LISTEN TO LUKE

By Albert---

Last Thursday night there was a meeting at the court house to organize a local Community Action Program.

We were at the meeting and tried to take down notes on all of the important facts that were brought out and pass them on to our readers. We did this in the interest of good reporting and in an effort to bring the information to those interested in an un-biased manner.

We believe that there are a few points about the program that are worthy of consideration and there are some points about it that are not worth considering. But those are only MY opinions!

The fact that I do not like some of the programs mentioned and available means only one thing -- that I do not like some of them. I would like to mention some of these dislikes and likes to see if there are some who agree with me, or who have possibly not thought of them in the same light.

To say that I disagree with a few of the programs and consequently am against all of them, is to say that because I don't like rutabagas, I don't like any vegetable; or because I don't like a certain modern song, I dislike all music!

I think the plans that would permit aiding in the physical, dental, and optical needs of the young and old are excellent, although some of that is taken care of now by a local organization--the Lions buy glasses for needy children, and possibly have or would buy glasses for needy elderly people.

The plan for food stamps for indigent people has the earmarks of a good program and I think it should be examined further.

The plan for job training for adults could be beneficial for many people. One avenue that has not been investigated locally is to teach sheep-shearing. It is something that seems to be in demand, and only the skill of the trade is needed, no education.

Trades such as carpentry, masonry, electrician, etc., often take a certain amount of education that would hinder some people from learning.

The study to ascertain the needs of the community and of the county could be most beneficial so that a study could be made to try then to determine how much of a need exists and if it can be done on a local level and if it is feasible.

This point, in our opinion, has a lot of possibilities.

Without making much of a study, it has been determined, to some degree, that there needs to be a school here for local employees in almost all businesses, to teach them how to meet the public better, and to teach them some of the statistics of this area such as distances to places, such information as places of interest in the area, some information to assist the traveler in feeling that he is being helped to make his vacation trip pleasant and profitable.

Some of the things we cannot see about the programs mentioned is: if a family makes less than \$3,000 a year, how are you going to be helping that family by

Group Named To Steer Projects Of Community Action Program In County

A group was named to steer the efforts of the Community Action Program in Terrell County at a meeting in the county court room last Thursday night. The committee consists of Bill Smith, chairman; Mr. and Mrs. Andres Falcon, Mr. and Mrs. L. E. Muller, Mrs. George Escobar, Mrs. Olivia Salinas, and Mrs. H. A. Smith.

The group will attend a meeting next week in Fort Stockton proposed to unite Terrell and Pecos Counties with the Big Bend Community Action Committee, now composed of Brewster, Presidio, and Jeff Davis Counties. It may also be expanded to include Culberson County.

Details of the need for the program in Terrell County as seen by Walter Parr were outlined by him to open the meeting. Parr is the director of the Big Bend group and administrates all of the projects coming out of that body.

He stated that 41% of the families in Brewster County had a "less than \$3,000 a year income" and that ratio might be a guide to the other communities of West Texas. In outlining the activities possible under one of many government programs that were available, he included aid for physical, dental, and optical deficiencies in young people and older people, renovation or remodeling of houses or additions to houses, such as bathrooms, etc., with 5% interest loans, if a person is under the \$5,000-a-year poverty level.

Parr also stated that there were other programs that were available to increase the earning power of low-income families, by teaching them other occupations or by increasing their knowledge so they may increase their earning power.

He said that on larger projects such as a community's undertaking the construction of a hospital or clinical facility, civic center, park, sewage and water system, etc., that government programs would allow participation up to 90% of the financing by some

government agency, with the amount to be furnished by the community usually coming from in-kind participation, eg: local surveys crediting workers at \$1.25 per hour against the 10%, getting local legal work done with \$7.50 per hour for the attorney being credited the local percentage and the attorney doing the work free, per hour for the attorney being credited the local percentage and the attorney doing the work free, etc. He said that this way a community could get some of these facilities "... and it would cost no one a red cent".

In speaking of the Neighborhood Youth Corps, another possible source of government help, Parr stated that the Big Bend area could participate to the full extent of their ability and bring as

'Cave Man' Eludes 100-Man Hunt Last Weekend

Terrell County's elusive cave man was again successful in hiding from police officers last Thursday and Friday.

Between 75 and 100 officers from this part of the state gathered at Dryden last week to try to flush out an unidentified man who shot Sheriff Bill C. Cooksey on November 4 of last year. He is also thought to be guilty of robbing and shooting Pelham Bradford at Pumpville, and burglarizing several ranch houses in the Dryden area.

