SANDERSON, TEXAS, FRIDAY OCTOBER 14, 1955

NUMBER 35

LISTEN TO LUKE

We proclaimed extensively last week about the lack of interest on part of residents in not attending the fire meeting which was held recently. This week we are approaching another angle.

It is a foregone fact and one which could be foreseen by anyone who is able to read and understand that a drive for funds by the fire department is in the offing. This is certain.

We don't know when it will be or what the goal will be, but we are bound to come.

And when it does, will there be the same small amount of enthusiasm as there was for the meeting? We hope not!

For the past several years, the firemen have put on a turkey shoot to try to raise some money. Many years this has been the firemen's effort on their part to raise money. The turkey shoot is planned by the firemen, is worked out by the firemen and the firemen are the ones who do most of the work necessary for the affair. And often it is the firemen who do most of the shooting and, to say the least, they do most of the work in shooting to keep things going at the shoot.

Certainly they are aware of the fact that the shoot is supported by the firemen and they are very grateful for that support, and they hope they will be able to put on the kind of event which will interest the support of the citizens this year and for years to come.

But they will soon be asking for other kind of support — the kind that will bring in the money.

With the advent of the dial system, the fire alarm system will be a little more expensive. The firemen have been needing another siren for many years, they need a siren on one of the trucks. They need additional hose. They need some nozzles repaired. They need more money to buy chemicals. They should have some sort of fire extinguishers as protective paraphernalia in fighting a fire. They need to have their insurance policy reviewed.

This, actually, is only the beginning of the list.

When a letter comes to you asking for funds for the support of the fire department, think twice before you throw it away. You are throwing away a lot if you did. The fire equipment here belongs to the people of the county. It has never been refused to them when it was needed. The firemen have never refused to go to work, day or night, hot or cold, when it was summoned.

The insurance policy holders get fire credit discounts on their policies because of the actions of the firemen and the condition of the equipment. All householders are assured of the protection of the fire department. All citizens have assurance that their personal property will be protected to the best efforts of the firemen.

It is not the duty of the fire insurance policy holders, or the business houses, or the property owners, or the renters to support the fire department financially, but it is the duty of every citizen.

A small contribution from each family living in Sanderson would go far toward furnishing all the needs and desires of the firemen. Don't forget them when they write you a letter.

Take care of your fire department. At the next fire we have may have to say:

is a wonderful sight to see the hills in the county turning green. There are varying shades of green because of the varying heights and densities of grass. But they are turning green, nevertheless.

Some of the ranch land in the northern part of the county is a

EAGLES, SHORTHORNS TIE 0-0 THERE; HOT McCAMEY TO HOST LOCALS FRIDAY

The Sanderson Eagles and Marfa Shorthorns battled to a 0-0 tie last Friday night in Marfa. Sanderson led in first downs, the deciding factor, since no penetrations were made by either team.

Coaches Carlton Smith and W. H. Riley were forced to shift their players because of injuries and came up with a combination that could hold its own against the favored Shorthorns.

Gary Harrell, tailback, has been out of practice and play for the past three weeks because of an arm injury. Bob Beckett, halfback, is out for the season because of a knee injury. Both of these boys were considered to be good elements on both offensive and defensive play and seriously hampered the Eagles' chances of making a good showing to the opposition.

Marfa was penalized 145 yards as compared to 15 yards in 3 penalties against the Eagles.

Kenneth Shurley, Popo Flores Press Escamilla and Darrell Cox were used as mainstays in the backfield, with all of the line regulars seeing plenty of action in the Marfa game.

This Friday night the Eagles will go to McCamey to meet the district contending Badgers on their home field in another conference game.

McCamey defeated the Wink Wildcats last week by a 7-0 score to place themselves in the position of having one of the strongest teams in the district. The Reagan County Owls, another strong contender, is later down the list for both the Eagles and the Badgers.

The Eagles will see a pretty rough game this week as far as competition goes, being outweighed and out-classed in experience and depth of strength.

Juniors-PeeWees Split Wins Thursday In Fort Stockton

The Sanderson Junior and Pee-Wee football teams split wins with like teams in Fort Stockton last Thursday night.

The PeeWees, playing the first game, came out on the big side of a 6-0 score over Fort Stockton. Their touchdown was made in the final 15 seconds of the game on a short run by Felix Valles. The try for the extra point was no good on a running play.

Both teams played more of a defensive ball game throughout the four quarters, it was reported by Edward Medaris, the coach.

The local Junior team lost by a 6-6 score to the host Fort Stockton team.

