LISTEN TO LUKE

By Albert---

By this time next week, we will have some kind of news about the outcome of all of the political races in which we are individually interested.

At least all of the politicking will be over and we can get back to the normal routine of looking at different comedies on the tube.

We won't say that either type of comedy is better than the other, but we will say that some of it has been very unappealing.

What seems to us to be the biggest joke is the fact that the candidates who have used television the most have tried to present themselves in an appealing manner to the people in order to try to get their votes when all of them are well-known by the people.

There is some deception - or an effort at it - on the part of all of the candidates when they make a speech when they tell an audience what they are going to do, when they can only try to do something. The check and balance system of our government controls the actions of one branch of the government in an effort to push its will in the electorate.

All three of the presidential hopefuls and one of the v-p candidates were nationally-known before the race ever began and all of us know what kind of people they were and I doubt that they have changed drastically for the purpose of filling the office. Now changing for the purposes of the election is something else again....

We are printing an article from the Chamber of Commerce of the United States in other pages of The Times for the information of our readers. If there is any partisan politics assumed on the part of anyone it is not intended. It is just interesting information.

We hope that everyone in the nation will vote just exactly like we do -- for the good of the nation and not for any selfish driving of any individual or group -- after considerable meditation and careful study of the facts we have at hand.

Whatever we do as a nation is going to affect us all, so whatever we do we had better do for the best interest of the nation.

We are going to prosper and thrive as a nation, or we are going to die as a nation.

Personally, we are going to retain the privilege of speaking and by voting for those we think can do the best job and against those we feel cannot.

It has been proven without a doubt that this nation does not need a vice-president. Since the Democratic National Convention Mr. Humphrey has been out on the campaign trail and has not been tending to any business in Washington.

In our opinion, there should be some provision made for a person this high in our government holding the office while making another. If we can do without him that easily, then he is only a stand-by president, and if he is only that, then he should be on the job along with No. 1 man.

A clear and vivid portrayal of carelessness is depicted in the picture of the wrecked automobile above. The car turned over an estimated five times about 3 miles east of Sanderson Thursday taking the life of the driver and injuring the two passengers. C. W. Harris, driver of the school bus coming to Sanderson, stated that the accident occurred within his sight and probably the bus would have been involved had the driver not pulled back to the right, resulting in the overturning of the car. The people in the car were reported to have been alternating at driving all night just prior to the accident.

Auto Crash Kills Woman

A one-car accident three miles east of Sanderson on US 90 claimed the life of a Beeville woman and injured two men about 7:30 a. m. Thursday of last week.

Dead on arrival at Brewster County Memorial Hospital in Alpine was Mrs. Addie Rhodes New, 62, of Rt. 1, Beeville. The body was taken to Geeslin's Funeral Home in Alpine.

Two passengers, Gentry Warren New, 71, husband of the dead woman, and Lonnie B. New, his brother, were reported in satisfactory condition Thursday night in Brewster County Memorial Hospital.

The accident occurred when Mrs. New apparently fell asleep at the wheel. The car veered off the highway, skidded, overturned about five times and ran through a fence on the right side of the road, officers said.

Texas Highway Patrolman Kenneth Maniger of Ft. Stockton investigated the accident.

The injured were taken to Brewster Memorial Hospital by Terrell County Ambulance Service and by a Texas Highway Dept. vehicle.

Iraan Braves Beat Eagles 55-0 Friday; Sanderson Will Host Clint This Week

The Iraan Braves scalped the Sanderson Eagles 55-0 in district competition here Friday night. It was the second win for the Braves toward the title.

Iraan showed their strength in all four quarters with the first being the smallest-scoring period of the game.

After receiving the opening kickoff, Iraan marched to the 7-yard line where they fumbled and lost the ball. Sanderson later was forced to punt and from their 20-yard line, the Braves

marched downfield to score from the 5 with Roger Cormier having the honor. Maxie Watts kicked the extra point.

The Braves made two touchdowns in the second period, the first on a pass play, the first of the second period, from David Wilson, quarterback, to Ronald Stuard from the 44-yard line. Cormier went over from the 3 for the second score, and the third was also by Cormier from the 13. Watts made one and missed two of the PAT kick efforts.

In the third quarter, Wilson scored from the 5 and halfback J.D. Marike went over from the 10 for the two tallies of that period. Watts furnished one extra point on a kick.

The final frame's scores by the Braves included a 12-yard run by Marike, and 3-yard run by Mike Scallorn and the PAT by Watts. On subsequent possession efforts by the Braves, they tried a field goal on the first down, the first one from the 20 was good and there were two misses by Watts.

The Eagles had most of their offensive effort on their own end of the field.

Sanderson will host Clint on Friday night in what should be one of the better games of the season.

DEER ATTEND GAME

During a part of the game, spectators intermittently watched two deer on the side of the mountain west of the playing field as they ambled toward the header. They were in very plain sight because of the light from the field and their closeness to the spectators, but seemed undisturbed by any of the gridiron activities.

Neither did they show any interest in the outcome of the game.

'Miss SHS' and Band 'Sweetheart' To Be Told Friday

On Friday evening at the football game with Clint, "Miss SHS" and the "Football Sweetheart" will be presented and crowned at half-time.

Miss Amelia Escamilla was "Miss SHS" last year, the first year for the project started by the student council, and Miss Nancy Yeary was the "Football Sweetheart".

The Sanderson High School students will select "Miss SHS" and the football players name their "sweetheart" by a secret ballot.

New for Sanderson!