The man was living in a cave southeast of Dryden when Cooksey was shot, and thus gained the title "Cave Man". Cooksey had gone to investigate some petty thefts in the Dryden area and to examine some of the articles re-

The picture below, which shows the signs of age, also pictures the main street and main points of the business district, probably, of that day - the Terrell Hotel, which also housed the postoffice, on the left, the Sanderson State Bank, shown in its incomplete stage of construction in the center, and the Cottage Bar on the right, which was formerly the home of Charlie Wilson, founder of Sanderson and owner of the townsite. In the original picture can be seen, under the Terrell Hotel sign on the upper floor at the right, another sign proclaiming one A. J. Monagan, Dentist, has offices there; just north of the bank is the barber shop, facing south with two striped poles in the front; the little building between the bank and saloon is not identified, but there is a lad pulling a wagon with what looks like laundry in it. The men are identified as Jack Allen, school teacher and later sheriff; Sheriff Joe Bean, with pistol in right hip pocket and fooling with the harness; W. H. Lemons looking as an unidentified man is working with the stave on the hack. The picture is the property of Mrs. Frank Robertson, daughter of Mr. Lemons. Circa 1910.

providing them with a means of borrowing money to build, repair, or remodel, or install a bath or sewage system when they are in need of clothing and food, and other needs to help in the education of their children?

If it is impossible to have a good water system in a town where you have nothing but cess pools and septic tanks, how does it happen that the regular and systematic check and laboratory analysis of the water in Sanderson shows us to have as good water as can be found in this area?

Since the town showed in more ways than one that we want a medical facility here, and that it is impractical and unfeasible to try to have more than we are planning - if and when we can ever get a doctor, why does the subject of a federally-financed hospital come up at every meeting? And how can the "magic" of this be expected to bring a doctor, nurses, lab technicians, dietician, etc., here when we can't even get just the doctor?

Anyone likes the idea of decreasing local unemployment, and those who have tried to do just that on occasion recently, would still like to do more about it, but find it most difficult to hire much local help, they say.

Providing just jobs doesn't always answer the problems of unemployment.

Another point of possibilities that we favor greatly, is night or daytime classes for people to instruct them in English, simple math, reading, and writing, etc.

As one person pointed out, it is my opinion too, that the lack of use of the English language is the greatest deterrent for the advancement of any student or people in this country.

We would like to see lots of advancements made in many of our local fields of needs, but we feel that we can do many of our own projects without any aid from outside. Not that we don't appreciate it, but it is our opinion that it can be done as well and cheaper locally in many instances, and we believe that we

are aware now - to a greater extent of our needs and are willing to study them and try to get some of them accomplished.

We found out after the flood what a wonderful feeling it was to have friends to come in and help us, and we also found out that we could do some things for ourselves if we had to.

Let's don't belittle for an instant any help that we can get to furnish our needs as a community! But let's not belittle ourselves into doing nothing to take care of our own when and where we can and not become leeches on the society that offers us so many opportunities to stand alone where we can and to get help where we can't stand.

much as \$200,000 into this area "without costing a thin dime". This project pays high school drop outs for part-time work so they can afford to stay in school to complete their high school education.

It was pointed out that there was a need for Terrell County's joining with the larger group so that the full force and effect of the larger group might be used in securing, administering, and participating in all of the government programs that were available. Parr illustrated this by showing a book that had a list of the various programs available to assist communities in fighting poverty.

In the naming of the local committee, it was asked that a group be named to attend the meeting in Fort Stockton next week and report back to local interested citizens so that they may then name the permanent committee and the directors to the Big Bend group, if their petition to join that group is accepted.

The local committee is made up of 1 representative for each 100 population in the county and must have at least 30% of the total number composed of those in the poverty group.

The steering committee will have their next meeting on Monday, August 15, at 8:00 p.m. in the courthouse.

 Love Close Call
 at UT Tower

Terrell County School Superintendent Ken McAllister, his wife and daughter had a narrow escape when in Austin recently. They were scheduled to go up the University of Texas tower at the time that killer Charles Whitman started his slaughter spree.

Supt. McAllister was in a business conference and his wife and daughter, Carol, were window shopping and waiting for him to finish so he could take them up the tower as promised. He said at the meeting lasted longer than he had expected and he was rather "put out" at the time for the delay and the disappointment and the inconvenience being caused his family because of the meeting.

