Mrs. Willie Siler Is New H-D Agent

Mrs. Willie Siler

Mrs. Willie Siler of Fort Stockton has been appointed Pecos County Home Demonstration Agent. Mrs. Siler, until recently, was teacher in an elementary school in that city. Her husband is a math teacher in the high school.

Mrs. Siler received a B.S. Degree in Home Economics from Baylor University in 1955. She served as home economist for the Central Power and Light Co. and as assistant County Home Demonstration Agent for Eastland County before moving to Fort Stockton. She has been agent-in-training in Andrews and Crane Counties for the past eight weeks.

Mrs. E. H. Jessup, president, and Mrs. C. F. Cox went to Fort Stockton last week and made plans for Mrs. Siler to meet with the Ranch Home Club Demonstration Club in October.

15-Year Sentence Given Raul Flores In Murder Charge

A finding of guilty and a 15-year sentence were assessed by the jury which heard the trial last week in which Raul Flores was charged with murder.

A special venire of 100 names was depleted before a complete jury was picked and it was necessary to call another 15 talemens to complete the jury.

Testimony began Tuesday afternoon about 3:00 o'clock and the jury got the case for deliberation about noon Friday. They returned their verdict at about 7:30 p.m.

The trial grew out of an indictment by the grand jury charging Raul Flores with murder with malice. The murder occurred the night before the scheduled meeting of the grand jury.

The victim of the murder, Mrs. Flora Chalambaga, 45, was the mother-in-law of Flores. She was shot in the abdomen with a 22-calibre pistol about 9:00 p.m. Thursday, March 8, 1962. The shooting occurred at the home of the deceased.

Mrs. Chalambaga died within minutes following the shooting as a result of internal hemorrhaging.

District Judge Roger Thurmond presided during the proceedings. Flores was represented by Brian Montague and George Thurmond of Del Rio and prosecution was by District Attorney Douglas A. Newton and special prosecutor Hart Johnson of Fort Stockton.

School Enrollment Same As Last Year

Enrollment in the schools of Terrell County this year is exactly the same as that of the last school year, according to figures released by Supt. H. L. Richardson this week.

The total enrollment is 581 students.

In the elementary grades, the enrollment is: 1st, 67; 2nd 55; 3rd, 55; 4th, 52; 5th, 50, for a total of 279. In the junior high school, the figures are: 6th, 53; 7th, 58; 8th, 44; for a total of 155.

The high school enrollment is 147 as the breakdown is as follows: 9th, 46; 10th, 52; 11th, 27; 12th, 22.

The managers are Butch Jones, John Sutherland, and Buddy Moore.

Cheerleaders this year are Suzanne Couch, Linda Babb, Beula Winn, Johnnie Winn, and Teresa Postas.

Suzanne Downie is the drum major and twirlers are Elizabeth Felts, Pam Stavley, Pixie Mansfield, Jody Tronson.

Harry Gipson is director of the band and the group has been practicing since prior to the opening of school and promise a good half-time show as well as furnishing music during the game and a background for the excitement and thrill of a football game.

Third Typhoid Case Is Hospitalized

A third typhoid case was hospitalized in Alpine this week, according to Dr. C. H. Spencer, county health officer.

Dr. Spencer had the following statement concerning typhoid fever: "To date, September 9th, there have appeared 3 cases of typhoid fever in Sanderson, all in different households. The source of the disease has not been determined. This is extremely difficult to pinpoint; the epidemiologist from Austin from the State Department of Public Health has been here but has not notified us of any findings yet.

"The only real defense we have is immunization against the disease," he continued, "and this is not guaranteed 100 per cent effective . . . but it is the best there is. This being a free country, there is nothing compulsory about the vaccine . . . one does it by free will and the desire for protection against a dread disease. Please be assured that wishful thinking imparts no immunity."

"Immunizations will continue to be available to anyone who wishes them during regular office hours only (no more Sunday clinics unless the outbreak becomes worse).

