How You Look At It!

We live and learn. What we learned last week we are passing on for the benefit and information of our readers, and in an effort to help someone else! There is no intent to embarrass anyone!

Mrs. Harrison Poitevint has been working as a volunteer "girl Friday" in the office of Dr. Longley since he began his practice here. She cleans up, runs errands, helps when and where she can around the office at no pay whatsoever. Her duties there are all voluntary and she has no obligations or ties otherwise with the Longleys.

People who call Mrs. Poitevint at her home any time wanting information about Dr. Longley, or what to do about their own illness or injury are given Dr. Longley's telephone number by Mrs. Poitevint and advised to call him - which is all she can do. But this goes on at very late - or early morning hours and is a needless bother to this gentle lady and her husband.

Please write down the numbers of the doctor's home and office phone in a prominent place, and advise your friends to do the same thing, and please not bother Mrs. Poitevint concerning an illness or injury. There is nothing she can do besides relate the phone number of the doctor. She does not make appointments, nor is she his answering service, nurse, receptionist, or book-keeper.

Dr. Longley's home phone number is 753-2252 and is listed in the back of your telephone directory under "Big Canyon White Pages". Dr. Longley's office phone number is 345-2511 and is listed in the regular section of the directory.

During our recent bout with a gosh-awful sore throat and some time spent in bed, we noticed a few things about television that we had not noticed previously. During one of the recent football games, at different times the coaches of the two teams represented gave an appeal to the conservation of fuel, particularly gasoline. This seemed rather ridiculous to us, since there was such a tremendous use of energy of all kinds in the preparation and staging of a major bowl game. We have what may be a distorted opinion, but if someone asks us to save energy, shouldn't they be as interested in doing the same thing? But it is always best if the other fellow does the saving so I will not be short on anything that I want!

And television commercials caught our attention for a while and all of a sudden I began getting sicker. Count the number of commercials you see boosting the sale of dog and cat food and flea collars, etc., for the comfort of animals!

Training For Girl Scout Leaders To Be Jan. 14-15

Professional Girl Scout leaders from Odessa will be in Sanderson January 13 & 14 to meet with leaders, mothers, and interested persons. The staff members of the Permian Basin Girl Scout Council plan to spend two days here in helping local workers with Girl Scouts in several areas.

At 10:00 a.m. at the Scout Hut on Monday, January 13, there will be a Neighborhood meeting. At 1:00 p.m. the group will re-assemble for cookie training.

At 4:00 p.m. in the elementary school auditorium, all Girl Scout parents and parents of girls interested in the program are invited to watch a movie on the camping program.

On Tuesday, January 14, the local troop leaders and staff members will assemble at the Scout Hut at 9:00 a.m. for a training session.

MISS BRENDA CARTER GETS B.S. DEGREE

Miss Brenda Carter is one of 173 students at Angelo State University that completed requirements for degrees at the close of the first semester of this school year. She is the daughter of Mr. and Mrs. George H. Carter.

Miss Carter has a major in physical education with an English minor. She is also on the dean's list for the last semester with a 3.4 grade-point average of a possible 4.

MISS GWYNN MANSFIELD IN UT NURSING SCHOOL

Miss Gwynn Mansfield returned to Galveston last week after a holiday visit here with her parents, Mr. and Mrs. J.A. Mansfield, and family. Her sister, Mrs. Tommy Arthur, and baby accompanied her on the trip for the baby to have a medical check-up in Houston.

Miss Mansfield has moved to Houston where she is a senior nursing student in the nursing school of the University of Texas, Houston, and working part-time at the Methodist Hospital. Her parents went to Houston to assist her in making the move and Mrs. Arthur and baby came home with them.

SHOEMAKER MOVES OFFICE OF JUSTICE OF PEACE, PCT. 4

W.G. Shoemaker stated last week that he was moving the office of Justice of the Peace of Precinct 4 to the residence just north of the St. James Catholic Church. He said that the move was necessary to comply with the law in having his court proceedings in the precinct where he was elected.

