Survey Shows Surplus Antelope for '56 Hunt

Austin — Herd counts now underway indicate the antelope population West of the Pecos is sufficient to warrant an open season this fall, according to the Director of Wildlife Restoration for the Game and Fish Commission.

F. B. Uzzell of Alpine, wildlife biologist in charge of the aerial census scheduled for late June completion, reported to the Director that up to 500 buck antelope probably will be available for the proposed October harvest.

Whether the season will include surplus doe antelope will be determined by the commission when it acts on the fall hunting program at its July meeting.

Last year, hunters took less than one-half of the buck and doe antelope declared surplus West of the Pecos, said Uzzell. Permits were authorized for 1100 buck antelope and 250 doe antelope. The 590 persons obtaining the special licenses bagged 558 bucks and only 28 does.

After the hunting season failed to reduce the herds to the desired number, trapping crews moved in and transplanted approximately 600 head of antelope from ranches West of the Pecos.

Uzzell said 200 head were trapped from one ranch alone and that the current herd count showed this particular ranch still has surplus antelope which will be included in the proposed open season prospectus for this fall.

The Director of Wildlife Restoration said recommendations have not been made yet on the Panhandle where an open season on buck antelope is considered likely. Antelope license holders generally are determined through a drawing for applicants held in the Commissions Austin office. Permit holders are entitled to one antelope.

COW HALTS VACATION PLANS

Mr. and Mrs. D. E. Elrod and family were involved in a car accident Monday afternoon when their car struck a steer near the highway west of town on US 285. They were returning from Hobbs, N. M., where they had gone for their niece and nephews. Cinda, Jerry, and Russell Bentley, planning to take them to San Antonio for a week of sight-seeing.

Both of the animal's back legs were broken and it had to be killed. The radiator, grill and front of the car were extensively damaged so that the Elrods cancelled their vacation plans pending the completion of car repairs.

No one was injured in the accident.

Mrs. Tol Murrah was taken to Alpine Tuesday for medical treatment.

QUIET JULY 4TH OBSERVED HERE

A quiet July Fourth was observed in Sanderson Wednesday. There were no planned public activities for the day.

Most of the retail businesses were closed with cafes and filling stations remaining open to take care of the traveling public. The holiday was observed by the post-office and the bank.

No accidents or mishaps were reported to mar a quiet holiday observance for those who remained in Sanderson over the holiday.

Health Problem Seen in Hepatitis

Austin — Hepatitis has recently become a public health problem, declared Dr. Henry A. Holle, Commissioner of Health. It is an infectious disease that attacks the liver and is caused by a virus. The name means inflammation of the liver, and the disease is usually spread by personal contact. Overcrowding, poor personal hygiene may be contributing factors. It can also be spread in water, milk, and food.

There are two types of hepatitis caused by a virus and only man is susceptible. Formerly this disease was referred to as yellow jaundice or catarrhal jaundice. Now the most common variety is called infectious hepatitis and the other is serum hepatitis.

Dr. J. E. Peavy, director Division of Communicable Disease Control, says that probably the actual occurrence of the disease is much greater than the number of cases reported because of the many mild cases and the outstanding complaint, yellowing of the skin, does not always occur.

Infectious hepatitis has been known throughout the world for hundreds of years. Large numbers of troops in both world wars were infected. As a communicable disease among the general public, it has not until recently been considered a serious problem.

Infectious hepatitis was made a reportable disease in Texas in '52 when 265 cases were reported. The number of cases reported have shown a steady increase. Last year 1316 cases were reported and so far this year 620 cases. The number of deaths has been only a small percentage of the reported cases. There have been 126 deaths reported from hepatitis in the past four years.

Children are the most frequently attacked by this virus and usually have mild attacks. However, the illness can be severe in older persons. Infectious hepatitis is seldom fatal, but when death does occur, it is usually in persons over thirty years of age.

Personal hygiene and the sanitary disposal of sewage cannot be over-emphasized as preventive measures in the control of infectious hepatitis. Milk and water should be obtained from sources that are known to be tested frequently and careful attention should be paid to the storage of food.

VISITOR GAIN NOTED IN BIG BEND PARK

Supt. George Miller announced this week that 11,534 visitors had entered Big Bend National Park during the month of June, as compared with 11,064 for June of 1955. Travel for the first six months of 1956 totalled 37,976 visitors as compared with 36,904 during the same period last year.

The increase for June of this year over last year was 4 per cent and the yearly increase this year over the first six months of 1955 was 3 per cent.

