LISTEN TO LUKE

It seems there is a great deal of politicking by both Democrats and Republicans all over the country. Many writers have made all kinds of predictions as to the trend of the coming campaign. We feel that we are about as well qualified to predict the results of the fall elections as almost anybody, and we admit that any guess is as good as the next.

In the Dallas area there is every indication that Bruce Alger a Republican, will return to the office of Congressman.

The trend is to elect a man for his worth rather than to adhere to straight party lines. There are those in both major parties who are a disgrace to the party and who do disservice to the country. Recently our junior Senator spoke to a CIO-AFL meeting in Texas and, while telling the delegates to that convention that Price Daniel was everything but a gentleman and everything but an honest public servant, still insisted that the group should go down the line and vote for him as Governor. It is not that Mr. Yarborough is so true to his party — for he stated that since the convention votes of Texas are based on the vote for Governor it was necessary that all the votes possible go to Daniel in order that Texas would have a larger vote in the Democratic convention.

In other words vote for a rascal if need be, so that one's own personal political ambitions might be helped. Does that look like good citizenship? If Mr. Daniel is the kind of man Mr. Yarborough says he is, then his name should be scratched in spite of party loyalty. Don't let that kind of "Democrat" fool you.

People who "holier" the louder about party loyalty, usually hide behind such an excuse to do some of the things that they do and an excuse you can hide behind has to be bigger than you.

Some "Democrats" use the party or the name only to their own advantage and forget many times the principles upon which the party tries to stand.

Support of the nominee sometimes depends upon who the nominee supports.

There is one thing this column would like to advocate above everything else. Vote Tuesday!

A true expression of the people can only be had when all eligible voters go to the polls and express their wishes.

We will be happy when the election is over and we can get down to business of importance — that is the business of trying to gain to unify the citizens of the town and county into a common cause of progressive and worthwhile endeavors toward a common good.

People have their feelings hurt in elections and enemies are made, families even split at times — and always two camps cleanly divided. People who stand for one thing in some cases, will turn around on the same issue in another case. Inconsistency of supposedly sound-thinking people is astounding at times, especially as concerns reasoning.

The readers will never know how hard it has been for us to sit down at the typewriter and write this column without blazng the

2-In. Rain and Cold Over This Area

A cold norther blew in Saturday about noon and temperatures continued dropping during the week with mid-40s reported Tuesday night and expected prolonged cold weather predicted.

Heavy fog and light mist were noted Sunday night, with mists

and fog all day Monday and light showers and mist all night Monday and all day Tuesday.

Local gauge readings by W. E. Grigsby showed 26-inch for the 24-hour period ending at 8 Tuesday morning.

The ground continues to soak

up the moisture as fast as it falls with no run-off noted. The ground is still soggy from recent rains.

There was no forecast for freezing temperatures here this week but some motorists were taking precautions with car cooling systems, and all householders were lighting furnaces and getting out space heaters.

Local rainfall during the 24-hour period ending Wednesday at 8 a.m. was 73-inch. The total for the month of October to date is 2.15 inches, the highest for October since 1949, according to Grigsby.

Rainfall has been general over the area, with possibly heavier precipitation to the west, according to reports. Ice and snow were reported in the Marathon-Alpine-Fort Davis area Wednesday morning.

The thermometer Tuesday night dropped to the near-40 level. Wednesday rain and heavy overcasts prevailed all day.

Silurian Production At Conoco B-B 1 Indicated

A second Silurian gas producer was indicated in the prolific multipay gas area in Terrell County.

The second Fusselman of the Silurian gas producer and a two-mile northwest extension to that pay has been indicated in the Brown-Bassett (Silurian and Ellenburger) gas field of Terrell with the flowing of gas on a drill-stem test at Continental Oil Co. No. 1 Brown-Bassett, in section 227 of Block Y TCRR Survey.

Gas surfaced in seven minutes and flowed at the estimated rate

of 9.515,000 cubic feet daily on the two-hour test between 12,490-654 feet. No fluid was recovered. Flowing pressure was 2,360-2,140 pounds; one-hour shut-in pressure was 6,000 pounds.

The project, scheduled for 16,000 feet to test the Ellenburger, was drilling below 12,672 feet in lime.

Last week it was reported that the Magnolia Petroleum Co. No. 1 Bassett-Goode, on section 227 of Block Y had some gas show in an unidentified strata. This was later substantiated to be the Wolfcamp and the test was between 9,200-285. No gauges were used and operator recovered 3,000 feet gas-cut mud on a straddle-packer drillstem test.

