LISTEN TO LUKE

Is the freedom of the press and freedom of speech now being threatened?

Just what can we conclude from statements made by President Kennedy and some of the administration leaders in a speech to the American Newspaper Publishers' Association's Bureau of Advertising in New York last Thursday night?

We are at a loss to know whether the administration has really thought this through; whether the administration is uneasy about the information being circulated on American involvement with respect to foreign affairs or if there is some planning for foreign action soon.

Of course the President and his advisors are interested in keeping certain high-priority information from leaking out. That can be expected in all serious situations. Certainly the newspapers will cooperate—and always will—in that respect.

Certain slips have been made in leaks to the press, but it has come from someone within certain agencies of the government to the press. News items have not yet had extrasensory perception.

In the past week, some members of the administration have explained that some misinformation was printed about Cuba. No one has done more to give information about Cuba to the administration officials who have been anonymously and contrarily each other.

"Self-censorship" was suggested by a "high official" at a meeting recently in which the foreign problems of America were discussed, with reporters not being allowed to quote any one directly. Then last Thursday the President devoted an entire speech to self-censorship.

"High officials" are in a position to give out a bit of information to the press, it should be the reporter's duty to quote the high official and give his name. If it's not worthy of that identification, it's not worth printing. And if it's classified information, then the reporter, the government, and all the readers will have someone to blame to tie the leak.

The press cannot expect and should not get all the information about all the workings of all the various branches of our government. In the final analysis, they should only what is released to the public.

Classified information cannot be wholly blamed on the press of the nation. Self-censorship and restricted news is not the problem of the weekly newspaper. One is only wrong in thinking that the daily papers are not interested in the goings-on in a little until they have broken the news.

—Continued to Page 4

Cindy Holmes Is Hospitalized After Drinking Gasoline

Cindy, the 15-month-old daughter of Mr. and Mrs. Harry Holms, was discharged from a Fort Stockton hospital Monday after receiving treatment from the effects of swallowing gasoline.

The baby drank the gasoline from a cold-drink bottle after being in a storage room at her parents' ranch home of her parents Thursday evening.

Plans Complete For Gas Plant Fete Saturday Afternoon

A large group of Terrell County residents and other area citizens is expected to assemble at the El Paso Natural Gas Co. CO2 extraction plant in the Brown-Bassett gas field Saturday to attend the open house of that facility. All plant employees and several officials of the company will be on hand for the occasion.

Charley Smith, plant superintendent, has announced that the plant will be open for guided tours beginning at 2:00 o'clock in the afternoon. The barbecue feed which is to be provided by several civic clubs of Sanderson will be served at 4:00 o'clock.

There will be some who cannot make the trip because of work, but it is hoped that a good representation from every business and industry in the county will be on hand to welcome these new citizens.

Jack Turner, chairman of the general committee for the clubs, has stated that every effort is being made to assure the success of the occasion.

Nat'l Honor Society Tours Laughlin AFB Monday Afternoon

The members of the National Honor Society of the Sanderson High School were taken on a trip to Del Rio Monday afternoon, leaving at noon. An educational tour was made of the Laughlin Air Force Base and the group ate a Mexican supper at a cafe before leaving for home.

The trip was a courtesy of the Sanderson Culture Club. Arrangements were made by Mrs. S. D. Harrison, chairman of the club's committee, who with Mrs. W. H. Savage and Mrs. C. F. Cox, took the students on the trip.

The 14 students included Kenneth Moses, Ruthie Allen, Shirley Williams, Susan Harkins, Melinda Gilbreath, Margarita Fuentes, Terry Gene Hodgekings, Bill Dunn, Jimmy Jones, Buddie Joe Hahn, James Word, Hector Lopez, Irma Munoz, and Dee Gray. Linda Morris was unable to make the trip.

Truck Driver Pays DWI Fine

A truck driver from Pecos was apprehended here Sunday night and charged with driving while under the influence of intoxicating beverages. His companion was charged with being drunk in a public place.

The misdemeanor charge was heard in Justice Court Monday morning and the defendant pleaded guilty to the charge and received the minimum fine of \$1 and costs of court.

