## LISTEN TO LUKE

By Albert:---  
Almost all of the television and newspaper commentators and many politicians have, in the past several days, voiced an opinion as to why certain people lost certain races. The opinions have been quite candid and we are sure, based on several years experience.

One thing that we can't get away from, though, is the fact of actual experience and cold, hard reasoning.

The ones that lost were the ones who didn't get as many votes as the ones who won.

And of all the reasons why the loser didn't get enough votes, the main one is because most of the people didn't want to vote for the man who lost for one reason or another.

One thing that we did learn from the election is that people know how to split a ticket when they want to, and sometimes they want to real bad.

Another thing we learned is that outside help coming in and voicing an opinion in favor of a candidate doesn't always do the candidate some good, and we are glad that this truth came out, or we hope that it was realized by everybody, so that some of our nation's "big shots" will mind their own business in the future, and let us all elect our own choice.

Some people in various places had U. S. Senators, governors and all kinds of "influential" people "helping them". One TV personality who was beating the campaign trail in Texas two years ago, was stumping in New Mexico this year for some candidate.

He lost!  
And so did many of the other candidates who had outside help

---  
The women of the American Legion Auxiliary worked hard last Friday in selling poppies all over town and in serving coffee and cookies to all who dropped in at the Community Public Service Co. office. Even though there was no other observance of Veterans' Day planned during the day, the wearing of the poppy, the poppy posters made by the school students seemed to set the day off.

Then that night at the football game, there was a real surprise for all who attended!

The Sanderson High School Band did a bang-up job in their presentation of the tableaux, the music, the words, in bringing into focus exactly what Veterans' Day is supposed to stand for.

We have never heard a veteran say that he was ashamed of the fact that he had served his country during a war.

There is a certain in-built pride in all of our hearts that we were able to do something that is still lasting, something that is for the benefit of all of us for generations to come, maybe!

And the "maybe" is in case the future generations want the benefits.

Freedom is not eternal, nor is it automatic to Americans. Lots of people don't know this.

We are admitting "old age", but we can remember when parents disciplined children - after they had disciplined themselves first. Few families, for very

## Eagles Lose To Junction 48-14 In Final Game Of Grid Season

The Sanderson Eagles played their last game of the season on Friday night of last week and lost to Junction by 48-14.

Junction hit pay-dirt for 22 points in the first period and added 13 more in the second to go into the half-time interlude with a 35-point lead.

Sanderson fumbled on their second play, giving the ball to Junction on the 23-yard line and on the first play from scrimmage Preston Joy went in for the score.

Rev. Daniel Dierschke, born in Rowena, June 10, 1940, is the son of Mr. and Mrs. W. H. Dierschke of Rowena. He has two brothers and two sisters.

Rev. Dierschke received his elementary and high school education in Rowena and St. John's Seminary in San Antonio where he graduated in 1958.

He attended college at Assumption Seminary, also in San Antonio, majoring in philosophy. In 1962 he was assigned by the Most Rev. Thomas J. Drury, former Bishop of the San Angelo

He also added the extra point with a place kick. After the ensuing kickoff, Sanderson made a first down and then fumbled again on the Junction 48. The visiting Eagles drove to the 24 from where Jimmy Baugh took the ball over for the second tally and Joy kicked the point.

On the third play after the next kickoff Junction intercepted a Sanderson pass and drove down for a score again by Joy. After a bad beginning on the extra-point try Joy threw a pass to Tom Allen for two extra points.

Sanderson and Junction swapped interceptions in the final minutes of the ball game and Sanderson had the ball going into the second period.

Another interception by Junction put the ball on the 37-yard line and after a little difficulty moving the ball Junction went

## Food Stamp Program Okayed For Year By Commissioners Court For County

Action of the Terrell County Commissioners Court Monday morning in their regular meeting included the adoption of the Food Stamp plan for one year at a cost of \$1,300 for administrative fees. Total budget for administration of the program in the seven-county area as of now is \$26,423, with \$8,128 being paid by the federal government.

The plan was presented to the Commissioners by the Terrell County Community Action Committee with L. E. Muller being the spokesman for the group. Muller is the president of the local committee.

The Food Stamp program is one of the outcroppings of the organization of the Terrell County Community Action Program Committee and their affiliation with the Big Bend organization composed of several West Texas Counties.

The Food Stamp program and other potential programs for adoption of counties within the Big Bend organization were gone over, some in detail and some only mentioned, at a meeting held recently in Alpine and attended by officers of the several counties' committees, county officers, businessmen, and other interested citizens. Cong. Richard C. White of El Paso was one of the speakers to the group assembled.

