LISTEN TO LUKE

By Albert:---

The "Help End Pollution" drive which is to be launched soon by the Sanderson Culture Club is a much-needed project in Sanderson and one which we will back to the hilt. We are offering all the space we possibly can spare and they need to give their message to the public.

One of the things that we continue to equate with clean-up drives, etc., is a sense of pride which we feel has a great deal to do with the results. We think that a sense of pride in our town will be one of the greatest motivations for a clean-up.

One of the ways that clean-up has been effective is by the use of a chemical spray on large areas of weeds to sterilize the ground for a period of time. This is not the "magic potion" by any means that answers all of the questions, but it is one of the ways that cleaning up can be more lasting. We used it on a portion of our property where we wanted weeds cleared and we have seen the results of the use of the spray on lots around town and we can see that it has worked there, too.

The weeds can be cut and a lot cleaned completely and be in need of the same treatment in a few short weeks if a hoe or scraper is the tool used, but we have seen that treatment with a chemical is much more effective and much longer lasting and much cheaper than keeping the lot clean with a hoe.

And we do not own any stock or interest in a chemical company or spray company, but we do have a tremendous stock and interest in Sanderson! Let's all do what we can to help make this town-wide project a success!

If a person is out looking for them, there are things published daily in our papers which any individual could consider an extreme waste of time or money by our state and/or national representatives. Some of them seem a little more ludicrous than others and such is the case recently when we read that a certain number of named state representatives had telephones in their cars. Our own representative and senator, George Baker and Pete Snelson, were not listed as having this luxury, but we wrote them in an effort to give a personal view on what we thought was an unnecessary luxury that was permitted our state legislators in their expenses. Somehow in my "small-town" thinking, I just don't conceive a state legislator's job so vital that he has to have a "hot line" to his job at all times, and if it is that important, he doesn't have any business spending that much time in his car and being away from his work so long that he has to be that near a telephone every second he is away from his office. And if it's important for one, it should be essential to all our state legislators, and vice-versa.

Senator Snelson's replay was, continued to second page

Wildcat Staked South of Sheffield

The Texas Oil and Gas Corp. of Midland will drill the No. 1-A Noelke as a 5/8-mile southeast and the same distance south-southwest outpost to Pennsylvanian detrital production in the Yucca Butte multipay gas field of Terrell County which is five miles southwest of Sheffield.

Location is 660 feet from the north and west line of section 5, Block A2, TCRR Survey.

Contract depth is 8,900 feet. The field currently has one Ellenburger, two Connell, and four Pennsylvanian wells.

Vandals Shoot Windows With .22 At Eagle Field

Vandals used a .22 calibre rifle and a BB gun to shoot out glass panes in the press box at the football field recently.

When the room was opened last Friday night the broken panes were discovered and the point of impact of the .22 bullets against the back wall were noted and the smaller conical breaks usually the characteristic of a BB gun shot were also noted.

A twisted and gnarled piece of lead was lying on the floor below the shot marks on the back wall.

The line of fire of the .22-calibre projectiles was toward the flag pole at the southeast corner of the football field.

MRS. LEVI BELL DIES

Services were in Alpine Monday afternoon for Mrs. Levi Bell, 64, who died Friday in a hospital in that city. She had been an Alpine resident for the past twelve years.

Survivors include her husband, her mother, Mrs. Leslie Cobb of Reidsville, N. C.; three sisters and a brother.

Mr. Bell is a brother of the late Sam Bell Sr.

A recent visitor with Mrs. S. L. Stumberg and C. G. Riggins was their aunt Mrs. Ben Davis of Romance, Ark.

Clean-up Details Told

Sanderson Culture Club is promoting a community-wide clean-up campaign during the month of October with concentrated effort during the week of October 4-9.

Using the slogan "HEP Campaign" (Help End Pollution), the club is urging individual participation in ridding the community of litter and debris. Property owners are being asked to clear their lots of weeds and other trash and litter.

A poster contest is being sponsored in the elementary school with the cooperation of the faculty. First, second, and third place ribbons will be awarded in each room.

A litter-collecting contest will be sponsored for the 5th-8th grades the week of October 4-8. Using large grocery bags, the boys and girls will deposit litter in a pick-up truck at the home of N. M. Mitchell Jr., 315 E. Richard St., from 4:00 to 6:00 p. m.