The truck driver pleaded not guilty to the DWI charge in County Court and, after hearing testimony of the arresting officers and other drivers on the road, Judge R. S. Wilkinson found the man guilty and assessed the minimum fine of \$50 and costs of court, plus the minimum punishment of three days in jail and suspension of his driver's license for six months.

Band Rated III In Odessa Meet

The Sanderson High School Band got a division III rating in the concert and sight-reading meet held in Odessa last weekend. This is an improvement over the division IV rating received last year, according to W. J. Morris, band director.

Mr. Morris stated that he felt the band was capable of a higher rating than was received but had to leave Sanderson at 4:30 a.m. after the dance honoring some of the graduates the night before, and did not have time to warm up prior to their contest.

Postmaster Clyde Griffith To Retire May 31 After Serving 27 Years In That Capacity

CLYDE GRIFFITH ... to retire May 31

Clyde Griffith, local postmaster, this week announced his plans for retirement on May 31. He has been postmaster in Sanderson for just over 27 years, succeeding L. R. Grigsby in that post.

Mr. Griffith became acting postmaster on March 11, 1934, and was appointed to the post on April 4 of the same year.

Mr. Griffith stated that he had no plans which he wished to make public, but that he was going to do what his health and conditions would permit.

He stated that it had been a distinct privilege and pleasure to serve the postal patrons of this area over the years and he considered himself very lucky to have had the opportunity to become acquainted with as many people as he had in the manner in which he had gotten to know them. "In my position," he said, "if a person comes into the office to transact almost any business, he must eventually tell you his name. Then soon you learn the names of the other members of the family, and your acquaintance with them is different than that of any other type of business in town."

Mr. Griffith stated that when he became postmaster, that the local office had a third class rating which was changed in 1944 to a second-class postoffice. There has been a steady increase of postal receipts over the years and a steady increase in the amount of mail handled in the office. Mr. Griffith stated. He recalled that he and one clerk used to handle all the business of the local postoffice and at that time a clerk made only about \$75 a month. He recalled several other changes in the operation of the postoffice over the years he has served as postmaster.

Mr. Griffith also stated that he hoped that his successor, whoever it might be, enjoyed the same wonderful relationship with the public that he had and expressed his appreciation to all the postal patrons for their understanding and cooperation over the years.

Siren To Blow Daily Before Noon

L. A. McBee, member of the Sanderson Volunteer Fire Department, stated this week that he would cause the fire siren to sound every day before noon in order to prevent the sticking of switches in the alarm and also to possibly detect trouble in the alarm prior to a time when it might be needed.

The sounding of the siren would be at about 11:55 every day, except Sunday, McBee stated, and for the balance of the school year would serve as a reminder to parents to go after their children, he said.

The noon siren would be only for as long a time as is necessary to be sure that all is in proper working order. A fire alarm will be of longer tenure, he said.

Exams To Be Given To Fill Vacancy For Postmaster Job

Washington, D.C. — Congressman J. T. Rutherford of the 16th Congressional District has been officially notified by the U.S. Post Office Department of a pending vacancy for Postmaster at Sanderson.

Congressman Rutherford stated that all who are interested should notify him immediately so that he might arrange for the Post Office Department officials to establish a competitive Civil Service examination to fill the vacancy.

"Such competitive exams give all persons who may qualify a fair and equal opportunity to seek the job," Rutherford stated. Applicants may write Congressman Rutherford at Room 1315, New House Office Building, Washington 25, D.C.

Little League Play To Begin Soon On Three Fields

Workouts have been in progress for several days by teams of Pony League, Little League, and PeeWees as the joint committees from various civic clubs have had a real workout in perfecting plans for the season.

A great deal of changing and getting equipment and constructing backstops and the incidentals that go with it, including the not-small item of financing the project, have caused the special committee to put in some time and effort.

The special committee, headed by Gene Litton, has been helping to recruit coaches for the various teams as well as set up rules and schedules for the various age groups.