Lions Club Officers Installed Thursday At Outdoor Meeting

RUEL ADAMS
New Lions Club prexy

Officers of the Lions Club for the year which began July 1 were installed at an outdoor meeting of that group last Thursday evening at the Key well west of town.

Fast officers of each of the elective posts installed the newly-elected officers in their offices. Deputy District Governor Matt Bader installed Gordon Harmon as Lion Tamer and J. A. Gilbreath as tall twister; Marion Pitson installed vice presidents Dudley Harrison Carlos Dunn and Harris; W. W. Sudduth installed directors Bernie Kerr and Greene Cooke; Ruel Adams installed Matt Bader as secretary and Marion Batson installed Adams as president of the club.

Norman Rath was the newly-elected president of the local organization prior to his resignation last week. He is moving his family to Elma to take over duties as principal of the high school there. The three vice-presidents were elevated and Harris was named 3rd vice president. He had been elected as Lion Tamer. Harmon was named to the post vacated by Harris.

The installation was held after a barbecued chicken supper with salad, beans, pickles, onions, and iced tea, with ice cream for dessert. Families of the Lions were guests.

A short musical program was given by five local boys who played guitars and sang. Adams has served the club as secretary since its organization. Batson is the retiring president.

Firemen Answer Call Early Thursday

The Sanderson Volunteer firemen received a call to extinguish a fire about 2:30 a.m. Thursday. The blaze was at Shaw, east of Dryden, and was a car of treated telephone poles.

The car had been put on a siding and prior to the arrival of the firemen, the car and contents had been completely demolished. Some of the poles had rolled off the car onto the main line and ties became ignited and the rail was a glowing red from the heat.

A car of water dispatched from Sanderson was used to finish extinguishing the blaze. Traffic was halted on the railroad because of the fire and damage.

FORTH'S VACATIONING

Mr. and Mrs. W. S. Forth left Saturday for Tatum, N. M., to visit with Rev. and Mrs. J. J. Spurlin and family. While away they will visit on the coast with relatives and friends, in Lufkin with Mr. and Mrs. I. B. Ruak, in Flatonia with Mr. and Mrs. E. E. Carr, and with other friends and relatives in San Antonio and La Cote.

Drouth Continues In West Texas

Hot, sultry and dry winds continue to blow over West Texas to worsen the drouth conditions that have existed in this area for many months.

Weather predictions that have given hopes for rain for several days have failed to come up to expectations and hopes and have not materialized for the predicted relief. Thunderheads have built up in the west and south almost daily this week, and some rain was reported to the south on Monday, but very little moisture has fallen in the county. There were also thunder showers at Emerson Monday afternoon.

Monday, Tuesday and Wednesday mornings dawned cloudy, but the sun soon dispersed all the overcast and revealed clear skies overhead the rest of the day.

Drouth Feed Okayed For 64 Counties

Terrell County was among 61 West Texas counties of 64 in the state which were named as approved for a new supply of emergency feed. The approval was by Secretary of Agriculture Ezra T. Benson.

The West Texas counties in the list are: Brewster, Coke, Concho, Crane, Crockett, Edwards, Gillespie, Howard, Irion, Kendall, Kerr, Kimble, Menard, Midland, Pecos, Presidio, Reagan, Real, Reeves, Runnels, Schleicher, Sterling, Sutton, Terrell, Tom Green, Upton, Uvalde, Val Verde, Ward, Webb and Winkler.

About one inch of rain was reported south of Sanderson on a part of the Tol Murrah ranch.

Seal Coat Applied On US90 To Mafeta From Sanderson

Seal coat work has been completed on US 90 east of Sanderson to Mafeta. The work was completed the first of the week.

The application of seal coat is the first repair work that has been done to this particular piece of highway since it was completed several years ago.

There is no further repair or construction job scheduled for this summer to highways of this area.

Seal coating was applied to 10 miles of US 285 from Fort Stockton south.

Braves Take 14-4 Game Here Sunday

Last Sunday afternoon the Sanderson Braves topped the Del Rio Athletics with a loose score of 14-4.

Roenche tossed the entire game which was marked with errors and walks from the first inning. Penn and Stutes caught for the Braves.

Roenche gave up 13 free passes while the locals had only eight walks. In the meantime, Roenche struck out 14 of the Del Rio boys in the nine innings.

The Braves will play in Barstow Sunday.

S-Sgt. Joe Wolff is visiting here with his parents, Mr. and Mrs. Joe Wolff. He is a member of a flight interceptor squadron and will leave the last of the week for his station in Alaska. He will be discharged in the Spring and plans to continue his studies for a law degree.

Politicians are waving their banners. Party leaders seek to rally their cohorts. But right now Texans are far more concerned about water.