With recent re-districting of the county by the commissioners to comply with the law in getting a more even distribution of voters in all of the precincts, the designated precinct lines placed the court house in precinct 1.

Two New Teachers In Local Schools

There are two new teachers in the Terrell County Independent School District to begin the second semester which began Monday following a 16-day holiday for Christmas.

Paul Cantrell, formerly of Pecos, is teaching history and English in the high school, taking the place of Bill Ford. After the resignation of Charles Stavley, who became Terrell County judge January 1, Mr. Ford will have his classes.

Manuel Vejil of Kermit will teach high school and junior high school mathematics, replacing Mrs. W.O. O'Rourke, who is on maternity leave.

Mr. and Mrs. Cantrell are residing in the mobile home belonging to J.L. Schwalbe in the northeast part of town.

Mr. and Mrs. Vejil and little daughter are residing in the Valdez home on E. Mansfield.

Welcome To This World

The baby boy born to Mr. and Mrs. Raul Ybarra on Thursday, January 2, in Brewster County Memorial Hospital, is Terrell County's first 1975 baby.

The baby's birth weight was six pounds, 15-1/4 ounces and his name is Abel Calzada Ybarra. Mr. and Mrs. Eulalio Ybarra are the paternal grandparents and Mr. and Mrs. L.G. (Polo) Calzada are the maternal grandparents.

To Mr. and Mrs. Tommy Hayre was born a daughter, their first child, in an Iraan hospital on Sunday, January 5. Her birth weight was six pounds and 11 ounces and her name is Susan Lynn.

Mr. and Mrs. Jack Hayre are the paternal grandparents and Mr. and Mrs. G.K. Mitchell Sr. are the maternal grandparents.

Miss Barbara Wilcox of Dallas arrived Sunday for a visit with her parents, Mr. and Mrs. J.C. Wilcox.

Mr. and Mrs. Ben E. Martin of Marathon visited here Monday and took inventory for his father, Ben Martin.

Immunization Clinic Date Set

There will be an immunization clinic held at the Sanderson Elementary School auditorium on January 14, 1975. The clinic will be for all persons from 2-months-old children and older, including adults that might want to take the shots.

Immunization will be available for DTP or DT, polio, measles, and Rubella.

School children are required to have the immunization before entering school, according to state law. Minimum school requirements have been met when children age 11 and under have had at least one dose each of DTP or TD and polio since the 4th birthday; those age 12-18 have had at least one dose of polio immunization since the 4th birthday. Children between ages 1-11 must have measles and Rubella vaccine or have had the illness, according to information from the school.

The clinic will open at 9:00 a.m. for pre-school children. Children in school will start as soon as the auditorium is cleared. It is important that if you have a pre-school child and want him immunized, that you have him at the school at 9:00 a.m.

There will be no charge for the clinic. A donation will be accepted and will be used to buy furniture for the local medical center building.

The clinic will be conducted by Dr. Michael P. Longley in connection with the Texas State Department of Health.

Mr. and Mrs. Jones Black of Clovis, N.M., were visitors here last week with his parents, Mr. and Mrs. Hal Black, and family, her mother, Mrs. Clyde Carter, and other relatives. They took Mrs. Carter to Clovis and she will probably remain there through the winter months.

Supt. C.B. Card was in Austin Wednesday and Thursday to attend the annual School Administrators' Advisory Conference on Education at which the main item on the conference will be the four major current proposals on public school finance.

Mr. and Mrs. Rudy Bramlett were weekend visitors in Alpine with friends.

METHODIST MINISTER DUE HERE NEXT WEEK

Word received from Rev. and Mrs. David Treat of Levelland is that they are planning to arrive in Sanderson Wednesday, January 15, and he will preach at Dryden and Sanderson on the following Sunday, January 19.

Mr. and Mrs. Rudy Bramlett were weekend visitors in Alpine with friends.

