NUMBER 34

Youths Reminded Of Registration For Draft Call

Col. Morris S. Schwartz, state Selective Service director, reminds young men that the draft law requires them to register with the nearest draft board the day they are 18, or within five days thereafter. Since the present law was enacted in 1948, all males born since August 30, 1922, have had and now have a legal obligation to register, except those not yet 18. Those who fail to register as required, upon prosecution and conviction, are subject to fine up to \$10,000, or five years in prison or both. No one is drafted under age 22, except volunteers and delinquents, but the law obligates all males to register at 18. He warned young fathers they must advise their boards about children or an expected child. If a local board is not advised about the birth or expected birth of a child, the board "naturally proceeds on the idea such a registrant is childless and he is ordered for service."

Discount Offered Early Tax Payers

Payment of county and state taxes during the month of October will earn a 3 per cent discount, according to information released this week by Lee Billings, tax assessor-collector. The discounts for the early payment of taxes are an inducement to property owners of the county to pay their taxes early so that there will not be a load of administrative and book work in the office during the last month that taxes are payable without penalty. There will be a 2 per cent discount allowed for taxes paid in November, and a 1 per cent discount for taxes paid in December. All taxes are due and payable in January and unpaid taxes after January 31 are delinquent taxes. There is no discount on the poll taxes. Tax statements were in the mail the first of the week and all property owners should have their notices within the next few days.

Stolen Car Is Recovered Here

Local officers apprehended a car here the first of the week and investigation revealed that it had been stolen in Miami Beach, Fla. The two youths driving the car, one 16 and one 19, were held for investigation. According to arresting officers, the car belonged to the mother of one of the boys and they had also stolen the courtesy card of the grandfather of one of the boys. The owner of the car asked that the car be held and that no charges be preferred against the youths. They were released following the telephone conversation with the boy's mother.

"We are only asking for the money to continue training the ter prepared in body, skills and youth of our community to be better citizens as they grow into manhood."

Each of the three backfielders scored one of the extra points and Trinidad Lozano scored the other point after. The Juniors were beaten in their season opener against Fort Stockton in that city by a 30-0 score. Thirty boys are out for the Junior team and competition is keen for playing positions among the Eaglets.

EAGLES, MUSTANGS FIGHT TO 0-0 TIE; LOCAL PLAYERS REST THIS FRIDAY

The Sanderson Eagles and the San Felipe Mustangs battled to a 0-0 tie on the local gridiron last Friday night in a game that gave last-minute thrills to spectators. Time on the clock ran out just before the beginning of a play on

the 1-yard line by the Mustangs which might have put them in the win column.

Both teams worked up threats for the opposition, but neither had the punch necessary to put the ball over the line that counts.

Sanderson made a threat when Irvin Robbins intercepted a pass and scampered to near the 10-yard line before being hauled in. San Felipe completed a pass which put them on the 5 yard line with first and goal to go in the first half, and again in the second half they were on the 4-yard line following a completet pass.

Sanderson, operating from the T formation, kept hammering at the Mustang defenses behind the blocking of the line, but were unable to put the ball carriers out in the open because of the strong defense.

The Mustangs worked from a T formation in the first half and relied on the services of their tail-back Blanks for most of their gain, and periodically used a reverse and pitch-out to give the big back a respite. They switched to a single wing in the second half and ate up yardage with the powerful blocking possible by that type of play. It was a new experience for most of the Eagles and the offense worked well for the Mustangs until they got within scoring range.

Sanderson made 8 first downs to 12 for San Felipe. Eagles passed four times and completed two and had one intercepted. The Mustangs passed five times, completed two and had 3 intercepted.

The Eagles were penalized twice for 20 yards and San Felipe was penalized 4 times for 40 yards.

Coaches Carlton Smith and Gordon Harmon have been working with the boys in routine practice sessions this week despite the fact that they will have a night off Friday with an open date scheduled.

The Eagles will play Ozona in that city next week and Big Lake will be here for the next game scheduled for October 19.

The visitors for the month totaled 9600 as compared with 6,424 during September of last year, an increase of 3,176 or 49 per cent. For the first nine months of 1956, 75,608 visitors entered the park; during the comparable period in 1955 only 67,036 visitors were recorded. This is an increase of 8,572 persons thus far in 1956.

Ty Harrell was the name given to the second child and son born to Mr. and Mrs. Douglas Smith of Marathon Friday evening in an Alpine hospital. His birth weight was seven pounds and 13 ounces. Mrs. Smith and infant were taken to the home of her mother, Mrs. Eva Harrell, in Dryden Sunday night. Mrs. Roy Harrell is the maternal great-grandmother of the new arrival.

Austin - Campaigning in Texas is in high gear.

First to open statewide campaign headquarters were Texas Democrats for Eisenhower. In charges is Weldon Hart, longtime aide to Gov. Allan Shivers.

A few days later Warren Woodward, Houston attorney, moved to the capital city to set up the Stevenson-Kefauver camp.

