LUME 49

## STEN TO LUKE

week Sanderson received the nicest compliments we heard in years.

of the crew chiefs for Mc-Exploration Co., received that he was to report to the office for transfer. He had been here only three weeks.

man came to the office the day to leave and stated that he had lived in San Antonio. Turner said the climate was pleasant, the nights were nice and they had a nice apartment. But the nicest thing about it was the pleasant attitude of the people. He said that he was expressing the sentiment of his wife, also.

er, the party chief, had visited foreign countries and had been in most all the states. He came to Terrell County with exploration crews in that they have made them a part of our community activities. We are to welcome those kind of people to our community.

use there are many things that are attacking the foundation of American government — with that intent though it effect, and some with effect though without that it becomes our duty to alert and to curb those which are detrimental.

the humble opinion of this our present Supreme is dangerously subversive it tends to destroy the restraints on power that constitution of the United States established. What the Constitution says will mean little and make no difference to the and little to the country if and of the Supreme Court.

Hon. James F. Byrnes, now Justice, is possibly the first who has had the advantage of serving on that great tribunal to criticize the actions of the Court publicly.

ed decisions are not un- in that great body but has the swing of balance toward usurpation of legislative powers of Congress and the Court have asked their authority in the powers of the Court. It would be amusing if it would use that same given them by the Constitution to curb the actions of the

urvey crew working here morning started more than have been heard here long time. The crew was mainly around the corner of the Persimmon and the northwest corner of the tion. For the benefit of unfamiliar with the street that's catty-cornered from store.

cannot repeat some of the and will not repeat the but if plans go through, I wager that someone will to buy some old adobe cheap, and maybe some seasoned lumber even cheap-

y of the rumors, almost pass, it will be an im- to the town.

ation is running high, are fast and furious and capacity we might would what is going on — after heard your guess — and new.

nd Mrs. Jack Laughlin died to Goldthwaite Saturday account of the illness of Mr. W. W. Laughlin, who died a stroke. They were Tuesday, reporting some improving.

## Indian Theme Planned For Annual Stockton Water Show

"Pow Wow on the Comanche" is the theme of the 1956 water carnival at the Comanche Springs pool in Fort Stockton. Mrs. Fletcher Eason is directing the stage and water spectacle to be presented on three nights, Thursday, Friday, and Saturday, beginning at 8:15. An Indian theme and historical flavor will be noted for the water carnival.

The show will be opened with a tribal procession around the pool, prior to setting up camp on the banks. A water ballet by Indian youths will launch the fast whirl of events. Feature numbers will include Indian dances by groups from the Price School of Dancing, a Squaw Dance, spectacular over-water adagio by Harper Caldwell and Anne Bartlett, and comedy in diving and stage events.

A total cast of 200 or more will present the action-packed colorful show.

Featuring each evening's show will be a beauty review, with younger Fort Stockton groups on Thursday evening, older groups and crowning of Miss Fort Stockton Friday night, and the All-Southwest revue Saturday night. Numerous entries are being received for each division.

## MISS CARLENE WERNEKING TO ENTER BATHING REVUE

Miss Carlene Werneking will enter the All-Southwest Bathing Revue at the Fort Stockton Water Carnival on Saturday night. She will compete against girls of West Texas towns for the title.

Miss Werneking, daughter of Mr. and Mrs. Carl Werneking, is being sponsored by the Sanderson Lions Club. She is the "Sweetheart" of that organization.

## Mrs. J. A. O'Connor Dies In San Antonio

Funeral services were held in San Antonio Wednesday morning at St. Henry's Catholic Church for Mrs. Mary Elizabeth O'Connor, 59, of Del Rio who died in a San Antonio hospital Sunday. Burial was made in that city.

Mrs. O'Connor had been in ill health for several months following a heart attack.

Survivors include her husband, James A. O'Connor; a son, James A. O'Connor, III; a daughter, Mrs. Ray Langlinais; also three grandchildren.

The O'Connors are former Sanderson residents when he was the row-ohouse foreman here.

