LISTEN TO LUKE

By Albert---

Probably what could have been the classic statement of the Johnson Administration was made last week when he was talking to police chiefs and other law enforcement officials in Kansas City. He is reported to have said: "What America needs is not more hand-wringing about crime in the streets. America needs a policy for action against crime in the streets. Much can explain - but nothing can justify - the riots of 1967".

It could have been the classic of the era - but it was said about two years too late!

Nothing can erase the foul smell, sight, and reality of the lawlessness, violence, ruthlessness, disrespect, corruption, stench, and all of the other adjectives which can be applied when speaking of the looting, rioting, murder, burning, etc., that was allowed to go on under the name of "civil rights" fostered, condoned, upheld, and even advanced in some instances by this administration.

The greatest wrongs in the world, in our humble opinion, are those that are done under the guise of righteousness. The wrongs that are recognized as such, treated as such, and condemned as such, are the acts of saints. But the devil himself is unable to devise a more hypocritical act than to tell a person that it is alright for him to do anything - yes anything - in the name of righteousness.

And this is good for Sanderson, Atlanta, Detroit, Bialistock, or Washington, D. C.

Lots of people are now beginning to wonder what is wrong with the world. And it's a good point to ponder. But what the people of the world have been overlooking is the most obvious answer. The originator and all subsequent proponents of the Christian faith have been trying to tell us for generations.

Six not-full churches this Sunday will attest to the truth of the fact that we refuse to listen.

The effects of the rains which have continued to fall and bless this dry country are seen around us in the verdant hills, the lush growth of grass, shrubs, and weeds in town, and the clean, fresh smell of the air.

There have been more than 14 inches of rainfall locally, which is real good for us. This amount has variations over the county, with some getting more, and some getting not so much.

We have noticed several alterations in business policies of our business community, and it is always interesting to see how the public reacts to the changes.

We have the firm conviction that most of the changes that are made are the result of some study on the part of the owner or manager of the business and he felt compelled or judicious toward making the changes, regardless of what they were.

Sometimes, we as customers feel that some of the changes are because of the lack of interest in the welfare, convenience, or well-being of us as individuals, that it is down-right inconsiderate of a business man to

Although the scenery is different, the picture shows the type of structures which will be built along the Sanderson Canyon Watershed. The stream flows from the bottom left of the picture into the pool behind the dam. The drawdown tube can be seen against the dam in the upper center with the drain channel to the right just above center. The dam across the front of the picture is to take care of an overabundance of water and divert it toward the main channel, but to help prevent a washout of the main structure. The photo, furnished by the Soil Conservation Service, is of a dam on the Trinity River project, 12 miles northeast of McKinney.

Mrs. R. H. Murrah Dies In Alpine

Funeral services were held in Alpine Thursday for Mrs. Willie Dean Murrah, 76, who died early Wednesday morning in a hospital in that city where she had been a patient for two weeks. There were Eastern Star rites at the graveside.

Mrs. Murrah was born July 24, 1891, in Booneville, Miss., and was reared in Wichita Falls. She was married to Rufe Murrah in Del Rio in 1913. The couple ranched in the Sanderson area about thirty years before settling on a Brewster County ranch in 1947.

Besides her husband, survivors include three sons, J. B. Murrah of Correon, Mexico, R. H. Murrah Jr. of Blanco, and Dan Murrah of Brackettville; a daughter, Mrs. Cliff Roark, of Alpine; also three brothers.

Mrs. Guy Nations, Former Resident, Interred Sept. 9

Mrs. Guy Nations, 76, of Sweetwater, died last Thursday afternoon in a hospital in that city after a long illness. She was a former Sanderson resident. Funeral services were held Saturday and interment was in Sweetwater.

Mrs. Nations, the former Cecelia Elder, was born March 26, 1891, in Mills County. She was married to Mr. Nations in Del Rio in 1918.

The Nations moved to a ranch south of Sweetwater thirty years ago. She was a former school teacher.

Survivors include her husband; one son, Bob Nations of Roscoe; a brother and two sisters.

Sanderson Loses To Van Horn 36-18; Game Here Friday

The Sanderson Eagles went to Van Horn Friday night and suffered a 38-16 defeat by their cousins there. Sanderson's scoring came in the second and last periods and Van Horn scored in all but the second period.