The stage of Sanderson's only school - the old red brick building - was decorated for the graduation exercises for the seniors of 1917 as shown in the picture below. The letters draped over the stage spell out, "honesty, loyalty, efficiency". The flag draped picture in the background is of George Washington, and on the left is a picture of Abraham Lincoln. Pot plants are used as additional decorations for the stage. Mrs. W.H. Savage loaned us the picture.

It Depends on How You Look At It!
continued from front page

You think maybe I don't like football or animals? You're wrong. I like both, but I also have the privilege of placing values on those things in relation to other things, and you can guess as long as you want to guess about where each rates. I'll tell you: it depends on what the comparison is.

And another thing I wonder about! Why is it that Charlie Tuna is unacceptable. How do they know he would not taste as good as a tuna with better tastes than Charlie. The least they could do is try Charlie to see if he would taste good. That would accomplish two things: determine once and for all if he would taste good, and get rid of that commercial!

Had you noticed that we all have our different opinions about everything and in each case it depends on how you look at it?

Harrison Named To ASC Committee

Ranchmen in the county recently elected Dudley Harrison of Sanderson a member of the Terrell County Agricultural Stabilization and Conservation county committee for a three-year term beginning January 1, 1975. Elected first and second alternates, respectively, are Reginald Monroe and Neill Woodward. Alternates are called upon to serve in the event regular members cannot function for any reason.

Lee Dudley and Monty Harkins are incumbent members. When the 1975 committee met recently to organize, Mr. Harrison was chosen chairman and Lee Dudley, vice-chairman.

Herbert Brown is the retiring member.

The committee meets the first Wednesday of each month and at other special times as needed to administer ASC Service programs. The county office is located in the former Holland Hotel Building in Alpine at 211 W. Holland. Terrell County office hours are held in the Soil Conservation Service office in Sanderson each Wednesday, with an ASCS representative available.

Mr. and Mrs. Jack Hayre were weekend visitors in San Angelo.

AOA Sorority

Alpha Theta Alpha met on Tuesday, December 17, at the home of Mrs. Larry M. Choate.

The sorority voted to have the meeting of the Fort Stockton Council of Beta Sigma Phi once every two months instead of once a month and plans for the Christmas party were finalized. The members would continue to passout literature and put up posters for Planned Parenthood.

Peace Pilgrim will give the program for the meeting on January 28.

Mrs. B.A. Pendleton, president, appointed Miss Linda Ball chairman of the valentine dance stage decorations committee and Mrs. Burt Williams as chairman of the First Lady committee with Mrs. W.O. O'Rourke as co-chairman.

The program entitled "Nature" was given by Mrs. Bill McDonald and Mrs. Williams.

The hostess served Yulelog chocolate cream roll, fruit cake, cheese puffs, ham turnovers, nuts, mints, and hot tea. Christmas decorations were used throughout the house.

Other members present were Meses. Chris Hagelstein, Ronnie Minica, T.H. Earle, C.H. Stavley, W.O. O'Rourke, A.N. Farley, and Miss Linda Ball. Miss Lupe Garza and Miss Yolanda Escamilla, guests, also attended.

AOA's Christmas party was Friday, December 20, at the Legion Hall with family and friends of the members as invited guests.

A Mexican dinner was served buffet-style and then Santa Claus arrived bringing gifts for everyone.

Those present were Messrs. and Meses. B.A. Pendleton, W. O. O'Rourke, Bill McDonald, T.H. Earle, Chris Hagelstein, L.J. Hartzog, Charles Stavley, W.W. Sudduth, M.E. Morris, L. M. Choate, and Meses. Burt Williams, Kenneth Shurley, Ronnie Minica, A.N. Farley, and Miss Linda Ball; also Miss Judy Justus, LeBaron V. Smith, Selene and Susie Farley, Eli Chris, Dennise, and Karlton Hagelstein, Rocky and Russell McDonald, Michelle Minica, Leslie and Marianne Morris, Billy O'Rourke, Sharon Pendleton, Matthew and Michael Stavley, Helen and Sam Shurley, Michelle and Amy Williams, Cory and Spencer Earle, and Billy Batten.