The Rev. N. Femenia went to San Antonio to assist in the funeral rites.

## Baptists Have Large VBS Enrollment

The annual Daily Vacation Bible School opened at the Baptist Church Monday morning with an enrollment of 85. Sessions are held each morning from 9 to 11:30. The closing session of the school will be on Wednesday, June 27, and the commencement exercises will be on Wednesday evening at 7:30 in the Baptist Church.

Mrs. Charles Matney is the principal of the school with Mrs. J. A. Mansfield serving as general secretary.

Working in the beginner's department are Mrs. Ray Thompson, L. H. Lemons, Lloyd Cowan, and Miss Lacy Eggleston.

In the primary department are Mrs. D. L. Duke, Mrs. Ruel Adams and Misses Diana Duke and Vanessa Jo Nance.

The three teachers in the junior department are Patty Gray, Mrs. H. M. Beckett, and Mrs. O. D. Gray.

In the intermediate department are Mrs. Ross Stavley and Mrs. Roy Bogusch.

Rev. Gene Medaris, pastor, is also assisting in the school.

## Rig Set For Well East of Dryden

A rotary rig was moved on location this week for drilling the Birdwell-Hoffman, Roy Barksdale No. 1, about 10 miles east of Dryden on the Roy Barksdale ranch.

Henry E. Hoffman of Midland announced to The Times this week that, with the rotary rig, it is planned to drill to production if there is any.

Several locations are to be tried if there is any indication of production possibilities, Hoffman stated.

Location will be 330 feet from south and east lines of section 46, Block D-6 of the MKT&ERR survey.

The drilling application was for 3,200 feet in depth.

The location is on a 640-acre lease.

## Dr. J. D. Swanson Gets Deferment Until August 1

Dr. John D. Swanson received word last week that the Veterans Administration hospital in Albany, N. Y., had authorized a deferment for his reporting until August 1. The deferment was granted at the request of local citizens due to the fact that the services of a physician for Sanderson and Terrell County had not been obtained.

Dr. Swanson had accepted a position with the hospital and originally had planned to report there on July 1, leaving Sanderson on June 15, but the six-weeks deferment would allow him about four more weeks of practice here.

The deferred time would also allow local citizens that much extra time in trying to locate a physician who would move to Sanderson.

Every effort is being made to contact such a physician, it was stated. Ads have been placed in the American Medical Journal; contact has been made with the doctor placement center of the Texas Medical Association in Austin, and many phone calls and letters have been written to possible opportunities.

The placement center for doctors in Austin has sent a list of 50 physicians for contact and application blanks have been sent for information for their files.

Several doctors over the nation have written, called, or come to Sanderson to investigate the possibilities or possibilities, but up to this writing, there have been no acceptances of the opportunities offered here.

## Tourist Dies Friday In Dryden Motel

Daniel Fredrick Buckingham, 78, was found dead in the Purple Sage Courts Saturday morning. Coroner Chester Smith rendered the verdict of death by natural causes.

Buckingham, a native of Milford, Conn., checked in at the motel Friday afternoon. He complained of the intense heat and stated his intention of staying at the motel only until night fall, according to investigating officers. Saturday morning, when it was noted that there seemed to have been no activity in the cabin, the operators of the motel decided to investigate. The body of Buckingham was found on the floor, the bed was still undisturbed and it was presumed that he had been in the cabin only a short time before death came.

The Janes & Magill Funeral Home took charge of the body and prepared it for burial and shipment to Connecticut where interment was made.

Mrs. J. H. Hayre went to San Antonio Monday for a medical check-up. Her son, Jack Hayre, accompanied her to San Antonio to return his wife and son who had been visiting there with relatives for a week.

## INTEREST SHOWN IN LECHUGUILLA FIBER QUALITIES

A possibility that lechuguilla will be a desirable plant in West Texas came to light last week when it was learned that much interest was being shown in the plant, particularly from the south part of the county.