Andrew Riess scored from 7 yards out with Glenn Haynes running over the two extra points, to account for the first score. Riess picked up a fumbled ball following a pass completion and ran it in for the tally. The pass play was from Carlos Garza to Jerry Flowers. Garza ran the extra points over on the conversion after the TD.

Van Horn scored twice in the opening period on sustained drives and failed to make the extra point after both scores.

Van Horn's third period scores were: set up by a Sanderson fumble on their 29; another sustained drive; and a pass interception which was returned for 45 yards and the score. Only one of the hosts' extra point tries was good.

In the final period, another Sanderson pass was intercepted and the run-back was for 72 yards and six points.

Sanderson will have another game at home next week in hosting the Grandfalls-Royalty Cowboys, a Class B school.

A view which will probably never be seen again in this area is a group of sheep in the local stock pens ready to be shipped out by rail. Hal Hamilton, left, bought the sheep from J. E. Carter, third from right, who herded the sheep in from the ranch to the pens. Judge G. J. Henshaw is second from the left. The picture was loaned to us by Mrs. Clyde Higgins, daughter of Mr. Carter

Election Laws Changes Told

Secretary of State John Hill has provided Texas election officials details of all changes in state election laws enacted by the 60th legislature.

Major changes include: Voters again must register between October 1 and January 31. All voters must sign up (including citizens over 60 in cities of less than 10,000 population).

Voters may mark ballots with "x" or check marks rather than scratching names of candidates they oppose;

Counties may use electronic voting machines on approval of the secretary of state;

Those who have not yet met state voting residence requirements may vote for president and vice-president;

Those who have moved from county to county within six months before an election can vote for statewide officials;

Some city election dates will be changed from the first Tuesday in April to the first Saturday in April;

Election officials will get a pay raise from \$1 to \$1.25 an hour;

Voters in bond elections will be required to sign affidavits they own property and to identify the property;

Write-in votes will be outlawed in primaries except for party offices, like county chairman;

Only opposed candidates will have to file campaign expense statements.

FORMER AREA RESIDENT DIES IN CALIFORNIA

Jesse Gordon Dunagan died suddenly in California on August 29 following a heart attack. He was buried in Palo Verde Cemetery in Blythe, Calif., on September 1.

He was born in Juno August 10, 1903, and had lived in and around Sanderson before going to California. He is survived by his father, Oscar Dunagan; two brothers, Kink Dunagan of Blythe, and Fogger Dunagan of Bishop, Calif.; two sisters, Mrs. Tonie Larson of Paris and Mrs. Sky Brotherton of Del Rio.

Parents Must Go To Traffic Court With Juveniles

A little publicized provision of the State's new traffic safety laws requires that one or both parents of juvenile traffic offenders appear in open court with the youthful law breakers.

The law, which became effective today also states that juveniles can plead guilty only in open court before the judge and that parents or guardians must be present before the teen is convicted or fined.

"In today's busy world it is difficult for many well-meaning parents to keep up with the actions of their teen age children. This provision of the new law should benefit conscientious parents and their youngsters," Russel H. Perry, President, Association of Texas Fire & Casualty Companies said when commenting on this phase of the new traffic laws.

"Up until now," Mr. Perry added, "teens could be arrested and fined without the parents knowledge. Teens could and did build terrible driving records. In many cases, the parents could have called a halt to the dangerous driving; if only they had known what was going on."

Mr. Perry also pointed out that the driving records of all members of a family household affect auto insurance rates under the Texas Driving Insurance Plan.

MAKE SURE YOUR CHILDREN HAVE GRADE "A" STUDY LIGHTING

... make seeing and learning easier

You'll give your school age youngsters a helping hand with homework when you provide them with the best possible study light. There's less chance of eyestrain... more chance for productive study. For proper lighting, they'll need a good table lamp with a 150-watt bulb and a diffusing bowl to prevent glare. The lamp should be properly shaded to conceal the light source from the eyes, and tall enough to spread light evenly over the work surface. Check now to make sure your children have grade "A" study lighting... the kind that leads to better learning.

IT STARTED OUT SO SMALL AND NEAT—

SECURITY-SECURITY

Have you looked at your paycheck lately?