Says Hart, "Our campaign is backed by Texas Democrats who supported Eisenhower in 1952 and who can see no reason to change."

First of a series of ads in behalf of Ike appear in all Texas newspapers this week. Stevenson ads will follow as Woodward's program begins to unfold.

Meanwhile candidates for the vacated Senatorial post of Price Daniel are jockeying for position. But none has made what could be called a statewide plea for support.

Daniel is finally "in" as Democratic nominee for governor. But procedure for naming a new U.S. Senator still is as muddled as ever. He resigned his senate seat effective Jan. 15, "or sooner if a successor is elected."

When this can be done and how, hinges on (1) when the governor calls a special election; and (2) whether the State Democratic Executive Committee decides to try to hold party primaries before the special election.

Meanwhile Governor Shivers is on a bear hunt in Kodiak, Alaska, with two of his sons.

Jobs for Handicapped

Texas employers put more handicapped persons on jobs last year than ever before - 24,445. Applications increased, however, from 6,727 to 14,604.

Laurence R. Melton, chairman of the Texas Committee for Employment of the Physically Handicapped, announced the figures.

Gov. Allan Shivers presented merit awards to three employers for their consistent hiring of handicapped persons. These were Sears Roebuck, Hammond Laundry and Machinery Co. of Waco, and Howard Aero Inc. of San Antonio.

Earl Brown, Jr. of Abilene, was designated the handicapped person of the year. A special award went to Adolph L. Stein, Jr. Kelly AFB Standby Reservists Polled

Questionnaires are being mailed to all standby reservists but there is no cause for alarm. Morris S. Schwartz, state selective service

director, says it's just for inventory.

Standby reservists cannot be called to service unless an emergency is declared by the Congress, he said.

Based on information in his questionnaire, each standby reservist will be placed in one of three categories: I-R, deferred because of civilian occupation essential to maintenance of national health, safety or interest; or III-R, deferred by reason of extreme hardship of dependents.

Segregation Laws Proposed Legislation designed to circumvent the school integration ruling has been proposed by the governor's advisory committee.

Bases of the plan: (1) local boards could not desegregate a school unless so directed by a vote in the district; (2) liberal consideration would be given requests of parents wishing to avoid sending a child to an integrated school and (3) persons trying to force integration would be liable to prosecution.

Governor Shivers said he would use the report in making recommendations to the next legislature.

Roughage Program Suspended

It took drought-hurt Texas farmers and ranchers only about two weeks to swamp the million dollar federal aid program for roughage.

U.S. Department of Agriculture has ordered that no more ap-

plications be approved while it makes a "careful appraisal" of demands. Under the program, originally designed to run to Jan. 1, farmers in drought disaster areas were to receive certificates good for \$7.50 per ton for purchase of roughage for cattle.

College Enrollments Soar

Texas college campuses are overflowing again, even more than in post-war days.

Many schools report record enrollments. Some expected totals, after latecomers straggle in: University of Houston 13,500; Texas Tech 8,000; Texas A&M 7,400; Texas Christian University, Southern Methodist University, and Baylor, about 5,400 each.

At least one school, Texas Western at El Paso, was having to curtail its curriculum because of teacher shortage.

State Building Hits New High

An estimated all-time high of \$27,600,000 will be spent on new state buildings in the fiscal year just begun.

More than half of this, or \$14,000,000 will be used in Austin. A whopping \$6,000,000 will be poured into the new state office and courts buildings for which sites now are being cleared. Another million will be used to repair and air condition the Capitol building; \$2,000,000 for state schools; and \$2,000,000 for state hospitals.

Of the remaining \$13,400,000 to be spent over the state, \$10,000,000 will go for armories and \$3,400,000 for state hospitals at Abilene, San Antonio, Wichita Falls, Gainesville, and Waco.

Securities Panel Named

Eight men have been named to take another look at the perennial hot potato - securities regulation.

They will study the effectiveness of two laws passed by the last legislature. One revised the state securities act which is administered by the Secretary of State. Another created the Insurance Securities Division huddled by the Insurance Commission. Likely they also will discuss the long-debated issue of whether the two securities regulating divisions should be combined.

School Experiments Studied

Ways to get "more for the money" out of Texas' school system are being sought.

A statewide advisory committee of educators and lay citizens has just launched a six-month study of ways to make most effective use of school properties and personnel.

Ideas being considered: (1) a 10-month school year; (2) a longer school day with staggered schedules; (3) more use of college students to assist teachers and (4) more multi-purpose rooms in the school.

Short Snorts

San Antonio civic leaders were disappointed to learn state law forbids their finding more auspicious housings in the Alamo City for state historical documents currently stored in a Quonset hut in Austin. Documents recently were moved from the Capitol building to make room for an electric computer.

Latest tips for keeping tabs on eight million Texans will be given

out by the State Health Department at a Dec. 6-7 conference on vital statistics. Registration officials will study problems arising from birth and death certificates and other statistical records.

