SANDERSON, TEXAS, FRIDAY, JULY 29, 1960

NUMBER 25

LISTEN TO LUKE

Terrell County continues to be up high on the list of interest in oil and gas circles over the country. Another producer was indicated in the Turk well being drilled by Shell Oil Co. and Freeport Oil Co.

The gas-distillate producer just over the Terrell County line in Pecos County also adds hopes to prospective drilling in this county.

There are some 15 miles separating the Turk well and the well in Pecos County, which one might easily interpret as 15 potential gas producers in that line north and south alone. There are also east and west limitations to the possibilities which have not yet been established.

This increased production in the county is most beneficial in many ways to many people — a little of it may even trickle down to The Sanderson Times. We are glad for the landowners and glad for the oil companies and also others who might profit from such activity and success.

We still wonder about the outcome of such things as concerns the future of the county, Sanderson, or Dryden, or some other place, possibly, yet unknown.

Well, politics has gotten into such a mess that we doubt that even we will be able to straighten it out.

After the efforts of the Democrats at the convention to pull everyone into the pen and their efforts to be all things to all people, they came out with only one face, instead of many — deception.

It was so bad that even our Gov. Price Daniel said that he was going to support the party, but he was not going to support the platform. That is going to be a neat trick, and we don't see how he can do it. That's like saying you're going to work a yo-yo without holding up the string.

Mississippi was more honest, they said they were going to support neither.

One sage wrote, after reading about and hearing and seeing the actions of the Democratic convention — "After the Democrats came up with that combination, the only way the Republicans have a hope to win is to nominate a red-haired Negro from Tennessee who is a Roman Catholic and whose last name is Cohen."

Then the Republicans come along and have a big squabble over their platform in trying to appease Rockefeller and Nixon and, at the same time trying to appeal to the South and the north, swing the labor vote, hold the capitalists, help the farmer and cut taxes — what life!

Sen. Goldwater from Arizona seemed to have a good approach to the questions involved and Robert Hoover told them more his sound opinions, but there seems to be too many chiefs and too smart a group of Indians.

If the Democrats would tell the nation that they favored Rotarians and were against left-handers, people then we might know whether or not to be a Democrat. They only tell some things to all people and it looks like the Republicans are going to try to do the same thing.

We borrow this from several radicals we have seen recently and give credit where credit due.

A boy lived with his parents in public housing development. He attended public schools and had lunch through the "free" lunch program. He served in the army, and after discharge retained his National Life Insurance. He attended the state university (Continued on Page 6)

School Opening Dates Are Set For August 30

The dates for the opening of the Sanderson Schools has been set, according to information received from Supt. Matt Bader.

On August 23 the high school band students who are going to Kerrville will register.

August 25, freshman will register in the morning and sophomores after lunch.

August 26, juniors will register in the morning and seniors in the afternoon.

August 29 at 9:00 p.m. there will be a general faculty meeting.

On Tuesday, August 30, classes will begin in the high school. Registration and classes will begin in the junior high and elementary schools.

Monday, Sept. 5, will not be observed as a holiday in the local school system, according to Supt. Bader. The first scheduled holidays are for Thanksgiving.

OST Enlists 31 Businesses

The Old Spanish Trail Association, Inc., has enlisted 31 local businesses to help boost traffic over the trans-continental all-weather route. Vic Robbins, manager of the Association, was in Sanderson three days last week to work on the local promotion.

Most local businesses who joined the organization were those who are dealing directly in tourist traffic, such as service stations, cafes, motels, etc.

The membership fees of \$12 per year will go toward paying the salary of Mr. Robbins and the cost of printing strip maps and other promotional schemes to send to auto and travel clubs over the nation to enlighten the travelers of the nation on the advantages of traveling on U.S. 90.

Memberships in the OST are being handled through the Terrell County Chamber of Commerce which has highway promotion as one of its projects.

Mr. Robbins stated that his ideas and promotional schemes had been well received by the prospective members up and down the highway and that a sufficient number of members had joined in the promotion to insure an initial printing of 200,000 strip maps to be distributed in the travel agencies of the nation.

Further promotional work is planned to divert cross-country travel on U.S. 90 at the junction of the OST and U.S. 80 at Van Horn.

Some Pipeliners Move This Week

Several families and employees of Western Pipeline Co. moved away from Sanderson this week, since their phase of work has been completed on the project, according to information received.

Work is expected to continue on the pipeline for about one month longer, it was stated.