Tool was open 5½ minutes and the packer failed in four minutes, and gas surfaced in five minutes. Operator was drilling below 9,453 on scheduled depth of 14,800 feet.

Wolfcamp production was indicated earlier on this project where gas blew at the rate of 6,850,000 cubic feet daily while drilling at 9,215 feet.

The Magnolia No. 2 Banner had Wolfcamp gas indicated production at 5,127 feet when gas blew at the daily rate of 4,290,000 cubic feet. The project on section 30, Block 161, GC&SF Survey, is scheduled to go to the Ellenburger.

Assessor-Collector Job Created By School Board Here

In a called meeting of the Board of Trustees of the Terrell County Independent School District on October 28, the Board passed an order creating the office of Tax Assessor-Collector for the Independent School District and providing for the appointment of a Board of Equalization for the District.

Taxes for the 1959-60 school term will be collected by the School Tax Assessor-Collector instead of the County Assessor-Collector as is being done at the present time.

The new Tax Office will be established January 1, 1959, in order that the school district will be in a position to assess and collect the 1959 taxes. A location for the tax office has not yet been established.

No one has been employed for the position of Tax Assessor-Collector up to this time. The person employed to assess and collect taxes will also serve as bookkeeper for all other school funds of the district. Applications for the position are now being accepted by Supt. Matt Bader.

In establishing the tax office the Board feels that a progressive step has been taken toward providing better school facilities for the children of the district. It has been pointed out that the school district has been paying the county for assessing and collecting school taxes in the past at the rate of 2 per cent of the collections. The money being paid the county at the present for assessing and collecting school taxes will help to defray the expenses for operating the school tax office, Mr. Bader explained.

will also have an opportunity to express an opinion on approval or disapproval on nine proposed constitutional amendments, all of which are printed in abbreviated form on the bottom of the ballot.

Voters must scratch out all the candidates or party columns that are not their choice, and scratch out the "For" or "Against" beside each proposed amendment which is not their choice, thus leaving unmarked the party column or candidates for which they wish to vote.

In the write-in contest, the name of the candidate of the voter's choice must be written in under the name of the office which is the last printed office title in the extreme right-hand corner.

Justices of the Peace are to be elected in each precinct this year for a four-year term.

Election judges have the responsibility of assisting any voter to mark his ballot according to the way he wants to vote and any person who is not sure of the manner of voting should seek aid from one of the election judges.

TB ASSOCIATION SEEKS DONATIONS IN STAMP SALE

Letters from the Terrell County Tuberculosis and Health Association will be put in the mail soon, seeking contributions from the sale of Christmas Seals.

Mrs. M. W. Duncan, president of the local Association, had this to say concerning the current drive for funds:

"Eventual control of tuberculosis depends upon whether we can prevent 55,000,000 Americans now infected with the TB germs from breaking down into active disease. The current tuberculosis picture in the nation shows that 69,000 new active cases were reported during the past year and nearly 14,000 deaths — more than from all other infectious diseases combined.

"It was also learned that there are 1,750,000 people living today who have had tuberculosis and need medical supervision to prevent relapses."

Mrs. Duncan added that the report showed that tuberculosis was today most often found among persons admitted to general hospitals, those in correctional and mental institutions, inmates of jails, in nursing and welfare homes.

Early case finding is the most vital factor in control programs it was learned, and modern treatment and facilities are resulting in more and quicker recoveries.

Mrs. Duncan asked the cooperation of all local citizens in raising funds through the Christmas Seal Sale which will go toward scientific research in prevention and eradication of the disease.

Austin - As Texas "Battle of the Budget" roars on toward its 1959 climax, almost every week brings a new statement on the probable size of the state deficit.

State Comptroller Robert S. Calvert and Legislative Budget Director Vernon A. McGee combined to present a frankly pessimistic picture for the Texas Research League in Austin.

McGee said the general revenue fund will need \$279,000,000 during the next two years to keep things going as they are.

Calvert estimated that the present tax structure would put \$125,000,000 into general revenue during this period.

This leaves a gap of \$154,000,000 between estimated income and outgo. In addition, Calvert estimates the general revenue fund will be \$55,600,000 in arrears by the end of the present fiscal year in August, 1959.

Research League is composed of several hundred leaders in Texas business and professions whose private contributions support research in the interest of governmental efficiency.

Gov. Price Daniel took a "we can lick this thing" attitude in a press conference on taxes.

Daniel said he felt the deficit could be erased and new revenue needs met without a general sales tax or income tax.

Daniel also indicated that he was not fully convinced that the gap between income and needs would be as large as the \$154,000,000 mentioned by the comptroller.

