## LISTEN TO LUKE

By Albert---

Men in places of leadership and responsibility should try to be completely above all activities that might be questionable as to morality or honesty, in our humble opinion.

We do not know how much the law against nepotism covers. The people who have been investigating these acts within the legislature of Texas have revealed many facts of legislators' kin receiving checks from the state for work within that body. Either it is against the law -- either the legislative code -- or the civil laws, or it is not! If it is not against the ethical code or the state's laws, then why all the furor? If it is wrong then shouldn't something be done about it?

We immediately wonder if the need for so much help by the legislators would exist if they were not able to hire kin or colleagues' kin? So, then we wonder just how much of "our" money has been wasted in employing kinfolk?

"Deals" seem to be the acceptable way of life these days in so many circles. We wonder what has happened to just plain old "honesty". If something is permitted to go on for a little while, maybe even in hopes that it will "die out", then the excuse is immediately available: "well, so-and-so did it and got away with it. Why are you punishing me?"

Maybe it's just the way you look at it.

Dogs have gotten to be quite a problem again locally. Ranchmen are complaining about "kills" of sheep and lambs, and wounding of the animals by dog packs that come from town. Dogs may be seen in packs locally, and the noise of the dogs at night has been a common complaint in all parts of town.

There is a law on the county's books that requires that all dogs be penned or leashed at night, so there is some justification for requiring this.

There is also the possibility that there will be an outbreak of rabies, or something else might happen as a result of the increase in "stray" dog population, that would be most unfortunate. Must we always wait for a calamity to make some kind of a change? Cannot we use preventive measures sometimes to forestall a calamity? Are we completely indifferent to the financial loss of area ranchmen because of "our" stray dogs? Isn't the reason for their problem "us"?

We had some friends call us Sunday night to call our attention to an unusual sight. The proximity of the moon and Venus. It was very pretty, but not something to be concerned about. Venus is and was well beyond the moon and no collision was eminent. This was not the thought of anyone who called, but we found out about that in our search for what was seen.

Several ideas were discussed for projects and the dues were set at \$7.50 per person annually.

All persons between the ages of 18-45 interested in working with the club are urged to attend.

## Local Students Win In Contest On 'Ecology'

Jaynellen Prude has won the 1972 "It's Your World" essay contest.

A Ft. Davis Anderson School 4th grader, Jaynellen is the daughter of Mr. and Mrs. John Robert Prude of Ft. Davis. Her essay was chosen first from more than 300 essays submitted by 4th and 5th graders from Alpine, Ft. Davis, Marathon, Sanderson and Big Bend Park.

The topic of the 1972 essay contest was on the value of national parks in our society.

Jaynellen's winning essay has won a weekend vacation at Big Bend National Park for her family and her teacher, Mrs. T.T. Kelly, and her family. Rooms at the Chisos Basin have been donated on behalf of the National Parks Concession. All other expenses are to be paid for by the Alpine Rotary Club and Big Bend Natural History Association.

Final selection chairman, James Francois of Alpine, said that the choice was an exceptionally difficult one because of the very fine quality of this year's essays. The final selection committee chose Charlie Ward, Alpine Central 5th grader, as the second place winner, and Paula Sue TenEyck, Sanderson 5th grader, as the third place winner. All three winners will receive an engraved trophy for their excellent compositions.

Fourth grade winners for 1972 are Jaynellen Prude, Aubby Black of Sanderson, Heather Allen of Marathon, and Linnaea Gerrish of Big Bend Park.

Fifth grade winners for 1972 are Paula Sue TenEyck, Karer Montford of Big Bend Park, Laureano Siqueiros of Marathon, Amy Harris of Ft. Davis, and Charlie Ward of Alpine.

Mrs. Tommy Turner and little daughter of Fort Stock have joined their husband and father here and for the present are with his mother, Mrs. W.R. Turner.

## Kindergarten Registration Apr. 26 For Next Year

The school district needs an accurate census of all children who will be five years of age on or before September 1, 1972, in order to plan for the coming school year, according to C.B. Card, superintendent.

All parents of children who qualify in that age group are asked to please bring the immunization record of the child to the elementary school on Wednesday, April 26, at 1:00 p.m. All immunization records must be up to date before the child can start to school next fall.

At the meeting next Wednesday, the school nurse will review the records and inform parents if there are any immunizations needed.

Parents are also asked to bring the child's birth certificate.

## MRS. W.H. SAVAGE TO U. OF T CLASS REUNION

Mrs. W.H. Savage returned home last week from Austin where she attended the 50th anniversary and reunion of her graduating class from the University of Texas. She was awarded her B.A. Degree in 1922.

## Proposed Program for Medical Aid Given Favorable Response Locally

Mrs. J.M. Davis, president of the Sanderson Emergency Squad, reported that a favorable reply had been received in the telephone campaign conducted last week locally.