If you have, you probably were shocked, and even more shocks are coming.

On top of a Social Security tax increase on January 1st, the administration is now asking for another big boost in the payout program. This would raise the minimum benefit for retired workers to \$70 a month, and would assure workers with twenty-five years of coverage at least \$100 a month. In addition, it's currently proposed to extend medical insurance to disabled beneficiaries, and allow larger earnings without loss of benefits.

Young Americans in the work force will pay for these increases, if they are enacted. Young people particularly should realize that the foundation of all financial provisions for retirement security is a sound dollar. They should demand, as should all Americans, that the Social Security system be properly managed so as that one day the working public will not rebel against the system. Even under present benefits the combined tax on employees and employers will rise to 11.3% within a few years.

Social Security benefits should be adequate but they should not be vulnerable to political influences.

It might be wise to make a careful appraisal of the system, which is now three decades old, to see if it provides real security.

Eagle Boosters Ask Support Of Parents Friends of Youth

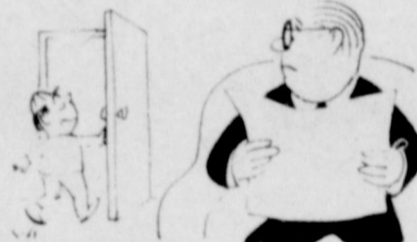

L. R. Hall has been elected president of the Eagle Boosters since the resignation of Gene Thompson. Mrs. Louise Causey is vice-president and Mrs. Ross Stavley is secretary-treasurer.

Mr. Hall is making an appeal this week for all parents and interested friends of the sports program in the Sanderson schools to attend the weekly meetings of the organization in the high school Tuesday at 7:30 p. m.

"Some have the idea that the Eagle Boosters are supporting the band or the football team," Mr. Hall said, "but the organization is behind the entire athletic program of the school and we must give our youth our support in every way we can."

Mrs. H. A. Smith is in an Alpine hospital for medical treatment following a heart attack Thursday evening. She had been in the hospital since Wednesday afternoon. Her sister, Mrs. F. L. King, flew into Odessa from Lafayette, California Friday afternoon and is in Alpine to be near her sister.

do or threaten to do what he has done. What often escapes us, is

the fact that the primary purpose of most of the business men we know is to make a living. If there is or was anyone who was in business here for the purpose of "making a million" they have long-since passed, or the idea has. There has to be a willingness to be of service, to try to cater to the customers - even

beyond the limits of reason at times, and to be progressive to whatever degree the business will allow. But in order to do all of this, there has to be a net profit. And that is usually the motivation of many of the changes that businesses make: moves, credit, merchandising, renovating, hours, etc., etc.

**Dramatic!
 Distinctive!
 Daringly new!**

'68s Top Secrets are here

1968 Chevrolets

The 1968 Chevrolets are the very essence of modern design. Every line, every curve is in close harmony. It's a smooth, uncluttered look with roof lines compatible with body lines, grilles and bumpers that blend gracefully into long, rounded fenders. Clean, flowing, beautiful in their simplicity, these '68 Chevrolets are rich and advanced in styling beyond any you've ever seen.

A MORE SILENT RIDE

And for 1968, we've gone to every length to give you more peace and quiet inside. The most sophisticated computers have been used to strategically place body mounts and successfully isolate noise and vibration. Shock absorbers have been improved. The wheel stance on many models is wider for greater smoothness. Exhaust systems have been redesigned to make them whisper-quiet. Even the clocks tick more softly. A sound car is a silent car. The '68 Chevrolets are the most silent, highest quality cars we've ever built.

BETTER PERFORMANCE

There are new engines, a bigger standard Six and V8. There's a new

250-hp V8 you can order that runs on regular fuel. Many new engine components increase dependability and keep your new Chevrolet running stronger. There's a new rear axle ratio you can add for greater economy. On most engines equipped with automatic transmissions, there's a special heater for the carburetor which gives you more efficient performance in cold weather. And with every engine, you get the new GM exhaust emission control.

UNIQUE ASTRO VENTILATION

There's a whole new idea in ventilation, called Astro Ventilation, for Camaro, Corvette and the elegant Caprice Coupe. It's also available on many other models. By opening two new vent-ports on the instrument panel, you bring in outside air that can be directed where you want it. This way, you can leave your windows rolled up and add still more to your peace and quiet.

