LISTEN TO LUKE

By Albert:---

With the opening of school last week, we hope that all local drivers remembered that their driving habits should be reviewed so that they could remember to watch for the little ones as they came and went from the school.

There is always a big rush to get away from the school at the noon hour and after school is out and the normal congestion that results from so many parents coming for the kids causes some kind of a hazard that must be considered.

Be sure and drive carefully to avoid a regrettable and serious accident!

The building at Barton's Conoco Truck Stop west of town has been completed and at this writing he is awaiting the arrival of new stock for the business.

The all-steel building is attractive to the premises.

For the information of our readers, there is something being done about trying to secure a doctor for Sanderson. Contacts have been made, information is being put out in all the places where it is likely to do some good, and every effort is being made that is known. The committee, headed by Troy Druse, knows full well the difficulties involved and the need for a sincere effort in every avenue of possibility.

If anyone has any clues, they will be welcomed.

Our efforts to unify the expiration dates of all of our subscribers is meeting with little or no opposition, and we appreciate it.

If your name was on the list that was published twice during August and you fail to get the paper, it is because the subscription has expired and we were not notified that you wanted to continue getting the paper.

We appreciate your letting us know as soon as possible after the expiration date of your subscription is published. And be sure and watch for the names of friends or relatives that you have been sending the paper to so that they may continue getting the paper, also.

We don't want to lose any subscribers, for more reasons than one.

We had known all during last month (August) that the weather was not what it should have been, but we didn't know that it was so far off!

Ervin Grigsby gave us the information Tuesday morning that relates very vividly that August was an unusual month weather-wise.

We have heard some say that it was probably because of the astronauts going to the moon and all of the stirring up of the atmosphere by the moon shot, etc.

It stretches a point - but we can remember back in elementary school days they told us in a geography class about the moon controlling the tides. So maybe a moon shot and astronauts walking on the moon can

ASCS Office Has 'Freeze Answers

All residents of Terrell County may obtain answers to questions on operation and interpretation of the Presidential order of August 15 on prices, rents, wages, and salaries from the Brewster-Terrell County ASCS Office, according to Clarence Jessup, chairman of the County ASC Committee.

County ASCS offices throughout the United States have been chosen as information centers to answer questions from all citizens on President Nixon's executive order which is designed to stem inflation and strengthen the national economy.

The Brewster-Terrell County office is receiving official answers to questions concerning the President's action, and any person in Terrell County who wants or needs precise information should get in touch with the County Office, Jessup said.

The Brewster-Terrell County ASCS office is located at 205 E. Ave. D, Alpine. The mailing address is Box 397, Alpine, Texas 79830. The telephone number is 915-837-2325. In charge of the office is Norberto Ponce, county executive director. The program assistant is Mrs. Carlos Dunn. A representative holds office hours in Sanderson at the Soil Conservation Service office on Persimmon Street each Wednesday from 10:00 a. m. to 3:00 p. m.

"Ours and all ASCS offices throughout the nation, will function as information centers in all locations outside of highly urbanized areas," Jessup said.

County ASCS offices are not to handle complaints or appeals, he said. They will serve only to provide official information. Persons with complaints will register them with the most convenient district or sub-district office of the Internal Revenue Service.

"Neither will interpretations or guesses be made by ASCS county office people. They will answer only those questions for which they have been supplied an answer. If they don't know the answer to a specific question, they will say so. If a member of the public wants the county office to obtain an answer, the question will go by phone or mail to the nearest IRS district office," Jessup said.

Normal functions of the ASCS county office are to administer farm action programs of the U. S. Department of Agriculture on the local level. County Committee Chairman Jessup said ASCS service to farmers and ranchers will continue without interruption.

The lowest high was 72 degrees on August 3, the highest was 93 on August 23.

Rainfall during August totaled 4.21 inches officially locally.

FORMER RESIDENT DIES

Mrs. L. W. Erwin of El Paso was interred in that city on August 18 after her death following a period of failing health. She was the former Marguarite Bassnet and a teacher in the Sanderson schools.

Her husband survives; also two daughters, Mrs. R. E. Heyser of El Paso and Mrs. Kathleen Klepetko of Denver, Co.; also five grandsons.

