LISTEN TO LUKE

January 30 is the last day you can pay your poll tax and still be able to vote in the election. It is the turn of the water board election, it appears that few people will spend their money to pay a poll tax when the privilege would not be used anyway. It is not to have it long!

There has been a rash of dog poisoning during the last few weeks and it has happened under unusual circumstances.

The first episode left two large dogs lying about 75 yards apart in a local residential area. The second episode left four dogs in a yard that was about 100 yards between the dogs of the first episode.

There was a female dog at the end of the yard and she and two other pups were three of the four killed by the poison. So it was the poison was put out in the yard where the dogs were dead, and logic also says it must have been pretty poisonous.

There are two children living in the house where the dogs were and there are small children on the street, there is a small child behind that house, and a child next door.

It doesn't take a lot of logic to see that this is a dangerous situation.

We will agree that there are a lot of stray dogs around town, we will agree that sometimes other people's pet are a nuisance, and we will agree that a large number of dogs around a town is really a nuisance. All we know that dogs take their place among the livestock of surrounding ranches, and this is not a bad thing.

And we all know that putting a dog in someone else's yard is dangerous to the children and the person putting it out. There are two things we feel sure of — We want that person putting out a dog in yards would want to be doing it, and we doubt if you would want someone putting poison in your yard.

We have deep feeling of sorrow over the passing of life from the truly great statesmen and leaders of this age — Sir Winston Churchill.

There was a man with great foresight, great dreams, and a great ability to see them through. And it seems strange that he is not here today.

Poll Tax Sales Are Only 182

Only 182 poll taxes have been sold to date in Terrell County, according to Mrs. Tol Murrah, deputy tax collector. Since January 31 falls on Sunday, Saturday, January 30, is the last day for issuing poll taxes.

In this county anyone may vote without an exemption certificate after passing their 60th birthday. An exemption certificate is necessary for those who will be permitted to vote free this year upon reaching their 21st birthday, according to information available.

Elections slated for this poll tax year are the election of two school board members in April, J. A. Mansfield and R. L. Norred's terms expire; and the water board election in January. Greene Cooke, M. W. Duncan, and Jimmy Caroline's terms expire.

There is also the possibility of the redistricting in Texas may bring further elections, as well as some election that could be called during the year.

Legion Raps Closing Of VA Facilities

The Veterans Administration's disclosure Monday that it will close two regional offices and one hospital in Texas, comes as a shock to the American Legion, according to Department Commander Lewis W. Emerich of Houston.

Under the plan the VA offices in Lubbock and San Antonio and the McKinney Hospital will be closed, effective June 30.

"The American Legion is in favor of economy in government," said Emerich, "but such economy at the expense of sick and disabled veterans, as well as cutting services for elderly widows and orphans of the nation's war dead is unthinkable. To me, this is totally inconsistent with the President's program of total war on poverty. In fact most of the veterans who use the McKinney hospital fit the test rule being applied by the President to determine those in poverty."

"As commander of the American Legion in Texas, I am lodging a most vigorous protest to the President, to the VA and to members of Congress," Emerich said.

At its state convention in San Antonio last year, the Legion adopted a resolution asking for additional beds in the McKinney Hospital due to the long waiting lists. More beds are needed, not less. These patients cannot be transferred to the Dallas VA Hospital, for they are already extremely overcrowded with a long waiting list. Closing of McKinney will cost the north Texas area 312 sorely needed beds, and will further tax the facilities at Dallas.

The American Legion fails to see how money can be saved in consolidating the San Antonio VA office with Houston and the Lubbock office with Waco, Emerich added. "Does the VA realize how far it is from Amarillo or El Paso to Waco? The extra cost to the government in travel and per diem would offset any savings realized by putting employees out of work."

The closing of these facilities will eliminate jobs for about 600 trained people. These will be thrown into the labor market, thus increasing unemployment. According to the commander, it is imperative that all members of the Legion, its Auxiliary, as well as all veterans and their dependents, lodge strong protests to the President and to members of Congress.

Mrs. Dorothy Cunningham of Sheffield was a business visitor here Monday.

In the "A" game, Pam Stavley scored 14 points and Pixie Mansfield scored 11 points to pace the Eaglettes "A" team to the win by 39-31.

Thursday night of this week, the Eaglettes will go to Ozona and meet the girls there in a make-up district game, cancelled because of road conditions.

The boys will play in the Ozona tournament this weekend. Tuesday night of next week, the girls will host the McCamey girls in an "A" and "B" game.

March of Dimes By Mothers To Be Jan. 25, Feb. 1

At least half of the beds in the children hospitals of America are occupied by birth defect victims, Mrs. H. E. Ezelle, chairman of the Mothers March said this week.

The massive health emergency posed by the birth of 250,000 defective infants in this country each year will never be met until people realize that birth defects are shocking realities instead of pretending that they do not exist, Mrs. Ezelle said.

"This tragic toll of needless death and wasteful disability will rise unless the public takes action against this problem," she declared.