An unusual amount of enthusiasm is being shown by the boys and play is expected to get underway soon on regularly scheduled intra-squad games.

Three fields will be in use on the American Legion property east of town, providing a field for each age group. One of the diamonds will be lighted for use by softballers at night.

Calendar of Events

Saturday — Open house at El Paso Natural Gas Plant, called meeting of Sanderson Culture Club

Monday — Presbyterian Women, annual spring band concert

Tuesday — Masons, Legion Auxiliary, Tuesday Club

Mists Saturday Leave .25-Inch Of Moisture Here

Mists and light showers which fell all day Saturday left about .25-inches of moisture in local rain gauges. The showers began before dawn Saturday.

Only once during the day was there a hard shower locally and it lasted a very short time. Hardly any time during the day was there a complete absence of precipitation with light mists accounting for most of the moisture.

Tracksters Leave For State Meet

Track Coach Carlton Smith left this weekend for Austin with four boys who have won an opportunity to compete at the top level in their particular events.

The boys and their events are: Felix Valles, who placed second in the regional track meet in the 880-yard dash, and a mile relay team composed of Valles, Bill Stavley, Dee Gray, and Larry Harrell.

Students From Patterson Institute Present Program

Thirty young men and women from the Lydia Patterson Institute, El Paso, who are on the annual tour of the choir of that school, spent Friday night in Sanderson. They were accompanied by the choir director, several teachers, and the president of the school and his wife.

The choir gave a concert in the First Methodist Church with a large crowd in attendance. Before the concert, supper was served to the group by the Friendship Class in Fellowship Hall at the church.

The visitors spent the night in the home of the members of El Buen Pastor Methodist Church and First Methodist Church, and left Saturday morning for San Antonio. They will also give concerts in that city, in Austin, and in Pecos before returning to El Paso Tuesday night.

Spring Concert By SHS Band To Be Monday

The Sanderson High School Band will present its annual spring concert in the auditorium Monday night at 8:00 o'clock.

W. J. Morris is the band director. Mr. Morris extended a cordial invitation to all local and area citizens to attend the concert and promised an entertaining evening.

Admission charges will be 25c and 50c, the proceeds from which will be used in the purchase of band uniforms or equipment.

Cheer Leaders Named Tuesday

Cheer leaders for next year were named at the Sanderson High School Tuesday. They include:

Betty Jane Robbins, head cheer leader, Shella Lynn Cox, Linda Nell Babb, Marta Flores, and Bertha Parada. Jeanette Carter is the alternate.

The cheer leaders are elected by those students who will comprise the student body next year.

Joe Fitch Conducts Revival In Balmorhea This Week

Joe Fitch, minister of the local Church of Christ, is in Balmorhea this week conducting services each evening at the Church of Christ in that city. He is a former Balmorhea resident.

Devonian Strike Finaled In North Terrell County

The Yucca Butte multipay field five miles southwest of Sheffield gained its fourth pay, the Devonian gas-distillate, and a one-mile extension into Terrell County with the completion of Shell Oil Co. and Humble Oil and Refining Co. No. 1 J. E. Smith, for a calculated, absolute open flow of 3 million cubic feet of gas per day with gas-liquid ratio of 166,000-1.

Production was through perforations between 8,576-8,685 feet in 5 1/2-inch casing set at 8,830 feet. Gravity of the liquid was 56 degrees.

The project spudded in in February of 1959 and was shut in in July of 1959 after drilling to 10,292 feet in the Ellenburger.

It tested the Devonian through perforations between 8,558-8,695 feet, making gas at the maximum daily rate of 2.27 million cubic feet; making 132 barrels of new oil, cut 2 per cent basic sedi-

Mrs. C. F. Cox Is Regional Winner Of SCS Award

The annual spring luncheon of the Pecos County Council of Home Demonstration Clubs was held Tuesday in Thompson's Restaurant in Fort Stockton. The decorations, arranged by Mrs. R. A. Gatlin of the Ranch Club, featured a Hawaiian motif. Mrs. C. F. Cox, council president, presided at the luncheon.