High school students will be working during the week to collect material for a bonfire on Thursday night.

"With cooperation from each citizen, Sanderson can be given a real face-lifting during the month of October", the club's officers stated.

Saturday Night Roping Finale

The final roping event of the series sponsored by the Sanderson Roping Club will be Saturday night at the local arena.

Besides the prize money, the contestants will be vying for the gold and silver belt buckles to be awarded to the top contestants over the series of the various events.

There will also be a matched roping of six calves each between Arturo Garcia of Marathon and Kenny McMullen of Iraan.

Events will begin at 8:00 p. m. and all interested persons are urged to be present.

Eagles Bounce Cowboys 42-0; Will Trek to Balmorhea Friday

The Sanderson Eagles started slowly in their game here Friday night against the Grandfalls Cowboys and finally came to life, beating their guests 42-0. Grandfalls is a Class B school.

Sanderson was scoreless during the first period, knocking on the door of the goal line twice, but was unable to cross it. The Eagles lost the ball on downs on the Grandfalls 1-yard line and again on the Grandfalls 18 in the first quarter.

Early in the second period, James Druse, Eagle quarterback, bootlegged the ball, going around end for 15 yards and the score. He pitched out to Juan Saenz, who also skirted end, for two extra points. Also in the second period, Druse bootlegged again from the 12. Bill Mott contributed the extra point on a place kick to bring the half-time score to 15-0 in favor of the Eagles.

There was a pass interception by each of the two teams later in the second period, but neither directly favored the intercepting team in the total score.

In the second half Kendrick Harrell, halfback, scored on a 28-yard run. The try for the 2-point conversion failed. On the ensuing kick-off, Grandfalls fumbled and Sanderson recovered with excellent field position from where the Eagles marched to the 4-yard line and Jim Cash took it over the goal line for the third Sanderson TD. A pass from Druse to Steve Litton provided two extra points. Later Chago Flores went over from 14 yards out and Ike Billings toed the ball between the uprights for the extra point. Flores converted the final tally from 12 yards out and the try for the final conversion failed.

Coaches Willie Myers, Tommy Hall, and Norman Gladson used some reserves freely during the fourth period, bracing them occasionally with the varsity starters.

Eagles who saw action in the game include: Chago Flores, Juan Saenz, James Druse, Jim

Cash, Kendrick Harrell, Raul Ybarra, Lloyd Goldwire, Ronnie Stewart, Jimmy Davis, Blain Chriesman, Damon Harrison, Juan Lomas, Dennis Haynes, Robert Fisher, Nelson Cooke, Ike Billings, Roger Sanchez, Bill Mott, Steve Litton, Pat Mott, Randy Louwien, who are regular varsity members, and the following from the junior varsity squad: Floyd Watson, Danny Montalvo, Bobby Spence, Larry Hernandez, Martin Petty, Carlos Munoz, Ricky Marquez, Jake Murrah, and Jess Calzada and Danny Galvan were suited out, but were not used in the game.

Sanderson had 16 first downs to 8 for Grandfalls; the Eagles led in rushing 263-107, and passing 69-31 for a total of 332-138. Sanderson completed 5 of 15 passes and had 1 intercepted; Grandfalls completed 3 of 19 passies tried and had 3 intercepted. Sanderson's 5 punts averaged 36 yards compared with a 24 yard average by 6 punts for Grandfalls. The Eagles lost 2 fumbles and the Cowboys lost 3.

The Eagles will go to Balmorhea Friday night and are expected to prevail over the Class B team.

in part: "I certainly agree with your thoughts and believe it to be most unfortunate that we do have some legislators who seemingly abuse their expense allowances".

It seems that we have some legislators who have been abusing some of their other privileges recently, also!

In our humble way of thinking when a legislator takes advantage of his position to manipulate finances, people, or position to his advantage, then he is immediately wrong and should receive the condemnation of that body and of the voters. They were not sent up there to take advantage of anything for themselves and should not be permitted to do so. The same thing is true with other elected officials at all levels.