The crew is engaged in the installation of a 20-inch pipeline from the Brown-Bassett gas field in Terrell County northwesterly to Puckett field in Pecos County where the pipe joins a trans-western line for transporting the gas to the west coast for distribution.

Mr. and Mrs. Temple Stumberg and children visited here Saturday with his parents. Mr. and Mrs. S. L. Stumberg. Mrs. Temple Stumberg will be among the summer students receiving her Master's Degree at Sul Ross College. Both will teach again in Kermit next year.

UTILITY FIRM HONORED — R. L. Bowen of Fort Worth, president of Community Public Service Company, accepted citations for the company's cooperation in employment of the physically handicapped from representative of the President's Committee on EPH and the Texas Governor's Committee on EPH at the annual meeting of Texas Rehabilitation Association at Dallas on July 21. Above, left to right, Thomas R. Greening of Washington, D. C., representing the President's Committee, who presented the national award; Bowen; N. R. Parsons, CPS vice-president; and Laurence R. Melton of Dallas, chairman of the Texas Governor's Committee, who presented the state citation.

Production of Pecos Co. Well Proves Significant for Terrell

A significant discovery was indicated in Pecos County just north of the Terrell County line, and completion attempt was scheduled as a multipay prospect.

An upper Ellenburger gas-distillate discovery was virtually assured in east Pecos County with the flowing of gas, no gauges, and distillate at the rate of eight to 10 barrels per hour at Shell Oil Co. and Humble Oil and Refining Co. No. 1 Blackstone-Slaughter, in section 19, Block A2 of the TCRR, just north of the Terrell County line.

The well flowed 22½ hours through an 18-64-inch choke and perforations between 10,082-092 feet, and flowed 184 barrels of distillate and 39 barrels of acid water. Gas-distillate ratio was 18,008-1.

Flowing tubing pressure was 2,600 pounds, with packer on casing. Shut-in pressure was 3,450 pounds.

Earlier, after perforations had been acidized with 11,000 gallons the project swabbed and flowed through a 16-64-inch choke making 121 barrels of acid water and 90 barrels of distillate. A previous report that the well flowed 211 barrels of acid water and salt water was in error.

Connell sand production was indicated while the project was being drilled with the flowing of gas at the daily rate of 7,000,000 cubic feet daily on a test between 9,903-10,020 feet.

Production was indicated still earlier in an unidentified formation with the flowing of gas at the maximum daily rate of 20,000,000 cubic feet on a test between 8,270-98 feet.

The project, drilled to 10,800 feet, was plugged back to 10,112 feet.

The prospect is one mile northwest of the same firms' No. 1. J. E. Smith, Terrell County shut-in Devonian gas discovery, which flowed gas at the maximum rate of 2,270,000 cubic feet daily through perforations between 8,586-695 feet. Also it tested the Pennsylvanian through perforations between 8,005-8,149 feet, making oil and water.

Subsequent tests assured distillate production with the flowing of 546 barrels of distillate, with gas-liquid ratio of 13,000-1, in 72 hours. Flow was through 18-63-inch chocks and 16-64-inch choke and perforations between 10,050-060 feet and 10,082-092 feet. Tubing pressure was 2,800-2,900 pounds. Testing was continuing.

Subsequent tests assured distillate production with the flowing of 546 barrels of distillate, with gas-liquid ratio of 13,000-1, in 72 hours. Flow was through 18-63-inch chocks and 16-64-inch choke and perforations between 10,050-060 feet and 10,082-092 feet. Tubing pressure was 2,800-2,900 pounds. Testing was continuing.

Reports Given By Boy, Girl Staters

There was a joint meeting of the Legion and Auxiliary, sponsoring organizations, Tuesday evening to present the three youths who had attended Boys' State and Girls' Bluebonnet State in Austin early in June. The youths were Bill Dunn, Joan Wood, and Melinda Gilbreath.

Mrs. Monte Goode, Auxiliary president, presided at the meeting and, after the regular opening ceremony, the group sang "America" with Miss Diana Duke playing piano accompaniment.

Each of the three young people gave an interesting resume of their stay at Boys' State and Girls' State, a program planned to impress those attending with "government in action". They also showed pictures, varied programs, etc. Miss Duke, who went to Girls' State three years ago and also to Girls' Nation, was introduced and made a few remarks.

Refreshments of home-made ice cream and cake were served after the meeting to which the public had been invited.

B. G. Maples' Father Dies

Funeral services were held in Utopia last Thursday for Robert Maples, 84, who died Monday in a hospital in San Antonio. He had been in failing health in recent years and had visited here often with his son, B. G. Maples, and family.