This information was revealed last week by L. D. Booker, local soil conservation specialist, after he had spent many hours showing samples of lechuguilla from various parts of this area to representatives of a manufacturing company. The characteristic most desired is the long staple of the fiber resulting in the long blades in the plant. The representatives of the company stated that the strength of the fiber was also an important characteristic and that the lechuguilla in the southern and southwestern part of the county had very definite possibilities as commercial value.

It was stated that the center shoot of the plant was the part most desired for fiber manufacture, and that the center could be taken from the plant without killing the plant, and that repeated harvesting in this manner, aided in the development of a longer and stronger heart-shoot which was most desirable. It was also stated that the entire plant could be killed and by the use of some harvesting methods, control of the plants could be maintained and repeated harvests of the desired part of the plant developed.

Work is also under way on a machine which will extract the fibers of the plant. This process is currently done by hand more successfully than by machine.

It has been stated that the lechuguilla fiber has been substituted most effectively and satisfactorily for hemp fiber and in many cases is also used in the manufacture of short-bristled brushes, etc., and in compressed form is used as fiber board and in molded form in many instances.

Further technological studies of the fiber of the lechuguilla from Terrell County will be made before any plans are made to further develop possibilities.

Further technological studies of the fiber of the lechuguilla from Terrell County will be made before any plans are made to further develop possibilities.

## Braves Repeat Win From Monahans; Will Play Valentine

The Sanderson Braves repeated their former win over the Monahans Lobos here Sunday afternoon. The score was 9-4. It was the second meeting of the two teams this season.

Juan Ramirez began pitching duties for the Braves and turned his ankle in the second inning. He was relieved by Roensch, Higinio Pena, starting catcher, was relieved in the 8th by Kenneth Stutes.

The Braves will meet the Valentine Tigers here Sunday at 2:30.

## CARRUTHERS SELLS BUCKS AT GOOD PRICES AT ANGELO

J. W. Carruthers & Sons, local and Carta Valley registered Rambouillet sheep breeders, got good prices for the bucks consigned to the San Angelo sale held last week. The best price for a buck was \$205 paid by Bob Bisset of Barnhart.

The Carruthers also bought one of the bucks which had been consigned to the sale.

## THOUGHT FOR THE WEEK:—

"All the title of the land . . . is the Lords." — Leviticus 27:30.

Don't be guilty of praying high and paying low. Pay your debt to God first. One-tenth, (the tithe) belongs to the Lord. — H. B. Dean.

## IT SAYS HERE:—

Old bankers never die, they just lose interest.

Mrs. Ben Causey spent the week-end in Odessa with her parents and relatives.

## Hot Weather Comes, Thermometers Soar, Clouds Pass By

Hot weather came to West Texas last week and set natives and visitors back on their heels with torrid temperatures. Local thermometers hovered in the 103 range for several days with no relief until the first of this week.

Many tourists who were traveling through this area complained of extremely hot weather up and down the road and many were having trouble with the cooling systems of their vehicles not operating with sufficient efficiency to permit mid-day travel.

Local citizens stayed in air-conditioned businesses and homes leaving the cool indoors only when necessary.

Clouds would assemble on the horizon late in the afternoons last week, but would disappear after dark leaving no relief in the form of moisture.

Sunday afternoon heavy clouds before dark brought hopes of possible moisture, but they quickly dissipated after dusk.

Monday morning dawned cloudy and continued hopefully cloudy all day with thunderheads in the distance and heavy small clouds blowing about local skies. Late Monday evening rain clouds were seen in the west and possible light showers fell in the north, but there was no rain locally or none reported in the county.

Tuesday also dawned cloudy with varied-sized billows of white puffiness seen in the skies, often blocking the direct sun's rays, with temperatures somewhat higher than on Monday. Much cooler temperatures were noted early Tuesday and Wednesday mornings.

Exceptionally heavy clouds early Wednesday morning showed the greatest promise of rain in recent weeks, but the sun quickly dispersed the clouds.

Weather men had predicted rain for this area on Monday and Tuesday, and 100 per cent failure of predictions were noticed.

