Pickard, and family of Eagle Pass; Mr. and Mrs. Ross Underwood of Greenville, Mississippi, are also guests in the home of his parents, Mr. Underwood having recently received his discharge from the U.S. Air Force.

Mrs. T. R. Arrington returned home Wednesday from San Antonio where she had medical treatment for ten days.

EAGLES SCORE 31 POINTS FOR WIN OVER GRANDFALLS

The Sanderson Eagles demonstrated an excellent example of team work, fair play and willingness to local fans in their first home game of the '54 grid season here Friday night.

The Eagles won over Grandfalls by a score of 31-0 in a non-conference game.

Grandfalls is a Class B school and the Eagles had the slight advantage, if such was the case, in that respect, but the main factor seemed to be a willingness and desire to play hard and clean football with teamwork and cooperation being an important factor, also.

The Grandfalls team was not able to make headway with power or deception plays because of the hard-working Eagles.

One of the grounds, Grandfalls showed plenty of ability by making 11 first downs and doing considerable gaining on the scrimmage plays, but always lacked the quality of sufficient punch when it was needed most.

Sanderson's backfield was effective in all departments, with passing being the exception. The line men were giving the ball carriers plenty of room to roam into the Grandfalls secondary before being tackled and the entire line was taking the brunt of the defensive plays to save a threat of one of the Cowboys breaking into the secondary with a full head of steam.

Sanderson and Grandfalls boys were both a little eager on the offensive and drew penalties from back-field in motion, with the usual number of penalties for off-sides being assessed both the offensive and defensive teams.

Sanderson drew one 15-yard penalty for illegal use of the hands and Grandfalls drew a 15-yard assessment for having an illegal receiver downfield in an attempted pass play.

The first Sanderson score was by Gary Harrell, halfback, on a 50-yard run. The try for the extra point failed.

The second score came in the second quarter when Higinio Pena, quarterback, passed to Claudio Villegas, an end, for a 7-yard and 6-point play. The extra point was an identical play as the TD play.

In the third quarter, Pena ran the ball over from the 6-yard line and Ruben Ochoa's try for the extra point run failed.

In the final period, Harrell intercepted a pass and went 55 yards to pay dirt and again the extra point try was good.

In the same period, Darrell Cox who had moved from halfback to quarterback, carried the ball 16 yards for a score and Press Escamilla failed to run the ball across for the extra point.

The Sanderson High School Band and Pep Squad conjured a novel idea for the entrance of the Eagles onto the playing field. A large frame supporting a drawing of a cowboy, was set up near the east goal and the Eagle team ran between the goal posts, burst through the paper picture and on to the playing field.

The band, under the direction of Charles Matney, also entertained fans during the half time following the half time exhibition by the Grandfalls band.

BAKE SALE SET FOR WEDNESDAY, OCTOBER 6

The Methodist Women's Society of Christian Service will have a bake sale on Wednesday, October 6, in the Ferguson Motor Co. building. Coffee will be served with cake and pie all day or cakes and pies will be sold whole to be taken home.

ENGINEERS MEET IN DEL RIO TO STUDY PROPOSED DAM SITE

After a two-day session in Del Rio the first of the week, visiting engineers and geologists left for El Paso to make their recommendations to the Board of Engineers of the International Boundary Commission which is meeting on Thursday to complete studies on the proposed dam site near Del Rio.

Reports on the proposed sites were studied to determine if the proposed sites near the confluence of the Devil's River and the Rio Grande are sound with rock foundations.

Cores taken from the tests made at the proposed sites were studied and field trips were made by engineers on both sides of the Rio Grande to study locations.

An announcement from the commission on the location of the dam is expected in the near future. Four sites in that area are being considered.

Travel US 90 Assn. Officers Resign

At a meeting of the directors in Del Rio last Sunday, resignations of president of the Travel US90 Association, Dr. C. L. Baskett, and the secretary-treasurer, Ralph De Solo, were accepted.

Directors from Marfa, Alpine-Marathon, Sanderson, Dryden and Del Rio were in attendance Sunday afternoon at McFarlane's Cafe in that border city.

E. F. Pierson, vice president of the organization, officiated at the meeting after notification of the resignation of Dr. Baskett as president. Ray Hodgkins of Sanderson was elected as temporary secretary-treasurer to fill the office vacated by De Solo's resignation.

Plans were approved for the addition of territory east to Orange which will be accomplished at the next meeting of the association at Columbus on Sunday, October 10. It is planned to perfect the permanent organization with new officers at that meeting with the eastern group participating in the election of officers.