Other survivors include a son, Ted Maples of Tatum, N.M.; a brother, Ike Maples of Camp Wood; a sister, Mrs. Ann Luxton of Junction; and 13 grandchildren.

Mr. and Mrs. B. G. Maples and children attended the funeral services.

Board Named For ASC Election

The Terrell County election board met in the local ASC office July 21. Members present were Ray D. Siegmund, District 6 Agricultural Agent, from Fort Stockton; Patrick Sullivan, county Farmers Home Administration Supervisor, from Del Rio; Lloyd D. Booker, local SCS Work Unit Conservationist; and F. M. Wood Jr., office manager of the Terrell County ASC office, acting as secretary.

The election board selected members of the community election board. They are: Roy Deaton, chairman; W. H. Goldwire, vice chairman; and R. B. Dyer, member.

The community election board will meet August 3, 1960, for the purpose of selecting nominees to be placed on the ballots for the approaching election of the 1961 Terrell ASC County Committee. The 1961 committee will assume the duties of their offices October 1, 1960.

New School Nearing Completion

The new elementary school building is nearing completion and August 15 is the contract date for the Newton Construction Co., contractors for the building to turn the building over to the Terrell County Independent School District.

The furniture for the building has been on order for several months and is due to arrive shortly after that date for installation in the new building. The new building, which is located on Kerr Street, sets up against the hill in the north side against the hill on the north side of town and will be an attractive addition to that section of Sanderson.

Workmen from a roofing concern in Uvalde are working this week replacing the roof on the high school building. These are the first such repairs to that building, it is said, since the building was completed.

A chain-link fence is being installed on the south line of the school's property at the football field. The fence will extend west from the main gate to the west line of the property and will parallel Richard St. to the east property line.

Correction

Due to a typographical error, the name of the fiancée of Malone Mitchell Jr. was incorrect in last week's Times. The name should have been Miss Roberta Lee Ellison.

Turk Well Shows Gas In Two Formations

Shell Oil Co. and Freeport Oil Co., Midland, No. 1 Turk and State, in section 8 of Block R in the TCRR Survey, one mile northwest outpost to the Brown-Bassett field of Terrell County,

R. B. Woods Move To Montana

R. B. Wood

R. B. Wood, minister of the Sanderson Church of Christ, will leave Monday of next week for Livingston, Mont., where he will serve as minister of the Church of Christ there. Mrs. Wood and their two sons will accompany him to Livingston. He had his household effects moved Saturday of last week.

Mr. Wood has been minister of the local Church of Christ for two years. He will assume his duties at the church in Livingston on August 7.

Mr. Wood stated that he has enjoyed the work in the local church and his friendships here have been most pleasant. He expressed some regret in having to leave his friends here but felt that his services as minister in the church in Livingston necessitated the change.

The local church has not named a replacement minister as yet.

Mr. Wood stated that Livingston was only a short distance from the north entrance to Yellowstone National Park and asked that any friends who might be up that way to come to see them.

Work Done On Ford Fire Truck

Some work has been done toward putting the Ford fire truck in good shape and further work is planned as soon as it can be accomplished.

A new radiator was installed this week, along with new hoses and pipes in the cooling system, the re-circulating system cleaned out and the pump cleaned and oiled. A heavy duty radiator was used as a replacement for the old radiator.

It is planned to either rebuild or replace the engine in the truck within the immediate future and the tires will be replaced as soon as possible.

The truck was put into service in Sanderson in 1946 and has had only routine maintenance work done since that time. The tires on the truck are those which were on the vehicle when it was purchased as war-surplus soon after World War II.

The truck is equipped to hold about 900 gallons of water or chemical and has both 1½" and 3" hose installed. It has been the mainstay in fire fighting in Sanderson and in this area since it was acquired due to the capacity of the tank, about three times that of the Dodge truck.

flowed gas at two intervals while drilling in an unidentified formation.

Tested four hours from 11,630-663 feet, it made gas at the daily rate of 430,000 cubic feet. It then flowed at the daily rate of 190,000 cubic feet when drilling reached 11,690 feet.

Drilling continued below 11,694 feet in lime on a 16,000 foot contract.

Continental Oil Co. 1 Brown-Bassett, in section 227 of Block Y in the TCRR Survey, a dual producer, one mile to the southeast, was completed from the Ellenburger from 13,924-14,698 feet and from the Fusselman from 12,604-614 feet.

Rain Clouds Leave But Results Show

Rains clouds left this area of the state last week, but the results remain and are quite evident both in and out of town.

