LISTEN TO LUKE

People get all messed up when they start worrying about a recession.

I have read and heard much and varied "political softsoap", as the old Tammany group used to call it. That simply means that everything good is for our side and everything bad is for the other side.

U.S. Senator Hubert Humphrey of Minnesota, in a speech in Dallas recently, did a good job of gathering the Republicans in general and Mr. Eisenhower in particular.

All our troubles abroad are due to the Republicans, and all our worries at home are because of the Republicans. Of course, the lib-tongued liberal could have said those things and then gone back to his soft-cushioned seat in the Senate, but he chose to continue in his speech to the Dallas AFL-CIO leaders:

Democrats must key their party to the "fighting spirit" of Andrew Jackson, the international vision of Woodrow Wilson, the humanitarian concern of Franklin Roosevelt, the independence of mind and toughness of character of Harry Truman, and the intellectual quality of Adlai Stevenson.

We used two names here we promised never to print again, but we had to quote directly.

Republicans, of course, could fill two or three pages of this paper with a reply that Democrats wouldn't like.

The humanitarian concern of D.R. raised the national debt from \$15-billion to \$50 billion without curing the depression. He was also humanitarian in that historians blame him for permitting the sneak attack on Pearl Harbor, thus drawing us in a jobal "wawh". He was also humanitarian in giving Joe Stalin all of Eastern Europe which is the cause of all our foreign difficulties today.

The independence of mind of I.S.T. fired Gen. McArthur who wanted to prevent 144,000 casualties in Korea and stop Communist aggression in its tracks; that same independence of mind refused to recognize corruption in his own administration and stuck by State Department policies that entrenched Communism in the Far East.

Of course, we recognized that this kind of "soft soap" on either side of the political fence is simply political propaganda, but we must solve our difficulties by getting down to brass tacks and facing the situation in a sane manner. Let's not be fooled by the political blame-placing and the beating around the bush plans for solving of our economic and political problems.

This week our distinguished Senator Johnson made a long-suffered appeal for the Congress to do something about the claim on the outer space. It seems to this column that we have more outer space than we know what to do with. All this ballyhoo being done for only one reason and why can't intelligent people of the nation read the answer?

We are in an unemployment recession at present — we have been in that situation before. There is no use yelling about it and trying to blame it on any individual or group. This writer has his own opinions about the cause, but that opinion will not remedy the situation.

Rainfall Here Monday Night Near 1-4 Inch

About 35-inch of moisture fell locally Tuesday night to aid the possibility of good range conditions in this area for spring and summer.

The rain began falling about 10 p.m. Monday and fell intermittently until about 5 a.m. Tuesday.

Heavy clouds hung over this area Tuesday morning with occasional traces of moisture during the morning.

Checks made Tuesday morning revealed the following: E. E. Harkins, Jr., east of Sanderson, 4; W. G. Downie, north of Sanderson, 4; S. L. Stumberg, west of town, 3; Will J. Murrah, south and west, 5; Sid Harkins, south and west, 5; Sid Harkins, south and west, 5; Sid Harkins, south and west, 5.

G. K. Mitchell reported 4 to 5 on his place in north Terrell County.

Reg Monroe reported only 1-inch at his ranch in eastern Terrell County.

Temperatures have been near freezing for several nights recently, and warmer in the daytime. Sunday was balmy all day with clear skies.

The temperature dropped Sunday night and has continued cold since.

There is some question whether or not fruit trees have been stripped of potential bearing due to the cold weather. Some of the blossoms have turned black and other nearby trees have continued to be adorned with pretty and unblemished blossoms.

Lawns of the town are beginning to green, heralding the coming of warm weather.

A heavy fog rolled in Tuesday night and Wednesday dawned foggy with a light mist falling.

The temperature Wednesday morning was in the mid-30s, but about noon the sun broke the overcast and the temperature had raised considerably.

The fog Wednesday covered a large area and added moisture to the already-wet ground, further aiding conditions for area ranchmen.

Don Little was selected alternate and will attend in the event young Bader cannot go to the state meet.

Boys attending the conclave are given first-hand training in all affairs of state government and are selected for various state offices, or duties in one of the governing or electoral bodies.

Local Deposits Up Since January

If the deposits in the Sanderson State Bank are any indication of local business trends, Terrell County apparently is not gripped by a recession as has been the case reported in some parts of the country.