## Office Equipment at The Times

The picture below is of a group of students in about the 3rd or 4th grade in the Sanderson Elementary School and could include two grades, since it was not unusual to combine two grades in one room at that time. Miss Amy Balk is the teacher. Our efforts to identify those in the picture were not completely successful, and those who made the identification may have been wrong in an instance or two, but it is done with the best of intentions and we regret any errors. On the first row, closest to the camera, the last two little girls are Alice Harrell and Irma Happle; Fount Sharp is the first on the second row, fourth back is Wilson Banner; on the front seat on the third row over is Josie Wolfe, next is Nell Nance, and fifth is W. R. "Son" Turner; Myrtle Harrell, on the back of the last row is the only one identified on that row. The picture was made "about" 1915 and was loaned to us by B. F. Davis, son of Nell Nance Stokes, and he lives in Milford, Calif.

Pictured above are the members of the Sanderson High School Eaglette basketball team. On the front row, left to right, are: Coach Jack Cosby, Sherry Stavley, Pat Dishman, Judy Riggs, Beverly Farley, Vicki Rogers, and Susie McSparran, standing, on the second row are: Candace Cooksie, manager; Mary Pena, Yolanda Parada, Linda Louwien, Brenda Carter, and Christine Downie. The girls were pictured in their practice clothes because the new uniforms had not yet been altered. Susie is wearing the new uniform.

FOOD STAMP—

continued from front page  
The program, as it is outlined now, means, in simple terms that a three-person household can purchase \$19 worth of food for \$3. These figures change, of course, as the original amount spent varies, and also as the net income of the household varies. The larger income, the smaller buying advantage, generally.

It is designed however to give those persons with the least income the better opportunity to get more food-stuffs with their dollars.

Regulations as they stand now will allow stores to participate in the handling of food stamps, if the stores agree to sell only edible products and food stuffs. This excludes such things as alcoholic beverages and household supplies.

It has not been decided yet what person or persons will disperse the stamps to the area, or where the stamp headquarters, if there is such, will be.

The United States Department of Agriculture will examine local persons to compose an administrative team, and probably a form of merit exam will be required. The USDA will have a man in Austin in charge of the Texas program.

Whether the stamps will be issued from one office or whether persons will travel throughout the area issuing the stamps is not yet known.

At the present persons eligible for the program in-

Rev. Dierschke was ordained to the priesthood on December 18, 1965 in St. Peter's Basilica in the Vatican, Rome, Italy. Following his ordination and a brief European tour with his family, he returned to Rome to complete his theological studies. He was graduated from the Pontifical Gregorian University in June, receiving a S. T. B. (Bachelor of Sacred Theology) degree.

Following his return, Rev. Dierschke was assigned as substitute pastor to St. Boniface Church, Olfen; then to St. Thomas Church, Miles; and finally to St. Joseph Church, Rowena while these pastors were on their vacations. After completion of these assignments he was appointed assistant pastor in St. Joseph Parish, Rowena and was assigned to St. Joseph Central Catholic High School, where he was in charge of the theological and scriptural education program. When Rev. Feminia, pastor of St. James, Sanderson, expressed his desire for a "long rest", The Most Rev. Thomas Tschoepe, the present bishop of San Angelo, appointed Father Dierschke as administrator of the Catholic Parish in Sanderson. Dierschke wishes to express his thanks to all the people of Sanderson who have extended a most kind and gracious welcome to him.

long, spent more than they made, and they asked that their

government did the same.

There was a bunch of God-fearing people who went to Sunday School and church and took their children with them, they held their daily prayers and no person or court would think of interfering. They expected to prosper only as they were able to do a better job, or do a job better. They taught obedience to the laws and tried to see that the laws were just. They shunned men in high places who made deals and a man's word was his bond. This is the character of the men who in less than 100 years bonded a split nation and won two wars, rebuilt a nation shattered by a terrible depression and fed and financed much of the world.

The calibre and quantity of Americanism that we have as a nation, bolstered with the sum of our love for freedom, and by the help of Almighty God we will determine if we are to remain a free nation.

## Oil Strike Seen In Terrell County

Hunt Industries, Dallas, completed as an unidentified Permian discovery its No. 1 Blackstone-Slaughter, Terrell County deep failure, 15 miles west-southwest of Sheffield, and 2½ miles southwest of the depleted one-well Schuler (Leonard oil) field.