ALL NUMBER CALLING

WITH delivery of a new telephone directory next week, all Sanderson telephone numbers will be changed from two letters and five numerals to seven numerals.

The prefix of "DI 5" will be changed to "345" — actually the same in dialing. The last four digits of each telephone number will remain unchanged.

For example, DI 5-2441 will become 345-2441.

Sanderson thus will join many

other Southwestern Bell cities in conforming with the new nationwide system of numbering known as All Number Calling.

All the new numbers will appear in your new telephone directory.

We believe that you will find this new up-to-date numbering system simple and more trouble-free to use, with fewer chances for error in dialing.

And Sanderson, as in the past, will continue to be in the forefront of telephone progress.

"Stationery with 'DI 5' numbers can still be used after the change!"

Since numbers here will continue to be dialed the same, stationery and other printed material bearing the "DI 5" telephone numbers can still be used after the change to All Number Calling.

However, you'll want to be sure to remember to use your new seven-numeral number when you reorder printed material.

...because he thinks, like the majority of the nation, that its time for a CHANGE.

...because he feels that Texas—like Oklahoma, Arkansas and New Mexico will benefit greatly from the establishment of an effective two party government!

...because West Texans are independent they should be represented by a Representative who is not tied to the "establishment"!

Why is it Important for Jim Kent to Win?

...because Texas needs a strong spokesman, if it is to attract new industry for better jobs, better pay, better schools, fewer taxes.

VOTE KENT Nov. 5th

(Pd. Pol. Adv.) pd. by Jim Kent

Normally, every American would know the answer to this question. But these are not normal times, and the question of how and under what conditions the next President and Vice President of the United States will be chosen should be a matter of utmost concern to each American voter.

The importance of the popular vote on Nov. 5 looms ever larger with the reported possibility of an electoral stalemate, i.e., where neither Nixon, Humphrey nor Wallace receives on election day the 270 electoral votes needed to be elected.

How then would a President and Vice President be chosen? Either by the electors in each of the 50 states or the House of Representatives would elect a President, and the Senate a Vice President.

Procedure for each of these methods is spelled out in the Constitution. It is further governed both by law and historic precedent. Nevertheless, the varying possibilities of what might happen are even now—weeks before Election Day—subjects of extensive speculation, intrigue, political pressures and general confusion.

Perhaps this explanation will help each voter appreciate the importance of his *one vote* on Nov. 5:

Should no Presidential candidate receive the required 270 electoral votes on Nov. 5, the United States—for the first time since 1824—would be without a President-elect and a Vice-President-elect to take office on Jan. 20. The election would have ended in a stalemate—a deadlock!

Nothing could be done officially to break the deadlock for at least 40 days, or until Dec. 16 when the electors, chosen by the voters of each state and the District of Columbia, meet in their respective jurisdictions to vote for the President and Vice President. Presumably, each elector would vote for the same candidates who carried his state on Nov. 5.

Unofficially, and behind the scenes between Nov. 6 and Dec. 16, attempts might be made to change the vote contrary to popular wishes expressed at the polls.

Normally, the electors' vote would be perfunctory. However, the existence of an electoral stalemate would center national and international attention on their every action. If the electors voted the same as their respective states (only 16 states require this), the Presidential election would remain deadlocked.

The sealed results of the electors' vote, state by state, would be officially reported to a joint session of the Senate and House of the 91st Congress on Jan. 6.

If the joint session were advised that no Presidential candidate had at least 270 electoral votes needed for election, then the Senate would retire to its chambers to elect a Vice President from the two candidates having the highest number of electoral votes. Two-thirds of the Senate would constitute a quorum, with 51 votes required for election. Each senator would cast one vote per ballot, the Vice President in case of a tie.

The House would begin balloting immediately to elect a President from among the three candidates having the highest number of electoral votes. In the House each state, regardless of size or the number of its Representatives, would have but one vote per ballot. Two-thirds of the states (34) would have to be represented to constitute a quorum. The votes of at least 26 states would be required for election.

The vote per state would be determined by a caucus of its House delegation, the majority ruling. If its delegation were evenly divided and unable to reach a decision, that state would cast no ballot.

It is possible that 26 states with a population of 31 million people could outvote 24 states with a total population of 149 million. It is also possible for 76 Representatives from 26 states to elect a President in a House of 435 Representatives from the 50 states.

The balloting would continue, without interruption of other business, until a choice of President is made.

The House in 1801 cast 36 ballots before electing Thomas Jefferson. In 1825, John Quincy Adams was elected on the first ballot over Andrew Jackson even though Jackson had received the greater popular and electoral vote.

With the House electing a President and the Senate a Vice President, it is not impossible for each to be of a different political party. This would depend on the political makeup of the Senate and the House.

If by inauguration day, Jan. 20, no one has been elected President, then the Vice President elected by the Senate would be sworn in and would be "Acting President" until the House did elect a President.

If the possibility of either unrestricted electors or the House/Senate electing the President/Vice President is not sufficient to arouse in each voter the desire to choose for himself on Nov. 5 the heads of state for the next four years, then consider the effect on our national economy—on our national and world prestige—on domestic and world conditions *IF*:

- On Nov. 5, the United States of America—the world's greatest democracy—failed to elect a President and Vice President?
- The United States were without a President- and Vice-President-elect for the period Nov. 6-Dec. 16, Nov. 6-Jan. 6, Nov. 6-Jan. 20, or beyond?

Without knowing the answers to these questions, it is not difficult to imagine what chaotic conditions might prevail—and their effect.

Whatever happens on Nov. 5 or beyond rests squarely with all American voters. The importance and value of each vote cannot be overemphasized.