Farm and city dwellers alike are hard hit. Years of drought have added up. Sizzling summer temperatures, unabated since the last of May, have finished off crop prospects for 1956 in many areas.

Few expect relief before the end of summer. Most despaired some time ago of rains that would "really break" the drought.

In Austin and elsewhere attention focused on the often-bitter scrambles for dwindling streamflows. Prolonged and frequently heated testimony has been heard by the State Board of Water Engineers on water rights from the Canyon Dam in South Central Texas.

San Antonio sought permission to take 100,000 acre feet of water annually from the dam. It is the only way, said San Antonio officials, that the city can meet its future water needs.

Guadalupe Blanco River Authority strenuously opposed the request. Joined by citizens of some 20 small towns in the area GBRA contended that the city al-

location would not leave enough for downstream users, nor enough to operate a hydro-electric plant.

Testimony is expected to continue for several weeks. Ultimate decision probably will set a precedent for future controversies.

Farther south, the Rio Grande reached its lowest point since it stopped flowing completely in 1953. Falcon Dam was shut down and a watermaster was appointed to ration the dwindling supply among Valley cities.

Legislators making up the state water resources committee came out with an idea for the future. They proposed a \$100,000,000 Texas Water Development Fund. Controversy over whether a finance water conservation by a 4 valorem or water-use tax defeated the program last session.

This new approach of financing through bonds would by-pass the difficulty, said proponents. But it would take a long time. First, legislative action; then a constitutional amendment by the people.

Meanwhile farmers are leaving their parched fields and looking for work in town to support their families.

Labor Unions Are Active

Members of Texas' labor unions are working hard to place Liberals in control of state and party offices. And, a politically confident tone prevailed among some 1,000 delegates at the State Federation of Labor convention here.

Union labor leaders, who played a mighty important role inousting the conservatives from control of the Democratic party, have openly announced that they will campaign to: 1. Elect Ralph Yarborough governor; 2. Elect legislators friendly to labor; 3. De-

feat Lt. Gov. Ben Ramsey; 4. Gain control of the state Democratic convention in September; and 5. Elect liberals to the State Democratic Executive Committee.

Labor Law Decision Pending

Texas' right to work law now awaits state Supreme Court ruling, possibly July 11.

Opponents and backers of the law clashed sharply in final arguments before the court. Union attorneys declared that the Texas case parallels a Nebraska suit in which the U. S. Supreme Court recently voided the state's right-to-work law in the railway industry. Railroad attorneys objected strenuously. They declared the Texas case presents much broader issues.

Said Atty. Gen. John Ben Shepherd, in behalf of the Texas law: "The issues before this court is the right of any Texas citizen to work in his chosen occupation without being forced to give allegiance to any organization which might be against his personal beliefs."

New Highway Policy

An important new step in state policy has been announced by the Texas Highway Commission, for administering the new Federal highway aid program.

If and when the state provides it more money, the commission will begin to assume part of the heavy cost of right-of-way — now borne wholly by cities and counties. This for highways of the primary state system not included in the new federal interstate system.

Capitol Area to be Doubled

Plans for a vastly expanded, 25-square block Capitol area have been unveiled by the State Building Commission.

Originally the commission had outlined plans for extending the grounds northward two full blocks to 15th street. This would provide space for the new office building and state courts building, due to be started sometime next fall.

In adopting the official Capitol master plan, the commission designated future Capitol area all the way to 19th street and pinpointed locations of two more future office buildings.

Local Option Election Voided

A local option liquor election is not legal if held in an area less than an entire justice precinct.

By this ruling the Third Court

of Civil Appeals made "wet" a large section of Austin which had been "dry" for 21 years. It cast doubt on similarly held elections over the state.

The decision is subject to review by the Supreme Court.

Retail Sales Up Again

By early June Texas retail trade had bounced back from its spring slump. But it failed to match the 1955 average. Sales rose 11 per cent from April to May. Durable goods were up 12 per cent. But for the year as a whole, they are still substantially behind. Reason given by analysts is overproduction and over-selling by many auto, mobile and appliance makers last year.

Short Shorts

State recovery of veterans' and funds was increased to \$1,299,418 after an Austin district court rendered a judgment for \$4,000 against J. Paul Little of Crystal City. Little has been loser in four suits totaling \$179,000. Two more are pending.

Texas' share of federal highway building funds, will be tripled by the new aid bill which has just received final congressional approval.

by the people of their states. Congress determines the policy of federal agencies and the matters the Supreme Court can consider and could start the machinery to submit the same question of interposition resolution in a Constitutional Amendment.