Local lawns, shrubs, flowers, and weeds show a lush growth as a result of the recent rains, necessitating additional work in and around local yards. Lawns and beneficial plant life in town got their first good soaking of the summer during the recent wet spell.

In the country, the weeds grass, and brush, all beneficial plant life there, came out in an equal spurt of growth and the hills and flats around Sanderson reflect a picture of the benefits that will result to the gain in condition of area livestock. Some say that the recent rains were the best since 1941, others say that it was the best July they could remember, rain-wise.

Recent days have shown no indication of the promise of more rains. Skies have been crystal clear all during the day, but the humidity has been high and the heat that has gone with it is typical of scattered shower weather.

Some high and lofty thunderheads have been visible on the horizon in the late afternoons.

Bible School Has 75 Enrollees

The Presbyterian - Methodist vacation Bible school opened Monday morning with an enrollment of 75 children between the ages of four and twelve.

Classes are meeting in both churches in the morning from 9:00 to 11:30 a.m. Rev. John W. Byrd, pastor of the Presbyterian Church, is general superintendent of the school.

There will be a short program given by the children of the school in the Presbyterian Church Friday evening at 7:30 to which the parents and friends are invited. During the social hour which follows, the parents will have an opportunity to view the handwork and visit with the children. A free-will offering will be taken on Friday evening to help defray the expenses of the school.

Mrs. W. D. O'Bryant had major surgery in a Fort Stockton hospital Tuesday morning.

Calendar of Events

Friday — Closing program of the Vacation Bible School.
Monday — Baptist W.M.U.
Tuesday — H.D. Club's annual picnic, called meeting of the Masonic Lodge.
Wednesday — Rotary Club
Thursday — Lions Club

Member 1960 TEXAS PRESS ASSOCIATION

AUSTIN — If the brackish, "hard as bricks" water common to many parts of West Texas can be made suitable for domestic use, Texas' available water supply would be materially increased.

To this end, the State Water Board has approved a de-mineralization research project to be carried out by the board, University of Dallas and Texas Electric Service Co. Board will put \$20,000 into the work.

Board engineers say total de-mineralization is not necessary and that it is possible the process can be accomplished at an economically feasible cost.

In another move to increase available water, the Board has set a series of hearings on cancellation of water appropriation permits that have not been used. First 10 of the permits to be reviewed are scheduled for hearing Sept. 22. Some of the permits date back as far as 1918.

DPS Asks Boost With more traffic to patrol and more crime to fight, the Department of Public Safety will ask the next Legislature for money to increase its staff.

Col. Homer Garrison Jr., DPS director, has presented a budget calling for \$16,461,260 for 1962 and \$17,720,166 for 1963. This compares to \$12,420,490 allocated to DPS for this year and \$13,353,272 for the new fiscal year beginning Sept. 1.

Requested increases would allow the addition of 200 new highway patrolmen, 10 Texas Rangers, four narcotic agents and four intelligence agents.

Supporting his request, Garrison made this grim forecast: 29,000 more major crimes will be committed in Texas in 1963 than

in 1959. This is apparently a continuation of the trend which saw major crimes rise 45 per cent in the past five years, rising to 175,851 in 1959.

Parole Expansion Sought Texas Board of Pardons and Paroles has a plan for saving the state some money.

But to do so, the Board says it will need some more money to invest in enlarging the state's staff of parole supervisors. Since the paid parole system got under way in 1958, the Board says it has saved the state \$3,000,000. It costs that much less to pay a supervisor to keep tab on a parolee than it costs to board and clothe a prisoner and make relief payments to his family.

The Board feels it needs a 70-man parole staff, rather than the present 40 to do the job. For this, the Board is asking an appropriation of \$1,466,819 for the next two years. This is an increase of \$480,863, or nearly a half-million dollars, over the present biennium's appropriation.

Board contends this extra investment will save the state \$2,500,000 in prison costs, plus offering a better chance of returning more men to useful, law-abiding places in the community.

Oil Flow Unchanged Texas Rail road Commission has announced an eight-day producing pattern for the Texas oil industry in August—the same as for July.

Daily allowable will be 2,630,069 barrels a day.

A majority of producers appearing before the Commission said there is still an oil glut in Texas and continued restriction is needed to protect the market. Commission action came in

the wake of a declaration by UT's Bureau of Business Research director that oil is no longer king in Texas. Even with foreign import limits, said Dr. John Stockton, supply outruns demand so that production has had to be held down to 8 to 12 days a month for the past two years.

Stockton foresees no improvement. Texas, he said, must develop new industries to bolster its economy or lose out to more dynamic areas.