## Orchid Cafe Plans July 1 Opening

The Orchid Cafe, owned and operated by Mrs. Tom Herring, will open July 1. It is the newest addition to the business of Sanderson and the newest building in the town.

Mrs. Herring stated that she will be open from 6 a.m. to 10 p.m. daily for the time being and plans to stay open all night as soon as suitable arrangements can be made.

The cafe will serve short orders and lunches and the operator will cater to private and club dinners and banquets.

Mrs. Herring has had several years of experience as a cafe operator, having been employed in a cafe for several months prior to operating the Best Cafe here for a time as a lessee.

Mrs. Herring invited all the citizens of the county and area to come by and look at her new cafe and stated that she would welcome the patronage of friends.

The building has two rooms for diners. One is on the east side of the building and is for club and private meals and will also handle overflow, if any, from the room which has a counter and stools, and booths. There is also a large kitchen, two store rooms and rest rooms for men and women.

The interior of the main room is a light orchid color, with the interior of the dining room being a lighter shade of orchid.

There is a vestibule-type entrance to the cafe and sliding doors separate the dining room from the main room.

The building will be air-conditioned and all the furniture and stainless-steel fixtures are new.

The booths and tables and chairs are white with black spots, as the upholstery on the stools and the counter-top finish.

## Hydro-Frac Process Hoped To Boost CPS Well Output

A hydro-frac process will be tried on a water well just completed by Community Public Service Co., in hopes that it will increase the output of the well. The process was completed Wednesday night.

The process was explained by Emmett Beauchamp, district manager of the company as follows:

The well, 482 feet total depth, was cased with 8 5/8-inch casing and cemented in. After the cement was drilled out of the casing an electric log of the well was run and from the log, it was ascertained that the water-bearing strata was found to be between 550 and 382 feet.

Arrangements were then made to have the casing perforated at 350-382 feet and 128 holes, approximately 1/2-inch in diameter were then shot through the casing and cement by the perforating gun.

"A company equipped to handle

## New V.F.W. Officers Meeting Sundays To Plan Year's Work

On Sunday, June 10, at 11 a.m., twenty members of the local Fierro-Garza Post of the Veterans of Foreign Wars met for the purpose of electing new officers.

Officers elected and taking their posts at this meeting were:

Jose Alvarez, commander; Alberto Escamilla, senior vice-commander; Felix Valles, junior vice-commander; Manuel Perez, trustee for 3-year term; Francisco Munoz, trustee for 2-year term; Julian Perez, trustee for 1-year term; Isabel Perez, chaplain; Jesus Trevino, service officer; and Susano Munoz, quartermaster.

Julian Perez is the retiring commander.

The new officers have announced that the members and eligible members are urged to meet each Sunday from 10 a.m. to 12 noon for the purpose of promoting more interest in the organization and to perfect plans for many worthwhile projects for the coming year.

## Masonic Officers To Be Installed After Joint Supper

Officers-elect of the Masonic Lodge of Sanderson will be installed following a supper Monday night with members of the Order of Eastern Star and families of the two organizations as invited guests. The supper will begin at 7:00.

Members of the Lodge will adjourn to the Lodge room for the installation services to be conducted by R. S. Wilkinson and Ruel Adams.

All members of the Masonic Lodge and O.E.S. and their families are invited to attend the supper and all local Masons are urged to attend the installation services.

## Carters Return Home

Mr. and Mrs. Clyde Carter and children, and his sister, Mrs. Henry Mansfield, returned home Wednesday after an extended visit to Clear Lake Park, Calif., with Mrs. Carter's mother, Mrs. J. W. Haynes, and brother, Bud Haynes, and family; a visit with another brother, Buster Haynes, and family in Phoenix, Ariz.; and with Mr. Carter's brother, Leslie Carter, and family in Blythe, Calif.

Mrs. Virginia Stegall was in Fort Stockton Monday for medical treatment. She was accompanied by Mrs. A. J. Ehm.

the hydro frac process was contacted and the work was completed in about two hours.