"Individual households can take some step to help prevent the spread of typhoid by careful sanitary habits in washing hands after toilet visits, thorough cleansing of cooking-eating containers, control of insects (especially the housefly), screening of homes and any outhouses to prevent fly contacts, and use of lime in and around the disposal pits. A specific point to realize is this: if a 'carrier' of typhoid uses a disposal pit which is not covered or screened, a fly can visit the pit and then carry the germ to the food in the house."

Dr. Spencer added that "we have an ample supply on hand of stool specimen bottles which should be used by all people employed in restaurants, the handling of food, etc., and all people who have had typhoid fever to determine if they are carriers."

Dr. Spencer expressed his gratitude and in behalf of the community to all who volunteered to work and helped to make the clinics run rapidly and smoothly.

Scattered Showers Continue in Area

Scattered showers have continued to fall in this general area, mostly to the north, west, and southwest.

Monday afternoon showers fell north of Sanderson in the region of Big Hill, 10 miles out on the Fort Stockton highway, and on Sunday afternoon showers also hit the same area.

Some of the rangeland in the regions that have gotten intermittent showers are said to be in as good condition as ever in the last two decades.

In other parts of the county, where the rains have not fallen, little remaining weeds or feed has burned and feeding has begun by several ranchmen of the county.

Gathering clouds late each afternoon continue to tease the dry and parched area including Sanderson and central Terrell County and south to the river.

Harry Creps Dies

Harry Creps, well-known by local railroad men, died at his home in Austin Saturday. A former roundhouse foreman at Valentine, he had taken his retirement several years ago.

Suspect Returned In Burglary Case

A suspect in the burglary of The Kerr Mercantile Co. last week is being returned to Sanderson by Sheriff Bill C. Cooksey and Texas Ranger Forest G. Hardin.

The suspect was apprehended in Atlanta, Ga., after a description of the suspect was broadcast to Louisiana and other Southern states.

The burglary occurred on Wednesday night, August 28, at the local mercantile store. Entrance was gained through a window in the ladies rest room and Edward Kerr, manager of the business, stated that money, articles of clothing, a suitcase, watches, and other small items were taken from the store.

The burglar left his old clothing in the room where he had dressed in the new clothes, according to officers.

Employees at a local truck stop told officers the next morning that a man wearing new clothing had caught a ride on an east-bound truck, thus giving officers a lead to the apprehension of the suspect.

New Faculty Members Noted

Supt. of Schools H. L. Richardson this week released the names of the new faculty members in the county's school system.

Besides F. H. Goodyear, junior high school principal, who has already been introduced to the readers of The Times, they include: Aaron Cranford, junior high school coach, science and physical education teacher; Donald Carper, B-team coach, junior high social studies, and high school girls' basketball coach; Jack Harris, junior high school mathematics teacher; Miss Ella Alexander, 1st grade; Mrs. C. H. Spencer, 2nd grade; Mrs. M. H. Stroup, 1st grade; Miss Carol Horton, social studies in high school; Miss Janet Winn, business teacher.

Parking Rules At Football Field Are Changed

The rules for parking cars at the football field have been changed, according to Supt. H. L. Richardson.

All parking spaces immediately adjacent to the playing field are reserved on a season basis and no change has been made in this policy this year.

Parking behind the end zones reserved parking will not be permitted to make room for driving.

Cars may park north of the dump north of the field, in a cleared area at no cost. This project, initiated by the Football Boosters, was abandoned as a money-making project and it was decided to make the space available for parking free of any charge. Supt. Richardson said that parking lanes would be marked as soon as possible in the newly-cleared area.

Entrance may be gained to this area by the lane east of the W. E. Stirman home.

SHS Classes Name Officers

The classes of Sanderson High School elected their officers this week, according to Principal A. J. Riess. They include:

Freshmen — Beverly Farley, president; Judy Riggs, vice-president; Virginia Garcia, secretary; treasurer, Ernie Ayers, reporter, Lucilla Galvan.

