**Teachers Urging Support Of Amendment Four**

Texans will vote on November 6 on a proposition which could make the state's teacher retirement plan more attractive and induce more recruits into a key profession that is starving for personnel.

The following arguments have been set forth in favor of the proposed amendment:

"The present teacher retirement program was enacted in 1937 when dollars bought much more than they do today.

"The current system limits contributions to 5 per cent of \$3,600 salary — \$180 per year. "This results in monthly retirement checks as pitifully low as \$35 to \$38 for former teachers who served children and school long and well.

"The constitutional amendment Texans will find on their ballots in November — Amendment No. 4 — would raise the maximum retirement contribution of teachers to 6 per cent of salary or \$504 annually.

"This would make possible a minimum retirement payment of \$100 per month for teachers re-

tiring at 60 years of age after 30 years of service.

"Texas must hold the teachers in the profession or recruit 28,000 teachers to replace those who leave their jobs for other fields. By 1960, 350,000 additional children will be enrolled in Texas' public schools. Fifteen thousand new teachers will be needed.

"Amendment No. 4 to the Texas constitution will recruit additional teachers, hold teachers in service, bring up to date the 1937 retirement program enacted during the depression, permit teachers to contribute more to improve their own retirement program.

"The amendment will also provide disability, death and survivors benefits comparable to those available in strongly competing industry and governmental service, provide reciprocity to attract out-of-state teachers and furnish sound efficient administration.

"Aimed at promoting the welfare of Texas school children, Amendment No. 4 deserves the active support of all citizens.

The teachers of the local system have put bumper signs on cars, put up placards and stickers in the promotion campaign and the Texas State Teachers Association has bought bill-board space on a bill board east of town urging the support of the proposed amendment.

From where I sit... by Joe Marsh

**Barnyard "WHOOdonit"**

The Barn Owl Controversy still rages in our town. One group claims owls should be protected because they eat vermin. The other faction holds that those little howlers also eat chickens... and should be shot.

Now Pops Parker claims both parties are right. All owls clean up vermin. Some owls also clean out an occasional hen yard.

The way to spot a bad owl, according to Pops, is to put up a 10-foot pole in the chicken run with a No. 2 trap on it. A mauling bird generally perches to

look over the situation before he strikes, giving you your evidence, and the culprit!

From where I sit, I doubt if this will end the owl argument. People have different opinions on the subject—just as they have different opinions about whether beer, tea or what-have-you makes the best thirst quencher. Examine the facts and make up your own mind, I say... and be thankful we live where that's possible.

**Here! New Task-Force 57 Chevrolet Trucks!**

**Performance-proved in a history-making test on the ALCAN Highway to Alaska**

The Alcan Highway is the road where trucks grow old before their time. The road where gravel endlessly sledgehammers the life out of trucks. Where a fog of superfine dust chokes engines, and vicious ruts subject chassis to months of wear in a few hundred miles.

Six new '57 Chevrolet trucks, representing light-, medium- and heavy-duty models and heavily loaded with cargo, roared north from Dawson Creek, B. C., through 1,520 miles of mountains and mire, rain and hail to Fairbanks, Alaska. Running around the clock, they made this tortuous trip—normally a 72-hour run—in less than 45 hours. The fleet made normal stops along the way, and maintained safe and legal speeds. As a special test during the run, two of the trucks went the entire distance without once having their engines stopped!

It's all down in the AAA record book. And more besides! Never before has a new truck been so thoroughly proved. Come in and see how well these new Alcan champs measure up to your job.

**Alcan fleet gets up to 18.17 miles per gallon!** That's the mileage reported by the Cameo Carrier, with Thriftmaster 6 and extra-cost Overdrive.

**All the way in DRIVE range!** This Powermatic-equipped 10000 Series tractor traveled the entire Alcan Highway in a single forward-speed range!

**FIRST WITH THE MOST MODERN FEATURES!**

New 283-cubic-inch Taskmaster V8 delivers 160 high-torque horsepower. Standard in Series 5000, 7000 and 8000, optional in Series 6000 at extra cost. Horsepower ranges up to 210 in Chevrolet's complete line-up of modern V8 and 6 truck engines.

Revolutionary Powermatic Transmission — exclusive with Chevrolet trucks! This six-speed automatic, designed specifically for heavy-duty hauling, is an extra-cost option in Series 5000 and 6000 and all heavy-duty truck models. Hydra-Matic is offered in 3000 and 4000 Series models at extra cost.

New 1957 work-styling gives Chevrolet trucks an even fresher, fleetier appearance. There are three different and distinctive styling treatments.

L.C.F. models outdate the C.O.E. because they're lower, handsomer, easier to get into and out of, and save time in routine engine maintenance. Yet they offer all the traditional C.O.E. advantages.

Heavyweight Champs with Triple-Torque tandem are rated at 32,000 lbs. GVW, 50,000 lbs. GCW. And Chevrolet's advanced tandem axle unit offers a built-in three-speed power divider—plus a unique "self-steering" action that reduces tire wear and increases handling ease.

## Texans Find Ike Stands For Same Things We Do

A fellow was in our town the other day selling men's suits. He was from St. Louis, and he said he was a manufacturer's representative. Grandpa would have called him a dry goods drummer, and Papa would have referred to him as a traveling salesman. This shows you how things change with time. But actually that fellow from St. Louis was doing just about what the earlier visitors did—trying to sell suits.

You might say that he stayed in the same place but the names went off and left him. Reminded me some of the political situation in Texas.

I was reading a letter in the daily newspaper last week, from a man who said he was going to vote for Eisenhower. "I am a Democrat," he wrote to the editor of the paper, "but I feel like the party has run off and left me."

Come to think of it, a lot of conservative-type Texas Democrats are in that shape today. They haven't changed their views much on such things as local control, government spending, bur- saocratic red tape, and freedom of the individual; they still travel down the same road they did 20 or 30 years ago, even if they do it at 70 miles an hour instead of 25.

They grew up believing that a man could live down nearly any-

thing except voting for a Repub- lican. They always voted "er straight, until a good many of them jumped over the traces in '52 and went for Ike.

"I can't figure out what's hap- pened," one of them told me. "Seems like Eisenhower talks like a Democrat and Stevenson talks like a college professor."

The other day this same fellow said: "I think I've got it figured out. Ike stands for the things us Texas Democrats have always stood for. Adlai is too thick with Walter Reuther and that crowd to suit me. I'm going for Ike again."

That's the way with most folks in our town. They decided to give Ike a try at it in '52, and they like the way he has gone about the job. There are some things they wished he'd done a little dif- ferent, but by and large they think he has made us a fine Pres- ident. At least all the hometown boys are back from Korea, and as far as we can tell the government is being run honestly.

Somebody asked that Missouri suit salesman how Mr. Truman was getting along, and he said he didn't know. "He isn't in the clothing business any more," he explained. "In fact, as far as I can tell, he is clear out of all kinds of business."

Yours Truly,  
Tex
