LISTEN TO LUKE

By Albert:--
 We have been hearing all kinds of talk this week about the announced energy crisis and what effects will result from the situation. And there have been speculations, prognostications, ideas, etc., etc.

One of the ideas advanced is an observation of the "patriotism" of the people in reactions to volunteer curtailment of energy sources. We thought the use of the word "selfishness" was better than "patriotism", but we heard "patriotism" more, so we will stick with that thought!

For example, right here on the threshold of deer season, and the large numbers of hunters that have already reserved hunting leases and made their plans; and the people who would benefit directly from the deer hunters in the sale of everything from aspirin to ammunition.

Another area of "patriotism" possibly, is within the pleasure vehicles, not including the deer hunting vehicles. Like people who have worked all their lives for retirement in a mobile home, with either a boat and trailer, or a second vehicle, either for sight-seeing or rough travel.

And somewhere between those two areas, or in the same vicinity, is the family who has managed, because of their love for the sport, to acquire a lake-side house and all of the fun-filled accompaniments and enjoy the facility in their leisure hours.

And then, there are such other areas as trips to sporting events for competitors and spectators, trips out of town on business-pleasure jaunts, shopping trips, and even trips to visit sick folks in hospitals and nursing homes.

We would venture a guess that our "patriotism" is going to be questioned, yes, even challenged from time to time by our activities.

And further, it is our prediction that we are going to have to examine our own activities first, and try, by some reasoning, to curb our use of gasoline so that if there is any way to forestall or prevent gasoline rationing to do so.

 We had an interesting visitor in the office Friday. He was a land speculator, he said, from New Braunfels. Some land he was interested in, southwest of Sanderson, he said, was selling in one-section blocks at a quoted price of close to \$30,000.00. This would open up a completely new avenue of prospective thought and activity. Especially, since this prospective buyer stated that one of the reasons for wanting to buy land in Terrell County was because of the low tax rate!

Does this stimulate some different thinking about anything on the part of anyone?

 As we stated in a column previously, we heard it said continued to second page

Andrew Riess Jr. Former Resident, Killed in San Angelo

Andrew John Riess Jr., 24, son of Mr. and Mrs. A.J. Riess, of Winters, was the victim of a stabbing in San Angelo late Friday night, according to reports from that city. The Riess family formerly lived in Sanderson and he was high school and elementary school principal here for several years.

Young Riess was a graduate of Sanderson High School and was a senior at Angelo State University and a life insurance representative at the time of his death.

The stabbing occurred at a drive-in grocery and he was pronounced dead on arrival at the hospital there.

An 18-year-old youth is charged with murder with malice, and another man was charged with possession of a prohibited weapon in the case.

Riess was interred Monday in San Angelo following services from Mt. Carmel Catholic Church.

Survivors include his parents who lived in Sanderson from 1958 to 1970, moving to Winters where he was in the television repair and sales business; also a sister, Miss Maurine Riess of Waco.

R.C. Holcombe and Jack Cosby went to the funeral services Monday.

There will be no admission charged.

New Arrivals . . .

To Mr. and Mrs. Stephen Young was born a daughter, their second child, in an Alpine hospital on Thursday, November 8. Her birth weight was seven pounds, eight and one-half ounces and her name is Stephanie Sue. Mrs. Young and the infant were brought home Saturday.

Mrs. Charles Hunter of Balmorhea returned home Sunday after visiting with her daughter and family.

Bears Edge By Eagles 12-7

The Balmorhea Bears narrowly edged by the Sanderson Eagles there Friday night of last week by 12-7. It was all but a cinch for the district title for the Bears who have not lost a district game and have only one game left in their season's schedule.

Sanderson has only the loss to the Bears in their district standing and have Wink to play here next Friday night.

Both teams were scoreless during the first half.

The Bears scored first in the game, in the third quarter, after they had driven to the Sanderson 4-yard mark from where Juan Jimenez carried the ball over. Their try for the extra point was no good.

During the same period, Robert Kline went over the goal line from the 18 and Bill Mott added the extra point on a place-kick, giving the Eagles an edge of 1 point.

In the fourth frame, the Bears were able to pull the win from the fire when Abel Baeza ran 75 yards for a touchdown.

Balmorhea had an edge in 1st downs 13-12, in total yards 345-220, yards rushing 295-177, and yards passing 50-43, completing only 1 of 5, and Sanderson's completion record was 4 of 13, losing 1 to the Bears by interception. The Eagles also lost a fumble and gave up the ball 8 times on punts, to 4 punts for the winners. Balmorhea was penalized 10 times for 140 yards, the Eagles 8 times for 90 yards.