Sophomores — Lydia Munoz, president; Travis Harkins, vice-president; Suzanne Downie, secretary; Carla Dunn, treasurer; Pam Stavley, reporter.

Juniors — Eloise Farley, president; John Cates, vice-president; Irma Galvan, secretary; Barbara Shoemaker, treasurer; Rita Flores, reporter.

Seniors — Bobby Hatchel, president; Abelardo Casillas, vice-president; Arabella Lopez, secretary; John Ed Robbins, treasurer; Linda Babb, reporter.

Mrs. Don Ratliff and daughter left Friday for Midland to be with her parents for several weeks. Mr. Ratliff took his family to Midland.

LISTEN TO LUKE

Friday night is the first game of the current football season for Sanderson and they will meet their old foe — the Alpine Bucks in a non-conference game.

Marfa won over the Bucks last week by 6-0 and next weekend the Eagles will host Marfa so the game this Friday night will give us a kind of a preview of the game to follow next week.

We have been led to believe erroneously or not — that Alpine does not have one of the strongest teams in their Class AA district. But this should not be misleading to anyone in trying to guess the outcome of the game Friday night because Sanderson is rated next to the bottom in this district by the coaches of the district.

Now this is not intended to ridicule either of the two teams. We did not make either of the relative standings — we are only quoting the outcome of the opinions expressed by the men who should know the most about our teams.

And this is not the first time that Sanderson and Alpine have had such positions.

We only relate the above facts to say that by some standards, there is a chance that the game Friday night will be a good one and that Sanderson, while playing in a higher class, will not be completely outclassed.

Sanderson and Alpine have long been grid rivals and few Sanderson fans will forget the "bumpings at the hands of their big brothers" from Alpine. The wild scoring spree which was permitted to the glory of Baker Turner several years ago.

There is little chance that an opposite return engagement can take place, since Alpine has the enrollment and potential edge over the Eagles.

If our local boys can go on the field and make a good showing for themselves, can come out of the game without serious injuries, and earn the respect of the opponents, the fans, and their schoolmates, then — in our humble opinion — they will have played a good game.

In most all of the talks by great sportsmen that we have heard, they always liken their game to the game of life — and we could not disagree with this philosophy.

Our zeal should be to win, but not at any cost, and particularly the cost of one's self-respect, one's honor, or the respect of others.

We think that politicians of the nation are losing a bet — they should be promoting the use of abandoned and unused bomb shelters as grain storage bins and spread the pork around a little bit.

Isn't it odd how the furor of the necessity of the bomb shelters died out all of a sudden? It was such a necessity only a few months ago, and now there is no more harping on the subject at all.

It appears that the repeal of the poll tax law in Texas is imminent and certain.

We have now and have had and will continue to have some reservations about the wisdom of the action.

There are those who would be willing to use the privileges of the law for their own personal and political gain. And we are afraid of people who use other people to their own advantage.

There are certain conditions of the present law that makes it a little more difficult to go out and round up and control a bloc of votes. But, we feel that the repeal of the poll tax law will make this possible.

Under the guise of "exercising your privileges" some disastrous and vicious acts have been

HIGHLIGHTS

Austin — Now in effect is a new compulsory school attendance law which requires school children, ages seven to 16, to go to school 165 days out of each 175-day school year.

Before the 58th Legislature passed this law, the minimum attendance requirement was 120 days. This left a wide margin for truancy — especially by children of migrant farm workers who are on the move two to four months out of the year.

Laxity of compulsory attendance laws has been cited as one reason for the high rate of illiteracy among Latin Americans. Texas' rate of illiteracy is high for all races. It has been estimated that almost 10 per cent of the state's population is functionally illiterate.

A recent U.S. census survey showed that the average school child in Texas, with a Spanish surname, did not go past the fourth grade. Average Anglo finished the 10th grade and the average Negro completed the 8th.

