By Albert:---
What is the best news that we have had - in our opinion - is printed on the front page in as much detail as we knew or were able to get.

Sanderson has been designated as a home terminal for the new operation procedures for trains that will run from Sanderson to El Paso and from San Antonio here -- and will remain so for all of the foreseeable future, according to the company and organization representatives.

All of the uncertainties of the possibilities of the terminal's move have been removed as far as can be stated, according to the men representing both sides of the operation.

We stated before, and we state again, that we hope that this is for the best for those involved directly, and certainly we are happy that the idea will not be a consideration in the failure of any individual or group to consider constructive and progressive action locally in the future.

We wonder if this news will be given the same area-wide publicity as the "threats of the terminal's move" have been given in the past.

Without a single exception, all of the people we have talked to since last week's paper are in more-than-strong opposition to any tolerance in activities referred to as past or threats in the letter published last week.

What some minds have not yet conceived is that the destruction or defacing of public or private property may be a felony and being found guilty of a felony is something that no one should welcome and everyone should try to avoid. We should be concerned for those who do not realize the seriousness of this fact and their apparent unconcern for the rights and property of others and in some way try to convince them of the foolishness of their ways before their thoughts are turned into actions.

It is also a serious thing to make a threat to do something, and it could be that the threat of certain things is punishable to a degree nearly as serious as the act.

Another thing that many people don't realize is the fact that no individual is given the right to determine that a certain law or laws may be broken at his or her discretion, or upon their reasoning or justification without them being a law violator.

We all have a responsibility of trying to be a good example and all of our efforts in this task cannot be too much!

It is not often that a picture of a trash dump appears in a paper as an item to be admired. But our picture is for that purpose and we think that there should be some expressions of admiration for those who are responsible for this work.

We think it is much better to have local people that are interested enough in sanitation to accomplish what has been accomplished. The alternative to this would be for some person from the state health department to happen out here some

Sanderson Named Home Terminal; Some Trains To Run Direct To El Paso

In a joint statement issued by James Clark, local trainmaster for the Southern Pacific Railroad, and J.M. Davis, local chairman of the United Transportation Union, The Times was told that all negotiations had been completed for the initiation of select trains running to El Paso from Sanderson in the very near future. They also stated that Sanderson had been

designated as a "home terminal" for operations of the railroad's new procedures.

They stated that all except the select trains would continue to operate with crews to Valentine and return as had been the practice and that this procedure would continue until there was no longer a necessity for the run only to Valentine.

Davis stated that it was also the first time in the history of railroading in Sanderson that the employees could feel with any degree of certainty that the terminal would remain here.

There were some decisions to be made, according to both men, concerning designation of crews for these "better jobs" on the select trains and meetings of the employees began Saturday at noon to learn of the new plans of operation and working conditions that would be in effect with the new procedures.

The same type of operation would be in effect on select trains from San Antonio to Sanderson, Davis and Clark stated, with other trains operating between San Antonio and Del Rio; and Del Rio and Sanderson as in the past, until there was no longer a need for the crews to be changed at Del Rio.

WHAT GIRL SCOUTS MEANS TO ME

To me, Girl Scouts means a lot. It means going camping, hiking, sharing new experiences with others, earning badges, and having parties and banquets. But still it means something else. It also means making new friends, learning to have good manners, and being polite, and especially learning to get along with people.

Of course a lot of the credit goes to the leaders. Cristina Escobar.