It was found to pump 11.67 barrels of 16.8 gravity oil, plus 5 per cent water, with gas-oil ratio of 265-1. Production was through perforations at 4,312-324 feet, which had been acidized with 2,500 gallons. Top of pay was picked at 4,422 feet on ground elevation of 2,607 feet.

Drilled "tight" to 12,488 feet, with 4½-inch casing set at 12,485 feet, it is plugged back to 4,702 feet.

Location is 4,406 feet from the south and 4,250 feet from the east lines of 5-162-B. F. Allen.

## Band's Half-Time Show Thrills Fans Last Friday Night

The Sanderson High School Band, under the direction of Kirke McKenzie, gave the fans at the Junction-Sanderson game a real patriotic thrill last Friday night.

After a series of intricate precision drills, the lights were extinguished and J. A. Soto told of the background of Veterans' Day and some of the military exploits of our armed forces. Flares were lighted to illuminate a tableau depicting the raising of the flag on Iwo Jima in a very realistic scene. The band played the Marine Hymn.

The next scene was of a helmet-marked cross and the playing of echo-Taps.

All of the senior members of the band and football team were introduced and recognition was given to W. W. Sudduth for his services as clock operator and to J. A. Gilbreath for the public address announcer.

Prior to the game, Mr. Soto introduced the parents of the football players along with the boys and they stood in a line on the field to receive the ovation of the fans.

THE EYES OF TEXAS and the nation will focus on Donna Dill, 5-year-old miss from the Lone Star State, who is the 1967 National March of Dimes Poster Child. She symbolizes 250,000 American children born each year with birth defects.

## FORMER RESIDENT DIES

When you love your work, it shows.

And we love our work. So much that we couldn't bear to stop with the slickest-looking split grille ever to grace a Wide-Track. (Or any other car, for that matter.)

We went ahead and made the windshield wipers disappear. The car not only looks cleaner, but the wipers are less subject to icing and freezing, too.

Then we got rid of the vent windows on all Grand Prix hard-tops. We replaced them with nifty monograms and a flow-through ventilation system.

We even designed a rather unique hood-mounted tachometer

option that's available on all Pontiacs. As are our other options like stereo tape and stereo radio.

And, of course, our handsome interiors have to be seen to be believed.

All Pontiacs have standard safety features that include a master cylinder brake system with warning light, outside view mirror, and GM's energy absorbing steering column.

Isn't it time you decided to see your Pontiac dealer? If you do our work the way we do, it's the least you can do.

To add insult to injury, Johnny Bates took the second half kickoff 72 yards for a score and Joy added the extra. Most of the remainder of the third frame was played between the 30 and 50 yard lines.

Sanderson was in possession in the opening of the last quarter and on the third play Roman Gonzales went in from the 8 and also kicked the extra point.

Clark Colvin scored for the visitors from the 3 to match Sanderson's score and in their next offensive series Gonzales took the ball in from the 32 with Glenn Haynes running over for the two extra points to end the scoring.

The annual Christmas Seal Sale provides the only income for the local and national Associations. The money contributed makes possible a program of detection, correction, education and research for both associations and should be considered very important to everyone and their family.

The generosity and prompt attention of those who receive seals will be appreciated. If you need more seals or if you failed to get some, please get them at Riggins Jewel and Gift Shop.

## Detailed Game Regulations Are Problem for Hunter

Ask a law enforcement specialist in the Texas Parks and Wildlife Department what is his principal concern over the coming big game season, and he probably will say hunter carelessness in not being informed on where and what to shoot and how many.

There is the major worry about assorted dates for hunting deer and wild turkey. Then there is the problem of orienting the gunner about what is a legal deer and what is a legal turkey.

In some areas, taking of bearded hen turkeys is allowed. In others hens are fully protected. Some hunters naturally have problems telling a hen from a tom, beard or not.

The spike buck or legal buck situation confuses some because of conflicting regulations.

The enforcement people also are wondering about possible confusion over the antlerless deer program that has been advanced as a means of

balancing the herds, particularly as to overpopulation. A third deer tag is attached to the left side of the license, in addition to the two tags on the right side.

The tag on the left is labeled antlerless deer and is intended to be used only as a bonus tag in the counties where a third deer is permitted as a means of cutting into the huge surplus. In other words the two tags on the right side of the license may be used for either buck or antlerless deer.

Law enforcement personnel stress that no - repeat NO - antlerless deer may be shot except in areas where landowners issue permits. And there permits must be on the person of the hunter bagging the antlerless deer.

The department is eager to inform all hunters because game wardens stand instructed that ignorance of the law is no excuse for breaking it regardless of the circumstances.