Adoption of the proposed by-laws was approved at the Sunday meeting with the provision that they are approved by the eastern group of directors.

Dr. Baskett and Mr. De Solo told the group of their plans to continue to serve the Del Rio branch of the highway organization which is known as the Border Trails Association. The Del Rio members will have a meeting in the near future to outline their participation in the over-all highway promotion work.

Rutherford Resigns State Senate Post

Congressman-elect J. T. Rutherford submitted his resignation as State Senator to Gov. Allan Shivers Tuesday, September 28.

Rutherford, recently elected to represent 19 West Texas counties, said the resignation is effective immediately.

He said he resigned because: 1. Gov. Shivers has assured him the election to fill his vacant Senate seat will be held in conjunction with the November general election, at no additional cost to the taxpayers; 2. his defeated opponent, Ken Regan of Midland, and supporters have ended political legal maneuvers which followed the July Democratic primary and 3. so that candidates seeking to succeed him may now get their campaigns into high gear.

In resigning, Rutherford said he wished to thank "all those many West Texans who have repeatedly expressed their confidence in me."

Rutherford said he will meet with five newly-elected Texas Congressmen in Fort Worth this week and also will huddle with Senator Price Daniel.

October 19th Date For Railroad Hearing Here

On Tuesday, October 19, a public hearing will be held in the courthouse at Sanderson on Docket 1282 which is the Railroad carrier's application to abandon the railroad terminal facilities at Sanderson and Valentine.

Latest information set the time for the hearing at 1 o'clock and is a recessed hearing from the previous hearing held in Alpine on July 14 and 15 when the T&NO Railroad instituted the proceedings incident to obtaining permission of the Railroad Commission for the abandonment of the two terminals.

It is presumed that testimony which was heard at the Alpine hearing will not be allowed at the local hearing, since all of the testimony of the previous hearing was recorded for the information of the commission and it would be unnecessary time and expense for a rehash of previous testimony.

Methodists Plan Rally Day For Sunday, October 2

Sunday is Rally Day at the local Methodist Sunday School and all Methodists and friends of the church are urged to be present for the Sunday School services beginning at 9:45.

"This is the one day when all Methodists should be in Sunday school," Rev. J. J. Spurlin pastor, stated, "and we urge you to be in your place."

At the church services Sunday morning, Rev. Spurlin will continue his series of sermons on the Apostle's Creed with the topic: "What Do Methodists Mean When They Say: 'I Believe in the Holy Catholic Church?'"

PARK DEDICATION IS POSTPONED

The dedication of the Big Bend National Park which had been tentatively set for October has been indefinitely postponed, according to an announcement made last week by Dr. Bryan Wildenthal, chairman of the dedication committee.

After word was received from the White House that President Eisenhower would be unable to attend a fall ceremony in the park, Dr. Wildenthal, who is also president of Sul Ross State College in Alpine, stated that the program would be postponed until a later date.

Old Fort Davis To Have Celebration On 100th Anniversary

Fort Davis, Sept. 29 — The centennial of the old military post here will be marked by a two-day celebration October 9-10.

The celebration is being promoted by the Fort Davis Historical Society. It will open Saturday morning, the 9th, by a bugler sounding reveille through the streets, and repertoire of old army calls will be run through the day to Taps in the evening.

Fort Davis was established in October, 1854, by Jefferson Davis, then Secretary of War of the U. S., afterward president of the Southern Confederacy. Federal troops surrendered the fort to the Confederates in 1861. The federal returned in '67 and remained until the post was inactivated in 1891.

Against this background and early Saturday afternoon there will be a parade led by John G. Prude, the society's president, on a prancing steed, following by the United States flag with color guard, a Confederate flag, groups depicting early Spanish settlers, "gringo" settlers, Indians, prospectors, wagon travelers, cowboys and soldiers all in past-day means of transportation, all accenting a military and early-day atmosphere.

The parade will be followed by a presentation of people who were here prior to 1900, both visitors and home folk. A barbecue will be served at five o'clock by a commercial caterer from Odessa, then there will be "Retreat" on the bugles and the lowering of the flag from the staff set up in the center of the old parade ground, followed by an outdoor play presenting the story of Indian Emily, an Apache girl who gave her life to save the fort from an attack by her tribesmen. Emily's grave is on the post.

Sunday "church call" on the bugle will summons people to a religious service under the ancient cottonwoods where early soldiers had their vegetable garden. A barbecue dinner will be served, and in the afternoon there will be a Mexican rodeo.

