## STEN TO LUKE

Albert:--  
 The political pot continues to boil locally with other announced candidates for office, for re-election and aspirants.  
 The potential voting power of the county is reached by proper registration of the voters by precinct, then we would anticipate close to the word of proportionate voting out.  
 There will be two warm-up elections prior to the primary elections in May -- the water election and the school election both will be held in April.

During the discussion of the press - or push - for the completion of the securing of the elements for the flood control dam construction, the commissioners last week had something to say about the possible necessity for continuation proceedings and some of the things involved in this kind of action.  
 Some of the things mentioned were the bringing in of an independent and professionally recognized appraiser to establish the value on the land to be involved in particular elements for settlement between the land-owner and the court. If we understood what we heard, it was something like this: every effort is made to reach an amicable agreement between the two parties involved based on the appraiser's opinion.

But one of the side effects of this agreement is another opinion of the value of the land. And while this is only an agreed value, or an appraised value of a certain small piece of land in a certain location, it is some kind of a criteria for value of land in the near vicinity.  
 And this value would have something to do with upholding other values that have been set by the reported selling prices of a big bunch of acreage recently, particularly if the land-owner holds out for as big a price as he can get for the land involved in the easement-securing process.

---  
 We are getting more and more mail from the candidates in the national and state representative races with the hope, we suppose, of our using it to tell the voters here what they want to hear - or what the candidates think they want to hear!

We have heard candidates publicly express their plans to help a certain segment of our population, and we have been present in meetings when it was specifically asked: "What are you going to do to help the diamond cutters?" (for example).  
 We have never sat in a political meeting where it was directly reflected that there was going to be any sincere effort to help service station employees, store clerks, motel owners, newspaper publishers, and a lot of other segments of our population. And we are not quite sure that we

She later was employed for five years in the office of the school tax assessor-collector, and for the past year has been employed by the Lemons Abstract Co. and her duties in that office require that she spend much time almost daily going through certain records in the clerk's office.

## Wool and Mohair Incentives Set

Incentive price of 72¢ a pound for marketings of shorn wool and a support of 80.2¢ a pound for mohair will continue unchanged in 1974 from 1973 levels, the U.S. Department of Agriculture announced last week.  
 The national wool act, as amended, requires that support shall be at the above levels for each of the marketing years beginning January 1, 1971, and ending December 31, 1977.  
 Pulled wool will continue to be supported at a level comparable to the incentive price for shorn wool through payments on unshorn lambs.  
 As in the past years, shorn wool payments will be based on a percentage of each producer's returns from sales. The percentage will be that required to raise the national average price received by all producers from shorn wool up to the announced incentive price of 72¢ per pound.  
 Mohair payments will be calculated in a manner similar to wool.

Another view on Independence Creek in the eastern part of the county many years ago shows Sybil McKee (Mrs. W.H. Savage) and Gladys Hall. Such views on the creek are no longer visible as gravel has changed the appearance and flow of the water and creekbed. Mrs. Savage loaned the picture.

would want a representative that was primarily interested in helping the newspaper people. Would you?

We think that any concerted effort for a particular segment is usually at the cost of another segment. And we oppose this, generally, as lopsided, unfair, discriminatory, and not right. The exception is in an effort to equalize the rights and benefits, such as in civil rights movements, etc.

We would rather think that anything that would help the preachers, bookkeepers, construction workers, housewives, and timber cutters would some way get around to helping the newspaper people, ranchers, railroad employees, clerks, service station workers, and the rest of the populace.

Seems there was someone who once gained some notoriety for thinking up and saying: "Ask not what your country can do for you, but what you can do for your country."

It is our opinion that this works in all levels of government. How do you look at it?

grandfather was an early-day district judge. Her uncle, Walter Gillis, served as county commissioner. Her mother presently serves as Verde County Democratic Chairman.

The family's roots are deeply embedded in this district, where they have lived and ranched for more than 90 years - almost a century.

"I am the mother of a seven-year-old son and I look forward to his growing up and living in this district," she pointed out.

Mrs. McBee is 27 years old and is the wife of Larry McBee, who is engaged in the ranching business.

Mrs. McBee sees nothing unusual about her running for this office and expects to feel "right at home" serving in it if elected. She recalls being the first girl ever elected president of the student council at Del Rio High School and also being one of the early women graduates of Texas A&M where she graduated with honors, receiving a Bachelor's Degree, majoring in Spanish.

She taught two years in the former San Felipe Independent School District and has for the past three years taught part time in the San Felipe Del Rio Consolidated Independent School District.

She has served four years as Democratic precinct chairman and has been a delegate to two State Democratic Conventions.

Mrs. McBee said she will conduct a vigorous campaign.

