LISTEN TO LUKE

By Albert:

There are so many things one could write about to start off the new year, that we are always in aquandary about which one should be highest on the priority list. Probably it would be best to start with those things that are uppermost in our minds!

We had so many people who were so sweet to come by and express wishes for a merry Christmas for us in such nice ways and we are very grateful. These wishes included some kind comment or inquiry about dad, and we are grateful that people are aware of his condition and are interested in him. Sometimes a person is forgotten in life when he is living in the midst of people; and this is sad. It is so good that a person can be remembered in such circumstances as those of dad.

He also had lots of "goodies" brought for him, thanks to thoughtful friends, and he has enjoyed those that he has eaten.

Thanks!

We do not fuss about our government much. There are so many things that are good and so many more that could be worse, that we are grateful that we do not have more government than we want. And that is the purpose of this statement:

It looked like an open threat that Nixon made against the professional football teams in his efforts to get the television black-out lifted from certain areas. "If you don't do it, then I'm going to have you investigated!" We don't know that it happened that way, but if it did, then that is not right. If they should be investigated there is no connection with anything else.

And while we are fussing at the government, we might as well get it all over with at once. The all-of-a-sudden increase in intensity of bombing of places in North Vietnam seems to be a very effective but a very poor way to bring those people to a "peace" conference. It seems to us that if they want capitulation, then merciless bombing is the answer. But an agreement based on some kind of friendly co-existence would not seem likely to come from an intensified bombing spree.

And while we fuss in our history books against the horrors of some of the people we have fought over the years in war--should not the destruction of innocent victims in and around Hanoi, Haiphong, and the other unpronounceable cities, towns, and hamlets of that country be attributable to the "horrors" scene? Or is this ok as long as it is the United States of America that is doing it? Or is it ok as long as it is only Vietnamese "gooks" that are being slaughtered?

How you think of it depends on how you look at it, but remember that we are not the only ones who are looking!

any way you look at it!) for about \$19,000.00 as our part of the Revenue Sharing fund. We have noticed that some cities have sent their money back for some reason or other, and that's their business. But it seems rather ridiculous to us to send it back. It doesn't save anybody anything! If everyone would send back all the federal money they get as some kind of a hand-out, we would scream "Hooray" be sincere about it. But if only a few keep the money and the dole continues, then the few who keep the money are the ones who come out ahead and everyone else is the loser. The same thing is true with the doles given the ranchmen through the soil conservation guise, the money given the schools to increase their capabilities, the doles or grants put out by the Permian Basin Regional Planning Commission, and all the other sources of federal "gifts" -- refusal of a small number of the recipients of those funds to accept the money only means more money for those who do accept it. And it seems strange to us to accept one of the doles and to refuse another one. But maybe it depends on how you look at it!

F.H.A. Girls Honor Secret Grannies

The local FHA Chapter composed of the girls in the high school homemaking class selected "secret grannies" early in the semester and had a party Tuesday evening to honor them and reveal who they were. The homemaking cottage was gaily decorated in the Christmas motif and a Christmas corsage was pinned on each guest as she arrived. As the "secret grannies" were given Christmas packages from the tree, they learned who their "secret granddaughters" were and the girls later found that each "granny" also had brought a gift for them to be placed around the tree. Glenda Shoemaker extended the welcome to the guests and Maje Harrison read a Christmas poem. A quartet composed of Elaine Brown, Janice Carter, Glenda Shoemaker, and Wynne Massey sang four Christmas carols, the first two girls playing guitar accompaniment. The salad supper was served buffet-style. Guests were seated at the long tables covered in white cloths and decorated with candles in Christmas wreaths. The invocation was given by Wynne Massey. The "grannies" were enthusiastic in their compliments to the girls and their teacher, Mrs. Wayne Mitchell, for providing such a delightful party for them. About 80 attended including the homemaking girls.

Brad Harrison, Texas A&M University sophomore, was a holiday visitor with his parents, Mr. and Mrs. Felix Harrison. Mr. and Mrs. Frank Weigand received word that their grandson, Tommy Weigand, and wife, who have been residing in Enterprise, Ala., had moved to Ennis and he is working for the S.P. Railroad.

Siren to Herald Noon Call to Prayer For 'Key 73' Campaign

Beginning Tuesday, the day after Christmas, many local people will be participating in a continent-wide noon prayer call. According to Rev. Richard White, pastor of the First United Methodist Church, this is the first high-visibility event of a national cooperative Christian evangelism program known as "Key '73".

It is a voluntary movement of more than 150 Christian denominations and evangelistic groups in the United States and Canada which have voted to cooperate in a massive campaign during 1973, Rev. White stated.

Following a joint theme titled "Calling Our Continent to Christ", the participating congregations will have a noon prayer call which will encourage Christians to pray "that many may be led to Christ".

The noonday prayer call here will be signalled by the sounding of the fire siren.

Extension Granted Hiway Sign Owners

The Texas Highway Commission has extended the license and permit filing deadline for owners of signs along interstate and primary highways.

The Commission extended the filing deadline from December 31 to June 30, 1973. Advertising industry and individual sign owners requested the extension because the previous deadline did not permit sufficient time to comply with the Texas Highway Beautification Act.

The Act requires a permit for each existing of planned sign. Also, anyone erecting or maintaining signs within 660 feet of an Interstate or Federal-aid highway must have a license to engage in outdoor advertising.

Sign owners are advised to apply for a license and all necessary sign permits as soon as possible since no further extension of the deadline is contemplated.

The State license fee of \$25 is valid for an indefinite period. In addition, sign owners are required to post a \$2,500 bond in each county in which they have signs. Maximum bonds of \$10,000 are required of owners with signs in more than three counties.

Both license and bond applications are available through the Right of Way Division, Texas Highway Department, P.O. Box 5075, Austin, Texas 78763.

In addition, owners must obtain a \$5 permit for each sign. Permits for new signs will not be issued unless they conform to the law. Sign permit application forms can be obtained from the right of way sections of Highway Department district offices.

Owners of signs who have questions about the program or the new deadline date should contact Paul H. Coleman, P.O. Box 474, FE 2-0501, U.S. 80 (East), Odessa, Texas 79760.