When he was free to join his family it was so near lunch time that they decided to go to lunch first and up the tower later.

McAllister stated that he is now and will be eternally grateful for the long meeting and is remorseful for his thoughts and feelings at the time of the delay.

Bill Choice, son-in-law of Mr. and Mrs. Jolly Harkins was near the base of the tower on the "firing line" side, when the unheralded rain of bullets began. He took refuge behind a wall and remained there until the incident was over.

He reported to the Harkinses that he was "shaken up, scared, but unhurt".

**Cave Man' Tries
 Pumpville Burglary**

A man answering the description of the "cave man" tried a break-in at the Bradford store in Pumpville last Friday night and it was partially foiled by Mrs. Joe Bradford and Mrs. Ted Luce, who walked into the store while the burglar was in the process of filling up a box with groceries.

The two ladies said they walked into the store and noticed a box partially filled with groceries and setting on the counter. As they approached the counter a man jumped up from behind it and grabbed the box of groceries and ran.

Mr. Luce, who was nearby, grabbed a rifle out of his pickup and snapped off two shots in the direction of the fleeing man, it was stated.

Local officers were summoned and stated that they felt sure the burglar was the man who had shot Sheriff Bill C. Cooksey, and who had been hunted on the two days previously by a large posse near Dryden.

Rash of Burglaries Hits Friday Night

There was a rash of burglaries in Terrell County Friday night with the total taken amounting to very little, according to the owners of the places burglarized.

The Sanderson Drive Inn was entered by the removal of an air conditioner from a window and a small person climbing through to open the door. The place was thoroughly ransacked, according to Ben F. Martin, owner, and a 44-40 gun, two insurance policies, and some tools were taken. They also took some money out of two vending machines.

An effort was made to break into the Fast Side Drive Inn, according to Catarino Veliz, owner, but for some reason, the effort did not materialize.

Across the highway at the little building owned by Mr. and Mrs. Pres Escamilla which was formerly a hamburger and chili stand, someone broke into the rest room on the back side of the building.

ported to be in the cave, and upon approaching the cave was shot in the leg and back by the man who was using the cave for his camping site.

A wide and extensive search by area officers following the shooting failed to capture the man. A subsequent hunt was begun, but ended abruptly when Deputy Sheriff Dalton Hogg and Texas Highway Patrolman Malcolm Bolinger were involved in an automobile accident en route to the Dryden area.

The hunt last Thursday was set off after Roy Deaton, who has a ranch in the Dryden area, reported that he had ridden upon the camp of a man answering the description of the "cave man." He said he talked to the man for a while and was told not to approach any closer. This act also led to a firmer belief that this was the wanted man. The camp site was located about two and half miles southwest of Dryden according to Deaton.

Officers from all over West Texas from all branches of the county, state, and national forces soon began assembling in the Dryden area to aid in the search. After the two-day use of dogs, airplanes, jeeps, horseback riders, etc., and no results, the search was again called off.

Local officers are agreed that a "wait and see" approach about all they have to go on the man seems to be able to get about in that environment and under those conditions in a manner to successfully escape capture.

**What Color Is Your Soul?
 by Virgil R. Trout**

"Let not loyalty and faithfulness forsake you; bind them about your neck, write them on the tablet of your heart. So you will find favor and good repute in the sight of God and man."

Proverbs 3:3,4

You are not necessarily what others think you are. You are not necessarily what you think you are. But what you think, you are! Your soul is dyed to the color of your thoughts.

Someone has called our age that of "the splurged urge". It seems that the attitude so popular is that noble thoughts and honorable intentions are outdated.

Loyalty conveys the attitude of intelligent convictions. A person to be truly loyal must know what he believes and why. He must have done some searching into his basic convictions.

Faithfulness is the attitude of standing firm. The things that count are expensive. If at first you succeed, you probably haven't accomplished very much.

The well-balanced life sustains a proper relationship with God and man. This type of life always involves both the heart and the head, the motives and the actions.

