SANDERSON, TEXAS, FRIDAY, JUNE 3, 1960

NUMBER 17

LISTEN TO LUKE

New businesses and new houses and new people continue to add to the development and growth of Sanderson and Terrell County. One sees many new faces around town and it's difficult to keep up with the introductions to new people.

But it's good to try and helpful, too.

The new business just opened in Sanderson is the Oasis Cafe on the west side of town. It is an addition to the town and we congratulate them on the nice appearance of the business.

There are many houses going up — that is, there are many for Sanderson, and they will be nice additions to the town when completed.

People employed in the construction of the carbon dioxide extraction plant in the eastern part of the county are moving in to Sanderson and thus the cause of the many new faces we see daily.

The people of the town, the business men and the ministers of the churches have a welcoming job to do in making these newcomers feel at home during their stay here.

The Old Spanish Trail group in Sanderson has fallen into line backing that organization and other towns along the transcontinental road help out proportionately, some results can be expected from that source.

The travel trade means a lot to the many towns along the road and every effort should be exerted to get and keep the travel booming over this route.

Leaders of the Association are leading local merchants to push such things as the Big Bend National Park and Judge Roy Bean's Saloon to tourists as they are contacted so that these tourists may know about the places of interest in this area. The word spreads from one visitor to another about places and things along the road and it is a snowballing thing.

Such interest displayed by local business men will be reflected directly up and down the highway.

It is something that those who are primarily concerned have to do for themselves. Take an interest and keep an interest in tourist trade. It is the lifeblood for so many.

National politics are taking the forefront of the news recently in the light of the coming conventions. Many issues are yet to be decided and many decisions concerning candidates and their political parties are yet unmade. We think that the two-party system of government in Texas will continue to grow until there is definitely a strong Republican party that must be considered by anyone seeking office, on a state level, at least.

The divisions in the ranks of the two parties now will have to be closed by some means.

Rains continue to fall in some parts of this area, but Sanderson and other parts of the county are in the dry end of the stick. We don't raise any lambs here in Sanderson that are entirely dependent on the growing of weeds, grass, lawns, and shrubs and the benefits of rain water. We are glad for those who are bringing moisture. We know that we need it and it will be most beneficial to the best interests of our ranchmen.

Mr. and Mrs. E. J. Gimble have returned to the Caldwell rent house owned by Dr. and Mrs. C. H. Johnson who have moved to the brick home constructed by Hurling.

Mum's the Word by Harold Kelley

Had a rattle in my car the other day. It started wearing on me and became as annoying as a handgnall before I got it fixed. Noise is often that way. Irritating. Those of you with more than one kid in the family know it. (And most of you with one kid know it, too.) Some scientists say that the many noises of modern living are one of the reasons why tranquilizer pills are so popular.

And, as if you didn't know, that brings me to the subject of furnaces and air conditioners. They just gotta be quiet! That type of equipment is often installed right next to living rooms, bedrooms or recreation rooms. And, if the furnace or air conditioner is noisy, it tends to rob you of the relaxing comfort you expect it to provide.

Believe me, I was thrilled when I first heard the Lennox Landmark in operation. Lennox was more quiet than most before. Landmark. But now, you've really got to bend an ear to hear it. And that is whether the Landmark is gas, oil, air conditioning, or a combination.

That's just no idle talk to fill up this space. It's a fact. I invite you to come in to Harold Kelley Air Conditioning Co. at 607 E. Gibbs St. in Del Rio and find out for yourself. Or ask a Landmark owner. There are many reasons for this quietness, and we can show them to you. But the main thing is the result: quietness. Man, is it quiet!