It will be up to the individual school districts to see that chil-

dren attend school 165 days a year, according to Leon Graham, deputy commissioner of the Texas Education Agency. However, the main responsibility lies with the parents. If a school officer warns the parents of a truant child, they are subject to a fine of \$5 for the next day he fails to attend school; \$10 for the second offense, after a warning, and \$25 for each subsequent offense.

Graham said it is no problem for a migrant parent to enroll his child in any school. No formal transfer is required. "Our schools are here to serve the children of Texas," he said. "All they have to do is say, 'Here I am.'"

Screwworm Program Praised

Dr. E. F. Knippling — known as the "father of the screwworm eradication program" — addressed Southwest Animal Health Research Foundation trustees at their annual meeting in Austin and praised the progress of their eradication campaign. But he cautioned them against complacency.

Knippling reported that in August, only 81 screwworm cases were reported in Texas, compared to 5,088 in August 1962. But a large percentage of the 81 were in the Trans-Pecos area.

Animal health officials feel the Trans-Pecos area is the direct result of screwworm flies migrating from Mexico. Mexico's northern border has been the target of sterile fly drops for several months now. But newly-gained knowledge that the fly can travel about 180 miles on his own volition is worrying the officials.

Knippling said, "We must intensify our survey efforts to find where fly drops will be most effective; then widen the barrier to prevent infestation."

Fall Rains Pose Problem

Charlie Scruggs of Dallas, president of the Southwest Animal Health Research Foundation said his group is beginning to worry about a growing rate of screwworm infestation when fall rains come.

Cool weather and dampness usually associated with early fall, may couple with shearing and calving wounds to foster screwworms if livestock producers don't take precautions. He said an 'informational campaign' will be launched soon.

New Officers

Dolph Briscoe of Uvalde is the new president of SWAHRF. The young rancher just completed a term as president of the Texas and Southwestern Cattle Raisers Association, before he took the animal health post.

New vice-president is Joe Lane of Alpine. T. J. Richards of Paducah is secretary-treasurer.

Educators Meeting Set

Texas Association of School Administrators and Texas Association of School Boards will hold a joint meeting in Austin on September 22 and 23 to hear talks on education in the Space Age. They will hold seminars on School dropouts, the migrant pupil, religion and the schools, teaching Americanism - versus communism, and textbook selection in Texas.

Poll Tax Repeal

Campaign for repeal of the poll tax as a requirement for voting was launched by the Texas League of Women Voters, with Gov. John Connally and Vice President Lyndon Johnson giving their support to the movement.

On November 9 Texans will vote on a constitutional amendment to remove the 60-year-old requirement that you pay a poll tax to vote. Texas voting will be under the shadow of a proposed U. S. constitutional amendment outlawing taxes on the right to vote in election of Federal officials. Legislatures of 36 states have already ratified this amendment, and when two more approve, it will go into effect.

Texas Legislature provided

THREE SHEETS TO THE WASTE?

NO WONDER WE HAVE BIG BUDGETS

The study that shows that private American shipyards can construct new ships at 33 per cent less than U.S. Navy yards comes as no surprise to those oriented to the extravagances in which the federal government indulges itself.

But we sincerely hope that the fact that the disclosure has a familiar ring will not deter the Congress from taking prompt remedial action since billions of taxpayers' dollars are involved.

The conclusions of the study appear to be beyond dispute since it was based on an earlier study made, embarrassingly enough, for the Navy itself by a firm of private accountants.

The Shipbuilders Council of America—an organization of private shipyards—which issued the second study said that its analysis private yards compared of the cost of construction of naval ships in with those for similar work in government-owned yards disclosed that the private yards did the work for one-third less; that is \$1.3 billion had been saved to taxpayers in this way since 1953.

The Council asserted that another 1.4 billion could have been cut from expenditures if the work done in Navy yards during the same period had been performed in private yards.