"Communism" was the subject of the guest speaker, Earl Dunn, professor of religion of Sul Ross College.

Mrs. Cox, regional winner of the 1961 Soil Conservation Service Homemakers of the Year Award, was the honor guest and was awarded a plaque for her outstanding work. Mr. Cox was also an honored guest.

Mrs. Cox won the Big Bend District SCS award as homemaker of the year in 1960 and was third in the region. This year she is one of five regional winners in Texas, and with Miss Lucille Watson, Pecos County HD agent, will attend the regional award dinner on May 13 at Eagle Pass.

Pecos and Brewster County ranches of the Coxes have been developed into model spreads from rundown conditions and now are modern, electrified marvels of range production.

Mrs. Cox has completely redecorated their six bedroom, five bathroom home in the last year. She has repainted a large fence and continues to improve planting and beautifying her yard. She freezes foods from an irrigated orchard and garden, and stores it in three freezers.

President of the Pecos County HD Council, Mrs. Cox is a past president of the Ranch HD Club and is incoming president of the Sanderson Culture Club.

Mr. Cox, who received the Highland Hereford Conservation Rancher Award in 1954, has been a supervisor of the Big Bend SCS District since its organization. He has added five miles of wire spreaders on the ranch in the last year, seven miles of terracing, 500 acres of root plowing, has about 2,000 push-ups to divert water flow and has 15 dirt reservoirs and rock header tanks on the 25,000-acre ranch.

Mrs. Cox, grandmother of nine, finds time to work in the Methodist Church and for her hobbies of sewing and flower growing.

Their two sons and two daughters, with the exception of one son, Foster, still in high school, are graduates of Sul Ross College in Alpine.

Also attending from the Ranch Club were Mmes. A. C. Garner, F. G. Grigsby, H. E. Ezelle, A. J. Riess, Jack Hardgrave, and J. Garner, also Mrs. Mary Cox.

ment, on a 13-hour test through a 1-4-inch choke.

Location is 660 feet from the north and 1,830 feet from the east lines of section 5 in Block A2 of the TCRRL Survey.

The field opener in Pecos County, the same operators No. 1 Blackstone-Slaughter, was triply completed from the Ellenburger Connell sand, and Pennsylvanian detrital. The field also has one producer, the firms' No. 1A Blackstone-Slaughter, which produces only from the Pennsylvanian detrital.

Sinclair Oil & Gas Co. No. 1 Alma H. Poulter, in section 21 of Block 1, TCRRL Survey, Terrell County's dual Ellenburger and Wolfcamp discovery with is a 3-3-8 miles northwest extension of Ellenburger production in the Brown-Bassett Field, was continuing to test the Ellenburger through perforations between 14,252-384 feet.

Tested five hours through a 9-64-inch choke, it flowed 1.8 million cubic feet of gas per day; tested six hours through an 8-64-inch choke, it flowed 1.5 million cubic feet of gas per day; and tested nine hours through a 7-64-inch choke, it flowed 1.2 million cubic feet of gas per day.

During the 20 hours, it flowed 10 barrels of load oil and 10 barrels of acid water.

Wolfcamp perforations between 6,221-72 feet were shut in.

The Texas Crude Oil Co. and Superior Oil Co. No. 1-22 Allison, was last reported preparing to test the Pennsylvanian detrital through perforations between 10,300-345 feet. Operator washed through Strawn perforations between 10,251-54 feet with 500 barrels of mud acid and 10 barrels of oil and then recovered 260 barrels of load, plus 12 barrels of acid water. Then swabbed two hours, it started to flow. It flowed for 21 hours through a 24-64-inch choke making 130 barrels of load oil, 12 barrels of acid water and 11 barrels of water plus gas at the daily rate of 437,000 cubic feet. Tubing pressure was 150 pounds. Operator ran tubing to 10,164 feet.

On later tests at the Allison hole, the project made 168 barrels of load water with shows of oil and gas in 24 hours through Pennsylvanian detrital perforations between 10,300-345 feet. It then flowed 25 barrels of new oil and 52 barrels of water in 23 hours through a 24-64-inch choke and Strawn perforations between 10,251-54 feet. Gas flowed at the daily rate of 500,000 cubic feet.