Figures announced in response to a call for a statement of condition of the local bank as of March 4, by the U. S. Comptroller of the Treasury and the State Banking Commission, showed deposits up from the previous call of January 1, 1958. In January, all deposits totalled \$1,581,934.95, and in March all deposits were \$1,663,843.34, a total gain of \$81,908.39.

Loans and discounts were also up from January. They were \$310,353.66 in January and \$321,633.66 in March.

Large Crowd Attends Legion Auxiliary's Supper and Dance

A large crowd attended the Mexican supper and dance sponsored by the Legion Auxiliary on Saturday evening.

The supper was served in the Legion Hall beginning at 7:30.

Due to the large crowd present for the old-fashioned dance slated for 9 o'clock, the dance was moved to the V.F.W. Hall with music provided by an old-fashioned fiddle band.

Those in old-fashioned costumes formed a grand march and prizes, home-made cakes, were presented to Mrs. Monte Goode and Ray Hodgkins for the oldest costumes.

Prizes were awarded to couples for being the best dancers in several old-fashioned dances.

The couples winning the prizes in the old-fashioned dancing were: Put your Little Foot, Mr. and Mrs. Charlie Gregory; waltz, Mr. and Mrs. Willie Banner; Cotton-eyed Joe, Mr. and Mrs. L. G. Hinkle; Schottisch, Ernest Haass and Mrs. W. S. Forth.

Mrs. Winnie Magill, president, expressed the thanks of the members of the Auxiliary to everyone who contributed in any way to the success of the affair with special mention made of the volunteer musicians and Don Smith.

Death of Visitor To Big Bend Park Said Self-Inflicted

The victim was 40 years old. Ratliff was found in the seat of his 1949 Chevrolet with a shotgun pointed toward the body. The time of death was not ascertained.

The body was found by an employee of a construction company working in the park and was in the campground area at Santa Helena Canyon.

Ratliff had been in the park since the latter part of February and had been in the Santa Helena Canyon campground area since March 6, prior to his death.

Chief Park Ranger Fitch headed the inquest. The jury was composed of Gordon Finney, Mr. and Mrs. John McKee, and Laurie G. Miller.

A brother in Oklahoma City was notified of the death.

Personal effects revealed that Ratliff had been in ill health for some time prior to his death.

The body was taken to Alpine to await instructions from relatives of the deceased.

Rig Spuds In On B-B No. 2

Western Natural Gas Co. and Magnolia Petroleum Co. No. 2 Brown-Bassett spudded in this week on their new location in section 216 of Block Y in eastern Terrell County. The location is about 1 3/8 miles southeast of the Brown-Bassett No. 1, confirmed potential gas producer in the Silurian and Ellenburger.

The rig was skidded to the new site without being dismantled.

It was learned that the operator planned to use compressed air for drilling to about 600 feet and would use natural gas from gas wells in the vicinity for further drilling. The gas line used to furnish gas for drilling of their No. 1 well was skidded to the new site also.

Last report from the Richardson and Bass No. 1 Goode well was that operator was below 8,000 feet in sidetracked hole.

1958 Wet Year, With No Run-Off

Although the total rainfall for March to date is only 45, March of 1958 has been the wettest of the same month in any recent years.

On March 1 there was moisture totalling 10 and the total for Monday night was 35, according to the rain gauge at the Kerr Mercantile Co.

All of the moisture for this total has come in fogs, drizzles, and mists, with only light showers bringing the heaviest precipitation.

The vigorous growth of the locs, crop of weeds about town is evidence of more of the same on rangelands although the hunger of range animals does not permit such a lush growth.

There have been only light losses of lambs and kids and freshly-shorn goats in this area during the cool damp weather for the winter weather which has prevailed continuously almost since the first of November has been comparatively mild.

H. G. Cates On School Ballot

The name of H. G. Cates, T&NO brakeman, has been authorized placed on the ballot for the election of a trustee for Terrell County Common School District No. 1, according to information received this week.

Cates is seeking the post now held by A. J. Hahn whose term expires this year and who is also seeking re-election.

WWI Vets Honored At Legion Meeting

All World War I veterans who are members of the Clarence Halley Mulkey Post No. 160 of the American Legion were honored guests at the regular meeting of the post here last Thursday night.

Certificates of merit for the continuance of the Legion and the untiring efforts in behalf of the veterans were given the older members by Post Commander Monte Goode.