"By the use of hydraulic pumps capable of building up approximately 8,000-pounds-per-square-inch pressure, a soap-sand-gelatin was pumped into the casing and out of the perforations and into the cracks from whence the water comes. Sufficient pressure is built up inside the casing to crack the water-bearing strata to permit the entrance of the gelatin substance. A predetermined calculation determines the later depth of penetration of the sand into fissures or cracks, and in this case was figured to be approximately 32 feet of penetration. There will be 10,000 pounds of a special grade of sand used with 5,000 gallons of water that will be pumped into the fracture at 750 gallons per minute.

"When the pressure has fractured the formation and the sand has been pumped into the fractures, the pressure will be released, allowing the fractures to settle but will be bridged by the sand thus causing a definite crack or unimpeded flow of the water into the casing through the perforations.

"The hydro-frac process can increase the flow of a well many times," according to Beauchamp, "even up to 10 times and better." "We would be tickled to death with that kind of results," he added, "but we would settle for much less."

A submergible pump will be installed in the hole after prolonged tests determine the size pump needed for the potential of the well. But Beauchamp stated that the new water well will require a full week of testing after the well has been purified of all foreign matter and impurities, before the potential of the well would be known.

A submergible pump, according to Beauchamp, was the easiest and cheapest way to move a liquid and would operate with a definitely greater amount of efficiency for the needs of the utilities company.

The water-bearing strata of 350 feet to 382 feet is approximately the same level of the logged water-bearing strata of another well very near the latest drilling venture and is at a much higher level than the water-producing strata was thought to be.

## LOCAL STUDENTS GET SCHOLARSHIPS AT TEXAS

Thirty-one entering freshmen at the University of Texas next fall will receive \$150 scholarships from the Students' Memorial Scholarship Fund.

Scholarship winners are Carroll Eggleston and Stanley Sullivan.

The scholarships, for the 1956-57 school year, are awarded on the basis of need, scholastic ability, character and desire for a college education.

## Coming Events

Saturday— Garden Club luncheon.

Monday, June 25—Presbyterian Women of the Church; Altar Society, Methodist W.S.C.S.; Masonic installation of officers, supper for families of Masons.

Wednesday — Rotary Club, Bonhome Club

Thursday — Lions Club, Thursday Club

Mr. and Mrs. Carl Werneking with Carlene and Weldon spent Friday in San Antonio on business.

THE SANDERSON TIMES

Entered at Post Office in Sanderson, Texas, July 22, 1908, as second class mailing matter, under Act of Congress March 8, 1879. Published Every Thursday at Sanderson, Terrell County, Texas

L. H. and J. A. GILBREATH, Publishers - Editors

Subscription Rates (To be paid in advance) One Year - \$2.50 Six Months - \$1.50

By VERN SANFORD, Texas Press Association

Austin -- Next month, for the first time in 24 years, Texans will be asked to vote -- not only on men -- but directly on issues.

State Democratic Executive Committee members have approved the placing of three questions on the Primary ballot. Voters can express their desires for or against:

1. Legislation exempting a child from compulsory attendance at integrated schools.

2. Legislation "perfecting" the laws against intermarriage of Negroes and white, and:

3. Use of interposition to halt federal encroachment on states' rights.

Majority approval would presumably constitute a mandate for action by the next legislature.

Historically, such voter referendums seldom have been used. And not too successfully. Present procedures, still substantially unchanged, were set up with the passage of the Terrell Election Laws in 1907.

In nearly 50 years since then, referendums were held only three times. And failed to pass twice. In 1908 a prohibition proposal was voted down more than two-to-one. In 1919 the people rejected

three-to-one a proposal to call a constitutional convention.

But in 1932 Texans voted overwhelmingly in favor of repealing the federal prohibition amendment. A year later the legislature followed suit and ratified the repeal amendment.

This was the last referendum submitted until this year.

In other action the State Executive Committee certified a list of 31 candidates for statewide offices. It ignored a charge by Reuben Senterfitt that Price Daniel's name was ineligible to appear on the ballot because he had not resigned his U.S. Senate post.