Among these realities to which so many citizens shut their minds, she declared, are innocent children born with open spines, swollen skulls, missing limbs, facial disfigurements, and perhaps worst of all, sound bodies harboring retarded minds.

The results of widespread failure to recognize that these conditions are real and that something can be done about them are twofold, asserted Mrs. Ezelle. The public does not provide the necessary support to bring the full resources of medicine into the fight against birth defects.

It was pointed out that since the entrance of the March of Dimes into the largely neglected field of birth defects in 1958, significant forward strides have been taken in both research and treatment.

She cited the financing by the March of Dimes of 50 treatment centers where birth defect children can, in one medical institution, receive the attention of up to a dozen specialists, trained to detect and treat the multiple problems common to birth defects.

Anyone who is not contacted next week when the Mothers March of Dimes will be made in Sanderson is requested to leave their porch lights on the evening of Monday, February 1, in order that some of the solicitors may pick up the contribution.

Mrs. Ray Hernandez invited the workers who will assist her as co-chairman of the Mothers March to her home Monday evening for plans and instructions concerning the project.

Mrs. H. E. Ezelle, chairman, was the guest speaker.

Punch and cookies were served during a social period.

Those attending were Misses Rita Fuentes, Mary Silvas, Francis Bustos, Antonia Cardenas, and Mesdames Amelia Marquez, Marta Benavidez, Henry Saenz, Carmen Fuentes, Juana Garcia, Eulimio Rodriguez, Juan Salazar, Rosa Rivera, Alberto Escamilla, Emma Garcia, Cueva Ramirez, and Santiago Flores.

Big Lake Boys Clip Eagles Here

The Reagan County Owls from Big Lake were in Sanderson on Tuesday night for two ball games and won both handily.

In the "B" team game, Big Lake won 78-24. Charlie Garza made eight points for high-scoring honors. Other players included Milton Hope, Andrew Riess, Steve Harkins, Randy Brown, Eric Cooksey, Ernie Ayres, Pete Vasquez, Tommy Hayre, Danny Hodgkins, Don Deaton, Ray Marquez, Milton Lemons, and Monty Harkins.

In the "A" game, Big Lake jumped out to a 15-5 lead which was lengthened 29-11 at the half and expanded to 73-34 at the end of the game.

Travis Harkins had nine points to lead the scoring for Sanderson. Other players included Tommy Weigand, John Cates, David Hardgrave, Tommy Weigand, Jack Proctor, Butch Jones, Rudy Arredondo, and Wally Welch.

Man Returned From Florida On Car Theft Charge

John McArthur was returned to Sanderson last week by Deputy Sheriff Dalton Hogg and Texas Ranger Forest G. Hardin. He had been arrested in Florida on a warrant charging theft of a pickup truck belonging to A. L. Minica of Sanderson.

McArthur waived examining trial before Justice of Peace J. A. Giffbreath who set bond at \$1,000. The grand jury is expected to meet in February and will hear the evidence at that time.

McArthur is being held in the local jail in lieu of the bond.

Sheriff Bill C. Cooksey stated that the pickup truck had been abandoned in Lordsburg, N.M., and he went there the first of the week with Minica and attended to other business en route home.

and Barnes expressed confidence the Legislature can complete its work in 140 days. But some lawmakers weren't so sure.

Betting Bill Shown
The battle over whether Texans are going to bet on horse racing has begun again. This time Rep. Maurice Pipkin of Brownsville is introducing the race track bill. Last session Rep. V. E. (Red) Berry of San Antonio couldn't get it through the Legislature.

Pipkin's bill would allow both thoroughbred and Quarter Horse racing on licensed tracks. Also, the city, county, and state could collect taxes from the track operators. Before a track could be licensed in a county, voters in that county would have to call and approve a referendum.

The bill is backed by Texas Racing Association, which has raised more than \$150,000 from some of the most prominent men

in Texas ranching and business. Opposing the association will be a group of businessmen being organized by the Texas Council of Churches and the Texas Baptist General Convention.

Pipkin said the state would get \$20,000,000 a year from a sliding tax of from four to six per cent on all bets and that the state would get millions more from increased tourism. One of the first men to speak in opposition, Rep. J. C. Whitfield of Houston, said, "The plain facts are that legalized racing and gambling not only damage the moral fabric of our people, but that the revenues they bring in are more than offset by losses in other more legitimate fields of commerce."

Liquor Bill Introduced
A Texas Restaurant Association bill which would make legal the selling of two-ounce bottles of liquor in licensed restaurants has been introduced.

Sen. Jim Bates of Edinburg is

handling it in the Senate and Rep. Willis J. Whatley is in charge of it in the House.

The bill would permit customers to fix their own drinks from the small bottles of liquor. This would go part of the way for those who like to buy their liquor by the drink. Church groups and others will oppose it.

Redistricting Plans Seen
A committee of the Texas Legislative Council, which is made up of representatives from both houses of the legislature, has prepared two plans for congressional redistricting.