♠ Thursday Bridge Club

Mrs. Bill Smith was hostess to the members of the Thursday Bridge Club last week, serving a luncheon at 1:00 o'clock. Fried chicken, baked potatoes, a bean and rice casserole were served with tea and coffee with a gelatin dessert.

High score in the card games 6550, was held by Mrs. R.S. Wilkinson with Mrs. Weldon Cox, second high, and Mrs. T. W. McKenzie, low.

Also present were Meses. C. H. Stavley, W.H. Goldwire, W. D. O'Bryant, James Caroline, and Mark Duncan.

Home-made chocolate fudge, cake, and cheese crackers were available throughout the card games.

Mr. and Mrs. A.C. Garner returned home last week after visiting in LaGrange with her mother and in Houston with his mother, who is in a nursing home, and with other relatives.

Is The 55 MPH Speed Limit Dead?

DRIVERS DISREGARD 55 MPH

(AUSTIN) The reduction of the speed limit due to the energy crisis has definitely affected the number of traffic fatalities in Texas, but many drivers are starting to disregard the limit and drive at greater speeds.

Jim Arnold, Administrator of the Governor's Office of Traffic Safety, issued a plea for the motorist to cooperate and observe the 55 mph limit on a voluntary basis. He also announced plans for a state-wide study to determine the effect of the lowered speed limit in relation to fatal accidents.

Said Arnold, "When the energy shortage hit and the limit was set at 55, by state and federal law, most motorists complied and kept their speed down and limited their travel. Now, that gasoline is more readily available, and travel more frequent, we are finding the driver is starting to allow his vehicle to surpass the regulated speed limits. While this is certainly not all drivers, it does appear we have a huge increase of speeders on our highways."

He continued by pointing out the increase in traffic citations that have been issued in recent weeks. "State Troopers are finding the motorist is traveling at increased speeds without regard to law and some are creeping toward the 70 mile-per-hour mark. Department of Public Safety statistics show a total of 78,295 arrests were made for speeding during the three summer months of 1973. Comparatively, there were 188,976 arrests during June, July and August of 1974. Convictions for the violations also reflected an increase," said Arnold.

Another contributing factor that may increase the chances of traffic crashes, injuries and fatalities, is the "variances of speed ranges." "For example," said Arnold, "a motorist is on the highway at 50 miles-per-hour and he is passed by a driver traveling 70 or more. This variance in the range greatly increases the opportunity for an accident."

Arnold said as the speed is violated to excess, the fatality figures may increase, therefore he has called for a state-wide study to determine the relationship of traffic accidents to the speed limit reduction in Texas.

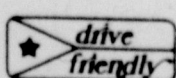

The National Safety Council recently completed a study to evaluate the reduced limit in relationship to nationwide fatal traffic accidents. The study indicates reduced speeds played an important role in reducing the number of motor vehicle

fatalities in the first four months of 1974 as compared to the same period of 1973. While the 55 mph limit did not force drivers to reduce their speeds on roads with already lower limits than 55 mph, the Safety Council feels the 55 mph limit was an important influence in convincing the driver to reduce overall speeds. Therefore, removal of the limit or increasing the limit, could encourage the motorist to increase his driving speeds at varied levels, resulting in an increase in traffic fatalities.

The Council's investigation revealed a number of factors contributed to the traffic fatality reduction, but the lowered speed limit was apparently the largest contributing factor. According to the Council's statistics, eleven percent of the fatality reduction was due to the lower speed. Other contributing factors were: 5% reduction due to less travel, 3% reduction due to less vehicle occupancy, 3% reduction due to less night driving, 1% reduction due to greater use of safety belts, 1% reduction due to switch in roads, 2% reduction due to unexplained reasons and a 1% increase due to age, small cars, motorcycles, and pedalcycles. The total national reduction figures at 24 percent. It is obvious, that speed is not the only factor in reducing traffic fatalities, but is the largest contributing factor.