It is not uncommon to read about a man of modest means spending several thousand dollars to win election to a job which pays what is repeatedly claimed to be "too little for survival" yet they hold that "sacrificial" office for a few terms spending more to be elected and getting too little all the while, yet come out rich men in too many cases.

The two bullet holes in the panes of glass made by what appeared to be .22-calibre bullets, and the small cones of glass pecked out by what looks like BBs indicates strongly that some children are doing something that their parents do not know about. The danger of boys who do not know better than to shoot out window panes having a BB gun is bad enough, but a boy who doesn't know better than to shoot out windows certainly has no business with a .22, in our humble opinion. And certainly, the use of a .22 that close to town is also a dangerous practice, in our humble opinion.

May it all depends on how you look at it!

Miss Pauline Ebel of San Antonio and Misses Lydia and Olga Ebel of Gonzales left Friday for their homes after visiting here with their brother-in-law and sister, Mr. and Mrs. C. C. Riggins.

Petroleum Pays \$5 1/2 Million To County's Economy

Petroleum production continues to play a significant role in the economy of Terrell county with a direct input of \$5,466,455 last year.

According to the latest compilation of Texas Mid-Continent Oil & Gas Assn., the county in 1970 produced 446 barrels of crude oil valued at \$1,472 and 37,431,393 thousand cubic feet of natural gas valued at \$5,464,983. It ranked 123rd in value of petroleum produced.

In addition, the county received the stimulation of \$683,307 in royalty payments to landowners and others with mineral interests.

"Terrell was one of 187 Texas counties that had petroleum production valued at more than \$125,000," says Kenneth E. Montague, Texas Mid-Continent president. "Its ability to produce helped Texas meet a record demand with record production of both oil and gas in 1970. This demand has again diminished Texas petroleum reserves as additions failed to offset withdrawals. In Texas, we only drilled 8,114 wells -- the smallest

number since 1946."

Texas state government benefited from the county's petroleum, receiving \$68 in production taxes on crude oil and \$409,874 on natural gas.

Drilling expenditures in the county totaled \$615,085 with \$273,388 being lost on dry holes. Drillers completed three gas wells and four dry holes. Four wildcats were drilled with two of them dry.

The Texas Employment Commission shows 41 persons were directly employed by the oil and gas industry in the county with an annual payroll of \$183,748.

Mrs. J. D. Nichols remains in a Uvalde hospital for medical treatment, but is reported to be improving.

NOTICE OF CANCELLATION OF LIVESTOCK BRANDS AND MARKS

All brands and marks on Texas livestock must be rerecorded with the County Clerks after August 30, 1971, according to a new law passed during the last session of the Texas Legislature. Producers will be given a six-month period (August 30, 1971 through February 29, 1972) in which to register these brands and marks and the location on the animal which they are currently using, after which time any unrecorded brand will be available for use on a "first-come" basis.

The law further states that all such brands and marks must be rerecorded every 10 years. Each County Clerk records for his given county only, so many producers may need to record their brands in additional counties if their operations are extensive.

The owner shall have the right during this six-month period to file the mark and brand now recorded in his name. In the event it cannot be determined from the records who first recorded the brand and mark in the county, then the person who has been using such mark and brand the longest shall have the right to have the brand and mark recorded in his name.

It should be noted that it is illegal to brand livestock without first properly recording the brand with the County Clerk in the county in which the livestock are held.

When the brand or brands are recorded, the location on the animal on which the brand is to be applied must be designated. If the brand is to be applied to more than one location on the animal, it must be so recorded and each additional location for the brand on the animal shall constitute a separate recording of that brand.

There is no limit to the number of brands and/or marks which may be recorded in a county by a person as long as requirements of this law governing the recording and re-recording of livestock brands are met. Minors may have marks or brands separate from that of their father or guardian, which must be recorded or re-recorded as provided by the new law.

The County Clerk of each county shall have this act published in some newspaper of general circulation in the county for a period of 30 days. The act shall be published on the effective date, August 30, 1971, and thereafter for 30 days.

It is the obligation of the County Clerk to assure that no more than one brand of a kind be recorded on the same location of the animal in each county. Therefore, no two people in a county may record the same brand in the same location. It is also the responsibility of the County Clerk to make certain that in recording any brand for a person, that the part of the animal on which the brand is to be placed be designated.