The commander expressed appreciation for the loyalty shown by the members who were in the first world war and for the many hard fights they had endured to keep the Legion intact and an active force for the enactment of laws intended to benefit ex-service men who served in the more recent conflicts.

The meeting was well attended by veterans of both world wars as well as of the Korean conflict.

cluding railroad labor organization members, the mayor of El Paso, and a newspaper publisher there.

A request by the opposition to allow more time or re-open the hearings at a later date to produce further information as to the railroad's cost accounting, was denied by the examiner, Cecil Boulden, on the grounds that he had no authority to grant additional time.

Transcript of the hearing in El Paso and the hearing last month in San Antonio will be made and presented to the Railroad Commission for their consideration prior to an opinion or decision.

Everyone is cordially invited to attend all of the services during the week.

Two supercharged issues—taxation and recession—like two strands of high-voltage electric fence, seem to be twined through every area of Texas government.

Recession, though considered mild and temporary, is here and now. New taxation, in the light of official estimates, will be practically unavoidable next year.

Even though the recession is labeled "minor" and new state taxes the inevitable result of explosive growth, having both issues come up at the same time makes each seem worse. New tax talk, never popular, is even less so with people feeling the chill wind of a cut in income.

Barring an unexpected swift upturn in the economy, the twin issues will break through the middle of next summer's political campaigns. It'll be particularly rough on campaigning for the candidates who have to get on one side or the other of the taxation fence.

Some legislative candidates are already being asked, "If there has to be a new tax, what kind will you vote for?" Some say that they haven't decided what they would vote for, but will say what they would vote against. Others say they're making no decision until after the State Tax Study Commission completes its report.

Latest report by the Tax Study Commission shows some of the possible directions in which Texas may have to get additional tax money.

It notes that, besides Texas, only two other states are without either a general sales tax, personal income tax or corporation income tax.

Texans in 1956 paid lower state and local taxes than the average for other states—\$129.50 per capita for Texas compared with \$157.50 per capita national average.

Rate of tax increase for Texas has been much faster than U.S. average. Texas rate of increase from 1953-56 was 23.4 per cent, national average, 19.4 per cent.

Commission's next report will deal with future spending needs, says Sen. William S. Fly, chairman.

Unemployment Up Again
Texas Employment Commission reports claims for unemployment compensation at a new high.

There had been a slight drop for the previous week. But latest weekly tabulations showed TEC paid out \$1,435,448, compared to \$696,464 for the same week a year ago. Number of persons filing claims was 82,576, almost double the 42,705 who filed a year ago.

Even so, most recent nationwide figures show Texas to be a highly favored area. Labor Department's Bureau of Employment Security says that Texas has the lowest rates of unemployment of insured workers of any state in the nation—3.6 per cent here compared to 7.9 nationally.

On Plus Side
Other business barometers tend to bolster the view that Texas' economy is weathering the squally weather well.

First 1958 reports from the Bureau of Business Research on overall business activity showed the January index up eight per cent from December, one per cent from January, 1957.

Texas Banking Commission's spring call for condition of Texas banks brought reports of hefty increases in money on deposit. Some cities showed drops in the bank deposits, but in general they were up with some cities setting records or near records. BBR's report notes that "although evidence of recession is plain, the strength of the state's economy is shown by its stubborn resistance to further decline."

A small increase in building activity in early 1958 may be the

forerunner of a general revival of the home building industry this year, says BBR.

On the state's No. 1 economic headache—sagging oil production—a BBR spokesman says competition of cheap foreign oil could "flatten out" Texas' growth curve. Suggested antidote: bring in other industries with strong growth potential to "fill in the gap."

Governor to Battle Imports
Gov. Price Daniel has asked Washington to reduce oil imports.

He has presented evidence gathered by the state oil imports study commission on how Texas economy is hurt by cutbacks in oil production. Governors of other oil-producing states have joined him in asking that imports be limited to the 1954 level.

Though many economists predict that the problem of foreign oil is here to stay, Texas officials hope to gain at least enough relief to get the stymied domestic industry going again.

Juvenile Immunity Cited
A proposal to allow criminal court trials of teen-agers who commit serious crimes may come before the next legislature.

Dr. James A. Truman, director of the Texas Youth Council, suggested a study in this area at the joint Austin meetings of the Attorney General's Law Enforcement Conference and Texas Law Enforcement Foundation.