Eagles Win 3-1 Over Alpine

The Sanderson Eagles won their third game from the Alpine Bucks this season with a 3-1 victory here Tuesday. The Eagles also won their game in Alpine last Friday.

Sanderson got two runs in the first frame and scored again in the fifth. Alpine made their lone tally in the second.

Eagles who saw action in the game were: Johnny Benevides at third base, Silverio Villegas at short stop, Buddie Joe Hahn and Jimmy Jones in center field; Larry Harrell, catcher; Alberto Escamilla at first base; Susano Munoz, Glenn Rowe, and Al Word at second base; Dee Gray and Bill Dunn in left field; Herman Fuentes and Sam Guadarrama in right field; Bill Stavley pitched four innings and Gilberto Martinez pitched the last three frames.

Last of the four-game series with Alpine will be played there today (Friday).

The Eagles will go to regional play in Andrews on Saturday, May 20.

State Capitol NEWS

Austin — Capitol hands are engaged in a legal and dead-serious type of "numbers game".

Object is to figure out how much money certain tax bills will bring in. Also what the legislature needs to round up in order to meet the state's obligations. Then, find out how much additional cash is necessary to foot all bills. Any number of persons can play this game, and a good many are. Looks like all Texans will be affected.

Gov. Price Daniel, who takes a dim view of the House-passed 2 per cent sales tax, said it would leave the state \$50,000,000 short of needed revenue. Rep. Charles Wilson of Trinity, sponsor of the sales tax, offered it as a means of raising \$127,000,000 a year.

Texas Research League, which has made a continuing study of state finances, estimated Wilson's bill would raise \$265,000,000 in the next two years, with \$22,000,

000 more coming in late because of a two-months lag in collection. This would take care of the general appropriations bill as passed by the Senate, says the League, leaving some \$106,000,000 to pay for teacher raises and medical care for persons on state welfare rolls.

Wilson has also put forward another tax bill that would repeal the corporation franchise tax and substitute a 4 1/2 per cent corporation income tax for a net gain of \$50,000,000 a year in state revenue.

Governor Daniel has proposed a new eight-point compromise plan designed to add \$73,316,000 to the general revenue fund over a two-year period.

His plan calls for (1) passage of the twice-defeated escheat bill, (2) doubling tuition at state colleges, (3) shifting the \$150,000,000 farm-to-market road spending from the general fund, (4) requiring county school superintendent expenses to be paid from local funds, (5) collecting \$3,000,000 from families able to pay for care of relatives in state hospitals and schools, (6) diverting one per cent (\$12,000,000) a year from the permanent school fund for current expenses and (7) revising or shifting several other school fund allocations.

House Passes Budget Bill

House passed a general appropriations bill calling for the spending of \$2,520,000,000 during the next two years.

House bill is about \$20,000,000 higher than the appropriations bill passed by the Senate in late March. It is about \$130,000,000 more than is provided for present two-year period.

One of the biggest increases would be for education, which would be boosted by \$36,000,000 a year under the House bill.

Other provisions by the House would allow: \$15 per month raises for state employees making less than \$200 a month; 40-hour work weeks for employees of the state hospitals and special schools; raises for State Liquor Control Board inspectors.

"University" Battles "University" has become a "fighting word" in the Senate, one that held up regular business for almost two weeks.

A determined group of Senators has opposed creating any more state-supported universities on grounds it will put Texas in the position of the "old woman who lived in the shoe".

Nevertheless, Sen. Tom Creighton of Mineral Wells obtained final passage of a bill that would change the name of North Texas State College to North Texas State University. Opponents scoffed at the prospect of having two universities in Denton (pop. 27,000). Other is Texas Women's University (formerly Texas State College for Women).

Sen. Robert Baker of Houston had more difficulty with his bill that would admit the University of Houston to the state college system. Senators Hubert Hudson, Wardlow Lane, Charles Herring, and W. T. Moore teamed up to "talk the bill to death".