Parks Survey Set State Parks Board has announced the Texas Research League will make a study of its operations and report to the next Legislature.

League is a privately financed, non-profit government research organization which studies state agencies at their own request.

State Auditor C. H. Cavness has recommended the Parks Board hire an auditor to keep track of the receipts from concessions operated in the state parks. Cavness also urged that the next Legislature act on a Legislative Council report presented to the 1959 session making recommendations for the continuing, expanding and abandoning of various parks.

Parks Board has designated a new state park, to be known as San Marcos State Park to be located near the proposed Canyon Dam site on the Guadalupe River.

School Report Card State Commission on School Accreditation has weighed Texas public schools against state standards and found 54 wanting.

Inspection teams recommend disciplinary action against 20 schools and warnings of a need for immediate improvement by 34 more.

If a school loses its accreditation, the work of its students cannot be transferred to accredited schools with full credit.

Commission recommendations will be reviewed by the State Board of Education at its September meeting.

Traffic Toll Cut While nationally the drop in

traffic deaths for this year is one per cent, Texas has improved by nine per cent.

Texas traffic deaths up to mid-July of this year totaled 1,049, compared to 1,152 for the same period last year.

A veteran highway patrol officer said he believes the new auto insurance rates, which jump sharply for motorists with accidents or violations on their records, have contributed substantially to the better record.

But radar, he said, had the same effect until people got used to it and became indifferent again.

Mrs Ben Causey made a business trip to Del Rio Thursday Mrs. Chester Smith went with her to visit with her daughters and their families.

Toby Courtney of San Antonio is visiting here with his sister, Mrs. John Huey and family

Hugh Harris and daughter, Ginger Belle of Del Rio, visited here Monday at the home of Mr. and Mrs. W. E. Hill.

Mrs. J. R. Hodgkins with Terry and Danny visited in Uvalde last week with her cousin, Mrs. Jack Edwards, and family and then went to San Antonio for a few days. Richard Edwards accompanied them home for a visit.

Mr. and Mrs. Jim Kerr returned home Saturday from San Antonio where he had received medical treatment for two weeks. They also visited with their son, Vernie Kerr and family.

J. M. Jones went to Houston Friday night to enter the SP Hospital for medical treatment.

Mr. and Mrs. O. D. Gray and sons, Dee and Tommy, returned home last week from their vacation trip to Fort Worth and In-dell where they visited with relatives.

Not a single cracked egg since Chevy took over the route

That '60 Fleetside pickup you see takes whatever kind of road comes along, and makes about 250 stops a day delivering eggs house to house for Mr. Harry Hansen of Missoula, Montana. "With my previous truck," Mr. Hansen writes, "I always had some cracked eggs. Cargo damage always cut into my profits. But the new Chevy eliminated that problem completely. I haven't had one cracked egg with my new truck and I've had up to a ton of eggs in it without any difficulty. . . I didn't know a truck could ride so nice."

Chevy rides nice, all right: takes good care of fragile cargoes. But that's not even the half of it. Torsion-spring suspension also means longer life for the truck, extra thousands of working miles, because the sheet metal and body components take less of a beating. You can run off-the-road or over back trails at faster safe speeds, too; get in more trips a day, make more money. Those facts are as true of the big Chevrolet heavyweights as they are of the pickups. Any model you name. Get one on your job and you've got the world's most efficient, most economical way to haul any load over any road. Your dealer will be happy to prove that statement any day you say.

"I'm getting close to 20 miles to the gallon," Mr. Hansen states, "and that's on stop-and-go delivery."

An Essential Ingredient of Outdoor Meals . . .

PROPER OUTDOOR LIGHTING

Experienced backyard chefs agree that one of the necessary ingredients of a successful backyard barbecue is plenty of outdoor lighting. Outdoor floodlights, mounted on poles or attached to house or garage, turn your entire backyard into an outdoor living room, where you can rest and relax or enjoy activities in the cool of the evening. Convenient, too, for doing your yard work after the hot sun goes down. See your lighting equipment dealer or visit our office for outdoor lighting suggestions.

WSCS Program Monday Led By Mrs. M. W. Duncan

"A Christian's Use of Leisure Time" was the subject of the program led by Mrs. M. W. Duncan when the Woman's Society of Christian Service met Monday afternoon in the home of Mrs. H. C. Goldwire. Following a piano prelude by Mrs. L. G. Hinkle, the group sang "More Love To Thee". Mrs. F. E. Curry read the Bible passages and led the opening prayer. Mrs. W. W. Sudduth read the concluding summary of the program after a panel discussion by Meses. Hinkle, Goldwire, W. F. Frazor, and L. H. Gilbreath. The hymn "Love Divine" and the Mirpah Benediction was used in the closing.

