist is now at the sanatorium and the occupational therapy program long-sought is now being set up. A plea has gone out for materials for the department and a box is to be placed in The Kerr Mercantile Co. in the hopes that local groups or individuals may have articles on hand which they will contribute that may be used at the sanatorium.

Articles needed include embroidery and crochet needles, thread, sewing needles, embroidery hoops, wool yarn, knitting needles, textile paints, clean nylon hose, wood burning sets or needles, candle-wick string, ribbons, felt pieces, sequins, small beads, reed, raffia, flower making sets, mesh sacks, patterns for embroidery or crafts, copper wire, any tools or equipment for leather work, wood craft or metal craft or any other discarded "hobby" materials or tools that any one may have that are still usable.

A picnic supper was served in the back yard of the home of Mr. and Mrs. W. F. Frazier Sunday evening to honor the two new physicians, Dr. J. D. Swanson, and Dr. John E. Carter, and their families.

Sandwiches, congealed salad, potato salad, devilled eggs, lemon pie, tea and coffee comprised the menu.

who might embrace and endorse one expression of thought. Thanks to the unknown writer, but would still like to know who wrote us.

This column has found it almost impossible to solve all of the ills that come to our attention. Our mission, as we see it, is to dig out the trash and let it be burned in the presence of readers who will, of their own accord, try to do something about it. Even our President has been unable, in the short time he has been in office, to clean out his own front or back yard. He has been hauling out plenty of trash but the alleys were so littered with deep freezes, red herrings, mink coats, Korean rubbish that it will take time to make room for more or new trash.

We put this column up to do a service to our community and we shall continue to fulfill our responsibility as we see it to the best of our ability.

Around town we have noticed that there's not much going on... football season seems to be approaching since we see the lights at the football field on at night... hear the band playing... and the pep squad pepping... more sidewalk engineers moving in with the new type of work going on on main street... and now they're trying to decide if the spreading device is part combine or not.

The Gainesville charge was untrue

A two-edged crusade by the Texas Democrats against the Loyalists and the Republicans is now officially begun.

Governor Allen Shivers called the signal at Mineral Wells and urged his kind of Democrats to begin the struggle immediately.

There are two aspects of the campaign — first, domination of the elections next year; and second, control of the party machinery in the presidential year of 1956.

Every observer at the Mineral Wells session of Texas Democrats interpreted Shivers' remarks to

mean that, if necessary, he will run for governor again to gain the objective.

"If 1952 was a year of decision for the Democratic party of Texas," Shivers said, "1954 will be the year in which the decision is ratified — or rendered empty and meaningless.

"It is the simple fact of political life that victory is never secure. It must be won again and again — and yet again, for each test is a new game, and there is no prize for second place."

As Shivers spoke, his supporters in many parts of the state were re-organizing their forces at precinct level to carry on the fight next year.

Opposing campaigns were also moving — those of the Loyal Democrats and of the Republicans. Not in modern Texas history has there been so much political activity so far ahead of the elections.

A problem to consider in case of calling a special session of the state legislature, was that of increasing teachers' salaries, but little progress has been made along that line, Shivers said.

He thought the matter ought to be settled, but "not a lot can be accomplished at a special session unless a compromise can be worked out ahead."

Meanwhile, the State Comptroller notified the Board of Education that there was a net cash balance of \$2,966,134 in the available school fund on August 25.

Promptly, the Board voted Texas schools an additional dollar per head for the past school year, 1952-53. That raised the per capita apportionment to \$69.

Er's Pageantry Is Re-Created in Film 'Salome' Coming Soon

Only 26 verses in the Biblical books of Matthew and Mark record the existence of a certain seductive princess of Galilee, a girl who danced at a particularly awesome moment in history. Those verses do not say her name was Salome; later historians and classical writers learned that.

The story of Salome, and the passionate-filled era in which she lived, is told in Columbia Picture's spectacular new screen achievement, "Salome", starring Rita Hayworth and Stewart Granger and co-starring Charles Laughton at the Princess Theatre in color by Technicolor. Alive with the violence of the time when ancient Rome first came to grips with the spiritual force that was to bring its empire crashing down, "Salome" is at once a motion picture of unequalled entertainment and a screen re-living of history's most fateful era.

Salome again dances her fabled dance of the seven veils, Herodias plots the death of John the Baptist while Herod rules his licentious court. Pontius Pilate masses his Roman legions against the new enemy from the heavens. Galilee surges to life.

Salome lived in an era when a new civilization, a new way of life, was being born. Product of the opulent past, Salome embodied in her person all the savagery, the sensuous passion of the barbaric time which was disappearing. Alive to beauty, to love and to the promise before her, she personified all that is good and all that is bad in mankind.

Stewart Granger portrays Claudius, the Roman who commands Caesar's legions and secretly fol-

lows the teachings of John the Baptist. Charles Laughton plays Herod and Judith Anderson portrays crafty Queen Herodias.

TROY DRUSE AGENCY
I have recently established an agency of my own and am no longer associated with the Peavy Insurance Agency.
COMPLETE COVERAGE OF ALL KINDS

With September's horn of plenty offering such luscious fruits, prepare a fruit platter for luncheon—thin slices of red-skinned apples, pear halves and seedless green grapes on a bed of crisp chicory. Serve with it this delectable dressing: 1 cup real mayonnaise combined with 1 beaten egg white, 1/2 teaspoon salt and 2 tablespoons honey.

If you have a favorite leather belt and matching bag to wear with your fall tweeds and woollens, carry the touch even further with leather bangle bracelets and hoop earrings.

To keep the children occupied on a rainy day, let them make their own bracelets and necklaces. With 2 or 3 colors of all-purpose dye, they can tint old pearls, plastic beads, buttons and even odd-shaped macaroni a variety of bright colors.

The summer is well nigh over so why not get the gang together for just one more glorious weiner roast. To dress up those weiners, slit each frankfurter about half way through, spread with sandwich spread, wrap in a slice of bacon and broil over fire until bacon is crisp and lightly browned.

Fall and winter skirts will be shorter and slimmer, according to fashion experts, so we ladies had better start remodeling last year's wardrobe. Hike up the hemlines so they're about 14 to 16 inches from the floor, depending on what's most becoming to you; and discard the taffeta linings which gave skirts that puffy look last year.