We take no pleasure in drawing attention to the proverbial loose spending proclivities of the tipsy sailor but the evidence in this case does seem to make it analogous.

Texas a "do it yourself first" route by submitting the proposed amendment to the Texas constitution at the November 9 election. There is no chance for the U.S. amendment to go into effect until after that date.

Tourists

Texas' first formal effort to

attract tourists will get under way now that Governor Connally has appointed the seven men to head the new Texas Tourist Development Agency.

Interestingly enough, most of the seven are natives of other states, indicating that Connally felt they would know best how

to bring other Americans into Texas.

Aging

State Senator Walter H. Richter of Gonzales was named by Governor Connally to head the Governor's Committee on Aging. Secretary of State Crawford Martin headed this committee while he was in the Texas Senate. Many of its recommendations have become law, but Connally said much remains to be done.

On his list of assignments the governor suggested work to remove from state mental hospitals about 2,100 persons over 65 who are senile, but not really mentally ill. Many feel they have been sent to mental hospitals simply because there was no other place for them to go. Effort will be made to transfer them to nursing homes.

Because people are longer, the number of Texas over 65 increased 45 per cent between 1950 and 1960. Population increased only 24 per cent.

BEER IS A NATURAL

As natural as the wholesome grains and tangy hops from which it is brewed, beer is Texas' traditional beverage of moderation—light, sparkling, delicious.

And naturally, the Brewing Industry is proud of the good living it provides for so many folks in Texas. Not only for employees of the Brewing Industry itself, but also for the farmers and other suppliers of beer's natural ingredients. In Texas, beer belongs—enjoy it.

UNITED STATES BREWERS ASSOCIATION, INC. TEXAS DIVISION

Miss Paula Hanson returned to Texas Tech College in Lubbock for "rush week" activities. Mr. and Mrs. J. L. Hatchel will take their daughter, Kay, to El Paso Sunday and she will enter a hospital to have her cast removed and be fitted with a temporary brace.

After having orthopedic surgery for a spinal fusion, Kay has been confined to her bed for 14 weeks in a cast. It is hoped that she will regain her strength in time to enter school the first of October.

Mrs. Kathleen Hollmer of Ozona, who taught here last year in the elementary school, is teaching in the Nueces Canyon Elementary School at Camp Wood.

John Sutherland is here with his father, Robert Sutherland, for the current term of school. He is a senior in high school.

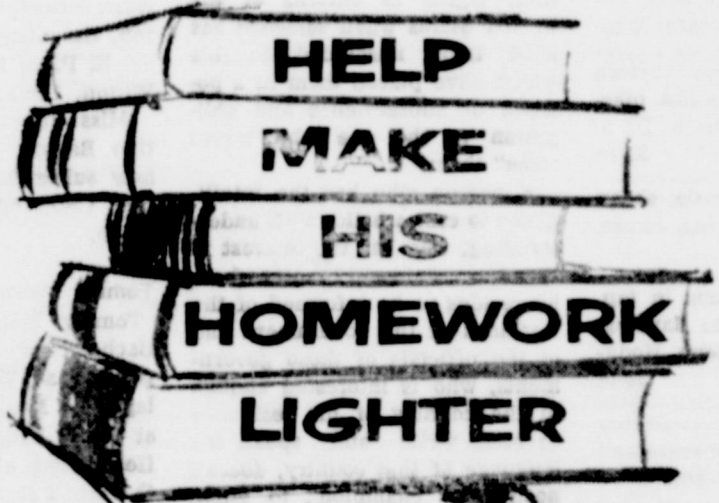

Miss Kathleen Robbins is visiting relatives and friends in El Paso.

Susano Munoz left Sunday morning for Kingsville for his son, Susano Munoz Jr., to enroll at Texas A&I for his freshman year. He returned home that night.

CONTAIN THE LITTERBUGS!

We dislike having to bring it up but this country seems to be losing an important battle—the fight to control the litterbug.