The final game for the season for the Eagles will be Friday night against Wink, who has had a tough season trying to find someone they could beat.

The game will begin at 7:30 p.m.

Rev. and Mrs. Richard White visited relatives and friends in San Antonio Saturday and she attended a bridal shower given for her former college roommate, Miss Blanche Beasley.

County Re-districted Commissioners Buy New Loader

Redistricting of the county was accomplished at the regular meeting of the Terrell County Commissioners' Court on Monday. The action had been promised by the group at their meeting in October.

All of the precinct lines were brought into Sanderson so that there was a difference of only about 10 people from the total population of each precinct, according to figures that had been furnished from a survey about a year ago.

The effective date of the new precincts will be January 1, 1974, according to a motion passed by the commissioners. Elections after that date will be according to precinct lines established at the meeting Monday.

There has been some discussion about the possibility of holding elections in two places in some of the precincts in order to facilitate voting by people who live in the country and in town.

The Times has made a sincere effort to mark the precinct lines both in town and in the country, and any erroneous designation, by word or mark of the official designations by the commissioners is accidental. The precinct designations, as we were able to transcribe them from the several maps used, are found on page four.

Terrell County Commissioners Court Monday authorized purchase of a loader. Treanor Equipment Co. was the only bidder and the total was \$18,352.00. The court will advertise the old loader in precinct 2 for sale with the receipts to be applied toward the total cost of the new machine.

Other business accomplished by the court included the authorization of payment of all bills presented to the court; read a letter from the Young People's Chamber of Commerce urging installation of fire hydrants near the three local schools. After some discussion, it was decided to get recommendations from the fire department as to style, size, location, etc., and to seek help from the Terrell County Water Control and Improvement District No. 1, since they are owners of the present water distribution system and make reports and recommendations at the December meeting.

There was also some discussion of the percentages of distribution of total tax revenue of the county among the four newly-designated precincts.

HISTORICAL GROUP TO MEET MONDAY
 The Terrell County Historical Survey Committee will meet Monday, November 19, at 7:00 p.m. at the library.

UNION THANKSGIVING SERVICE SUNDAY NIGHT
 The community's union Thanksgiving service will be Sunday night, November 18, at the First Presbyterian Church at 7:00 p.m.

Everyone in the community is urged to join in the local worship service of thanksgiving.

Rev. Richard White will preach the Thanksgiving sermon.

Mrs. Gregoria Lopez left Saturday for San Antonio to visit her son, Jose Lopez, and family.

Mrs. W.F. Bohlman, who owned and operated Sanderson Confection after 1917 when they built the building where the drug store now is, Mrs. Duncan, whose husband was a building contractor here, and Mrs. Jacob, whose husband was a major at the air base north of town, and Mary Ellen Bohlman, were at the rockcrusher when this picture was snapped a long time ago. Miss Bohlman is now Mrs. John Simmang and loaned us the picture.

by one person that they went through one gasoline rationing period without any problems and they felt they could do it again. This kind of attitude is what causes gasoline rationing and lots of hard feelings - maybe needlessly - but they exist nevertheless. The success of the volunteer effort to conserve gasoline, like a lot of other things, depends on how you look at it! And then we read in Saturday morning's paper just now that gasoline rationing might affect automobile racing! We should think so!

Bloodmobile Coming Soon

The Young People's Chamber of Commerce is sponsoring a Bloodmobile in Sanderson sometime real soon, probably early in December.

One of the services of the Bloodmobile is to type blood for all persons who do not have their blood type for information in case they need blood or if their type is needed by someone else. It has been stressed that if a person has positive identification of his blood type it is most desirable if he is in an accident and needs blood, or if a person is available who can give blood to someone who needs it badly, it would be most helpful.

The blood needs of our community continue around the clock every day of the year. People are the only source of the life-giving fluid, and a means of helping yourself while helping someone else has been worked out: those who give blood will receive blood coverage for himself and his family (excluding only known hemophiliacs) for six (6) months, according to information given out by the YPCC.

All organizations, churches, civic groups, and individuals are being contacted in an effort to get aid and information to have when it is needed.

All persons between the ages of 17 and 66 are urged to join together to make the drive successful.

A Blood Donor Pledge Card is printed and persons who are willing to give blood when the Bloodmobile arrives are asked to fill out one of the pledge cards and bring it to The Times office.

Details of the arrival date, place, and hours of the Bloodmobile will be published next week if possible.

Persons who are wanting to get their blood typed are not required to fill out one of the pledge cards, but are asked to be at the Bloodmobile when it is in town.

The YPCC is working through the Blood Services in San Angelo. The organization is medically sponsored, but not for profit. Persons interested in investigating the parent organization may do so by writing them at 224 E. Harris Ave. in San Angelo or calling (915) 653-1307.