Turman said he felt that in some cases "chronic and serious" juvenile offenders were being over-protected by the law at the expense of society. Under present law boys under 17 and girls under 18 cannot be tried in criminal court. One "serious offender," related Truman, told officers, "You can't touch me. I'm a juvenile."

Not so in Canada, said a visiting speaker from the Royal Canadian Mounted Police. Canada has no minimum age for sending offenders to the penitentiary, reported the Mountie, and "we are not troubled by many murders and rapes by youngsters."

Health Drive On
Gov. Daniel has joined a young father from Baird, Bob Stanley, in urging Texans to participate in the fight against nephrosis and other critical kidney diseases that claim thousands of lives a year.

Stanley, who has lost two children to nephrosis, visited Daniel recently and won his support in the campaign to organize additional chapters of the National Nephrosis Foundation in Texas. The Foundation now has chapters in El Paso, San Antonio, but victims of nephrosis, nephritis and allied kidney diseases, are found in all parts of the state.

Gov. Daniel designated March as Nephrosis Month and urged Texans to give financial support to research studies to determine the causes and seek cures for diseases of the kidney.

Anti-Accident Study
A brand new commission is at work to find ways to prevent needless deaths of industrial workers.

It is the Industrial and Occupational Safety Study Commission set up by the last Legislature. Former Civil Appeals Judge Mallory B. Blair of Austin is the chairman.

Game Increases West of the Pecos

All major game species in the Trans-Pecos area of Texas with the exception of antelope showed some population increase during 1957, according to figures released by the Game and Fish Commission. Kills reported by hunters during the 1957 open season, however, were not as heavy as for some other years.

Biologists working in the area West of the Pecos made their determination from cruise lines and from deer pellet group counts. It was found that herds of deer in the Trans-Pecos showed good increases.

There was no apparent increase in the antelope herds, as indicated by counts made from automobile and airplanes. Collared pecary showed not only an increase in population but an extension of range.

The black bear population level is very low and these animals are restricted to isolated and heavily wooded regions. They are seen only on occasion.

Sealed quail in the Trans-Pecos area showed a 79 per cent increase over 1956 as reflected by census line checks.

Drough conditions poor land use were blamed for the decreases noted in game animals in previous years, according to the biologists.

Ample early season moisture set the state for improved breeding conditions to increase the population of most all game animals in this area, it was stated.

CAR SEARCHED FOR DOPE AFTER ARREST HERE

Local officers, aided by Dalton Hogg, local auto body repairman, made a thorough search of an automobile here Monday night after receiving word from Del Rio officers that the car or occupants might be carrying dope.

One of the occupants of the car was said to be an ex-convict from Houston who had entered Mexico at Laredo and driven to Ciudad Acuna where he crossed the river to the United States.

A thorough search of the car failed to reveal any illegal contraband and the car and occupants were released.

THREE JAILED AFTER BOXCAR FIRE LAST WEEK

Three men who were on a freight train through here last week were jailed following trial in JP court. They were accused of train riding.

The three men were in a box car and one of them set fire to the car in efforts to keep warm.

The blaze was extinguished by local firemen in the yards here. SP's Special Agent Hinkle Boyd arrested the three men and filed charges in the justice court.

Mr. and Mrs. John Q. Adams and son, Johnny, of Sierra Blanca, were week-end visitors here with his mother, Mrs. C. A. Adams, and other relatives.

Measles Prevalent Here

There seems to be no let-up in the prevalence of measles in Sanderson. The commonly called "red measles" and the three-day measles seem to continue to spread with each other in the number of victims among adults as well as children.

Several cases of chickenpox have been reported joining the ranks of communicable diseases usually common to children.

Mrs. H. C. Goldwire returned home Tuesday from San Antonio and Big Lake where she had done dental work in San Angelo. Clyde Higgins accompanied her on the trip.

Listen to Luke

(Continued from Page 1) try to see why. So far, there has been no appreciable lay-off employment. It is true the road, in its efforts to cut expenses everywhere, has put several men out of work—mostly by the use of 150-car trains, and abolishing jobs. In simply plain English, if we want to keep a recession from hurting us here we will have to wear out the soles of our shoes instead of the seat of our pants. We should exert more effort trying to satisfy our customers instead of trying to sell our customers what we have in stock. More midnight oil and elbow grease to make up for time wasted under artificial light in daytime drinking coffee. Is much of a gain.