Mr. and Mrs. Ervin Grigsby were in Alpine Tuesday to visit with his mother, Mrs. Lee Grigsby, who is in a nursing home there.

Eagles Try Wings Against Menard In Ozona Match

The Sanderson Eagles went to Ozona Friday night of last week for a scrimmage with Menard. A large contingent of fans accompanied the team.

Mexican Identified As Truck Thief

A burglary south of Ozona last week resulted in the identification of a man said to have stolen the pickup belonging to Bob Allen about six months ago.

A Mr. Mayfield, who owns a ranch about 50 miles south of Ozona, was accompanied to the ranch by Mr. West one day last week and when they got there, they were accosted by a Mexican who had apparently been waiting for their arrival, according to a story related by Mr. Allen. The Mexican forced the two men, at gun-point, to go into a walk-in ice box from which he had removed the inside emergency release. He ransacked the house, but finally released the men from the vault, but tied them before he pulled wires loose from all vehicles except a pick-up he used to flee from the scene.

Friends or relatives went to the ranch after the men failed to return and released the men and returned them to town and reported the burglary.

On Thursday night, the burglar wrecked the pickup south of Ciudad Acuna and he was seriously injured and hospitalized there. The U. S. authorities were notified of the apprehension of the man and Terrell County Sheriff Bill C. Cooksey and Bob Allen went to Acuna Friday where they met Mayfield and Texas Ranger Alfred Alee Jr. for possible identification of the man.

The man was identified as the Crockett and Terrell County burglar and the authorities there promised local officers pictures of the man so that area ranchers could know him in case he ever returned to this area.

Coach Willie Myers reported that the Eagle offense scored three times in their 40 plays and showed a good passing game by gaining 169 yards while 69 yards came on their ground game. Menard was held scoreless by the Eagle defense. Coach Myers said that he was not satisfied with the smoothness of execution of the plays by the offense, but he expected that to improve with some experience.

The offensive and defensive starters were listed by Coach Myers as follows: Randy Louwien, right end; Roger Sanchez, right tackle; Blain Chriesman, right guard; Ronnie Stewart, center; Damon Harrison, left guard; Ike Billings, left tackle; Steve Litton, split end; James Druse, quarterback; Santiago Flores Jr., fullback; Jim Cash, right halfback; Kendrick Harrell, left halfback. The front four defensively consists of Billings, Stewart, Chriesman, and Sanchez; Cash and Raul Ybarra will play defensive ends; Louwien and Flores, line-backers; and in the secondary will be Juan Saenz, Litton, and Druse.

Coach Myers stated that these line-ups could change as there are several of the Eagles who are giving some strong competition for a starting berth.

Mr. and Mrs. Mark Duncan met her sister, Mrs. Lee Johnston, and her son, Victor Blackburn, of Big Spring, in Monahan for a visit Sunday.

Mr. and Mrs. Miguel Hernandez returned home from Odessa Monday after he had received medical treatment in a hospital there for 10 days. Their son, Ruben Hernandez, brought them home.

Another picture taken from the brochure published by Joe Kerr Sr., many years ago shows a view of the Terrell County courthouse and jail. The courthouse was later remodelled and the jail building razed and the jail added as the third floor to the courthouse. The brochure was loaned by Edward Kerr.

NOTICE OF CANCELLATION OF LIVESTOCK BRANDS AND MARKS

All brands and marks on Texas livestock must be rerecorded with the County Clerks after August 30, 1971, according to a new law passed during the last session of the Texas Legislature. Producers will be given a six-month period (August 30, 1971 through February 29, 1972) in which to register these brands and marks and the location on the animal which they are currently using, after which time any unrecorded brand will be available for use on a "first-come" basis.

The law further states that all such brands and marks must be rerecorded every 10 years. Each County Clerk records for his given county only, so many pro-

ducers may need to record their brands in additional counties if their operations are extensive.

The owner shall have the right during this six-month period to file the mark and brand now recorded in his name. In the event it cannot be determined from the records who first recorded the brand and mark in the county, then the person who has been using such mark and brand the longest shall have the right to have the brand and mark recorded in his name.

It should be noted that it is illegal to brand livestock without first properly recording the brand with the County Clerk in the county in which the livestock are held.