He would not definitely say now, said the governor, that he would or would not veto sales or income tax bills, if passed by the Legislature.

Daniel praised state agencies who reduced their budget requests a total of \$1,490,631. Overall, the budget requests had run \$272,000,000 higher than for the present biennium.

Hospital Spending Axed Possibility of more drastic cutting loomed when the Legislative Budget Board voted to reject some of the appropriations being sought by the State Hospital System.

It voted to lop \$8,000,000 off the system's requested operating fund and disapprove spending \$3,500,000 for a new mental hospital on the Gulf Coast.

Budget Board recommended a slight increase in money for the Texas Youth Council. But it voiced a "thumbs down" attitude toward setting up a state-supported paid parole system for juvenile delinquents.

Legislative Budget Board is made up of 5 members from the House and 5 from the Senate who, with staff assistance, screen appropriations requests in advance and make recommendations to the Legislature.

Budget Board also is giving attention to drawing up a bill setting up a salary schedule for the state employees.

Its purpose would be to guarantee "like pay for like work" throughout state departments.

Public school and college teachers and persons in executive positions would not be included.

Budget Board members commented that in some departments a person doing stenographic work may be called an "administrative assistant" and get much more money than a person doing stenographic work in another department.

New laws and institutions to deal more forcefully with Texas' soaring crime rate may be a major topic for the next Legislature.

County and district attorneys meeting in Austin were asked by Governor Daniel to help in the job of strengthening and plugging the loopholes in Texas' law enforcement structure.

Too often, said the governor, criminals escape punishment through hairline technicalities in the laws. He also urged (1) state paid parole supervisors for juveniles, (2) a second boys training school to separate serious offenders from those for whom there is more hope, and (3) more strict narcotics laws.

Texas Democratic Party leaders said National Chairman Paul Butler is deliberately destroying party unity efforts by stirring up integration issue.

Butler's statement: "There will be no compromise on the integration problem. The people of the South who are not deeply dedicated to the philosophy of the Democratic Party will have to go their own way."

U.S. Senator Ralph Yarborough is urging Texas liberal Democrats not to scratch Gov. Price Daniel's name on the general election ballot regardless of how they may feel about him.

Sen. Yarborough warned delegates to the State AFY-CIO convention that each precinct gets one delegate vote for each 25 votes cast for the party's gubernatorial nominee.

If you scratch the governor's name, said Yarborough, who has been at odds with Daniel for years, "you'll be cutting off your nose to spite your face."

fire out of some happenings, sayings, things, and such. But we have kept our words under control for what we thought was the best in order to not be accused of taking unfair advantage of an issue.

We have tried to prevent such criticism and let the race for justice of the peace run itself with the people finding out many truths for themselves.

Realize your own obligations to your community and vote Tuesday.

Vandalism has been reported to us this week and some means should be taken to curb it.

It was reported that some bicycles at the band hall have been stripped of parts in recent days, and still worse, some of the windows at the Girl Scout Hut have been broken. Some of the glass indicates that air guns were used on some windows and others appear to have been broken by rocks.

Youngsters who nightly patrol the streets foot-loose and fancy-free could be some of the cause. It's a bad situation and parents should try to prevent recurrences, if possible.

Mrs. Roy Bogusch and Mrs. Jack Turner attended the district P-TA workshop in Odessa last Thursday. The theme of the workshop was "A Wheel of Life" which pertained to leadership training.

FOR SALE — Used portable typewriter. Good condition. At The Times.

We have several good books that should be especially appealing to the adults — historical publications with beautiful illustrations — "The Revolution" and "Profile of America", "The Power of Positive Thinking", "A Man Called Peter", and other books of religious nature; cook books; books of etiquette; books of devotions for youths and adults; storybooks with pictures to be read to children; lots of books which small children can read. A Message To Precinct 1 Voters

To the eligible voters I have not seen and talked to, and to all of those I have contacted, I take this opportunity to ask sincerely for your vote Tuesday for Justice of the Peace of Precinct 1, in the write-in column.

I have tried to get around to eligible voters of this precinct, but realize that it is almost an impossible task to see all of you personally and ask for your support. I take this means to do that now.

I have tried to conduct my write-in campaign in the same manner I have conducted the duties of the office — open doors, on top of the table, impartially, honestly, and justly. If you will re-elect me to that office, I pledge to continue my efforts in the light of the same ideals.

I have an extreme devotion to those principles and would be pleased to serve the people of this precinct in that capacity.

I would urge you to vote Tuesday for the candidate of your choice and would appreciate your consideration in my behalf.