Fort Worth was selected by the committee as the site for the Sept. 11 state convention. Principal business at that time will be naming new party officers and deciding on a general election platform for the Democratic gubernatorial nominee.

**GOP Chooses Corpus**

Texas Republicans will hold their August 28 state convention in Corpus Christi. GOP nominees for state office, presidential electors, a new state chairman and a general platform will be decided upon at that time.

Selection of the convention site was made at the party's state executive committee meeting in Austin.

Committee members sent President Dwight D. Eisenhower a telegram asserting their confidence that he will carry Texas and be re-elected in November.

**Redistricting Urged**

Demands that Texas congressional districts be realigned were heard at both political party meetings.

Texas was allotted an additional

Congressman after the 1950 census. Since the legislature has rejected redistricting bills for the past two sessions, the extra man is elected by the entire state.

Bill Elkins, candidate for congressman-at-large, told the Democratic executive committee the main plank in his platform is to have the office he seeks abolished.

Republican National Committeeman Jack Porter said the GOP legal committee might seek federal court action to force the legislature to redistrict.

"It's not fair to have the same representation from districts of 100,000 as you do from areas with more than a million," Porter said.

**Pearson Blamed Again**

In a report made public by the Insurance Commission, TVman Drew Pearson received the brunt of the blame for luring Texans into investing money in the now defunct US Trust and Guaranty Co. The report was based on answers to questionnaires sent draft purchasers by the state liquidator's office.

Questionnaires were answered by 3,608 purchasers. They represented investments of \$4,711,132. Nearly half of them charged Pearson with influencing them into buying. This because of his personal, oft-repeated statement that "You can put your trust in US Trust."

Because Pearson personally recommended the purchase, the TV broadcaster several months ago pledged to refund all "profits" made on his commercials. As of this writing the Insurance Commission's records do not reveal any such repayments by Pearson.

**Civil Immunity Denied Officials**

Public officials are not immune from civil liability for acts in connection with their duties. An Austin district judge so ruled in a case involving two former employees of the Insurance Commission.

Examiners Larry W. Blanchard and Robert R. Butler are among the more than 50 defendants in a \$6,890,000 damage suit. It was filed by the state liquidator against those allegedly responsible for the 1954 collapse of the

**TOM MILLER**  
AETNA LIFE INSURANCE COMPANY  
Del Rio - Sanderson

big General American Casualty Co. of San Antonio.

**Parr Trial Delay Expected**

Another 6-months delay seems likely before the trial of George K. Parr on income tax evasion charges takes place. Parr's plea to have the trial in Laredo, rather than in Austin, was rejected by the U. S. Supreme Court. U.S. attorneys promptly asked Judge Ben H. Rice of Austin for an early setting, preferably in July. But Parr's attorneys said they will file for a rehearing before the Supreme Court. Such action could keep the case from coming up before January of 1957.

Parr was first indicted in 1954. He is charged with filing false returns in 1949, 1950, and 1951, and failing to pay the government \$86,000.

**Short Soaks**

Soaring heat and lack of rain is withering Texas crops and pastures in all areas except the high plains, reports the U.S. Department of Agriculture. The high plains still are green after three consecutive weeks of showers.

May was one of the best contract award months in Texas construction history. The \$168,102,823 contracted in May brings the 1956 total to \$572,000,000. That is better than the record year of 1953.

**PERSONALS . . .**

Mr. and Mrs. B. E. Carr and Si left Saturday for Platonis where they will reside. The Sid Wood family is occupying the Farley rent house which they vacated.

Mr. and Mrs. C. N. Word and son, Clifton, Jr., of Odessa were week-end visitors here with the Gibbreaths. Mr. and Mrs. L. H. Gilbreath accompanied them Sunday to the Prude ranch north of Fort Davis where Clifton, Jr., will spend the week.

Mr. and Mrs. Jack Crawford of San Antonio were week-end

guests in the home of her uncle and aunt, Mr. and Mrs. Carlton White.

F. A. Weigand returned home last week from Enterprise, Ala., where he had taken his wife and son to spend several weeks with her parents and other relatives.