Despite the fact that \$50 million has to be spent annually just to remove litter from our highways; that trash piles caused many deaths and hundreds of millions of damages in fires and that litter creates a breeding ground for disease, the litterbugs are still very much with us and show no signs of mending their careless ways.

Remember that the occasional litterbug is quite as bad as the confirmed one. You may think that it's of no consequence to toss a candy wrapper from a speeding car, but just ponder a moment on the size of the pile that would result if each of the cars in the immediate vicinity contributed but one item of trash to it.

This is one case where the molehill would actually become a mountain in short order.

We can, and should, make America a glittering nation by stopping littering.

instituted and some people have gained a place that commands influence because of their use of misguided people under a law that is intended to prevent such things.

People are not free and are not oppressed and do not have their rights as citizens of the United States when someone has used their misguided thoughts which have placed them in a position of subservience and obligation to the one who would "free" them.

A person who has the intelligence to cast a ballot with understanding, who has the interest in the town, state and country where he resides to be informed of the workings of the government and of the officials of those governments, who is interested enough in the country of his residence to read, write and speak the language of that country, doesn't need any "champion" to guide his every move through the maze of every-day life.

There are those who have already started the cry in Texas: "Let me lead you out of this wilderness. We will end your oppression. You are great in numbers, you should be all-powerful in government."

Only when people listen to such talk as that do they really need guidance, to be led out of their oppression, and the need of control. But not the kind offered by those "benefactors" who are looking to that element of people for their support.

New Superintendent For Big Bend Park

Washington—Perry E. Brown, 56, a veteran employee of the National Park Service, has been appointed superintendent of Big Bend National Park, the Interior Department announced on Friday of last week.

Brown, who currently heads Mammoth Cave National Park, Ky., replaces Stanley C. Joseph, who has been switched to the Everglades National Park, Fla., the Department said.

The new Big Bend chief entered the park service in 1927 as a ranger in Yosemite National Park, Calif. He served subsequently at Grand Canyon National Park, Ariz., Mesa Verde National Park, Colo., and Platt National Park, Okla.

He has headed Mammoth Cave since 1954.

Florida-bound Joseph has been superintendent of Big Bend since 1960.

Mr. and Mrs. T. J. Stewart went to El Paso Monday and she underwent major surgery Wednesday morning.

Pay Raise Due Some Recipients Of Social Security

People who work after applying for social security old age benefits may often qualify for higher benefits because of their additional work. If you have earned over \$1200 in any year since retirement, there is a possibility that your check can be increased. Anyone who became entitled to social security old age benefits before 1959, and who has earned \$4,800 a year since that time can definitely get a raise.

To have your benefit amount re-computed, you must apply for the increase. You may also need proof of your income. If you work for someone else, your Form W-2 (Withholding Tax Statement) will be proof. If you are self-employed, your federal income tax return, Schedule C (Schedule F if a farmer), and a cancelled check or money order stub as proof of tax paid will be needed.

A brief visit to your social security office will help you determine whether or not your benefit can be increased. The office in Odessa is located at 1428 East 8th, and is opened from 8:45 a.m. to 5:00 p.m. Monday through Friday.

Mrs. Ezelle and Mrs. Hope, hostesses, served cake, iced tea and coffee.

Rotarians, Lions Entertain Faculty

The Sanderson Rotary and Lions Clubs were hosts to a barbecue supper to honor the members of the faculty last Thursday evening on the slab at the Legion Hall.

Families of the clubs' members and the families of the faculty were invited guests.

Tables and chairs were arranged there for the serving of the supper. About 140 attended.

Brief remarks were made by H. E. Ezelle, Lions Club president, and Bill C. Cooksey, president of the Rotary Club.

After Supt. H. L. Richardson had been introduced, he introduced his principals, who in turn introduced the teachers with the teachers introducing their wives or husbands. The club members also introduced their wives.