Arnold said, "The Texas study would help us to better evaluate the direct relationship in the state as compared to national statistics. Just because the national picture shows the speed reduction as a major factor in reducing fatalities, this does not mean the situation is necessarily the same in Texas." He noted the varied road conditions, different terrain and other contributing items that could provide additional statistics that will more readily relate to Texas.

"Other contributing factors in the reduction of accidents include increased law enforcement, better road design, more and better driver education and increased public awareness of the driving rules," said Arnold. "However, we have obvious evidence of abuse of the 55 mile-per-hour limit and it is time to ask our citizens to volunteer toward observing the 'law and the limit'." concluded Arnold.

ERPORT URGED—Gov-
Briscoe and Lt. Gov.
Hobby jointly urged pub-
odies and private inter-
to apply immediately to
a \$400 million offshore
inal in Texas Gulf wa-
at both officials said
are opposed to state
rship of so-called super-
facilities designed to re-
and off-load oil im-
ed in huge tankers.
eir statement dealt a
aps-fatal blow to possi-
y of a state-financed
rport. The Texas Off-
Terminal Commission
e five to four vote had
mmended state owner-
and control of an esti-
ed \$1.4 billion profit
ation over a 30-year span.
e two officials lauded
ederal legislation estab-
ng a licensing procedure
the offshore facilities.
y said they will cooperate
with license applicants
assurances are pro-
that the coastal envi-
ment is not jeopardized.
ederal act allows states
tain veto power of fa-
ies, requires a \$20 million

bond to protect the environ-
ment and makes port own-
ers and ships liable for up
to \$50 million in damages.

COURTS SPEAK—The State
Supreme Court upheld valid-
ity of a corporation fran-
chise tax surcharge attacked
by six corporations in spite
of erroneous dates named in
the legislation for reporting
financial data on which the
levy is based.

The High Court in another
case, concluded a school
teacher fired temporarily
while running for county
commissioner must go
through administrative chan-
nels before suing Pharr-San
Juan-Alamo School district
for \$107,800 in damages.

A \$48,866 award to a Gal-
veston County youth hit while
"playing" in front of a car
was upheld in another Su-
preme Court case involving
whether a lawyer hinted the
motorist's insurance policv
was limited to a \$100,000
payment.

NEW PRIMARY PUSHED
—A strong push for estab-
lishment of a Texas presiden-
tial preference primary in
1976 (and thereafter) is an-
ticipated in the legislature
this year.

Some writers have sought
to link it with the White
House aspirations of U.S.
Sen. Lloyd Bentsen. The sen-
ator is expected to announce
his candidacy soon, and, of
course, wants to make a
strong showing in his home
state. Opinion is divided as
to whether he could win
more delegates in a primary
or the traditional convention
system.

At any rate, at least four
legislators already have in-
dicated they will offer bills
to provide for selection of
Texas presidential and vice
presidential nominating dele-
gates in a May primary.
They feel the time is ripe to
make the change, and note
polls indicate support for
preference primaries.

INVESTMENTS HURT —
State investments in stock,
like those of individuals, are
taking a beating, at least on
paper.

If state-owned stocks in
the major Texas investment
funds had to be dumped at
today's market values, losses
could be half a billion dollars.

However, the officials who
manage these funds empha-
size they are under no pres-
sure to cash in the chips, and
that they will ride out the
market plunge without ill ef-
fects overall.

TOURISM STILL HEALTHY
—There were fewer tourists
in 1974, but those who came
stayed longer, spent more
and drove over Texas only
slightly less extensively.
Only 12 of 50 reporting

tourist attractions actually
had more business last year
than the year before.

More Texans vacationed
within their home state in
1974, which helped offset the
reduced number of out-of-
state visitors.

AG OPINIONS — Contribu-
tions to the Austin Inaugural
Committee for paying ex-
penses of inauguration cere-
monies are not subject to
campaign reporting provi-
sions of the election code,
Atty. Gen. John Hill held.

Hill's opinion concluded
the persons or corporations
who make them do not have
to register as lobbyists
either, unless their contri-
butions were made "to influ-
ence legislation."