SENATE JOINT RESOLUTION NO. 19 proposing an Amendment to Section 49-d, Article III of the Constitution of the State of Texas, declaring state policy regard-

sale, lease or transfer of such facilities under General Laws; providing for long-term contracts for water storage facilities; authorizing the issuance of an additional \$200,000,000 in bonds by the Texas Water Development Board upon a two-thirds (2/3) vote of the elected members of each house; providing that anticipatory legislation shall not be invalid because of its anticipatory character; providing for the necessary election, form of ballot; and proclamation and publication.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 49-d of Article III of the Constitution of the State of Texas be amended to read as follows:

"Section 49-d. It is hereby declared to be the policy of the State of Texas to encourage the optimum development of the limited number of feasible sites available for the construction or enlargement of dams and reservoirs for conservation of the public waters of the state, which waters are held in trust for the use and benefit of the public. The proceeds from the sale of the additional bonds authorized hereunder deposited in the Texas Water Development Fund and the proceeds of bonds previously authorized by Article III, Section 49-c of this Constitution, may be used by the Texas Water Development Board, under such provisions as the Legislature may prescribe by General Law, including the requirement of a permit for storage or beneficial use, for the additional purposes of acquiring and developing storage facilities, and any system or works necessary for the filtration, treatment and transportation of water from storage to points of treatment, filtration and/or distribution, including facilities for transporting water therefrom to wholesale purchasers, or for any one or more of such purposes or methods; provided, however, the Texas Water Development Fund or any other state fund provided for water development, transmission, transfer or filtration shall not be used to finance any project which contemplates or results in the removal from the basin of origin of any surface water necessary to supply the reasonably foreseeable future water requirements for the next ensuing fifty-year period within the river basin of origin, except on a temporary, interim basis.

"Under such provisions as the Legislature may prescribe by General Law the Texas Water Development Fund may be used for the conservation and development of water for useful purposes by construction or reconstruction or enlargement of reservoirs constructed or to be constructed or enlarged within the State of Texas or on any stream constituting a boundary of the State of Texas, together with any system or works necessary for the filtration, treatment and/or transportation of water, by any one or more of the following governmental agencies: by the United States of America or any agency, department or instrumentality thereof; by the State of Texas or any agency, department or instrumentality thereof; by political subdivisions or bodies politic and corporate of the state; by interstate compact commissions to which the State of Texas is a party; and by municipal corporations. The Legislature shall provide terms and conditions under which the Texas Water Development Board may sell, transfer or lease, in whole or in part, any reservoir and associated system or works which the Texas Water Development Board has financed in whole or in part.

"Under such provisions as the Legislature may prescribe by General Law, the Texas Water Development Board may also execute long-term contracts with the United States or any of its agencies for the acquisition and development of storage facilities in reservoirs constructed or to be constructed by the Federal Government. Such contracts when executed shall constitute general obligations of the State of Texas in the same manner and with the same effect as state bonds issued un-

der the authority of the preceding Section 49-c of this Constitution, and the provisions in said Section 49-c with respect to payment of principal and interest on state bonds issued shall likewise apply with respect to payment of principal and interest required to be paid by such contracts. If storage facilities are acquired for a term of years, such contracts shall contain provisions for renewal that will protect the state's investment.

"The aggregate of the bonds authorized hereunder shall not exceed \$200,000,000 and shall be in addition to the aggregate of the bonds previously authorized by said Section 49-c of Article III of this Constitution. The Legislature upon two-thirds (2/3) vote of the elected members of each House, may authorize the Board to issue all or any portion of such \$200,000,000 in additional bonds herein authorized.

"The Legislature shall provide terms and conditions for the Texas Water Development Board to sell, transfer or lease, in whole or in part, any acquired storage facilities or the right to use such storage facilities together with any associated system or works necessary for the filtration, treatment or transportation of water at a price not less than the direct cost of the Board in acquiring same; and the Legislature may provide terms and conditions for the Board to sell any unappropriated public waters of the state that might be stored in such facilities. As a prerequisite to the purchase of such storage or water, the applicant therefor shall have secured a valid permit from the Texas Water Commission or its successor authorizing the acquisition of such storage facilities or the water impounded therein. The money received from any sale, transfer or lease of storage facilities or associated system or works shall be used to pay principal and interest on state bonds issued or contractual obligations incurred by the Texas Water

Development Board, provided that when moneys are sufficient to pay the full amount of indebtedness then outstanding and the full amount of interest to accrue thereon, any further sums received from the sale, transfer or lease of such storage facilities or associated system or works may be used for the acquisition of additional storage facilities or for providing financial assistance as authorized by said Section 49-c. Money received from the sale of water, which shall include standby service and maintenance of acquired facilities, and for the interest on debt incurred.

"Should the Legislature enact enabling laws in anticipation of the adoption of this Amendment, such Acts shall not be void by reason of their anticipatory character."