Car Tax End Sought City and county property taxes on automobiles and trucks would

be abolished under a proposed constitutional amendment passed 102 to 35 by the House.

School district property taxes on vehicles would be retained.

Auto property taxes have been a source of considerable dissatisfaction since some cities and counties collect them and others don't bother. The sponsor of the plan said he would urge the Legislature also adopt a law requiring car owners to show a receipt for payment of school taxes as a requirement for getting license plates. Watson's proposed amendment also would authorize the Legislature to increase vehicle registration fees by one-third to create a fund for improving the county roads and city streets.

If passed by both Houses of the Legislature, the amendment would have to be voted on by the people.

Garnishment Approved

Another proposed constitutional amendment approved by the House would allow courts to garnishee (take over) 50 per cent of a father's salary for child support payments.

The sponsor said the measure would result in a lightened load for the State Welfare Department. Frequently, said supporters, fathers ignore court orders to pay child support, causing the children to become a public welfare problem.

Opponents called the measure too severe.

Election Code is Target

Changes in future balloting and candidate filing procedures continue to be a prime legislative topic.

One bill introduced would raise substantially the filing fees for legislative candidates in Dallas and Harris Counties. A senatorial candidate would have to pay \$1,000 and a House candidate, \$500, compared to the present \$100 for each.

Another bill would limit each political party to one poll watcher per precinct and require that the watcher be a resident of the precinct in which he keeps his vigil.

A bill that would allow voters to check the candidate they favored rather than scratching all others has been approved by the House committee and sent to the floor. Committee also approved a bill that would require that the

boxes containing ballot stubs be turned in after the election with unbroken seals.

Water Storage Rights Urged

Gov. Price Daniel has written President Kennedy urging his support for a pending congressional bill that would spell out the right of a public agency (such as the state) to buy permanent water storage space in reservoirs constructed by the Army Corps of Engineers.

Daniel pointed out that present Legislature has already approved a constitutional amendment that would authorize use of state funds to buy such water storage.

Clarifying legislation from a federal end, said the governor would clear the way for "federal state partnership in the field of water resources."

Listen To Luke - Continued from Page 1-

news and then it is picked up and handed to the world in cold black and white reading material. But it is the small town paper that keeps its finger on the pulse of the community and is a great check to certain unbalances.

There are lots of things that just seldom appear in print in a country weekly - such as the size shot in the shell in the chamber of certain shotguns kept handy by some people somewhere; nor do we publish all of the extra-curricular activities of all of the people we have ever heard about, because most everybody knows about all of that before we do. We don't publish all of the news letters and news releases we get from all of the "high officials" about what they are trying to give away and the impressions they are trying to make. But we do try to publish the news of the happenings of the county and area that is of interest and to the best interest of our readers and our chances of living a little longer, possibly.

But a screen will not be placed over any news where the public trust has been violated, or on any news item that we feel is for the best interest of the causes which we serve.

Del Rio Resident Dies Saturday

Funeral services were held in Del Rio Sunday afternoon for Mrs. Maude Campbell Smith, 85, who died suddenly early Saturday morning in her home in that city where she had resided for half a century.

She was born Sept. 3, 1876, in Bremond. On December 17, 1902, she was married to Lamar Smith. They moved to Del Rio in 1911 and he became a member of the law firm of Boggess and Smith. He died in 1923.

Survivors include two sons, Gordon and Douglas Smith, a daughter, Mrs. Doyal S. Summitt, a grandson and a granddaughter, all of Del Rio.

Mr. and Mrs. Y. F. Bowley Sr. of Lubbock are visiting here with their son, Y. F. Bowley Jr., and family.

Rotary Fellowship Available to Grads

A year of study abroad as a Rotary Foundation Fellow is the exciting possibility for a student of Sanderson, E. J. Hanson, president of the Rotary Club announced this week. Applications for the fellowship, which includes all transportation, education and living expenses for the 1962-63 academic year are now being accepted.

Applications through the local Rotary Club are available only to residents of Terrell County.