According to a Houston federal court order, the Legislature must redraw the present 23 districts so their populations will vary no more than five per cent from the mathematical average of 416,508 and they must do the job by August 1.

Both plans would give South Texas a new congressman. They would have a district from La

redo to San Antonio and from Del Rio to Zapata.

Also, both plans would put parts of Dallas, Tarrant and Bexar Counties with other counties to equalize district populations. This reshuffling would require some current congressmen to run against each other if they want to be elected in 1968.

Some legislators said they liked the plans but many said they did not like them and that they expect plans by individual members to be proposed as soon as introduction of bills begins.

Tax Revision Recommended
Texas Commission on State and local tax policy has suggested methods of obtaining \$15,300,000 in new state revenue (per biennium) through a variety of tax revisions.

Commission said making sales tax applicable to telephone and

telegraph service and other utility tax changes would pick \$11,200,000, modernizing the inheritance tax, \$6,000,000; and removal of the sales tax exemption on farm machinery, \$9,000,000.

But not all the commission recommendations would come from repeal of the tax admissions tax, \$1,200,000; repeal of the chain store tax, \$7,200,000; and exemption from the production tax of gas used in field operations in the same field where it is produced, \$2,500,000.

Main purpose of recommendations is to "achieve greater equity in taxation and greater ease in administration and compliance," said the commission.

Mrs. James Caroline spent the weekend in El Paso with her son Jimmy Caroline.

If that isn't enough of a hint, try Quick Wide-Track. (This is their year.) Or Turbo Hydra-Matic, the new transmission you can order that does away with roaring between shifts. Coupled with any of the quicker engines for the '65 Pontiac, it saves the roaring for whenever you need it. When you don't need it, the extra-potent engines let you just load along. AIRPLANE PRESENTED TO TEXAS RANGERS

A twin-engine aircraft has been presented to the Texas Department of Public Safety for the use of the Texas Rangers by Col. D. Harold Byrd of Dallas.

The Lockheed Lodestar, which seats ten passengers, was accepted on behalf of the Texas Department of Public Safety by Col. Homer Garrison, Jr., Director. "We are grateful for Colonel Byrd's generosity in presenting this airplane to the State of Texas to be used to enhance the State's law enforcement effort in emergency services," Col. Garrison said.

"This aircraft will be utilized to great advantage on occasions when speed is of the essence in transporting law enforcement and other personnel and equipment from one part of the State to another," Col. Garrison said.

This is the second aircraft that Col. Byrd has presented to the Texas Department of Public Safety. The other was a Twin Beech which he gave to the Department in 1958.

Col. Byrd, who has been active in behalf of aviation in Texas and the nation for many years, is an honorary captain in the Texas Rangers.

His father's '65 Ford rides quieter than his father's Rolls-Royce

We know it's hard to believe a Ford could ride quieter than the famed Rolls-Royce. But it's a fact. Leading acoustical consultants conducted tests in which three V-8 powered Fords (Galaxie 500 Sedan, new Galaxie 500/XL and LTD Hardtops) with automatic transmissions rode quieter than a new Rolls-Royce. The tests were certified by the U.S. Auto Club. Of course, the best test of all is to get behind the wheel yourself . . . and listen to a '65 Ford in action.

That's what Chuck's father did. Ford's quietness really impressed him. But it wasn't the quietness alone that sold him. He shopped around and found that Ford offers features and models and quality that simply aren't matched by other cars in its class. For example:

- 100% new body—strongest Ford body ever.
- New frame "tunes out" vibration.
- Decorator-appointed interiors in LTD's, thick nylon carpeting.
- More luggage space than in most competing cars—trunk holds four 2-suiters standing upright with room left over.

Thriftly, quiet new Big Six—the biggest Six offered by any car in Ford's class . . . 289-cu. in. V-8 in XL's and LTD's.

All automatic transmissions have three speeds, not two as in some competing cars—smoother shifting, more economy.

Silent-Flo ventilation (in 4-door hardtops) provides fresh air in car with all windows shut.

Handy reversible key works either side up.

There's more . . . much more in a Ford than you'd expect for the money. Visit your Ford Dealer and take a test drive soon.

this nation, which has been so close to England for so many years and for so many reasons — would be basking in the revelry, the gaily, the fabulously carnivalistic attitude of the inauguration.

Hail To The Chief!

We have unofficial but reliable information that there is to be another well started in Terrell County soon, and the probability of another one also to be started soon.

This renewed action in the field of drilling in good news to most people of this area.

One of the wells is holding the interest since a producer will probably call for intensified drilling interest in the immediate locale.

People who go to Fort Stockton on occasion can attest readily to the fact that the road is a mess in the stretch where the construction is under way. Because of the terrain, travelers encounter a little difficulty if they happen to go at a time when blasting is about to begin, or has already begun. And the detours are a little gooy at times, too.

This is only a few of the inconveniences that go along with the construction. And we should expect them. We can remember only too well when the road was all unpaved.