During the business meeting, opened with prayer by Mrs. Gilbreath, a cash contribution was voted for missionary work in India. A freewill offering was taken to provide refreshments for the Vacation Bible School. Mrs. Clyde Higgins and Miss Eva Billings, who attended the School of Missions at Sacramento, N.M., last week, gave a report of the meeting.

During the social hour, Mrs. R. Clark, assisted Mrs. Goldwire in serving home-made ice cream with strawberry and chocolate topping, cake, and punch. The face-covered refreshment table was centered with an arrangement of zinnias and asparagus ferns.

Those present were Meses. Lee Briggsby, G. C. Stiles, W. T. Ataway, A. B. Gates, F. E. Curry, John Neal, Bustin Canon, H. E. Zelle, M. W. Duncan, L. H. Gilbreath, W. W. Sudduth, C. H. White, Virgil Franks, Clyde Higgins, L. G. Hinkle, and Chester Smith, and Miss Eva Billings.

District TFWC To Meet In Big Lake

The District Board meeting of Western District of Texas Federation of Women's Clubs will be in Big Lake Thursday, Sept. 22, at the First Methodist Church. The Progressive Study Club and the Twentieth Century Club of Big Lake will host the board meeting. Mrs. Paul Jacobs of Big Lake is the president of the Western District.

Mrs. B. F. Seay of Andrews, district president of the district, will be program chairman. The planning chairmen for the board meeting are: Mrs. Samann and Mrs. Joe Freeman of the Progressive Study Club; and Mrs. Billy Boyd and Mrs. A. L. Mans of the Twentieth Century Club. Counties in the Western District TFWC are: Andrews, Brewster, Crane, Culberson, Ector, Glasscock, El Paso, Howard, Mitchell, Jeff Davis, Loving, Martin, Midland, Pecos, Presidio, Reeves, Reagan, Terrell, Upshott, Ward, and Winkler.

Cotton fabric is one of the oldest known to mankind — one which has consistently met the varying needs of many different civilizations. Nature's cotton fibre has progressed through the ages, from crude spinning and hand weaving of ancient times to the wondrous textiles of the mechanical age. Scientific research then took over from the machines and the result was a tremendous improvement in quality, beauty and performance of cotton fabrics.

Today, science announces another amazing development — a Super-Disciplined cotton fabric. Tested at the research facilities of Bates Fabrics, this new material has all the advantages of the coolness of cotton plus the free-from-care qualities modern women want.

Super-Disciplined cotton fabric, developed by Bates through a new process (depth infiltration), has a fullness of hand which means your finished piece will drape beautifully with controlled softness. It holds its shape, it's shrinkage free and has a new color-rich vibrancy that's color-fast. An improved tensile strength makes a garment that you "wash and wear forever!" And it'll always look fresh and sparkling with a minimum of fuss because of its lasting wrinkle resistance and new-smooth finish.

When warm weather comes around and you want a really carefree, cotton-cool material you'll sew with pleasure and wear with ease. It's a good idea to keep these new Super-Disciplined cotton fabrics in mind.

Vicki Littleton, Wayne Sanders Plan Aug. Wedding

Mr and Mrs. Vic Littleton are announcing the engagement of their daughter, Vicki, and Wayne Sanders of Monahans, the son of Mr and Mrs. Virgil Sanders of Lueders, Texas.

The couple will be married in the home of the bride's parents on Friday, August 19.

Miss Littleton, a May graduate of the Sanderson High School, has been employed at the Dryden Mercantile Store this summer. The bridegroom-elect is an employee of the Southwestern Bell Telephone Company.

Residents' Kin's Troth Told

The engagement of Miss Helen G. Falcon to Rodolfo F. Leos is announced by her parents, Mr and Mrs. V. R. Falcon of San Antonio. The prospective bridegroom is the son of Mr and Mrs. Leonard Leos Sr., also of that city.

The bride-elect is a graduate of Tech High School in San Antonio. Mr. Leos was graduated from Sidney Lanier High School, San Antonio, and is attending business college.

The wedding is planned for September.

Mrs. Sam Bell and two of her children were El Paso visitors for several days last week.

Mrs. H. E. Zelle Hostess Thursday To Bridge Club

Mrs. H. E. Zelle was hostess for the Duplicate Bridge Club last Thursday, the guests playing 15 boards.

