LISTEN TO LUKE

By Albert:---

We have heard several times that some people's definition of a good newspaper man is that he doesn't fail to say what he thinks and he always tells the truth!

We are glad to report that we are happy that we do not come into this classification!

It is like some opinions of a business man: when he obviously gets to somebody in a deal, he's considered shrewd. But the guy he got to calls him crooked!

I doubt very seriously that a newspaper man's honesty would be upheld and his ability praised if he was completely honest and frank to this degree:

Mr. and Mrs. John Doe returned from their vacation last week. They couldn't have stayed gone so long if they had paid their bills before they went; or ---

Mr. Doe stood behind the bridal pair with a double-barrel shotgun obviously cocked. His suit was of imported wool with some synthetics mixed in; --- or ---

Frankly, the refreshments were lousy, but they were attractive to look at; --- or ---

The local Little League team won their regional title, but if they hadn't had two ineligible players, they probably wouldn't have; --- or ---

The business meeting of the bridge club consisted of a rousing condemnation of the bidding habits of the three names that were submitted and all three of them, namely ---, ---, ---, were unanimously blackballed.

Nope. We don't want to be frank and completely honest!

As we stated before recently, people have an obligation, at times, to stand up and be counted for or against something. But discretion is still called for at times in the way one should express himself.

The telling of the truth or withholding some or all of it has to be decided in the light of many things. One's purposes are not always known or understood, so the person has to be considered.

If an editor is always trying to hurt someone or something, in the eyes of a reader, then his every action will be interpreted in this light. If, on the other hand, some one else knows truly his actions and reasoning, then he will have another opinion of the writer.

Our every word is intended to help in the over-all view.

Our words, for example, about some poor drainage conditions are not intended to point out a lack of action in the past, but a possible need for future activity.

Three word definitions we thought interesting:

"discriminate" to make a difference in treatment or favor on a basis other than individual merit;

"preference" the act, fact, or principle of giving advantages to some over others;

Budget Down For This School Year

The budget for the operation of the Terrell County Independent School District for the current school year is down \$5, - 249.00, according to A. H. Zuberbueler, tax assessor-collector for the district. He stated that almost all of the reduction in the budget was due to the reduction in school personnel.

There will be some slight amendments to the budget, Mr. Zuberbueler stated, at the next meeting of the board of trustees on transportation items, but these will not seriously affect the total figures.

The figures released took into consideration the built-in pay raise for teachers and could be changed pending the outcome of pending litigation between the state and federal governments.

L. H. Lemons, 71, Dies In Alpine

Lewis H. Lemons, 71, died in an Alpine nursing home on Monday night. He had been a patient there after suffering a stroke several years ago.

Mr. Lemons was born in Sanderson June 18, 1900, the son of Mr. and Mrs. W. H. Lemons, pioneer residents of Terrell County. He attended the local schools and following graduation from high school, attended Tyler Commercial College. He worked in the Sanderson State Bank for about 22 years and then was in the cafe business for several years before ill health forced his retirement from business. He was formerly a member of the Rotary Club and active in civic affairs for many years. He was also a member of the First Baptist Church.

A son, Lewis William Lemons, of Clinton, Mass., and a daughter, Mrs. Wilburn Bruns, of Dallas, each the child of a former wife, now deceased, survive.

Mr. Lemons married Mrs. Jean Cooke on August 13, 1949.

He is also survived by four sisters, Mrs. Addie Halbert, Mrs. Grace Wheeler, Mrs. C. I. White, all of Sanderson, and Mrs. Frank Robertson of Buchanan Dam; a brother, W. H. Lemons Jr., of Houston, and six grandchildren; and a foster-son, Milton, whom they had reared.

Funeral services were at 3:00 o'clock Wednesday at the First Baptist Church in Sanderson and burial was in Cedar Grove Cemetery under the direction of the Geeslin Funeral Home of Alpine.

Student Numbers Down By 37

Total school enrollment is down 37 from last year, according to figures released by Terrell County Independent School District Superintendent C. B. Card Monday.

There were 477 students at the beginning of the last school year and the figure decreased to 450 at the end of the school year, while the beginning enrollment this year is 413.

Supt. Card stated that he knew of a few more students that he expected to enroll, but it would not appreciably increase the total enrollment.

In the kindergarten are 25 students; 1st 36, 2nd 36, 3rd 23, and 4th 35, for 155 children in the elementary building.

In the junior high school: 5th 34, 6th 37, 7th 27, 8th 34, for a total of 132.

There are 126 students in the high school building. The 9th has 33, 32 in the 10th, 34 in the 11th, and 12th has 27.

Local Residents View TurboTrain

A crowd estimated at more than 500 was on hand to view the Amtrak TurboTrain when it arrived in Sanderson at 2:00 p. m. Saturday.

The large overflow crowd began making the trip through the two passenger coaches as soon as the train stopped, but the trip was abbreviated to one car after it was decided that the crowd was too large for the time allotted for the local stop.

A large number of people decided to ride the train to Alpine free of charge and they were also treated to a movie, sandwiches, and cold drinks on the ride.

The TurboTrain is leased by the U. S. Department of Transportation and now on a 20, 600-mile cross-country tour. Two of the trains are now in operation between New York and Boston.

Joe Matthews, a representative of Amtrak, the National Railroad Passenger Corp., said during a 30-minute stopover in Sanderson, "We wanted to bring it out here and let the people take a look at it and give us some indication of what type of train they would like to ride if we would try to get the people back on the railroads which we are trying to do."

Deer Season Set Nov. 27-Dec. 12

Deer season in Terrell County this year will be November 27 to December 12, both days included, with the bag limit being one mule deer buck and one antlerless mule deer by special permit, no more than two white tail bucks, no more than three antlerless deer, according to a release by the Texas Parks & Wildlife Department this week.

The quantity of deer this year is said to be as high or higher than last year in some areas of the county and recent rains offer the probability of the deer being in good shape.