The members of a drilling crew who had been residing here for several weeks left last week for Fort Stockton. Those moving were Mr. and Mrs. A. L. Waggoner and children, who were in Mrs. Roy Harrell's apartment; Mr. and Mrs. E. B. Allen who were in the Bill Lea apartment; Mr. and Mrs. J. W. Gunter who were in the Robertson duplex.

Mr. and Mrs. A. C. Bricker, Jr., are occupying the Charlton rent

house vacated by Mrs. . . . They were in the Jack . . . house.

Mr. and Mrs. E. R. . . . to Odessa Saturday for . . . ceive medical treatment.

**Cadillac**

**Just Graduated... To a Cadillac!**

It's graduation time! And this happy gentleman—appropriately enough—has just gone through some important graduation exercises of his own. It was just a few minutes ago, in fact, that he stood in his dealer's showroom and accepted the keys to his first Cadillac car.

But even though he now holds his final degree, so to speak, in motor car ownership, his education in all the good things of motordom is only beginning.

Take performance, for instance. The car is so smooth and powerful, and so nimble and obedient that it automatically revises a man's standards of automotive performance.

Consider comfort. Rolling along the broadest boulevard or taking the roughest bylane, the car is incredibly smooth and level in ride.

And think about pride and satisfaction. What an extraordinary feeling it is to sit in command of the "car of cars"—and find yourself the subject of admiring glances on every hand.

Have you ever considered how wonderful it would be to "graduate" to Cadillac? If you have, then this is a marvelous time to make the move.

Certainly, it has never been easier to sign your name to the title. We are, happily, in a position to offer you prompt delivery on your favorite model—and we know you will be pleased to learn how practical Cadillac ownership has now become.

Why not stop in while the springtime is still with us—and spend an hour at the wheel? It's a wonderful season and a wonderful car—and a wonderful opportunity to enjoy them both!

**Mrs. John Reininger Hostess Wednesday At Bridge-Luncheon**

Mrs. John Reininger entertained the Wednesday Bridge Club in her home Wednesday, serving luncheon at one o'clock. In the bridge games which followed, Mrs. S. L. Stumberg held high score, Mrs. Herbert Brown, second high and Mrs. Bustin Cannon, low. Additional guests included Mesdames Mary Lou Kellar, Thurman White, James Kerr, Clyde Griffith, F. M. Wood, Jack Riggs, W. R. Stumberg, E. J. Hanson and R. S. Wilkinson.

**Birthday Party Saturday Honors Eleno Marquez**

Eleno Marquez was honored at a surprise birthday party Saturday evening in the home of Mrs. and Mrs. Santiago Zepeda with Mesdames Alicia Marquez and Amelia Zepeda as hostesses. After Eleno had opened his gifts for display, dancing was enjoyed until a late hour. Hot dogs, potato salad, marshmallows, and iced tea were served early in the evening and later the beautifully decorated birthday cake was served. About 50 guests were present. ... served from a table covered in a cloth of Mexican handwork. The bride is the daughter of Mr. and Mrs. G. G. Esqueda of Sanderson. She is a May graduate of the Sanderson High School. The bridegroom, son of Mrs. Rosaura L. de Garcia of Victoria, is a graduate of the Victoria High School and has served two years in the U.S. Army. He is employed by the T&NO railroad. Mrs. L. M. Wooten returned to Sanderson Sunday from Del Rio where she had spent two weeks with her mother, Mrs. Burk Rose, who had major surgery. She is reported to be recuperating satisfactorily.

Mr. and Mrs. J. B. Spivey and baby have moved to the Jack Laughlin apartment. He is a T&NO signalman.

Mr. and Mrs. Joe Hartzog are occupying the Newton apartment. He is a T&NO fireman, coming here from El Paso.

Mr. and Mrs. Bernie Kerr with Anne and John returned home Wednesday from a vacation trip to Corpus Christi, San Antonio, and the DeWees ranch at Floresville.

Mrs. W. T. Bondurant of San Antonio is spending several weeks at the ranch with her son, Jack Downie.