Those present were Meses. C. H. Robinson, Virgil Franks, M. W. Duncan, M. F. Bader, S. H. Underwood, James Caroline, and Carlton Smith.

Mrs. Franks was high with 10 points and Mrs. Smith had 9 1/2 points.

The hostess served chocolate chiffon pie and whipped cream with tea and coffee.

'That You May Live' Is Program For Presbyterian Ladies

The Presbyterian Women of the Church met Monday afternoon in Fellowship Hall with Mrs. John W. Byrd presiding. She read a poem on Christian Stewardship to open the meeting and Mrs. J. D. Nichols led in prayer after the hymn "Take Time To Be Holy" had been sung. Mrs. E. E. Farley led the program titled "That You May Live" which was based on the book of Amos. The Bill of Rights was read and an article from "The Presbyterian Woman". "Let's Learn About Christian Citizenship", was discussed. The hymn "America, The Beautiful" was sung. Mrs. Farley led the opening prayer and Mrs. Byrd the dismissal prayer.

Mrs. J. J. Harkins served banana-nut cake with butterscotch topping and fruit punch during the social hour.

Those present were Meses R. A. Gatlin, Farley, Byrd, Sid Harkins, C. C. Mitchell, E. F. Pierson, J. D. Nichols, N. M. Mitchell, and J. M. Corder, a guest.

Mrs. Roger Johnson and baby daughter of Houston arrived Tuesday to visit with her mother, Mrs. J. M. Jones, and family.

Piano Tuning...

Wayne Carmichael will be in Sanderson the week beginning Monday, August 1, to tune pianos. Please notify your music teacher or The Times office if you would like to have work done.

Picnic Tuesday For Ranch Club

The annual picnic for the members of the Ranch Home Demonstration Club and their families will be on Tuesday evening at 7:00 o'clock on the slab at the Legion Hall.

and worked part time at the state capitol to supplement his GI education check. He married a home demonstration agent, purchased a home under his GI bill, and got an RFC loan to go into business.

His baby was born in a city hospital. He bought a small farm through the veterans' land program, and got emergency feed from the government for his livestock. He put some of the land in the soil bank and used the payments to buy the farm. His parents lived comfortably on the farm with their social security and old age assistance checks. REA furnished the electricity, the government helped him clear the land, SCS showed him how to get the most out of it, and ASC helped pay for his fishing pond.

He read books borrowed from the public library, his bank account was protected by federal insurance. His children went to public school, rode the school bus, played in the city park in supervised recreation programs, swam in a public pool, were 4-H and FFA members. The man favored the federal highway program. He signed a petition seeking federal assistance to develop an industrial project and a recreational area to help the economy of his town; he led a movement to get a new local federal building. He went to ask the government to get his specific type of business special tax exemptions.

Then he wrote to his congressman: "I wish to protest all excessive governmental spending and high taxes. I believe in rugged individualism. I think people should all stand on their own two feet. I am opposed to all forms of handouts and I demand a return to the principles of our Constitution and free enterprise for all." From "The Right Hand" May, 1960.

Gerald Petersen has had his thesis accepted for his Master's Degree from the University of Texas. The Petersens, who are residing in Austin for the summer, will return to Sanderson about the middle of August. He will attend coaching school in Dallas next week.

Mrs. Irby Maples and daughters have gone to San Angelo to join their husband and father who has been employed there for several months. Mr. and Mrs. B. G. Maples and children, who have been residing in the Cargile home place, moved back to their home when the Irby Maples moved to San Angelo.

TEXAS LAWYERS Capt. John Coffee Hays, Ranger "As a mounted soldier the Ranger has no counterpart in any age or country!"

The real Ranger — not the gun-fanning, hip-shooting tough guy of fiction — has been recorded in Texas history as a quiet, deliberate, gentle person who could gaze calmly into the eye of a murderer and with unburned courage ride straight up to death. Such a man was John Coffee Hays. He was a frontier surveyor for the Republic of Texas at 21, a Captain of Rangers at 23, a famous Indian fighter with the Army and a Major at 25. The defeat of the Comanches at Enchanted Rock and Bandera Pass, the Plum Creek fight and the battle of Salado are a part of his record. During the war with Mexico, 1846-48, Hays commanded the 1st Reg. Texas Mounted Volunteers and distinguished himself at Monterrey and Mexico City. Mustered out, a 31-year-old veteran with the rank of Colonel, Jack Hays next served as a commissioner to settle the boundary dispute between Texas and the United States over the New Mexico Territory.