LOOKING AHEAD

DIRECTOR - NATIONAL EDUCATION PROGRAM
Searcy, Arkansas

The National Education Program

This month marks the 17th birthday of the National Education Program. A large volume of mail comes to my desk inquiring about the program, its origin, its purposes, and various phases of its work.

When I returned to America in 1936 after 11 years abroad to become president of Harding College, I was conscious of a world trend toward Socialism.

American Advantages Stressed
As soon as I could spare the time from my administrative duties at Harding College, I began to make myself available for speaking engagements.

One Man Effort Grew
I began to write the weekly column. A few months later I spoke to the Memphis Rotary Club.

From these early beginnings, the National Education Program grew like "topsy". It now reaches an estimated 30,000,000 people weekly.

368 stations. Our educational motion pictures which we began producing in 1948, have been distributed through 15,000 theatres by Metro-Goldwyn-Mayer, and in 16mm. to millions of school children, industrial employees, labor unions, patriotic and civic club members.

New Separate Corporation
In 1949 we held the first Freedom Forum. It was attended by 160 people from 30 states. The Forum objectives were (1) to bring about a better relationship between management and labor; (2) to create a better national understanding of the American way, how it works, and its comparative advantages; (3) develop educational tools and techniques for carrying the American story to the grass roots of the nation.

At the beginning of 1954 the National Education Program severed all organic connection with Harding College. Since its work had reached considerable proportion, there were reasons which appeared to make it advisable to separate it organically from the college.

Austin - A big political question this week was what effect Lt. Gov. Ben Gamsey's new job as national Democratic committeeman from Texas will have on his and Texas' political future.

Ramsay, quiet-mannered and nearly 52, was elected at a Fort

Worth meeting of the state executive committee last week. He succeeds Wright Morrow of Houston.

Often mentioned as a prospective candidate for governor, the San Augustine lawyer was catapulted into the committee job without advance fanfare. He was labeled a "surprise" "compromise" nominee after agreement could not be reached on 14 others.

Some viewed it as positioning him on the inside track in the government's race with firm conservative support and maybe some "loyalist" backing. A few seemed to consider the job a political blind alley.

Both House Speaker Sam Rayburn and U. S. Senator Lyndon Johnson promptly expressed approval of Ramsay's selection. Their approval had been part of the requirements laid down by national party leaders for an "acceptable" committeeman from Texas.

Johnson said Ramsay can do the kind of a job that should unite Texas Democrats. Rayburn called him "a good man for the place".

Constant Check Will Prevent Eye Damage

Austin — Emphasizing the urgent need for parental supervision of all phases of child health, Dr. Henry A. Holle, Commissioner of Health, said this week. "Much of the impaired eyesight of advanced years could be prevented if sufficient interest in early life were applied and a temporary correction by means of glasses made when required."

Parents should be watchful for conditions in the child such as frowning, squinting, persistent headaches, eyeache and watery eyes. If the youngster reads too closely or too far away from the face, that situation may also be significant of trouble.

No child fancies wearing glasses. Nevertheless, it is the obligation of those responsible for the future of young folks to have their eyes examined by a reputable specialist if any doubt arises that normal vision does not exist. It is much better for a child to wear glasses for a few years during early school life than to have permanently defective vision in later life.

According to the Commissioner of Health, any acute condition of a child's eyes calls for immediate treatment by a person that specializes in diseases of the eyes.

Dr. Holle said neglect of the eyes by no means is limited to children. Many older persons, some through indifference or carelessness fail to give proper attention to the care of their eyes. Penalties, he warned, are bound to occur for inexcusable negligence.

The eyes of the young, middle-aged and older persons represent perhaps one of the most priceless of bodily possessions, the Commissioner asserted. To take care of them promptly and properly is a responsibility that should never be sidestepped.

The Latin-American citizens of Terrell County will have a free dance at the V.F.W. Hall in Sanderson on Sunday, October 30.

This dance is to be made available for the Latin-Americans by the celebration committee of the Fiftieth Anniversary of the organization of Terrell County since the orchestra contracted for that event on July 16 was unable to reach Sanderson because of high water between here and Fort Stockton.

Mrs. Chance finds the telephone a young homemaker's best friend

What one service helps the homemaker through busy days more different ways than any other?

Mrs. Martha Chance is sure she knows the answer. Her telephone, Mrs. Chance recently kept a week-long diary of telephone calls made and received in her home. The results surprised her.

Mrs. Chance listed 95 calls during the week. Not only did her calls save time and energy in managing her home, but many were actually the start of a pleasant afternoon or evening out.

In Mrs. Chance's own words, "It's so easy to take your telephone for granted. You just don't realize how much it means to you until you stop and think about it as I have."

Mrs. Chance is right. Telephone service is a busy homemaker's best friend.