Visitors will have an opportunity to see the extensive crumbling ruins of the fort, to make the 74-mile scenic loop drive through the mountains where soldiers and Indians carried on years of warfare, and to visit the museum maintained by the historical society, in a reconstructed barracks.

**Texas' First Newspaper Site To Be Commemorated on October Second**

Nacogdoches — In front of the historic Old Stone Fort of this town on October 2 will be commemorated an event of great significance in the history of the state — publication of the first Texas newspaper.

The *Gaceta de Texas*, printed in May, 1813, came into existence as a part of the turbulent movement to overthrow Spanish control over the great Southwest.

*Gaceta de Texas* was short-lived, and only one copy of the newspaper is known to exist today. But its appearance is a part of the dramatic story centered around the twin towns of Nacogdoches, Texas, and Natchitoches, Louisiana.

A legend of the Texas Indians, handed down from the dim past, tells of the origin of the two towns. A Caddo chief of long ago lived on the banks of the Sabine River. To him, twin sons were born. One named Natchitoches, was swarthy of features, with black hair and dark eyes. The other, Nacogdoches, was fair, with yellow hair and blue eyes. As the old chief lay on his deathbed, he called to his two sons, and commanded that, after his death, Natchitoches should take his wife and children, turn his face toward the rising sun, and after three days march should build his home and rear his tribe. Nacogdoches was commanded to face toward the setting sun, march three days with his family, and establish a home. Thus the two towns developed about 100 miles apart.

When the United States made the Louisiana Purchase in 1803, misunderstandings arose with Spain over the boundary between Louisiana and Spanish territory. The Americans built Fort Jessup at Natchitoches, and in 1806 the Spanish Governor rushed 1500

**THE OLD STONE FORT**—At this fort in 1813 was distributed the first newspaper known to have been published in Texas—The *Gaceta de Texas*. Public services commemorating this newspaper will be held at the fort on Saturday, October 2 — during National Newspaper Week. A bronze plaque will be erected in tribute to the newspaper by Sigma Delta Chi, professional journalistic fraternity, and the Texas Press Association. The Old Stone Fort is located on the campus of Stephen F. Austin College in Nacogdoches.

troops to Nacogdoches to defend it against an invasion. As a result of negotiations, there was set up between the two towns. The Neutral Territory, a strip over which neither country exercised jurisdiction.

Tension was broken by the rebellion of Mexicans against Spanish rule in 1810. American forces lost no time in showing their sympathy with the Mexican revolutionists. By 1813 the revolutionists, aided by American volunteers, had swept the Spanish control beyond San Antonio.

Into this picture had come William Shaler, United States agent to Cuba and Mexico. From Natchitoches, Shaler gave support to the revolutionist army organized under Lieutenant Augustus Magee, who resigned his position in the U. S. army garrison at Fort Jessup, and Jose Bernardo Gutierrez, a Mexican leader.

Shaler's papers which are now in the archives of the Congressional Library at Washington give proof that Shaler wanted a military victory by the forces of Gutierrez but that he envisioned the government of the new republic under a different type of man. Shaler's selection was a Cuban patriot, Jose Alvarez de Toledo. Toledo came to Nacogdoches and took control. Shaler joined him there in 1813.

Miss Evelyn Garrett, Fort Worth teacher whose research unearthed the existence of *Gaceta de Texas*, credits Toledo with bringing order out of turmoil in Nacogdoches. He organized a militia, established a school, and tried to restore the normal activities of life. Toledo also brought with him a printer, A. Mowrer from Philadelphia.

Toledo and Mowrer prepared to issue a newspaper called *The Gaceta de Texas*. Type was set, and

the newspaper was made ready for printing.

But trouble arose. Gutierrez, who had proclaimed himself president, protector of the new republic, became suspicious that Toledo sought to overthrow him. As the *Gaceta* was ready for press, Toledo received a letter from Gutierrez saying that "the people" thought Toledo a traitor, and that he should withdraw to Louisiana.

Toledo, doubtless with Shaler's help, dismantled the press, packed the pieces on horseback, and left for Louisiana. With them they carried the type, set up in page form, for the newspaper.

In Natchitoches, sometime early in June, the press was put together, and the *Gaceta de Texas* was printed under date of May 25, 1813, and consisted of two pages, printed on separate sheets. The first page concentrated on foreign news items. Evidence seems to show that copies of the newspaper were brought back to Nacogdoches and distributed.

But Spanish vengeance came too quickly for Toledo and Shaler to re-establish themselves in Nacogdoches with their newspaper. A Spanish army sent into Texas drove the revolutionists and the inhabitants of Nacogdoches back into American territory.