But remember, regardless of how you vote on the three questions, the vote, in itself, means nothing whatsoever in directly okaying anything except your favoring action on the matters.

legislation to prevent federal law from superseding state laws.

Trial of Francisco Saenz, Jr., former Duval County treasurer, on federal income tax evasion charges was postponed by the U. S. Court at Austin to July 9.

An all-time high bid for mineral leases on state land was received by the University of Texas when Stanolind Oil Co. bid a bonus of \$4,250,000 on 3,840 acres of Pecos County land. This was in addition to royalty. Total bonus payments on University leases at the June awards reached \$16,437,254.

happy vacations begin in a Chevy

You'll love to travel in it, because it loves to travel! When you get this Chevrolet out on the road, you'll want to keep going—and so will the whole family.

Of course, even in a Chevrolet the happiest vacations may involve one or two minor problems. Like fidgety small fry who want gallons of water and keep asking if you're almost there. The big things, though, are beautifully taken care of by this roomy Chevrolet's smooth and easy way of going. That's for sure.

The fact is, few cars at any price hold the road with Chevy's grace, with its solid feeling of stability. And with horsepower up to 225, Chevrolet moves out like a whiplash, for safer passing. It's no wonder that so many people who used to buy higher priced cars are changing to Chevrolet! Stop by soon for a ride.

TIME FOR ALERTNESS

The citizens of this nation perhaps could better afford to be lethargic and apathetic concerning the safeguarding of our governmental and economic system were it not for the fact that a world-wide menace has now grown to such proportions that it threatens our very existence. This evil force is world Communism. An apathetic attitude toward it could bring about the utter destruction of all that Christian civilization holds to be worthwhile and decent. In fact, to be safe, we must mobilize the thinking and the intelligent action of the entire American population.

The world-wide Communist conspiracy is aiming at world domination. The threat is so great that our government — itself slow to recognize the true nature of Communism — now is spending about \$35 billion a year on a defense establishment geared to resist Communist military aggression when (and if) it comes. There are other measurements of the Communist threat.

Growth Not Stopped

In 1945 the Communists controlled only 10 per cent of the world's population. Today they control more than 40 per cent. During the past 12 years the Communist International conspiracy has been taking over the territory of the world at the rate of 1,000 square miles a day — and the free world has yet to take back a single square mile of conquered territory. They may well control 60 per cent of the population of the world within three to five years.

When you study a map of the world, and are acquainted with

the facts of Communist infiltration and Communist power in the various nations outside the Iron Curtain, you can readily see that the chances for still greater expansion of the Red empire are bright indeed — for the Kremlin Red bosses in Moscow. At least a dozen nations are in extreme jeopardy of falling into the grip of the Communist masters.

Finally the U.S.A.

Their timetable calls for the conquest of Asia first, then Africa, then Europe, and the American hemisphere. They are just as confident that they're going to succeed in taking it all over as they are that the sun will keep rising in the East. The present peace front is just a part of the Red's global strategy. To their millions of conspirators throughout of the free world they reported not long ago that soon they would develop a new propaganda "peace offensive" that would make previous ones look timid. And that is what they're doing.

Just last week I talked with Dr. Nicholas Nyaradi, who was Finance Minister in the Hungarian Cabinet when the Reds swept down into Hungary at the end of World War II with glowing promises of "cooperation." He remained Hungarian Finance Minister making frequent trips to the Kremlin, until he found out the true nature of Stalin and his crew. Just a few weeks before the Communists clamped down on Hungary and took over, killing all who resisted. Dr. Nyaradi escaped. He ultimately found his way to America. For the past several years he has been chairman of the Department of Economics at Bradley University.

Red Strategy

"The present so-called turn-about on Stalin," he said, "and all the other peace-like activities are merely strategic moves on the part of the Communist bosses calculated for one purpose alone — to lull the free nations to sleep again with the thought that the Com-

'The Rose Tatoo' Coming Sunday

The mark of greatness that lies unmistakably on a motion picture blazes threefold on "The Rose Tatoo", opening Sunday at the Princess Theatre.

This is the story of a woman who retreated from the world to live in the past with the enshrined ashes and memory of her husband, until fate forced her out into the glare of truth and brought her the strangest courtship a woman ever knew.

Anna Magnani, one of the world's supreme actresses, portrays the very widow who once knew the greatest love, who demanded in the name of that love an incredible purity from her daughter, but left the back door

open to her husband's wild successor. Her performance has been called "award-winning" by some of the nation's most respected publications and critics. Cast in the role of the lusty sailor whose violently unusual wooing brought life, love and warm laughter to Miss Magnani's prisoned heart is Burt Lancaster in his most powerful, off-beat performance.