The campaign was to ascertain the feelings of the residents about part-time medical service possibly for Sanderson, and if they would support the program if it were obtained.

It was the understanding of The Times' representative at the public meeting recently that Dr. Ralph Chase of San Angelo, who met with the local group, was interested in trying to devise some kind of program to give some kind of medical assistance for people in small towns that had no doctor. There was no definite plan proposed, nor was there a promise that any plan that was conceived would and could be implemented, but the doctor was interested in trying to find some kind of plan to present to the Texas Medical Association and use Sanderson as a "pilot program" so that others may be able to benefit from the program that was conceived for trial here.

Mention was made of the possibility of using doctors who were now in the service and who had time and the desire and willingness to come to Sanderson on a part-time basis; other suggestions included using the "para-med-

ic" idea, a nurse practitioner, or interns working under the direction of a medical doctor; all of which ideas had to be considered from a practical, feasible, and legal aspect and try to work out some plan under the existing and possible conditions, or work to change the conditions as possible to fit into the plan.

Dr. Chase felt that with the program's beginning -- a very indefinite date and circumstance -- and with the sponsorship, possibly, of a medical association, that every effort would be made by the sponsors to make a success of the "pilot program", and that the citizens of Sanderson who supported the program would have a better chance of receiving better medical attention that was possible with the miles separating the town from a doctor.

Emphasis was put on the fact that possibly many local residents should now be getting some kind of medical attention, but were not getting it due to the fact that with the expense of traveling, the inconvenience for some, and other circumstances made it difficult for them to have adequate or much-needed attention.

Dr. and Mrs. Chase's visit to Sanderson was at the instigation of Sheriff Bill C. Cooksey.

The information received in the telephone campaign will be relayed to Dr. Chase so that he may have it for presentation to the Texas Medical Association's meeting in May and also for his own information in talking to others who have the same interest.

## LISTEN TO LUKE **Jr. Hi Honor Roll Students Named**

Further information about help for students reveals that Mrs. E.J. Hanson and A.J. Ross were also busy with implementing the health phase of the Title I program at the elementary school. This is no done by anyone else, but to try to pass out bouquets where they are warranted.

It is most refreshing to hear of the interest of the young folk of Sanderson and Terrell County in improving the town. The phrase "improving the town" covers a multitude of areas, all of which might include some things that some residents might not think are improvements. Personally, we think the young people really have the interest of the future of the town at heart and are going to do just what they say they are going to do.

We have some mixed emotions about being too old to belong to the club. We don't want to be completely left out of the possibility of ever doing anything constructive again, but it is good to be relieved of some of the guilt of responsibility for some improvements. Maybe we now have become a senior citizen.

We are offering our columns to help publicize the activities of the TPCC, and our help in the success of their projects where it is wanted.

### Area Officers Have Meeting Here

Area law enforcement officers, members of the Big Bend Law Enforcement Association, met in Sanderson Wednesday night of last week for their regular monthly get-together. The next meeting is slated for Alpine.

The organization is comprised of all law enforcement officers in this area. Chief Willson, Border Patrol chief in Alpine, is president of the organization, and Fred Capers, Fort Stockton chief of police, is vice-president. Terrell County Sheriff Bill C. Costley made arrangements for the meeting here, assisted by other local officers. It was at the Legion Hall.

Among other friends here last week for the funeral services for Mrs. Lee Grigsby were Mr. and Mrs. O.L. Perry and son, Clifton, of McCamey, and Mr. and Mrs. David Glass of Sterling City.

### Ag Census Compares 1964-69 Figures

Terrell County showed a total of 80 farms in the 1969 Census of Agriculture, according to figures released by the U.S. Department of Commerce's Bureau of the Census, a part of the Department's Social and Economic Statistics Administration.

In the last previous Census of Agriculture (1964) the number of farms reported in the county was 85.

Of the county's total farms in 1969, 76 are reported as selling \$2,500 or more of agricultural products in the year, as compared with 74 in 1964.

The report also shows average farm size in the county was 18, 104.5 acres, and average value of these farms (land and buildings) was \$422,211.

Other figures from the report are:

1. Value of all farm products sold in 1969, \$3,082,769; in 1964, \$1,780,450.
2. Value of all crops sold in 1969, \$52,896; in 1964, \$7,406.
3. Value of all livestock, poultry, and their product sold in 1969, \$3,028,963; in 1964, \$1,742,493.

Reported for the first time in an agricultural census is information on the extent to which the corporate structure is being used by operators of

farms from which agricultural products totaling \$2,500 and over were sold. Including family farms using this type of business structure, 3 of the county's \$2,500-and-over farms are incorporated.

A comparison of the figures also shows that in 1969 there was 142,548 sheep and lambs and 76,863 were sold; in 1964 the sheep and lamb population was 138,785 and 72,673 were sold; the market value of the stock sold in 1969 was \$3,080,546, and in 1964 was \$1,774,752.