On another recent opinion,
Hill held Texas veterans are
entitled to exemption from
tuition and fees when enroll-
ing in University of Texas
extension division courses.
The same opinion found qual-
ified students in the extension
division are also eligible for
assistance loans.

**DANGEROUS PLANT EX-
PANDING** — Hydrilla, an
aquatic plant capable of chok-
ing waterways, has been dis-
covered in three locations in
Texas.

The plant was first found
in Lake Livingston, later at
the San Marcos fish hatchery
on the San Marcos River and
then in a Cameron County
irrigation canal south of
Los Fresnos.

HOME INSURANCE UP —
Homeowners insurance rates
are going up too—an average
of 19.3 per cent statewide.

The State Board of Insur-
ance, which already had or-
dered an average 8.8 per cent
auto coverage rate boost, fol-
lowed up with the finding
that homeowners policies
must cost more effective Jan-
uary 20.

Insurance firms are expect-
ed to receive \$25 million in
additional revenues from the
building policies at new
prices.

Actually, rates vary by ter-
ritories on extended coverage
and homeowners policies.
State wide fire insurance
rates will go up 3.8 per cent
for private homes and de-
crease 24.4 per cent for other
types of buildings.

Board Chairman Joe Chris-
tie noted that policy holders
can "shop for bargains" with
companies offering discount-
ed rates of from 10 to 30 per
cent below the uniform state
level.

AG OPINIONS—The Board
of Examiners in Basic Sci-
ences may close part of a
meeting while discussing con-
fidential information about
an applicant, Atty. Gen. John
Hill said.

In a related opinion, Hill
said the same agency can
withhold from public disclo-
sure records concerning a
matter in litigation.

In other recent opinions,
Hill concluded:

•Jefferson County commis-
sioners cannot ratify a con-
tract for \$900 worth of build-
ing supplies and labor used
improperly by an individual
member.

•Alcoholic Beverage Com-
mission should limit informa-
tion it makes public about
private club licensing to the
name of the applicant, loca-
tion of the club and type li-
cense sought or held.

•Houston Independent
School District may appoint a
tax assessor-collector other
than the City of Houston as-
sessor-collector.

•A member of an archi-
tectural firm employed by a
university may serve as a
teacher there.

•School athletic trainers
must be certified by the state
board governing their activi-
ties. Coaches and athletic
trainers are authorized to use
diathermy and ultrasound in
rehabilitation and treatment
of athletes.

•Information including re-
ports, audits, evaluations and
investigations of nursing and
convalescent homes by the
State Department of Health
is public to the extent it can
be released without identify-
ing individuals or institu-
tions.

homebuilders will have more
mortgage money available
due to a Housing and Urban
Development administrative
act.

Agriculture Commissioner
John C. White said legisla-
tive action is necessary to
continue availability of re-
stricted-use pesticides.

Two reports by the Govern-
or's Special Advisory Coun-
cil on Houston call for crea-
tion of state programs to fi-
nance low-income housing.

Texas received a \$391,201
grant for personnel manage-
ment and training program
for Webb County, Clifton,
Corpus Christi, Baytown, La-
Marque, Deer Park, Green-
ville, Stephenville, Grand
Prairie, Brownsville, Hous-
ton, Dallas, El Paso, Orange,
Groves, San Marcos and
Edinburg.

Farmers and ranchers
have been advised to buy bal-
ing wire now to guard
against shortages during
peak demand periods.

Thoughts

From The Living Bible

"It's like this: when I
was a child I spoke and
thought and reasoned
as a child does. But
when I became a man
my thoughts grew far
beyond those of my
childhood, and now I
have put away the child-
ish things. In the same
way, we can see and
understand only a little
about God now, as if we
were peering at his re-
flection in a poor mir-
ror; but someday we
are going to see him in
his completeness, face
to face.

Two Outposts Set For N.M. Mitchell Jr. Ranch By AMOCO

Amoco Production Co. will drill two long outposts to the Wolfcamp opener and lone producer from that pay in the K-M (Wolfcamp and Ellenburger gas) field of Terrell County, approximately 24 miles southwest of Sheffield.