## HEATING/COOLING:

# Energy Saving Tips

Insulation is an important factor in keeping your home comfortable and saving energy both in the winter and summer. You can save as much as 23% on fuel consumption if your home is insulated to FHA standards. And . . . fully insulated, with 6½ inches of insulation in the ceiling, 3¾ inches for the outside walls, there can be a savings of 45 to 55 percent. What does insulation do? It restricts the quantity of heat which escapes during the winter or comes in during the summer. So check into the advantages of full insulation. The more you do to conserve energy

. . . the more there will be for everyone.

### School Attendance Incentive Offered By Exemptions

Attendance at the local junior high and high schools is being promoted by action of the board of trustees of the Terrell County Independent School District by offering exemptions for semester finals as inducement for attendance.

A student with no more than 3 excused or accounted-for absences during a semester may be exempt from taking an examination in any subject in which he has a grade average of 90 or above.

A student with no more than 2 excused or accounted-for absences during a semester may be exempt from taking an examination in any subject in which he has a grade average of 80 or above.

A student with no absences during a semester may be exempt from taking an examination in any subject in which he has a grade average of 70 or above.

Any student who receives an unexcused absence during the semester will not be eligible for exemption.

Three unexcused tardies equal one unexcused absence.

A teacher or the principal may require a student who meets the exemption requirements to take an examination if the student's citizenship has been below standard.

A student who meets the exemption requirements may take an examination if the student feels he can raise his grade average by doing so. If a student chooses to take the examination, the examination grade will count regardless of whether it raises or lowers his grade average.

### Historical Group Meets Monday

The regular meeting of the Terrell County Historical Survey Committee was Monday in the Library Bldg. Members present were Mmes. W.H. Grigsby, E.E. Farley, E.E. Hanks Jr., L.G. Hinkle, C.C. Mitchell, A.H. Zuberbueller; also Jerry Wenmohs and Frank Green.

It was reported that the total received by the group as memorials is \$92.50, which was stated to be the only means of support for the organization until more funds can be appropriated by the commissioners court. Memorial gifts were urgently sought for the preservation of the county's history.

Items of business discussed included possible sites for historical markers, a museum, and place mats on which are printed the map of the county with major canyons, historic sites, plants and animals. The place mats will be a fund-raising project for the committee, hopefully for a museum.

It was stressed that the museum would not be just a project of the committee, but should be a project of every citizen in the county interested in preserving the history of the county.

It was pointed out that many citizens have expressed a willingness to loan articles for display in a museum, and the need for a museum must be made known to the committee by interest displayed both in contribution of funds and artifacts so that the committee can ask for help from the commissioners court in securing the building and repair and maintenance costs.

Anyone who is willing to express such interest is asked to contact Mrs. W.H. Grigsby, chairman of the committee, and their assistance or interest is earnestly solicited by the group.

**Historical Group Work Explained**

**Mrs. W.H. Grigsby**, chairman, Terrell County Historical Survey Committee

is divided into 11 permanent regions for purpose organization, service the Texas Historical Commission and region-wide development. The Historical Commission regional meetings in the region of odd-numbered years each region. The meetings designed as workshop sessions where THC presents current methods, trends, and in the field of historical preservation. The Texas Historical Foundation and Texas Historical Commission meetings are open to anyone interested in historical preservation.

An orientation session chairmen of county survey committees is held in addition to workshop sessions. At the meetings, a variety of cards are given to county committees who have achieved work of special merit in various phases of historical preservation.

The Terrell County Committee, Mrs. Carlton White is chairman and Mrs. A.H. Berbueller is secretary-treasurer. There are four major committees: Mrs. C.C. Hinkell is chairman of historical preservation; Mrs. L. Hinkle of historical markers; Mrs. Carlton White of history appreciation; and Mr. White of budget and finance. Special sub-committees for planned activities are: map project committee, Jerry Ammons; museum, Mrs. P.G. Ferris Jr., chairmen.

The goals which the committee hopes to achieve this year are to purchase two historical markers to print place mats of the county, to obtain histories of churches and cultural and civic organizations, to begin filing of historical materials collected, select an appropriate site for a museum, and to secure official names for all geographical features. Many canyons are called by one name on some maps and by another name on other maps. It is hoped that each canyon can be called by its earliest name in order that the county's heritage be accurately preserved. By working with the general land office of the state of Texas, official names of geographical features can be secured.

In helping with the historical preservation, the committee solicits anything pertinent to the county's history such as old documents, papers, pictures, etc., designated as a loan for copying or as a gift. These materials will be placed in the courthouse until plans for a museum are realized. The success of the committee's work will depend on the public interest. The committee also solicits memorials for deceased citizens of the county for use in the realization of its plans.

The dates for meeting are posted on the Band Boosters' Calendar as the third Monday of each month at 7:30 p.m. with the exception of December and August when there are no meetings, and in July during History Appreciation Week. Announcements will also be in the Sanderson Times the week preceding the meetings.

The committee wishes to publicly express its appreciation to The Sanderson Times for its cooperation in publishing items, articles such as this, and editorial comment.