PROVED SAFETY FEATURES

You get the proved GM-developed energy absorbing steering column, folding front seat back latches, dual

master cylinder brake system with warning light, plus many more new features. Among them: energy absorbing front seat backs, and safety armrests that shield the door handles.

MUCH MORE THAT'S NEW

There are new roof lines, some formal and graceful, others sporty and quick. There are new instrument panels, richly designed and all controls within easy reach. There are new interiors, new vinyls, new fabrics, new colors. There are models with Hide-A-Way windshield wipers and headlights that disappear behind grilles. There are new side marker lamps, new recessed taillights. There's even a new ignition alarm buzzer that reminds you not to walk away and leave your keys in the car.

These are the newest, the most different, the most dramatically changed Chevrolets ever. And they're at your Chevrolet dealer's now. You'll thoroughly enjoy slipping behind the wheel, experiencing the smooth new handling and library-quiet ride and, more than anything, seeing and feeling the even greater quality built into every new Chevrolet for 1968.

Be smart! Be sure! Buy now at your Chevrolet dealer's.

There's more quality and value built into Chevrolets than ever before, making every new 1968 model an even better buy!

HALEY HAYNES ON CARRIER IN TONKIN GULF

Hospital Corpsman Second Class Haley A. Haynes, USN, son of Mr. and Mrs. Bill A. Haynes is in the Gulf of Tonkin off the coast of North Vietnam as a crewmember aboard the attack aircraft carrier USS Coral Sea.

This is the third cruise to the combat zone for the 973-foot carrier since 1965 when planes from its flight deck flew the first air strikes against North Vietnam.

During the "Flatop's" last cruise to Southeast Asia, it spent 109 days "on the line" in the Gulf of Tonkin and she launched more than 8,000 combat and support sorties over North and South Vietnam.

Before arriving at its combat station, the Coral Sea made port calls in Hawaii, Japan, and the Philippines.

Mrs. Jimmy Mills of San Antonio is visiting here with Mrs. Ethel Zerr.

J. R. Hodgkins took his son, Tommy, to Kingsville Saturday for him to enroll at Texas A & I for his junior year. Tommy is recuperating satisfactorily after being hospitalized in San Antonio for several days for treatment of injuries received in a recent accident when he was struck in the back by an airplane propeller. Danny Hodgkins had gone to Kingsville earlier to enroll for his sophomore year at the college.

JOHN BENNETT, 81, DIES

John Bennett, 81, retired prospector, died late Tuesday, September 5, in a nursing home in Alpine after a long illness. He had been a resident of the Big Bend area for more than 50 years, most of them at Marathon.

Graveside funeral rites were in Marathon Thursday afternoon. He is survived by two daughters and 10 grandchildren.

Mr. and Mrs. E. F. Pierson attended the funeral services. Mr. Bennett's wife was the former Lucille Pierson, a sister of Mr. Pierson and she died in 1935.

Mr. and Mrs. Riley Welling of Spokane, Wash., visited here for a few days last week with his brother, Edward Welling, and wife.

W. R. Gillis of Tyler visited with Mr. and Mrs. B. L. Van Cleave and other friends here last week.

Personals . . .

Mr. and Mrs. Irvin Robbins have received word that their son, Spec. 5 Irvin Robbins, has been promoted to Spec. 6 and will be leaving from Fort Hood soon with his family for an assignment in Alaska.

'68 Buick. Now we're talking your language.

We changed the Skylark from front to rear, we gave it a whole new look, simply because we believe you want a car like this. In other words, we're talking your language.

We thought you'd like to have a little easier time parking. So we shortened the wheelbase of the two-door Skylark down to 112 inches.

The new 230-hp., V-8 engine runs on regular gas. It's standard on all Skylark Custom models.

We also refused to limit your choices. Skylark Custom comes in four models, 15 colors and 32 trim combinations. So talk to the man who talks your language, your Buick dealer.

All Buicks have a full line of General Motors safety features as standard equipment. For example, side marker lights and energy-absorbing steering column.

Wouldn't you really rather have a Buick?

The '68 Buicks are at your Buick dealer's now. He's ready to talk your language.