After that, it seems as if Texas became too quiet for this "quiet, deliberate, gentle person." During the Gold Rush days of '49, Col. Hays led a caravan to California to begin the second half of a kind of life that "has no counterpart in any age or country." The state honored his name with the creation of Hays County, in the Texas Hill Country.

Texas lawmen have always served their state well... as have Texas industry and commerce. Providing payrolls and community revenues, one industry has also provided the refreshment of moderation. In Texas, the brewing industry "belongs." Brewers, wholesalers, retailers and the United States Brewers Foundation are working constantly in cooperation with today's lawmen, to assure the sale of beer and ale under pleasant, orderly conditions.

CPS Company Receives Awards

The Employer's Merit Award from the President's Committee on the Employment of the Physically Handicapped and the Distinguished Service Award from the Texas Governor's Committee on EPH have been conferred upon Community Public Service Company for its cooperation with these two committees in providing jobs for men and women with physical limitations.

R. L. Bowen of Fort Worth, president and general manager of the company, accepted the citations on behalf of the utility firm on July 21 at the Texas Rehabilitation Association's annual meeting in Dallas.

Thomas R. Greening of Washington, D.C., representing President Eisenhower, presented the national citation to Bowen. Laurence R. Melton of Dallas, chairman of the Texas Governor's Committee, presented the citation on behalf of Governor Price Daniel, who was unable to be present.

Texas Employers Insurance Association of Dallas, second company which received both awards, was recognized for its outstanding work in rehabilitation and especially for production of the film, "The Road Back," which has been shown to thousands throughout the United States.

The TEIA film dealt with the step by step comeback of Bob Wilcox, a Community Public Service Company lineman, who lost both legs and an arm in an

electrical contact accident four years ago. Wilcox recovered, was rehabilitated and taught new skills. In 11 months after the accident he went back to work for the company at Clifton, Texas, as a meter repairman.

Among the physically handicapped Community Public Service Co. employees are a number of amputees, although none who have lost as many members as Wilcox. Other disabilities include partial blindness, deafness, multiple sclerosis, back injuries and heart ailments.

Mrs. Kellar's Niece Dies

Mrs. Mary Lou Kellar received word Sunday morning of the death of her niece, Connie Lou Lindsey, in a San Antonio hospital. She was the daughter of Mr. and Mrs. Ray Lindsey of Pearsall and funeral services were held there Monday afternoon. Miss Lindsey, 15-year-old baton twirler, had her right leg amputated on January 9 in an effort to curb a cancer on her knee. The cancer spread to her upper body and she was hospitalized in San Antonio in recent weeks.

Local Girls in "Miss Southwest" Beauty Contest in Fort Stockton

Miss Gail Mullinax, representing the American Legion and Auxiliary, and Miss Judy Denson, representing the Sanderson Lions Club, were entrants in the "Miss Southwest" beauty contest in connection with the Water Carnival in Fort Stockton last Saturday night.

Among Our Subscribers Renewal subscriptions to The Times have come from Mrs. D. Daniels of Indianapolis, Ind.; Hollis Haley of Sheffield, D. Va.; Wurmbrand of Los Angeles, California; Tommy Carruth of El Paso; Mrs. F. K. Harrell, Mrs. Rutledge, and Mrs. Mary Cox Sanderson; Tommy Mansfield of El Paso; J. F. Kessler of Houston; Lynn Kiefner of Van Nuys, Calif.

Trigg Twichell of Austin is new subscriber. Mr. and Mrs. W. E. Hill and children spent the week end at Artesia, N.M., with his brother and their families.

Anyone for Earplugs

by Harold Kelley

The earplug industry should be booming these days.

Have you noticed the noise lately? Cars, trucks, motorcycles, scooters, power motors, planes, trains, children. As the cool weather comes, the noise is still there. And it is worse in the summer time because doors and windows are open more. And, outside of an occasional interesting spat with the neighbors, all these noises are strictly non-entertaining. They are a drain on the patient's nerves. Earplugs are one uncomfortable answer.

A Lennox all-season air conditioning system is a better answer. You see, with a Lennox system, you shut the windows and doors on noise... on dust and dirt, too.

Of course, you'd be defeating your purpose if the air conditioning equipment was noisy. That's why Lennox goes to such great pains to make it quiet. And they succeed. The floating blower, acoustically lined cabinet, solid construction... everything is engineered for quietness as well as efficiency.

So why not enjoy some peace and quiet, and the finest indoor comfort on the face of the globe? Get the facts on Lennox.

In case you are wondering who has the facts to give you, I'm your boy.