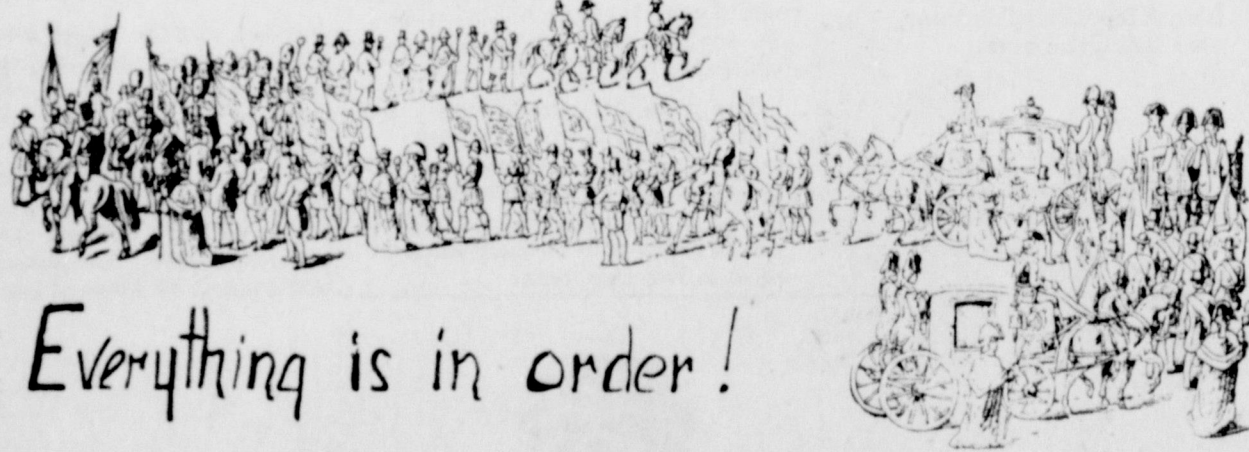

When the brand or brands are recorded, the location on the animal on which the brand is to be applied must be designated. If the brand is to be applied to more than one location on the animal, it must be so recorded and each additional location for the brand on the animal shall constitute a separate recording of that brand.

There is no limit to the number of brands and/or marks which may be recorded in a county by a person as long as requirements of this law governing the recording and rerecording of livestock brands are met. Minors may have marks or brands separate from that of their father or guardian, which must be recorded or rerecorded as provided by the new law.

The County Clerk of each county shall have this act published in some newspaper of general circulation in the county for a period of 30 days. The act shall be published on the effective date, August 30, 1971, and thereafter for 30 days.

It is the obligation of the County Clerk to assure that no more than one brand of a kind be recorded on the same location of the animal in each county. Therefore, no two people in a county may record the same brand in the same location. It is also the responsibility of the County Clerk to make certain that in recording any brand for a person, that the part of the animal on which the brand is to be placed be designated.

Ruel Adams, County Clerk, Terrell County, Texas. 30-50c

With deepest regret, we announce that prescriptions will no longer be filled in Sanderson Pharmacy, but we will continue to give the best prescription service possible under these circumstances.

Daily Prescription Delivery from Fort Stockton will be made by the Stockton Pharmacy. All of your prescription records are being transferred to Fort Stockton and each day at **2:00 p. m.** your prescription numbers will be called to Fort Stockton where they will be filled and delivered to Sanderson the same afternoon. We invite that you bring your new prescriptions - not of an emergency nature - to Sanderson Pharmacy and they will be handled the same as other prescriptions. To assure you the shortest delay in receiving your prescriptions, we would ask that you please call in or bring your prescriptions before 2:00 p. m. each day. Since only the prescription numbers will be required, phone calls to Sanderson Pharmacy will be sufficient to get your prescriptions re-filled. If you are now seeing a doctor in Fort Stockton, we invite you to stop by Stockton Pharmacy for fast prescription service.

The people of Sanderson have been extremely kind and cooperative with us during the past year and we appreciate it so very much and we beg this indulgence of you and hope the short delay in prescription delivery will not be too great an inconvenience. We thank you for your wonderful support during our 1st year in Sanderson and hope that we can continue to serve you in the best way possible.