They must be a college or university junior or senior or graduate, between the ages of 20-28 and have a thorough knowledge of the language of the country in which they propose to study. Also applicants must have the ability to make friends, be vitally interested in world affairs, and possess an instinct for leadership.

Retires After Accident

G. W. Seamands of San Antonio was here Friday to get his personal effects. He has a stiff knee after an accident here several months ago in which he fractured his left leg and will take disability retirement on June 28, after 45 years of service with the T&N Railroad. He was a passenger brakeman between San Antonio and Sanderson.

Shrubs Planted At New School

Shrubs have been planted near the entrance of the new elementary school in the first greenery landscaping done there since the building was finished last fall.

The Sanderson Garden Club planned the landscaping and selected the various plants. The school purchased the items and paid for the expense of the planting.

Some additional work is planned for further beautification and will be accomplished at an opportune time.

A son, their first child, was born in an El Paso hospital on Thursday, April 27, to Mr. and Mrs. Dennis McQuade of that city. Mrs. Chester Boyd of El Paso is the paternal grandmother. The baby, weighing six pounds and 15 ounces, was named Dennis Clay.

Young Set Has Dance Friday Night

A large crowd of the local high school set and several out-of-town young people were invited to a dance Friday evening in the Magnolia Ballroom, the Sudduth Bldg., honoring some of the graduates of the Sanderson High School.

Music was furnished by an orchestra from Odessa. Punch and cookies were served during the evening.

Miss Melinda Gilbreath, president of the senior class, and her escort, Bart Pate, of Alpine, led the grand march.

After the dance, Mmes. A. J. Hahn, Weidon Cox, and C. H. Stavley were hostess for a chip and dip party in the back yard at the Stavley home - naming Misses Diane Brown, Melinda Gilbreath, Susan Harkins, Joan Wood, Bill Dunn, and Bobby Littleton as honorees.

TELEPHONE TALK by Matt Butschek, Manager

TELEPHONES OF THE FUTURE The other day I was having lunch with some friends and got to talking about how much the telephone has changed in the last few years. We talked about the development of color phones, wall phones and the latest one - the Princess, the first compact phone.

This conversation reminded me of some of the ideas for new kinds of telephones and communications services we're working on now. Some of these ideas will never leave the drawing board. Others will fall by the wayside during the test stage. And some, of course, will be successful - one will eventually be available for your use.

For instance, there's the "dial-in-hand" phone. It has the dial in the receiver. You life the receiver, hold it in your hand and dial. The dial lights up when you life the receiver, too.

Or, how about the picturephone? This telephone of the future will transmit pictures as well as sound, so people will be able to see each other as they talk on the phone. The picture phone has been successfully tested, but it will be quite a while before it is available for widespread public use.

But here's a new phone you may have in the not-too-distant future. It's a small new wall phone called the Slimphone. The Slimphone is trim, not much wider than a Princess phone. It should come in handy for the kitchen and other rooms because it doesn't take up much space.

These are just a few - a sampling - of new kinds of telephones and telephone services we're working on for the future. But even today we enjoy telephone services most of us never dreamed possible just 10 years ago.

Like to work riddles? Here's one that ought to be easy. What is it that's found in almost every home, store, business office, church, school, and public building? It helps you find things, people and services. It's ready to help you any time - night or day - every day of the week.

I'd be mighty surprised if you didn't know it was the Yellow Pages of your telephone directory. Studies show that nine out of ten people reach for the Yellow Page directory when they're ready to buy. How about you?

SQUIRRELS LOSE, CUSTOMERS WIN For some unknown reason, squirrels like to gnaw on telephone cables. Their chewing puts holes in the cable's outer covering and lets moisture get inside. This, in turn, interferes with your telephone service.

To protect phone cables, we cover them with metal shields or wrap them with steel tape. We are also experimenting with a fiberglass coating which is painted on the cables.

The squirrels don't like this, but it keeps our cables from being damaged and helps keep your telephone service dependable.

Call by number. It's twice as fast. SOUTHWESTERN BELL TELEPHONE COMPANY