Both projects are contracted for 10,500 feet depth.

The No. 1-A N.M. Mitchell Jr., four miles west-northwest of the Wolfcamp opener and 1-3/4 mile south of the current lone Ellenburger well, is 2,504 feet from the south and 775 feet from the west lines of Section 58, Block 1 of the CCSD&RGNG Survey.

The No. 1-B N.M. Mitchell Jr., 4-3/4-mile west-northwest of Wolfcamp and one mile south of Ellenburger, is 958 feet from the south and 606 feet from the east lines of Section 2, Block 2 CCSD&RGNG Survey.

The Wolfcamp opener, Coastal States Gas Producing Co. 1 G.K. Mitchell, was finished May 1 for a calculated, absolute open flow of 16,189,000 cubic feet of gas per day, with gas-liquid ration of 33,-260-1, through perforations at 9,185-668 feet.

Alien Address Reports Due

J.B. Bannahan, district director of the Immigration and Naturalization Service in El Paso, reminded this week that the annual alien address report program is again under way.

"Federal law requires all non-citizens in the United States, with a few special exceptions, to report their addresses during the month of January each year." Mr. Bannahan pointed out: "This is true even though the alien's address is unchanged since the last report. Willful failure to comply with this requirement could result in serious consequences," he added.

"It is easy for an alien to comply with these requirements. The forms are relatively easy to fill out: the parent or guardian of an alien child under 14 years of age must fill out the form for the child. The forms with which to report may be obtained from any post office or any office of the Immigration and Naturalization Service. After filling it out, place a postage stamp on the reverse of this form and drop the form in any mail box. A person who is ill may send for a form by a friend or relative who can mail the form after it has been completed by the alien."

"I would like to take this opportunity", Mr. Bannahan said, "to caution aliens, as well as employers, that possession of a social security card by an alien is not evidence of permission from the Immigration and Naturalization Service for the alien to work in the United States. Only those aliens lawfully admitted to the United States for permanent residence (immigrants) and those aliens temporarily in the United States (non-immigrants) who have been authorized by the service to take employment, may work in this country. Aliens working in the United States in violation of law may be subject to certain penalties. Any alien or employer of

barely edged Marathon here Monday night 18-16. The half-time score was 6-4 in favor of Sanderson and the little Eagles led 11-6 at the end of the third period. Abel Marquez led the scoring with 7 points, Craig Cooke had 5, Hector Galvan 4, and Joe Eckert 2. Coach Don Malone also used Malone Mitchell and Bobby Furman in the game. Other members of the squad include Gary Allen, Gib Bell, Xavier Lopez, Julian Martinez, Sandy Silvas, Wade Sumrall, Milby Winn, Rex Holcombe, Kade Kothman, Richard Montalvo, Ty Haynes, Robert Nevarez, Donny Allison, Scott McDonald, Aubby Black, Hector Salazar, Ray Villegas, Joe Daniel, Cody Carruthers, David Arredondo, Charlie Brown.

A Spellbinding Animal Film

"The Wonder Of It All" is a spellbinding film from the people who made "Vanishing of the Wild Animals" on wild animals photographed on every continent of the world.

At the appearance of the natural enemy, a killer shark, charming and droll Antarctic penguins leap from the water as if they were shot fromapults. Exquisitely delicate Japanese cranes performing courting dance in the snow. Bengal tigers chase a bear away from their inquisitive cubs, and the remaining tigers gallop across the American desertlands.

If One Watt Will Do... Why Use Two?

Most of the electrical appliances in your home use much more than one watt, of course. If the job requires more electricity, it's there to use, but use it wisely. Electricity is so easy to waste . . . TV's running while you doze, lights left on in empty rooms, pre-heating ovens too long and in many more ways. Electricity is one of our most versatile resources — it is also one of our most valuable. We must use electricity wisely so there will be plenty for everyone. Remember . . . use what electricity you need . . . but need what you use.