Thus was born and quickly died the first newspaper to be set in type in Texas. Its passing, however, should not go unnoticed, for *Gaceta de Texas* paved the way for

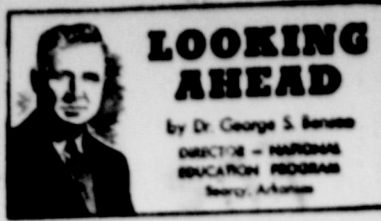

other publications later. It has the distinction of being the first newspaper printed free from censorship, in all of Spanish America. It marks the birth of Texas journalism.

The Old Stone Fort was the center of life in Nacogdoches in those troubled days. When the Fort fell into disrepair about a century later, patriotic East Texans provided means for having it rebuilt from the original stones and placed on the pine-covered campus of Stephen F. Austin State College. This Fort on October 2 will be installed the bronze plaque, honoring the first newspaper to be set in type in Texas.

**E. C. TUBBS MOVE TO ODESSA**

**LOOKING AHEAD**

There are two facts in our world today which, I feel, must be given high priority in the minds of every American, young and old. Our survival depends upon it. The facts are: (1) The world-wide Communist conspiracy, whose primary objective is to conquer the world. (2) Communism's Fifth Column force in America is more powerful and a greater menace today than ever before. During the next few weeks this column will discuss these two facts and what American citizens can do about them.

**THE MOST IMPORTANT FACTS**

First, let's document our facts. **FACT NO. 1** — Communism is conquering the world. A special sub-committee of the U. S. Senate Foreign Relations Committee has officially charted the world-wide growth of Communism, from a handful of Bolsheviks in 1917 to the enslavement today of more than 800,000,000 people in 11 countries, and the perfection of a Fifth Column of 5,000,000 hardened, disciplined conspirators working inside the 60 non-Communist nations.

**Indo-China Added**

In the few months since the Senate Committee published its report, Communism, aided by its Fifth Column inside the government of France has taken over half of Indo-China and is expected to gobble up the remaining half as it consolidates its newest conquest. With the vast manpower of Red China and with a Red Indo-China flanking southeast Asia, the huge nation of India, with its millions, becomes vulnerable, and with the whole of Asia.

In Europe, meantime, the major nations show definite signs of weakening before the rising might of the Communist giant. This weakening has been achieved by infiltration of Reds in the European nations, their cunning propaganda, and their insidious seizure of political power. The U. S. Senate committee reports there are 450,000 Communist conspirators in France with 100 Reds actually holding seats in the French Assembly; that in Italy there are 1,700,000 card-carrying Reds, with 218 occupying

seats in the Senate and Chamber of Deputies. As this column is written, the leaders of England's Socialist-Labor Party—Atlee, Bevan and others — are on a good will visit in Communist China, bow-towing to Communism's new strong man, Red Dictator Mao Tze-tung.

**Menace Grows**

Now let's examine **FACT NO. 2** — the Communist Fifth Column in America is more powerful and a greater menace today than ever before.

Attorney General Herbert Brownell was interviewed by editors of the *U. S. News & World Report*. They asked: "Is the Communist Party (within our country) more or less active, Mr. Attorney General, than it was, say, a year ago? What does the FBI find on that?" The Attorney General replied: "They think it is a greater menace now than at any time. They (Communist conspirators) are better organized and detection is more difficult."

And Attorney General Brownell could have added a fact which Herbert Philbrick, who was an FBI counterespionage in the Communist underground for nine years, always emphasizes whenever and wherever he can get people to listen: "The truth of the matter is, and the Communists know this, we have not yet begun to win. We have not turned the tide. We are still losing."

**Surrounding Us**

Making preparations for the signal for internal revolution or for the big Soviet strike against the U. S. A., are the Fifth Columns in South and Central America, right on our doorstep. The Senate Committee reports the following statistics: Argentina, 40,000 Reds (more, incidentally, than Lenin had with him when he seized control of Russia); Brazil, 60,000; Chile, 40,000; Uruguay, 15,000; Venezuela, 20,000. Mexico, the Central American countries, and Can-

ada have comparable numbers. Communists in our own country continue to widen their effectiveness with propaganda campaigns to subtly undermine our political, economic institutions. They and all the authorities on Communism say the Reds are men of subtle thought control, and through infiltration and an army of unwitting dupes, they effectively reaching the minds of many citizens.

So the actual facts do show the strength of Communism growing, expanding; and that a menace to America from as well as from without. What a citizen do? A part of the answer will be found in next column.