Texas' November draft call is for 858 men, largest quota since December 1955, according to State Selective Service headquarters.

All state banks have been called upon by the State Banking Department to make a statement of condition as of Sept. 26.

H. H. Coffield of Rockdale is the new chairman of the Texas Prison Board. Fred Shields of San Antonio now is vice chairman of the board and Dr. George Beto of Austin is secretary.

Incidence of polio during the past year was 10 times greater among children without Salk shots

careful of camp fires and cigarettes. A budget of \$50,000 has been set up by the Texas Foundation promoting the states attack beginning January 1.

Prison authorities will ask the legislature for \$8,825,000 for new buildings and improvements.

Gov. Allan Shivers has warned of increased forest fire hazard; in the East Texas drought areas. He urged hunters to be particularly

Ike Better Democrat Than Adlai, Says Supporter

A bunch of us were standing around talking the other day, and the talk got around to politics like it usually does. Some of the boys said they'd voted for Ike in '52 and were going to do it again; some of them said they'd always voted the Democratic ticket straight and always expected to—you know how it goes around a little Texas town.

One fellow said something that made the rest of us stop and think. He said he was a Democrat, sure—always had been, and his father and grandfather before him. And he always felt like he had to vote for the best Democrat in the race, which he was going to do this year.

"And that means," he said, "that I'll have to cast my vote for Ike Eisenhower. He's a better Democrat, by my definition of a Democrat, than that other fellow ever will be."

And besides that, he said, Ike kept his promises to Texas and Texas ought to return the favor by keeping Ike.

You know, he might have had something there. "Gratitude" is one of the greatest words in the English language, and we all like to think of ourselves as being grateful when people do something for us. Like I heard a man say one time: "Texans are people who never forget anything that is done TO them—or FOR them." That's the way we think of ourselves, and it's about right.

This Eisenhower man pointed out that Ike promised to give the Tidelands back to Texas, and he kept that promise; he promised to do his best to close out Mr. Truman's war in Korea, and he kept

that promise, and he promised to give us a government in Washington that we could be proud of, because it was clean and honest and efficient—and, in this man's opinion, he had kept that promise. "I know you're reading and hearing a lot of stuff to the contrary," he told us, "coming from Brother Stevenson and Brother Kefauver and the rest of the politicians on the other side. That's politics for you. Everybody expects them to jump on Ike every way they can, and I guess they'll keep on doing it right up to Nov. 6. But the American people are smarter than some politicians give them credit for being, and before they vote they're going to sit down and ask themselves this question:

"Remembering 1952, when our boys were dying in Korea and the newspapers were full of talk about mink coats and Communists and corruption in Washington—now, be honest about it: If you could, would you go back to 1952 and start over with Adlai Stevenson instead of Dwight D. Eisenhower?"

This man said he wouldn't, and come to think of it, I wouldn't either. As a matter of fact, I think Ike has made us one of the best presidents we ever had. If we had to go to war, I'd certainly rather have him at the head of our government than any other living American. But even more importantly—I'm convinced he is the best man to keep us OUT of war.

That's why I still like Ike—better than ever!

Yours truly, Tex

county. We hope that the rumors are true.

Drilling interest has been increasing locally for the past several months and it could mean a lot to this area.

Recently we made a trip to the Pecos River Bridge site and found a beautiful piece of work under construction. The approaches to the bridge are far better than we had been able to visualize from the plans of the construction. The new bridge will be a thing of beauty as well as an asset to the traveling public. Tourist traffic out this way on Highway 90 will certainly be stepped up by the improvement being done there. As we talk to the traveling public from day to day we hear from almost everyone that they have found 90 to be one of the best highways they have traveled anywhere in the U.S.

SCIENCE IN YOUR LIFE

Telltale Rash

What causes the skin to betray in hives, blotches, eczema and other ways—a strong feeling? Doctors are not all in accord on the answer. Some say emotional stress causes allergic sensitivity. But many psychiatrists caution against thinking of a physical symptom as the direct result of a state of mind.

Subtle and intricate biochemical changes occur, they say, before the skin registers stress. Many things may provoke a rash, just as many ills cause a fever.

When anxiety mounts too high, says Dr. Richard L. Jenkins of the Veterans Administration, it impedes our abilities and contributes to illness and suffering. Dr. Jenkins thinks it is not the doctor's duty to abolish anxiety, but to help the sufferer control it.

Recent studies indicate that a new "peace of mind" drug called Atarax does just that. Dr. Harry Robinson, of the University of Maryland School of Medicine reports that the drug helped most of the 159 patients he treated for a variety of skin ailments "in which emotional tension was considered to be a factor."

Many specialists share the view that the skin, like the hands or voice, is an organ of expression. A British dermatologist, Dr. Robert Warin, says young children with eczema are "high strung." In such cases, he often prescribes for the mother as well. Her ruffled nerves, frequently aggravated by loss of sleep, may kindle family tension, he says, and thereby worsen the baby's rash.