Mr. and Mrs. R. N. Allen of Comfort are visiting here with their sons, Bob and Don Allen, and their families.

Mr. and Mrs. Lee Kelly and his daughter, Mrs. Landingham, were business visitors in Alpine Wednesday.

Mr. and Mrs. Monte Goode and baby who have been residing in Houston, have moved to Sanderson and are occupying the Goode home. He is employed in the oil fields.

Mr. and Mrs. C. H. Brooks and family of San Angelo spent last week-end with his sister, Mrs. Bob Allen, and family. Their daughter, Jennie Brooks, who had been visiting here with her cousin, Ruthie Allen, for two weeks accompanied them home.

Gene Nelson has returned home from Fort Hood where he spent two weeks at the Army Reserve summer camp.

Mrs. Gene Nelson and Mrs. Charles Matney returned home last week from a visit with relatives in East and North Texas.

R. B. Mussey is recovering satisfactorily from major surgery in El Paso last week, according to word received by local relatives.

Mrs. M. L. Parker of Augusta, Ga., is visiting here with her husband and other relatives for a few weeks.

**Citizens Go To Sleep**

There are three very real factors challenging the very existence of our great American economic system with its freedoms, its incentives for individual advancement, its unmatched living standard, and its constant dynamic surge of progress. They are: (1) the natural lethargy of human nature, (2) a powerful, well-directed, world-wide Communist conspiracy to dominate the world, and (3) a powerful, well-financed effort to undermine the foundations of our freedom through infiltration of every segment and function of our American society.

The fact that lethargy is a human characteristic is found throughout the history of the human race. At no spot on the earth's surface has good government or a good economic structure been preserved for very many generations, through all human history. Greece lost her Democracy. Rome lost her Republic. The fall of these two world leaders of their day, one after the other, didn't come because either of them had fulfilled her mission. In each instance the fall came because human lethargy in time replaced the citizenship interest which had created a new kind, and better government than had existed in the past.

**The Dark Ages**  
Rome's fall ushered in the period known in history as the Dark Ages and the human race stagnated for nearly a thousand years. When we examine history we find the rise and fall of 19 different civilizations; and in each instance where the citizenry itself had a part in creating the mode of life, the apathy of the citizens led finally to the fall.

We in America are now six generations from George Washington and Patrick Henry, both of whom represented the height of citizen interest in a government providing individual freedom. Through the years we have lost much of our love of freedom. We are affected with much complacency. We are trusting that our children will just catch Americanism like they catch the mumps

and the measles. We're moving gradually toward bigger and bigger government with more and more dependence on central government.

**Big Government Growing**  
Government is already the biggest economic factor in our lives. The Federal Government, to which our local governments are more and more giving up responsibilities and powers, takes in and spends about one-fourth of all the money in circulation, one-fourth of all the wealth produced. The Federal Government is the biggest lender in America. We have private banks that have loaned throughout the history of our nation and these banks have played no small part in the development of our economy. But today the big lender is the Federal Government.

The Federal Government, of course, is greatly in debt. And yet Uncle Sam is lending money at a lower rate of interest in some cases than he borrows it. Yes, actually the Government is borrowing money at three per cent, in some cases, and turning around and lending it at two per cent. It's costing taxpayers generally \$200 million dollars a year to make up the difference and pay for the administration.

**Political Considerations**  
Still another factor in the big government lending agencies is the factor of politics, mismanagement and graft. Only a deep-seated citizen apathy would have con-

doned the gross incidents of graft, which occurred, for instance, in the RFC from 1945 to 1950 as exposed by a sub-committee of the Senate Banking and Currency Committee in the latter half of 1950. Millions upon millions were loaned to questionable enterprises through the influence of political hacks. Millions of taxpayers money were squandered. This kind of operation is charac-

teristic of government which has become too big. Personal freedom is being restricted in proportion to the growth of big government. It is a simple equation: what power the government has it must, of course, take from the people.

Harry Newton went to El Paso Wednesday for medical treatment.