LABOR DAY 1971

We are about to observe another three-day weekend. On the last one, Independence Day, 636 persons were killed on the highways. By comparison, during the same week, 29 U. S. soldiers were killed in battle in Vietnam.

The war is coming to an end, but there seems to be no end in sight for senseless highway slaughter.

Many lives could be saved if motorists took the simple precaution of being certain their automobiles were functioning properly before leaving home. Others could be saved by using the safety belts provided by all manufacturers. And still more could be saved if that "one for the road" was made from a recipe of three parts of caution mixed with one part of common sense.

If you are driving over the Labor Day weekend, we want you to have a pleasant holiday and to see you and your family back home safely. Drive defensively and, if in doubt about safety, don't drive.

Notes from the Big Bend

by Ro Wauer
Chief Park Naturalist

What's in a name? In West Texas as elsewhere, place names are enticing parts of our culture. They may be clues to the past, memorials to special people, or actual descriptions of geographic features. Apparently, other Big Benders have had a special interest in place names as well. Henry T. Fletcher discussed Big Bend place names in a 1951 special supplement on Big Bend National Park in the *Alpine Avalanche*. Walter Fulcher's book, *The Way I Heard It*, appeared in 1959, and included a number of interesting anecdotes about places within the Big Bend. And in 1958, Virginia Madison and Hallie Stillwell's *How Come It's Called That?* appeared. These three publications stand out as the major references to places within and around Big Bend National Park.

People are curious: Park employees continuously are asked about places that are

not covered by the available publications or a "Place Names File" maintained at park headquarters. So, we need to know more! It would be very much appreciated if you, your relative or friend, would drop us a line if you know anything about the following places. How did the name come about? Who named it? When? All of these questions are samples of the kind that visitors ask about such places as Buenos Aires, Loop Camp, Rooney Place, Banta Shut-In, Lone Mountain, Quail Spring, Dogie Mountain, and many others.

A major primitive trail in the southern part of the Dead Horse Mountains is known as the Marufo Vega Trail, but no one seems to know where the name came from or what it means. Kit and Goat mountains indicate an early history of goat-raising nearby, but does anyone really know? Who are Woodson, Pettit, Carlota, and Jewel? Assumedly, Chisos Pens refers to fenced areas there, part of the Old Gano Ranch that

later was the Homer Wilson Ranch. But there must be more information than that about the place. It is easy to guess how a number of places were named, but who and when is important too. How about Wagon Dripping, Croton, and Round springs? Crown Mountains looks like a crown alright, but when was it named? Several of the common Big Bend place names are, undoubtedly, quite ancient. Places like The Chimneys, Black Knob, and Sierra Aguja are places that really are logical names that the first men to see them may have used. Then there are a few names that probably are recent, such as Huber Ridge, Lone Mountain, Tinaja Lujan and others.

If any of these names strike a bell, how about helping us to help the park's visitors by sending us the correct information.

WE BELIEVE OUR \$300 TYPEWRITER CAN DO EVERYTHING YOUR SECRETARY DOES WITH HER \$600 ONE.

Ask yourself. Just how much use would your secretary make of an expensive electric. Better still—ask her.

No matter how hard she works, the answer will probably be—not too much. Because only a few jobs actually require all the exotic refinements that make an expensive electric expensive.

Which means you could have a few hundred bucks tied up in a machine that's never used to its full capacity.

Before now, you never had any choice. If you wanted to electrify your secretary, it really cost you. Anything from \$500 to \$800.

Then along came Hermes. With the low, lean, modern, Swiss-designed 10. An electric office typewriter intelligently planned to do all the useful things you expect an electric to do. But dispensing with the fancy frills that you don't need—and don't want to pay for.

So you get a space bar and 7 symbols that repeat automatically. Electric carriage return and tabulation control. Margins visible at all times with our exclusive Flying Red Margins®. 10 clear carbons. 13" carriage. Faster action than any other typewriter in the world. And \$295 is all you have to pay for it.

But if you really need a machine that does more than the basics, we have a whole range of office typewriters, each with different capabilities to fit different needs. And at prices to suit different budgets.

If you only want to buy a typewriter once, buy a Hermes.