Mr. and Mrs. Skily Schuch spent the weekend in Mason with his relatives.

Crop Canvass Nets \$506.28 Locally

About 12 volunteers worked Sunday afternoon in a canvass of the town collecting money for CROP, and special offerings were taken at the Methodist and Presbyterian Churches for that cause. The effort netted \$506.28 for the relief fund.

The drive was spearheaded by Rev. David C. Marx and Rev. Richard White, pastors of the Sanderson Presbyterian and Methodist Churches, and Rev. John Pierce, priest at the St. James Catholic Church, all of whom expressed their sincere appreciation to those who worked and to those who contributed to the fund.

Cong. O. C. Fisher Will Not Run For Re-Election

Congressman O.C. Fisher revealed to his constituents last week that he has decided not to seek re-election. He said he will retire after completing his 16th term in the House of Representatives.

Fisher said his decision is based on his health. He had heart bypass surgery last June in Houston. He is 69.

In a brief statement, Fisher said: "Although I am feeling real good and will continue to work full time, following a medical check-up, my doctor thinks I would be well advised to try to reduce some of my activities for a while."

"For that reason, I have reluctantly decided to retire from Congress at the end of 1974.

"In my making this decision, I am particularly sorry to disappoint so many friends and supporters who have urged me to postpone my retirement.

"The support of such wonderful people has been a most rewarding experience. My personal gratitude is beyond description."

Congressman Fisher served nearly a half-million constituents in his sprawling 21st Texas District which covers Terrell County and 29 others including a portion of Bexar County. He is the second-ranking congressman on the powerful Armed Services Committee.

Mike Davis of Lubbock was a weekend visitor here and returned his wife and daughter, Tracy, who had been visiting here with her parents, Mr. and Mrs. Gene McSparran.

Mr. and Mrs. Ervin Grigsby were in Fort Stockton Friday for medical attention.

STIRMAN BOYS IN NAVY

Bob Stirman, youngest son of Mr. and Mrs. Noel Stirman of Denver, Colo., has recently completed "boot camp" at Navy Recruit Training Center in Orlando, Fla. After his "boot leave" home he returned to Orlando where he is currently in personnel training school. Upon completion of his school, he will be assigned to naval communications center in San Miguel, Philippines.

All three of the Stirman boys are now serving in the U.S. Navy. Ed, the oldest, joined the navy in July, 1970. He is a 2nd class petty officer in the personnel office aboard the aircraft carrier USS Hancock, now in the Indian Ocean. Recently Ed received a letter of commendation from the captain of

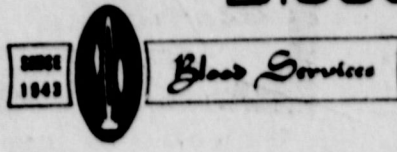

the USS Ranger, where he served for two years. He has re-enlisted and will be stationed with his brother, Bob, at San Miguel for the next two years.

Jack, the middle son, joined the navy in September, 1972, and is currently on temporary additional duty from the aircraft carrier USS Ranger. He is attending aerographer school at Lakehurst, N.J. His training will be completed in February, 1974, and he will return to the Ranger where he has been serving since his boot training. Jack has had one tour of duty in Vietnam and will ship out again with the Ranger in April from Alameda, Calif.

The boys really like the navy, according to their parents, and have visited such cities as Hong Kong, Singapore, Tokyo, and Yokosuka. While overseas, they have been more or less home-ported in Subic Bay, Philippines so they have toured the cities of Luzon.

Ed will have served with both Jack and Bob on Brother Duty, the note from their parents, related.

Giving is easy...

Donating blood is a safe, painless, and satisfying experience. An average adult has 10 to 12 pints in his body and a normal donation is only one pint. Giving a unit of blood stimulates a healthy person's body to make more blood, and his blood count quickly returns to normal. Donating blood at intervals of at least eight weeks is considered safe for a healthy person under normal conditions.

Safety first...

When you go to your community blood bank you will be asked certain questions about your medical history to insure your safety and that of the recipient.

Persons with a history of tuberculosis or hepatitis, or those with active allergies, for example, cannot be accepted. Anyone who has had major surgery, received a blood transfusion, or been pregnant in the last six months will be asked to donate later. The donor's weight, temperature, blood pressure, and pulse will be taken, and his hemoglobin will be tested.

The collection of blood is made under medical supervision by a medical technician or nurse. The blood is withdrawn from a vein in the donor's arm into a plastic bag which contains a solution which preserves the unit of blood for three weeks. The entire process of giving blood usually takes less than an hour.
